Item 1.01 Entry Into a Material Definitive Agreement

On February 11, 2016, New Private Restaurant Partners, LLC ("PRP"), a wholly-owned subsidiary of Bloomin' Brands, Inc. (the "Company"), as borrower, and Wells Fargo Bank, National Association, as lender (the "Lender"), entered into a loan agreement (the "Loan Agreement"), pursuant to which PRP borrowed \$300.0 million (the "Loan"). The Loan bears interest, payable monthly, at a variable rate equal to 250 basis points above the seven-day U.S. dollar LIBOR, subject to adjustment in certain circumstances.

The Loan has an initial maturity date of February 11, 2018 (the "Initial Maturity Date"). PRP will have the option to extend the Initial Maturity Date for one twelve-month extension period provided that certain conditions are satisfied, including that, at the Initial Maturity Date, (i) the outstanding Loan balance does not exceed \$110.0 million, (ii) OSI Restaurant Partners, LLC, a wholly-owned subsidiary of the Company, does not exceed a specified maximum leverage ratio and has not experienced a credit rating downgrade below specified levels, and (iii) no default exists under the Loan Agreement.

The Loan is secured by mortgages granted in favor of the Lender on 148 properties owned by PRP (the "Properties"), and PRP has made negative pledges with respect to 98 additional unencumbered properties (the "Unencumbered Properties"). The Properties and the Unencumbered Properties are leased by PRP to another wholly-owned subsidiary of the Company pursuant to the Amended and Restated Master Lease Agreement, dated March 27, 2012 and amended on February 11, 2016 (the "Master Lease").

The Loan Agreement includes provisions that allow the Company to refinance or sell the Properties and the Unencumbered Properties, subject to compliance with certain terms and conditions, including that specified release proceeds are applied against the outstanding Loan balance.

Upon the occurrence and continuation of certain conditions under the Loan Agreement, including if the outstanding Loan balance exceeds \$210.0 million on or after March 1, 2017 or \$160.0 million on or after September 1, 2017, the Lender will have the right to apply rental income received by PRP under the Master Lease against the outstanding Loan balance.

The Loan Agreement also includes customary representations and warranties, restrictions, covenants and events of default (including a default under the Master Lease).

The proceeds of the Loan were used, together with borrowings under the Company's revolving credit facility, to prepay a portion, and fully defease the remainder, of the Company's 2012 commercial mortgage-backed securities loan (the "2012 CMBS Loan"). The total amount of funds necessary to prepay and defease the 2012 CMBS Loan was approximately \$479.0 million. Upon prepayment and full defeasance, the Properties and Unencumbered Properties were released as security for the 2012 CMBS Loan.

The Lender and certain of its affiliates have performed investment banking, commercial lending and advisory services for the Company and its subsidiaries from time to time, for which they have received customary fees and expenses, including in connection with the Company's initial public offering and credit facilities. These parties may, from time to time, engage in transactions with, and perform services for the Company and its subsidiaries in the ordinary course of their business.

Item 2.02 Results of Operations and Financial Condition

On February 17, 2016, the Company issued a press release reporting its financial results for the thirteen weeks ended December 27, 2015. A copy of the release is attached as Exhibit 99.1.

The information contained in Item 2.02 of this report, and the exhibit attached hereto, is being furnished and shall not be deemed "filed" for any purpose, and shall not be deemed incorporated by reference in any document whether or not filed under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, regardless of any general incorporation language in any such document.

Item 2.03 Creation of a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement of a Registrant

The information set forth in Item 1.01 is incorporated herein by reference.

Item 2.05 Costs Associated with Exit or Disposal Activities

On February 12, 2016, the Company decided to close 14 Bonefish restaurants ("Bonefish Restructuring"). The Company expects to substantially complete these restaurant closings through the first quarter of 2019. In connection with the Bonefish Restructuring, the Company reassessed the future undiscounted cash flows of the impacted restaurants, and as a result, the Company recognized pre-tax asset impairments of approximately \$24.2 million during the thirteen weeks and fiscal year ended December 27, 2015.

The Company currently expects to incur additional charges of approximately \$4.5 million to \$7.5 million over the next five years related to the closures. Such costs include lease obligations, employee terminations and other closure related obligations. Total future cash expenditures of \$11.0 million to \$13.5 million, primarily related to lease liabilities, are expected to occur through October 2024.

The amounts and timing of all estimates are subject to a number of assumptions and actual results may differ.

CEO Comments

"Our fourth quarter earnings were in line with expectations and we achieved our earnings objectives for the year," said Liz Smith, CEO. "2015 was highlighted by the strength of our International business and ongoing productivity efforts, which led to 60 basis points of adjusted restaurant margin expansion. We delivered this result in the face of elevated commodities, wage inflation and foreign currency headwinds."

Smith continued, "As we enter 2016, the underlying health of our portfolio remains strong. We are making the necessary investments to enhance our domestic sales performance while executing against our broader portfolio strategies."

Fourth Quarter Financial Results

(dollars in millions)	 Q4 2015	Q4 2014		% Change
Total revenues	\$ 1,049.3	\$	1,108.5	(5.3)%
Adjusted restaurant-level operating margin	16.5%		15.7%	0.8 %
U.S. GAAP restaurant-level operating margin	16.1%		16.3%	(0.2)%
Adjusted operating income margin	6.0%		5.2%	0.8 %
U.S. GAAP operating income margin	3.0%		3.7%	(0.7)%

• The decrease in Total revenues was primarily due to the effect of foreign currency translation, lower comparable restaurant sales and lower revenue due to the sale of Roy's, partially offset by the net benefit of new restaurant openings and closings.

- The increases in Adjusted restaurant-level operating margin and Adjusted operating income margin were primarily due to productivity savings, lower advertising expense and menu pricing. These increases were partially offset by commodity and wage inflation.
- The difference between Adjusted and U.S. GAAP restaurant-level operating margins was due to legal settlement expenses in Q4 2015 and a legal settlement gain in Q4 2014.
- The decrease in U.S. GAAP operating income margin in Q4 2015 was due to lower U.S. GAAP restaurant-level operating margin as described above and costs related to the Bonefish Restructuring, partially offset by the lapping of costs related to the International Restaurant Closure Initiative and impairment costs related to the sale of Roy's.

Adjusted operating income margin	9.4%	10.3%	(0.9)%
U.S. GAAP operating income margin	8.7%	2.4%	6.3 %

- The decrease in Total revenues is primarily due to foreign currency translation and the impact of the International Restaurant Closure Initiative, partially offset by new restaurant openings and higher comparable restaurant sales.
- The increase in Adjusted restaurant-level operating margin was primarily due to higher average unit volumes, menu pricing and productivity savings, partially offset by higher commodity and wage inflation and product mix.
- The decrease in Adjusted operating income margin was primarily due to higher depreciation and amortization and higher investment spending for Abbraccio and China in Q4 2015.
- The increase in U.S. GAAP operating income margin was driven by the lapping of expenses related to our International Restaurant Closure Initiative.
- Foreign currency translation negatively impacted adjusted operating income by \$4.0 million.

Unallocated Corporate Operating Expense

Certain expenses are managed centrally and are not allocated to the U.S. or International segment. In Q4 2015, unallocated expenses at the restaurant operating level were \$6.7 million lower than Q4 2014 primarily due to lower incentive compensation expense.

Dividend Declaration and Share Repurchases

The Company's Board of Directors declared a quarterly cash dividend of \$0.07 per share to be paid on March 10, 2016 to all stockholders of record as of the close of business on February 29, 2016.

During Q4 2015, the Company repurchased \$10.0 million of outstanding stock under our share repurchase program, which left \$30.0 million remaining under our 2015 authorization. On February 12, 2016, the Company's Board of Directors canceled the remaining 2015 authorization and approved a new \$250.0 million authorization. The authorization will expire on August 12, 2017.

Bonefish Restructuring

The Company is announcing today its intention to close 14 locations as part of the Bonefish Restructuring. We expect the majority of these restaurants to close in 2016. In connection with these closures, the Company incurred pre-tax asset impairments of approximately \$24.2 million during the thirteen weeks ended December 27, 2015. These charges are excluded from our adjusted results.

CMBS Refinancing

- On February 11, 2016, the Company closed a \$300.0 million bridge loan. We used the proceeds from the bridge loan and cash drawdowns from our revolving credit facility to facilitate an extinguishment of the 2012 CMBS Loan. In connection with the extinguishment, the Company anticipates recognizing a loss of \$26.0 million to \$29.0 million during the first quarter of 2016. These charges will be excluded from our adjusted results.
- The Company expects to generate annual interest savings of approximately \$12.0 million from this transaction. These savings are included in our 2016 adjusted diluted earnings per share growth guidance presented below.

Non-GAAP Measures

In addition to the results provided in accordance with U.S. GAAP, this press release and related tables include certain non-GAAP measures, which present operating results on an adjusted basis. These are supplemental measures of performance that are not required by or presented in accordance with U.S. GAAP and include the following: (i) Adjusted restaurant-level operating margin, (ii) Adjusted income from operations and the corresponding margin, (iii) Adjusted net income, (iv) Adjusted diluted earnings per share, (v) Adjusted segment restaurant-level operating margin and (vii) constant currency.

Although we believe these non-GAAP measures enhance investors' understanding of our business and performance, these non-GAAP financial measures are not intended to replace U.S. GAAP financial measures. These metrics are not necessarily comparable to similarly titled measures used by other companies. The use of non-GAAP financial measures permits investors to assess the operating performance of our business relative to our performance based on U.S. GAAP results and relative to other companies within the restaurant industry by isolating the effects of certain items that vary from period to period without correlation to core operating performance or that vary widely among similar companies. However, our inclusion of these adjusted measures should not be construed as an indication that our future results will be unaffected by unusual or infrequent items or that the items for which we have made adjustments are unusual or infrequent. We believe that the disclosure of these non-GAAP measures is useful to investors as they form the basis for how our management team and Board of Directors evaluate our operating performance, allocate resources and establish employee incentive plans.

For reconciliations of the non-GAAP measures used in this release, refer to tables four, five, six, seven and eight included later in this release.

(1) Excludes restricted cash.

(2) The Company has, and in the future may continue to have, negative working capital balances (as is common for many restaurant companies). The Company operates successfully with negative working capital because cash collected on Restaurant sales is typically received before payment is due on its current liabilities and its inventory turnover rates require relatively low investment in inventories. Additionally, ongoing cash flows from restaurant operations and gift card sales are used to service debt obligations and to make capital expenditures.

(3) The Company adopted ASU No. 2015-17, with prospective application, resulting in the classification of deferred tax assets and liabilities as noncurrent in the Consolidated Balance Sheet as of December 27, 2015.

(1)Represents expenses incurred for the Bonefish Restructuring and the International and Domestic Restaurant Closure Initiatives.

Relates to a payroll tax audit contingency adjustment, for the employer's share of FICA taxes related to cash tips allegedly received and unreported by our employees (2)during calendar years 2011 and 2012, which is recorded in Labor and other related expenses. In addition, a deferred income tax adjustment has been recorded for the allowable income tax credits for the employer's share of FICA taxes expected to be paid, which is included in Provision (benefit) for income taxes and offsets the adjustment to Labor and other related expenses. As a result, there is no impact to Net income from this adjustment. See footnote 11 to this table.

(3) Represents non-cash intangible amortization recorded as a result of the acquisition of our Brazil operations.

(4) Represents asset impairment charges and accelerated depreciation incurred in connection with our relocation and remodel programs.

Represents asset impairment charges and related costs associated with our decision to sell the Roy's concept and corporate aircraft. (5)

Fees and expenses related to certain legal and contingent matters, including the Cardoza litigation, in fiscal year 2015. During fiscal year 2014, we recognized a gain on a (7)legal settlement.

(8) Relates to severance expense incurred as a result of our organizational realignment.

Primarily represents loss on the sale of: (i) our Roy's business in fiscal 2015 and (ii) one Company-owned Outback Steakhouse location in Mexico in fiscal 2014. (9)

(10)Relates to the refinancing of our Senior Secured Credit Facility in December 2015, March 2015 and May 2014. (11) Income tax effect of adjustments for fiscal year 2015 and 2014, respectively, are calculated based on the statutory rate applicable to jurisdictions in which the above non-GAAP adjustments relate. Additionally, for fiscal year 2015, a deferred income tax adjustment has been recorded for the allowable income tax credits for the employer's share of FICA taxes expected to be paid.
