Bloomin' Brands Announces 2026 Q2 Financial Results Q2 Diluted EPS of \$0.37 and Q2 Adjusted Diluted EPS of \$0.39 Raises Full-Year Diluted and Adjusted Diluted EPS Guidance

TAMPA, Fla., August 5, 2026 - Bloomin' Brands, Inc. (Nasdaq: BLMN) today reported results for the second quarter 2026 ("Q2 2026") compared to the second quarter 2025 ("Q2 2025").

CEO Comments

"I am pleased with our financial results in the second quarter and our continued progress on the Outback Turnaround, which has led us to raise our full year earnings guidance," said Mike Spanos, CEO. "We remain focused on consistency of execution across food, service, experience, and affordability to deliver a great guest experience."

Diluted EPS and Adjusted Diluted EPS

The following table reconciles Diluted earnings per share from continuing operations to Adjusted diluted earnings per share from continuing operations for the periods indicated (unaudited):

	Q2		CHANGE
	2026	2025	
Diluted earnings per share:	\$ 0.37	\$ 0.29	\$ 0.08
Adjustments (1)	0.02	0.03	(0.01)
Adjusted diluted earnings per share (1)	<u>\$ 0.39</u>	<u>\$ 0.32</u>	<u>\$ 0.07</u>

(1) Adjustments for Q2 2026 and Q2 2025 primarily relate to costs in connection with transformational and restructuring initiatives. Q2 2025 also includes costs associated with the foreign currency forward contracts. See non-GAAP Measures later in this release. Also see Tables Five and Six for further details regarding the nature of diluted earnings per share adjustments for the periods presented.

Second Quarter Financial Results

(dollars in millions, unaudited)	Q2 2026	Q2 2025	CHANGE
Total revenues	\$ 1,015.8	\$ 1,002.4	1.3 %
GAAP operating income margin	3.8 %	3.0 %	0.8 %
Adjusted operating income margin (1)	4.0 %	3.5 %	0.5 %
Restaurant-level operating margin (1)	12.4 %	12.0 %	0.4 %

(1) See non-GAAP Measures later in this release. Also see Tables Four and Five for details regarding the nature of restaurant-level operating margin and operating income margin adjustments, respectively.

- The increase in Total revenues was primarily due to higher comparable restaurant sales partially offset by the net impact of restaurant closures and openings.
- GAAP operating income margin increased from Q2 2025 primarily due to an increase in restaurant-level operating margin, as detailed below, and lower costs in connection with transformational and restructuring initiatives. These impacts were partially offset by higher impairment and closing costs.

- Restaurant-level operating margin increased from Q2 2025 primarily due to: (i) higher average check per person, primarily due to pricing, (ii) productivity initiatives and (iii) lower pre-opening costs and health insurance expense. These impacts were partially offset by higher commodity, labor and operating costs, mainly due to inflation, and higher advertising expense.
- Adjusted operating income margin primarily excludes: (i) accelerated depreciation in Q2 2026 associated with equipment upgrades in connection with the turnaround strategy, (ii) Q2 2025 severance and other costs incurred as a result of transformational and restructuring initiatives and (iii) Q2 2025 costs associated with foreign currency forward contracts.

Non-GAAP Measures

In addition to the results provided in accordance with GAAP, this press release and related tables include certain non-GAAP measures, which present operating results on an adjusted basis. These are supplemental measures of performance that are not required by or presented in accordance with GAAP and include: (i) Restaurant-level operating income and the corresponding margin, (ii) Adjusted income from operations and the corresponding margin, (iii) Adjusted segment income from operations and the corresponding margin, (iv) Adjusted net income and (v) Adjusted diluted earnings per share.

Restaurant-level operating margin is a non-GAAP financial measure widely regarded in the industry as a useful metric to evaluate restaurant-level operating efficiency and performance of ongoing restaurant-level operations, and we use it for these purposes.

We believe that our use of non-GAAP financial measures permits investors to assess the operating performance of our business relative to our performance based on GAAP results and relative to other companies within the restaurant industry by isolating the effects of certain items that may vary from period to period without correlation to core operating performance or that vary widely among similar companies. However, our inclusion of these adjusted measures should not be construed as an indication that our future results will be unaffected by unusual or infrequent items or that the items for which we have made adjustments are unusual or infrequent or will not recur. We believe that the disclosure of these non-GAAP measures is useful to investors as they form part of the basis for how our management team and Board of Directors evaluate our operating performance, allocate resources and administer employee incentive plans.

These non-GAAP financial measures are not intended to replace GAAP financial measures, and they are not necessarily standardized or comparable to similarly titled measures used by other companies. We maintain internal guidelines with respect to the types of adjustments we include in our non-GAAP measures. These guidelines endeavor to differentiate between types of gains and expenses that are reflective of our core operations in a period, and those that may vary from period to period without correlation to our core performance in that period. However, implementation of these guidelines necessarily involves the application of judgment, and the treatment of any items not directly addressed by, or changes to, our guidelines will be considered by our disclosure committee. You should refer to the reconciliations of non-GAAP measures in Tables Four, Five and Six included later in this release for descriptions of the actual adjustments made in the current period and the corresponding prior period.

Forward-Looking Statements

Certain statements contained herein, including statements under the headings “CEO Comments”, “Fiscal 2026 Financial Outlook” and “Q3 2026 Financial Outlook” are not based on historical fact and are “forward-looking statements” within the meaning of applicable securities laws. Generally, these statements can be identified by the use of words such as “guidance,” “believes,” “estimates,” “anticipates,” “expects,” “on track,” “feels,” “forecasts,” “seeks,” “projects,” “intends,” “plans,” “may,” “will,” “should,” “could,” “would” and similar expressions intended to identify forward-looking statements, although not all forward-looking statements contain these identifying words. These forward-looking statements include all matters that are not historical facts. By their nature, forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from the Company’s forward-looking statements. These risks and uncertainties include, but are not limited to: our ability to execute and achieve the expected benefits of our actions to focus on operational priorities, including our turnaround plans and cost-saving initiatives to fund such plans; consumer reaction to public health and food safety issues; increases in labor costs and fluctuations in the availability of employees and our ability to attract, train, and retain key personnel; increases in unemployment rates and taxes; competition; interruption or breach of our systems or loss of consumer or employee information; price and availability of commodities and other impacts of inflation and tariffs; our dependence on a limited number of suppliers and distributors; political, social and legal conditions in international markets and their effects on foreign operations and foreign currency exchange rates; the impacts of our operations in Brazil as a minority investor and franchisor; our ability to address corporate citizenship and sustainability matters and investor expectations; local, regional, national and international economic conditions; changes in patterns of consumer traffic, consumer tastes and dietary habits; the effects of changes in tax laws; costs, diversion of

management attention and reputational damage from any claims or litigation; government actions and policies, including the impact of U.S. government shutdowns; challenges associated with our remodeling, relocation and expansion plans; our ability to preserve the value of and grow our brands, including due to our limited control with respect to and the challenges facing the operations of our franchisees; consumer confidence and spending patterns; the effects of a health pandemic, weather, acts of God and other disasters and the ability or success in executing related business continuity plans; the Company's ability to make debt payments and planned investments and the Company's compliance with debt covenants; the cost and availability of credit; interest rate changes; and any impairments in the carrying value of goodwill and other assets. Further information on potential factors that could affect the financial results of the Company and its forward-looking statements is included in its most recent Form 10-K and subsequent filings with the Securities and Exchange Commission. The Company assumes no obligation to update any forward-looking statement, except as may be required by law. These forward-looking statements speak only as of the date of this release. All forward-looking statements are qualified in their entirety by this cautionary statement.

Note: Numerical figures included in this release have been subject to rounding adjustments.

Total stockholders' equity	\$ 435,068	\$ 337,165

(1) We have, and in the future may continue to have, negative working capital balances (as is common for many restaurant companies). We operate successfully with negative working capital because cash collected on restaurant sales is typically received before payment is due on our current liabilities, and our inventory turnover rates require relatively low investment in inventories. Additionally, ongoing cash flows from restaurant operations and gift card sales are typically used to service debt obligations and to make capital expenditures.

Restaurant-level operating margin	12.4 %	12.0 %	13.2 %	12.9 %

- (1) The following categories of revenue and operating expenses are not included in restaurant-level operating income and the corresponding margin because we do not consider them reflective of operating performance at the restaurant-level within a period:
- (a) Franchise and other revenues, which are earned primarily from franchise royalties and other non-food and beverage revenue streams, such as rental and sublease income.
 - (b) Depreciation and amortization, which, although substantially all of which is related to restaurant-level assets, represent historical sunk costs rather than cash outlays for the restaurants.
 - (c) General and administrative expense, which includes primarily non-restaurant-level costs associated with support of the restaurants and other activities at our corporate office.
 - (d) Asset impairment charges and restaurant closing costs.
