Our Company

We are one of the largest casual dining restaurant companies in the world, with a portfolio of leading, differentiated restaurant concepts. We own and operate 1,248 restaurants and have 195 restaurants operating under franchise or joint venture arrangements across 49 states and 21 countries and territories. We have five founder-inspired concepts: Outback Steakhouse, Carrabba's Italian Grill, Bonefish Grill, Fleming's Prime Steakhouse and Wine Bar and Roy's. Outback Steakhouse holds the #1 U.S. market position, and Carrabba's and Bonefish Grill hold the #2 U.S. market position, in their respective full-service restaurant categories. Fleming's is the fourth largest fine dining steakhouse brand in the U.S. In 2010, we launched a new strategic plan and operating model leveraging best practices from the consumer products and retail industries to complement our restaurant acumen and enhance our brand competitiveness. This new model keeps the customer at the center of our decision-making and focuses on continuous innovation and productivity to drive sustainable sales and profit growth. We have significantly strengthened our management team and implemented initiatives to accelerate innovation, improve analytics and increase productivity. We have made these changes while preserving our entrepreneurial culture at the operating level. Our restaurant managing partners are a key element of this culture, each of whom shares in the cash flows of his or her restaurant after making a required initial cash investment.

We believe our new strategic plan and operating model have driven our recent market share gains and improved margins while providing a solid foundation for continuing sales and profit growth. In 2011, we had $3.8 billion of revenue, $100.0 million of net income and $361.5 million of Adjusted EBITDA. In the U.S., each of our four core concepts generated positive comparable restaurant sales over the last seven consecutive quarters, and in 2010 and 2011, our combined comparable restaurant sales at our core concepts grew 2.7% and 4.9%, respectively. Additionally, over the last two years, Outback Steakhouse, Carrabba's and Bonefish Grill have significantly outperformed the Knapp-Track Casual Dining Index on traffic growth by 8.5%, 11.2% and 20.2%, respectively. Over the three years ended December 31, 2011, our net income increased from a net loss of $64.5 million to net income of $100.0 million, and Adjusted EBITDA increased from $319.9 million to $361.5 million. Over the same period, our Adjusted EBITDA margins grew from 8.9% to 9.4%.

Our concepts provide a compelling customer experience combining great food, highly attentive service and lively and contemporary ambience at attractive prices. Each of our concepts maintains a unique, founder-inspired brand identity and entrepreneurial culture, while leveraging our scale and enhanced operating model. Below is an overview of our four core concepts:

A casual dining steakhouse featuring high quality, freshly prepared food, attentive service and Australian décor at a compelling value. As of December 31, 2011, we owned and operated 669 restaurants and franchised 106 restaurants across 49 states, and we owned and operated 111 restaurants, franchised 47 restaurants and operated 34 restaurants through a joint venture across 21 countries and territories. Outback Steakhouse holds the #1 market position in the U.S. in the full-service steak restaurant category based on 2011 sales. In 2010, Outback Steakhouse also held the #1 position in Brazil in the full-service restaurant sector and in South Korea among western full-service restaurant concepts. The average check per person at our domestic Outback Steakhouse restaurants was approximately $20 in 2011.

An authentic Italian casual dining restaurant featuring high quality handcrafted dishes, an exhibition kitchen and warm Italian hospitality. As of December 31, 2011, we owned and operated 231 restaurants and had one franchised restaurant across 32 states. Carrabba's holds the #2 market position in the full-service Italian restaurant category based on 2011 sales in the U.S. The average check per person at Carrabba's was approximately $21 in 2011.

A polished casual seafood restaurant featuring market fresh grilled fish, high-end yet approachable service and a lively bar. Bonefish Grill's bar provides an energetic setting for drinks, dining and socializing with a popular bar menu featuring a large selection of specialty cocktails, wine and beer. As of December 31, 2011, we owned and operated 151 restaurants and franchised seven restaurants across 28 states. Bonefish Grill holds the #2 market position in the U.S. full-service seafood restaurant category based on 2011 sales. Bonefish Grill ranked "Top Overall" across all full-service restaurant chains according to Zagat's in 2010 and 2011 and was ranked #1 for all casual dining chains according to Nation's Restaurant News in 2011. The average check per person at Bonefish Grill was approximately $23 in 2011.

An upscale, contemporary prime steakhouse for food and wine lovers seeking a stylish, lively and memorable dining experience. Fleming's features a large selection of wines, including 100 quality wines available by the glass. As of December 31, 2011, we owned and operated 64 restaurants across 28 states. Fleming's is the fourth largest fine dining steakhouse brand in the U.S based on 2011 sales. The average check per person at Fleming's was approximately $68 in 2011.

Recent Evolution of Our Business

In November 2009, we hired Elizabeth A. Smith as Chief Executive Officer. Ms. Smith brought close to 20 years of consumer products experience, including five years as a senior executive at Avon Products, Inc. and 14 years at Kraft Foods Inc. Under Ms. Smith's leadership, we launched our new strategic plan and operating model. The key initiatives we implemented as part of this plan and model, many of which are ongoing, are summarized below:

- *Enhanced Our Brand / Concept Competitiveness.* Based on extensive consumer research, we have undertaken the following initiatives to enhance our brand relevance and competitiveness:
  - Evolved our menus by supplementing our classic items with a greater variety of lighter dishes and lower priced items, such as small plates and handhelds, and enhanced bar and happy hour offerings to broaden appeal, improve our value perception and increase traffic.
  - Shifted our marketing strategy away from principally using brand awareness messages to traffic generating messages focused on quality, value and limited-time offers.
  - Initiated a remodel program focused on Outback Steakhouse and Carrabba's to refresh the restaurant base, through which we have remodeled one-third of our domestic Outback Steakhouse restaurants to date; we are testing remodel designs at Carrabba's.
  - Refocused our service to improve execution on aspects of the dining experience that matter most to our customers as indicated through ongoing customer surveys.

- *Strengthened Management Team and Organizational Capabilities*. We added senior executives with experience from leading consumer products and retail companies and added resources in key functional support areas to build an organization that maintains deep restaurant industry expertise at the operating level, coupled with a functional corporate support team that drives innovation, productivity and scale efficiencies.

- *Accelerated Innovation*. We strengthened our innovation capability by increasing our resources focused on a collaborative process to develop, test and roll out new menu, service and marketing initiatives, allowing us to introduce these initiatives faster than we have in the past.

- *Improved Analytics and Information Flow*. In order to provide our management team with improved visibility regarding consumer trends and a better basis for making product, pricing and marketing decisions, we instituted an enterprise-wide, analytical approach that relies on extensive consumer research and feedback, product testing and data analysis.

- *Increased Productivity and Generated Significant Cost Savings*. In 2008, we began to focus on increased productivity by leveraging our scale and corporate support infrastructure. From 2008 through 2011, we implemented productivity and cost management initiatives that we estimate allowed us to save over $200 million in the aggregate, while improving our customer ratings on quality and service.

- *Invested in Information Technology Infrastructure.* In 2010, we launched a multi-year upgrade of our technology infrastructure to support our analytical focus and growth opportunities.

Competitive Strengths

We believe the following competitive strengths, when combined with our strategic plan and operating model, provide a platform to deliver sustainable sales and profit growth:

Strong Market Position With Highly Recognizable Brands. We have market leadership positions in each of our core concepts domestically, as well as in our core international markets. Based on 2011 sales in the U.S., Outback Steakhouse ranked #1 in the full-service steak restaurant category, Carrabba's ranked #2 in the full-service Italian restaurant category, Bonefish Grill ranked #2 in the full-service seafood restaurant category and Fleming's is the fourth largest fine dining steakhouse brand. In 2010 Outback Steakhouse ranked #1 in market share in Brazil among full-service restaurants and in South Korea among western full-service restaurant concepts. We believe our market leadership positions and scale will allow us to continue to gain market share in the fragmented restaurant industry.

Compelling 360-Degree Customer Experience. We offer a compelling 360-degree customer experience with superior value by providing great food, highly attentive service and lively and contemporary ambience at attractive prices. We believe our customer experience and value perception are differentiating factors that drive strong customer loyalty.

- *Great Food.* We deliver consistently executed, freshly prepared meals using high quality ingredients. Our customers have validated our food quality at several of our concepts through recent recognition in Zagat's surveys.

- *Highly Attentive Service.* We seek to deliver superior service to each customer at every opportunity. We offer customers prompt, friendly and efficient service, keep wait staff-to-table ratios high and staff each restaurant with experienced managing partners to ensure consistent and attentive customer service.

- *Lively and Contemporary Ambience.* Each of our restaurant concepts offers a distinct, energetic atmosphere. We are committed to maintaining a contemporary look and feel at each of our concepts that is consistent with its individual brand positioning.

- *Attractive Prices*. Since 2009, we have enhanced the value we offer our customers through menu and promotional innovation, rather than aggressive discounting. At each of our concepts, we have increased the mix of lower priced menu items to broaden appeal and increase traffic. We have also expanded our limited-time offers of menu specials in order to offer price points that deliver superior value to customers while maintaining attractive margins.

Diversified Portfolio With Global Presence. Our diversified portfolio of distinct concepts and global presence provide us with a broad growth platform to capture additional market share domestically and internationally. We are diversified by concept, category and geography as follows:

- *By Concept and Category*. We believe our concepts are differentiated relative to each other by category and to their respective key competitors. Our core concepts target three separate large and highly fragmented menu categories of the full-service restaurant sector: steak ($13.6 billion in 2010 sales), Italian ($14.8 billion in 2010 sales) and seafood ($8.3 billion in 2010 sales). Outback Steakhouse, Carrabba's and Bonefish Grill target the casual dining price category, and Fleming's targets the fine dining category.

- *By Geography*. The system-wide sales of our international Outback Steakhouse restaurants represent 15% of our total system-wide sales. A majority of our international restaurants are company-owned or operated through a joint venture, and we believe this differentiates us relative to our casual dining peers, which primarily operate through franchises internationally. Our restaurants are located across 49 states and 21 countries and territories around the world.

Business Model Focused on Continuous Innovation and Productivity. Our business model keeps the customer at the center of our decision-making and focuses on innovation and productivity to drive sustainable sales and profit growth. We reinvest a portion of productivity savings in innovation to enable us to respond to continuously evolving consumer trends.

- *Innovation.* We have established an enterprise-wide innovation process to enhance every dimension of the customer experience. Cross-functional innovation teams collaborate across research and development, or R&D, purchasing, operations, marketing, finance and market intelligence to manage a pipeline of new menu, service and marketing ideas.

- *Productivity.* Without compromising the customer experience, we continuously explore opportunities to increase productivity and reduce costs. Our cost-savings allow us to reinvest in innovation initiatives, enhance our strong value proposition and increase margins. We have a dedicated team that coordinates all productivity initiatives and actively manages a pipeline of ideas from testing through implementation.

Experienced Executive and Field Management Teams. Our organization maintains deep restaurant experience at the operating level coupled with a functional corporate support team that drives innovation, productivity and scale efficiencies. Our management team is led by our Chairman and Chief Executive Officer, Elizabeth A. Smith, and since she joined us in November 2009, we have further enhanced our senior leadership team by adding executives from best-in-class consumer and retail companies. Our senior team possesses strong brand management and innovation expertise, which facilitates our focus on analytics and customer testing. This complements our field operating and management teams, who have deep experience operating our restaurants and in the restaurant industry. Our core concept presidents have been with us for an average of 20 years and have an average of 30 years of industry experience. Our regional field management team has an average of over 13 years of experience working with us at the managing partner level or above.

Our Growth Strategy

We believe there are significant opportunities to continue to drive sustainable sales and profit growth through the following three strategies:

Grow Comparable Restaurant Sales. Building on the strong momentum of the business, we believe we have the following opportunities to continue to grow comparable restaurant sales:

- *Remodel Our Restaurants.* In the near term, we are focused on continuing our successful remodel program at Outback Steakhouse and applying this knowledge as we implement a similar program to update our Carrabba's restaurants. For Outback Steakhouse, we plan to complete 160 remodels in 2012 and a cumulative total of approximately 450 remodels by the end of 2013.

- *Continue to Improve Promotional Marketing to Drive Traffic.* We plan to continue to improve our limited-time offers and multimedia marketing campaigns. By promoting continuously evolving, high quality and affordable menu items, we seek to drive traffic and maintain brand relevance without sacrificing margins.

- *Expand Share of Occasions and Increase Frequency.* We believe we have a strong market share of weekend dinner occasions and a significant opportunity to grow our share of other dining occasions across all concepts. We realized meaningful traffic gains in 2011 through our Sunday lunch expansion at Outback Steakhouse, and in 2012, we are planning to roll out Saturday lunch at most of our Outback Steakhouse locations. We are also evaluating the selective expansion of weekday lunch in markets where demographics support doing so.

- *Continue Innovating New Menu Items and Categories.* Our R&D team will continue to introduce innovative menu items that match evolving consumer preferences and broaden appeal.

Pursue New Domestic and International Development With Strong Unit Level Economics. We believe that a substantial development opportunity remains for our concepts in the U.S. and internationally. We expect to open 30 company-owned and five joint venture units in 2012 and increase the pace of development thereafter.

- *Pursue Domestic Development Focused on Bonefish Grill and Carrabba'* s. We believe we have the potential to double the Bonefish Grill concept over time. Bonefish Grill unit growth will be our top domestic development priority in 2012, with 20 or more new restaurants planned. Over the last five years, Bonefish Grill restaurants open for more than a year have averaged a pre-tax return on initial investment of greater than 20%. We also see significant opportunities to expand Carrabba's. We are developing an updated restaurant design for Carrabba's, and we plan to test this model in ten to 15 units over the next two years. Based on the results of this test, we plan to accelerate new unit development.

- *Accelerate International Growth Focused on Outback Steakhouse.* We believe we are well-positioned to expand internationally beyond our 192 restaurants located across 21 countries and territories. In 2012, we plan to open six or more company-owned or joint venture units in existing markets. Our international units have produced attractive returns with an average pre-tax return on initial investment above 30%. In 2011, the system-wide sales of our international Outback Steakhouse restaurants represented 15% of our total system-wide sales. We believe the international business represents a significant growth opportunity. We will approach growth in a disciplined manner, focusing on existing markets such as South Korea, Brazil and Hong Kong, while expanding in strategically selected emerging and high growth developed markets. In the near term, we plan to focus our new market growth in China, Mexico and South America. We plan to utilize company-owned and joint venture arrangements rather than franchises in markets with the most potential for unit growth.

Drive Margin Improvement. We believe that we have the opportunity to increase our margins through continued productivity and increased fixed-cost leverage as we grow comparable restaurant sales. We have developed a multi-year productivity plan that focuses on high value initiatives across four categories: labor, food cost, supply chain and restaurant facilities. This strategy is expected to yield productivity and cost savings of approximately $50 million in 2012 and additional savings in future years.

Risk Factors

Before you invest in our common stock, you should carefully consider all of the information in this prospectus, including matters set forth under the heading "Risk Factors." Risks relating to our business include the following, among others:

- we face significant competition for customers, real estate and employees that could affect our profit margins;

Our History

Our predecessor, OSI Restaurant Partners, Inc., was incorporated in August 1987, and we opened our first Outback Steakhouse restaurant in 1988. We became a Delaware corporation in 1991 as part of a corporate reorganization completed in connection with our initial public offering.

Bloomin Brands, Inc., formerly known as Kangaroo Holdings, Inc., was incorporated in Delaware in October 2006 by an investor group comprised of funds advised by Bain Capital Partners, LLC, Catterton Management Company, LLC, and Chris T. Sullivan, Robert D. Basham and J. Timothy Gannon, who we collectively refer to as our Founders, and members of our management. On June 14, 2007, we acquired OSI Restaurant Partners, Inc. by means of a merger and related transactions, referred to in this prospectus as the Merger. At the time of the Merger, OSI Restaurant Partners, Inc. was converted into a Delaware limited liability company named OSI Restaurant Partners, LLC, or OSI. In connection with the Merger, we implemented a new ownership and financing arrangement for our owned restaurant properties, pursuant to which Private Restaurant Properties, LLC, or PRP, our indirect wholly-owned subsidiary, acquired 343 restaurant properties then owned by OSI and leased them back to subsidiaries of OSI. In March 2012, we refinanced the commercial mortgage-backed securities loan that we entered into in 2007 in connection with the Merger with a new $500.0 million commercial mortgage-backed loan. See Note 20 of our Notes to Consolidated Financial Statements. Following the refinancing, OSI remains our primary operating entity and New Private Restaurant Properties, LLC, another indirect wholly-owned subsidiary of ours, continues to lease 261 of our owned restaurant properties to OSI subsidiaries.

SUMMARY CONSOLIDATED FINANCIAL AND OTHER DATA

The following table sets forth our summary consolidated financial and other data as of the dates and for the periods indicated. The summary consolidated financial data as of December 31, 2010 and December 31, 2011 and for each of the three years in the period ended December 31, 2011 presented in this table have been derived from the audited consolidated financial statements included elsewhere in this prospectus. The summary consolidated balance sheet data as of December 31, 2009 have been derived from our historical unaudited consolidated financial statements for that year, which are not included in this prospectus. The total number of system-wide restaurants in the following table is unaudited for all periods presented. Historical results are not necessarily indicative of the results to be expected for future periods.

This summary consolidated financial and other data should be read in conjunction with the disclosures set forth under "Capitalization," "Management's Discussion and Analysis of Financial Condition and Results of Operations" and "Unaudited Pro Forma Consolidated Financial Statements" and the consolidated financial statements and the related notes thereto appearing elsewhere in this prospectus.

(1) Includes management fees and out-of-pocket and other reimbursable expenses paid to a management company owned by our Sponsors and Founders of $10.7 million, $11.6 million and $9.4 million for the years ended December 31, 2009, 2010 and 2011, respectively, under a management agreement that will terminate upon the completion of this offering. See "Related Party Transactions—Arrangements With Our Investors."

(2) In November 2011, we received a settlement payment from T-Bird Nevada, LLC (together with its affiliates, "T-Bird"), a limited liability company affiliated with our California franchisees of Outback Steakhouse restaurants, in connection with a settlement agreement that satisfied all outstanding litigation with T-Bird.

(3) During 2009, our Provision for impaired assets and restaurant closings primarily included: (i) $46.0 million of impairment charges to reduce the carrying value of the assets of Cheeseburger in Paradise to their estimated fair market value due to our sale of the concept in the third quarter of 2009, (ii) $47.6 million of impairment charges and restaurant closing expense for certain of our other restaurants and (iii) $36.0 million of impairment charges for the domestic Outback Steakhouse and Carrabba's Italian Grill trade names.

(4) In March 2009, we repurchased $240.1 million of our outstanding Senior Notes for $73.0 million. This resulted in a gain on extinguishment of debt, after the pro rata reduction of unamortized deferred financing fees and other related costs, of $158.1 million in 2009.

(5) Basic and diluted net income (loss) per share are calculated on net income (loss) attributable to Bloomin' Brands, Inc.

(6) Represents combined comparable restaurant sales of our domestic company-owned restaurants open 18 months or more.

(7) EBITDA (earnings before interest, taxes, depreciation and amortization), Adjusted EBITDA (calculated by adjusting EBITDA to exclude stock-based compensation expense, certain non–cash expenses and other significant, unusual items) and Adjusted EBITDA margin (Adjusted EBITDA as a percentage of total revenues) are supplemental measures of profitability that are not required by or presented in accordance with generally accepted accounting principles in the United States ("U.S. GAAP"). They are not measurements of our financial performance under U.S. GAAP and should not be considered as alternatives to our Net income (loss) or any other performance measures derived in accordance with U.S. GAAP.

Adjusted EBITDA is presented because: (i) we believe it is a useful measure for investors to assess the operating performance of our business without the effect of non-cash charges such as depreciation and amortization expenses and asset impairment expenses and (ii) we use Adjusted EBITDA internally as a benchmark for certain of our cash incentive plans and to evaluate our operating performance or compare our performance to that of our competitors. The use of Adjusted EBITDA as a performance measure permits a comparative assessment of our operating performance relative to our performance based on our GAAP results, while isolating the effects of some items that vary from period to period without any correlation to core operating performance or that vary widely among similar companies. Companies within our industry exhibit significant variations with respect to capital structures and cost of capital (which affect interest expense and income tax rates) and differences in book depreciation of property, plant and equipment (which affect relative depreciation expense), including significant differences in the depreciable lives of similar assets among various companies. Our management believes that Adjusted EBITDA facilitates company-to-company comparisons within our industry by eliminating some of these foregoing variations. Adjusted EBITDA as presented may not be comparable to other similarly-titled measures of other companies, and our presentation of Adjusted EBITDA should not be construed as an inference that our future results will be unaffected by excluded or unusual items.

Our management recognizes that Adjusted EBITDA has limitations as an analytical financial measure, including the following:

- Adjusted EBITDA does not reflect our capital expenditures or future requirements for capital expenditures;
- Adjusted EBITDA does not reflect the cost of stock-based compensation;
- Adjusted EBITDA does not reflect the interest expense, or the cash requirements necessary to service interest or principal payments, associated with our indebtedness;
- Adjusted EBITDA does not reflect depreciation and amortization, which are non-cash charges, although the assets being depreciated and amortized will likely have to be replaced in the future, and it does not reflect cash requirements for such replacements; and
- Adjusted EBITDA does not reflect changes in, or cash requirements for, our working capital needs.

A reconciliation of EBITDA and Adjusted EBITDA to Net income (loss) attributable to Bloomin' Brands, Inc. is provided below:

(a) Deal-related expenses incurred in 2011 primarily include costs associated with the sale of our restaurants in Japan and the sale of properties in the Sale-Leaseback Transaction.

(b) In March 2009, we recorded a loss related to our guarantee of an uncollateralized line of credit that permits borrowing of up to a maximum of $24.5 million for our joint venture partner in Roy's. We recorded this loss based on our determination that our performance under the guarantee was probable. See note (2) above.

(8) As a result of our current liability for unearned revenue from the sale of gift cards, we have a working capital deficit.

(9) On June 14, 2007, PRP entered into a commercial mortgage-backed securities loan (the "CMBS Loan") totaling $790.0 million, which had a maturity date of June 9, 2012. Effective March 27, 2012, New Private Restaurant Properties, LLC and two of our other indirect wholly-owned subsidiaries (collectively, "New PRP") entered into a new commercial mortgage-backed securities loan (the "2012 CMBS Loan") totaling $500.0 million and used the proceeds, together with the proceeds of a sale-leaseback transaction completed on March 14, 2012 and existing cash, to repay the CMBS Loan. The 2012 CMBS Loan and the repayment of the CMBS Loan are collectively referred to as the "CMBS Refinancing." The 2012 CMBS Loan is a five-year loan maturing on April 10, 2017. See "Description of Indebtedness" and Note 20 of our Notes to Consolidated Financial Statements. As a result of the CMBS Refinancing, the net amount repaid along with scheduled maturities within one year, $281.3 million, was classified as current at December 31, 2011.

(10) The unaudited pro forma consolidated balance sheet data at December 31, 2011 gives effect to (a) the 2012 CMBS Loan and repayment of the original CMBS Loan and the sale-leaseback transaction completed on March 14, 2012 in which we sold 67 restaurant properties to two third-party real estate institutional investors then simultaneously leased them back under nine master leases (the "Sale-Leaseback Transaction") and (b) the issuance of common stock in this offering and the application of the net proceeds to repay our Senior Notes and the termination of the management agreement with our Sponsors and our Founders in connection with this offering, as if each had occurred on December 31, 2011. See "Unaudited Pro Forma Consolidated Financial Statements."

RISK FACTORS

An investment in our common stock involves various risks. You should carefully consider the following risks and all of the other information contained in this prospectus before investing in our common stock. The risks described below are those that we believe are the material risks that we face. The trading price of our common stock could decline due to any of these risks, and you may lose all or part of your investment in our common stock.

Risks Related to Our Business and Industry

We face significant competition for customers, real estate and employees and competitive pressure to adapt to changes in conditions driving customer traffic. Our inability to compete effectively may affect our traffic, sales and profit margins, which could adversely affect our business, financial condition and results of operations.

The restaurant industry is intensely competitive with a substantial number of restaurant operators that compete directly and indirectly with us in respect to price, service, location and food quality, and there are other well-established competitors with significant financial and other resources. There is also active competition for management personnel as well as attractive suitable real estate sites. Consumer tastes, nutritional and dietary trends, traffic patterns and the type, number and location of competing restaurants often affect the restaurant business, and our competitors may react more efficiently and effectively to those conditions. Further, we face growing competition from the supermarket industry, with the improvement of their "convenient meals" in the deli section, and from quick service and fast casual restaurants, as a result of higher-quality food and beverage offerings by those restaurants. If we are unable to continue to compete effectively, our traffic, sales and margins could decline and our business, financial condition and results of operations would be adversely affected.

Challenging economic conditions may have a negative effect on our cash flows through lower consumer confidence and discretionary spending, availability and cost of credit, foreign currency exchange rates and other items.

Challenging economic conditions may negatively impact consumer confidence and discretionary spending and thus cause a decline in our cash flow from operations. For example, during the economic downturn starting in 2008, continuing disruptions in the overall economy, including the ongoing impacts of the housing crisis, high unemployment, and financial market volatility and unpredictability, caused a related reduction in consumer confidence, which negatively affected customer traffic and sales throughout our industry. These factors, as well as national, regional and local regulatory and economic conditions, gasoline prices, disposable consumer income and consumer confidence, affect discretionary consumer spending. If challenging economic conditions persist for an extended period of time or worsen, consumers might make long-lasting changes to their discretionary spending behavior, including dining out less frequently. The ability of the U.S. economy to continue to recover from these challenging economic conditions is likely to be affected by many national and international factors that are beyond our control, including current economic trends in Europe. Continued weakness in or a further worsening of the economy, generally or in a number of our markets, and our customers' reactions to these trends could adversely affect our business and cause us to, among other things, reduce the number and frequency of new restaurant openings, close restaurants or delay remodeling of our existing restaurant locations.

In addition, as noted in our other risk factors, our high degree of leverage could increase our vulnerability to general economic and industry conditions and require that a substantial portion of cash flow from operations be dedicated to the payment of principal and interest on our indebtedness. Further, the availability of credit already arranged for under our revolving credit facilities and the cost and availability of future credit may be adversely impacted by economic challenges. Foreign currency exchange rates for the countries in which we operate may decline. In addition, we may experience interruptions in supplies and other services from our third-party vendors as a result of market conditions. These disruptions in the economy are beyond our control, and there is no guarantee that any government response will restore consumer confidence, stabilize the economy or increase the availability of credit.

Loss of key management personnel could hurt our business and inhibit our ability to operate and grow successfully.

Our success will continue to depend, to a significant extent, on our leadership team and other key management personnel. If we are unable to attract and retain sufficiently experienced and capable management personnel, our business and financial results may suffer. If members of our leadership team or other key management personnel leave, we may have difficulty replacing them, and our business may suffer. There can be no assurance that we will be able to successfully attract and retain our leadership team and other key management personnel that we need.

We could face labor shortages that could slow our growth and adversely impact our ability to operate our restaurants.

Our success depends in part upon our ability to attract, motivate and retain a sufficient number of qualified employees, including managing partners, restaurant managers, kitchen staff and servers, necessary to keep pace with our anticipated expansion schedule and meet the needs of our existing restaurants. A sufficient number of qualified individuals of the requisite caliber to fill these positions may be in short supply in some communities. Competition in these communities for qualified staff could require us to pay higher wages and provide greater benefits. Any inability to recruit and retain qualified individuals may also delay the planned openings of new restaurants and could adversely impact our existing restaurants. Any such inability to retain or recruit qualified employees, increased costs of attracting qualified employees or delays in restaurant openings could adversely affect our business and results of operations.

Risks associated with our expansion plans may have adverse effects on our ability to increase revenues.

As part of our business strategy, we intend to continue to expand our current portfolio of restaurants. Current development schedules call for the construction of approximately 30 or more new restaurants in 2012. A variety of factors could cause the actual results and outcome of those expansion plans to differ from the anticipated results, including among other things:

- the availability of attractive sites for new restaurants and the ability to obtain appropriate real estate at those sites at acceptable prices;
- the ability to obtain all required governmental permits, including zoning approvals and liquor licenses, on a timely basis;
- the impact of moratoriums or approval processes of state, local or foreign governments, which could result in significant delays;
- the ability to obtain all necessary contractors and sub-contractors;
- union activities such as picketing and hand billing, which could delay construction;
- the ability to negotiate suitable lease terms;
- the ability to recruit and train skilled management and restaurant employees;
- the ability to receive the premises from the landlord’s developer without any delays; and
- weather, natural disasters and disasters beyond our control resulting in construction delays.

Some of our new restaurants may take several months to reach planned operating levels due to lack of market awareness, start-up costs and other factors typically associated with new restaurants. There is also the possibility that new restaurants may attract customers away from other restaurants we own, thereby reducing the revenues of those existing restaurants.

Development rates for each concept may differ significantly. The development of each concept may not be as successful as our experience in the past. It is difficult to estimate the performance of newly opened restaurants. Earnings achieved to date by restaurants open for less than two years may not be indicative of future operating results. Should enough of these new restaurants not meet targeted performance, it could have a material adverse effect on our operating results.

Our business is subject to seasonal fluctuations and past results are not indicative of future results.

Historically, customer spending patterns for our established restaurants are generally highest in the first quarter of the year and lowest in the third quarter of the year. Additionally, holidays may affect sales volumes seasonally in some of the markets in which we operate. Our quarterly results have been and will continue to be affected by the timing of new restaurant openings and their associated pre-opening costs, as well as restaurant closures and exit-related costs and impairments of goodwill, intangible assets and property, fixtures and equipment. As a result of these and other factors, our financial results for any quarter may not be indicative of the results that may be achieved for a full fiscal year.

Significant adverse weather conditions and other disasters could negatively impact our results of operations.

Adverse weather conditions and natural disasters, such as regional winter storms, floods, major hurricanes and earthquakes, severe thunderstorms and other disasters, such as oil spills, could negatively impact our results of operations. Temporary and prolonged restaurant closures may occur and customer traffic may decline due to the actual or perceived effects from these events.

We may be required to use cash to pay one of our franchisees in connection with a put right under a settlement agreement, which could have an adverse impact on our development plans and operating results.

In connection with the settlement of litigation with T-Bird, which include the franchisees of 56 Outback Steakhouse restaurants in California, we entered into an agreement with T-Bird pursuant to which T-Bird has the right, referred to as the Put Right, to require us to purchase for cash all of the equity interests in the T-Bird entities that own Outback Steakhouse restaurants. The Put Right will become exercisable by T-Bird for a one-year period beginning on the date of closing of this offering. The Put Right is also exercisable if we sell our Outback Steakhouse concept. If the Put Right is exercised, we will pay a purchase price equal to a multiple of the T-Bird entities' adjusted EBITDA, net of liabilities, for the trailing 12 months as of the closing of the purchase from T-Bird. The multiple will be equal to 75% of the multiple of our adjusted EBITDA for the same trailing 12-month period as reflected in our stock price in the case of this offering or, in a sale of our Outback Steakhouse concept, 75% of the multiple of adjusted EBITDA that we are receiving in the sale. We have a one-time right to reject the exercise of the Put Right if the transaction would be dilutive to our consolidated earnings per share. In that event, the Put Right is extended until the first anniversary of our notice to the T-Bird entities of that rejection. We have agreed to waive all rights of first refusal in our franchise arrangements with the T-Bird entities in connection with a sale of all, and not less than all, of the assets, or at least 75% of the ownership, of the T-Bird entities. If the Put Right is exercised, we will have to use cash to pay the purchase price that could have been allocated to more profitable development initiatives or other business needs, and we will then own restaurants that may not fit our current expansion criteria. This could have an adverse impact on our operating results.

We have limited control with respect to the operations of our franchisees and joint venture partners, which could have a negative impact on our business.

Our franchisees and joint venture partners are obligated to operate their restaurants according to the specific guidelines we set forth. We provide training opportunities to these franchisees and joint venture partners to fully integrate them into our operating strategy. However, since we do not have control over these restaurants,

we cannot give assurance that there will not be differences in product quality or that there will be adherence to all of our guidelines at these restaurants. The failure of these restaurants to operate effectively could adversely affect our cash flows from those operations or have a negative impact on our reputation or our business.

Our failure to comply with government regulation, and the costs of compliance or non-compliance, could adversely affect our business.

We are subject to various federal, state, local and foreign laws affecting our business. Each of our restaurants is subject to licensing and regulation by a number of governmental authorities, which may include, among others, alcoholic beverage control, health and safety, nutritional menu labeling, health care, environmental and fire agencies in the state, municipality or country in which the restaurant is located. Difficulty in obtaining or failing to obtain the required licenses or approvals could delay or prevent the development of a new restaurant in a particular area. Additionally, difficulties or inabilities to retain or renew licenses, or increased compliance costs due to changed regulations, could adversely affect operations at existing restaurants.

Approximately 15% of our consolidated restaurant sales are attributable to the sale of alcoholic beverages. Alcoholic beverage control regulations require each of our restaurants to apply to a state authority and, in certain locations, county or municipal authorities for a license or permit to sell alcoholic beverages on the premises and to provide service for extended hours and on Sundays. Typically, licenses must be renewed annually and may be revoked or suspended for cause at any time. Alcoholic beverage control regulations relate to numerous aspects of daily operations of our restaurants, including minimum age of patrons and employees, hours of operation, advertising, training, wholesale purchasing, inventory control and handling and storage and dispensing of alcoholic beverages. The failure of a restaurant to obtain or retain liquor or food service licenses would adversely affect the restaurant's operations. Additionally, we are subject in certain states to "dramshop" statutes, which generally provide a person injured by an intoxicated person the right to recover damages from an establishment that wrongfully served alcoholic beverages to the intoxicated person.

Our restaurant operations are also subject to federal and state labor laws, including the Fair Labor Standards Act, governing such matters as minimum wages, overtime, tip credits and worker conditions. Our employees who receive tips as part of their compensation, such as servers, are paid at a minimum wage rate, after giving effect to applicable tip credits. We rely on our employees to accurately disclose the full amount of their tip income, and we base our FICA tax reporting on the disclosures provided to us by such tipped employees. Our other personnel, such as our kitchen staff, are typically paid in excess of minimum wage. As significant numbers of our food service and preparation personnel are paid at rates related to the applicable minimum wage, further increases in the minimum wage or other changes in these laws could increase our labor costs. Our ability to respond to minimum wage increases by increasing menu prices will depend on the responses of our competitors and customers. Further, we are continuing to assess the impact of federal health care legislation on our health care benefit costs. The imposition of any requirement that we provide health insurance benefits to employees that are more extensive than the health insurance benefits we currently provide, or the imposition of additional employer paid employment taxes on income earned by our employees, could have an adverse effect on our results of operations and financial position. Our distributors and suppliers also may be affected by higher minimum wage and benefit standards, which could result in higher costs for goods and services supplied to us.

The Patient Protection and Affordability Act of 2010 (the "PPACA") enacted in March 2010 requires chain restaurants with 20 or more locations in the United States to comply with federal nutritional disclosure requirements. The FDA has indicated that it intends to issue final regulations by the middle of 2012 and begin enforcing the regulations by the end of 2012. A number of states, counties and cities have also enacted menu labeling laws requiring multi-unit restaurant operators to disclose certain nutritional information to customers, or have enacted legislation restricting the use of certain types of ingredients in restaurants. Although the federal legislation is intended to preempt conflicting state or local laws on nutrition labeling, until we are required to comply with the federal law we will be subject to a patchwork of state and local laws and regulations regarding nutritional content disclosure requirements. Many of these requirements are inconsistent or are interpreted

differently from one jurisdiction to another. The effect of such labeling requirements on consumer choices, if any, is unclear at this time.

There is also a potential for increased regulation of food in the United States under the recent changes in the HACCP system requirements. HACCP refers to a management system in which food safety is addressed through the analysis and control of potential hazards from production, procurement and handling, to manufacturing, distribution and consumption of the finished product. Many states have required restaurants to develop and implement HACCP Systems and the United States government continues to expand the sectors of the food industry that must adopt and implement HACCP programs. For example, the Food Safety Modernization Act (the "FSMA"), signed into law in January 2011, granted the FDA new authority regarding the safety of the entire food system, including through increased inspections and mandatory food recalls. Although restaurants are specifically exempted from or not directly implicated by some of these new requirements, we anticipate that the new requirements may impact our industry. Additionally, our suppliers may initiate or otherwise be subject to food recalls that may impact the availability of certain products, result in adverse publicity or require us to take actions that could be costly for us or otherwise harm our business.

We are subject to the Americans with Disabilities Act, or the ADA, which, among other things, requires our restaurants to meet federally mandated requirements for the disabled. The ADA prohibits discrimination in employment and public accommodations on the basis of disability. Under the ADA, we could be required to expend funds to modify our restaurants to provide service to, or make reasonable accommodations for the employment of, disabled persons. In addition, our employment practices are subject to the requirements of the Immigration and Naturalization Service relating to citizenship and residency. Government regulations could affect and change the items we procure for resale such as commodities. We may also become subject to legislation or regulation seeking to tax or regulate high fat and high sodium foods, particularly in the United States, which could be costly to comply with. Our results can be impacted by tax legislation and regulation in the jurisdictions in which we operate and by accounting standards or pronouncements.

We are also subject to laws and regulations relating to information security, privacy, cashless payments, gift cards and consumer credit, protection and fraud, and any failure or perceived failure to comply with these laws and regulations could harm our reputation or lead to litigation, which could adversely affect our financial condition.

We face a variety of risks associated with doing business in foreign markets that could have a negative impact on our financial performance.

We have a significant number of franchised, joint venture and company-owned Outback Steakhouse restaurants outside the United States, and we intend to continue our efforts to grow internationally. Although we believe we have developed the support structure for international operations and growth, there is no assurance that international operations will be profitable or international growth will continue.

Our foreign operations are subject to all of the same risks as our domestic restaurants, as well as additional risks including, among others, international economic and political conditions and the possibility of instability and unrest, differing cultures and consumer preferences, diverse government regulations and tax systems, the ability to source high quality ingredients and other commodities in a cost-effective manner, uncertain or differing interpretations of rights and obligations in connection with international franchise agreements and the collection of ongoing royalties from international franchisees, the availability and cost of land and construction costs, and the availability of experienced management, appropriate franchisees and area operating partners.

Currency regulations and fluctuations in exchange rates could also affect our performance. We have direct investments in restaurants in South Korea, Hong Kong and Brazil, as well as international franchises, in a total of 21 countries and territories. As a result, we may experience losses from foreign currency translation, and such losses could adversely affect our overall sales and earnings.

We are subject to governmental regulation throughout the world, including antitrust and tax requirements, anti-boycott regulations, import/export/customs regulations and other international trade regulations, the USA Patriot Act and the Foreign Corrupt Practices Act. Any new regulatory or trade initiatives could impact our operations in certain countries. Failure to comply with any such legal requirements could subject us to monetary liabilities and other sanctions, which could harm our business, results of operations and financial condition.

Increased commodity, energy and other costs could decrease our profit margins or cause us to limit or otherwise modify our menus, which could adversely affect our business.

The performance of our restaurants depends on our ability to anticipate and react to changes in the price and availability of food commodities, including among other things beef, chicken, seafood, butter, cheese and produce. Prices may be affected due to market changes, increased competition, the general risk of inflation, shortages or interruptions in supply due to weather, disease or other conditions beyond our control, or other reasons. Increased prices or shortages could affect the cost and quality of the items we buy or require us to limit our menu options. These events, combined with other more general economic and demographic conditions, could impact our pricing and negatively affect our profit margins.

The performance of our restaurants is also adversely affected by increases in the price of utilities, such as natural gas, whether as a result of inflation, shortages or interruptions in supply, or otherwise. We use derivative instruments to mitigate some of our overall exposure to material increases in natural gas prices. We do not apply hedge accounting to these instruments, and any changes in the fair value of the derivative instruments are marked-to-market through earnings in the period of change. To date, effects of these derivative instruments have been immaterial to our financial statements for all periods presented.

Our business also incurs significant costs for insurance, labor, marketing, taxes, real estate, borrowing and litigation, all of which could increase due to inflation, changes in laws, competition or other events beyond our control.

Our ability to respond to increased costs by increasing menu prices or by implementing alternative processes or products will depend on our ability to anticipate and react to such increases and other more general economic and demographic conditions, as well as the responses of our competitors and customers. All of these things may be difficult to predict and beyond our control. In this manner, increased costs could adversely affect our performance.

Infringement of our intellectual property could diminish the value of our restaurant concepts and harm our business.

We regard our service marks, including “Outback Steakhouse,” “Carrabba’s Italian Grill,” “Bonefish Grill” and “Fleming’s Prime Steakhouse and Wine Bar,” and our “Bloomin’ Onion” trademark as having significant value and as being important factors in the marketing of our restaurants. We have also obtained trademarks for several of our other menu items and for various advertising slogans. In addition, the overall layout, appearance and designs of our restaurants are valuable assets. We believe that these and other intellectual property are valuable assets that are critical to our success. We rely on a combination of protections provided by contracts, copyrights, patents, trademarks, and other common law rights, such as trade secret and unfair competition laws, to protect our restaurants and services from infringement. We have registered certain trademarks and service marks and have other registration applications pending in the United States and foreign jurisdictions. However, not all of the trademarks or service marks that we currently use have been registered in all of the countries in which we do business, and they may never be registered in all of these countries. There may not be adequate protection for certain intellectual property such as the overall appearance of our restaurants. We are aware of names and marks similar to our service marks being used by other persons in certain geographic areas in which we have restaurants. Although we believe such uses will not adversely affect us, further or currently unknown unauthorized uses or other misappropriation of our trademarks or service marks could diminish the value of our brands and restaurant concepts and may adversely affect our business. We may be unable to detect such unauthorized use of, or take appropriate steps to enforce, our intellectual property rights.

Effective intellectual property protection may not be available in every country in which we have or intend to open or franchise a restaurant. Failure to adequately protect our intellectual property rights could damage or even destroy our brands and impair our ability to compete effectively. Even where we have effectively secured statutory protection for intellectual property, our competitors may misappropriate our intellectual property and our employees, consultants and suppliers may breach their obligations not to reveal our confidential information, including trade secrets. Although we have taken appropriate measures to protect our intellectual property, there can be no assurance that these protections will be adequate or that our competitors will not independently develop products or concepts that are substantially similar to our restaurants and services. Despite our efforts, it may be possible for third-parties to reverse-engineer, otherwise obtain, copy, and use information that we regard as proprietary. Furthermore, defending or enforcing our trademark rights, branding practices and other intellectual property, and seeking injunctions against and/or compensation for misappropriation of confidential information, could result in the expenditure of significant resources.

Restaurant companies, including ours, have been the target of class action lawsuits and other proceedings alleging, among other things, violations of federal and state workplace and employment laws. Proceedings of this nature are costly, divert management attention and, if successful, could result in our payment of substantial damages or settlement costs.

Our business is subject to the risk of litigation by employees, consumers, suppliers, shareholders or others through private actions, class actions, administrative proceedings, regulatory actions or other litigation. The outcome of litigation, particularly class action and regulatory actions, is difficult to assess or quantify. In recent years, we and other restaurant companies have been subject to lawsuits, including class action lawsuits, alleging violations of federal and state laws regarding workplace and employment matters, discrimination and similar matters. A number of these lawsuits have resulted in the payment of substantial damages by the defendants. Similar lawsuits have been instituted from time to time alleging violations of various federal and state wage and hour laws regarding, among other things, employee meal deductions, the sharing of tips among certain employees, overtime eligibility of assistant managers and failure to pay for all hours worked. If we are required to pay substantial damages and expenses as a result of these or other types of lawsuits our business and results of operations would be adversely affected.

Occasionally, our customers file complaints or lawsuits against us alleging that we are responsible for some illness or injury they suffered at or after a visit to one of our restaurants, including actions seeking damages resulting from food borne illness and relating to notices with respect to chemicals contained in food products required under state law. We are also subject to a variety of other claims from third parties arising in the ordinary course of our business, including personal injury claims, contract claims and claims alleging violations of federal and state laws. In addition, our restaurants are subject to state “dram shop” or similar laws which generally allow a person to sue us if that person was injured by a legally intoxicated person who was wrongfully served alcoholic beverages at one of our restaurants. The restaurant industry has also been subject to a growing number of claims that the menus and actions of restaurant chains have led to the obesity of certain of their customers. We may also be subject to lawsuits from our employees, the U.S. Equal Employment Opportunity Commission or others alleging violations of federal and state laws regarding workplace and employment matters, discrimination and similar matters. For example, in December 2009, we entered into a Consent Decree in settlement of certain litigation brought by the U.S. Equal Employment Opportunity Commission, which required us to make a settlement payment of $19.0 million. In addition, during the four-year term of the Consent Decree, we are required to fulfill certain training, record-keeping and reporting requirements, maintain an open access system for restaurant employees to express interest in promotions, and employ a human resources executive. If we fail to comply with the terms of the Consent Decree, it could have adverse consequences on our business.

Regardless of whether any claims against us are valid or whether we are liable, claims may be expensive to defend and may divert time and money away from our operations. In addition, they may generate negative publicity, which could reduce customer traffic and sales. Although we maintain what we believe to be adequate levels of insurance, insurance may not be available at all or in sufficient amounts to cover any liabilities with respect to these or other matters. A judgment or other liability in excess of our insurance coverage for any claims or any adverse publicity resulting from claims could adversely affect our business and results of operations.

Our insurance policies may not provide adequate levels of coverage against all claims, and fluctuating insurance requirements and costs could negatively impact our profitability.

We are self-insured, or carry insurance programs with specific retention levels or deductibles, for a significant portion of our risks and associated liabilities with respect to workers' compensation, general liability, liquor liability, employment practices liability, property, health benefits and other insurable risks. However, there are types of losses we may incur that cannot be insured against or that we believe are not commercially reasonable to insure. These losses, if they occur, could have a material and adverse effect on our business and results of operations. Additionally, health insurance costs in general have risen significantly over the past few years and are expected to continue to increase. These increases could have a negative impact on our profitability, and there can be no assurance that we will be able to successfully offset the effect of such increases with plan modifications and cost control measures, additional operating efficiencies or the pass-through of such increased costs to our customers or employees.

Conflict or terrorism could negatively affect our business.

We cannot predict the effects of actual or threatened armed conflicts or terrorist attacks, efforts to combat terrorism, military action against any foreign state or group located in a foreign state or heightened security requirements on local, regional, national, or international economies or consumer confidence. Such events could negatively affect our business, including by reducing customer traffic or the availability of commodities.

If our advertising and marketing programs are unsuccessful in maintaining or driving increased customer traffic or are ineffective in comparison to those of our competitors, our results of operations could be adversely affected.

We conduct ongoing promotion-based brand awareness advertising campaigns and customer loyalty programs. If these programs are not successful or conflict with evolving customer preferences, we may not increase or maintain our customer traffic and will incur expenses without the benefit of higher revenues. In addition, if our competitors increase their spending on marketing and advertising programs, or develop more effective campaigns, this could have a negative effect on our brand relevance, customer traffic and results of operations.

Unfavorable publicity could harm our business by reducing demand for our concepts or specific menu offerings.

Our business could be negatively affected by publicity resulting from complaints or litigation, either against us or other restaurant companies, alleging poor food quality, food-borne illness, personal injury, adverse health effects (including obesity) or other concerns. Regardless of the validity of any such allegations, unfavorable publicity relating to any number of restaurants or even a single restaurant could adversely affect public perception of the entire brand.

Additionally, unfavorable publicity towards a food product generally could negatively impact our business. For example, publicity regarding health concerns or outbreaks of disease in a food product could reduce demand for our menu offerings. These factors could have a material adverse effect on our business.

Consumer reaction to public health issues, such as an outbreak of flu viruses or other diseases, could have an adverse effect on our business.

Our business could be harmed if the United States or other countries in which we operate experience an outbreak of flu viruses or other diseases. If a virus is transmitted by human contact, our employees or customers could become infected or could choose or be advised to avoid gathering in public places. This could adversely affect our restaurant traffic, our ability to adequately staff our restaurants, our ability to receive deliveries on a timely basis or our ability to perform functions at the corporate level. Our business could also be negatively affected if mandatory closures, voluntary closures or restrictions on operations are imposed in the jurisdictions in which we operate. Even if such measures are not implemented and a virus or other disease does not spread significantly, the perceived risk of infection or significant health risk may have a material adverse effect on our business.

Food safety and food-borne illness concerns throughout the supply chain may have an adverse effect on our business by reducing demand and increasing costs.

Food safety issues could be caused by food suppliers or distributors and, as a result, be out of our control. In addition, regardless of the source or cause, any report of food-borne illnesses and other food safety issues including food tampering or contamination at one of our restaurants could adversely affect the reputation of our brands and have a negative impact on our sales. Even instances of food-borne illness, food tampering or food contamination occurring solely at restaurants of our competitors could result in negative publicity about the food service industry generally and adversely impact our sales. The occurrence of food-borne illnesses or food safety issues could also adversely affect the price and availability of affected ingredients, resulting in higher costs and lower margins.

The food service industry is affected by consumer preferences and perceptions. Changes in these preferences and perceptions may lessen the demand for our products, which would reduce sales and harm our business.

Food service businesses are affected by changes in consumer tastes and demographic trends. For instance, if prevailing health or dietary preferences cause consumers to avoid steak and other products we offer in favor of foods that are perceived as more healthy, our business and operating results would be harmed.

We have a limited number of suppliers for our major products. If our suppliers are unable to fulfill their obligations under their contracts, we could encounter supply shortages and incur higher costs.

We have a limited number of suppliers for our major products, such as beef. In 2011, we purchased more than 90% of our beef raw materials from four beef suppliers who represent approximately 75% of the total beef marketplace in the U.S. Due to the nature of our industry, we expect to continue to purchase a substantial amount of our beef from a small number of suppliers. Although we have not experienced significant problems with our suppliers, if our suppliers are unable to fulfill their obligations under their contracts, we could encounter supply shortages and incur higher costs.

Shortages or interruptions in the supply or delivery of fresh food products could adversely affect our operating results.

We are dependent on frequent deliveries of fresh food products that meet our specifications. Shortages or interruptions in the supply of fresh food products caused by unanticipated demand, problems in production or distribution, inclement weather or other conditions could adversely affect the availability, quality and cost of ingredients, which would adversely affect our operating results.

We outsource certain accounting processes to a third-party vendor, which subjects us to many unforeseen risks that could disrupt our business, increase our costs and negatively impact our internal control processes.

In early 2011, we began to outsource certain accounting processes to a third-party vendor. The third-party vendor may not be able to handle the volume of activity or perform the quality of service that we have currently achieved at a cost-effective rate, which could adversely affect our business. The decision to outsource was made based on cost savings initiatives; however, we may not achieve these savings because of unidentified intangible costs and legal and regulatory matters, which could adversely affect our results of operations or financial condition. In addition, the transition of certain business processes to outsourcing could negatively impact our internal control processes.

We rely heavily on information technology in our operations and any material failure, weakness, interruption or breach of security could prevent us from effectively operating our business.

We rely heavily on information systems across our operations, including for point-of-sale processing in our restaurants, management of our supply chain, payment of obligations, collection of cash, data warehousing to support analytics and other various processes and procedures. Our ability to efficiently and effectively manage our business depends significantly on the reliability and capacity of these systems. The failure of these systems to operate effectively, maintenance problems, upgrading or transitioning to new platforms, or a breach in security of these systems could result delays in customer service and reduce efficiency in our operations. Remediation of such problems could result in significant unplanned capital investments.

Security breaches of confidential customer information in connection with our electronic processing of credit and debit card transactions may adversely affect our business.

The majority of our restaurant sales are by credit or debit cards. Other restaurants and retailers have experienced security breaches in which credit and debit card information of their customers has been stolen. We may in the future become subject to lawsuits or other proceedings for purportedly fraudulent transactions arising out of the actual or alleged theft of our customers' credit or debit card information. Any such claim or proceeding, or any adverse publicity resulting from these allegations, may have a material adverse effect on our business.

An impairment in the carrying value of our goodwill or other intangible assets could adversely affect our financial condition and results of operations.

We test goodwill for impairment in the second quarter of each fiscal year and whenever events or changes in circumstances indicate that impairment may have occurred. A significant amount of judgment is involved in determining if an indication of impairment exists. Factors may include, among others:

- a significant decline in our expected future cash flows;
- a significant adverse change in legal factors or in the business climate;
- unanticipated competition;
- the testing for recoverability of a significant asset group within a reporting unit; and
- slower growth rates.

Any adverse change in these factors would have a significant impact on the recoverability of these assets and negatively affect our financial condition and results of operations. We compare the carrying value of a reporting unit, including goodwill, to the fair value of the reporting unit. Carrying value is based on the assets and liabilities associated with the operations of that reporting unit. If the carrying value is less than the fair value, no impairment exists. If the carrying value is higher than the fair value, there is an indication of impairment and a second step is required to measure a goodwill impairment loss, if any. We are required to record a non-cash impairment charge if the testing performed indicates that goodwill has been impaired.

We evaluate our other intangible assets, primarily the Outback Steakhouse (domestic and international), Carrabba's Italian Grill, Bonefish Grill, Fleming's Prime Steakhouse and Wine Bar and Roy's trademarks or trade names, to determine if they are definite or indefinite-lived. Reaching a determination on useful life requires significant judgments and assumptions regarding the future effects of obsolescence, demand, competition, other economic factors (such as the stability of the industry, legislative action that results in an uncertain or changing regulatory environment, and expected changes in distribution channels), the level of required maintenance expenditures, and the expected lives of other related groups of assets.

As with goodwill, we test our indefinite-lived intangible assets for impairment in the second quarter of each fiscal year and whenever events or changes in circumstances indicate that their carrying value may not be recoverable. We estimate the fair value of these indefinite-lived intangible assets based on an income valuation model using the relief from royalty method, which requires assumptions related to projected revenues from our annual long-range plan, assumed royalty rates that could be payable if we did not own the assets and a discount rate.

During the years ended December 31, 2011 and 2010, we did not record any goodwill or material intangible asset impairment charges. During the year ended December 31, 2009, we recorded goodwill and intangible asset impairment charges of $58.1 million and $43.7 million, respectively. We cannot accurately predict the amount and timing of any impairment of assets. Should the value of goodwill or other intangible assets become further impaired, there could be an adverse effect on our financial condition and results of operations.

Changes to estimates related to our property, fixtures and equipment and definite-lived intangible assets or operating results that are lower than our current estimates at certain restaurant locations may cause us to incur impairment charges on certain long-lived assets, which may adversely affect our results of operations.

In accordance with accounting guidance as it relates to the impairment of long-lived assets, we make certain estimates and projections with regard to individual restaurant operations, as well as our overall performance, in connection with our impairment analyses for long-lived assets. When impairment triggers are deemed to exist for any location, the estimated undiscounted future cash flows are compared to its carrying value. If the carrying value exceeds the undiscounted cash flows, an impairment charge equal to the difference between the carrying value and the sum of the discounted cash flows is recorded. The projections of future cash flows used in these analyses require the use of judgment and a number of estimates and projections of future operating results. If actual results differ from our estimates, additional charges for asset impairments may be required in the future. If impairment charges are significant, our results of operations could be adversely affected.

The possibility of future misstatement exists due to inherent limitations in our control systems, which could adversely affect our business.

We cannot be certain that our internal control over financial reporting and disclosure controls and procedures will prevent all possible error and fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Because of inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of error or fraud, if any, in our company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake, which could have an adverse impact on our business.

Our reported financial results may be adversely affected by changes in accounting principles applicable to us.

Generally accepted accounting principles in the U.S. are subject to interpretation by the Financial Accounting Standards Board, or FASB, the American Institute of Certified Public Accountants, the SEC and various bodies formed to promulgate and interpret appropriate accounting principles. A change in these principles or interpretations could have a significant effect on our reported financial results, and could affect the reporting of transactions completed before the announcement of a change, such as standards relating to leasing. In addition, the SEC has announced a multi-year plan that could ultimately lead to the use of International Financial Reporting Standards by U.S. issuers in their SEC filings. Any such change could have a significant effect on our reported financial results.

We are a holding company and rely on dividends, distributions and other payments, advances and transfers of funds from our subsidiaries to fund our operations, which could prevent us from meeting our obligations.

We have no direct operations and derive all of our cash flow from our subsidiaries. Because we conduct our operations through our subsidiaries, we depend on those entities for dividends and other payments or distributions to fund our operations. The deterioration of the earnings from, or other available assets of, our subsidiaries for any reason could limit or impair their ability to pay dividends or other distributions to us.

Risks Related to Our Indebtedness

Our substantial leverage could adversely affect our ability to raise additional capital to fund our operations, limit our ability to react to changes in the economy or our industry and expose us to interest rate risk in connection with our variable-rate debt.

We are highly leveraged. As of December 31, 2011, our total indebtedness was approximately $2.1 billion. See "Description of Indebtedness." As of December 31, 2011, we also had approximately $82.4 million in available unused borrowing capacity under our working capital revolving credit facility (after giving effect to undrawn letters of credit of approximately $67.6 million) and $67.0 million in available unused borrowing capacity under our pre-funded revolving credit facility that provides financing for capital expenditures only.

Our high degree of leverage could have important consequences, including:

- making it more difficult for us to make payments on indebtedness;
- increasing our vulnerability to general economic, industry and competitive conditions;
- increasing our cost of borrowing;
- requiring a substantial portion of cash flow from operations to be dedicated to the payment of principal and interest on our indebtedness, thereby reducing our ability to use our cash flow to fund our operations, capital expenditures and future business opportunities;
- exposing us to the risk of increased interest rates because certain of our borrowings under our senior secured credit facilities and commercial mortgage-backed securities loans are at variable rates of interest;
- restricting us from making strategic acquisitions or causing us to make non-strategic divestitures;
- limiting our ability to obtain additional financing for working capital, capital expenditures, restaurant development, debt service requirements, acquisitions and general corporate or other purposes; and
- limiting our ability to adjust to changing market conditions and placing us at a competitive disadvantage compared to our competitors who may not be as highly leveraged.

We may incur substantial additional indebtedness in the future, subject to the restrictions contained in our senior secured credit facilities, the 2012 CMBS Loan and the indenture governing our Senior Notes. If new indebtedness is added to our current debt levels, the related risks that we now face could increase.

Approximately $1.0 billion of debt outstanding under our senior secured credit facilities and approximately $49.0 million of our 2012 CMBS Loan bears interest based on a floating rate index. An increase in these floating rates could cause a material increase in our interest expense.

Our debt agreements contain restrictions that limit our flexibility in operating our business.

We are a holding company and conduct our operations through our subsidiaries, certain of which have incurred their own indebtedness. Our subsidiaries' debt agreements contain various covenants that limit our ability to obtain funds from our subsidiaries through dividends, loans or advances. In addition, certain of our debt agreements limit our and our subsidiaries' ability to, among other things, incur or guarantee additional indebtedness, pay dividends on, redeem or repurchase our capital stock, make certain acquisitions or investments, incur or permit to exist certain liens, enter into transactions with affiliates or sell our assets to, merge or consolidate with or into, another company. Our debt agreements require us to satisfy certain financial tests and ratios and limit our ability to make capital expenditures. Our ability to satisfy such tests and ratios may be affected by events outside of our control.

Upon a breach of the covenants under our debt agreements, the lenders could elect to declare all amounts outstanding under the agreements to be immediately due and payable and terminate all commitments to extend further credit. If we are unable to repay those amounts, the lenders under the senior secured credit facilities and the 2012 CMBS Loan could proceed against the collateral granted to them to secure that indebtedness. We have pledged a significant portion of our assets as collateral under the senior secured credit facilities and the 2012 CMBS Loan. If the lenders under the senior secured credit facilities and the 2012 CMBS Loan accelerate the repayment of borrowings, we cannot be certain that we will have sufficient assets to repay them and our unsecured indebtedness.

We may not be able to generate sufficient cash to service all of our indebtedness and operating lease obligations, and we may be forced to take other actions to satisfy our obligations under our indebtedness and operating lease obligations, which may not be successful. If we fail to meet these obligations, we would be in default under our debt agreements and the lenders could elect to declare all amounts outstanding under them to be immediately due and payable and terminate all commitments to extend further credit.

Our ability to make scheduled payments on or to refinance our debt obligations and to satisfy our operating lease obligations depends on our financial condition and operating performance, which is subject to prevailing economic and competitive conditions and to certain financial, business and other factors beyond our control. We cannot be certain that we will maintain a level of cash flow from operating activities sufficient to permit us to pay the principal, premium, if any, and interest on our indebtedness, or to pay our operating lease obligations. If our cash flow and capital resources are insufficient to fund our debt service obligations and operating lease obligations, we may be forced to reduce or delay capital expenditures, sell assets, seek additional capital or restructure or refinance our indebtedness. These alternative measures may not be successful and may not permit us to meet our scheduled debt service obligations. In the absence of sufficient operating results and resources, we could face substantial liquidity problems and might be required to dispose of material assets or operations or take other actions to meet our debt service and other obligations. Our debt agreements restrict our ability to dispose of assets and use the proceeds from the disposition. We may not be able to consummate those dispositions or to obtain the proceeds that we could otherwise realize from such dispositions and any such proceeds that are realized may not be adequate to meet any debt service obligations then due. The failure to meet our debt service obligations or the failure to remain in compliance with the financial covenants under our debt agreements would constitute an event of default under those agreements and the lenders could elect to declare all amounts outstanding under them to be immediately due and payable and terminate all commitments to extend further credit.

Risks Related to this Offering and Our Common Stock

We are a "controlled company" within the meaning of rules and, as a result, we will qualify for, and intend to rely on, exemptions from certain corporate governance requirements. You will not have the same protections afforded to stockholders of companies that are subject to such requirements.

After completion of this offering our Sponsors will continue to control a majority of the voting power of our outstanding common stock. As a result, we qualify as a "controlled company" within the meaning of the corporate governance rules of the . Under these rules, a company of which more than 50% of the voting power is held by an individual, group or another company is a "controlled company" and may elect not to comply with certain corporate governance requirements, including:

- the requirement that a majority of the board of directors consist of independent directors;
- the requirement that we have a nominating and corporate governance committee that is composed entirely of independent directors with a written charter addressing the committee's purpose and responsibilities, or otherwise have director nominees selected by vote of a majority of the independent directors;
- the requirement that we have a compensation committee that is composed entirely of independent directors with a written charter addressing the committee's purpose and responsibilities; and
- the requirement for an annual performance evaluation of the nominating and corporate governance and compensation committees.

Following this offering, we intend to utilize these exemptions. As a result, we will not have a majority of independent directors, our compensation committee and nominating and corporate governance committee will not consist entirely of independent directors and the board committees will not be subject to annual performance evaluations. Accordingly, you will not have the same protections afforded to stockholders of companies that are subject to the corporate governance requirements.

Our Sponsors, however, are not subject to any contractual obligation to retain their controlling interest, except that they have agreed, subject to certain exceptions, not to sell or otherwise dispose of any shares of our common stock or other capital stock or other securities exercisable or convertible therefor for a period of at least 180 days after the date of this prospectus without the prior written consent of the underwriters for this offering. Except for this brief period, there can be no assurance as to the period of time during which any of our Sponsors will maintain their ownership of our common stock following the offering.

Our stock price could be extremely volatile and, as a result, you may not be able to resell your shares at or above the price you paid for them.

Volatility in the market price of our common stock may prevent you from being able to sell your shares at or above the price you paid for your shares. The stock market in general has been highly volatile. As a result, the market price of our common stock is likely to be similarly volatile. You may experience a decrease, which could be substantial, in the value of your stock, including decreases unrelated to our operating performance or prospects, and could lose part or all of your investment. The price of our common stock could be subject to wide fluctuations in response to a number of factors, including those described elsewhere in this prospectus and others such as:

- actual or anticipated fluctuations in our quarterly or annual operating results and the performance of our competitors;
- publication of research reports by securities analysts about us, our competitors or our industry;

- our failure or the failure of our competitors to meet analysts' projections or guidance that we or our competitors may give to the market;
- additions and departures of key personnel;
- sales, or anticipated sales, of large blocks of our stock or of shares held by our directors or executive officers;
- strategic decisions by us or our competitors, such as acquisitions, divestitures, spin-offs, joint ventures, strategic investments or changes in business strategy;
- the passage of legislation or other regulatory developments affecting us or our industry;
- speculation in the press or investment community, whether or not correct, involving us, our suppliers or our competitors;
- changes in accounting principles;
- litigation and governmental investigations;
- terrorist acts, acts of war or periods of widespread civil unrest;
- a food borne illness outbreak;
- natural disasters and other calamities; and
- changes in general market and economic conditions.

As we operate in a single industry, we are especially vulnerable to these factors to the extent that they affect our industry or our products. In the past, securities class action litigation has often been initiated against companies following periods of volatility in their stock price. This type of litigation could result in substantial costs and divert our management's attention and resources, and could also require us to make substantial payments to satisfy judgments or to settle litigation.

There is no existing market for our common stock, and we do not know if one will develop to provide you with adequate liquidity.

Prior to this offering, there has not been a public market for our common stock. An active market for our common stock may not develop following the completion of this offering, or if it does develop, may not be maintained. If an active trading market does not develop, you may have difficulty selling any of our common stock that you buy. The initial public offering price for the shares of our common stock will be determined by negotiations between us and the representatives of the underwriters and may not be indicative of prices that will prevail in the open market following this offering. Consequently, you may not be able to sell shares of our common stock at prices equal to or greater than the price you paid in this offering.

There may be sales of a substantial amount of our common stock after this offering by our current stockholders, and these sales could cause the price of our common stock to fall.

After this offering, there will be shares of common stock outstanding. Of our issued and outstanding shares, all the common stock sold in this offering will be freely transferable, except for any shares held by our "affiliates," as that term is defined in Rule 144 under the Securities Act of 1933, as amended (the "Securities Act"). Following completion of this offering, approximately % of our outstanding common stock will be held by investment funds affiliated with our Sponsors and members of our management and employees.

Each of our directors and executive officers and substantially all of our stockholders have entered into a lock-up agreement with the representatives of the underwriters which regulates their sales of our common stock for a period of at least 180 days after the date of this prospectus, subject to certain exceptions and automatic extensions in certain circumstances. See "Related Party Transactions—Arrangements With Our Investors."

Sales of substantial amounts of our common stock in the public market after this offering, or the perception that such sales will occur, could adversely affect the market price of our common stock and make it difficult for us to raise funds through securities offerings in the future. Of the shares to be outstanding after the offering, the shares offered by this prospectus will be eligible for immediate sale in the public market without restriction by persons other than our affiliates. Our remaining outstanding shares will become available for resale in the public market as shown in the chart below, subject to the provisions of Rule 144 and Rule 701.

Number of Shares	Date Available for Resale
	On the date of this offering ( )
	180 days after this offering ( ), subject to certain exceptions and automatic extensions in certain circumstances.

Beginning 180 days after this offering, subject to certain exceptions and automatic extensions in certain circumstances, holders of shares of our common stock may require us to register their shares for resale under the federal securities laws, and holders of additional shares of our common stock would be entitled to have their shares included in any such registration statement, all subject to reduction upon the request of the underwriter of the offering, if any. See "Related Party Transactions—Arrangements With Our Investors." Registration of those shares would allow the holders to immediately resell their shares in the public market. Any such sales or anticipation thereof could cause the market price of our common stock to decline.

In addition, after this offering, we intend to register shares of common stock that are reserved for issuance under our stock incentive plans. See "Executive Compensation—Equity Incentive Plans."

Provisions in our certificate of incorporation and bylaws, our 2012 CMBS Loan documents and Delaware law may discourage, delay or prevent a change of control of our company or changes in our management and, therefore, may depress the trading price of our stock.

Our certificate of incorporation and bylaws include certain provisions that could have the effect of discouraging, delaying or preventing a change of control of our company or changes in our management, including, among other things:

- our board is classified into three classes of directors with only one class subject to election each year;
- restrictions on the ability of our stockholders to fill a vacancy on the board of directors;
- our ability to issue preferred stock with terms that the board of directors may determine, without stockholder approval, which could be used to significantly dilute the ownership of a hostile acquirer;
- the inability of our stockholders to call a special meeting of stockholders;
- our directors may only be removed from the board of directors for cause by the affirmative vote of the holders of at least 75% of the voting power of outstanding shares of our capital stock entitled to vote generally in the election of directors;

- the absence of cumulative voting in the election of directors, which may limit the ability of minority stockholders to elect directors; and
- advance notice requirements for stockholder proposals and nominations, which may discourage or deter a potential acquirer from soliciting proxies to elect a particular slate of directors or otherwise attempting to obtain control of us.

In addition, the mortgage loan agreement for the 2012 CMBS Loan requires that, following this offering, our Sponsors, our Founders and our management stockholders or other permitted holders either own no less than 51% of our common stock or if they do not, that certain other conditions are satisfied. These provisions in our certificate of incorporation and bylaws and the 2012 CMBS Loan documents may discourage, delay or prevent a transaction involving a change in control of our company that is in the best interests of our minority stockholders. Even in the absence of a takeover attempt, the existence of these provisions may adversely affect the prevailing market price of our common stock if they are viewed as discouraging future takeover attempts.

Section 203 of the Delaware General Corporation Law may affect the ability of an "interested stockholder" to engage in certain business combinations, including mergers, consolidations or acquisitions of additional shares, for a period of three years following the time that the stockholder becomes an "interested stockholder." An "interested stockholder" is defined to include persons owning directly or indirectly 15% or more of the outstanding voting stock of a corporation. We have elected in our certificate of incorporation not to be subject to Section 203 of the Delaware General Corporation Law. However, our certificate of incorporation will contain provisions that have the same effect as Section 203, except that they provide that our Sponsors and their respective affiliates will not be deemed to be "interested stockholders," regardless of the percentage of our voting stock owned by them, and accordingly will not be subject to such restrictions.

If you purchase shares in this offering, you will suffer immediate and substantial dilution.

If you purchase shares of our common stock in this offering, you will incur immediate and substantial dilution in the book value of your stock of $ per share as of , 2012, because the price that you pay will be substantially greater than the net tangible book value per share of the shares you acquire. You will experience additional dilution upon the exercise of options and warrants to purchase our common stock, including those options currently outstanding and possibly those granted in the future, and the issuance of restricted stock or other equity awards under our stock incentive plans. To the extent we raise additional capital by issuing equity securities, our stockholders may experience substantial additional dilution. See "Dilution."

If securities analysts or industry analysts downgrade our stock, publish negative research or reports, or do not publish reports about our business, our stock price and trading volume could decline.

We expect that the trading market for our common stock will be influenced by the research and reports that industry or securities analysts publish about us, our business and our industry. If one or more analysts adversely change their recommendation regarding our stock or our competitors' stock, our stock price would likely decline. If one or more analysts cease coverage of us or fail to regularly publish reports on us, we could lose visibility in the financial markets, which in turn could cause our stock price or trading volume to decline.

Our Sponsors will continue to have significant influence over us after this offering, including control over decisions that require the approval of stockholders, which could limit your ability to influence the outcome of key transactions, including a change of control.

We are currently controlled, and after this offering is completed will continue to be controlled, by our Sponsors. Upon completion of this offering, investment funds affiliated with our Sponsors will beneficially own approximately % of our outstanding common stock. For as long as our Sponsors continue to beneficially own shares of common stock representing more than 50% of the voting power of our common stock, they will be able

to direct the election of all of the members of our board of directors and could exercise a controlling influence over our business and affairs, including any determinations with respect to mergers or other business combinations, the acquisition or disposition of assets, the incurrence of indebtedness, the issuance of any additional common stock or other equity securities, the repurchase or redemption of common stock and the payment of dividends. Similarly, these entities will have the power to determine matters submitted to a vote of our stockholders without the consent of our other stockholders, will have the power to prevent or approve a change in our control and could take other actions that might be favorable to them. Even if their ownership falls below 50%, our Sponsors will continue to be able to strongly influence or effectively control our decisions.

Additionally, certain of our directors are also officers or control persons of our Sponsors. Although these directors owe a fiduciary duty to manage us in a manner beneficial to us and our stockholders, these individuals also owe fiduciary duties to these other entities and their stockholders, members and limited partners. Because our Sponsors have such interests in other companies and engage in other business activities, certain of our directors may experience conflicts of interest in allocating their time and resources among our business and these other activities. Furthermore, these individuals could make substantial profits as a result of investment opportunities allocated to entities other than us. As a result, these individuals could pursue transactions that may not be in our best interest, which could have a material adverse effect on our operations and your investment.

Because we have no plans to pay cash dividends on our common stock for the foreseeable future, you may not receive any return on investment unless you sell your common stock for a price greater than that which you paid for it.

We may retain future earnings, if any, for future operations, expansion and debt repayment and have no current plans to pay any cash dividends for the foreseeable future. Any decision to declare and pay dividends in the future will be made at the discretion of our board of directors and will depend on, among other things, our results of operations, financial condition, cash requirements, contractual restrictions and other factors that our board of directors may deem relevant. In addition, our ability to pay dividends may be limited by covenants of any existing and future outstanding indebtedness we or our subsidiaries incur, including our senior credit facility. As a result, you may not receive any return on an investment in our common stock unless you sell our common stock for a price greater than that which you paid for it. See “Dividend Policy.”

Our ability to raise capital in the future may be limited, which could make us unable to fund our capital requirements.

Our business and operations may consume resources faster than we anticipate. In the future, we may need to raise additional funds through the issuance of new equity securities, debt or a combination of both. Additional financing may not be available on favorable terms or at all. If adequate funds are not available on acceptable terms, we may be unable to fund our capital requirements. If we issue new debt securities, the debt holders would have rights senior to common stockholders to make claims on our assets, and the terms of any debt could restrict our operations, including our ability to pay dividends on our common stock. If we issue additional equity securities, existing stockholders may experience dilution, and the new equity securities could have rights senior to those of our common stock. Because our decision to issue securities in any future offering will depend on market conditions and other factors beyond our control, we cannot predict or estimate the amount, timing or nature of our future offerings. Thus, our stockholders bear the risk of our future securities offerings reducing the market price of our common stock and diluting their interest.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus includes statements that express our opinions, expectations, beliefs, plans, objectives, assumptions or projections regarding future events or future results and therefore are, or may be deemed to be, "forward-looking statements." These forward-looking statements can generally be identified by the use of forward-looking terminology, including the terms "believes," "estimates," "anticipates," "expects," "seeks," "projects," "intends," "plans," "may," "will" or "should" or, in each case, their negative or other variations or comparable terminology. They appear in a number of places throughout this prospectus and include statements regarding our intentions, beliefs or current expectations concerning, among other things, our results of operations, financial condition, liquidity, prospects, growth, strategies and the industry in which we operate.

By their nature, forward-looking statements involve risks and uncertainties because they relate to events and depend on circumstances that may or may not occur in the future. We believe that these risks and uncertainties include, but are not limited to, those described in the "Risk Factors" section of this prospectus, which include, but are not limited to, the following:

- the restaurant industry is a highly competitive industry with many well-established competitors;
- challenging economic conditions may affect our liquidity by adversely impacting numerous items that include, but are not limited to: consumer confidence and discretionary spending; the availability of credit presently arranged from our revolving credit facilities; the future cost and availability of credit; interest rates; foreign currency exchange rates; and the liquidity or operations of our third-party vendors and other service providers;
- our ability to expand is dependent upon various factors such as the availability of attractive sites for new restaurants; ability to obtain appropriate real estate sites at acceptable prices; our ability to obtain all required governmental permits including zoning approvals and liquor licenses on a timely basis; the impact of government moratoriums or approval processes, which could result in significant delays; our ability to obtain all necessary contractors and subcontractors; union activities such as picketing and hand billing that could delay construction; our ability to generate or borrow funds; our ability to negotiate suitable lease terms; our ability to recruit and train skilled management and restaurant employees; and our ability to receive the premises from the landlord's developer without any delays;
- our results can be impacted by changes in consumer tastes and the level of consumer acceptance of our restaurant concepts (including consumer tolerance of our prices); local, regional, national and international economic and political conditions; the seasonality of our business; demographic trends; traffic patterns and our ability to effectively respond in a timely manner to changes in traffic patterns; changes in consumer dietary habits; employee availability; the cost of advertising and media; government actions and policies; inflation or deflation; unemployment rates; interest rates; exchange rates; and increases in various costs, including construction, real estate and health insurance costs;
- weather, natural disasters and disasters could result in construction delays and also adversely affect the results of one or more restaurants for an indeterminate amount of time;
- our results can be impacted by tax and other legislation and regulation in the jurisdictions in which we operate and by accounting standards or pronouncements;
- minimum wage increases and mandated employee benefits could cause a significant increase in our labor costs;

- commodities, including but not limited to such items as beef, chicken, shrimp, pork, seafood, dairy, potatoes, onions and energy supplies, are subject to fluctuation in price and availability and price could increase or decrease more than we expect;
- our results can be affected by consumer reaction to public health issues;
- our results can be affected by consumer perception of food safety;
- inability to protect customer credit and debit card data; and
- our substantial leverage and significant restrictive covenants in our various credit facilities could adversely affect our ability to raise additional capital to fund our operations, limit our ability to make capital expenditures to invest in new or renovate restaurants, limit our ability to react to changes in the economy or our industry, and expose us to interest rate risk in connection with our variable-rate debt.

Those factors should not be construed as exhaustive and should be read with the other cautionary statements in this prospectus.

Although we base these forward-looking statements on assumptions that we believe are reasonable when made, we caution you that forward-looking statements are not guarantees of future performance and that our actual results of operations, financial condition and liquidity, and industry developments may differ materially from statements made in or suggested by the forward-looking statements contained in this prospectus. In addition, even if our results of operations, financial condition and liquidity, and industry developments are consistent with the forward-looking statements contained in this prospectus, those results or developments may not be indicative of results or developments in subsequent periods.

In light of these risks and uncertainties, we caution you not to place undue reliance on these forward-looking statements. Any forward-looking statement that we make in this prospectus speaks only as of the date of such statement, and we undertake no obligation to update any forward-looking statement or to publicly announce the results of any revision to any of those statements to reflect future events or developments. Comparisons of results for current and any prior periods are not intended to express any future trends or indications of future performance, unless specifically expressed as such, and should only be viewed as historical data.

USE OF PROCEEDS

We estimate that the net proceeds we will receive from the sale of shares of our common stock in this offering, after deducting underwriter discounts and commissions and estimated expenses payable by us, will be approximately $ million (or $ million, if the underwriters exercise their option to purchase additional shares in full). This estimate assumes an initial public offering price of $ per share, the midpoint of the price range set forth on the cover page of this prospectus.

We intend to use the net proceeds from this offering to retire all of our outstanding Senior Notes and to use any remaining net proceeds for working capital and for general corporate purposes. The Senior Notes bear interest at 10% per annum and mature on June 15, 2015. There was outstanding approximately $248.1 million in aggregate principal amount of Senior Notes as of December 31, 2011. See “Description of Indebtedness—Senior Notes.”

DIVIDEND POLICY

We do not currently pay cash dividends on our common stock and do not anticipate paying any dividends on our common stock in the foreseeable future. Any future determinations relating to our dividend policies will be made at the discretion of our board of directors and will depend on conditions then existing, including our financial condition, results of operations, contractual restrictions, capital requirements, business prospects and other factors our board of directors may deem relevant. In addition, our ability to obtain funds from our subsidiaries and therefore to declare and pay dividends is restricted by covenants in our debt agreements. For an explanation of these restrictions, see “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources—Credit Facilities and Other Indebtedness” and “Description of Indebtedness.”

DILUTION

If you invest in our common stock, your ownership interest will experience immediate book value dilution to the extent of the difference between the initial public offering price per share of our common stock and the net tangible book value per share of our common stock after this offering. Dilution results from the fact that the initial public offering price per share of the common stock is substantially in excess of the net tangible book value per share of common stock attributable to the existing stockholders for the presently outstanding shares of common stock. Net tangible book value per share represents the amount of our total tangible assets less our total liabilities, divided by the number of shares of our common stock outstanding.

Our net tangible book value deficiency at was approximately $, or $ per share of our common stock before giving effect to this offering. Dilution in net tangible book value deficiency per share represents the difference between the amount per share that you pay in this offering and the net tangible book value deficiency per share immediately after this offering.

After giving effect to our sale of shares in this offering, assuming an initial public offering price of $ per share (the midpoint of the price range set forth on the cover of this prospectus), and the application of the estimated net proceeds as described under "Use of Proceeds," our as adjusted net tangible book value deficiency at would have been approximately $, or $ per share of common stock. This represents an immediate decrease in net tangible book value deficiency per share of $ to existing stockholders and an immediate increase in net tangible book value deficiency per share of $( ) to you. The following table illustrates this dilution per share.

Assumed initial public offering price per share of common stock	
Net tangible book value per share at December 31, 2011	
Increase per share attributable to new investors in this offering	
Pro forma net tangible book value per share of common stock after this offering	
Dilution per share to new investors	

If the underwriters were to fully exercise their option to purchase additional shares, the pro forma as adjusted net tangible book value deficiency per share of our common stock after giving effect to this offering would be $ per share of our common stock. This represents a decrease in pro forma as adjusted net tangible book value deficiency of $ per share of our common stock to existing stockholders and dilution in pro forma as adjusted net tangible book value deficiency of $ per share of our common stock to you.

A $1.00 increase (decrease) in the assumed initial public offering price of $ per share of our common stock would decrease (increase) our pro forma net tangible book value deficiency after giving effect to the offering by $ million, or by $ per share of our common stock, assuming no change to the number of shares of our common stock offered by us as set forth on the cover page of this prospectus, and after deducting the estimated underwriting discounts and estimated expenses payable by us.

The following table sets forth, as of , 2012, the number of shares of common stock purchased from us, the total consideration paid to us and the average price per share paid by existing stockholders and to be paid by new investors purchasing shares of common stock in this offering, before deducting underwriting discounts and commissions and estimated offering expenses payable by us.

	Shares Purchased		Total Consideration		
	Number	Percent	Amount	Percent	Average Price Per Share
Existing stockholders		%	$	%	$
New investors					$
Total		100%	$	100%	$

If the underwriters were to exercise in full their option to purchase additional shares of our common stock from us, the percentage of shares of our common stock held by existing stockholders would be %, and the percentage of shares of our common stock held by new investors would be %.

To the extent any outstanding options or other equity awards are exercised or become vested or any additional options or other equity awards are granted and exercised or become vested or other issuances of shares of our common stock are made, there may be further economic dilution to new investors.

SELECTED CONSOLIDATED FINANCIAL AND OTHER DATA

The following table sets forth our selected consolidated financial and other data as of the dates and for the periods indicated. The selected financial data as of December 31, 2010 and December 31, 2011 and for each of the three years in the period ended December 31, 2011 presented in this table have been derived from our audited consolidated financial statements included elsewhere in this prospectus. The selected financial data as of December 31, 2007, December 31, 2008 and December 31, 2009 and for the periods from January 1 to June 14, 2007 and from June 15 to December 31, 2007 and for the year ended December 31, 2008 have been derived from our unaudited consolidated financial statements for such years and periods, which are not included in this prospectus. Historical results are not necessarily indicative of future results.

This selected consolidated financial and other data should be read in conjunction with the disclosure set forth under "Risk Factors," "Capitalization," "Management's Discussion and Analysis of Financial Condition and Results of Operations" and the Consolidated Financial Statements and the related notes thereto appearing elsewhere in this prospectus.

(1) On June 14, 2007, an investor group formed Bloomin' Brands, Inc., formerly known as Kangaroo Holdings, Inc., and acquired OSI by means of the Merger. Therefore, the selected historical consolidated financial data is presented for two periods: Predecessor and Successor, which relate to the period preceding the Merger and the period succeeding the Merger, respectively. As a result of the Merger, there are several factors that affect the comparability of the selected historical consolidated financial data for the two periods including, but not limited to: (i) depreciation and amortization are higher in the Successor periods through 2009 due to fair value assessments completed at the time of the Merger, (ii) annual interest expense increased substantially in the Successor period in connection with our financing agreements and (iii) certain professional service costs incurred in connection with the Merger and the management services provided by our management company are included in General and administrative expenses in our Consolidated Statements of Operations in the Successor period.

(2) Includes management fees and out-of-pocket and other reimbursable expenses paid to a management company owned by our Sponsors and Founders of $5.2 million, $9.9 million, $10.7 million, $11.6 million and $9.4 million for the period from June 15 to December 31, 2007 and the years ended December 31, 2008, 2009, 2010 and 2011, respectively, under a management agreement that will terminate upon the completion of this offering. See "Related Party Transactions—Arrangements With Our Investors."

(3) In November 2011, we received a settlement payment from T-Bird, a limited liability company affiliated with our California franchisees of Outback Steakhouse restaurants, in connection with a settlement agreement that satisfied all outstanding litigation with T-Bird. This litigation began in early 2009 and therefore, we had recorded an allowance for the note receivable for the year ended December 31, 2008.

(4) During 2008, our Provision for impaired assets and restaurant closings primarily included: (i) $49.0 million of impairment charges for the domestic and international Outback Steakhouse and Carrabba's Italian Grill trade names, (ii) $3.5 million of impairment charges for the Blue Coral Seafood and Spirits trademark and (iii) $63.9 million of impairment charges and restaurant closing expense for certain of our restaurants. During 2009, our Provision for impaired assets and restaurant closings primarily included: (i) $46.0 million of impairment charges to reduce the carrying value of the assets of Cheeseburger in Paradise to their estimated fair market value due to our sale of the concept in the third quarter of 2009, (ii) $47.6 million of impairment charges and restaurant closing expense for certain of our other restaurants and (iii) $36.0 million of impairment charges for the domestic Outback Steakhouse and Carrabba's Italian Grill trade names.

(5) In November 2008 and March 2009, we repurchased $61.8 million and $240.1 million, respectively, of our outstanding Senior Notes for $11.7 million and $73.0 million, respectively. These repurchases resulted in gains on extinguishment of debt, after the pro rata reduction of unamortized deferred financing fees and other related costs, of $48.4 million in 2008 and $158.1 million in 2009. Annualized interest expense savings from these debt extinguishments approximates $30.2 million per year.

(6) Basic and diluted net income (loss) per share are calculated on net income (loss) attributable to Bloomin' Brands, Inc. See "Description of Indebtedness" and Note 20 of our Notes to Consolidated Financial Statements. As a result of the CMBS Refinancing, the net amount repaid along with scheduled maturities within one year, $281.3 million, was classified as current at December 31, 2011.

UNAUDITED PRO FORMA CONSOLIDATED FINANCIAL STATEMENTS

The following unaudited pro forma consolidated financial statements of Bloomin' Brands, Inc. as of and for the year ended December 31, 2011 are based on historical consolidated financial statements of Bloomin' Brands, Inc. included elsewhere in this prospectus and give effect to the following transactions (collectively, the "Transactions") as if they had occurred on January 1, 2011 or December 31, 2011, as indicated below.

- *Sale-Leaseback Transaction*. Effective March 14, 2012, we entered into the Sale-Leaseback Transaction with two third-party real estate institutional investors in which we sold 67 restaurant properties at fair market value for $194.9 million and then simultaneously leased these properties back under nine master leases. See "Management's Discussion and Analysis of Financial Condition and Results of Operations —Liquidity and Capital Resources—Transactions" and Note 20 of our Notes to Consolidated Financial Statements for a further description of the Sale-Leaseback Transaction.

- *2012 CMBS Loan*. Effective March 27, 2012, New PRP entered into the 2012 CMBS Loan, which totals $500.0 million and comprises a first mortgage loan in the amount of $324.8 million, collateralized by 261 of our properties, and two mezzanine loans totaling $175.2 million. The proceeds from the 2012 CMBS Loan, together with the proceeds from the Sale-Leaseback Transaction and excess cash, were used to repay our existing CMBS Loan. See "Description of Indebtedness" and Note 20 of our Notes to Consolidated Financial Statements for a further description of the 2012 CMBS Loan.

- *Initial Public Offering.* We expect to issue shares of common stock in this offering and receive net proceeds, after deducting estimated offering expenses and underwriting discounts and commissions of approximately $ million (assuming no exercise by the underwriters of their option to purchase additional shares), assuming an initial public offering price of $ per share, the midpoint of the price range set forth on the cover page of this prospectus. We intend to use these proceeds to retire all of our outstanding Senior Notes, of which an aggregate principal amount of $248.1 million was outstanding as of December 31, 2011, and the remainder for working capital and general corporate purposes.

- *Termination of Management Agreement.* Upon completion of the Merger, we entered into a management agreement with a management company, whose members are the Founders and entities affiliated with our Sponsors. The management company receives annual management fees and reimbursement for out-of-pocket and other reimbursable expenses incurred by it in connection with the provision of services pursuant to the agreement. The management agreement will terminate automatically upon the completion of this offering.

The unaudited pro forma consolidated balance sheet at December 31, 2011 gives effect to the Transactions, as if each had occurred on December 31, 2011.

The unaudited pro forma consolidated statement of operations for the year ended December 31, 2011 gives effect to the Transactions as if each had occurred on January 1, 2011. The unaudited consolidated statement of operations does not reflect the following charges that we will incur: (1) professional fees associated with the CMBS Refinancing; (2) estimated selling costs associated with the Sale-Leaseback Transaction; (3) loss on debt extinguishment related to the CMBS Refinancing and repayment of the Senior Notes; (4) the compensation expense with respect to the time vested portion of stock options containing a management call option resulting from the automatic termination of the call option upon completion of this offering; and (5) the expense associated with the incentive bonus payable to our Chief Executive Officer as a result of the completion of this offering. We expect these charges will be approximately $ million in the aggregate and will be recorded by us in the period in which these transactions are completed.

Overview

We are one of the largest casual dining restaurant companies in the world with a portfolio of leading, differentiated restaurant concepts. We own and operate 1,248 restaurants and have 195 restaurants operating under a franchise or joint venture arrangement across 49 states and 21 countries and territories. We have five founder-inspired concepts: Outback Steakhouse, Carrabba's Italian Grill, Bonefish Grill, Fleming's Prime Steakhouse and Wine Bar and Roy's. Our concepts provide a compelling customer experience combining great food, highly attentive service and lively and contemporary ambience at attractive prices. Our restaurants attract customers across a variety of occasions, including everyday dining, celebrations and business entertainment. Each of our concepts maintains a unique, founder-inspired brand identity and entrepreneurial culture, while leveraging our scale and enhanced operating model. We consider Outback Steakhouse, Carrabba's, Bonefish Grill and Fleming's to be our core concepts.

The restaurant industry is a highly competitive and fragmented industry and is sensitive to changes in the economy, trends in lifestyles, seasonality (customer spending patterns at restaurants are generally highest in the first quarter of the year and lowest in the third quarter of the year) and fluctuating costs. Operating margins for restaurants can vary due to competitive pricing strategies and fluctuations in prices of commodities, including beef, chicken, seafood, butter, cheese, produce and other necessities to operate a restaurant, such as natural gas or other energy supplies. The pace of new unit growth has slowed in the casual dining category over the last few years. Given this dynamic, companies tend to be more focused on increasing market share and comparable restaurant sales growth. Competitive pressure for market share, inflation, foreign currency exchange rates and other market conditions have had and could continue to have an adverse impact our business.

Our industry is characterized by high initial capital investment, coupled with high labor costs, and chain restaurants have been increasingly taking share from independent restaurants over the past several years. We believe that this trend will continue due to increasing barriers that may prevent independent restaurants and/or start-up chains from building scale operations, including menu labeling, burdensome labor regulations and healthcare reforms that will be enforced once chains grow past a certain number of restaurants or number of employees. The combination of these factors underscores our initiative to drive increased sales at existing restaurants in order to raise margins and profits, because the incremental contribution to profits from every additional dollar of sales above the minimum costs required to open, staff and operate a restaurant is relatively high. Historically, we have not focused on growth in the number of restaurants just to generate additional sales. Our expansion and operating strategies have balanced investment and operating cost considerations in order to generate reasonable, sustainable margins and achieve acceptable returns on investment from our restaurant concepts.

In 2010, we launched a new strategic plan and operating model leveraging best practices from the consumer products and retail industries to complement our restaurant acumen and enhance our brand competitiveness. This new model keeps the customer at the center of our decision-making and focuses on continuous innovation and productivity to drive sustainable sales and profit growth. We have significantly strengthened our management team and implemented initiatives to accelerate innovation, improve analytics and increase productivity. As a result of these initiatives, we are recommitted to new unit development after curtailing expansion from 2009 to 2011. We believe that a substantial development opportunity remains for our concepts in the U.S. and internationally.

Key Performance Indicators

Key measures that we use in evaluating our restaurants and assessing our business include the following:

- *Average restaurant unit volumes*—average sales per restaurant to measure changes in customer traffic, pricing and development of the brand;
- *System-wide sales*—total restaurant sales volume for all company-owned, franchise and unconsolidated joint venture restaurants, regardless of ownership, to interpret the overall health of our brands;
- *Comparable restaurant sales*—year-over-year comparison of sales volumes for domestic, company-owned restaurants that are open 18 months or more in order to remove the impact of new restaurant openings in comparing the operations of existing restaurants;
- *Adjusted EBITDA*—calculated by adjusting EBITDA (earnings before interest, taxes, depreciation and amortization) to exclude certain stock-based compensation expenses, non-cash expenses and significant, unusual items; and
- *Customer satisfaction scores*—measurement of our customers' experiences in a variety of key attributes.

2011 Highlights

Our 2011 financial results include:

- An increase in consolidated revenues of 5.9% to $3.8 billion, driven primarily by 4.9% growth in combined comparable restaurant sales at existing domestic company-owned core restaurants;
- 15 system-wide restaurant openings across most brands, and 194 Outback Steakhouse renovations in 2011;
- Productivity and cost management initiatives that we estimate allowed us to save over $50 million in the aggregate in 2011; and
- Generation of income from operations of $213.5 million in 2011 compared to $168.9 million in 2010, primarily attributable to the increase in consolidated revenues described above and the T-Bird settlement described in "—Costs and Expenses—Recovery of Notes Receivable from Affiliated Entity."

In 2011, we continued to balance near-term growth in share gains with investments to achieve sustainable growth. Our key objectives for 2011 and some of the steps we took to achieve those objectives included:

Continuation of Share Growth by Enhancing Brand Competitiveness in a Challenging Environment . In order to drive share growth, we continued to develop unique promotions throughout our concepts that fit our brand positioning and focus on delivering a superior dining experience. We identified additional opportunities to increase innovation in our menu, service and operations across all of our concepts, such as broadening our Outback Steakhouse menu by adding more salads, seafood and side items and offering the choice between our traditional seared steak and one prepared on a wood-fired grill. In addition, Carrabba's introduced a Cucina Casuale section to its menu during the third quarter of 2011 to offer consumers a more casual dining experience with salads, sandwiches and other smaller or lighter offerings.

Acceleration of Brand Investment, Including Renovations and New Unit Development . Our brand investments have focused on accelerating our multi-year Outback Steakhouse renovation plan and increasing unit development in higher return, high growth concepts with a focus on Bonefish Grill. We renovated 194 Outback Steakhouse locations and opened six Bonefish Grill restaurants in 2011.

Improvement of Organizational Effectiveness and Infrastructure for Sustainable Growth . We focused on building our competencies in human resources, information technology and real estate, design and construction to support accelerated growth. This is a multi-year effort that includes the implementation of a human resource information system, expanded data warehousing capability, and increased resources and tools to accelerate renovations and new unit site selection. We also implemented a modified managing and chef partner compensation structure that seeks to drive sustainable growth by aligning field incentives and paying higher amounts for growth in restaurant sales and cash flow on an annual basis. See "—Liquidity and Capital Resources —Stock-Based and Deferred Compensation Plans."

Effective Cost Management by Mitigating Commodity Risk and Accelerating Continuous Productivity Improvement . We leveraged our scale and long-term supply agreements when they were attractive relative to market trends, accelerated productivity improvements and took modest pricing action to maintain value perceptions among consumers.

Our Growth Strategies and Outlook

For the remainder of 2012, our key growth strategies, which are enabled by continued improvements in infrastructure and organizational effectiveness, are:

- *Grow Comparable Restaurant Sales.* We plan to continue our efforts to remodel our Outback Steakhouse and Carrabba's restaurants, use limited-time offers and multimedia marketing campaigns to drive traffic, grow beyond our traditional weekend dinner traffic and introduce innovative menu items that match evolving consumer preferences.

- *Pursue New Domestic and International Development With Strong Unit Level Economics.* We believe that a substantial development opportunity remains for our concepts in the U.S. and internationally. We added significant resources in site selection, construction and design in 2010 and 2011 to support the opening of new restaurants. We expect to open 30 or more restaurants in 2012 and increase the pace thereafter.

- *Drive Margin Improvement.* We believe we have the opportunity to increase our margins through cost reductions in labor, food cost, supply chain and restaurant facilities.

Ownership Structures

Our restaurants are predominantly company-owned or controlled, including through joint ventures, and otherwise operated under franchise arrangements. We generate our revenues primarily from our company-owned or controlled restaurants and secondarily through ongoing royalties from our franchised restaurants and sales of franchise rights.

Company-owned or controlled restaurants include restaurants owned directly by us, by limited partnerships in which we are a general partner and by joint ventures in which we are a member. Our legal ownership interests in these partnerships and joint ventures generally range from 50% to 90%. In the future, we do not expect to use limited partnerships for domestic company-owned restaurants. Instead, new restaurants will be wholly-owned by us and we are transitioning our compensation structure so that the area operating, managing and chef partners will receive their distributions of restaurant cash flow as employee compensation rather than partnership distributions. Company-owned restaurants also include restaurants owned by our Roy's joint venture and our consolidated financial statements include the accounts and operations of our Roy's joint venture even though we have less than majority ownership. See Note 18 of our Notes to Consolidated Financial Statements for additional information.

Through a joint venture arrangement with PGS Participacoes Ltda., we hold a 50% ownership interest in PGS Consultoria e Serviços Ltda. (the "Brazilian Joint Venture"). The Brazilian Joint Venture was formed in 1998 for the purpose of operating Outback Steakhouse franchise restaurants in Brazil. We account for the Brazilian Joint Venture under the equity method of accounting. We are responsible for 50% of the costs of new restaurants operated by the Brazilian Joint Venture and our joint venture partner is responsible for the other 50% and has operating control. Income and loss derived from the Brazilian Joint Venture is presented in the line item "Income from operations of unconsolidated affiliates" in our Consolidated Statements of Operations. We do not consider restaurants owned by the Brazilian Joint Venture as "company-owned" restaurants.

We derive no direct income from operations of franchised restaurants other than initial and developmental franchise fees and ongoing royalties, which are included in "Other revenues" in our Consolidated Statements of Operations.

Factors Impacting Financial Results

As discussed in more detail below and in addition to the other factors discussed above, under "Risk Factors" and elsewhere in this prospectus, the following factors have impacted our 2011 results and will impact our future financial results.

Effective March 14, 2012, we entered into the Sale-Leaseback Transaction with two third-party real estate institutional investors in which we sold 67 restaurant properties at fair market value for $194.9 million and then simultaneously leased these properties back under nine master leases. We will defer the recognition of the $42.7 million gain on the sale of certain of the properties over the initial term of the lease. See "—Liquidity and Capital Resources —Transactions" and Note 20 of our Notes to Consolidated Financial Statements for a further description of the Sale-Leaseback Transaction.

Effective March 27, 2012, New PRP entered into the 2012 CMBS Loan, which totals $500.0 million and comprises a first mortgage loan in the amount of $324.8 million, collateralized by 261 of our properties, and two mezzanine loans totaling $175.2 million. The loans have a maturity date of April 10, 2017, and a weighted average interest rate as of the closing of 6.12%. The proceeds from the 2012 CMBS Loan, together with the proceeds from the Sale-Leaseback Transaction and excess cash, were used to repay the existing CMBS Loan. As a result of the CMBS Refinancing, the net amount repaid along with scheduled maturities within one year,

$281.3 million, was classified as current at December 31, 2011. During the first quarter of 2012, we recorded a $2.9 million Loss on extinguishment of debt. See "Description of Indebtedness" and Note 20 of our Notes to Consolidated Financial Statements for a further description of the 2012 CMBS Loan.

Upon completion of this offering, we expect to record approximately $ of non-cash compensation expense with respect to the time vested portion of stock options containing a management call option due to the automatic termination of the call option upon completion of the offering. See "—Critical Accounting Policies and Estimates—Stock-Based Compensation" for a further description of the call option. Additionally, this offering will trigger payment of $ of an incentive bonus due to our Chief Executive Officer.

As our net income increases, we expect our effective income tax rate to increase due to the benefit of U.S. income tax credits becoming a smaller percentage of net income and the fact that the substantial majority of our earnings are generated in the U.S., where we have higher statutory rates. We expect our effective income tax rate for 2012 to range between 20% and 30%. We expect to maintain a full valuation allowance on our net deferred income tax assets until we sustain an appropriate level of profitability that generates taxable income that would enable us to conclude that it is more likely than not that a portion of our deferred income tax assets will be realized. Such a decrease in the valuation allowance could result in a significant decrease in our effective income tax rate for the period in which it occurs.

(1) In September 2009, we sold our Cheeseburger in Paradise concept, which included 34 restaurants, to Paradise Restaurant Group, LLC ("PRG"). Based on the terms of the purchase and sale agreement, we consolidated PRG after the sale transaction. Upon adoption of new accounting guidance for variable interest entities, we deconsolidated PRG on January 1, 2010. As a result, in 2010 and 2011 this category includes only our Roy's concept.

We operate restaurants under brands that have similar economic characteristics, nature of products and services, class of customer and distribution methods, and as a result, aggregate our operating segments into a single reporting segment.

System-Wide Sales

System-wide sales increased 7.0% in 2011 and 2.2% in 2010. System-wide sales is a non-GAAP financial measure that includes sales of all restaurants operating under our brand names, whether we own them or not. System-wide sales comprises sales of company-owned restaurants and sales of franchised and unconsolidated joint venture restaurants. The table below presents the first component of system-wide sales, which is sales of company-owned restaurants:

Upon adoption of new accounting guidance for variable interest entities, we deconsolidated PRG on January 1, 2010. As a result, in 2010 and 2011 this category includes primarily our Roy's concept.

The following information presents the second component of system-wide sales, which is sales of franchised and unconsolidated joint venture restaurants. These are restaurants that are not consolidated and from which we only receive a franchise royalty or a portion of their total income. Management believes that franchise and unconsolidated joint venture sales information is useful in analyzing our revenues because franchisees and affiliates pay royalties and/or service fees that generally are based on a percentage of sales. Management also uses this information to make decisions about future plans for the development of additional restaurants and new concepts as well as evaluation of current operations.

The following do not represent our sales and are presented only as an indicator of changes in the restaurant system, which management believes is important information regarding the health of our restaurant concepts.

The increase in restaurant sales in 2011 as compared to 2010 was primarily attributable to (i) a $195.7 million increase in comparable restaurant sales at our existing restaurants (including a 4.9% combined comparable restaurant sales increase in 2011 at our core domestic restaurants), which was primarily due to increases in customer traffic and general menu prices and (ii) a $15.9 million increase in sales from 17 restaurants not included in our comparable restaurant sales base. The increase in customer traffic was primarily a result of promotions throughout our concepts, innovations in our menu, service and operations and renovations at Outback Steakhouse. The increase in restaurant sales in 2011 as compared to 2010 was partially offset by a $2.0 million decrease from the closing of three restaurants during 2011 and a $1.0 million decrease from the sale (and franchise conversion) of nine of our company-owned Outback Steakhouse restaurants in Japan in October 2011.

The increase in restaurant sales in 2010 as compared to 2009 was primarily attributable to (i) a $90.0 million increase in comparable restaurant sales at our existing restaurants (2.7% combined comparable restaurant sales increase in 2010 at our core domestic restaurants) primarily due to an increase in customer traffic and partially offset by customer selection of lower-priced menu items and (ii) a $23.1 million increase in sales from 32 restaurants not included in our comparable restaurant sales base. The increase in customer traffic was primarily a result of promotions throughout our concepts, innovations in our menu, service and operations and an increase in the overall level of marketing spending. The increase in restaurant sales in 2010 as compared to 2009 was partially offset by a $75.5 million decrease from the sale and de-consolidation of 34 Cheeseburger in Paradise locations and a $16.7 million decrease from the closing of 16 restaurants during 2010.

Cost of sales, consisting of food and beverage costs, increased as a percentage of restaurant sales in 2011 as compared to 2010. The increase as a percentage of restaurant sales was primarily 1.4% from increases in seafood, dairy, beef and other commodity costs. The increase was partially offset by decreases as a percentage of restaurant sales of 0.9% from the impact of certain cost savings initiatives and 0.4% from menu price increases.

The decrease as a percentage of restaurant sales in 2010 as compared to 2009 was primarily 1.1% from the impact of certain cost savings initiatives and 0.7% from decreases in beef costs. The decrease was partially offset by increases as a percentage of restaurant sales of the following: (i) 0.3% from increases in produce, dairy and other commodity costs, (ii) 0.2% due to changes in our product mix and (iii) 0.2% from changes in our limited-time offers and other promotions.

Labor and other related expenses were flat as a percentage of restaurant sales in 2011 as compared to 2010. Items that contributed to an increase as a percentage of restaurant sales included the following: (i) 0.4% from higher kitchen and service labor costs, (ii) 0.3% from higher field management labor, bonus and distribution expenses, (iii) 0.2% from a settlement of an Internal Revenue Service assessment of employment taxes and (iv) 0.1% from an increase in health insurance costs. These increases were offset by decreases as a percentage of restaurant sales of 0.7% from higher average unit volumes at our restaurants and 0.3% from the impact of certain cost savings initiatives.

Labor and other related expenses increased as a percentage of restaurant sales in 2010 as compared with 2009. The increase as a percentage of restaurant sales was primarily due to the following: (i) 0.4% from higher kitchen, service and field management labor costs, (ii) 0.2% from an increase in health insurance costs and (iii) 0.2% from higher distribution expense to managing partners. The increase was partially offset by decreases as a percentage of restaurant sales of 0.5% from the impact of certain cost savings initiatives and 0.2% from higher average unit volumes at our restaurants.

Other Restaurant Operating Expenses

Other restaurant operating expenses include certain unit-level operating costs such as operating supplies, rent, repairs and maintenance, advertising expenses, utilities, pre-opening costs and other occupancy costs. A substantial portion of these expenses is fixed or indirectly variable. The decrease as a percentage of restaurant sales in 2011 as compared to 2010 was primarily 0.7% from higher average unit volumes at our restaurants and 0.4% from certain cost savings initiatives. The decrease was partially offset by increases as a percentage of restaurant sales of 0.2% in operating supplies expense and 0.2% in advertising costs.

The increase as a percentage of restaurant sales in 2010 as compared to 2009 was primarily due to the following: (i) 0.4% from increases in advertising costs, (ii) 0.2% from increases in the recognition of deferred gift card fees, (iii) 0.2% from increases in repairs and maintenance costs, occupancy costs and operating supplies expense and (iv) 0.2% from higher general liability insurance expense. The increase was partially offset by decreases as a percentage of restaurant sales of 0.5% from higher average unit volumes at our restaurants and 0.2% from certain cost savings initiatives.

Depreciation and Amortization

Depreciation and amortization expense decreased as a percentage of total revenues in 2011 as compared to 2010. This decrease as a percentage of total revenues was primarily 0.2% from certain assets being fully depreciated as of June 2010 as a result of purchase accounting adjustments recorded in conjunction with the Merger and 0.2% from higher average unit volumes at our restaurants. The decrease was partially offset by an increase as a percentage of restaurant sales of 0.1% from depreciation expense on property, fixtures and equipment additions during 2011 primarily due to our Outback Steakhouse renovations.

The decrease as a percentage of total revenues in 2010 as compared to 2009 was primarily 0.7% from certain assets being fully depreciated as of June 2009 and June 2010 as a result of purchase accounting adjustments recorded in conjunction with the Merger and 0.1% from higher average unit volumes at our restaurants.

General and Administrative

(in millions):	Years Ended December 31, 2011	2010	Change	Years Ended December 31, 2010	2009	Change
General and administrative	$291.1	$252.8	$38.3	$252.8	$252.3	$ 0.5

General and administrative costs increased in 2011 as compared to 2010 primarily due to the following: (i) $12.1 million of additional corporate compensation, bonus and relocation expenses primarily as a result of increasing our resources in consumer insights, research and development, productivity and human resources, (ii) $8.2 million of increased general and administrative costs associated with field support, managers-in-training and field compensation, bonus, distribution and buyout expense, (iii) a $6.2 million net decline in the cash surrender value of life insurance investments, (iv) $7.4 million of additional legal and other professional fees, (v) a $4.3 million loss from the sale of nine of our company-owned Outback Steakhouse restaurants in Japan in October 2011, (vi) $3.8 million of additional information technology expense, (vii) $1.7 million of increased corporate business travel and meeting-related expenses and (viii) $0.5 million of expenses incurred in 2011 in connection with the Sale-Leaseback Transaction. This increase was partially offset by $5.3 million of cost savings initiatives and a $2.0 million allowance for the PRG promissory note recorded in the first quarter of 2010.

The increase in 2010 as compared to 2009 was primarily attributable to the following: (i) $10.2 million of increased general and administrative costs associated with field support, managers-in-training and distribution expense, (ii) $10.0 million of additional consulting and legal fees primarily related to our productivity improvement and brand growth strategies, (iii) $4.4 million of additional corporate compensation expense as a result of increasing our resources in consumer insights, research and development, productivity and human resources and (iv) a $4.1 million net decline in the cash surrender value of life insurance investments. This increase was substantially offset by the following: (i) a $14.0 million decrease in restricted stock, deferred compensation and partner buyout expenses that was mostly attributable to accelerated vesting of restricted stock for certain executive officers in 2009, (ii) a $7.1 million reduction of bonus and severance expenses, (iii) a $3.8 million decrease from certain cost savings initiatives and (iv) a $1.3 million decrease in ongoing operating costs at closed locations.

Recovery of Note Receivable From Affiliated Entity

In November 2011, we received a settlement payment of $33.3 million from T-Bird in connection with a settlement agreement that satisfied all outstanding litigation with T-Bird.

Loss on Contingent Debt Guarantee

We are the guarantor of an uncollateralized line of credit that permits borrowing of up to $24.5 million for the company's joint venture partner, RY-8, in the development of Roy's restaurants (see "—Liquidity and Capital Resources—Debt Guarantees"). We recorded a $24.5 million loss associated with this guarantee in the year ended December 31, 2009.

Goodwill Impairment

We did not record a goodwill impairment charge during the years ended December 31, 2011 and 2010. We recorded a goodwill impairment charge of $58.1 million for the domestic Outback Steakhouse concept during the second quarter of 2009 in connection with our annual impairment test.

Our review of the recoverability of goodwill was based primarily upon an analysis of the discounted cash flows of the related reporting units as compared to their carrying values. These goodwill impairment charges occurred due to poor overall economic conditions, declining sales at our restaurants, reductions in our projected results for future periods and a challenging environment for the restaurant industry (see "—Critical Accounting Policies and Estimates").

Provision for Impaired Assets and Restaurant Closings

	Years Ended December 31,			Years Ended December 31,		
(in millions):	2011	2010	Change	2010	2009	Change
Provision for impaired assets and restaurant closings	$14.0	$5.2	$ 8.8	$5.2	$134.3	$(129.1)

During the years ended December 31, 2011 and 2010 and 2009, we recorded a provision for impaired assets and restaurant closings of $14.0 million, $5.2 million and $134.3 million, respectively, for certain of our restaurants, intangible assets and other assets (see "—Liquidity and Capital Resources—Fair Value Measurements").

During 2009, our provision for impaired assets and restaurant closings primarily included: (i) $46.0 million of impairment charges to reduce the carrying value of the assets of Cheeseburger in Paradise to their estimated fair market value due to our sale of the concept in the third quarter of 2009, (ii) $47.6 million of impairment charges and restaurant closing expense for certain of our other restaurants and (iii) $36.0 million of impairment charges for the domestic Outback Steakhouse and Carrabba's Italian Grill trade names.

We used the discounted cash flow method to determine the fair value of our intangible assets. The trade name impairment charges occurred due to poor overall economic conditions, declining sales at our restaurants, reductions in our projected results for future periods and a challenging environment for the restaurant industry. Restaurant impairment charges primarily resulted from the carrying value of a restaurant's assets exceeding its estimated fair market value, primarily due to anticipated closures or declining future cash flows from lower projected future sales at existing locations (see "—Critical Accounting Policies and Estimates").

Income (Loss) From Operations

(dollars in millions):	Years Ended December 31, 2011	2010	Change	Years Ended December 31, 2010	2009	Change
Income (loss) from operations	$213.5	$168.9		$168.9	$(109.3)	
% of Total revenues	5.6%	4.7%	0.9%	4.7%	(3.0)%	7.7%

Income (loss) from operations increased in 2011 as compared to 2010 and in 2010 as compared to 2009 primarily as a result of a 9.0% and 5.5% increase in operating margins, respectively, higher average unit volumes at our restaurants and certain other items as described above.

Gain on Extinguishment of Debt

During the first quarter of 2009, OSI purchased $240.1 million in aggregate principal amount of its Senior Notes in a cash tender offer. OSI paid $73.0 million for the Senior Notes purchased and $6.7 million of accrued interest. We recorded a gain from the extinguishment of debt of $158.1 million in 2009. The gain was reduced by $6.1 million for the pro rata portion of unamortized deferred financing fees that related to the extinguished Senior Notes and by $3.0 million for fees related to the tender offer.

Interest Expense, Net

(in millions):	Years Ended December 31, 2011	2010	Change	Years Ended December 31, 2010	2009	Change
Interest expense, net	$83.4	$91.4	$ (8.0)	$91.4	$115.9	$(24.5)

The decrease in net interest expense in 2011 as compared to 2010 was primarily due to a $4.6 million decline in interest expense for OSI's senior secured credit facilities, largely as a result of a decline in the total outstanding balance of those facilities, and to $1.4 million of interest expense on our interest rate collar for OSI's senior secured credit facilities during 2010 that was not incurred in 2011 (since the collar matured in 2010).

The decrease in net interest expense in 2010 as compared to 2009 was primarily due to a net $14.1 million decrease in interest expense mainly due to mark to market adjustments on our interest rate collar for OSI's senior secured credit facilities that matured effective September 30, 2010 and a reduction of approximately $5.2 million of interest expense as a result of the $240.1 million decrease in principal outstanding on OSI's senior notes from its completion of a cash tender offer during March of 2009.

Provision (Benefit) For Income Taxes

	Years Ended December 31, 2011	2010	Change	Years Ended December 31 2010	2009	Change
Effective income tax rate	16.6%	26.5%	(9.9)%	26.5%	3.7%	22.8%

The net decrease in the effective income tax rate in 2011 as compared to the previous year was primarily due to the increase in the domestic pretax book income in which the deferred income tax assets are subject to a valuation allowance and the state and foreign income tax provision being a lower percentage of consolidated pretax income as compared to the prior year. The net increase in the effective income tax rate in 2010 as compared to the previous year was primarily due to the effect of the change in the valuation allowance against deferred income tax assets.

The effective income tax rate for the year ended December 31, 2011 was lower than the combined federal and state statutory rate of 38.7% primarily due to the benefit of the tax credit for excess FICA tax on

employee-reported tips and loss on investments as a result of the sale of assets in Japan together being such a large percentage of pretax income. The effective income tax rate for the year ended December 31, 2010 was lower than the combined federal and state statutory rate of 38.9% primarily due to the benefit of the tax credit for excess FICA tax on employee-reported tips, which was partially offset by the valuation allowance and income taxes in states that only have limited deductions in computing the state current income tax provision. The effective income tax rate for the year ended December 31, 2009 was significantly lower than the combined federal and state statutory rate of 38.9% primarily due to an increase in the valuation allowance on deferred income tax assets, which was partially offset by the benefit of the tax credit for excess FICA tax on employee-reported tips being such a large percentage of pretax loss.

Liquidity and Capital Resources

Potential Impacts of Market Conditions on Capital Resources

During 2010 and 2011, we experienced a strengthening of trends in consumer traffic and increases in comparable restaurant sales and operating cash flows, and generated an increase in operating income. However, the restaurant industry continues to be challenged and uncertainty exists as to the sustainability of these favorable trends. We have continued to implement various cost savings initiatives, including food cost decreases through waste reduction and supply chain and labor efficiency initiatives. We developed new menu items to appeal to value-conscious consumers and used marketing campaigns to promote these items.

As of December 31, 2011, we had approximately $82.4 million in available unused borrowing capacity under our working capital revolving credit facility (after giving effect to undrawn letters of credit of approximately $67.6 million) and $67.0 million in available unused borrowing capacity under our pre-funded revolving credit facility that provides financing for capital expenditures only (see “Description of Indebtedness”).

We believe that expected cash flow from operations, planned borrowing capacity, short-term investments and restricted cash balances are adequate to fund debt service requirements, operating lease obligations, capital expenditures and working capital obligations for the next twelve months. At December 31, 2011, we were in compliance with our covenants. However, our ability to continue to meet these requirements and obligations will depend on, among other things, our ability to achieve anticipated levels of revenue and cash flow and our ability to manage costs and working capital successfully.

Summary of Cash Flows

We require capital primarily for principal and interest payments on our debt, prepayment requirements under our term loan facility (see “Description of Indebtedness”), obligations related to our deferred compensation plans, the development of new restaurants, remodeling older restaurants, investments in technology, and acquisitions of franchisees and joint venture partners.

The following table presents a summary of our cash flows provided by (used in) operating, investing and financing activities for the periods indicated (in thousands):

	Years Ended December 31,		
	2009	2010	2011
Net cash provided by operating activities	$195,537	$ 275,154	$ 322,450
Net cash used in investing activities	(39,171)	(71,721)	(113,142)
Net cash used in financing activities	(137,397)	(167,315)	(89,300)
Effect of exchange rate changes on cash and cash equivalents	870	(1,539)	(3,460)
Net increase in cash and cash equivalents	$ 19,839	$ 34,579	$116,548

Operating Activities

Net cash provided by operating activities increased in 2011 as compared to 2010 primarily as a result of the following: (i) an increase in cash generated from restaurant operations due to comparable restaurant sales increases, (ii) certain food, labor and other cost savings initiatives, (iii) an acceleration of certain accounts payable and other related payments prior to the end of 2010 and (iv) a decrease in cash paid for interest, which was $72.1 million for the year ended December 31, 2011 compared to $96.7 million in 2010. The increase in net cash provided by operating activities was partially offset by an increase in other current assets primarily due to an increase in third-party gift card receivables and an increase in cash paid for income taxes, net of refunds, which was $27.7 million for the year ended December 31, 2011 compared to $10.8 million in 2010.

Net cash provided by operating activities increased in 2010 as compared to 2009 primarily as a result of the following: (i) an increase in cash generated from restaurant operations due to comparable restaurant sales increases, (ii) certain food, labor and other cost savings initiatives, (iii) a delay in accounts payable and other related payments at December 31, 2008, (iv) a decrease in cash paid for interest, which was $96.7 million for the year ended December 31, 2010 compared to $109.0 million in 2009 and (v) a decrease in cash paid for income taxes, net of refunds, which was $10.8 million for the year ended December 31, 2010 compared to $21.3 million in 2009. The increase in net cash provided by operating activities was partially offset by (i) a significant decline in inventory during 2009 as a result of utilization of inventory on hand, (ii) a significant increase in bonuses paid during 2010 as compared to 2009 and (iii) an acceleration of certain accounts payable and other related payments prior to the end of 2010.

Investing Activities

Net cash used in investing activities during the year ended December 31, 2011 consisted primarily of capital expenditures of $120.9 million and a royalty termination fee of $8.5 million. This was partially offset by $10.1 million of proceeds from the sale of nine of our company-owned Outback Steakhouse restaurants in Japan. Net cash used in investing activities during the year ended December 31, 2010 consisted primarily of the following: (i) capital expenditures of $60.5 million, (ii) the $11.3 million net difference between restricted cash received and restricted cash used, which was primarily related to the use of restricted cash for deferred compensation plans and (iii) deconsolidated PRG cash of $4.4 million. This was partially offset by the $4.0 million net difference between the proceeds from the sale and purchases of company-owned life insurance. Net cash used in investing activities for the year ended December 31, 2009 was primarily attributable to capital expenditures of $57.5 million and was partially offset by the $10.3 million net difference between the proceeds from the sale and the purchases of company-owned life insurance.

We estimate that our capital expenditures will total between approximately $180.0 million and $210.0 million in 2012. The amount of actual capital expenditures may be affected by general economic, financial, competitive, legislative and regulatory factors, among other things, including restrictions imposed by our borrowing arrangements. We expect to continue to review the level of capital expenditures throughout 2012.

Financing Activities

Net cash used in financing activities during the year ended December 31, 2011 was primarily attributable to the following: (i) repayments of borrowings on long-term debt and OSI's revolving credit facilities of $103.3 million, (ii) the net difference between repayments and receipts of partner deposits and other contributions of $36.0 million and (iii) distributions to noncontrolling interests of $13.5 million. This was partially offset by the collection of the note receivable from T-Bird of $33.3 million and proceeds from borrowings on OSI's revolving credit facilities of $33.0 million. Net cash used in financing activities during the year ended December 31, 2010 was primarily attributable to the following: (i) repayments of borrowings on long-term debt and OSI's revolving credit facilities of $196.8 million, (ii) the net difference between repayment and receipt of partner deposit and accrued buyout contributions of $18.0 million and (iii) distributions to noncontrolling interests of $11.6 million. This was partially offset by proceeds from borrowings on OSI's

revolving credit facilities of $61.0 million. Net cash used in financing activities for the year ended December 31, 2009 was primarily attributable to: (i) $76.0 million of cash paid for the extinguishment of a portion of OSI's Senior Notes and related fees, (ii) repayments of borrowings on long-term debt and OSI's revolving credit facilities of $37.2 million, (iii) $33.3 million of cash paid for the purchase of the note related to OSI's guaranteed debt for T-Bird and (iv) distributions to noncontrolling interests of $9.1 million. Net cash used in financing activities in 2009 was partially offset by $23.7 million of proceeds from borrowings on OSI's revolving credit facilities.

Financial Condition

Current assets increased to $708.3 million at December 31, 2011 as compared with $530.9 million at December 31, 2010 primarily due to an increase in Cash and cash equivalents of $116.5 million. This increase in Cash and cash equivalents was driven by a reduction in net repayments of long-term debt and borrowings on OSI's revolving credit facilities during 2011 as compared to 2010 of $65.5 million, the receipt of a $33.3 million settlement payment from T-Bird in November 2011 and an increase in cash provided by our restaurant operations. This increase was partially offset by $60.4 million of additional capital expenditures during 2011 as compared to 2010. Other current assets also increased $32.6 million driven primarily by a $36.5 million increase in receivables as a result of third-party gift card and promotional sales.

Working capital (deficit) totaled ($248.1) million and ($120.1) million at December 31, 2011 and 2010, respectively, and included Unearned revenue from unredeemed gift cards of $299.6 million and $269.1 million at December 31, 2011 and 2010, respectively. Unearned revenue is a liability that does not require cash settlement.

Current liabilities increased to $956.4 million at December 31, 2011 as compared with $651.0 million at December 31, 2010 primarily due to an increase in the Current portion of long-term debt of $237.6 million as a result of the June 2012 maturity of PRP's CMBS Loan (see "Description of Indebtedness"). This increase was also due to an increase in unearned revenue of $30.5 million as a result of the increase in third-party gift card and promotional sales. Accounts payable also increased $19.1 million driven by an acceleration of certain accounts payable and other related payments prior to the end of 2010 as well as an increase in our construction in progress accrual in 2011 due to increased remodeling activity and new restaurant development.

Transactions

Effective March 14, 2012, we entered into the Sale-Leaseback Transaction with two third-party real estate institutional investors in which we sold 67 restaurant properties at fair market value for $194.9 million. We then simultaneously leased these properties back under nine master leases (collectively, the "REIT Master Leases"). The initial term of the REIT Master Leases are 20 years with four five-year renewal options. One renewal period is at a fixed rental amount and the last three renewal periods are generally based on then-current fair market values. The sale at fair market value and subsequent leaseback qualified for sale-leaseback accounting treatment, and the REIT Master Leases are classified as operating leases. We will defer the recognition of the $42.7 million gain on the sale of certain of the properties over the initial term of the lease. In accordance with the applicable accounting guidance, the 67 restaurant properties are not classified as held for sale at December 31, 2011 since we will be leasing back the properties.

Credit Facilities and Other Indebtedness

Bloomin' Brands is a holding company and conducts its operations through its subsidiaries, certain of which have incurred their own indebtedness as described below.

On June 14, 2007, OSI entered into senior secured credit facilities with a syndicate of institutional lenders and financial institutions. These senior secured credit facilities provide for senior secured financing of up

to $1.6 billion, consisting of a $1.3 billion term loan facility, a $150.0 million working capital revolving credit facility, including letter of credit and swing-line loan sub-facilities, and a $100.0 million pre-funded revolving credit facility that provides financing for capital expenditures only.

The senior secured term loan facility matures June 14, 2014. At each rate adjustment, OSI has the option to select a Base Rate plus 125 basis points or a Eurocurrency Rate plus 225 basis points for the borrowings under this facility. The Base Rate option is the higher of the prime rate of Deutsche Bank AG New York Branch and the federal funds effective rate plus 0.5 of 1% (3.25% at December 31, 2011 and 2010). The Eurocurrency Rate option is the 30, 60, 90 or 180-day Eurocurrency Rate (ranging from 0.38% to 0.88% and from 0.31% to 0.50% at December 31, 2011 and 2010, respectively). The Eurocurrency Rate may have a nine- or twelve-month interest period if agreed upon by the applicable lenders. With either the Base Rate or the Eurocurrency Rate, the interest rate is reduced by 25 basis points if the associated Moody's Applicable Corporate Rating then most recently published is B1 or higher (the rating was Caa1 at December 31, 2011 and 2010).

OSI is required to prepay outstanding term loans, subject to certain exceptions, with:

- 50% of its "annual excess cash flow" (with step-downs to 25% and 0% based upon its rent-adjusted leverage ratio), as defined in the credit agreement and subject to certain exceptions;
- 100% of its "annual minimum free cash flow," as defined in the credit agreement, not to exceed $75.0 million for each fiscal year, if its rent-adjusted leverage ratio exceeds a certain minimum threshold;
- 100% of the net proceeds of certain assets sales and insurance and condemnation events, subject to reinvestment rights and certain other exceptions; and
- 100% of the net proceeds of any debt incurred, excluding permitted debt issuances.

Additionally, OSI is required, on an annual basis, to first, repay outstanding loans under the pre-funded revolving credit facility and second, fund a capital expenditure account to the extent amounts on deposit are less than $100.0 million, in both cases with 100% of its "annual true cash flow," as defined in the credit agreement. In accordance with these requirements, in April 2012, OSI is required to repay its pre-funded revolving credit facility outstanding loan balance of $33.0 million and fund $37.6 million to its capital expenditure account using its "annual true cash flow." In April 2011, OSI repaid its pre-funded revolving credit facility outstanding loan balance of $78.1 million and funded $60.5 million to its capital expenditure account.

OSI's senior secured credit facilities require scheduled quarterly payments on the term loans equal to 0.25% of the original principal amount of the term loans for the first six years and three quarters following June 14, 2007. These payments are reduced by the application of any prepayments, and any remaining balance will be paid at maturity. The outstanding balance on the term loans was $1.0 billion at December 31, 2011 and 2010. OSI classified $13.1 million of its term loans as current at December 31, 2011 and 2010 due to its required quarterly payments and the results of its covenant calculations, which indicate the additional term loan prepayments, as described above, will not be required. In October 2011, we sold our nine company-owned Outback Steakhouse restaurants in Japan to a subsidiary of S Foods, Inc. and used the net cash proceeds from this sale to pay down $7.5 million of OSI's outstanding term loans in accordance with the terms of the OSI credit agreement amended in January 2010.

Proceeds of loans and letters of credit under OSI's $150.0 million working capital revolving credit facility provide financing for working capital and general corporate purposes and, subject to a rent-adjusted leverage condition, for capital expenditures for new restaurant growth. This revolving credit facility matures June 14, 2013 and bears interest at rates ranging from 100 to 150 basis points over the Base Rate or 200 to 250 basis points over the Eurocurrency Rate. There were no loans outstanding under the revolving credit facility at December 31, 2011 and 2010; however, $67.6 million and $70.3 million, respectively, of the credit facility was

committed for the issuance of letters of credit and not available for borrowing. OSI may have to extend additional letters of credit in the future. If the need for letters of credit exceeds the $75.0 million maximum permitted by OSI's working capital revolving credit facility, OSI may have to use cash to fulfill its collateral requirements. Fees for the letters of credit range from 2.00% to 2.25% and the commitment fees for unused working capital revolving credit commitments range from 0.38% to 0.50%.

Proceeds of loans under OSI's $100.0 million pre-funded revolving credit facility, which expires on June 14, 2013, are available to provide financing for capital expenditures, if the capital expenditure account described above has a zero balance. As of December 31, 2011 and 2010, OSI had $33.0 million and $78.1 million, respectively, outstanding on its pre-funded revolving credit facility. These borrowings were recorded in "Current portion of long-term debt" in our Consolidated Balance Sheets, as OSI is required to repay any outstanding borrowings in April following each fiscal year using its "annual true cash flow," as defined in the credit agreement. At each rate adjustment, OSI has the option to select the Base Rate plus 125 basis points or a Eurocurrency Rate plus 225 basis points for the borrowings under this facility. In either case, the interest rate is reduced by 25 basis points if the associated Moody's Applicable Corporate Rating then most recently published is B1 or higher. Fees for the unused portion of the pre-funded revolving credit facility are 2.43%.

At December 31, 2011 and 2010, OSI was in compliance with its debt covenants. See "Description of Indebtedness" for further information about OSI's debt covenants.

On June 14, 2007, Private Restaurant Properties LLC, or PRP, our indirect wholly owned subsidiary, entered into first mortgage and mezzanine loans (together, the commercial mortgage-backed securities loan, or the "CMBS Loan") totaling $790.0 million. As part of the CMBS Loan, the lenders had a security interest in PRP's properties and related improvements located throughout the United States and direct and indirect equity interests in PRP.

The CMBS Loan comprised a note payable and four mezzanine notes. The CMBS Loan had a maturity date of June 9, 2011, subject to one additional one-year extension by PRP to a maximum maturity date of June 9, 2012. During 2011, PRP exercised the one-year extension.

All notes bore interest at the one-month London Interbank Offered Rate ("LIBOR") which was 0.28% and 0.27% at December 31, 2011 and 2010, respectively, plus an applicable spread which ranges from 0.51% to 4.25%. Interest-only payments were made on the ninth calendar day of each month and interest accrued beginning on the fifteenth calendar day of the preceding month.

PRP's CMBS Loan required it to comply with certain financial covenants, including a lease coverage ratio and a loan to value ratio as defined in the CMBS Loan agreement. The CMBS Loan also contained customary representations, warranties, affirmative covenants and events of default. Upon disposal of any location that collateralizes the CMBS Loan, PRP was required to pay the portion of the CMBS Loan principal that related to each disposed location. During the years ended December 31, 2011 and 2010, PRP did not dispose of any locations and therefore did not pay any principal on the CMBS Loan for disposed locations. At December 31, 2011 and 2010, the outstanding balance on PRP's CMBS Loan was $775.3 million and $774.7 million, respectively.

Effective March 27, 2012, New Private Restaurant Properties, LLC and two of our other indirect wholly-owned subsidiaries entered into the 2012 CMBS Loan. The 2012 CMBS Loan totals $500.0 million and comprises a first mortgage loan in the amount of $324.8 million, collateralized by 261 of our properties, and two mezzanine loans totaling $175.2 million. The loans have a maturity date of April 10, 2017. The first mortgage loan has five fixed rate components and a floating rate component. The fixed rate components bear interest at a rate of 2.37% to 6.81% per annum. The floating rate component bears interest at a rate per annum equal to the 30-day LIBOR rate (with a floor of 1%) plus 2.37%. The first mezzanine loan bears interest at a rate of 9.0% per annum, and the second mezzanine loan bears interest at a rate of 11.25% per annum. The proceeds from the 2012 CMBS Loan, together with the proceeds from the Sale-Leaseback Transaction in March 2012 (see "—Liquidity

and Capital Resources—Transactions") and excess cash held in PRP, were used to repay the existing CMBS Loan. As a result of the 2012 CMBS Loan refinancing, the net amount repaid along with scheduled maturities within one year, $281.3 million, was classified as current at December 31, 2011. During the first quarter of 2012, we recorded a $2.9 million Loss on extinguishment of debt. See "Description of Indebtedness" for a further description of the 2012 CMBS Loan.

On June 14, 2007, OSI issued Senior Notes in an original aggregate principal amount of $550.0 million under an indenture among OSI, as issuer, OSI Co-Issuer, Inc., as co-issuer ("Co-Issuer"), a third-party trustee and the Guarantors. The Senior Notes mature on June 15, 2015. Interest is payable semiannually in arrears, at 10% per annum, in cash on each June 15 and December 15. Interest payments to the holders of record of the Senior Notes occur on the immediately preceding June 1 and December 1. Interest is computed on the basis of a 360-day year consisting of twelve 30-day months. The principal balance of Senior Notes outstanding at December 31, 2011 and 2010 was $248.1 million. See "Description of Indebtedness" for a further description of the Senior Notes.

We may from time to time seek to retire or purchase our outstanding debt through cash purchases in the open market, privately negotiated transactions or otherwise. Such repurchases or exchanges, if any, will depend on prevailing market conditions, our liquidity requirements, contractual restrictions and other factors. The amounts involved may be material.

During the first quarter of 2009, OSI purchased $240.1 million in aggregate principal amount of its Senior Notes in a cash tender offer. OSI paid $73.0 million for the Senior Notes purchased and $6.7 million of accrued interest. We recorded a gain from the extinguishment of debt of $158.1 million in the line item "Gain on extinguishment of debt" in our Consolidated Statement of Operations for the year ended December 31, 2009. The gain was reduced by $6.1 million for the pro rata portion of unamortized deferred financing fees that related to the extinguished Senior Notes and by $3.0 million for fees related to the tender offer. The purpose of the tender offer was to reduce the principal amount of debt outstanding, reduce the related debt service obligations and improve OSI's financial covenant position under its senior secured credit facilities.

As of December 31, 2011 and 2010, OSI had approximately $9.1 million and $7.6 million, respectively, of notes payable at interest rates ranging from 0.76% to 7.00% and from 1.07% to 7.00%, respectively. These notes have been primarily issued for buyouts of managing and area operating partner interests in the cash flows of their restaurants and generally are payable over a period of two through five years.

Debt Guarantees

OSI is the guarantor of an uncollateralized line of credit that permits borrowing of up to $24.5 million for its joint venture partner, RY-8, in the development of Roy's restaurants. The line of credit originally expired in December 2004 and was amended for a fourth time on April 1, 2009 to a revised termination date of April 15, 2013. According to the terms of the credit agreement, RY-8 may borrow, repay, re-borrow or prepay advances at any time before the termination date of the agreement. On the termination date of the agreement, the entire outstanding principal amount of the loan then outstanding and any accrued interest is due. At December 31, 2011 and 2010, the outstanding balance on the line of credit was $24.5 million.

RY-8's obligations under the line of credit are unconditionally guaranteed by OSI and Roy's Holdings, Inc. ("RHI"). If an event of default occurs, as defined in the agreement, the total outstanding balance, including any accrued interest, is immediately due from the guarantors. At December 31, 2011 and 2010, $24.5 million of OSI's $150.0 million working capital revolving credit facility was committed for the issuance of a letter of credit for this guarantee.

OSI is not aware of any non-compliance with the underlying terms of the borrowing agreements for which it provides a guarantee that would result in it having to perform in accordance with the terms of the guarantee.

Goodwill and Indefinite-Lived Intangible Assets

During the second quarter of 2011, we performed our annual assessment for impairment of goodwill and other indefinite-lived intangible assets. Our review of the recoverability of goodwill was based primarily upon an analysis of the discounted cash flows of the related reporting units as compared to the carrying values. We also used the discounted cash flow method to determine the fair value of our indefinite-lived intangible assets. We did not record any goodwill or indefinite-lived intangible asset impairment charges as a result of this assessment and determined that none of our reporting units are at risk for material goodwill impairment.

Fair Value Measurements

Fair value is the price that would be received upon sale of an asset or paid upon transfer of a liability in an orderly transaction between market participants at the measurement date (exit price) and is a market-based measurement, not an entity-specific measurement. To measure fair value, we incorporate assumptions that market participants would use in pricing the asset or liability, and utilize market data to the maximum extent possible. Measurement of fair value incorporates nonperformance risk (i.e., the risk that an obligation will not be fulfilled). In measuring fair value, we reflect the impact of our own credit risk on our liabilities, as well as any collateral. We also consider the credit standing of our counterparties in measuring the fair value of our assets.

We are highly leveraged and are exposed to interest rate risk to the extent of our variable-rate debt. In September 2007, we entered into an interest rate collar with a notional amount of $1.0 billion as a method to limit the variability of OSI's senior secured credit facilities. The collar consisted of a LIBOR cap of 5.75% and a LIBOR floor of 2.99%. The collar's first variable-rate set date was December 31, 2007, and the option pairs expired at the end of each calendar quarter beginning March 31, 2008 and ending September 30, 2010. The quarterly expiration dates corresponded to the scheduled amortization payments of OSI's term loan. Our interest rate collar matured on September 30, 2010. We expensed $19.9 million and $21.4 million of interest for the years ended December 31, 2010 and 2009, respectively, as a result of the quarterly expiration of the collar's option pairs. We recorded mark-to-market changes in the fair value of the derivative instrument in earnings in the period of change. We included $18.5 million and $5.8 million of net interest income for the years ended December 31, 2010 and 2009, respectively, in the line item "Interest expense" in our Consolidated Statements of Operations for the mark-to-market effects of this derivative instrument.

We used an interest rate cap with a notional amount of $775.7 million as a method to limit the volatility of PRP's variable-rate CMBS Loan. Under this interest rate cap, interest rate payments had a ceiling of 6.31%. If the market rate exceeded the ceiling, the counterparty was required to pay us an amount sufficient to reduce the interest payment to 6.31%. The interest rate cap did not have any fair market value at December 31, 2011 and 2010. If necessary, we would record mark-to-market changes in the fair value of this derivative instrument in earnings in the period of change. The effects of this interest rate cap were immaterial to our consolidated financial statements for all periods presented.

We invested $37.7 million and $51.4 million of our excess cash in money market funds classified as Cash and cash equivalents or restricted cash on our Consolidated Balance Sheet at December 31, 2011 and 2010 at a net value of 1:1 for each dollar invested. The fair value of the investment in the money market funds is determined by using quoted prices for identical assets in an active market. As a result, we have determined that the inputs used to value this investment fall within Level 1 of the fair value hierarchy.

During the year ended December 31, 2011, we did not have any goodwill and other indefinite-lived intangible asset impairment charges, but we did incur impairment charges on long-lived assets held and used as a result of fair value measurements on a nonrecurring basis. We used a discounted cash flow model (Level 3) and quoted prices from brokers (Level 1) to estimate the fair value of the long-lived assets. Discount rate and growth rate assumptions are derived from current economic conditions, expectations of management and projected

trends of current operating results. We recorded $11.6 million of impairment charges as a result of the fair value measurement on a nonrecurring basis of our long-lived assets held and used during the year ended December 31, 2011. The impaired long-lived assets had $30.8 million of remaining fair value at December 31, 2011.

Sales declines at our restaurants, unplanned increases in health insurance, commodity or labor costs, deterioration in overall economic conditions and challenges in the restaurant industry may result in future impairment charges. It is possible that changes in circumstances or changes in our judgments, assumptions and estimates, could result in a future impairment charge of a portion or all of our goodwill, other intangible assets or long-lived assets held and used.

During the year ended December 31, 2010, we did not incur any goodwill and other indefinite-lived intangible asset impairment charges or any other material impairment charges as a result of fair value measurements on a nonrecurring basis.

We recorded $91.4 million of impairment charges as a result of the fair value measurement on a nonrecurring basis of our long-lived assets held and used during the year ended December 31, 2009. The impaired long-lived assets had $9.3 million of remaining fair value at December 31, 2009.

We performed a separate valuation for five of our closed restaurant sites that collateralize the CMBS Loan using quoted prices from brokers for similar properties. The restaurant sites were written down to fair value resulting in impairment charges of $7.3 million (included in the total above) during the year ended December 31, 2009. We determined that the majority of these inputs are observable inputs that fall within Level 2 of the fair value hierarchy.

Due to the third quarter of 2009 sale of our Cheeseburger in Paradise concept, we recorded a $46.0 million impairment charge (included in the total above) during the second quarter of 2009 to reduce the carrying value of this concept's long-lived assets to their estimated fair market value. We used a weighted-average probability analysis and estimates of expected future cash flows to determine the fair value of this concept. We have determined that the majority of the inputs used to value this concept are unobservable inputs that fall within Level 3 of the fair value hierarchy.

We used a discounted cash flow model to estimate the fair value of the remaining long-lived assets held and used in the total above. Discount rate and growth rate assumptions are derived from current economic conditions, expectations of management and projected trends of current operating results. We have determined that the majority of these inputs are unobservable inputs that fall within Level 3 of the fair value hierarchy. The long-lived assets were written down to fair value, resulting in impairment charges of $38.1 million (included in the total above) during the year ended December 31, 2009.

We recorded goodwill impairment charges of $58.1 million and indefinite-lived intangible asset impairment charges of $36.0 million during the year ended December 31, 2009 as a result of our annual impairment test. We test both our goodwill and our indefinite-lived intangible assets, which are trade names, for impairment by utilizing discounted cash flow models to estimate their fair values. These cash flow models

involve several assumptions. Changes in our assumptions could materially impact our fair value estimates. Assumptions critical to our fair value estimates are: (i) weighted-average cost of capital rates used to derive the present value factors used in determining the fair value of the reporting units and trade names; (ii) projected annual revenue growth rates used in the reporting unit and trade name models; and (iii) projected long-term growth rates used in the derivation of terminal year values. Other assumptions include estimates of projected capital expenditures and working capital requirements. These and other assumptions are impacted by economic conditions and expectations of management and will change in the future based on period-specific facts and circumstances. As a result, we have determined that the majority of the inputs used to value our goodwill and indefinite-lived intangible assets are unobservable inputs that fall within Level 3 of the fair value hierarchy.

The following table presents the range of assumptions we used to derive our fair value estimates among our reporting units, which vary between goodwill and trade names, during the annual impairment test conducted in the second quarter of 2009:

	Assumptions	
	Goodwill	Trade Names
Weighted-average cost of capital	12.5% -15.0%	13.0% -14.0%
Long-term growth rates	3.0%	3.0%
Annual revenue growth rates	(6.9)% -12.0%	(3.9)% - 5.0%

Stock-Based and Deferred Compensation Plans

Managing and Chef Partners

Historically, the managing partner of each company-owned domestic restaurant and the chef partner of each Fleming's and Roy's restaurant were required, as a condition of employment, to sign a five-year employment agreement and to purchase a non-transferable ownership interest in a partnership ("Management Partnership") that provided management and supervisory services to his or her restaurant. The purchase price for a managing partner's ownership interest was fixed at $25,000, and the purchase price for a chef partner's ownership interest ranged from $10,000 to $15,000. Managing and chef partners had the right to receive monthly distributions from the Management Partnership based on a percentage of their restaurant's monthly cash flows for the duration of the agreement, which varied by concept from 6% to 10% for managing partners and 2% to 5% for chef partners. Further, managing and chef partners were eligible to participate in the Partner Equity Plan ("PEP"), a deferred compensation program, upon completion of their five-year employment agreement.

In April 2011, we implemented modifications to our managing and chef partner compensation structure to provide greater incentives for sales and profit growth. Under the revised program, managing and chef partners continue to sign five-year employment agreements and receive monthly distributions of the same percentage of their restaurant's cash flow as under the prior program. However, under the revised program, in lieu of participation in the PEP, managing partners and chef partners are eligible to receive deferred compensation payments under a new Partner Ownership Account Plan (the "POA"). The POA places greater emphasis on year-over-year growth in cash flow than the PEP. Managing and chef partners will receive a greater value under the POA than they would have received under the PEP if certain levels of year-over-year cash flow growth are achieved and a lesser value than under the PEP if these levels are not achieved.

The POA requires managing and chef partners to make an initial deposit of up to $10,000 into their "Partner Investment Account," and we will make a bookkeeping contribution to each partner's "Company Contributions Account" no later than the end of February of each year following the completion of each year (or partial year where applicable) under the partner's employment agreement. The value of each of our contributions will be equal to a percentage of the partner's restaurant's positive distributable cash flow plus, if the restaurant has been open at least 18 calendar months, a percentage of the year-over-year increase in the restaurant's positive distributable cash flow in accordance with the terms described in the partner's employment agreement.

The revised program also provides an annual bonus known as the President's Club, paid in addition to the monthly distributions of cash flow, designed to reward increases in annual sales above the concept sales plan with a required flow-through percentage of the incremental sales to cash flow. Managing and chef partners whose restaurants achieve certain annual sales targets (and the required flow-through percentage) receive a bonus equal to a percentage of the incremental sales, such percentage determined by the sales target achieved.

Amounts credited to each partner's account under the POA may be allocated by the partner among benchmark funds offered under the POA, and the account balances of the partner will increase or decrease based on the performance of the benchmark funds. Upon termination of employment, all remaining balances in the Company Contributions Account in the POA are forfeited unless the partner has been with us for twenty years or more. Unless previously forfeited under the terms of the POA, 50% of the partner's total account balances generally will be distributed in the March following the completion of the initial five-year contract term with subsequent distributions varying based on the length of continued employment as a partner. The deferred compensation obligations under the POA are our unsecured obligations.

All managing and chef partners who execute new employment agreements after May 1, 2011 are required to participate in the new partner program, including the POA. Managing and chef partners with a current employment agreement scheduled to expire December 1, 2011 or later had the opportunity (from April 27, 2011 through July 27, 2011) to amend their employment agreements to convert their existing partner program to participation in the new partner program, including the POA, effective June 1, 2011. As a result of this conversion, $2.7 million of our total partner deposit liability was accelerated for the return of partners' capital that was required under the old program. As of December 31, 2011, our POA liability was $8.0 million which was recorded in the line item "Partner deposits and accrued partner obligations" in our Consolidated Balance Sheet.

Upon the closing of the Merger, certain stock options that had been granted to managing and chef partners under a pre-merger managing partner stock plan (the "MP Stock Plan") upon completion of a previous employment contract were converted into the right to receive cash in the form of a "Supplemental PEP" contribution. Additionally, all outstanding, unvested partner employment grants of restricted stock under the MP Stock Plan were converted into the right to receive cash on a deferred basis. Additionally, certain members of management were given the option to either convert some or all of their restricted stock granted under the pre-merger stock plan in the same manner as managing partners or convert some or all of it into restricted stock of Kangaroo Holdings, now known as Bloomin' Brands. Grants of restricted stock under the pre-merger stock plan that converted into the right to receive cash are referred to as "Restricted Stock Contributions."

As of December 31, 2011, our total vested liability with respect to obligations primarily under the PEP, Supplemental PEP and Restricted Stock Contributions was approximately $107.8 million, of which $11.8 million and $96.0 million was included in the line items "Accrued and other current liabilities" and "Other long-term liabilities," respectively, in our Consolidated Balance Sheet. As of December 31, 2010, our total vested liability with respect to obligations primarily under the PEP, Supplemental PEP and Restricted Stock Contributions was approximately $101.4 million, of which $14.0 million and $87.5 million was included in the line items "Accrued and other current liabilities" and "Other long-term liabilities," respectively, in our Consolidated Balance Sheet. Partners and management may allocate the contributions into benchmark investment funds, and these amounts due to participants will fluctuate according to the performance of their allocated investments and may differ materially from the initial contribution and current obligation.

Prior to the Merger, certain partners participating in the PEP were to receive common stock ("Partner Shares") upon completion of their employment contract. Upon closing of the Merger, these partners were entitled to receive a deferred payment of cash instead of common stock upon completion of their current employment term. Partners will not receive the deferred cash payment if they resign or are terminated for cause prior to completing their current employment terms. There will not be any future earnings or losses on these amounts prior to payment to the partners. The amount accrued for the Partner Shares obligation was approximately $0.7

million as of December 31, 2011 and was included in the line item "Accrued and other current liabilities" in our Consolidated Balance Sheet. The amount accrued for the Partner Shares obligation was approximately $6.6 million as of December 31, 2010, of which $6.5 million and $0.1 million was included in the line items "Accrued and other current liabilities" and "Other long-term liabilities," respectively, in our Consolidated Balance Sheet.

As of December 31, 2011 and 2010, we had approximately $56.9 million and $58.0 million, respectively, in various corporate owned life insurance policies and another $0.3 million and $1.0 million, respectively, of restricted cash, both of which are held within an irrevocable grantor or "rabbi" trust account for settlement of our obligations under the PEP, Supplemental PEP, Restricted Stock Contributions and POA. We are the sole owner of any assets within the rabbi trust and participants are considered our general creditors with respect to assets within the rabbi trust.

As of December 31, 2011 and 2010, there were $55.6 million and $49.0 million, respectively, of unfunded obligations related to the PEP, Supplemental PEP, Restricted Stock Contributions, Partner Shares liabilities and POA, excluding amounts not yet contributed to the partners' investment funds, which may require the use of cash resources in the future.

We require the use of capital to fund the PEP and the POA as each managing and chef partner earns a contribution, and currently estimate funding requirements ranging from $21.0 million to $23.0 million for PEP and from $4.0 million to $6.0 million for POA in each of the two years through December 31, 2013. Actual funding of the current PEP and POA obligations and future funding requirements may vary significantly depending on timing of partner contracts, forfeiture rates and numbers of partner participants and may differ materially from estimates.

Area Operating Partners

Area operating partners are required, as a condition of employment and within 30 days of the opening of his or her first restaurant, to make an initial investment of $50,000 in the Management Partnership that provides supervisory services to the restaurants that the area operating partner oversees. This interest gives the area operating partner the right to distributions from the Management Partnership based on a percentage of his or her restaurants' monthly cash flows for the duration of the agreement, typically ranging from 4% to 9%. We have the option to purchase an area operating partner's interest in the Management Partnership after the restaurant has been open for a five-year period on the terms specified in the agreement.

For restaurants opened on or after January 1, 2007, the area operating partner's percentage of cash distributions and buyout percentage is calculated based on the associated restaurant's return on investment compared to our targeted return on investment and may range from 3.0% to 12.0%. This percentage is determined after the first five full calendar quarters from the date of the associated restaurant's opening and is adjusted each quarter thereafter based on a trailing 12-month restaurant return on investment. The buy-out percentage is the area operating partner's average distribution percentage for the 24 months immediately preceding the buy-out. Buyouts are paid in cash within 90 days or paid over a two-year period.

In 2011, we also began a version of the President's Club annual bonus described above under "—Managing and Chef Partners" for area operating partners to provide additional rewards for achieving sales targets with a required flow-through of the incremental sales to cash flow.

Highly Compensated Employees

We provide a deferred compensation plan for our highly compensated employees who are not eligible to participate in the OSI Restaurant Partners, LLC Salaried Employees 401(k) Plan and Trust. The deferred compensation plan allows these employees to contribute from 5% to 90% of their base salary and up to 100% of their cash bonus on a pre-tax basis to an investment account consisting of various investment fund options. We

do not currently intend to provide any matching or profit-sharing contributions, and participants are fully vested in their deferrals and their related returns. Participants are considered unsecured general creditors in the event of our bankruptcy or insolvency.

Income Taxes

As of December 31, 2011, we had $482.1 million in cash and cash equivalents (excluding restricted cash of $24.3 million), of which approximately $82.2 million was held by foreign affiliates, a portion of which would be subject to additional taxes if repatriated to the United States. Based on domestic cash and working capital projections, we believe we will generate sufficient cash flows from our United States operations to meet our future debt repayment requirements, anticipated working capital needs and planned capital expenditures in the United States, as well as all of our other domestic business needs.

A provision for income taxes has not been recorded for any United States or additional foreign taxes on undistributed earnings related to our foreign affiliates as these earnings were and are expected to continue to be permanently reinvested. If we identify an exception to our general reinvestment policy of undistributed earnings, additional taxes will be posted. It is not practical to determine the amount of unrecognized deferred income tax liabilities on the undistributed earnings. The international jurisdictions in which we operate do not have any known restrictions that would prohibit the repatriation of cash and cash equivalents.

Dividends

Payment of dividends by OSI to Bloomin' Brands is prohibited under OSI's credit agreements, except for certain limited circumstances.

Our board of directors does not intend to pay regular dividends on our common stock after the offering. However, we expect to reevaluate our dividend policy on a regular basis following the offering and may, subject to compliance with the covenants contained in our senior credit facility and other considerations, determine to pay dividends in the future.

Other Material Commitments

Our contractual obligations, debt obligations, commitments and debt guarantees as of December 31, 2011 are summarized in the table below (in thousands):

(1) Timing of long-term debt payments assume that OSI's rent-adjusted leverage ratio is greater than or equal to 5.25 to 1.00. Long-term debt excludes our potential obligations under debt guarantees (shown separately above). Amounts include the CMBS Loan totaling $790.0 million, which had a maturity date of June 9, 2012. Effective March 27, 2012, New PRP entered into the 2012 CMBS Loan totaling $500.0 million. The 2012 CMBS Loan is a five-year loan maturing on April 10, 2017. As a result of the 2012 CMBS Loan refinancing, the net amount repaid along with scheduled maturities within one year, $281.3 million, was classified as current at December 31, 2011 (see "Description of Indebtedness").

(2) Includes interest on OSI's Senior Notes with an outstanding balance of $248.1 million and interest estimated on OSI's senior secured term loan facility, OSI's senior secured pre-funded revolving credit facility and the CMBS Loan with outstanding balances of $1.0 billion, $33.0 million and $775.3 million, respectively, at December 31, 2011. Projected future interest payments for OSI's variable-rate senior secured credit facilities are based on interest rates in effect at December 31, 2011, and projected future interest payments for the CMBS Loan are based on interest rates in effect during the first quarter of 2012 as well as the interest rate that will apply to the 2012 CMBS Loan. Interest obligations also include letter of credit and commitment fees for the used and unused portions of OSI's senior secured working capital revolving credit facility, commitment fees for the used and unused portions of OSI's pre-funded revolving credit facility and interest related to OSI's capital lease obligations. Interest on OSI's notes payable issued for the return of capital to managing and area operating partners and the buyouts of area operating partner interests has been excluded from the table. In addition, interest expense associated with deferred financing fees was excluded from the table as the expense is non-cash in nature.

(3) Total minimum lease payments have not been reduced by minimum sublease rentals of $3.0 million due in future periods under non-cancelable subleases. On March 14, 2012, we entered into the Sale-Leaseback Transaction with two third-party real estate institutional investors in which we sold 67 restaurant properties and then simultaneously leased these properties back under nine master leases with initial terms of 20 years each. As a result, we will have an additional $362.6 million of operating lease payments over the initial terms of these lease agreements.

(4) We have minimum purchase commitments with various vendors through June 2016. Outstanding minimum purchase commitments consist primarily of beef, cheese, potatoes and other food and beverage products, as well as, commitments for advertising, marketing, sports sponsorships, printing and technology.

(5) Timing of payments of partner deposits and accrued partner obligations are estimates only and may vary significantly in amounts and timing of settlement based on employee turnover, return of deposits to us in accordance with employee agreements and changes to buyout values of employee partners.

(6) Other long-term liabilities include but are not limited to: long-term insurance accruals, long-term incentive plan compensation for certain officers, long-term portion of amounts owed to managing and chef partners and certain members of management for various compensation programs, long-term portion of operating leases for closed restaurants, long-term severance expenses and long-term split dollar arrangements on life insurance policies. The long-term portion of the liability for unrecognized tax benefits and the related accrued interest and penalties were $1.5 million and $1.2 million, respectively, at December 31, 2011. These amounts were excluded from the table since it is not possible to estimate when these future payments will occur. In addition, net unfavorable leases and other miscellaneous items of approximately $62.3 million at December 31, 2011 were excluded from the table as payments are not associated with these liabilities.

(7) Other current liabilities include the current portion of the liability for unrecognized tax benefits and the accrued interest and penalties related to uncertain tax positions, the current portion of insurance accruals, the current portion of operating leases for closed restaurants, the current portion of severance expenses and the current portion of amounts owed to managing and chef partners and certain members of management for various compensation programs.

Critical Accounting Policies and Estimates

Our discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these accompanying consolidated financial

statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities during the reporting period. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. We consider an accounting estimate to be critical if it requires assumptions to be made and changes in these assumptions could have a material impact on our consolidated financial condition or results of operations.

Property, Fixtures and Equipment

Property, fixtures and equipment are stated at cost, net of accumulated depreciation. Depreciation is computed on the straight-line method over the estimated useful lives of the assets. Improvements to leased properties are depreciated over the shorter of their useful life or the lease term, which includes renewal periods that are reasonably assured. The useful lives of the assets are based upon our expectations for the period of time that the asset will be used to generate revenues. We periodically review the assets for changes in circumstances, which may impact their useful lives.

Buildings and building improvements	20 to 30 years
Furniture and fixtures	5 to 7 years
Equipment	2 to 7 years
Leasehold improvements	5 to 20 years
Capitalized software	3 to 5 years

Our accounting policies regarding property, fixtures and equipment include certain management judgments and projections regarding the estimated useful lives of these assets, the residual values to which the assets are depreciated or amortized, the determination of expected lease terms and the determination of what constitutes increasing the value and useful life of existing assets. These estimates, judgments and projections may produce materially different amounts of depreciation and amortization expense than would be reported if different assumptions were used.

Operating Leases

Rent expense for our operating leases, which generally have escalating rentals over the term of the lease and may include potential rent holidays, is recorded on a straight-line basis over the initial lease term and those renewal periods that are reasonably assured. The initial lease term includes the “build-out” period of our leases, which is typically before rent payments are due under the terms of the lease. The difference between rent expense and rent paid is recorded as deferred rent and is included in the Consolidated Balance Sheets. Payments received from landlords as incentives for leasehold improvements are recorded as deferred rent and are amortized on a straight-line basis over the term of the lease as a reduction of rent expense. Lease termination fees, if any, and future obligated lease payments for closed locations are recorded as an expense in the period they are incurred. Exit-related lease obligations of $0.8 million and $1.1 million are recorded in “Accrued and other current liabilities” and $0.4 million and $0.4 million are recorded in “Other long-term liabilities” in our Consolidated Balance Sheets as of December 31, 2011 and 2010, respectively. Assets and liabilities resulting from the Merger relating to favorable and unfavorable lease amounts are amortized on a straight-line basis to rent expense over the remaining lease term.

Impairment or Disposal of Long-Lived Assets

We assess the potential impairment of definite lived intangibles, including trademarks, franchise agreements and net favorable leases, and other long-lived assets whenever events or changes in circumstances indicate that the carrying value may not be recoverable. In evaluating long-lived restaurant assets for impairment, we consider a number of factors relevant to the assets’ current market value and future ability to generate cash flows.

If these factors indicate that we should review the carrying value of the restaurant's long-lived assets, we perform a two-step impairment analysis. Each of our restaurants is evaluated individually for impairment since that is the lowest level at which identifiable cash flows can be measured independently from cash flows of other asset groups. If the total future undiscounted cash flows expected to be generated by the assets are less than the carrying amount, as prescribed by step one testing, recoverability is measured in step two by comparing fair value of the asset to its carrying amount. Should the carrying amount exceed the asset's estimated fair value, an impairment loss is charged to earnings. Restaurant fair value is determined based on estimates of discounted future cash flows; and impairment charges primarily occur as a result of the carrying value of a restaurant's assets exceeding its estimated fair market value, primarily due to anticipated closures or declining future cash flows from lower projected future sales at existing locations.

The company incurred total long-lived asset impairment charges and restaurant closing expense of $14.0 million, $5.2 million and $95.4 million for the years ended December 31, 2011, 2010 and 2009, respectively (see "—Results of Operations—Costs and Expenses—Provision for Impaired Assets and Restaurant Closings"). All impairment charges are recorded in the line item "Provision for impaired assets and restaurant closings" in our Consolidated Statements of Operations.

Our judgments and estimates related to the expected useful lives of long-lived assets are affected by factors such as changes in economic conditions, operating performance and expected use. As we assess the ongoing expected cash flows and carrying amounts of our long-lived assets, these factors could cause us to realize a material impairment charge.

Restaurant sites and certain other assets to be sold are included in assets held for sale when certain criteria are met, including the requirement that the likelihood of selling the assets within one year is probable. For assets that meet the held for sale criteria, we separately evaluate whether the assets also meet the requirements to be reported as discontinued operations. If we no longer had any significant continuing involvement with respect to the operations of the assets and cash flows were discontinued, we would classify the assets and related results of operations as discontinued. Assets whose sale is not probable within one year remain in property, fixtures and equipment until their sale is probable within one year. We had $1.3 million of assets held for sale as of December 31, 2011 and did not have any assets classified as held for sale as of December 31, 2010.

Generally, restaurant closure costs are expensed as incurred. When it is probable that we will cease using the property rights under a non-cancelable operating lease, we record a liability for the net present value of any remaining lease obligations net of estimated sublease income that can reasonably be obtained for the property. The associated expense is recorded in "Provision for impaired assets and restaurant closings." Any subsequent adjustments to the liability from changes in estimates are recorded in the period incurred.

Goodwill and Indefinite-Lived Intangible Assets

Our indefinite-lived intangible assets consist only of goodwill and our trade names. Goodwill represents the residual after allocation of the purchase price to the individual fair values and carryover basis of assets acquired. On an annual basis (during the second quarter of the fiscal year) or whenever events or changes in circumstances indicate that the carrying amounts may not be recoverable, we review the recoverability of goodwill and indefinite-lived intangible assets. The impairment test for goodwill involves comparing the fair value of the reporting units to their carrying amounts. If the carrying amount of a reporting unit exceeds its fair value, a second step is required to measure a goodwill impairment loss, if any. This step revalues all assets and liabilities of the reporting unit to their current fair values and then compares the implied fair value of the reporting unit's goodwill to the carrying amount of that goodwill. If the carrying amount of the reporting unit's goodwill exceeds the implied fair value of the goodwill, an impairment loss is recognized in an amount equal to the excess. The impairment test for trade names involves comparing fair value of the trade name, as determined through a discounted cash flow approach, to its carrying value.

We test both our goodwill and our trade names for impairment primarily by utilizing discounted cash flow models to estimate their fair values. These cash flow models involve several assumptions. Changes in our assumptions could materially impact our fair value estimates. Assumptions critical to our fair value estimates are: (i) weighted-average cost of capital rates used to derive the present value factors used in determining the fair value of the reporting units and trade names; (ii) projected annual revenue growth rates used in the reporting unit and trade name models; and (iii) projected long-term growth rates used in the derivation of terminal year values. Other assumptions include estimates of projected capital expenditures and working capital requirements. These and other assumptions are impacted by economic conditions and expectations of management and will change in the future based on period-specific facts and circumstances.

We performed our annual impairment test in the second quarter of 2011 and determined at that time that none of our four reporting units with remaining goodwill were at risk for material goodwill impairment since the fair value of each reporting unit was substantially in excess of its carrying amount. We did not record any goodwill or indefinite-lived intangible asset impairment charges during the years ended December 31, 2011 and 2010. As a result of our annual impairment test in the second quarter of 2009, we recorded goodwill and indefinite-lived intangible asset impairment charges of $58.1 million and $36.0 million, respectively.

Sales declines at our restaurants, unplanned increases in health insurance, commodity or labor costs, deterioration in overall economic conditions and challenges in the restaurant industry may result in future impairment charges. It is possible that changes in circumstances or changes in our judgments, assumptions and estimates could result in an impairment charge of a portion or all of our goodwill or other intangible assets.

Insurance Reserves

We self-insure or maintain a deductible for a significant portion of expected losses under our workers' compensation, general liability, health and property insurance programs. We purchase insurance for individual claims that exceed the amounts listed in the following table:

	2011	2012
Workers' Compensation	$ 1,500,000	$ 1,500,000
General Liability	1,500,000	1,500,000
Health (1)	400,000	400,000
Property Coverage (2)	2,500,000 / 500,000	2,500,000 / 500,000
Employment Practices Liability	2,000,000	2,000,000
Directors' and Officers' Liability	250,000	250,000
Fiduciary Liability	25,000	25,000

(1) We are self-insured for all aggregate health benefits claims, limited to $0.4 million per covered individual per year. In 2011 and 2012, we retained the first $0.3 million of payable losses under the plan as an additional deductible.

(2) We have a $0.5 million deductible per occurrence for those properties that collateralize the 2012 CMBS Loan and a $2.5 million deductible per occurrence for all other locations. Property limits are $60.0 million each occurrence, and we do not quota share in any loss above either deductible level.

We record a liability for all unresolved claims and for an estimate of incurred but not reported claims at the anticipated cost to us. In establishing our reserves, we consider certain actuarial assumptions and judgments regarding economic conditions, the frequency and severity of claims and claim development history and settlement practices. Unanticipated changes in these factors or future adjustments to these estimates may produce materially different amounts of expense that would be reported under these programs. Reserves recorded for worker's compensation and general liability claims are discounted using the average of the 1-year and 5-year risk free rate of monetary assets that have comparable maturities. When recovery for an insurance policy is considered probable, a receivable is recorded.

Revenue Recognition

We record food and beverage revenues upon sale. Initial and developmental franchise fees are recognized as income once we have substantially performed all of our material obligations under the franchise agreement, which is generally upon the opening of the franchised restaurant. Continuing royalties, which are a percentage of net sales of the franchisee, are recognized as income when earned. Franchise-related revenues are included in the line "Other revenues" in our Consolidated Statements of Operations.

We defer revenue for gift cards, which do not have expiration dates, until redemption by the customer. We also recognize gift card "breakage" revenue for gift cards when the likelihood of redemption by the customer is remote, which we determined are those gift cards issued on or before three years prior to the balance sheet date. We recorded breakage revenue of $11.1 million, $11.0 million and $9.3 million for the years ended December 31, 2011, 2010 and 2009, respectively. Breakage revenue is recorded as a component of "Restaurant sales" in our Consolidated Statements of Operations.

Gift cards sold at a discount are recorded as revenue upon redemption of the associated gift cards at an amount net of the related discount. Gift card sales commissions paid to third-party providers are initially capitalized and subsequently recognized as "Other restaurant operating" expenses upon redemption of the associated gift card. Deferred expenses are $9.7 million and $8.1 million as of December 31, 2011 and 2010, respectively, and are reflected in "Other current assets" in our Consolidated Balance Sheets. Gift card sales that are accompanied by a bonus gift card to be used by the customer at a future visit result in a separate deferral of a portion of the original gift card sale. Revenue is recorded when the bonus card is redeemed at a value based on the estimated fair market value of the bonus card.

We collect and remit sales, food and beverage, alcoholic beverage and hospitality taxes on transactions with customers and report such amounts under the net method in our Consolidated Statements of Operations. Accordingly, these taxes are not included in gross revenue.

Employee Partner Payments and Buyouts

The managing partner of each company-owned domestic restaurant and the chef partner of each Fleming's and Roy's company-owned domestic restaurant, as well as area operating partners, generally receive distributions or payments for providing management and supervisory services to their restaurants based on a percentage of their associated restaurants' monthly cash flows. The expense associated with the monthly payments for managing and chef partners is included in "Labor and other related" expenses, and the expense associated with the monthly payments for area operating partners is included in "General and administrative" expenses in our Consolidated Statements of Operations.

We estimate future purchases of area operating partners' interests, as well as deferred compensation obligations to managing and chef partners, using current and historical information on restaurant performance and record the partner obligations in the line item "Partner deposits and accrued partner obligations" in our Consolidated Balance Sheets. In the period we purchase the area operating partner's interests, an adjustment is recorded to recognize any remaining expense associated with the purchase and reduce the related accrued buyout liability. Deferred compensation expenses for managing and chef partners are included in "Labor and other related" expenses and buyout expenses for area operating partners are included in "General and administrative" expenses in our Consolidated Statements of Operations.

Stock-Based Compensation

Our 2007 Equity Incentive Plan (the "Equity Plan") permits the grant of stock options and restricted stock to our management and other key employees. We account for our stock-based employee compensation using a fair value based method of accounting.

Generally, stock options vest and become nominally exercisable in 20% increments over a period of five years contingent on continued employee service. Shares acquired upon the exercise of stock options under the Equity Plan are generally subject to a stockholder's agreement that contains a management call option that allows us to repurchase all shares purchased through exercise of stock options upon termination of employment at any time prior to the earlier of an initial public offering or a change of control. If an employee's termination of employment is a result of death or disability, by us other than for cause or by the employee for good reason, we may repurchase exercised stock under this call option at fair market value. If an employee's termination of employment is by us for cause or by the employee without good reason, we may repurchase the stock under this call provision for the lesser of the exercise price or fair market value. Additionally, the holder of shares acquired upon the exercise of stock options is prohibited from transferring the shares to any person, subject to narrow exceptions, and should a permitted transfer occur, the transferred shares remain subject to the management call option. As a result of the transfer restrictions and call option, we do not record compensation expense for these stock options upon vesting since employees cannot realize monetary benefit from the options or any shares acquired upon the exercise of the options unless the employee is employed at the time of an initial public offering or change of control. There have not been any exercises of stock options by any employee to date, and all stock options of terminated employees with a call provision have been forfeited.

We use the Black-Scholes option pricing model to estimate the weighted-average grant date fair value of stock options granted. Expected volatilities are based on historical volatilities of the stock of comparable companies. The expected term of options granted represents the period of time that options granted are expected to be outstanding. The risk-free rate for periods within the contractual life of the option is based on the U.S. Treasury yield curve in effect at the time of grant. Results may vary depending on the assumptions applied within the model. The benefits of tax deductions in excess of recognized compensation cost, if any, are reported as a financing cash flow.

We recorded compensation expense of $2.2 million for the year ended December 31, 2011 for vested stock options not subject to the call option described above. As of December 31, 2011, there is $5.7 million of total unrecognized compensation expense related to non-vested stock options not subject to the call option described above, which is expected to be recognized over a weighted-average period of approximately 3.7 years.

Compensation expense related to restricted stock awards for the year ended December 31, 2011 is $1.7 million and unrecognized pre-tax compensation expense related to non-vested restricted stock awards is approximately $0.8 million at December 31, 2011 and will be recognized over a weighted-average period of 0.5 years.

Income Taxes

In determining net income for financial statement purposes, we make certain estimates and judgments in the calculation of tax expense and the resulting tax liabilities as well as in the recoverability of deferred tax assets that arise from temporary differences between the tax and financial statement recognition of revenue and expense.

Deferred income tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred income tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred income tax assets and liabilities of a change in the tax rate is recognized in income in the period that includes the enactment date of the rate change. We recorded a valuation allowance to reduce our deferred income tax assets to the amount that is more likely than not to be realized. We have considered future taxable income and ongoing feasible tax planning strategies in assessing the need for the valuation allowance.

Judgments made regarding future taxable income may change due to changes in market conditions, changes in tax laws or other factors. If the assumptions and estimates change in the future, the valuation allowance established may be increased or decreased, resulting in a respective increase or decrease in income tax expense.

We use an estimate of our annual effective tax rate at each interim period based on the facts and circumstances available at that time while the actual effective tax rate is calculated at year-end.

Recently Issued Financial Accounting Standards

In May 2011, the Financial Accounting Standards Board (the "FASB") issued Accounting Standards Update ("ASU") No. 2011-04, "Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs," ("ASU No. 2011-04") that establishes a number of new requirements for fair value measurements. These include: (i) a prohibition on grouping financial instruments for purposes of determining fair value, except when an entity manages market and credit risks on the basis of the entity's net exposure to the group; (ii) an extension of the prohibition against the use of a blockage factor to all fair value measurements (that prohibition currently applies only to financial instruments with quoted prices in active markets); and (iii) a requirement that for recurring Level 3 fair value measurements, entities disclose quantitative information about unobservable inputs, a description of the valuation process used and qualitative details about the sensitivity of the measurements. Additionally, for items not carried at fair value but for which fair value is disclosed, entities will be required to disclose the level within the fair value hierarchy that applies to the fair value measurement disclosed. ASU No. 2011-04 is effective for interim and annual periods beginning after December 15, 2011. While the provisions of ASU No. 2011-04 will increase our fair value disclosures, this guidance will not have an impact on our financial position, results of operations or cash flows.

In June 2011, the FASB issued ASU No. 2011-05, "Presentation of Comprehensive Income" ("ASU No. 2011-05"), which eliminates the option to report other comprehensive income and its components in the statement of changes in equity. Instead, the new guidance requires us to present the components of net income and other comprehensive income in one continuous statement, referred to as the statement of comprehensive income, or in two separate, but consecutive statements. While the new guidance changes the presentation of comprehensive income, there are no changes to the components that are recognized in net income or other comprehensive income under current accounting guidance. ASU No. 2011-05 must be applied retrospectively and is effective for public companies during the interim and annual periods beginning after December 15, 2011, with early adoption permitted. Additionally, in December 2011, the FASB issued ASU No. 2011-12, "Comprehensive Income (Topic 220): Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in Accounting Standards Update No. 2011-05" ("ASU No. 2011-12"), which indefinitely defers the requirement in ASU No. 2011-05 to present reclassification adjustments out of accumulated other comprehensive income by component in both the statement in which net income is presented and the statement in which other comprehensive income is presented. The deferral of the presentation requirements does not impact the effective date of the other requirements in ASU 2011-05. During the deferral period, the existing requirements in generally accepted accounting principles in the United States ("U.S. GAAP") for the presentation of reclassification adjustments must continue to be followed. ASU No. 2011-12 is effective for public companies during the interim and annual periods beginning after December 15, 2011. ASU No. 2011-05 and ASU No. 2011-12 will not have an impact on our financial position, results of operations or cash flows as the guidance only requires a presentation change to comprehensive income.

In September 2011, the FASB issued ASU No. 2011-08, "Intangibles—Goodwill and Other (Topic 350)—Testing Goodwill for Impairment" ("ASU No. 2011-08"), which permits an entity to make a qualitative assessment of whether it is more likely than not that a reporting unit's fair value is less than its carrying value before applying the two-step quantitative goodwill impairment test. If it is determined through the qualitative assessment that a reporting unit's fair value is more likely than not greater than its carrying value, the

remaining impairment steps would be unnecessary. The qualitative assessment is optional, allowing entities to go directly to the quantitative assessment. ASU No. 2011-08 is effective for annual and interim goodwill impairment tests performed in fiscal years beginning after December 15, 2011, with early adoption permitted. This guidance will not have a material impact on our financial position, results of operations or cash flows.

In December 2011, the FASB issued ASU No. 2011-10, "Property, Plant, and Equipment (Topic 360): Derecognition of in Substance Real Estate —a Scope Clarification" ("ASU No. 2011-10"), which applies to a parent company that ceases to have a controlling financial interest in a subsidiary, that is in substance real estate, as a result of a default on the subsidiary's nonrecourse debt. The new guidance emphasizes that the parent should only deconsolidate the real estate subsidiary when legal title to the real estate is transferred to the lender and the related nonrecourse debt has been extinguished. If the reporting entity ceases to have a controlling financial interest under subtopic 810-10, the reporting entity would continue to include the real estate, debt, and the results of the subsidiary's operations in its consolidated financial statements until legal title to the real estate is transferred to legally satisfy the debt. This standard takes effect for public companies during the annual and interim periods beginning on or after June 15, 2012. The adoption of this guidance is not expected to have a material impact on our financial statements.

In December 2011, the FASB issued ASU No. 2011-11, "Balance Sheet (Topic 210) -Disclosures about Offsetting Assets and Liabilities" ("ASU 2011-11"), which enhances current disclosures about financial instruments and derivative instruments that are either offset on the statement of financial position or subject to an enforceable master netting arrangement or similar agreement, irrespective of whether they are offset on the statement of financial position. The guidance requires us to provide both net and gross information for these assets and liabilities. ASU No. 2011-11 is effective for annual reporting periods beginning on or after January 1, 2013, and interim periods within those annual periods with retrospective application required. This guidance will not have an impact on our financial position, results of operations or cash flows as it only requires a presentation change to offsetting (netting) assets and liabilities.

Impact of Inflation

In the last three years, we have not operated in a period of high general inflation; however, we have experienced material increases in specific commodity costs. Our restaurant operations are subject to federal and state minimum wage laws governing such matters as working conditions, overtime and tip credits. Significant numbers of our food service and preparation personnel are paid at rates related to the federal and/or state minimum wage and, accordingly, increases in the minimum wage have increased our labor costs in the last three years. To the extent permitted by competition and the economy, we have mitigated increased costs by increasing menu prices and may continue to do so if deemed necessary in future years.

Quantitative and Qualitative Disclosures about Market Risk

We are exposed to market risk from changes in interest rates on debt, changes in foreign currency exchange rates and changes in commodity prices.

Interest Rate Risk

At December 31, 2011 and 2010, our total debt, excluding consolidated guaranteed debt, was approximately $2.1 billion. For fixed-rate debt, interest rate changes affect the fair value of debt. However, for variable-rate debt, interest rate changes generally impact our earnings and cash flows, assuming other factors are held constant. Our exposure to interest rate fluctuations includes OSI's borrowings under its senior secured credit facilities and PRP's commercial mortgage-backed securities loan that bear interest at floating rates based on the Eurocurrency Rate or the Base Rate and the one-month LIBOR, respectively, plus an applicable borrowing margin. We manage our interest rate risk by offsetting some of our variable-rate debt with fixed-rate debt, through normal operating and financing activities and, when deemed appropriate, through the use of derivative financial instruments.

We use an interest rate cap, which renews annually, to limit the volatility of PRP's variable-rate CMBS Loan. From September 2007 to September 2010, we used an interest rate collar as part of our interest rate risk management strategy to manage our exposure to interest rate movements related to OSI's senior secured credit facilities. Given the interest rate environment, we did not enter into another derivative financial instrument upon the maturity of this interest rate collar on September 30, 2010. We do not enter into financial instruments for trading or speculative purposes.

At December 31, 2011 and 2010, we had $248.1 million of fixed-rate debt outstanding through OSI's Senior Notes and $1.8 billion and $1.9 billion, respectively, of variable-rate debt outstanding on OSI's senior secured credit facilities and PRP's CMBS Loan. We also had $82.4 million and $79.7 million, respectively, in available unused borrowing capacity under OSI's working capital revolving credit facility (after giving effect to undrawn letters of credit of approximately $67.6 million and $70.3 million, respectively), and $67.0 million and $21.9 million, respectively, in available unused borrowing capacity under OSI's pre-funded revolving credit facility that provides financing for capital expenditures only. Based on $1.8 billion of outstanding variable-rate debt at December 31, 2011, an increase of one percentage point on January 1, 2012, would cause an increase to cash interest expense of approximately $18.2 million per year.

If a one percentage point increase in interest rates were to occur over the next four quarters, such an increase would result in the following additional interest expense, assuming the current borrowing level remains constant:

	Principal Outstanding at December 31,	Additional Interest Expense			
Variable-Rate Debt	2011	Q1 2012	Q2 2012	Q3 2012	Q4 2012
Senior secured term loan facility, interest rate of 2.63% at December 31, 2011	$ 1,014,400,000	$ 2,536,000	$ 2,536,000	$ 2,536,000	$ 2,536,000
Senior secured pre-funded revolving credit facility, interest rate of 2.63% at December 31, 2011	33,000,000	82,500	82,500	82,500	82,500
Note payable, weighted average interest rate of 0.98% at December 31, 2011 (1)	466,319,000	1,165,798	1,165,798	1,165,798	1,165,798
First mezzanine note, interest rate of 3.28% at December 31, 2011 (1)	88,900,000	222,250	222,250	222,250	222,250
Second mezzanine note, interest rate of 3.53% at December 31, 2011 (1)	123,190,000	307,975	307,975	307,975	307,975
Third mezzanine note, interest rate of 3.54% at December 31, 2011 (1)	49,095,000	122,738	122,738	122,738	122,738
Fourth mezzanine note, interest rate of 4.53% at December 31, 2011 (1)	48,113,000	120,283	120,283	120,283	120,283
Total	$1,823,017,000	$ 4,557,544	$ 4,557,544	$ 4,557,544	$ 4,557,544

(1) Represents the CMBS Loan, which was repaid on March 27, 2012. Effective March 27, 2012, New PRP entered into the 2012 CMBS Loan totaling $500.0 million. The 2012 CMBS Loan is a five-year loan maturing on April 10, 2017. See "Description of Indebtedness" and Note 20 of our Notes to Consolidated Financial Statements.

A change in interest rates generally does not have an impact upon our future earnings and cash flow for fixed-rate debt instruments. As fixed-rate debt matures, however, and if additional debt is acquired to fund the debt repayment, future earnings and cash flow may be affected by changes in interest rates. This effect would be realized in the periods subsequent to the periods when the debt matures.

Foreign Currency Exchange Rate Risk

Our foreign currency exchange risk has not changed materially from 2010 to 2011. If foreign currency exchange rates depreciate in certain of the countries in which we operate, we may experience declines in our international operating results but such exposure would not be material to the consolidated financial statements. We currently do not use financial instruments to hedge foreign currency exchange rate changes.

Commodity Pricing Risk

Many of the ingredients used in the products sold in our restaurants are commodities that are subject to unpredictable price volatility. Although we attempt to minimize the effect of price volatility by negotiating fixed price contracts for the supply of key ingredients, there are no established fixed price markets for certain commodities such as produce and wild fish, and we are subject to prevailing market conditions when purchasing those types of commodities. Other commodities are purchased based upon negotiated price ranges established with vendors with reference to the fluctuating market prices. The related agreements may contain contractual features that limit the price paid by establishing certain price floors and caps. Extreme changes in commodity prices or long-term changes could affect our financial results adversely. We expect that in most cases increased commodity prices could be passed through to our consumers through increases in menu prices. However, if there is a time lag between the increasing commodity prices and our ability to increase menu prices, or if we believe the commodity price increase to be short in duration and we choose not to pass on the cost increases, our short-term financial results could be negatively affected. Additionally, from time to time, competitive circumstances could limit menu price flexibility, and in those cases margins would be negatively impacted by increased commodity prices.

Our restaurants are dependent upon energy to operate and are impacted by changes in energy prices, including natural gas. We utilize derivative instruments to mitigate some of our overall exposure to material increases in natural gas prices. We record mark-to-market changes in the fair value of derivative instruments in earnings in the period of change. The effects of these derivative instruments were immaterial to our financial statements for all periods presented.

In addition to the market risks identified above and to the risks discussed elsewhere in “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” we are subject to business risk as our beef supply is highly dependent upon a limited number of vendors. In 2011, we purchased more than 90% of our beef raw materials from four beef suppliers who represent approximately 75% of the total beef marketplace in the U.S. Due to the nature of our industry, we expect to continue to purchase a substantial amount of our beef from a small number of suppliers. If these vendors were unable to fulfill their obligations under their contracts, we could encounter supply shortages and incur higher costs to secure adequate supplies.

This market risk discussion contains forward-looking statements. Actual results may differ materially from the discussion based upon general market conditions and changes in domestic and global financial markets.

BUSINESS

Our Company

We are one of the largest casual dining restaurant companies in the world, with a portfolio of leading, differentiated restaurant concepts. We own and operate 1,248 restaurants and have 195 restaurants operating under franchise or joint venture arrangements across 49 states and 21 countries and territories. We have five founder-inspired concepts: Outback Steakhouse, Carrabba's Italian Grill, Bonefish Grill, Fleming's Prime Steakhouse and Wine Bar and Roy's. Outback Steakhouse holds the #1 U.S. market position, and Carrabba's and Bonefish Grill hold the #2 U.S. market position, in their respective full-service restaurant categories. Fleming's is the fourth largest fine dining steakhouse brand in the U.S. In 2010, we launched a new strategic plan and operating model leveraging best practices from the consumer products and retail industries to complement our restaurant acumen and enhance our brand competitiveness. This new model keeps the customer at the center of our decision-making and focuses on continuous innovation and productivity to drive sustainable sales and profit growth. We have significantly strengthened our management team and implemented initiatives to accelerate innovation, improve analytics and increase productivity. We have made these changes while preserving our entrepreneurial culture at the operating level. Our restaurant managing partners are a key element of this culture, each of whom shares in the cash flows of his or her restaurant after making a required initial cash investment.

We believe our new strategic plan and operating model have driven our recent market share gains and improved margins while providing a solid foundation for continuing sales and profit growth. In 2011, we had $3.8 billion of revenue, $100.0 million of net income and $361.5 million of Adjusted EBITDA. In the U.S., each of our four core concepts generated positive comparable restaurant sales over the last seven consecutive quarters, and in 2010 and 2011, our combined comparable restaurant sales at our core concepts grew 2.7% and 4.9%, respectively. Additionally, over the last two years, Outback Steakhouse, Carrabba's and Bonefish Grill have significantly outperformed the Knapp-Track Casual Dining Index on traffic growth by 8.5%, 11.2% and 20.2%, respectively. Over the three years ended December 31, 2011, our net income increased from a net loss of $64.5 million to net income of $100.0 million, and Adjusted EBITDA increased from $319.9 million to $361.5 million. Over the same period, our Adjusted EBITDA margins grew from 8.9% to 9.4%.

Our concepts provide a compelling customer experience combining great food, highly attentive service and lively and contemporary ambience at attractive prices. Our restaurants attract customers across a variety of occasions, including everyday dining, celebrations and business entertainment. Each of our concepts maintains its unique, founder-inspired brand identity and entrepreneurial culture, while leveraging our scale and enhanced operating model. History and Evolution of Our Business

Our predecessor was incorporated in August 1987, and we opened our first Outback Steakhouse restaurant in 1988. We changed our name to Outback Steakhouse, Inc. in 1990 and became a Delaware corporation in 1991 as part of a corporate reorganization completed in connection with our initial public offering. Between 1994 and 2004, we grew from approximately 200 restaurants to approximately 1,175 restaurants system-wide and acquired Carrabba's, Fleming's, Roy's and Bonefish Grill. We began expanding the Outback Steakhouse concept internationally in 1996, and as of December 31, 2011, we had 192 restaurants across 21 countries and territories, including 111 restaurants that we owned and operated, 47 restaurants that we franchised and 34 restaurants that are operated by a joint venture. In June 2007, we were acquired by investment funds advised by our Sponsors, our Founders and certain members of management.

In November 2009, we hired Elizabeth A. Smith as Chief Executive Officer. Ms. Smith brought close to 20 years of consumer products experience, including five years as a senior executive at Avon Products, Inc. and 14 years at Kraft Foods Inc. Under Ms. Smith's leadership, we launched our new strategic plan and operating model. The key initiatives we implemented as part of this plan and model, many of which are ongoing, are summarized below:

- *Enhanced Our Brand / Concept Competitiveness.* Based on extensive consumer research, we have undertaken the following initiatives to enhance our brand relevance and competitiveness:
  - Evolved our menus by supplementing our classic items with greater variety and lighter dishes to broaden appeal. We also added lower priced items, small plates and handhelds and enhanced bar and happy hour offerings to improve our value perception and affordability and increase traffic.
  - Shifted our marketing strategy away from principally using brand awareness messages to traffic generating messages focused on quality, value and limited-time offers. We also enhanced the quality of our marketing and altered our media mix to improve returns on investment.
  - Initiated a remodel program focused on Outback Steakhouse and Carrabba's to refresh the restaurant base. During 2010 and 2011, we remodeled 256 Outback Steakhouse restaurants to implement a more contemporary design, and we are testing remodel designs at Carrabba's.
  - Refocused our service to improve execution on aspects of the dining experience that matter most to our customers as indicated through ongoing customer surveys. For example, the percentage of surveyed customers that rated their overall customer satisfaction at Outback Steakhouse as "excellent" or "very good" increased by 20% from April 2009 to December 2011, and is now above the average for casual dining restaurants included in the Service Management Group (SMG) customer satisfaction measurement program as of December 2011.
- *Strengthened Management Team and Organizational Capabilities.* We added senior executives with experience from leading consumer products and retail companies and added resources in key functional support areas, such as R&D, human resources, consumer research and analytics, real estate development, technology, supply chain management and productivity. We built an organization that maintains deep restaurant industry expertise at the operating level, coupled with a functional corporate support team that drives innovation, productivity and scale efficiencies. We also redesigned our field management compensation structure to better reward growth in sales and profits and to attract and retain top talent.
- *Accelerated Innovation.* We strengthened our innovation capability by increasing our resources and by focusing on a collaborative process to develop, test and roll out new menu, service and marketing initiatives. This has increased our new product pipeline capacity, and we are able to introduce these new initiatives faster than we have in the past.
- *Improved Analytics and Information Flow.* To supplement the deep industry expertise of our restaurant operators, we instituted an enterprise-wide, analytical approach to guide our decision-making that relies on extensive consumer research and feedback, product testing and data analysis. We believe this provides our management team with much improved visibility regarding consumer trends and a better basis for making product, pricing and marketing decisions. Additionally, we have standardized and improved the performance metrics provided to our managing and area operating partners to support management at the restaurant level.

- *Increased Productivity and Generated Significant Cost Savings.* In 2008, we began to focus on increased productivity and cost savings by leveraging our scale and corporate support infrastructure. From 2008 through 2011, we implemented productivity and cost management initiatives that we estimate allowed us to save over $200 million in the aggregate, while improving our customer ratings on quality and service as measured by SMG.

- *Invested in Information Technology Infrastructure.* In 2010, we launched a multi-year upgrade of our technology infrastructure to support our analytical focus and growth opportunities. Our investments included the completion of standardized point of sale (POS) systems across our concepts, a data warehouse to improve data accessibility, real estate site selection tools and a new human resources information system (HRIS).

Competitive Strengths

We believe the following competitive strengths, when combined with our strategic plan and operating model, provide a platform to deliver sustainable sales and profit growth:

- strong market position with highly recognizable brands;
- compelling 360-degree customer experience;
- diversified portfolio with global presence;
- business model focused on continuous innovation and productivity; and
- experienced executive and field management teams.

Strong Market Position With Highly Recognizable Brands

We have market leadership positions in each of our core concepts domestically, as well as in our core international markets. Based on 2011 sales in the U.S., Outback Steakhouse ranked #1 in the full-service steak category, Carrabba's ranked #2 in the full-service Italian category and Bonefish Grill ranked #2 in the full-service seafood category. Fleming's is the fourth largest fine dining steakhouse brand in the United States. Bonefish Grill, Carrabba's and Outback Steakhouse held three of the top seven positions for top casual dining chains in the 2011 Nation's Restaurant News Annual Consumer Picks survey. In 2010, Outback Steakhouse ranked #1 in market share in Brazil among full-service restaurants and in South Korea among western full-service restaurant concepts. We believe our market leadership positions and scale will allow us to continue to gain market share in the fragmented restaurant industry.

Compelling 360-Degree Customer Experience

We offer a compelling 360-degree customer experience with superior value by providing great food, highly attentive service and lively ambience at attractive prices. Our strategic plan and operating model keep the customer at the center of our decision-making and use customer research and analytics to continually improve each concept's dining experience. We believe our customer experience and value perception are differentiating factors that drive strong customer loyalty.

- *Great Food.* We deliver consistently executed, freshly prepared meals using high quality ingredients. Consumers have validated our food quality through numerous casual dining awards, including ranking Outback Steakhouse first in the "Best Steak" category and ranking Bonefish Grill and Carrabba's first and third, respectively, for all full-service restaurant chains in the "Top Food" category in the 2011 Zagat's customer survey. We also expanded our menus during 2010 and 2011 to extend beyond our core focus at each concept to attract a broader mix of customers.

- *Highly Attentive Service.* We seek to deliver superior service to each customer at every opportunity. We offer customers prompt, friendly and efficient service, keep wait staff-to-table ratios high and staff each restaurant with experienced managing partners to ensure consistent and attentive customer service. For example, in Zagat's customer survey in 2011, Bonefish Grill and Carrabba's were ranked first and third, respectively, for all full-service restaurant chains in the "Top Service" category.

- *Lively and Contemporary Ambience.* Each of our restaurant concepts offers a distinct, energetic atmosphere. We are committed to maintaining a contemporary look and feel at each of our concepts that is consistent with its individual brand positioning.

- *Attractive Prices*. Since 2009, we have enhanced the value we offer our customers through menu and promotional innovation, rather than aggressive discounting. At each of our concepts, we have increased the mix of lower priced items to broaden appeal and increase traffic. For example, we introduced Cucina Casuale at Carrabba's which features entrees starting at $10. We have also expanded our limited-time offers of specials not contained on our regular menu in order to offer price points that deliver superior value to customers while maintaining attractive margins, such as Outback Steakhouse's $14.99 steak and lobster promotion, which has been very popular with our customers.

Diversified Portfolio With Global Presence

Our diversified portfolio of distinct concepts and global presence provide us with a broad growth platform to capture additional market share domestically and internationally. We are diversified by concept, category and geography as follows:

- *By Concept and Category*. We believe our concepts are differentiated relative to each other by category and to their respective key competitors. Our core concepts target three separate large and highly fragmented menu categories of the full-service restaurant sector: steak ($13.6 billion in 2010 sales), Italian ($14.8 billion in 2010 sales) and seafood ($8.3 billion in 2010 sales). Outback Steakhouse, Carrabba's and Bonefish Grill target the casual dining price category, and Fleming's targets the fine dining category. Each concept's percentage of our company-owned sales for 2011 was as follows: Outback Steakhouse 62%, Carrabba's 18%, Bonefish Grill 12%, Fleming's 6% and Roy's 2%.

- *By Geography*. The system-wide sales of our international Outback Steakhouse restaurants represent 15% of our total system-wide sales. A majority of our international restaurants are company-owned or operated through a joint venture, and we believe this differentiates us relative to our casual dining peers, which primarily operate through franchises internationally. Our restaurants are located across 49 states and 21 countries and territories around the world. Our two largest international markets are South Korea, where we ranked #1 among western full-service restaurant concepts in 2010 with 103 company-owned restaurants, and Brazil where we ranked #1 in the full-service sector in 2010 with 34 restaurants operated through a joint venture. We also own and operate seven restaurants in Hong Kong. Our 47 franchised international restaurants are primarily located in Asia, Latin America, the Middle East and Canada.

Business Model Focused on Continuous Innovation and Productivity

Our business model leverages best practices from the consumer products and retail industries to keep the customer at the center of our decision-making and focuses on innovation and productivity to drive sustainable sales and profit growth. We utilize extensive market and product research and customer feedback to develop new

ideas and to mitigate the risks of implementation. We reinvest a portion of productivity savings in innovation to enable us to respond to continuously evolving consumer trends.

- *Innovation.* We have established an enterprise-wide innovation process to enhance every dimension of the customer experience. Cross-functional innovation teams collaborate across R&D, purchasing, operations, marketing, finance and market intelligence to manage a pipeline of new menu, service and marketing ideas. For example, we have added over 60 new menu items across our concepts since 2010, including many items under 600 calories, which has broadened the appeal of our menus.

- *Productivity.* Without compromising the customer experience, we continuously explore opportunities to increase productivity and reduce costs across every aspect of our business. Our cost-savings allow us to reinvest in innovation initiatives, enhance our strong value proposition and increase margins. We have a dedicated team that coordinates all productivity initiatives and actively manages a pipeline of ideas from testing through implementation.

Experienced Executive and Field Management Teams

Our organization maintains deep restaurant experience at the operating level coupled with a functional corporate support team that drives innovation, productivity and scale efficiencies. Our management team is led by our Chairman and Chief Executive Officer, Elizabeth A. Smith, former President of Avon Products, Inc., who joined us in November 2009. Ms. Smith has nearly 20 years of experience in the consumer products industry with a strong track record of growth and operating discipline. Our senior leadership team also includes executives from best-in-class consumer and retail companies such as Starbucks, YUM Brands, Mars, Kraft, Best Buy and Home Depot. We have expanded our capabilities by adding resources in R&D, human resources, consumer research and analytics, real estate development, technology, supply chain management and productivity. Strong brand management and innovation expertise has been driven by our team's focus on analytics and customer testing.

Our field operating and management teams are made up of individuals with deep experience operating our restaurants and in the restaurant industry. Our core concept presidents have been with us for an average of 20 years and have an average of 30 years of industry experience. Our regional field management team has an average of over 13 years of experience working with us at the managing partner level or above. Our operators are highly motivated to drive growth in sales and profits through our improved compensation structure. This structure requires an initial investment from our managing partners and allows them to share in a portion of the restaurants' monthly cash flow and an annual bonus tied to increases in their restaurant's sales above the concept's sales plan and long-term compensation tied to growth in their restaurants' cash flow. We believe this structure supports our entrepreneurial culture and differentiates us from our peers.

Our Growth Strategy

We believe there are significant opportunities to continue to drive sustainable sales and profit growth through the following three strategies:

Grow Comparable Restaurant Sales

Building on the strong momentum of the business, we believe we have the following opportunities to continue to grow comparable restaurant sales:

- *Remodel Our Restaurants.* In the near term, we are focused on remodeling our Outback Steakhouse and Carrabba's restaurants. For Outback Steakhouse, we plan to complete 160 remodels in 2012 and a cumulative total of approximately 450 remodels by the end of 2013. Traffic at our remodeled restaurants has increased approximately 3% from 2010 to 2011 compared to non-remodeled

restaurants, which we believe primarily resulted from our remodel program. We plan to apply our success from Outback Steakhouse as we implement a remodel program at Carrabba's when testing of the design alternatives is complete.

- *Continue to Improve Promotional Marketing to Drive Traffic.* We plan to continue to improve our limited-time offers and multimedia marketing campaigns. By promoting continuously evolving, high quality and affordable menu items, we seek to drive traffic and maintain brand relevance without sacrificing margins. With our new analytical and innovation capabilities, we are able to develop promotions to achieve targeted margins and measure and improve the effectiveness of our marketing campaigns.

- *Expand Share of Occasions and Increase Frequency.* We believe we have a strong market share of weekend dinner occasions and a significant opportunity to grow our share of other dining occasions across all concepts. With our broader menu variety and improved affordability – specifically, through our small plates, handhelds and bar menu options – we are better positioned to expand our weekday and non-dinner occasions. We realized meaningful traffic gains in 2011 through our Sunday lunch expansion at Outback Steakhouse and the introduction of happy hour menus at Bonefish Grill and Fleming's. We are open for Saturday lunch at most of our Carrabba's locations. In 2012, we are planning to roll out Saturday lunch at most of our Outback Steakhouse locations. We are also evaluating the selective expansion of weekday lunch in markets where demographics support doing so.

- *Continue Innovating New Menu Items and Categories.* Our menu strategy will continue to focus on broadening appeal while maintaining classic items. Our R&D team will continue to introduce innovative items that match evolving consumer preferences.

Pursue New Domestic and International Development With Strong Unit Level Economics

We are recommitted to new unit development after curtailing expansion from 2009 to 2011. We believe that a substantial development opportunity remains for our concepts in the U.S. and internationally, particularly given our revitalized concepts, improved margins, expanded affordability and broadened customer appeal. Resources in site selection, construction and design were added in 2010 and 2011 in order to increase the pace of new unit openings. We expect to open 30 company-owned and five joint venture units in 2012 and increase the pace of development thereafter. We are targeting a minimum of a 15% average pre-tax return on initial investment on our new domestic restaurants. We expect that the mix of new units will be initially weighted approximately 75% to domestic opportunities, but will shift to a greater weight of international units as we continue to implement our international expansion plans.

- *Pursue Domestic Development Focused on Bonefish Grill and Carrabba's* . We believe we have the potential to double the Bonefish Grill concept over time from an existing base of 158 units as of December 31, 2011. Currently, the majority of Bonefish Grill restaurants are located in the southern and eastern U.S., with significant geographic expansion potential in the top 100 U.S. markets. Bonefish Grill unit growth will be our top domestic development priority in 2012, with 20 or more new restaurants planned. Over the last five years, Bonefish Grill restaurants open for more than a year have averaged a pre-tax return on initial investment of greater than 20%.

  We see significant opportunities to expand Carrabba's from an existing base of 232 units as of December 31, 2011. Currently, the majority of Carrabba's restaurants are also located in the southern and eastern U.S., with significant geographic expansion potential in the top 100 U.S. markets. We are developing an updated restaurant design for Carrabba's, and we plan to test this model in ten to 15 units over the next two years. Based on the results of this test, we plan to accelerate new unit development.

- *Accelerate International Growth Focused on Outback Steakhouse Brand.* We believe we are well-positioned to expand internationally beyond our 192 restaurants located across 21 countries and territories. In 2012, we plan to open six or more company-owned or joint venture units in existing markets. We will continue to leverage our market position by offering our top-ranked Outback Steakhouse concept in a format adapted to local cultural preferences. In 2011, the system-wide sales of our international Outback Steakhouse restaurants represented 15% of our total system-wide sales. We believe the international business represents a significant growth opportunity. We have enhanced our organization structure to better position us for international growth by adding a new President of Outback Steakhouse International and integrating our international team into our corporate headquarters to leverage our enterprise-wide capabilities. Over the last five years, our international units have produced attractive returns with an average pre-tax return on initial investment above 30%. We will approach growth in a disciplined manner, focusing on growing in existing markets such as South Korea, Brazil and Hong Kong, while expanding in strategically selected emerging and high growth, developed markets. In the near term, we plan to focus our new market growth in China, Mexico and South America. We will utilize the ownership structure and market entry strategy that best fits the need for a particular market, including company-owned restaurants, joint ventures and franchises. In markets with the most potential for unit growth, we expect to focus on company-owned and joint venture arrangements rather than franchises.

Drive Margin Improvement

We believe that we have the opportunity to increase our margins through continued productivity and increased fixed-cost leverage as we grow comparable restaurant sales. We plan to continue to focus additional resources on productivity improvement as needed to ensure continuous progress, including the recent creation of a Chief Value Chain Officer role that will have responsibility for global supply chain management, productivity and information technology. We have developed a multi-year productivity plan that is expected to yield productivity and cost savings of approximately $50 million in 2012 and additional savings in future years and focuses on high value initiatives across the following four categories:

- *Labor Optimization.* We are implementing a plan to optimize our staff scheduling and improve efficiencies in service. In addition, we have identified and are testing new front of house service models that improve both service and efficiency.

- *Food Cost Reductions*. We are implementing new systems and tools to minimize waste and will continue to work with our supply chain partners to reduce our overall food costs without affecting quality.

- *Supply Chain Efficiencies*. We are improving inbound and outbound freight logistics and implementing electronic invoicing, improved distribution management and better demand forecasting processes and tools to decrease costs. We will also continue to expand the application of purchasing disciplines to a larger percentage of goods and services purchased.

- *Sustainable, Cost-Effective Restaurant Facilities.* We are implementing enterprise-level policies and service contracts that reduce rates on repairs and maintenance at our restaurants and are also reducing energy usage.

Industry Overview

According to the National Restaurant Association, U.S. restaurant industry sales were $610.4 billion in 2011. We compete primarily in the $85 billion casual dining price category of the full-service restaurant sector. This sector is expected to grow 2.9% in 2012.

Casual dining restaurants within the full-service sector are also categorized by menu type, each of which is defined by a few large players and is otherwise highly fragmented. Our concepts primarily compete in the steak, Italian and seafood menu categories. While we have primarily focused on serving dinner, which represents 67% ($56.3 billion) of the casual dining category's total 2011 sales, we believe we have an opportunity to further expand into the lunch market, which represents 29% ($24.4 billion) of the casual dining category's total sales.

While independent restaurants still represent 45.4% of the total sales of all casual dining restaurants, chains have been increasingly taking share from independents over the past several years. We believe that this trend will continue as barriers increase preventing independent restaurants and start-up chains from building scale operations, including menu labeling, burdensome labor regulations and healthcare reforms that will be enforced once chains grow past a certain number of restaurants or employees.

International

Outback Steakhouse International is our business unit for developing and operating Outback Steakhouse restaurants outside of the U.S. In 2011, we enhanced our international organizational structure by adding a new unit president and recruiting internal and external talent from market-leading companies with the experience we believe is needed to drive international growth. This team is integrating into our corporate headquarters to leverage enterprise-wide capabilities, including marketing, finance, consumer research and analytics, real estate development, information technology, legal, supply chain management and productivity, to support both company-owned and franchised locations. In addition, our company-owned and joint venture operations in South Korea, Hong Kong and Brazil have cross-functional, local management staffs in place to grow and support restaurants in those locations.

Our international Outback Steakhouse restaurants held the #1 position in both South Korea and Brazil among casual dining restaurants in the full-service sector as of 2010 based on sales in such countries. Our other concepts currently do not operate outside of the U.S. As of December 31, 2011, we owned and operated 111 international Outback Steakhouse restaurants, 34 were owned and operated through a joint venture and 47 were operated under franchise arrangements across 21 countries and territories as follows:

International Outback Steakhouse restaurants have substantially the same core menu items as domestic Outback Steakhouse locations, although certain side items and other menu items are local in nature. The prices that we charge in individual locations are reflective of local demographics and related local costs involved in procuring product. Most of our international locations serve lunch and dinner.

We utilize a global core menu policy to ensure consistency and quality in our menu offerings. We allow local tailoring of the menu to best address the preference of local customers in a market. Prior to the addition of an item to the core menu, we conduct extensive customer research and it is reviewed and approved by our R&D team. In South Korea, for example, we serve “lunch box sets,” offering affordable options to busy customers seeking a quick lunch at Outback Steakhouse. Similarly, in Brazil, we offer “set pricing” lunch options that provide various price point options for our lunchtime diners.

Our international Outback Steakhouse locations are similar in the look and feel of our domestic locations, although there is more diversity in certain restaurant locations, layouts and sizes.

Financial information about geographic areas is included in this prospectus in Note 19 of our Notes to Consolidated Financial Statements.

Restaurant Development and Design

Site Design

We generally construct freestanding buildings on leased properties, although our leased sites are also located in strip shopping centers. Construction of a new restaurant takes approximately 90 to 180 days from the date the location is leased or under contract and fully permitted. In the future, we intend to either convert existing third-party leased retail space or construct new restaurants through leases in the majority of circumstances. We typically design the interior of our restaurants in-house, utilizing outside architects when necessary.

A typical Outback Steakhouse is approximately 6,200 square feet and features a dining room and a full-service liquor bar. The dining area of a typical Outback Steakhouse consists of 45 to 48 tables and seats approximately 220 people. The bar area consists of approximately ten tables and has seating capacity for approximately 54 people. Appetizers and complete dinners are served in the bar area.

Outback Steakhouse international restaurants range in size from 3,500 to 10,000 square feet and may be basement or second floor locations.

A typical Carrabba's is approximately 6,500 square feet and features a dining room, pasta bar seating that overlooks the exhibition kitchen and a full-service liquor bar. The dining area of a typical Carrabba's consists of 40 to 45 tables and seats approximately 230 people. The liquor bar area typically includes six tables and seating capacity for approximately 60 people, and the pasta bar has seating capacity for approximately ten people. Appetizers and complete dinners are served in both the pasta bar and liquor bar areas.

A typical Bonefish Grill is approximately 5,500 square feet and features a dining room and full-service liquor bar. The dining area of a typical Bonefish Grill consists of approximately 38 tables and seats approximately 145 people. The bar area is generally in the front of the restaurant and offers community-style seating with approximately ten tables and bar seating with a capacity for approximately 72 people. Appetizers and complete dinners are served in the bar area.

A typical Fleming's is approximately 7,100 square feet and features a dining room, a private dining area, an exhibition kitchen and full-service liquor bar. The main dining area of a typical Fleming's consists of approximately 35 tables and seats approximately 170 people, while the private dining area seats approximately 30 additional people. The bar area includes approximately six tables and bar seating with a capacity for approximately 35 people. Appetizers and complete dinners are served in the bar area.

A typical Roy's is approximately 7,100 square feet and features a dining room, a private dining area, an exhibition kitchen and full-service liquor bar. The main dining area of a typical Roy's consists of approximately 41 tables and seats approximately 155 people, while the private dining area seats an additional 50 people. The bar area includes tables and bar seating with a capacity for approximately 35 people. Appetizers and complete dinners are served in the bar area.

Remodel / Renovation Plan

We are committed to the strategy of continuing to maintain relevance with our décor by implementing an ongoing renovation program across all concepts.

In 2009, we began a remodeling program at Outback Steakhouse to refresh our restaurants base and modernize the look and feel of the dining experience. The Outback Steakhouse décor now features larger, more comfortable waiting areas, a brighter more upscale bar and a natural, contemporary dining area. To date, we have remodeled 256 restaurants, including 194 in 2011. We plan to complete 160 remodels in 2012 and a cumulative total of approximately 450 remodels by the end of 2013. Our average remodel cost has been approximately $250,000, and in 2010 and 2011 the program has lifted our traffic growth by approximately 3%, relative to comparable non-remodeled locations.

Carrabba's is currently implementing a similar renovation program, which includes the creation of a more contemporary Italian-themed décor that maintains warmth and matches the high quality of our food. We are currently testing new design alternatives, and once testing is complete, the design will be rolled out to additional locations.

Site Selection Process

We consider the location of a restaurant to be critical to its long-term success and as such, we devote significant effort to the investigation and evaluation of potential sites. We have a central team serving all of our concepts comprised of real estate development, property/lease management and design and construction personnel. We have significantly increased the resources dedicated to this team since 2009, enabling the acceleration of remodels and unit additions. Our site selection team utilizes a combination of existing field operations managers, internal development personnel and outside real estate brokers to identify and qualify potential sites. We have developed a robust analytical infrastructure, aided by site selection software we have recently acquired and customized to assist our site selection team in implementing our new restaurant growth plan. By leveraging expanded data regarding potential sites, developing success criteria and using predictive models, we are improving site selection.

We follow a phased approach to new site selection and approval, with all proposed sites reviewed and approved by the appropriate concept president, Chief Development Officer, Chief Financial Officer and Chief Executive Officer.

Restaurant Development

We are recommitted to new unit development after curtailing expansion from 2009 to 2011. We believe that a substantial development opportunity remains for our concepts in the U.S. and internationally. We expect to open 30 company-owned and five joint venture units in 2012 and increase the pace thereafter. We expect that the mix of new units will be initially weighted approximately 75% to domestic opportunities, but will shift to a higher weight of international units as we continue to implement our international expansion plans.

Domestic Development

We believe we are well equipped to reaccelerate new unit development with a disciplined approach focusing on achieving unit returns at target levels across each of our concepts. In 2012, we plan to open 30 or more locations, with a primary domestic focus on opening new Bonefish Grill units.

We believe we have the potential to double the Bonefish Grill concept over time from an existing base of 158 units as of December 31, 2011. Currently, the majority of Bonefish Grill restaurants are located in the southern and eastern U.S., with significant geographic expansion potential in the top 100 U.S. markets. Bonefish Grill unit growth will be our top domestic development priority in 2012, with 20 or more new restaurants planned. Over the last five years, Bonefish Grill restaurants open for more than a year have averaged a pre-tax return on initial investment of greater than 20%.

We also see significant opportunities to expand Carrabba's from an existing base of 232 units as of December 31, 2011. Currently, the majority of Carrabba's restaurants are also located in the southern and eastern U.S., with significant geographic expansion potential in the top 100 U.S. markets. We are developing an updated restaurant design for Carrabba's, and we plan to test this model in ten to 15 units over the next two years. Based on the results of this test, we plan to accelerate new unit development.

In addition, we believe that Fleming's has existing geography fill-in and market expansion opportunities based on its current location mix.

International Development

We believe we are well-positioned to expand internationally and plan to approach such growth in a disciplined, prioritized manner, leveraging existing markets in South Korea, Brazil

and Hong Kong, while expanding in strategically selected new emerging and high growth developed markets. For 2011, the system-wide sales of our international Outback Steakhouse restaurants represent 15% of our total system-wide sales. We believe the international business represents a significant growth opportunity. We will continue to leverage our market position by offering our top-ranked Outback Steakhouse concept in a format adapted to local cultural preferences. For example, we believe that we can leverage existing infrastructure and expertise in the Asia-Pacific region and Latin America to grow in those areas and accelerate entry into nearby countries.

As a part of the restructuring of our international business unit, we developed a prioritized growth agenda. In the near term, we plan to focus our existing market growth in South Korea, Brazil and Hong Kong and our new market growth in China, Mexico and South America. Our company-owned operations in Hong Kong and Korea, where we have over 100 restaurants, provide operational expertise in running multi-unit operations, but also cultural insights and available talent to deploy into new Asian markets. In addition, our Outback Steakhouse International leadership team has significant experience in opening retail outlets in China that we can further leverage into our expansion efforts. We will utilize the ownership structure and market entry strategy that best fits the need for a particular market, including company-owned units, joint ventures and franchises. In markets where there is potential for a significant number of restaurants, we expect to focus on company-owned and joint venture arrangements rather than franchises.

Research & Development / Innovation

In 2010, we added a company-wide head of R&D to our senior management team and increased the size of that team to approximately 20 people. We have since strengthened our innovation capability by establishing a focused, collaborative process and enhancing our R&D capabilities, and expanded the scope of innovation to focus on new product development, product efficiency and core menu quality. As a result, we are now better able to continuously evolve our product offerings based on consumer trends and feedback and improve productivity. We have a 12-month pipeline of new menu and promotional items and are able to introduce items faster than we have in the past.

Our cross-functional innovation processes leverage the best practices of the consumer products industry to continuously research and enhance every dimension of the customer experience. Our innovation teams collaborate across R&D, purchasing, operations, marketing, finance and market intelligence. Our goal is continuous innovation of our new menu, service and marketing initiatives to improve brand relevance, productivity and competitiveness based on evolving consumer trends and direct customer feedback on our products. For example, as the direct result of extensive market and consumer research, we have added over 60 new menu items across our concepts since 2010, including many items under 600 calories, which has broadened the appeal of our menus. By incorporating analytics, testing and customer feedback, we are able to refine and reduce the potential risks associated with these introductions or changes. For new menu items and significant product changes, we have a meaningful testing process that includes internal testing, testing at one restaurant and testing at a group of restaurants before the roll-out is staged across a concept based on the type of product change. Throughout this process, our customers provide direct feedback on the product as well as pricing.

We also utilize our cross-functional process to develop limited-time offers with a compelling price point and attractive margins. This requires more occasion-based testing and research to validate that the special offer was valued by customers based on the occasion. For example, Outback Steakhouse has offered a recurring $14.99 steak and lobster promotion that has not only been very popular with our customers, but also meets our profitability, food quality and execution efficiency objectives.

Strategy and Market Intelligence

Our strategy and market intelligence (SMI) function was created in 2010 to identify opportunities for profitable growth based on customer research, and to help improve returns on the investments we make in capital and operations, through the targeted application of analytics. The following summarizes a few of our analytics initiatives used across our corporation functions and concepts:

- *Advanced Analytics*. We believe we have realized significant benefits from studies regarding customer sensitivity to price changes. Our customer feedback and testing process enables rapid assessment of how new ideas and productivity initiatives perform with customers, allowing us to make improvements before they are launched nationally. Our marketing mix models guide reallocation of our marketing investments to more efficient and effective programs and have prompted increased marketing investments in Bonefish Grill and Carrabba's.

- *Development Analytics*. We have developed a robust analytical infrastructure to drive our increased new restaurant growth plan. By leveraging expanded data regarding potential sites, developing success criteria and using predictive models, we are improving the site selection process, leading to consistent improvements in our rate of return.

- *Consumer Intelligence*. Our customer research techniques provide a greater perspective into customer behavior. We deploy a variety of qualitative approaches ranging from basic focus groups to techniques designed to capture deeper consumer insights based on emotional responses. On the quantitative side, we develop, execute and analyze all consumer research related to menu items, restaurant design, consumer communication, brand positioning and casual dining segment health.

- *Data and Metrics*. We have automated business performance reports for field management that were manually created in the past, freeing up time and providing better and more timely information.

Management Information Systems

In late 2010, we hired a new Chief Information Officer and developed a multi-year information technology strategy to further transform information technology into a growth enabling function by focusing on building infrastructure, increasing technical staff, creating a technology platform to support sales growth and enabling productivity improvements.

Beginning in 2010, we added significant resources that focused on building our competencies in human resources, information technology and real estate, design and construction, including the completion of standardized POS systems across our core concepts, the implementation of a HRIS system, uniform and comprehensive training programs, expanded data warehousing capability, and increased resources and tools to accelerate renovations and new unit site selection.

Restaurant level financial and accounting controls are handled through a point-of-sale computer system and network in each restaurant that communicates with our corporate headquarters. The POS system is also used to authorize and transmit credit card sales transactions and to manage the business and control costs, such as labor. Our company-owned restaurants are connected through data centers and a portal to provide our corporate employees and regional partners with access to business information and tools that allow them to collaborate, communicate, train and share information between restaurants and the corporate office. During 2012, we expect to upgrade our wireless access points in all of our restaurants. This will provide enhanced capability to pilot and roll out new mobile technology devices within our restaurants to enhance our operational capability.

Advertising and Marketing

Our marketing strategy is designed to drive comparable restaurant sales growth by increasing the frequency of and occasions for visits by our current customers as well as attracting new customers.

To maintain customer interest and relevance, each concept leverages limited-time offers featuring seasonal specials, ingredients and flavors that are consistent with the concept's offerings, but provide something new to discover on the menu. We have increased the frequency of these promotions so that Outback Steakhouse, Carrabba's and Bonefish Grill generally have five to seven promotion periods each year. The nature of the message regarding these promotions has also changed to encourage prompt action, rather than just promote brand awareness, resulting in more immediate increases in traffic. For example, for the past few years, Outback Steakhouse has created the Thanks for Giving promotion that featured a special menu and donated a portion of the proceeds to Operation Homefront, a charity that supports members of the U.S. military and their families. We promoted the initiative through extensive television, radio, social media, public relations, in-restaurant materials and celebrity support, which resulted in significant traffic and a donation of approximately $2 million for the charity.

We promote our Outback Steakhouse and Carrabba's restaurants through national and spot television and/or radio media and our Bonefish Grill restaurants through radio advertising. We advertise on television in selected markets when our brands achieve sufficient penetration to make a meaningful broadcast schedule affordable. Each of our concepts has an active public relations program and relies on word-of-mouth customer experience, site visibility, grassroots marketing in local venues, direct mail, on-line/digital advertising and billboards. We also create point-of-sale materials to communicate and promote key brand initiatives to our guests while they are dining in our restaurants. We have local marketing personnel who customize these programs to optimize them for their target market.

We also use the openings of new restaurants as an opportunity to employ a comprehensive marketing strategy. We reach out to various media outlets as well as the local community to obtain appearances on radio and television, establish relationships with local charities and gain coverage in local newspapers and magazines. The managing partner in each restaurant is the visible face of the concept and, with local involvement, reinforces our role as a concerned, active member of the community.

We have increased our use of e-marketing tools, which enable us to reach a significant number of people in a timely and targeted fashion at a fraction of the cost of traditional media. We believe that our customers are frequent internet users and will explore e-applications to make dining decisions or to share dining experiences. We have set up pages and advertise on various social media and other websites.

These methods of advertising promote and maintain brand image and generate consumer awareness of new menu offerings, such as new items added to appeal to value-conscious consumers. We also strive to increase sales through excellence in execution. Our marketing strategy of enticing customers to visit frequently and also recommending our restaurants to others complements our goal of providing a compelling dining experience. Additionally, we engage in a variety of promotional activities, such as contributing goods, time and money to charitable, civic and cultural programs, in order to give back to the communities we serve and increase public awareness of our restaurants.

Restaurant Operations

The success of our restaurants depends on our service-oriented employees and consistent execution of our menu items in a well-managed restaurant.

Management and Employees

The management staff of a typical Outback Steakhouse, Carrabba's or Bonefish Grill consists of one managing partner, one assistant manager and one kitchen manager. The management staff of a typical Fleming's or Roy's consists of one managing partner, a chef partner and two assistant managers. Each restaurant also employs approximately 55 to 75 hourly employees, many of whom work part-time. The managing partner of each restaurant has primary responsibility for the day-to-day operation of his or her restaurant and is required to abide by company-established operating standards. Area operating partners are responsible for overseeing the operations of typically eight to 15 restaurants and managing partners in a specific region.

Area Operating, Managing and Chef Partner Programs

We have established a compensation structure for our area operating, managing and chef partners that we believe encourages high quality restaurant operations, fosters long-term employee commitment and generally results in profitable restaurants.

Historically, the managing partner of each company-owned domestic restaurant and the chef partner of each Fleming's and Roy's restaurant was required, as a condition of employment, to sign a five-year employment agreement and to purchase a non-transferable ownership interest in a partnership ("Management Partnership") that provided management and supervisory services to his or her restaurant. The purchase price for a managing partner's ownership interest was fixed at $25,000, and the purchase price for a chef partner's ownership interest ranged from $10,000 to $15,000. Managing and chef partners had the right to receive monthly distributions from the Management Partnership based on a percentage of their restaurant's monthly cash flows for the duration of the agreement, which varied by concept from 6% to 10% for managing partners and 2% to 5% for chef partners. Further, managing and chef partners were eligible to participate in the PEP, a deferred compensation program, upon completion of their five-year employment agreement.

In April 2011, we implemented modifications to our managing and chef partner compensation structure to provide greater incentives for sales and profit growth. Under the revised program, managing and chef partners continue to sign five-year employment agreements and receive monthly distributions of the same percentage of their restaurant's cash flow as under the prior program. However, under the revised program, in lieu of participation in the PEP, managing partners and chef partners are eligible to receive deferred compensation payments under the new POA. The POA places greater emphasis on year-over-year growth in cash flow than the PEP. Managing and chef partners will receive a greater value under the POA than they would have received under the PEP if certain levels of year-over-year cash flow growth are achieved and a lesser value than under the PEP if these levels are not achieved.

The POA requires managing and chef partners to make an initial deposit of up to $10,000 into their "Partner Investment Account," and we will make a bookkeeping contribution to each partner's "Company Contributions Account" no later than the end of February of each year following the completion of each year (or partial year where applicable) under the partner's employment agreement. The value of each of our contributions will be equal to a percentage of the partner's restaurant's positive distributable cash flow plus, if the restaurant has been open at least 18 calendar months, a percentage of the year-over-year increase in the restaurant's positive distributable cash flow in accordance with the terms described in the partner's employment agreement.

The revised program also provides an annual bonus known as the President's Club, paid in addition to the monthly distributions of cash flow, designed to reward increases in their restaurant's annual sales above the concept sales plan with a required flow-through percentage of the incremental sales to cash flow. Managing and

chef partners whose restaurants achieve certain annual sales targets above the concept's sales plan (and the required flow-through percentage) receive a bonus equal to a percentage of the incremental sales, such percentage determined by the sales target achieved.

All managing and chef partners who execute new employment agreements after May 1, 2011 are required to participate in the new partner program, including the POA. Managing and chef partners with an employment agreement scheduled to expire December 1, 2011 or later had the opportunity (from April 27, 2011 through July 27, 2011) to amend their employment agreements to convert their existing partner program to participation in the new partner program, including the POA, effective June 1, 2011. See "Management's Discussion and Analysis of Financial Condition and Results of Operations —Liquidity and Capital Resources—Stock-Based and Deferred Compensation Plans." As of December 3, 2011, approximately 52% of our managing and chef partners were participating in the POA.

Many of Outback Steakhouse international restaurant managing partners enter into employment agreements and purchase participation interests in the cash distributions from the restaurants they manage. The amount and terms vary by country. This interest gives the managing partner the right to receive a percentage of his or her restaurant's annual cash flows for the duration of the agreement. Additionally, each new unaffiliated franchisee is required to provide the same opportunity to the managing partner of each new restaurant opened by that franchisee.

Area operating partners are currently required, as a condition of employment and within 30 days of the opening of his or her first restaurant, to make an initial investment of $50,000 in a Management Partnership within 30 days of the opening of his or her first restaurant. This interest gives the area operating partner the right to distributions from the Management Partnership based on a percentage of his or her restaurants' monthly cash flows for the duration of the agreement, typically ranging from 4% to 9%. We have the option to purchase an area operating partner's interest in the Management Partnership after the restaurant has been open for a five-year period on the terms specified in the agreement. For restaurants opened on or after January 1, 2007, the area operating partner's percentage of cash distributions and buyout percentage is calculated based on the associated restaurant's return on investment compared to our targeted return on investment and may range from 3.0% to 12.0% depending on the concept.

In 2011, we also began a version of the President's Club annual bonus described above for area operating partners to provide additional rewards for achieving sales targets with a required flow-through of the incremental sales to cash flow. We are evaluating additional changes to the compensation structure for our area operating partners.

We have also improved our field operations performance evaluation and development processes since 2009. All field managing partners and area managers receive feedback on performance with consistent metrics linked to quarterly restaurant, area and concept business objectives.

By offering these types of compensation arrangements and by providing the area operating, managing and chef partners a significant interest in the success of their restaurants, we believe we are able to attract and retain experienced and highly motivated area operating, managing and chef partners.

Supervision and Training

We require our area operating partners and restaurant managing partners to have significant experience in the full-service restaurant industry. As part of our management development programs, we engage in succession planning at a total company and concept level to identify promotable personnel, with focused training programs to prepare managers for the next level of responsibility. Our core concept presidents have been with us for an average of 20 years and have an average of 30 years of industry experience. Our regional field management team has an average of over 13 years of experience working with us at the managing partner level or above.

All operating partners and managing partners are required to complete a comprehensive training program that emphasizes our operating strategy, procedures and standards. Our senior management meets quarterly with our area operating partners to discuss business-related issues and share ideas. In addition, members of senior management visit restaurants regularly to ensure that our concept, strategy and standards of quality are being adhered to in all aspects of restaurant operations.

The restaurant managing and area operating partners, together with our Presidents, Regional Vice Presidents, Senior Vice Presidents of Training and Directors of Training, are responsible for selecting and training the employees for each new restaurant. The training period for new non-management employees lasts approximately one week and is characterized by on-the-job supervision by an experienced employee. Ongoing employee training remains the responsibility of the restaurant manager. Written tests and observation in the work place are used to evaluate each employee's performance. Special emphasis is placed on the consistency and quality of food preparation and service which is monitored through monthly meetings between kitchen managers and management.

Service

We seek to deliver superior service to each customer at every opportunity. We offer customers prompt, friendly and efficient service, keep wait staff-to-table ratios high and staff each restaurant with experienced management teams to ensure consistent and attentive customer service. In Zagat's customer survey in 2011, Bonefish Grill and Carrabba's were ranked first and third, respectively, for all full-service chains in the "Top Service" category.

In order to better assess and improve our performance, in 2009 we began using Service Management Group (SMG) to conduct an on-going satisfaction measurement program that utilizes a random invitation to participate in a web-based survey printed on customer checks and provides us with benchmarking information from other restaurants. The program measures satisfaction across a wide range of experience elements, from the pace of the experience to the temperature of the food. Results are compiled and reported through a central web site at the national, regional and individual restaurant level.

Currently, 24 casual dining restaurant concepts, including Outback Steakhouse, Carrabba's and Bonefish Grill, participate in the SMG survey web methodology and contribute to the SMG average comparison measures that we utilize in assessing our performance. The percentage of surveyed customers that rated their overall customer satisfaction at Outback Steakhouse as "excellent" or "very good" increased by 20% from April 2009 to December 2011, based on our SMG customer satisfaction measurement program, which we believe is attributable to the initiatives we implemented.

Food Preparation and Quality Control

Food safety is a critical priority, and we dedicate resources to ensuring that our customers enjoy safe, quality food products. We have taken various steps to mitigate food quality and safety risks and have central teams focused on this goal together with our supply chain, food safety/quality assurance and R&D teams.

We have an R&D facility located in Tampa that serves as a test kitchen and vendor product qualification site. Our supply chain organization manages internal auditors for vendor evaluations along with external third parties to inspect vendor adherence to quality, food safety and product specification on a risk based schedule. Vendors that do not comply with quality, food safety and other specifications are not utilized until they have corrective actions in place and are re-certified for compliance. Additionally, a daily "line check" is performed by the restaurant managing partner and their key team members to inspect food prepared for that day, as well as the freshness of liquor, beverages, condiments and other perishables used for all menu items.

We also employ two outside advisory councils comprised of external subject matter experts to advise our senior management on industry trends and on quality, safety and animal considerations pertinent to our industry, such as well-being strategies and procedures.

Sourcing and Supply

We take a centralized approach to purchasing and supply chain management, with our corporate team serving all concepts domestically and internationally. In addition, we have dedicated supply chain management personnel at the local level in our larger international operations in Asia and South America. The supply chain management organization is responsible for all food and operating supply purchases as well as a large percentage of field and home office services. In addition, we have logistics teams dedicated to optimizing freight costs. The supply chain management organization's mission is to utilize a combination of centralized domestic and locally-based supply to capture the efficiencies and economies of scale that come from making strategic buys, while maintaining (or improving) quality and building stronger partnerships with our key vendors.

We work to address the end-to-end costs (from the source to the fork) associated with the products and goods we purchase. We utilize a "total cost of ownership" (TCO) approach, which focuses on both the initial purchase price, coupled with the cost structure underlying the procurement and order fulfillment process. The TCO approach includes monitoring commodity markets and trends and seeking to execute product purchases at the most advantageous times. We develop commodity sourcing strategies for all major commodity categories based on the dynamics of each category. Those strategies include both spot purchases and long-term contracts of generally one year or less where we believe long-term contract prices are more attractive than anticipated spot prices. In addition, we limit exposure to potential risk by requiring our vendor partners to meet or exceed our quality assurance standards.

We have a national distribution program in place that includes food, beverage, and packaging goods. This program is with a custom distribution company that uses a limited number of warehouses that provide only products approved for our system.

Proteins represent about 50% of our commodity purchasing composition, with beef representing slightly over half of total purchased proteins. In 2011, we purchased more than 90% of our beef raw materials from four beef suppliers who represent approximately 75% of the total beef marketplace in the U.S. Due to the nature of our industry, we expect to continue to purchase a substantial amount of our beef from a small number of suppliers. Other major commodity categories purchased include produce, dairy, bread and pasta and energy sources to operate our restaurants, such as natural gas.

Restaurant Ownership Structures

Our restaurants are predominately company-owned or controlled, including through joint ventures, and otherwise operated under franchise arrangements. We generate our revenues primarily from our company-owned or controlled restaurants and secondarily through ongoing royalties from our franchised restaurants and sales of franchise rights.

Company-Owned Restaurants

Company-owned or controlled restaurants include restaurants owned directly by us, by limited partnerships in which we are a general partner and by joint ventures in which we are a member. Our legal ownership interests in these partnerships and joint ventures generally range from 50% to 90%. The results of operations of company-owned restaurants are included in our consolidated operating results. The portion of income or loss attributable to the other partners' interests is eliminated in the line item in our Consolidated Statements of Operations entitled "Net income (loss) attributable to noncontrolling interests."

In the future we do not plan to utilize limited partnerships for domestic company-owned restaurants. Instead, the restaurants will be wholly-owned by us and the area operating, managing and chef partners will receive their distributions of restaurant cash flow as employee compensation rather than partnership distributions.

With respect to Carrabba's restaurants opened after 1994, we pay royalties to the Carrabba's founders ranging from 1.0% to 1.5% of sales pursuant to agreements we entered into with the founders.

We also include the restaurants owned by our Roy's joint venture as company-owned restaurants, and their accounts and operations are included in our consolidated financial statements, even though we have less than majority ownership. We determined we are the primary beneficiary of the joint venture since we have the power to direct or cause the direction of the activities that most significantly impact the entity on a day-to-day basis, such as decisions regarding menu development, purchasing, restaurant expansion and closings and the management of employee-related processes. Additionally, we have the obligation to absorb losses or the right to receive benefits of the Roy's joint venture that could potentially be significant to the Roy's joint venture. The majority of capital contributions made by our partner in the Roy's joint venture, RY-8, have been funded by loans to RY-8 from a third party, which we guarantee. The guarantee is secured by a collateral interest in RY-8's membership interest in the joint venture. We did not have an economic interest in nine Roy's as of December 31, 2011, including six in Hawaii and one each in the continental United States, Japan and Guam.

Through our Brazilian Joint Venture with PGS Participacoes Ltda., we hold a 50% ownership interest in PGS Consultoria e Serviços Ltda. The Brazilian Joint Venture was formed in 1998 for the purpose of operating Outback Steakhouse franchise restaurants in Brazil. We account for the Brazilian Joint Venture under the equity method of accounting. We are responsible for 50% of the costs of new restaurants operated by the Brazilian Joint Venture and our joint venture partner is responsible for the other 50%. Income and loss derived from the Brazilian Joint Venture is presented in the line item "Income from operations of unconsolidated affiliates" in our Consolidated Statements of Operations.

In addition, under our settlement agreement with T-Bird, T-Bird has a right we refer to as the Put Right, which would require us to purchase for cash all of the equity interests in the T-Bird entities that own Outback Steakhouse restaurants and certain rights under the development agreement with T-Bird entity. The Put Right is non-transferable, other than under limited circumstances set forth in the Settlement Agreement. The Put Right will become exercisable by T-Bird for a one-year period beginning on the date of closing of this initial public offering. The Put Right is also exercisable if we sell our Outback Steakhouse concept. If the Put Right is exercised, we will pay a purchase price equal to a multiple of the T-Bird entities' adjusted EBITDA for the trailing 12 months, net of liabilities of the T-Bird entities. The multiple is equal to 75% of the multiple of our adjusted EBITDA reflected in our stock price in the case of an IPO or, in a sale of the Outback Steakhouse concept, 75% of the multiple of adjusted EBITDA that we are receiving in the sale. We have a one-time right to reject the exercise of the Put Right if the transaction would be dilutive to our consolidated earnings per share. In such event, the Put Right is extended until the first anniversary of our notice to the T-Bird entities of such rejection. The closing of the Put Right is subject to certain conditions, including the negotiation of a transaction agreement reasonably acceptable to the parties, the absence of dissenters' rights being exercised by the equity owners above a specified level and compliance with our debt agreements.

Unaffiliated Franchise Program

Our unaffiliated franchise arrangements grant third parties a license to establish and operate a restaurant using one of our concepts, our systems and our trademarks in a given area. The unaffiliated franchisee pays us for the concept ideas, strategy, marketing, operating system, training, purchasing power and brand recognition.

Franchised restaurants must be operated in compliance with each concept's methods, standards and specifications, including regarding menu items, ingredients, materials, supplies, services, fixtures, furnishings, decor and signs, although the franchisee has full discretion to determine menu prices. In addition, all franchisees are required to purchase all food, ingredients, supplies and materials from approved suppliers. Our regional vice presidents regularly inspect franchised restaurants to confirm compliance with our requirements.

At December 31, 2011, there were 106 domestic franchised Outback Steakhouse restaurants and 47 international franchised Outback Steakhouse restaurants. Each domestic franchisee paid an initial franchise fee of $40,000 for each restaurant and is required to pay a continuing monthly royalty of 3.0% of gross restaurant sales and a monthly marketing administration fee of 0.5% of gross restaurant sales. Initial fees and royalties for international franchisees vary by market. Generally, each international franchisee paid an initial franchise fee of $40,000 to $200,000 for each restaurant and are expected to pay a continuing monthly royalty of 2.0% to 4.0% of gross restaurant sales. Certain international franchisees enter into an international development agreement that requires them to pay a development fee in exchange for the right and obligation to develop and operate up to five restaurants within a defined development territory pursuant to separate franchise agreements. All domestic franchisees are required to expend an annually adjusted percentage of gross restaurant sales, up to a maximum of 3.5%, for national advertising on a monthly basis (3.0% in 2011).

At December 31, 2011, there was one domestic franchised Carrabba's. The franchisee paid an initial franchise fee of $40,000 and pays a continuing monthly royalty of 5.75% of gross restaurant sales.

At December 31, 2011, there were seven domestic franchised Bonefish Grills. Four of these franchisees paid an initial franchise fee of $50,000 for each restaurant and pay a continuing monthly royalty of 3.5% to 4.0% of gross restaurant sales. Three of these franchisees pay royalties up to 4.0%, depending on sales volumes. Under the terms of the franchise agreement, the franchisees are required to expend, on a monthly basis, a minimum of 2.5% of gross restaurant sales on local advertising and pay a monthly marketing administration fee of 0.5% of gross restaurant sales.

There were no unaffiliated franchises of any of our other restaurant concepts at December 31, 2011.

Under the development agreement granted to one of the T-Bird entities, for the period ending in 2031, the T-Bird entities have the exclusive right through 2031 to develop and operate Outback Steakhouse restaurants as a franchisee in the State of California. We have agreed to waive all rights of first refusal in our franchise arrangements with the T-Bird entities in connection with a sale of all, and not less than all, of the assets, or at least 75% of the ownership of the T-Bird entities.

Competition

The restaurant industry is highly competitive with a substantial number of restaurant operators that compete directly and indirectly with us in respect to price, service, location and food quality, and there are other well-established competitors with significant financial and other resources. There is also active competition for management personnel, attractive suitable real estate sites, supplies and restaurant employees. Further, we face growing competition from the supermarket industry, with improved selections of prepared meals, and from quick service and fast casual restaurants, as a result of higher-quality food and beverage offerings. We expect intense competition to continue in all of these areas.

Industry and internal research conducted suggests that consumers consider casual dining restaurants within a given trade area when making dining decisions. As a result, an individual restaurant's competitors will vary based on their trade area and will include both independent and chain restaurants. At an aggregate level, all major casual dining restaurants would be considered competitors of our concepts.

We believe our principal strategies, which include but are not limited to, the use of high quality ingredients, the variety of our menu and concepts, the quality and consistency of our food and service, the use of various promotions and the selection of appropriate locations for our restaurants, allow us to effectively and efficiently compete in the restaurant industry.

Government Regulation

We are subject to various federal, state, local and international laws affecting our business. Each of our restaurants is subject to licensing and regulation by a number of governmental authorities, which may include, among others, alcoholic beverage control, health and safety, nutritional menu labeling, health care, environmental and fire agencies in the state, municipality or country in which the restaurant is located. Difficulty in obtaining or failing to obtain the required licenses or approvals could delay or prevent the development of a new restaurant in a particular area. Additionally, difficulties or inabilities to retain or renew licenses, or increased compliance costs due to changed regulations, could adversely affect operations at existing restaurants.

Approximately 15% of our consolidated restaurant sales are attributable to the sale of alcoholic beverages. Alcoholic beverage control regulations require each of our restaurants to apply to a state authority and, in certain locations, county or municipal authorities for a license or permit to sell alcoholic beverages on the premises and to provide service for extended hours and on Sundays. Typically, licenses must be renewed annually and may be revoked or suspended for cause at any time. Alcoholic beverage control regulations relate to numerous aspects of daily operations of our restaurants, including minimum age of patrons and employees, hours of operation, advertising, training, wholesale purchasing, inventory control and handling and storage and dispensing of alcoholic beverages. The failure of a restaurant to obtain or retain liquor or food service licenses would adversely affect the restaurant's operations. Additionally, we are subject in certain states to "dramshop" statutes, which generally provide a person injured by an intoxicated person the right to recover damages from an establishment that wrongfully served alcoholic beverages to the intoxicated person.

Our restaurant operations are also subject to federal and state labor laws, including the Fair Labor Standards Act, governing such matters as minimum wages, overtime, tip credits and worker conditions. Our employees who receive tips as part of their compensation, such as servers, are paid at a minimum wage rate, after giving effect to applicable tip credits. We rely on our employees to accurately disclose the full amount of their tip income, and we base our FICA tax reporting on the disclosures provided to us by such tipped employees. Our other personnel, such as our kitchen staff, are typically paid in excess of minimum wage. As significant numbers of our food service and preparation personnel are paid at rates related to the applicable minimum wage, further increases in the minimum wage or other changes in these laws could increase our labor costs. Our ability to respond to minimum wage increases by increasing menu prices will depend on the responses of our competitors and customers. Further, we are continuing to assess the impact of federal health care legislation on our health care benefit costs. The imposition of any requirement that we provide health insurance benefits to employees that are more extensive than the health insurance benefits we currently provide, or the imposition of additional employer paid employment taxes on income earned by our employees, could have an adverse effect on our results of operations and financial position. Our distributors and suppliers also may be affected by higher minimum wage and benefit standards, which could result in higher costs for goods and services supplied to us.

We may also be subject to lawsuits from our employees, the U.S. Equal Employment Opportunity Commission or others alleging violations of federal and state laws regarding workplace and employment matters, discrimination and similar matters. A number of lawsuits have resulted in the payment of substantial damages by the defendants. For example, in December 2009, we entered into a Consent Decree in settlement of certain litigation brought by the U.S. Equal Employment Opportunity Commission, which required us to make a settlement payment of $19.0 million. In addition, during the four-year term of the Consent Decree, we are required to fulfill certain training, record-keeping and reporting requirements, maintain an open access system for restaurant employees to express interest in promotions, and employ a human resources executive.

The Patient Protection and Affordability Act of 2010 (the "PPACA") enacted in March 2010 requires chain restaurants with 20 or more locations in the United States to comply with federal nutritional disclosure requirements. The FDA has indicated that it intends to issue final regulations by the middle of 2012 and begin enforcing the regulations by the end of 2012. A number of states, counties and cities have also enacted menu labeling laws requiring multi-unit restaurant operators to disclose certain nutritional information to customers, or

have enacted legislation restricting the use of certain types of ingredients in restaurants. Although the federal legislation is intended to preempt conflicting state or local laws on nutrition labeling, until we are required to comply with the federal law we will be subject to a patchwork of state and local laws and regulations regarding nutritional content disclosure requirements. Many of these requirements are inconsistent or are interpreted differently from one jurisdiction to another. While our ability to adapt to consumer preferences is a strength of our concepts, the effect of such labeling requirements on consumer choices, if any, is unclear at this time.

There is potential for increased regulation of food in the United States under the recent changes in the HACCP system requirements. HACCP refers to a management system in which food safety is addressed through the analysis and control of potential hazards from production, procurement and handling, to manufacturing, distribution and consumption of the finished product. Many states have required restaurants to develop and implement HACCP Systems and the United States government continues to expand the sectors of the food industry that must adopt and implement HACCP programs. For example, the Food Safety Modernization Act (the "FSMA"), signed into law in January 2011, granted the FDA new authority regarding the safety of the entire food system, including through increased inspections and mandatory food recalls. Although restaurants are specifically exempted from or not directly implicated by some of these new requirements, we anticipate that the new requirements may impact our industry. Additionally, our suppliers may initiate or otherwise be subject to food recalls that may impact the availability of certain products, result in adverse publicity or require us to take actions that could be costly for us or otherwise harm our business.

We are subject to the Americans with Disabilities Act, or the ADA, which, among other things, requires our restaurants to meet federally mandated requirements for the disabled. The ADA prohibits discrimination in employment and public accommodations on the basis of disability. Under the ADA, we could be required to expend funds to modify our restaurants to provide service to, or make reasonable accommodations for the employment of, disabled persons. In addition, our employment practices are subject to the requirements of the Immigration and Naturalization Service relating to citizenship and residency. Government regulations could affect and change the items we procure for resale. We may also become subject to legislation or regulation seeking to tax and/or regulate high-fat and high-sodium foods, particularly in the United States, which could be costly to comply with. Our results can be impacted by tax legislation and regulation in the jurisdictions in which we operate and by accounting standards or pronouncements.

We are also subject to laws and regulations relating to information security, privacy, cashless payments, gift cards and consumer credit, protection and fraud, and any failure or perceived failure to comply with these laws and regulations could harm our reputation or lead to litigation, which could adversely affect our financial condition.

See "Risk Factors" for a discussion of risks relating to federal, state, local and international regulation of our business.

Employees

As of December 31, 2011, we employed approximately 85,000 persons, of which 825 are corporate personnel, approximately 5,200 are restaurant management personnel and the remainder are hourly restaurant personnel. Of the 825 corporate employees, approximately 185 are in management and 640 are administrative or office employees. None of our employees are covered by a collective bargaining agreement.

Properties

During the year ended December 31, 2011, we added fifteen new restaurant sites, closed eleven others and, in October 2011, we sold our nine company-owned Outback Steakhouse restaurants in Japan to a subsidiary of S Foods, Inc. The buyer has the right to develop Outback Steakhouse international franchise restaurants in Japan in the future and will pay us a royalty based on sales volumes.

In connection with the Merger on June 14, 2007, we implemented a new ownership and financing arrangement for some of our restaurant properties, pursuant to which Private Restaurant Properties, LLC, or PRP, our wholly-owned subsidiary, acquired 343 restaurant properties from our wholly-owned primary operating subsidiary, OSI Restaurant Partners, LLC, or OSI. Immediately after the purchase, PRP leased the properties back to a subsidiary of OSI (the "Tenant"), under a 15-year market rate master lease agreement (the "Master Lease"). PRP's sole purpose is to own and lease all its real property to the Tenant and PRP. As of December 31, 2011, approximately 25% of our restaurant sites were leased by Tenant from PRP. The remaining 75% of our restaurant sites were leased by our subsidiaries from third parties.

On March 14, 2012, PRP sold 67 properties to two independent real estate institutional investors and the Tenant entered into new 20-year market-rate leases with the buyers. The leases are net leases that require the Tenant to pay the costs of insurance, taxes and common area operating costs. Also, on March 27, 2012, we completed the CMBS Refinancing associated with the remaining 261 properties. See "Management's Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources—Transactions" for a description of the CMBS Refinancing. Following the CMBS Refinancing, New PRP continues to own and lease the 261 restaurant properties to the Tenant under the Amended and Restated Master Lease, which has a 15-year term. The Amended and Restated Master Lease is a net lease that requires the Tenant to pay the costs of insurance, taxes and common area operating costs. Following the Sale-Leaseback Transaction, approximately 20% of our restaurant sites are leased by Tenant from New PRP. The remaining 80% of our restaurant sites are leased from third parties, including the buyers of the 67 properties from PRP.

Initial lease expirations for our other leased properties typically range from five to ten years, with the majority of the leases providing for an option to renew for two or more additional terms. All of our leases provide for a minimum annual rent, and many leases call for additional rent based on sales volume at the particular location over specified minimum levels. Generally, the leases are net leases that require us to pay our share of the costs of insurance, taxes and common area operating costs.

As of December 31, 2011, we leased approximately 179,000 square feet of office space in Tampa, Florida for our corporate headquarters and research and development facilities under a lease expiring January 31, 2025.

Trademarks

We regard our "Outback Steakhouse," "Carrabba's Italian Grill," "Bonefish Grill," "Fleming's Prime Steakhouse and Wine Bar" and "Roy's" service marks and our "Bloomin' Onion" trademark as having significant value and as being important factors in the marketing of our restaurants. We have also obtained trademarks for several of our other menu items and for various advertising slogans. We are aware of names and marks similar to the service marks of ours used by other persons in certain geographic areas in which we have restaurants. However, we believe such uses will not adversely affect us. Our policy is to pursue registration of our marks whenever possible and to oppose vigorously any infringement of our marks.

We license the use of our registered trademarks to franchisees and third parties through franchise arrangements and licenses. The franchise and license arrangements restrict franchisees' and licensees' activities with respect to the use of our trademarks, and impose quality control standards in connection with goods and services offered in connection with the trademarks.

Seasonality and Quarterly Results

Our business is subject to seasonal fluctuations. Historically, customer spending patterns for our established restaurants are generally highest in the first quarter of the year and lowest in the third quarter of the year. Additionally, holidays, severe winter weather, hurricanes, thunderstorms and similar conditions may affect sales volumes seasonally in some of our markets. Quarterly results have been and will continue to be significantly affected by general economic conditions, the timing of new restaurant openings and their associated

pre-opening costs, restaurant closures and exit-related costs and impairments of goodwill and property, fixtures and equipment. As a result of these and other factors, our financial results for any given quarter may not be indicative of the results that may be achieved for a full fiscal year.

Legal Proceedings

We are subject to legal proceedings, claims and liabilities, such as liquor liability, sexual harassment and slip and fall cases, which arise in the ordinary course of business and are generally covered by insurance. In the opinion of management, the amount of ultimate liability with respect to those actions will not have a material adverse impact on our financial position or results of operations and cash flows. We accrue for loss contingencies that are probable and reasonably estimable. We generally do not accrue for legal costs expected to be incurred with a loss contingency until those services are provided.

We intend to avail ourselves of the "controlled company" exception under rules. As a result, we will not have a majority of independent directors, and our nominating and corporate governance committee and compensation committee will not be composed entirely of independent directors as defined under rules. The controlled company exception does not modify the independence requirements for the audit committee, and we intend to comply with the requirements of the Sarbanes-Oxley Act and rules with respect to the audit committee. These rules require that our audit committee be composed of at least three members, one of whom must be independent on the date of listing on , a majority of whom must be independent within 90 days of the effective date of the registration statement containing this prospectus, and all of whom must be independent within one year of the effective date of the registration statement containing this prospectus.

Board Leadership Structure

The board of directors does not have a formal policy on whether the roles of Chief Executive Officer and chairman of the board of directors should be separate. However, Elizabeth A. Smith currently serves as both Chief Executive Officer and chairman of the board of directors. The board of directors has considered its leadership structure and believes at this time that the company and its stockholders are best served by having one person serve both positions. Combining the roles fosters accountability, effective decision-making and alignment between interests of the board of directors and management. Ms. Smith also is able to use the in-depth focus and perspective gained in her executive function to assist our board of directors in addressing both internal and external issues affecting the company. The board of directors expects to periodically review its leadership structure to ensure that it continues to meet the company's needs.

Board's Role in Risk Oversight

The entire board of directors is engaged in risk management oversight. At the present time, the board of directors has not established a separate committee to facilitate its risk oversight responsibilities. The board of directors will continue to monitor and assess whether such a committee would be appropriate. The audit committee assists the board of directors in its oversight of our risk management and the process established to identify, measure, monitor, and manage risks, in particular major financial risks. The board of directors will receive regular reports from management, as well as from the audit committee, regarding relevant risks and the actions taken by management to address those risks.

Code of Business Conduct and Ethics

We have adopted a written code of business conduct and ethics that applies to our directors, officers and employees, including our principal executive officer, principal financial officer, principal accounting officer or controller, and persons performing similar functions. Following this offering, a current copy of the code, and information regarding any amendment to or waiver from its provisions, will be posted on our website.

COMPENSATION DISCUSSION AND ANALYSIS

Introduction

This Compensation Discussion and Analysis discusses the objectives and design of our executive compensation program. It includes a description of the compensation provided for 2011 to our executive officers who are named in the Summary Compensation Table under "Executive Compensation." Our "named executive officers" for 2011 were:

- Elizabeth A. Smith, Chief Executive Officer
- Dirk A. Montgomery, Chief Financial Officer
- David P. Berg, Executive Vice President and President of Outback Steakhouse International
- Jody L. Bilney, Executive Vice President and Chief Brand Officer
- Joseph J. Kadow, Executive Vice President and Chief Legal Officer

Overview of Compensation Philosophy and 2011 Performance

For 2011, the compensation committee of the board of directors of OSI was responsible for setting the compensation of our executive officers and certain other corporate executives. Following the offering, executive compensation will be established by the compensation committee of the board of directors of Bloomin' Brands. The compensation committee of OSI and Bloomin' Brands, which we refer to in this prospectus collectively as the "compensation committee," consist of the same members: Messrs. Balson, Chu and Sullivan.

The compensation committee's primary objective is to establish an executive compensation program that will enable us to attract and retain qualified executives in today's competitive market, that motivates and rewards them to achieve annual company-wide and concept-specific performance goals and that aligns management, employee and shareholder interests over the long-term. Our compensation program is designed to provide a total competitive compensation package that aligns the interests of executive officers and our shareholders by tying a significant portion of an executive's cash compensation to the achievement of annual performance goals and long-term incentive compensation to growth in the value of the company.

We achieved strong financial performance in 2011, and we believe that our named executive officers were instrumental in helping us achieve these results. Highlights of our 2011 performance include the following:

- an increase in consolidated revenues of 5.9% to $3.8 billion, driven primarily by 4.9% growth in combined comparable restaurant sales at existing domestic company-owned core restaurants;
- 15 system-wide restaurant openings across most brands, and 194 Outback Steakhouse remodels in 2011;
- productivity and cost management initiatives that we estimate allowed us to save over $50 million in the aggregate in 2011; and
- generation of income from operations of $213.5 million in 2011 compared to $168.9 million in 2010, primarily attributable to the increase in consolidated revenues described above and a $33.3 million payment received in November 2011 from T-Bird in connection with a settlement agreement that satisfied all outstanding litigation.

This strong financial performance led to significant payments to our named executive officers under our annual cash incentive plan as described under "—Compensation Elements—Performance-Based Cash Incentives" below.

Compensation Setting Process

Our compensation committee oversees our executive compensation program and is responsible for approving the type and amount of compensation paid to our named executive officers. The compensation committee approves employment agreements with our executive officers and administers our equity compensation plan. The compensation committee also has overall responsibility for establishing, implementing and monitoring the executive compensation program for our corporate level executives other than our named executive officers. Salary and target bonus amounts, as well as stock option awards for other corporate level executives, are recommended by management to the compensation committee for its consideration and approval.

Each of our named executive officers has an employment agreement with us that was entered into at the time of the Merger or, if later, at the time of hire. Each employment agreement establishes, among other things, the executive's minimum base salary and minimum target bonus, measured as a percentage of base salary. Each year since the Merger, the compensation committee has reviewed with management whether any changes to base salary or bonus targets of our named executive officers were appropriate. No changes were made to the base salaries or bonus targets of our named executive officers for 2011.

The compensation committee did not, for compensation paid in 2011, use a compensation consultant or formally obtain competitive data, except with respect to the stock option grants described under "—Compensation Elements—Long-Term Stock Incentives."

Compensation Elements

The principal components of compensation for our named executive officers consist of the following:

- base salary;
- performance-based cash incentives;
- for our Chief Executive Officer, retention-based cash incentives;
- long-term stock incentives, generally in the form of stock options;
- other benefits and perquisites; and
- change in control and termination benefits.

Mix of Total Compensation

A significant percentage of cash compensation and total compensation for our named executive officers is allocated to performance-based compensation. Performance-based cash incentives are targeted to approach or exceed base salaries so that a meaningful percentage of their annual cash compensation is dependent on our performance. Long-term stock incentives in the form of stock options supplement cash compensation and provide value to our executives when the company's equity value increases. Generally, our executives are only able to realize value from stock options upon a liquidity event such as a change in control or initial public offering. Some of our named executive officers hold restricted stock that was granted to them at the time of the Merger. Since the Merger, the compensation committee has not used restricted stock as a form of compensation for our executive officers, but the compensation committee may re-evaluate its use in the future. In evaluating annual compensation of our named executive officers and other members of management, the compensation committee considers previous equity grants.

Base Salary

Base salaries are established pursuant to employment agreements with each of our named executive officers and generally reflect demonstrated experience, skills and competencies. Base salary levels of our named

executive officers may be increased as part of the annual performance review process, upon an executive officer's promotion or other change in job responsibilities or if necessary to address internal or external equity issues as recommended by management. Base salaries of the named executive officers are listed in the table below.

Named Executive Officer	2011 Base Salary	Change From 2010
Elizabeth A. Smith	$ 1,000,000	—
Dirk A. Montgomery	472,000	—
David P. Berg (1)	450,000	N/A
Jody L. Bilney	400,000	—
Joseph J. Kadow	497,640	—

(1) Mr. Berg was hired as President of Outback International effective September 12, 2011.

Performance-Based Cash Incentives

Cash incentives are awarded to all of our executive officers under performance-based cash incentive plans. These awards are payable based on the achievement of annually established financial objectives, which are intended to provide incentives and rewards for achievement of the company's annual financial goals for corporate executive officers and a combination of company goals and concept goals for our executive officers who have operating responsibility at one of our concepts. The design of the bonus plans reflects the compensation committee's belief that a significant portion of annual compensation for each named executive officer should be based on the financial performance of the company.

Annual performance-based cash incentive targets, measured as a percentage of base salary, are set forth in each named executive officer's employment agreement and are listed in the table below. The compensation committee believes, based on its own analysis and experience in the restaurant industry, that the total potential annual cash compensation of the named executive officers is competitive with the marketplace. The following table presents the 2011 annual performance-based cash incentive target for each named executive officer, as a percentage of his or her base salary.

Named Executive Officer	2011 Annual Performance-Based Cash Incentive Target, as a Percentage of Base Salary	Change From 2010
Elizabeth A. Smith	85%	—
Dirk A. Montgomery	150%	—
David P. Berg (1)	85%	N/A
Jody L. Bilney	100%	—
Joseph J. Kadow	100%	—

(1) Mr. Berg was hired as President of Outback International effective September 12, 2011. His 2011 bonus was guaranteed at his targeted amount.

For 2011, the annual performance-based cash incentive plan for our named executive officers, except for Mr. Berg (the "2011 Corporate Bonus Plan"), was based on two equally weighted measures of OSI's 2011 financial performance: Adjusted EBITDA (the "Adjusted EBITDA Bonus") and comparable sales performance targets (the "Comparable Sales Bonus"). Under each of these measures, each named executive officer could earn up to 75% of such executive's annual cash incentive target, with the aggregate maximum payout for each under the 2011 Corporate Bonus Plan capped at 150% of the executive's annual cash incentive target.

For purposes of the 2011 Corporate Bonus Plan, "OSI Adjusted EBITDA" was calculated by adjusting OSI's earnings before interest, taxes, depreciation and amortization ("EBITDA") to exclude certain stock-based compensation expenses, non-cash expenses, and significant non-recurring items. OSI Adjusted EBITDA is a

measure established for the 2011 Corporate Bonus Plan and is different than Adjusted EBITDA for Bloomin' Brands used elsewhere in this prospectus. The OSI Adjusted EBITDA Bonus was payable on a sliding scale of OSI Adjusted EBITDA ranging from $365.0 million (representing payout at 15% of target) to a maximum payout at OSI Adjusted EBITDA of $435.0 million (representing payout at 75% of target), with OSI Adjusted EBITDA of $395.0 million representing payout at 50% of target. The Comparable Sales Bonus was based on the company's 2011 comparable sales performance relative to the company's 2011 comparable sales targets. The Comparable Sales Bonus was payable on a sliding scale of comparable sales ranging from 0% (representing payment at 25% of target) to a maximum payout at 4.1% (representing payout at 75% of target), with 2.1% representing payment at target.

OSI Adjusted EBITDA and comparable sales performance payment levels were established by the compensation committee at the beginning of the year based on consideration of company initiatives as well as industry and general economic conditions and trends, among other considerations. The actual OSI Adjusted EBITDA Bonus payout to our named executive officers under the 2011 Corporate Bonus Plan was at 65.9% of target which resulted from OSI Adjusted EBITDA of $424.0 million. The actual Comparable Sales Bonus payout to our named executive officers was at 75% of target, which resulted from company-wide comparable sales performance of 5.7%. Accordingly, the total payouts to our named executive officers under the 2011 Corporate Bonus Plan, as reported in the Summary Compensation Table, were 140.9% of their bonus targets.

For 2011, the annual performance-based cash incentive plan for Mr. Berg, President of Outback International (the "2011 International Bonus Plan"), was based 50% on the 2011 Corporate Business Plan, as described above, and 50% on a bonus plan structured much like the 2011 Corporate Bonus Plan, but based on the results of Outback International. Under each of these measures, Mr. Berg could earn up to 75% of his annual cash incentive target, with the aggregate maximum payout capped at 150% of his annual cash incentive target. The Outback International component was based on two equally weighted measures of Outback International's performance: 2011 adjusted EBITDA for Outback International ("International Adjusted EBITDA"), which was calculated in a manner similar to OSI Adjusted EBITDA, and comparable sales performance for Outback International relative to 2011 comparable sales targets (the "International Comparable Sales"). The bonus based on International Adjusted EBITDA was payable on a sliding scale of International Adjusted EBITDA ranging from $53.7 million (representing payout at 7.5% of target) to a maximum payout at International Adjusted EBITDA of $64.7 million (representing payout at 37.5% of target), with International Adjusted EBITDA of $58.7 million representing payout at target. The bonus based on International Comparable Sales was payable on a sliding scale of International Comparable Sales ranging from 1% (representing payout at 12.5% of target) to a maximum payout at 5% (representing payout at 37.5% of target), with 3% representing payment at 25% of target. For 2011, Mr. Berg's bonus was guaranteed at target pursuant to his employment agreement. The actual payment to Mr. Berg for 2011 was 145.4% of his target bonus based on the results of the 2011 Corporate Bonus Plan, International Adjusted EBITDA of $72.0 million and International Comparable Sales of 14.9%.

In addition to her participation in the 2011 Corporate Bonus Plan, Ms. Smith's cash bonus compensation includes two separate bonus arrangements: a retention bonus (the "Retention Bonus") and a performance-based bonus (the "Incentive Bonus"). The Retention Bonus provides for an aggregate bonus opportunity of $12.0 million, which is payable to Ms. Smith over a four-year period that began in 2010 in installments of $1.8 million, $3.0 million and two installments of $3.6 million, generally subject to her remaining continuously employed through the applicable payment date. The Retention Bonus is structured with larger payments scheduled for the later payment dates in order to provide a greater incentive to Ms. Smith to remain employed through the full term of her employment agreement. The Incentive Bonus provides for an aggregate bonus opportunity of up to $15.2 million. The Incentive Bonus will generally only be paid to Ms. Smith if we complete an initial public offering or experience a change in control (each a "Qualifying Liquidity Event") and if certain performance targets are met relating to the value of our common stock at the time of the Qualifying Liquidity Event. This offering, if it is completed, will be a Qualifying Liquidity Event.

Performance-based cash incentives earned by the named executive officers are reflected in the "Executive Compensation—Summary Compensation Table" under the heading "Non-Equity Incentive Plan Compensation." Threshold, target and maximum payments for the 2011 Bonus Plan are reflected in "Executive Compensation—Grants of Plan-Based Awards for Fiscal 2011." The installments paid with respect to Ms. Smith's Retention Bonus are reflected in "Executive Compensation—Summary Compensation Table" under the heading "Bonus."

Long-Term Stock Incentives

Long-term stock incentives are designed to align a significant portion of total compensation with our long-term goal of increasing the value of the company. At the time of the Merger, the long-term stock incentive component of the compensation package consisted of restricted stock and stock options. Since that time, long-term stock incentive awards have consisted solely of stock options and have been primarily granted to newly hired or promoted executive officers.

Stock options are designed to reward longer-term performance, facilitate equity ownership, deter recruitment of our key personnel by competitors and others and further align the interests of our executives with those of our stockholders. Stock option awards under the 2007 Incentive Plan have generally been limited to our executive officers and other key employees and managers who are in a position to contribute substantially to our growth and success.

Shares acquired upon the exercise of stock options under the 2007 Incentive Plan are generally subject to a stockholder's agreement that contains a management call option that allows us to repurchase all shares purchased through exercise of stock options upon termination of employment at any time prior to the earlier of an initial public offering or a change in control. If an employee's termination of employment is a result of death or disability, by us other than for Cause or by the employee for Good Reason (see "Executive Compensation—Potential Payments Upon Termination or Change in Control" for a summary of these definitions), we may repurchase exercised stock under this call option at fair market value. If an employee's termination of employment is by us for Cause or by the employee without Good Reason, we may repurchase the stock under this call provision for the lesser of the exercise price or fair market value. Additionally, the holder of shares acquired upon the exercise of stock options is prohibited from transferring the shares to any person, subject to narrow exceptions, and should a permitted transfer occur, the transferred shares remain subject to the management call option. As a result of the transfer restrictions and call option, we do not record compensation expense for stock options that contain the call option since employees cannot realize monetary benefit from the options or any shares acquired upon the exercise of the options unless the employee is employed at the time of an initial public offering or a change in control.

In November 2009, Ms. Smith received a stock option grant that contained a modified form of the management call option for one quarter of the option shares. In accordance with accounting guidance for stock-based compensation, this form of the management call option does not preclude us from recording compensation expense during the vesting period. Compensation expense is not recorded for the remaining three quarters of the option shares since they are not considered vested from an accounting standpoint until the occurrence of a Qualifying Liquidity Event, as defined in Ms. Smith's stock option agreement.

On July 1, 2011, Ms. Smith was granted an option to purchase 550,000 shares of our common stock under the 2007 Incentive Plan in accordance with the terms of her employment agreement. This option has an exercise price of $10.03 per share and is subject to the modified form of the management call option that applied to one quarter of her 2009 grant. In accordance with accounting for stock-based compensation, this modified form of the call option does not preclude us from recording compensation expense during the service period. These options will vest and compensation expense will be recorded in equal amounts over a five-year period on each anniversary of the grant date, contingent upon her continued employment with us.

Mr. Berg was granted an option to purchase 250,000 shares of our common stock under the 2007 Incentive Plan in connection with his hiring in September 2011. This option has an exercise price of $10.03 per share, and the shares are subject to the management call option and transfer restrictions. As a result of these provisions, among other considerations, compensation expense will not be recorded for his grant. The shares subject to the option will vest in equal amounts over a five-year period on each anniversary of his employment start date, contingent upon his continued employment with us, and any unvested portion will be forfeited upon termination of his employment.

On December 9, 2011, Mr. Kadow and Ms. Bilney were granted an option to purchase 134,250 and 200,800 shares of our common stock, respectively, under the 2007 Incentive Plan as one-time market adjustments based on the recommendation of OSI's compensation consultant after a review of total compensation of the officers. These options have an exercise price of $10.03 per share, and the shares are subject to the management call option and transfer restrictions. As a result of these provisions, among other considerations, compensation expense has not been recorded for these grants. The options will vest in equal amounts over a five-year period on each anniversary of the grant date, contingent upon continued employment with us, and any unvested portion will be forfeited upon termination of employment.

See "Executive Compensation—Grants of Plan-Based Awards for Fiscal 2011" for additional information regarding 2011 stock option grants to the named executive officers.

Other Benefits and Perquisites

Under their employment agreements, the named executive officers are each entitled to receive certain perquisites and personal benefits. We believe these benefits are reasonable and consistent with our overall compensation program and better enable us to attract and retain qualified employees for key positions. Such benefits include complimentary food at our restaurant concepts (limited to $100 per visit and a quarterly maximum of $1,000), automobile allowances, life insurance, medical insurance, annual physical examinations, vacation, personal use of corporate aircraft for our Chief Executive Officer, and reimbursement for income taxes on certain taxable benefits. In connection with Ms. Smith's commencement of employment and transition and relocation to Florida, we agreed to reimburse her for certain costs related to her relocation, including travel and moving expenses and reimbursement of taxes for these amounts. The compensation committee periodically reviews the levels of perquisites and other personal benefits provided to the named executive officers.

We own endorsement split dollar life insurance policies with a death benefit of approximately $5.0 million for each of Messrs. Montgomery and Kadow, which were acquired in 2006. We are the beneficiary of the policies to the extent of premiums paid or the cash value, whichever is greater, with the balance being paid to a personal beneficiary designated by the executive. The executive's employment agreements provide that we may not terminate the arrangements regardless of continued employment, except that we may terminate Mr. Montgomery's agreement prior to January 1, 2013.

Effective October 1, 2007, we implemented a deferred compensation plan for our highly compensated employees who are not eligible to participate in the OSI Restaurant Partners, LLC Salaried Employees 401(k) Plan and Trust. The deferred compensation plan allows highly compensated employees to contribute from 5% to 90% of their base salary and up to 100% of their cash bonus on a pre-tax basis to an investment account consisting of various investment fund options. The plan permits us to make a discretionary contribution to the plan on behalf of an eligible employee from time to time; however, no such discretionary contribution has been made to date. In the event of the employee's termination of employment other than by reason of disability or death, the employee is entitled to receive the full balance in the account in a single lump sum unless the employee has completed either five years of participation or ten years of service as of the date of termination of employment, in which case, the account will be paid as elected by the employee in equal annual installments over a specified period of two to 15 years. If the employee's employment terminates due to death or disability prior to commencement of benefits, we will pay to the employee (or the employee's beneficiary if applicable) the full balance in the account in a single lump sum.

The amounts attributable to perquisites and other personal benefits provided to the named executive officers are reflected in the "Executive Compensation—Summary Compensation Table" under the heading "All Other Compensation."

Change in Control and Termination Benefits

Each of the named executive officers is party to an employment agreement and other arrangements with the company that may entitle him or her to payments or benefits upon a termination of employment and/or a change in control. For a summary of these agreements and arrangements, see "Executive Compensation—Potential Payments Upon Termination or Change in Control—Summary of Employment Agreements and Other Compensatory Arrangements."

Compensation Changes for 2012

In the fourth quarter of 2011, management engaged the consulting firm Radford, or the compensation consultant, to provide comparative market data and recommendations in connection with our analysis of our cash and equity compensation practices for executive officers. As a result of this analysis, the compensation committee granted stock options to two named executive officers as described above and made market-based adjustments to base salaries and bonus targets. For 2012, Ms. Smith's base salary was reduced by $75,000 to $925,000, Ms. Bilney's base salary was increased by $50,000 to $450,000 and Mr. Kadow's base salary was increased by $2,360 to $500,000. In addition, Ms. Smith's bonus target was increased from 85% to 100% of base salary and the bonus targets for all of the other named executive officers are now 85% of base salary.

Our annual performance-based cash incentive plan for 2012 (the "2012 Bonus Plan") will be structured substantially the same as the 2011 program based on achievement of company-wide or concept adjusted EBITDA and comparable sales targets. However, for 2012, executives' payout under the 2012 Bonus Plan will be subject to reduction (but not increase) based on individual performance as determined by the compensation committee.

In February 2012, the compensation committee retained Radford as its compensation consultant. Following the offering, the compensation committee expects to obtain comparative market data each year as a basis for making recommendations regarding the various elements of compensation provided to our executive officers.

Tax and Accounting Implications

In making decisions about executive compensation, the compensation committee took into account certain tax and accounting considerations, including Sections 409A and 280G of the Internal Revenue Code. As neither OSI's nor our equity securities were publicly held, Section 162(m) of the Internal Revenue Code did not apply to the company. Additionally, we account for stock-based payments in accordance with the requirements of Accounting Standards Codification No. 718, "Compensation—Stock Compensation." Following this offering, at such time as we are subject to the deduction limitations of Section 162(m), we expect that our compensation committee will seek to qualify the variable compensation paid to our named executive officers for an exemption from the deductibility limitations of Section 162(m). However, our compensation committee may, in its judgment, authorize compensation payments that do not comply with the exemptions in Section 162(m) when it believes that such payments are appropriate to attract and retain executive talent.

Our compensation committee regularly considers the accounting implications of significant compensation decisions, especially in connection with decisions that relate to our equity incentive award plans and programs. As accounting standards change, we may revise certain programs to appropriately align accounting expenses of our equity awards with our overall executive compensation philosophy and objectives.

Compensation Committee Interlocks and Insider Participation

The compensation committee consists of Andrew Balson, J. Michael Chu and Chris T. Sullivan. Mr. Balson is our director and an officer and a Managing Director of Bain Capital. Affiliates of Bain Capital are our stockholders. Mr. Chu is our director and an officer and a Managing Partner and Co-Founder of Catterton Partners. Catterton Partners and its affiliates are our stockholders. Mr. Sullivan is one of our Founders, our former Chief Executive Officer, one of our stockholders and our director.

Upon completion of the Merger, we entered into the management agreement with Kangaroo Management Company I, LLC, or the management company, whose members are the Founders and entities affiliated with Bain Capital and Catterton. In accordance with the terms of the management agreement, the management company provides management services to us until the tenth anniversary of the completion of the Merger, with one-year extensions thereafter until terminated. The management company receives an aggregate annual management fee equal to $9.1 million and reimbursement for out-of-pocket and other reimbursable expenses incurred by it, its members, or their respective affiliates in connection with the provision of services pursuant to the agreement. Management fees, including out-of-pocket and other reimbursable expenses, of $9.4 million for the year ended December 31, 2011 were included in general and administrative expenses in our Consolidated Statement of Operations. Of this amount, $3.2 million was paid to Bain Capital, $0.6 million was paid to Catterton, $2.2 million was paid to Mr. Sullivan and $3.4 million was paid to the other Founders who are not members of the compensation committee. The management agreement includes customary exculpation and indemnification provisions in favor of the management company, Bain Capital and Catterton and their respective affiliates. The management agreement may be terminated by us, Bain Capital and Catterton at any time and will terminate automatically upon an initial public offering or a change in control.

Compensation-Related Risk

As part of its oversight and administration of our compensation programs, the compensation committee considered the impact of our compensation policies and programs for our employees, including our executive officers, to determine whether they present a significant risk to the company or encourage excessive risk taking by our employees. Based on its review, the compensation committee concluded that our compensation programs do not encourage excessive risk taking and are not reasonably likely to have a material adverse effect on the company.

(2) Represents the aggregate grant date fair value of stock option awards. The stock option awards were valued at fair value on the grant date using the Black-Scholes option pricing model. See Note 3, "Stock-Based and Deferred Compensation Plans," of our Notes to Consolidated Financial Statements for the assumptions made to value the stock option awards.

(3) Non-equity incentive plan compensation represents amounts earned under the 2011 and 2010 Annual Bonus Plans and the financial and OSI plan bonuses in 2009. The financial and OSI plan bonus amounts earned in 2009 were based on the achievement of specified, pre-determined levels of Adjusted EBITDA relative to a percentage of the named executive officer's bonus potential.

(4) The table below sets forth the 2011 components of "All Other Compensation."

(5) Aggregate grant date fair value in 2009 relates only to a portion of Ms. Smith's stock options awarded that year. See the "—Outstanding Equity Awards at Fiscal Year-End" table, including footnote 4 thereto. No compensation expense is included in the Summary Compensation Table with respect to the remainder of the stock options granted to her in 2009 since the performance conditions are not considered probable of occurrence. See "—Grants of Plan-Based Awards for Fiscal 2009" for additional details on these performance-based stock option awards.

(6) Represents the aggregate exchange date incremental fair value of stock option awards computed in accordance with accounting guidance for stock-based compensation. The stock option awards were valued at fair value on the exchange date using the Black-Scholes option pricing model. See Note 2 to the " —Outstanding Equity Awards at Fiscal Year-End" table for a description of the option exchange program.

(7) Mr. Berg commenced employment effective September 12, 2011.

(1) Amounts represent performance-based cash incentive awards under the 2011 Bonus Plan.

(2) Ms. Smith was granted an option to purchase 550,000 shares of common stock under the 2007 Incentive Plan in accordance with the terms of her employment agreement. These stock options have an exercise price of $10.03 per share and are subject to a modified form of the management call option. In accordance with accounting for stock-based compensation, this modified form of the call option does not preclude us from recording compensation expense during the service period. These shares will vest and compensation expense will be recorded in equal amounts over a five-year period on each anniversary of the grant date, contingent upon her continued employment with us. Mr. Kadow and Ms. Bilney were granted an option to purchase 134,250 and 200,800 shares of common stock, respectively, under the 2007 Incentive Plan as one-time market adjustments to their total compensation. Their stock options have an exercise price of $10.03 per share and vest 20% on each anniversary of the grant date, contingent upon their continued employment with us. Compensation expense will not be recorded for their grants described above as, among other considerations, they are subject to the management call option and transfer restrictions. Mr. Berg was granted an option to purchase 250,000 shares of common stock under the 2007 Incentive Plan in connection with his hiring. His stock options have an exercise price of $10.03 per share and vest 20% on each anniversary of his employment start date, contingent upon his continued employment with us. He forfeits any portion of an option that is unvested upon his termination date. Compensation expense will not be recorded for his grant as, among other considerations, it is subject to the management call option and transfer restrictions.

Outstanding Equity Awards at Fiscal Year-End

The following table summarizes outstanding stock options and unvested restricted stock awards for each named executive officer as of December 31, 2011. The holder of restricted stock has the right to vote and receive dividends with respect to the shares, but may not transfer or otherwise dispose of the shares. The unvested portion of each restricted stock award is subject to forfeiture if the holder's employment terminates prior to vesting.

(1) Stock option and restricted stock grants vest and become nominally exercisable in 20% increments over a period of five years contingent on continued employment. See "—Potential Payments Upon Termination or Change in Control" for additional information regarding accelerated vesting on certain terminations of employment.

(2) In March 2010, we offered all then active executive officers, other than Ms. Smith (since her stock options already had an exercise price of $6.50 per share), and all of our other then active employees the opportunity to exchange outstanding stock options with an exercise price of $10.00 per share for the same number of replacement stock options with an exercise price of $6.50 per share. Under the exchange program, the vested portion of the eligible stock options as of the grant date of the replacement stock options were exchanged for stock options that were fully vested. The unvested portion of the exchanged

stock options were exchanged for unvested replacement stock options that vest and become exercisable over a period of time that is equal to the remaining vesting period of the exchanged stock options, plus one year, subject to the participant's continued employment through the new vesting date. All eligible stock options were exchanged pursuant to the exchange program. The original stock options were cancelled, and the issuance of the replacement stock options occurred on April 6, 2010.

(3) Market value is calculated by multiplying $12.02, which is the fair market value of a share of common stock on December 31, 2011 by the number of shares subject to the award.

(4) On November 16, 2009, we granted Ms. Smith an option to purchase an aggregate of 4,350,000 shares of common stock under the 2007 Incentive Plan in four tranches (A-D) of 1,087,500 options each. The stock options have a term of ten years and an exercise price of $6.50, which represents an amount equal to or greater than the fair market value of a share of common stock on the date the option was granted. The options vest in five equal annual installments, with accelerated vesting upon a termination of employment without cause or for good reason, each as defined in Ms. Smith's employment agreement (50% in the event of a termination of employment other than after a Qualifying Liquidity Event and 100% in the event of a termination of employment following a Qualifying Liquidity Event). In accordance with the accounting guidance for stock-based compensation, 3,262,500 of the options (tranches B, C and D) are not considered probable of occurrence since a Qualifying Liquidity Event was not probable at the time of grant. As such, there is no associated fair value on the grant date. The stock options, to the extent vested, will remain outstanding for a period ranging from 90 days to three years in the case of a termination of Ms. Smith's employment, depending on the type of stock option and the nature of the termination, except that all stock options, whether or not then vested, will be forfeited upon a termination for cause.

(5) Tranche A stock options vest and become exercisable in equal installments on each of November 16, 2010, 2011, 2012, 2013 and 2014, generally subject to Ms. Smith remaining continuously employed on each vesting date.

(6) Tranches B, C and D stock options vest in equal installments on each of November 16, 2010, 2011, 2012, 2013 and 2014, generally subject to Ms. Smith remaining continuously employed through each vesting date, and will only become exercisable (to the extent then vested) upon a Qualifying Liquidity Event in which the value of our common stock at such Qualifying Liquidity Event exceeds a certain minimum threshold ranging from $5.00 per share to $10.00 per share, depending on the particular tranche.

Option Exercises and Restricted Stock Vested for Fiscal 2011

The following table summarizes the vesting of restricted stock during fiscal 2011. No stock options were exercised during fiscal 2011.

	Option Awards		Restricted Stock Awards	
Named Executive Officer	Number of Shares Acquired on Exercise (#)	Value Realized on Exercise ($)	Number of Shares Acquired on Vesting (#)	Value Realized on Vesting ($) (1)
Elizabeth A. Smith	—	$ —	—	$ —
Dirk A. Montgomery	—	—	82,300	785,965
David P. Berg	—	—	—	—
Jody L. Bilney	—	—	20,575	196,491
Joseph J. Kadow	—	—	—	—

(1) Value realized on vesting of restricted stock awards is calculated by multiplying the estimated fair market value of our common stock on June 14, 2011 ($9.55 per share) by the number of shares vesting.

On June 14, 2011, 82,300 and 20,575 shares of restricted stock issued to Mr. Montgomery and Ms. Bilney, respectively, vested. In accordance with the terms of the Employee Rollover Agreements and the Restricted Stock Agreements entered into with the executives at the time of the Merger, we loaned approximately $0.3 million and $0.1 million to these individuals, respectively, in June 2011 for their personal income tax and associated interest obligations that resulted from vesting. The loans are full recourse and are collateralized by the

vested shares of restricted stock. The total outstanding balances of restricted stock loans for the named executive officers as of December 31, 2011 were as follows: Mr. Montgomery, $0.8 million; Mr. Kadow, $0.4 million; and Ms. Bilney, $0.2 million. During the first quarter of 2012, these officers repaid their entire loan balances.

Pension Benefits

The company does not sponsor any defined benefit pension plans.

Nonqualified Defined Contribution and Other Nonqualified Deferred Compensation Plans

We have a Deferred Compensation Plan for our highly compensated employees who are not eligible to participate in the OSI Restaurant Partners, LLC Salaried Employees 401(k) Plan and Trust, as described in "Compensation Discussion and Analysis—Compensation Elements—Other Benefits and Perquisites."

The following table summarizes current year contributions to our Deferred Compensation Plan by the only named executive officer who participated along with aggregate gains for the year and the aggregate balance as of December 31, 2011. We did not make any contributions to the Deferred Compensation Plan during 2011. Named executive officers are fully vested in all contributions to the plan. The amounts listed as executive contributions are included as "Salary" in the "Summary Compensation Table." Aggregate earnings of the Deferred Compensation Plan are not included in the "Summary Compensation Table."

Named Executive Officer	Executive Contributions in 2011	Aggregate Earnings in 2011	Withdrawals/ Distributions in 2011	Aggregate Balance at December 31, 2011

Potential Payments Upon Termination or Change in Control

Summary of Employment Agreements and Other Compensatory Arrangements

We have entered into employment agreements and other arrangements with each of our named executive officers that provide certain rights and benefits upon termination of employment and/or a change in control. See the table included under "—Executive Benefits and Payments Upon Separation" below for the amount of compensation payable under the employment agreements and other arrangements described below to the individuals serving as named executive officers as of the end of fiscal 2011.

Rights and Potential Payments Upon Termination or Change in Control: Ms. Smith

Effective November 16, 2009, we entered into an employment agreement with Ms. Smith in connection with the commencement of her employment with us. Her employment agreement is for a period of five years commencing on November 16, 2009, subject to earlier termination under certain circumstances described below. The term of her employment is automatically renewed for successive renewal terms of one year unless either party elects not to renew by giving written notice to the other party not less than 60 days prior to the start of any renewal term.

Ms. Smith's employment may be terminated as follows:

- upon her death or Disability (as such term is defined in the agreement);
- by us for Cause. For purposes of her employment agreement, "Cause" is defined to include: her (i) willful failure to perform, or gross negligence in the performance of, her duties and responsibilities to us or our affiliates (other than any such failure from incapacity due to physical or mental illness), subject to notice and cure periods, (ii) indictment or conviction of or plea of guilty

or nolo contendere to a felony or other crime involving moral turpitude, (iii) engaging in illegal misconduct or gross misconduct that is intentionally harmful to us or our affiliates or (iv) any material and knowing violation by her of any covenant or restriction contained in her employment agreement or any other agreement entered into with us or our affiliates;

- by us other than for Cause;
- by Ms. Smith for Good Reason. For purposes of her employment agreement, "Good Reason" is defined to include: (i) a material diminution in the nature or scope of the executive's duties, authority or responsibilities, including, without limitation, loss of membership on our or certain of our subsidiaries' board of directors (with certain listed exceptions), (ii) a reduction of her annual base salary or annual target cash bonus, (iii) requiring her to be based at a location in excess of 50 miles from the location of our principal executive offices in Tampa, Florida as of the effective date of her employment agreement, or (iv) a material breach by us of our obligations under her employment agreement or the Retention Bonus agreement; or
- by Ms. Smith other than for Good Reason.

Under Ms. Smith's employment agreement, she will be entitled to receive severance benefits if her employment is terminated by us other than for Cause or if she terminates employment for Good Reason. If her employment is terminated under these circumstances, she will be entitled to receive severance benefits as follows:

- earned but unpaid base salary as of the date of termination, any annual bonus earned in the fiscal year preceding that in which termination occurs that remains unpaid, and unreimbursed expenses, including certain tax gross-up payments through the date of termination; and
- severance equal to two times the sum of her base salary at the rate in effect on the date of termination plus her target annual cash bonus for the year of termination, payable in 24 equal monthly installments from the effective date of such termination.

In the event Ms. Smith's employment is terminated due to her death or Disability, she will receive any earned but unpaid amounts described above as of the date of her employment termination. She will also be entitled to receive a pro rata annual target bonus calculated based on the number of days during the year that she was employed. A change in control of the company does not trigger any severance payments to her under the employment agreement.

In addition to the rights and potential payments due Ms. Smith upon termination under her employment agreement, Ms. Smith, upon termination of employment or a change in control, also has certain rights and potential payments due her under the Retention and Incentive Bonus agreements, as described below.

Retention Bonus

On a termination of Ms. Smith's employment by us without Cause or by her for Good Reason, she will be entitled to receive any then unpaid amounts of the Retention Bonus, whether vested or unvested, and this amount will be reduced (but not below zero) by the severance amount provided under her employment agreement as described above.

Incentive Bonus

Ms. Smith's Incentive Bonus is divided into four tranches (A-D) of $3.8 million each. Tranche A vests 20% over five years and is paid on the earlier of a Qualifying Liquidity Event or the tenth anniversary of the Incentive Bonus agreement. The other tranches also vest 20% per year over five years, but are generally only

payable in the event of a Qualifying Liquidity Event meeting applicable performance targets for each tranche. If Ms. Smith's employment is terminated by us other than for Cause or by her for Good Reason prior to the occurrence of a Qualifying Liquidity Event, the vested portion and 50% of the unvested portion of the tranche A Incentive Bonus will be payable to Ms. Smith upon such termination. In addition, after such a termination, the vested portion and 50% of the unvested portions of the other tranches of the Incentive Bonus (or a percentage thereof) may become payable upon a subsequent Qualifying Liquidity Event meeting applicable performance targets for each tranche. If any such termination occurs following a change in control, all of the tranche A Incentive Bonus will be payable to Ms. Smith, and, if any such change in control meets applicable performance targets for each tranche, the other tranches of the Incentive Bonus will be payable to Ms. Smith to the extent earned. If Ms. Smith is employed by us on the first anniversary of a change in control (or a change in control that meets the relevant performance targets, as applicable), to the extent earned, the then unpaid portion of the Incentive Bonus will be paid to her.

If Ms. Smith's employment is terminated by reason of her death or Disability, Ms. Smith (or her estate) will be entitled to receive the vested portion of the tranche A Incentive Bonus as of the date of such termination. If a Qualifying Liquidity Event occurs within one year following such a termination, Ms. Smith (or her estate) may also be entitled to receive the vested portions of the other tranches of the Incentive Bonus to the extent such Qualifying Liquidity Event meets applicable performance targets for each tranche.

Upon a voluntary termination of employment, Ms. Smith will not receive any of the Incentive Bonus unless and until a subsequent Qualifying Liquidity Event occurs. Upon such an occurrence, Ms. Smith would be entitled to receive the vested portion of the tranche A Incentive Bonus (as of the date of her termination) and the vested portions of the other tranches of the Incentive Bonus (as of the date of her termination) to the extent the Qualifying Liquidity Event meets applicable performance targets for each tranche.

If Ms. Smith's employment terminates following an initial public offering that does not meet the applicable share price performance targets, Ms. Smith (or her estate) will be entitled to receive the then time-vested portion of this bonus if the relevant share price targets are subsequently met in the one-year period following her termination in the case of termination due to death or Disability or the 90-day period following any other termination of employment.

In the case of a termination for Cause, any unpaid portion of the Incentive Bonus will be forfeited in its entirety.

Rights and Potential Payments Upon Termination or Change in Control: Messrs. Montgomery and Kadow

Mr. Montgomery and Mr. Kadow entered into employment agreements with us as of June 14, 2007, the Merger closing date. The employment agreements have been amended since that time. Their employment agreements, as amended, were for an original term of five years commencing on June 14, 2007 and expiring on the fifth anniversary thereof. The terms of their employment agreements are automatically renewed for successive renewal terms of one year unless either party elects not to renew by giving written notice to the other party not less than 60 days prior to the start of any renewal term.

The employment of each executive may be terminated as follows:

- upon the executive's death or Disability (as such term is defined in the agreement); or
- by us for Cause. For Mr. Montgomery, "Cause" is defined to include: his (i) gross neglect of duty or prolonged absence from duty (other than any such failure resulting from incapacity due to physical or mental illness), subject to notice and cure periods; (ii) conviction or a plea of guilty or nolo contendere with respect to commission of a felony under federal law or in the last of the stage in which such action occurred; (iii) the willful engaging in illegal misconduct or gross misconduct that

is materially and demonstrably injurious to us or (iv) any material violation of any material covenant or restriction contained in his employment agreements. For Mr. Kadow, "Cause" means any of the following: (i) conviction or plea of guilty or nolo contendere with respect to commission of a felony under federal law or under the law of the state in which such action occurred or (ii) the willful engaging in illegal misconduct or gross misconduct that is materially and demonstrably injurious to us;

- at our election, at any time and including in the event of a determination by us to cease business operations;
- by the executive for Good Reason. For purposes of their agreements, "Good Reason" is defined to include: (i) the assignment to the executive of any duties inconsistent in any respect with the executive's position, duties or responsibilities as in effect immediately prior to the effective date, or any diminution in such position, duties or responsibilities, excluding for this purpose an isolated, insubstantial and inadvertent action not taken in bad faith and that is promptly remedied by us; (ii) a reduction in the executive's base salary or benefits as in effect immediately prior to the effective date; (iii) requiring the executive to be based at or generally work from any location more than 50 miles from the location at which the executive was based or generally worked immediately prior to the effective date or (iv) the failure by us to provide the fringe benefits provided for in their agreements; or
- by the executive without Good Reason.

For all purposes of their agreements, termination for Cause shall be deemed to have occurred on the date of the executive's resignation when, because of existing facts and circumstances, subsequent termination for Cause can be reasonably foreseen.

Under each executive's employment agreement, the executive will be entitled to receive severance benefits if his employment is terminated by us other than for Cause or if he terminates employment for Good Reason. If the executive's employment is terminated under these circumstances, he will be entitled to receive severance benefits as follows:

- severance equal to the base salary then in effect and the average of the three most recent annual bonuses paid to the executive, payable in 12 equal monthly installments from the effective date of such termination;
- any accrued but unpaid bonus in respect to the fiscal year preceding the year in which such termination of employment occurred;
- continuation for one year of medical, dental and vision benefits generally available to executive officers; and
- full vesting of life insurance benefits if not already vested.

Their employment agreements provide that they will only receive, upon termination of employment for death or Disability, any accrued but unpaid bonus in respect to the fiscal year preceding that in which termination occurs. The executives must deliver a separation agreement to us within 30 days of their termination dates or their severance will be forfeited. A change in control does not trigger any severance payments to the executive under his employment agreement.

Rights and Potential Payments Upon Termination or Change in Control: Ms. Bilney

Ms. Bilney entered into an employment agreement with us effective October 1, 2006 and amended effective February 5, 2008. Her employment agreement was for an original term of five years, commencing on October 1, 2006 and expiring on the fifth anniversary thereof. The term of her employment agreement is automatically renewed for successive renewal terms of one year unless either party elects not to renew by giving written notice to the other party not less than 60 days prior to the start of any renewal term.

Ms. Bilney's employment may be terminated as follows:

- upon her death or Disability (as such term is defined in the agreement);
- by us for Cause. For purposes of her agreement, "Cause" is defined to include: (i) her failure to perform the duties assigned to her in a manner satisfactory to us, in our sole discretion; (ii) any dishonesty in her dealing with us or our affiliates, the commission of fraud by her, negligence in the performance of her duties, insubordination, willful misconduct, or her conviction (or plea of guilty or nolo contendere) of any felony or any other crime involving dishonesty or moral turpitude; (iii) any violation of any covenant or restriction contained in specified sections of her employment agreement; or (iv) any violation of any of our or our affiliates' material published policies; or
- at our election, including upon the sale of majority ownership interest in us or substantially all of our assets or in the event of a determination by us to cease business operations.

For all purposes of her agreement, termination for Cause shall be deemed to have occurred on the date of the executive's resignation when, because of existing facts and circumstances, subsequent termination for Cause can be reasonably foreseen.

Ms. Bilney's employment agreement provides that she will receive severance benefits in the event of a termination of employment by us without Cause. Under these circumstances, she will be entitled to receive an amount equal to the sum of the base salary then in effect payable bi-weekly for one year. A change in control does not trigger any severance payments to her under her employment agreement.

Rights and Potential Payments Upon Termination or Change in Control: Mr. Berg

Mr. Berg entered into an employment agreement with Outback International, effective September 12, 2011 and amended effective November 4, 2011. The initial term of his employment agreement is for a period of five years commencing on September 12, 2011 and expiring on the fifth anniversary thereof subject to earlier termination as described in the termination section of the agreement as explained below. The term of his employment agreement is automatically renewed for successive renewal terms of one year unless either party elects not to renew by giving written notice to the other party not less than 60 days prior to the start of any renewal term.

Mr. Berg's employment may be terminated as follows:

- upon his death or Disability (as such term is defined in the agreement);
- by Outback International for Cause. For purposes of his agreement, "Cause" is defined to include: (i) any dishonesty in his dealing with Outback International, the commission of fraud by the executive, negligence in the performance of his duties, insubordination, willful misconduct, or his conviction (or plea of guilty or nolo contendere) of any felony or any other crime involving dishonesty or moral turpitude; (ii) any violation of any covenant or restriction contained in his employment agreement; or (iii) any violation of any material published policy of Outback International or its affiliates;

- at the election of Outback International, including upon the sale of majority ownership interest in the company or substantially all the assets of the company or in the event of a determination by the company to cease business operations; or

- by Outback International in its sole discretion, for any reason or no reason.

For all purposes of his agreement, termination for Cause shall be deemed to have occurred on the date of the executive's resignation when, because of existing facts and circumstances, subsequent termination for Cause can be reasonably foreseen.

Mr. Berg's employment agreement provides that he will only receive severance benefits in the event of a termination of employment if his employment is terminated by Outback International in its sole discretion, for any reason or no reason. In this case, he will be entitled to receive as severance compensation an amount equal to the sum of his base salary then in effect payable bi-weekly for one year. A change in control does not trigger any severance payments to him under his employment agreement.

Stock Options and Restricted Stock

The treatment of equity awards held by the named executive officers upon a termination of employment and/or a change in control is described below.

Stock Options: Ms. Smith

Pursuant to the terms of Ms. Smith's option agreement, upon a termination of Ms. Smith's employment with us by her for Good Reason or by us other than for Cause, Ms. Smith will be entitled to receive accelerated vesting of her outstanding options (50% in the event of a termination of employment other than after a qualifying change in control and 100% in the event of a termination of employment following a qualifying change in control). A portion of Ms. Smith's outstanding stock options will become exercisable only following an initial public offering or a change in control in which the value of our common stock exceeds certain minimum thresholds. This offering, if it is completed, will exceed the minimum thresholds. The options, to the extent vested, will remain outstanding for a period ranging from 90 days to three years in the case of a termination of Ms. Smith's employment, depending on the type of option and the nature of the termination, except that all options, whether or not then vested, will be forfeited on a termination for Cause.

Stock Options and Restricted Stock: Mr. Montgomery, Mr. Kadow, Ms. Bilney and Mr. Berg

Pursuant to agreements with Mr. Montgomery, Mr. Kadow, Ms. Bilney and Mr. Berg, any then outstanding unvested stock options will terminate upon any termination of employment (in connection with a change in control or otherwise).

To the extent the stock option is vested and exercisable prior to the cessation of employment, the stock option will remain exercisable (i) for one year in the case of a termination of employment resulting from death or Disability or (ii) for 90 days following the termination of employment for any other reason.

Pursuant to an agreement with Mr. Montgomery and Ms. Bilney, unvested restricted stock will vest immediately upon (i) a change in control; (ii) termination of the executive by us without Cause; (iii) termination by the executive for Good Reason or (iv) death or Disability. Unvested restricted stock will immediately be forfeited if the executive is terminated by us for Cause.

All of Mr. Kadow's restricted stock awards are vested. Mr. Berg does not have any outstanding restricted stock awards.

Restrictive Covenants

Each of the named executive officers is subject to non-competition and other restrictive covenants under his or her employment agreement. Based on the terms of their agreements, each named executive officer has agreed not to compete with us during his or her employment and for a specified period of time following a termination of employment for any reason (Ms. Smith, Ms. Bilney and Mr. Berg for a period of 24 months and Messrs. Montgomery and Kadow for a period of 12 months). Each named executive officer's continued compliance with this non-competition covenant is a condition to our obligation to pay the severance amounts due under his or her employment agreement, and in the case of Ms. Smith, any amounts due under her Retention Bonus agreement.

Tax Gross-Up

If a "change in control" under Treasury Regulations 1.280G-1 occurs, we and our executives, other than Ms. Smith, have agreed to use commercially reasonable best efforts to take such actions as may be necessary to avoid the imposition of any excise tax imposed by Section 4999 of the Code on the executive, including seeking to obtain stockholder approval in accordance with the terms of Section 280G(b)(5) of the Code. In the case of Ms. Smith, if she does not request that we seek the stockholder approval referenced in the preceding sentence, we will provide her with a gross-up for 50% of any excise taxes imposed under Section 4999 of the Code.

Life Insurance

We maintain endorsement split dollar life insurance policies with a $5.0 million death benefit for each of Messrs. Montgomery and Kadow. We are the beneficiary of the policies to the extent of premiums paid or the cash value, whichever is greater, with the balance being paid to a personal beneficiary designated by the named executive officer. We have agreed not to terminate the arrangements regardless of continued employment except that we may terminate Mr. Montgomery's agreement prior to his completion of seven years of employment with us commencing January 1, 2006.

In the event of termination by us without Cause or a termination by the executive for Good Reason, we will pay the remaining premiums under the policy terms and the named executive officer will become fully vested.

Executive Benefits and Payments Upon Separation

The table below reflects the amount of compensation payable under the employment agreements and arrangements described above to the individuals serving as named executive officers following a termination of employment (i) by us without Cause or by the executive for Good Reason without a change in control, (ii) by us without Cause or by the executive for Good Reason, following a change in control, (iii) by the executive voluntarily, (iv) as a result of Disability or (v) as a result of death, in each case, assuming that such termination of employment occurred on December 31, 2011. No payments or benefits are due to the named executive officers following a termination of employment for Cause. The table assumes that the change in control transaction resulted in per share consideration of $12.02, which was the fair market value of a share of common stock on December 31, 2011, as determined by an independent stock valuation. The actual amounts to be paid upon a termination of employment or a change in control can only be determined at the time of such executive's separation from us, or upon the occurrence of a change in control (if any).

(1) Amounts in the table do not include amounts for accrued but unpaid base salary, annual bonus or other expenses.

(2) This table assumes that Ms. Smith has requested that we seek shareholder approval of payments in connection with the assumed change in control and that she is therefore not entitled to a 50% excise tax gross-up. It also assumes that Ms. Smith is not entitled to a pro rata bonus on a termination due to death or disability since she is assumed to have been employed until the end of the fiscal year.

(3) Amounts represent intrinsic value of vested stock options since the fair market value of a share of common stock, as of December 31, 2011, was greater than the exercise price of the stock options held by the named executive officers.
(4) See "Compensation Discussion and Analysis—Compensation Elements—Other Benefits and Perquisites" for discussion of the split dollar life insurance policies. The amounts in the table represent the amounts due to the personal beneficiaries designated by the named executive officers and are reduced by the premiums paid by us or the cash value, whichever is greater.
(5) The fair market value of the unvested restricted stock due to Mr. Montgomery and Ms. Bilney under these termination circumstances is determined by multiplying the number of shares of restricted stock by $12.02, which is the fair market value of a share of common stock on December 31, 2011.
(6) Ms. Bilney's severance (base salary in effect at termination) is only payable upon termination of employment by us without cause (as defined in her employment agreement).
(7) Mr. Berg's severance (base salary in effect at termination) is only payable in the event his employment is terminated at the election of Outback International in its sole discretion, for any reason or no reason.

Equity Incentive Plans

2012 Incentive Award Plan

In connection with this offering, our board of directors plans to adopt the Bloomin' Brands, Inc. 2012 Incentive Award Plan (the "2012 Incentive Plan"). The 2012 Incentive Plan will replace our 2007 Incentive Plan (described below). The following summary describes the material terms of the 2012 Incentive Plan. This summary is not a complete description of all provisions of the 2012 Incentive Plan and is qualified in its entirety by reference to the 2012 Incentive Plan, a copy of which will be filed with the SEC.

Purpose. The purposes of the 2012 Incentive Plan are to motivate and reward employees and other individuals who are expected to contribute significantly to our success to perform at the highest level and to further our best interests.

Administration. The 2012 Incentive Plan will be administered by our compensation committee. The compensation committee will have the authority to, among other things, designate recipients, determine the types, amounts and terms and conditions of awards, and to take other actions necessary or desirable for the administration of the 2012 Incentive Plan. The compensation committee will also have authority to implement certain clawback policies and procedures, and may provide for clawbacks as a result of financial restatements in an award agreement.

Authorized Shares. Subject to adjustment as described in the 2012 Incentive Plan, the maximum number of shares of our common stock available for issuance pursuant to the 2012 Incentive Plan is initially shares. As of the first business day of each fiscal year, commencing on January 1, 2013, the aggregate number of shares that may be issued pursuant to the 2012 Incentive Plan will automatically increase by a number equal to % of the total number of our shares then issued and outstanding. Shares underlying awards that are expired, forfeited, or otherwise terminated without the delivery of shares, or are settled in cash, will again be available for issuance under the 2012 Incentive Plan.

Eligibility. Awards may be granted to employees, consultants and directors. In certain circumstances, we may also grant substitute awards to holders of equity-based awards of a company that we acquire or combine with (a "substitute award").

Types of Awards. The 2012 Incentive Plan provides for grants of stock options, stock appreciation rights, restricted stock and restricted stock units, performance awards and other stock-based awards determined by the compensation committee.

- *Stock Options.* The exercise price of an option is not permitted to be less than the fair market value of a share of our common stock on the date of grant, other than in the case of a substitute award. The compensation committee will determine the vesting, exercise and other terms, although the term of an option may not exceed ten years from the grant date. However, the committee may provide for an extension of such ten-year term in an award agreement if exercise at expiration would be prohibited by law or our insider trading policy. Options may be granted as incentive stock options that meet the requirements of Section 422 of the Internal Revenue Code.

- *Stock Appreciation Rights.* A stock appreciation right is an award that entitles the participant to receive stock or cash upon exercise or settlement that is equal to the excess of the value of the shares subject to the right over the exercise or hurdle price of the right. The exercise or hurdle price is not permitted to be less than the fair market value of a share of our common stock on the date of

grant, other than in the case of a substitute award. The compensation committee will determine the vesting, exercise and other terms, although the term of a stock appreciation right will not exceed ten years from the grant date. However, the committee may provide for an extension of such ten-year term in an award agreement if exercise at expiration would be prohibited by law or our insider trading policy.

- *Restricted Stock and Restricted Stock Units.* A restricted stock award is an award of our common stock subject to vesting restrictions. A restricted stock unit is a contractual right to receive cash, shares or a combination of both based on the value of a share of our common stock. The compensation committee will determine the vesting and delivery schedule and other terms of restricted stock and restricted stock unit awards.

- *Performance Awards.* A performance award is an award, which may be stock-based or cash-based, that will be earned upon achievement or satisfaction of performance conditions specified by the compensation committee.

- *Other Stock-Based Awards.* The compensation committee may also grant other awards that are payable in or otherwise based on or related to shares of common stock and determine the terms and conditions of such awards.

Termination of Employment or Service. The compensation committee will determine the effect of a termination of employment or service on an award. However, unless otherwise provided, upon a termination of employment or service all unvested options and stock appreciation rights will terminate. Unless otherwise provided, vested options and stock appreciation rights must be exercised within certain limited time periods after the date of termination, depending on the reason for termination; provided, however, that if a participant's employment or service is terminated for cause (as will be defined in the award agreement), all options and stock appreciation rights, whether vested or unvested, will terminate immediately.

Performance Measures. The 2012 Incentive Plan provides that grants of performance awards will be made based upon, and subject to achieving, one or more performance measures over a performance period of not less than one year established by the compensation committee.

If the compensation committee intends that a performance award qualify as performance-based compensation for purposes of Section 162(m) of the Internal Revenue Code, the award agreement will include a pre-established formula, such that payment, retention or vesting of the award is subject to the achievement of one or more performance measures during a performance period. The performance measures must be specified in the award agreement or by the compensation committee within the first 90 days of the performance period. Performance measures may be established on an absolute or relative basis, and may be established on a corporate-wide basis or with respect to one or more concepts, business units, divisions, subsidiaries or business segments. Relative performance may be measured against a group of peer companies, a financial market index or other acceptable objective and quantifiable indices.

A performance measure with respect to a performance award intended to qualify as performance-based compensation for purposes of Section 162(m) means one or more of the following measures with respect to the company or our restaurant concepts: sales; revenue; net sales; net revenue; revenue or sales growth or product revenue or sales growth; comparable or same restaurant sales; system-wide sales; operating income (before or after taxes); pre- or after-tax income or loss (before or after allocation of corporate overhead and bonus); net earnings; earnings per share; net income or loss (before or after taxes); return on equity; total shareholder return; return on assets or net assets; appreciation in and/or maintenance of share price; market share; gross profits; earnings or loss (including earnings or loss before taxes, interest and taxes, or interest, taxes, depreciation and amortization including, in each case, specified adjustments); economic value-added models or equivalent metrics; comparisons with various stock market indices; reductions in costs; cash flow or cash flow per share (before or after dividends); return on

capital (including return on total capital or return on invested capital); cash flow return on investment; improvement in or attainment of expense levels or working capital levels, including cash, inventory and accounts receivable; operating margin; gross margin; cash margin; year-end cash; debt reduction; shareholder equity; operating efficiencies; market share; customer satisfaction; customer growth; employee satisfaction; research and development achievements; regulatory achievements (including submitting or filing applications or other documents with regulatory authorities or receiving approval of any such applications or other documents and passing pre-approval inspections); financial ratios, including those measuring liquidity, activity, profitability or leverage; cost of capital or assets under management; financing and other capital raising transactions (including sales of the company's equity or debt securities; sales or licenses of the company's assets, including its intellectual property, whether in a particular jurisdiction or territory or globally; or through partnering transactions); and implementation, completion or attainment of measurable objectives with respect to research, development, commercialization, products or projects, production volume levels, acquisitions and divestitures; and recruiting and maintaining personnel.

With respect to any award intended to qualify as performance-based compensation for purposes of Section 162(m), no participant may be awarded during any calendar year, subject to adjustment as described in the 2012 Incentive Plan, more than the following amounts of awards: (i) options and stock appreciation rights that relate to shares of common stock; (ii) performance awards that relate to shares of common stock and (iii) cash awards that relate to $.

Transferability. Awards under the plan generally may not be transferred except through will or by the laws of descent and distribution. However, if provided in an award agreement (for awards other than incentive stock options), certain additional transfers may be permitted in limited circumstances.

Change of Control. The compensation committee may provide for accelerated vesting of an award upon, or as a result of events following, a change of control (as defined in the 2012 Incentive Plan). This may be done in the award agreement or in connection with the change of control. In the event of a change of control, the compensation committee may also cause an award to be canceled in exchange for a cash payment to the participant or cause an award to be assumed by a successor corporation.

No Repricing. Stockholder approval will be required in order to reduce the exercise or hurdle price of an option or stock appreciation right or to cancel such an award in exchange for a new award when the exercise or hurdle price is below the fair market value of the underlying common stock.

Amendment and Termination. The board of directors may amend or terminate the 2012 Incentive Plan. Shareholder approval (if required by law or stock exchange rule) or participant consent (if the action would materially adversely affect the participant's rights) may be required for certain actions. The 2012 Incentive Plan will terminate on the earliest of: (i) ten years from its effective date and (ii) when the board of directors terminates the 2012 Incentive Plan.

The following is a description of the material terms of our 2007 Equity Incentive Plan, which we refer to as the "2007 Incentive Plan." Subject to adjustment, the maximum number of shares of common stock that may be delivered in satisfaction of awards under the 2007 Incentive Plan is 12,350,000. As noted above, we will no longer make awards under the 2007 Incentive Plan following this offering.

Types of Awards. The 2007 Incentive Plan provides for grants of stock options and restricted stock. The exercise price of an option is not permitted to be less than the fair market value of a share of common stock on the date of grant. Options may not have a term that exceeds ten years from the grant date. Additional requirements may apply to options intended to be incentive stock options under Section 422 of the Internal Revenue Code.

Unless otherwise provided, vested options must be exercised within certain limited time periods after the date of termination, depending on the reason for termination; provided, however, that if a participant's employment is terminated for cause, all options will terminate immediately.

Transferability. Awards under the 2007 Incentive Plan may not be transferred except through will or by the laws of descent and distribution.

In the event of certain corporate transactions (including dissolution or liquidation, the sale of substantially all of the assets, or certain mergers or consolidations), unless otherwise provided in connection with a particular award, the administrator may provide for substitution of new awards for outstanding awards or may cancel awards in exchange for a cash payments based on the value of the award, in each case subject to restrictions that the administrator deems appropriate.

DESCRIPTION OF INDEBTEDNESS

Senior Credit Facility

General

On June 14, 2007, OSI, as borrower, and OSI HoldCo, Inc. ("OSI HoldCo"), OSI's immediate parent corporation, entered into senior secured credit facilities with a syndicate of institutional lenders and financial institutions. The credit agreement related to the senior secured credit facilities was amended on January 28, 2010. These senior secured credit facilities provide for senior secured financing of up to approximately $1.6 billion, consisting of:

- a $1.3 billion term loan facility that matures June 14, 2014;
- a $150.0 million working capital revolving credit facility, including letter of credit and swing-line loan sub-facilities, that matures June 14, 2013; and
- a $100.0 million pre-funded revolving credit facility that provides financing for capital expenditures only and matures June 14, 2013.

Proceeds of the term loans were used to finance the Merger. Proceeds of loans and letters of credit under the working capital revolving credit facility provide financing for working capital and general corporate purposes and, subject to a rent-adjusted leverage condition, for capital expenditures for new restaurant growth. Proceeds of loans under the pre-funded revolving credit facility are available to provide financing for capital expenditures, subject to OSI's full utilization of amounts on deposit in a $100 million capital expenditure account initially funded on the closing date of the Merger, which may also be available to repay indebtedness under certain circumstances.

All borrowings under the senior secured credit facilities are subject to the satisfaction of customary conditions, including the absence of a default and the accuracy of certain representations and warranties.

Interest Rate and Fees

Borrowings under the senior secured credit facilities, other than swingline loans, bear interest at a rate per annum equal to, at OSI's option, either (i) a base rate determined by reference to the higher of (a) the prime rate of Deutsche Bank AG New York Branch and (b) the federal funds effective rate plus 1/2 of 1% or (ii) a eurocurrency rate adjusted for statutory reserve requirements for a 30, 60, 90 or 180 day interest period, or a nine- or twelve-month interest period if agreed upon by the applicable lenders, in each case, plus an applicable margin. Swingline loans bear interest at the interest rate applicable to base rate loans.

The applicable margin for borrowings under the senior secured credit facilities is (i) for term loans and pre-funded revolving credit loans, (a) 1.25% for base rate loans and (b) 2.25% for eurocurrency rate loans, and (ii) for working capital revolving credit loans, (a) 1.00% to 1.50% for base rate loans and (b) 2.00% to 2.50% for eurocurrency rate loans, subject to step downs based upon our total leverage ratio.

With either the base rate or the eurocurrency rate, the interest rate is reduced by 25 basis points if OSI's Moody's Applicable Corporate Rating then most recently published is B1 or higher (the rating was Caa1 at December 31, 2011).

On the last day of each calendar quarter, OSI is required to pay a commitment fee ranging from 0.38% to 0.50% per annum in respect of any unused commitments under the working capital revolving credit facility, which is subject to reduction based upon OSI's total leverage ratio, and a facility fee of 2.43% in respect of the undrawn portion of the pre-funded revolving credit facility. The fee is based on the applicable rate for eurocurrency rate loans under the pre-funded revolving credit facility plus the cost of investing the cash deposit related to the facility. Fees for the letters of credit range from 2.00% to 2.25%. We are also required to pay certain other agency fees.

Prepayments

OSI is required to prepay outstanding term loans, subject to certain exceptions, with:

- 50% of OSI's "annual excess cash flow" (with step-downs to 25% and 0% based upon OSI's rent-adjusted leverage ratio), as defined in the credit agreement and subject to certain exceptions;
- 100% of OSI's "annual minimum free cash flow," as defined in the credit agreement, not to exceed $75.0 million for each fiscal year, if OSI's rent-adjusted leverage ratio exceeds a certain threshold;
- 100% of the net proceeds of certain assets sales and insurance and condemnation events, subject to reinvestment rights and certain other exceptions; and
- 100% of the net proceeds of any debt incurred, excluding permitted debt issuances.

Additionally, OSI is required, on an annual basis, to (i) first, repay outstanding loans under the pre-funded revolving credit facility and (ii) second, fund the capital expenditure account to the extent amounts on deposit are less than $100.0 million, in both cases with 100% of OSI's "annual true cash flow," as defined in the credit agreement.

In addition, commitment reductions of the working capital revolving credit facility and pre-funded revolving credit facility, and voluntary prepayments of the term loans and loans under the working capital revolving credit facility are permitted, in whole or in part, in minimum amounts without premium or penalty, other than customary breakage costs with respect to eurocurrency rate loans. Voluntary prepayments of loans under the pre-funded revolving credit facility may only be made with the proceeds of new cash equity contributions unless such loans are to be repaid in full and all commitments thereunder are terminated.

Amortization of Principal

The senior secured credit facilities require scheduled quarterly payments on the term loans equal to 0.25% of the original principal amount of the term loans for the first six years and three quarters following June 14, 2007. These payments are reduced by the application of any prepayments, and any remaining balance will be paid at maturity.

Guarantees and Collateral

The obligations under the senior secured credit facilities are guaranteed by each of OSI's current and future domestic wholly-owned restricted subsidiaries in its Outback and Carrabba's concepts, certain non-restaurant subsidiaries and OSI HoldCo and subject to the next succeeding sentence, are secured by a perfected security interest in substantially all of OSI's assets and the assets of the guarantors, in each case, now owned or later acquired, including a pledge of all of OSI's capital stock, the capital stock of substantially all of OSI's domestic wholly-owned subsidiaries and 65% of the capital stock of certain of OSI's material foreign subsidiaries that are directly owned by OSI, OSI HoldCo or a guarantor. Additionally, the senior secured credit facilities require OSI to provide additional guarantees of the senior secured credit facilities in the future from other domestic wholly-owned restricted subsidiaries if the consolidated EBITDA (as defined in the credit agreement) attributable to OSI's non-guarantor domestic wholly-owned restricted subsidiaries (taken together as a group) would exceed 10% of OSI's consolidated EBITDA as determined on a company-wide basis, at which time guarantees would be required from additional domestic wholly-owned restricted subsidiaries in such number that would be sufficient to lower the aggregate consolidated EBITDA of the non-guarantor domestic wholly-owned restricted subsidiaries (taken together as a group) to an amount not in excess of 10% of OSI's company-wide consolidated EBITDA.

Restrictive Covenants and Other Matters

The senior secured credit facilities require OSI to comply with certain financial covenants, including a quarterly maximum total leverage ratio test, which financial covenant becomes more restrictive over time, and,

subject to OSI exceeding a minimum rent-adjusted leverage level, an annual minimum free cash flow test. In addition, the senior secured credit facilities agreement includes negative covenants that, subject to certain exceptions, limit OSI's ability and the ability of its restricted subsidiaries, to, among other things:

- incur liens;
- make investments and loans;
- make capital expenditures;
- incur indebtedness or guarantees;
- engage in mergers, acquisitions and asset sales;
- declare dividends, make payments or redeem or repurchase equity interests;
- alter the business they conduct;
- engage in certain transactions with affiliates;
- enter into agreements limiting subsidiary distributions; and
- prepay, redeem or purchase certain indebtedness.

The senior secured credit facilities contain certain customary representations and warranties, affirmative covenants and events of default. If an event of default occurs, the lenders under the senior secured credit facilities will be entitled to take various actions, including the acceleration of amounts due under the senior secured credit facilities and all actions permitted to be taken by a secured creditor.

This summary describes the material provisions of the senior secured credit facilities, but may not contain all information that is important to you. We urge you to read the provisions of the credit agreement governing the senior secured credit facilities, which has been included as an exhibit to the registration statement of which this prospectus forms a part. Senior Notes

General

On June 14, 2007, OSI and OSI Co-Issuer, Inc. ("Co-Issuer"), as co-issuers, issued the Senior Notes in an original aggregate principal amount of $550.0 million under an indenture among OSI, Co-Issuer, a third-party trustee and certain guarantors. The principal balance of the Senior Notes outstanding at December 31, 2011 and 2010 was $248.1 million. The Senior Notes mature on June 15, 2015. Interest is payable semiannually in arrears, at 10% per annum, in cash on each June 15 and December 15. Interest is computed on the basis of a 360-day year consisting of twelve 30-day months. The notes are guaranteed, jointly and severally, on an unsecured basis by each of OSI's and Co-Issuer's restricted subsidiaries that act as a guarantor under the senior secured credit facilities or other indebtedness of OSI.

The Senior Notes are general, unsecured senior obligations of OSI, Co-Issuer and the guarantors and are equal in right of payment to all existing and future senior indebtedness, including the senior secured credit facility. The Senior Notes are effectively subordinated to all of OSI's, Co-Issuer's and the guarantors' secured indebtedness, including the senior secured credit facility, to the extent of the value of the assets securing such indebtedness. The Senior Notes are senior in right of payment to all of OSI's, Co-Issuer's and the guarantors' existing and future subordinated indebtedness.

Covenants

The indenture governing the outstanding Senior Notes contains a number of covenants that, among other things and subject to certain exceptions, restrict OSI's ability and the ability of its restricted subsidiaries to:

- pay dividends on capital stock or redeem, repurchase or retire capital stock or any subordinated indebtedness;
- make investments, loans, advances and acquisitions;
- incur additional indebtedness or issue certain types of capital stock;
- incur certain liens;
- consolidate, merge or transfer all or substantially all of OSI's assets and the assets of the guarantors;
- engage in transactions with affiliates;
- prepay, redeem or purchase certain indebtedness;
- enter into agreements restricting the restricted subsidiaries' ability to pay dividends; and
- guarantee indebtedness of OSI.

The indenture also prohibits Co-Issuer from holding any material assets, becoming liable for any material obligation, engaging in any material trade or business or conducting any material business activity, subject to certain limited exceptions.

Optional Redemption

OSI and Co-Issuer may redeem the outstanding Senior Notes, in whole or in part, at the redemption prices (expressed as percentages of principal amount of Senior Notes to be redeemed) set forth below, plus accrued and unpaid interest thereon to the redemption date, if redeemed during the twelve-month period beginning on June 15 of each of the years indicated below:

Year	Percentage
2012	102.5%
2013 and thereafter	100.0%

If OSI experiences certain kinds of changes in control, OSI and Co-Issuer must offer to purchase the outstanding Senior Notes at 101% of their principal amount, plus accrued and unpaid interest.

Asset Sales

If OSI or its restricted subsidiaries engage in certain asset sales, OSI or the restricted subsidiary generally must either invest the net cash proceeds from such sales in its business within a specified period of time or prepay certain debt (which may include open market purchases of the notes or offers to purchase the notes). If net proceeds not invested or applied in accordance with the foregoing exceed $40.0 million, OSI must make an offer to purchase a principal amount of the outstanding Senior Notes equal to those excess net cash proceeds, subject to certain exceptions. The purchase price of the outstanding Senior Notes will be 100% of their principal amount, plus accrued and unpaid interest.

This summary describes the material provisions of the Senior Notes but may not contain all information that is important to you. We urge you to read the provisions of the indenture governing these Senior Notes, which has been included as an exhibit to the registration statement of which this prospectus forms a part. See "Where You Can Find More Information."

2012 CMBS Loan

General

The 2012 CMBS Loan is in the amount of $500.0 million and consists of:

- a $324.8 million first mortgage loan to New Private Restaurant Properties, LLC ("New PRP");
- an $87.6 million first mezzanine loan to the parent of New PRP, New PRP Mezz 1, LLC ("New PRP 1"); and
- an $87.6 million second mezzanine loan to the parent of New PRP 1, New PRP Mezz 2, LLC ("New PRP 2").

Each of the loans comprising the 2012 CMBS Loan has a scheduled maturity date of April 10, 2017. The proceeds from the 2012 CMBS Loan, together with the proceeds from the Sale-Leaseback Transaction and excess cash, were used to repay our existing CMBS Loan.

Concurrently with the funding of the first mortgage loan, the originating lenders sold it to an affiliate of one of the lenders, who in turn transferred it into a securitization trust. The sale of the interests in such trust closed concurrently with, and were the source of, the funding of the first mortgage loan. In connection with the origination of the first and second mezzanine loans, the originating lenders syndicated all of their respective interests in the first and second mezzanine loans to third-party investors.

Interest Rate

The first mortgage loan has five fixed-rate components and a floating rate component, with original principal amounts and component interest rates as follows:

Mortgage Loan Component	Initial Principal Balance	Rate Description	Component Interest Rate
A-1	$ 41,316,000	Fixed	2.3666%
A-2-FX	$ 143,464,000	Fixed	3.3756%
A-2-FL	$ 48,720,000	Floating	LIBOR *plus* 2.3736%(1)
B	$ 29,300,000	Fixed	4.8536%
C	$ 26,100,000	Fixed	5.8336%
D	$ 35,900,000	Fixed	6.8096%

(1) In no event will LIBOR be less than 1% per annum.

In connection with the 2012 CMBS Loan, New PRP entered into an interest rate cap (the "Rate Cap") as a method to limit the volatility of the floating rate component of the first mortgage loan. Under the Rate Cap, if the 30-day LIBOR market rate exceeds 7% per annum, the counterparty must pay to New PRP such excess on the notional amount of the floating rate component. New PRP paid $4,680 for the Rate Cap and is amortizing the cost of this asset to interest expense. Should it be necessary, New PRP would record any mark-to-market changes in the fair value of its derivative instruments into earnings in the period of change. The Rate Cap has a term of approximately two years from the closing of the 2012 CMBS Loan. Upon the expiration or termination of the Rate Cap or the downgrade of the credit ratings of the counterparty under the Rate Cap below specified thresholds, New PRP is required to replace the Rate Cap with a replacement interest rate cap in a notional amount equal to the outstanding principal balance (if any) of the floating rate component.

The first mezzanine loan bears interest at a fixed rate of 9% per annum.

The second mezzanine loan bears interest at a fixed rate of 11.25% per annum.

Payments of Principal and Interest

On a monthly basis, each of New PRP, New PRP 1 and New PRP 2 will pay with respect to its loan an amount equal to accrued interest plus principal based on a 25 year amortization schedule; provided that they will pay accrued interest only on the first payment date of April 10, 2012. Scheduled monthly principal payments under the mortgage loan will generally be applied in sequential order (in other words, first to Component A-1, then Components A-2-FX and A-2-FL, then Component B, then Component C and then Component D), as a consequence of which, as the lower-interest rate components are repaid over the course of the term, New PRP's blended interest rate on the mortgage loan will rise.

Prepayments; Defeasance; Release of Collateral

New PRP will be permitted to prepay the floating rate component of the first mortgage loan, in whole or in part, at any time, subject to the satisfaction of certain conditions. With respect to any prepayment made prior to April 10, 2013 that is not made in connection with the release of a property, New PRP must pay a prepayment premium in an amount equal to 1.0% of the amount prepaid.

Except as described above with respect to the mortgage borrower's right to prepay the floating rate component, none of the borrowers under the mortgage or mezzanine loans will be permitted to voluntarily prepay its respective loan in whole or in part prior to January 10, 2017. At any time on and after that date, each borrower will be permitted to prepay (in whole but not in part) its loan (plus accrued interest through the next payment date) without payment of any yield maintenance premium, prepayment premium or other prepayment penalty or fee, subject to the satisfaction of certain conditions, including that the first mezzanine loan may not be prepaid unless the first mortgage loan has been or is then being prepaid in full and the second mezzanine loan may not be prepaid unless the first mortgage loan and first mezzanine loan have been or are then being prepaid in full.

In connection with the release of a property, new PRP may defease all or any portion of the fixed-rate components of the mortgage loan, subject to the satisfaction of certain conditions, including that the floating rate component has been paid in full and that a pro rata portion of each mezzanine loan is being concurrently defeased. Components of the mortgage loan will be defeased in sequential order (in other words, first the A-1 Component, then the A-2-Component, and so on through the D Component). Each mezzanine borrower may defease its mezzanine loan, in whole or in part, subject to the satisfaction of certain conditions, including that a pro rata portion of the mortgage loan and the other mezzanine loan are being concurrently defeased.

New PRP will be required to prepay the first mortgage loan in connection with certain casualties and condemnations. No yield maintenance premium, prepayment premium or other prepayment penalty or fee will be due in connection with any such involuntary prepayment.

New PRP has the right to obtain the release of properties from the lien securing the first mortgage loan, and New PRP 1 and New PRP 2 may cause New PRP to effect such release, upon the defeasance of the first mortgage loan (or, if the floating rate component is still outstanding, the prepayment of that component) and if the floating rate component has been fully repaid, the defeasance of the mezzanine loans in the amounts required in the applicable loan agreement and the satisfaction of certain other conditions.

Guarantees and Collateral

The first mortgage loan is secured by mortgages on 261 restaurant properties owned by New PRP. Subject to certain limited exceptions, recourse on the first mortgage loan is limited to New PRP's interest in such properties, the master lease with Private Restaurant Master Lessee LLC ("Master Lessee"), as described below, and the guaranty of the tenant's obligations under such master lease issued by OSI.

The first mezzanine loan is secured by 100% of New PRP 1's ownership interests in New PRP, The second mezzanine loan is secured by 100% of New PRP 2's ownership interests in New PRP 1. Subject to certain limited exceptions, recourse on each such loan is limited to its respective collateral.

OSI HoldCo I, Inc. has guaranteed to the lender under each loan the recourse obligations of its respective borrower.

Restrictive Covenants and Other Matters

New PRP's sole purpose is to own and lease all its real property to Master Lessee, and New PRP is generally not permitted to acquire additional assets or properties under the 2012 CMBS Loan.

The first mortgage loan includes negative covenants that, subject to certain exceptions, limit New PRP's ability to, among other things:

- incur debt;
- incur liens;
- partition any restaurant property;
- transfer any restaurant property;
- file for bankruptcy;
- incur material liability under ERISA;
- modify reciprocal easement agreements;
- take actions relating to zoning reclassification of any restaurant property;
- change its principal place of business; and
- cancel, forgive or release any material claim or debt owed to it.

In addition, the mortgage loan requires that, subsequent to certain initial public offerings of indirect parent entities of the mortgage loan borrower (the "IPO Entity"), such as this offering, either (i) our Sponsors, our Founders and the management stockholders or other permitted holders (collectively, "Permitted Holders"), own no less than 51% of the voting stock of the IPO Entity, and have the right, directly or indirectly, to designate (and do so designate) a majority of the board of directors of the IPO Entity, or (ii) both of the following criteria are satisfied: (a) no "person" or "group" (as such terms are used in Sections 13(d) and 14(d) of the Exchange Act, other than Permitted Holders, is the owner of more than the greater of (1) 35% of the shares outstanding of the IPO Entity, and (2) the percentage of the then outstanding voting stock of the IPO Entity owned by the Permitted Holders, and (b) a majority of the board of directors of the IPO Entity consist of the directors of HoldCo on the closing date of the mortgage loan, and each other director of OSI HoldCo if such other director's nomination for election to the board of directors of OSI HoldCo is recommended by a majority of the then continuing directors or such other director receives the vote of one or more of the Permitted Holders in his or her election by the stockholders of OSI HoldCo. For purposes of the mortgage loan, management stockholders means members of management of OSI or its subsidiaries (excluding the Founders) who are both (i) actively involved in the management of OSI or its subsidiaries and (ii) investors in OSI HoldCo or any direct or indirect parent thereof.

The mezzanine loans contain similar negative covenants.

The first mortgage loan and mezzanine loans contain certain customary representations and warranties, affirmative covenants and events of default. Also, the first mezzanine loan is cross-defaulted to the mortgage loan and the second mezzanine loan is cross-defaulted to the first mezzanine loan and the first mortgage loan. In addition, all of the loans are cross-defaulted to the above-described lease with Master Lessee. If an event of default under one or more loans occurs, the applicable lender(s) will be entitled to take various actions, including the acceleration of amounts due under the applicable loan.

This summary describes the material provisions of each of the loan documents for the 2012 CMBS Loan, but may not contain all of the information that is important to you. We urge you to read the 2012 CMBS loan documents, which have been included as exhibits to the registration statement of which this prospectus forms a part. See “Where You Can Find More Information.”

Notes Payable

As of December 31, 2011 and 2010, OSI had approximately $9.1 million and $7.6 million, respectively, of notes payable at interest rates ranging from 0.76% to 7.00% and from 1.07% to 7.00%, respectively. These notes have been primarily issued for buyouts of managing and operating partner interests in the cash flows of their restaurants and generally are payable over two to five years.

Debt Guarantee

OSI is the guarantor of an uncollateralized line of credit that permits borrowing of up to $24.5 million for its joint venture partner, RY-8, in the development of Roy’s restaurants. The line of credit originally expired in December 2004 and was amended for a fourth time on April 1, 2009 to a revised termination date of April 15, 2013. According to the credit agreement, RY-8 may borrow, repay, re-borrow or prepay advances at any time before the termination date of the agreement. On the termination date of the agreement, the entire outstanding principal amount of the loan then outstanding and any accrued interest will be due. At December 31, 2011 and 2010, the outstanding balance on the line of credit was $24.5 million.

RY-8’s obligations under the line of credit are unconditionally guaranteed by OSI and Roy’s Holdings, Inc., RY-8’s parent company (“RHI”). If an event of default occurs, as defined in the agreement, the total outstanding balance, including any accrued interest, is immediately due from the guarantors. At December 31, 2011 and 2010, $24.5 million of the $150.0 million working capital revolving credit facility was committed for the issuance of a letter of credit for this guarantee.

If an event of default occurs and RY-8 is unable to pay the outstanding balance owed, OSI would, as one of the two guarantors, be liable for this balance. However, in conjunction with the credit agreement, RY-8 and RHI have entered into an Indemnity Agreement and a pledge of interest and security agreement in OSI’s favor. These agreements provide that if OSI is required to perform under its obligation as guarantor pursuant to the credit agreement, then RY-8 and RHI will indemnify OSI against all losses, claims, damages or liabilities which arise out of or are based upon OSI’s guarantee of the credit agreement. RY-8’s and RHI’s obligations under these agreements are collateralized by a first priority lien upon and a continuing security interest in any and all of RY-8’s interests in the joint venture.

Liquidation Rights. Upon our liquidation, the holders of our common stock will be entitled to receive pro rata our assets that are legally available for distribution, after payment of all debts and other liabilities and subject to the prior rights of any holders of preferred stock then outstanding.

Listing. We intend to apply to have our shares of common stock listed on under the symbol “BLM.”

Preferred Stock

Our board of directors may, without further action by our stockholders, from time to time, direct the issuance of shares of preferred stock in series and may, at the time of issuance, determine the designations, powers, preferences, privileges, and relative participating, optional or special rights as well as the qualifications, limitations or restrictions thereof, including dividend rights, conversion rights, voting rights, terms of redemption

and liquidation preferences, any or all of which may be greater than the rights of the common stock. Satisfaction of any dividend preferences of outstanding shares of preferred stock would reduce the amount of funds available for the payment of dividends on shares of our common stock. Holders of shares of preferred stock may be entitled to receive a preference payment in the event of our liquidation before any payment is made to the holders of shares of our common stock. Under specified circumstances, the issuance of shares of preferred stock may render more difficult or tend to discourage a merger, tender offer or proxy contest, the assumption of control by a holder of a large block of our securities or the removal of incumbent management. Upon the affirmative vote of a majority of the total number of directors then in office, our board of directors, without stockholder approval, may issue shares of preferred stock with voting and conversion rights that could adversely affect the holders of shares of our common stock and the market value of our common stock. Upon completion of this offering, there will be no shares of preferred stock outstanding, and we have no present intention to issue any shares of preferred stock.

Anti-Takeover Effects of Our Certificate of Incorporation and Bylaws

Our certificate of incorporation and bylaws will contain certain provisions that are intended to enhance the likelihood of continuity and stability in the composition of our board of directors and that may have the effect of delaying, deferring or preventing a future takeover or change in control of the company unless that takeover or change in control is approved by our board of directors.

These provisions include:

Classified Board. Our certificate of incorporation will provide that our board of directors will be divided into three classes of directors, with the classes as nearly equal in number as possible. As a result, approximately one-third of our board of directors will be elected each year. The classification of directors will have the effect of making it more difficult for stockholders to change the composition of our board. In addition, because our board will be classified, under Delaware General Corporation Law, directors may only be removed for cause. Our certificate of incorporation will also provide that, subject to any rights of holders of preferred stock to elect additional directors under specified circumstances, the number of directors will be fixed exclusively pursuant to a resolution adopted by our board of directors. Upon completion of this offering, our board of directors will have nine members.

Action by Written Consent; Special Meetings of Stockholders . Our certificate of incorporation will provide that stockholder action can be taken only at an annual or special meeting of stockholders and cannot be taken by written consent in lieu of a meeting once investment funds affiliated with our Sponsors cease to beneficially own more than 50% of our outstanding shares. Our certificate of incorporation and bylaws will also provide that, except as otherwise required by law, special meetings of the stockholders can be called only pursuant to a resolution adopted by a majority of the total number of directors that the company would have if there were no vacancies or, until the date that investment funds affiliated with our Sponsors cease to beneficially own more than 50% of our outstanding shares, at the request of holders of 50% or more of our outstanding shares. Except as described above, stockholders will not be permitted to call a special meeting or to require the board of directors to call a special meeting.

Advance Notice Procedures. Our bylaws will establish an advance notice procedure for stockholder proposals to be brought before an annual meeting of our stockholders, including proposed nominations of persons for election to the board of directors. Stockholders at an annual meeting will only be able to consider proposals or nominations specified in the notice of meeting or brought before the meeting by or at the direction of the board of directors or by a stockholder who was a stockholder of record on the record date for the meeting, who is entitled to vote at the meeting and who has given our Secretary timely written notice, in accordance with our bylaws, of the stockholder's intention to bring that business before the meeting. Although the bylaws will not give the board of directors the power to approve or disapprove stockholder nominations of candidates or proposals regarding other business to be conducted at a special or annual meeting, the bylaws may have the effect of precluding the conduct of certain business at a meeting if the proper procedures are not followed or may

discourage or deter a potential acquiror from conducting a solicitation of proxies to elect its own slate of directors or otherwise attempting to obtain control of the company.

Super Majority Approval Requirements. The Delaware General Corporation Law generally provides that the affirmative vote of a majority of the outstanding stock entitled to vote on any matter is required to amend a corporation's certificate of incorporation or bylaws, unless either a corporation's certificate of incorporation or bylaws require a greater percentage. Our certificate of incorporation and bylaws will provide that the affirmative vote of holders of at least 75% of the total votes entitled to vote in the election of directors will be required to amend, alter, change or repeal our bylaws and specified provisions of our certificate of incorporation once investment funds affiliated with our Sponsors cease to beneficially own more than 50% of our outstanding shares. This requirement of a supermajority vote to approve amendments to our certificate of incorporation and bylaws could enable a minority of our stockholders to exercise veto power over any such amendments.

Authorized but Unissued Shares. Our authorized but unissued shares of common stock and preferred stock will be available for future issuance without stockholder approval. These additional shares may be utilized for a variety of corporate purposes, including future public offerings to raise additional capital, corporate acquisitions and employee benefit plans. The existence of authorized but unissued shares of common stock and preferred stock could render more difficult or discourage an attempt to obtain control of a majority of our common stock by means of a proxy contest, tender offer, merger or otherwise.

Business Combinations With Interested Stockholders. We have elected in our certificate of incorporation not to be subject to Section 203 of the Delaware General Corporation Law, which generally prohibits a publicly held Delaware corporation from engaging in a business combination, such as a merger, with a person or group owning 15% or more of the corporation's voting stock, for a period of three years following the date the person became an interested stockholder, unless (with certain exceptions) the business combination or the transaction in which the person became an interested stockholder is approved in a prescribed manner. Accordingly, we are not subject to any anti-takeover effects of Section 203. However, our certificate of incorporation will contain provisions that have the same effect as Section 203, except that they provide that our Sponsors and their respective affiliates will not be deemed to be "interested stockholders," regardless of the percentage of our voting stock owned by them, and accordingly will not be subject to such restrictions.

Corporate Opportunities

Our restated certificate of incorporation will provide that we renounce any interest or expectancy of the company in the business opportunities of our Sponsors and of their officers, directors, agents, shareholders, members, partners, affiliates and subsidiaries and each such party shall not have any obligation to offer us those opportunities unless presented to a director or officer of the company in his or her capacity as a director or officer of the company.

Limitations on Liability and Indemnification of Officers and Directors

Our restated certificate of incorporation will limit the liability of our directors to the fullest extent permitted by the Delaware General Corporation Law and provides that we will indemnify them to the fullest extent permitted by such law. We expect to enter into indemnification agreements with our current directors and executive officers prior to the completion of this offering and expect to enter into a similar agreement with any new directors or executive officers. We expect to increase our directors' and officers' liability insurance coverage prior to the completion of this offering.

Transfer Agent and Registrar

The transfer agent and registrar for our common stock will be . Its telephone number is .

SHARES ELIGIBLE FOR FUTURE SALE

Prior to this offering, there has been no market for shares of our common stock. We cannot predict the effect, if any, that future sales of shares of our common stock, or the availability for future sale of shares of our common stock, will have on the market price of shares of our common stock prevailing from time to time. The sale of substantial amounts of shares of our common stock in the market, or the perception that such sales could occur, could harm the prevailing market price of shares of our common stock.

Sale of Restricted Shares

Upon completion of this offering, we will have shares of common stock outstanding. Of these shares, the shares sold in this offering, plus any shares sold upon exercise of the underwriters' option to purchase additional shares, will be freely tradable without restriction under the Securities Act, except for any shares purchased by our "affiliates" as that term is defined in Rule 144 promulgated under the Securities Act. In general, affiliates include our executive officers, directors, and 10% shareholders. Shares purchased by affiliates will remain subject to the resale limitations of Rule 144.

Upon completion of this offering, shares of our common stock will be "restricted securities," as that term is defined in Rule 144 promulgated under the Securities Act. These restricted securities are eligible for public sale only if they are registered under the Securities Act or if they qualify for an exemption from registration under Rules 144 or 701 promulgated under the Securities Act, which are summarized below.

As a result of the lock-up agreements described below and the provisions of Rules 144 and Rule 701 promulgated under the Securities Act, the shares of our common stock (excluding the shares sold in this offering) will be available for sale in the public market as follows:

- shares will be eligible for sale on the date of this prospectus;
- shares will be eligible for sale upon the expiration of the lock-up agreements, as more particularly described below, beginning 180 days after the date of this prospectus; and
- shares will be eligible for sale, upon the exercise of vested options, upon the expiration of the lock-up agreements, as more particularly described below, beginning 180 days after the date of this prospectus.

Rule 144

Generally, Rule 144 provides that an affiliate who has beneficially owned "restricted" shares of our common stock for at least six months will be entitled to sell on the open market in brokers' transactions, within any three-month period, a number of shares that does not exceed the greater of:

- 1% of the number of shares of our common stock then outstanding, which will equal approximately shares immediately after this offering; or
- the average weekly trading volume of the common stock during the four calendar weeks preceding the filing of a notice on Form 144 with respect to such sale.

In addition, sales under Rule 144 are subject to requirements with respect to manner of sale, notice, and the availability of current public information about us.

If any person who is deemed to be our affiliate purchases shares of our common stock in this offering or acquires shares of our common stock pursuant to one of our employee benefits plans, sales under Rule 144 of the shares held by that person will be subject to the volume limitations and other restrictions described in the preceding two paragraphs.

The volume limitation, manner of sale and notice provisions described above will not apply to sales by non-affiliates. For purposes of Rule 144, a non-affiliate is any person or entity who is not our affiliate at the time of sale and has not been our affiliate during the preceding three months. Once we have been a reporting company for 90 days, persons who have beneficially owned restricted shares of our common stock for six months may rely on Rule 144 provided that certain public information regarding us is available. The six-month holding period increases to one year if we have not been a reporting company for at least 90 days. However, a non-affiliate who has beneficially owned the restricted shares proposed to be sold for at least one year will not be subject to any restrictions under Rule 144 regardless of how long we have been a reporting company.

Rule 701

Under Rule 701, each of our employees, officers, directors, consultants or advisors who purchased shares pursuant to a written compensatory plan or contract is eligible to resell these shares 90 days after the effective date of this offering in reliance upon Rule 144, but without compliance with specific restrictions. Rule 701 provides that affiliates may sell their Rule 701 shares under Rule 144 without complying with the holding period requirement and that non-affiliates may sell their shares in reliance on Rule 144 without complying with the holding period, public information, volume limitation, or notice provisions of Rule 144.

Lock-Up Agreements

We, our directors and officers and holders of substantially all of our equity securities have agreed, subject to certain exceptions, not to offer, sell or transfer any common stock or securities convertible into or exchangeable or exercisable for common stock for 180 days after the date of this prospectus without first obtaining the written consent of each of the representatives of the underwriters, subject to a possible extension beyond the end of such 180-day period. See “Underwriting” for a description of these lock-up agreements.

Registration Statements on Form S-8

We intend to file one or more registration statements on Form S-8 under the Securities Act as soon as practicable after the completion of this offering for shares issued upon the exercise of options and shares to be issued under our employee benefit plans. As a result, any such options or shares will be freely tradable in the public market. We have granted options to purchase shares of our common stock that will vest and will be exercisable upon the completion of this offering. However, such shares held by affiliates will still be subject to the volume limitation, manner of sale, notice, and public information requirements of Rule 144 unless otherwise resalable under Rule 701.

Registration Rights

Beginning 180 days after the date of this prospectus, subject to certain exceptions and automatic extensions in certain circumstances, holders of shares of our common stock will be entitled to the registration rights described under “Related Party Transactions—Arrangements With Our Investors.” Registration of these shares under the Securities Act would result in these shares becoming freely tradable without restriction under the Securities Act immediately upon effectiveness of the registration.

MATERIAL U.S. FEDERAL INCOME AND ESTATE TAX CONSIDERATIONS FOR NON-U.S. HOLDERS

The following is a summary of the material U.S. federal income and estate tax considerations relating to the purchase, ownership and disposition of our common stock by Non-U.S. Holders (defined below). This summary does not purport to be a complete analysis of all the potential tax considerations relevant to Non-U.S. Holders of our common stock. This summary is based upon the Internal Revenue Code of 1986, as amended (the "Internal Revenue Code"), the Treasury regulations promulgated or proposed thereunder and administrative and judicial interpretations thereof, all as of the date hereof and all of which are subject to change or differing interpretations at any time, possibly with retroactive effect.

This summary assumes that shares of our common stock are held as "capital assets" within the meaning of Section 1221 of the Internal Revenue Code. This summary does not purport to deal with all aspects of U.S. federal income and estate taxation that might be relevant to particular Non-U.S. Holders in light of their particular investment circumstances or status, nor does it address specific tax considerations that may be relevant to particular persons (including, for example, financial institutions, broker-dealers, insurance companies, partnerships or other pass-through entities, certain U.S. expatriates, tax-exempt organizations, pension plans, "controlled foreign corporations," "passive foreign investment companies," corporations that accumulate earnings to avoid U.S. federal income tax, persons in special situations, such as those who have elected to mark securities to market or those who hold common stock as part of a straddle, hedge, conversion transaction, synthetic security or other integrated investment, or holders subject to the alternative minimum tax). In addition, except as explicitly addressed herein with respect to estate tax, this summary does not address estate and gift tax considerations or considerations under the tax laws of any state, local or non-U.S. jurisdiction.

For purposes of this summary, a "Non-U.S. Holder" means a beneficial owner of common stock that for U.S. federal income tax purposes is not treated as a partnership and is not:

- an individual who is a citizen or resident of the United States;
- a corporation or any other organization taxable as a corporation for U.S. federal income tax purposes, created or organized in or under the laws of the United States, any state thereof or the District of Columbia;
- an estate, the income of which is included in gross income for U.S. federal income tax purposes regardless of its source; or
- a trust, if (i) a U.S. court is able to exercise primary supervision over the trust's administration and one or more U.S. persons have the authority to control all of the trust's substantial decisions or (i) the trust has a valid election in effect under applicable U.S. Treasury regulations to be treated as a U.S. person.

If an entity that is classified as a partnership for U.S. federal income tax purposes holds our common stock, the tax treatment of persons treated as its partners for U.S. federal income tax purposes will generally depend upon the status of the partner and the activities of the partnership. Partnerships and other entities that are classified as partnerships for U.S. federal income tax purposes and persons holding our common stock through a partnership or other entity classified as a partnership for U.S. federal income tax purposes are urged to consult their own tax advisors.

There can be no assurance that the Internal Revenue Service ("IRS") will not challenge one or more of the tax consequences described herein, and we have not obtained, nor do we intend to obtain, a ruling from the IRS with respect to the U.S. federal income or estate tax consequences to a Non-U.S. Holder of the purchase, ownership or disposition of our common stock.

THIS SUMMARY IS NOT INTENDED TO BE TAX ADVICE. NON-U.S. HOLDERS ARE URGED TO CONSULT THEIR TAX ADVISORS CONCERNING THE U.S. FEDERAL INCOME AND ESTATE TAXATION, STATE, LOCAL AND NON-U.S. TAXATION AND OTHER TAX CONSEQUENCES TO THEM OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF OUR COMMON STOCK.

Distributions on Our Common Stock

As discussed under "Dividend Policy" above, we do not currently expect to pay regular dividends on our common stock. If we do make a distribution of cash or property with respect to our common stock, any such distributions generally will constitute dividends for U.S. federal income tax purposes to the extent of our current or accumulated earnings and profits, as determined under U.S. federal income tax principles. If a distribution exceeds our current and accumulated earnings and profits, the excess will constitute a return of capital and will first reduce the holder's basis in our common stock, but not below zero. Any remaining excess will be treated as capital gain, subject to the tax treatment described below in "Gain on Sale, Exchange or Other Taxable Disposition of Our Common Stock." Any such distribution would also be subject to the discussion below in "—Additional Withholding and Information Reporting Requirements."

Dividends paid to a Non-U.S. Holder generally will be subject to a 30% U.S. federal withholding tax unless such Non-U.S. Holder provides us or our agent, as the case may be, with the appropriate IRS Form W-8, such as:

- IRS Form W-8BEN (or successor form) certifying, under penalties of perjury, a reduction in withholding under an applicable income tax treaty, or
- IRS Form W-8ECI (or successor form) certifying that a dividend paid on common stock is not subject to withholding tax because it is effectively connected with a trade or business in the United States of the Non-U.S. Holder (in which case such dividend generally will be subject to regular graduated U.S. federal income tax rates as described below).

The certification requirement described above also may require a Non-U.S. Holder that provides an IRS form or that claims treaty benefits to provide its U.S. taxpayer identification number. Special certification and other requirements apply in the case of certain Non-U.S. Holders that are intermediaries or pass-through entities for U.S. federal income tax purposes.

Each Non-U.S. Holder is urged to consult its own tax advisor about the specific methods for satisfying these requirements. A claim for exemption will not be valid if the person receiving the applicable form has actual knowledge or reason to know that the statements on the form are false.

If dividends are effectively connected with a trade or business in the United States of a Non-U.S. Holder (and, if required by an applicable income tax treaty, attributable to a U.S. permanent establishment), the Non-U.S. Holder, although exempt from the withholding tax described above (provided that the certifications described above are satisfied), generally will be subject to U.S. federal income tax on such dividends on a net income basis in the same manner as if it were a resident of the United States. In addition, if a Non-U.S. Holder is treated as a corporation for U.S. federal income tax purposes, the Non-U.S. Holder may be subject to an additional "branch profits tax" equal to 30% (unless reduced by an applicable income treaty) of its earnings and profits in respect of such effectively connected dividend income.

If a Non-U.S. Holder is eligible for a reduced rate of U.S. federal withholding tax pursuant to an income tax treaty, the holder may obtain a refund or credit of any excess amount withheld by timely filing an appropriate claim for refund with the IRS.

Gain on Sale, Exchange or Other Taxable Disposition of Our Common Stock

Subject to the discussion below in "—Additional Withholding and Information Reporting Requirements," in general, a Non-U.S. Holder will not be subject to U.S. federal income tax or withholding tax on gain realized upon such holder's sale, exchange or other taxable disposition of shares of our common stock unless (i) such Non-U.S. Holder is an individual who is present in the United States for 183 days or more in the

taxable year of disposition, and certain other conditions are met, (ii) we are or have been a "United States real property holding corporation," as defined in the Internal Revenue Code (a "USRPHC"), at any time within the shorter of the five-year period preceding the disposition and the Non-U.S. Holder's holding period in the shares of our common stock, and certain other requirements are met, or (iii) such gain is effectively connected with the conduct by such Non-U.S. Holder of a trade or business in the United States (and, if required by an applicable income tax treaty, is attributable to a permanent establishment maintained by such Non-U.S. Holder in the United States).

If the first exception applies, the Non-U.S. Holder generally will be subject to U.S. federal income tax at a rate of 30% (or at a reduced rate under an applicable income tax treaty) on the amount by which such Non-U.S. Holder's capital gains allocable to U.S. sources (including gain, if any, realized on a disposition of our common stock) exceed capital losses allocable to U.S. sources during the taxable year of the disposition. If the third exception applies, the Non-U.S. Holder generally will be subject to U.S. federal income tax with respect to such gain on a net income basis in the same manner as if it were a resident of the United States, and a Non-U.S. Holder that is a corporation for U.S. federal income tax purposes may also be subject to a branch profits tax with respect any earnings and profits attributable to such gain at a rate of 30% (or at a reduced rate under an applicable income tax treaty).

Generally, a corporation is a USRPHC only if the fair market value of its U.S. real property interests (as defined in the Internal Revenue Code) equals or exceeds 50% of the sum of the fair market value of its worldwide real property interests plus its other assets used or held for use in a trade or business. Although there can be no assurance in this regard, we believe that we are not, and do not anticipate becoming, a USRPHC. However, because the determination of whether we are a USRPHC depends on the fair market value of our U.S. real property relative to the fair market value of other business assets, there can be no assurance that we will not become a USRPHC in the future. Even if we became a USRPHC, a Non-U.S. Holder would not be subject to U.S. federal income tax on a sale, exchange or other taxable disposition of our common stock by reason of our status as a USRPHC so long as our common stock is regularly traded on an established securities market at any time during the calendar year in which the disposition occurs and such Non-U.S. Holder does not own and is not deemed to own (directly, indirectly or constructively) more than 5% of our common stock at any time during the shorter of the five-year period ending on the date of disposition and the holder's holding period. However, no assurance can be provided that our common stock will be regularly traded on an established securities market for purposes of the rules described above. Prospective investors are encouraged to consult their own tax advisors regarding the possible consequences to them if we are, or were to become, a USRPHC.

Additional Withholding and Information Reporting Requirements

Legislation enacted in March 2010 (commonly referred to as "FATCA") generally will impose a U.S. federal withholding tax of 30% on payments to certain non-U.S. entities (including certain intermediaries), including dividends on and the gross proceeds from a sale or other disposition of our common stock, unless such persons comply with a complicated U.S. information reporting, disclosure and certification regime. This new regime requires, among other things, a broad class of persons to enter into agreements with the IRS to obtain, disclose and report information about their investors and account holders. This new regime and its requirements are different from and in addition to the certification requirements described elsewhere in this discussion. As currently proposed, the FATCA withholding rules would apply to certain payments, including dividend payments on our common stock, if any, paid after December 31, 2013, and to payments of gross proceeds from the sale or other dispositions of our common stock paid after December 31, 2014.

Although administrative guidance and proposed regulations have been issued, regulations implementing the new FATCA regime have not yet been finalized and the exact scope of these rules remains unclear and potentially subject to material changes. Prospective investors should consult their own tax advisors regarding the possible impact of these rules on their investment in our common stock, and the entities through which they hold our common stock, including, without limitation, the process and deadlines for meeting the applicable requirements to prevent the imposition of this 30% withholding tax under FATCA.

Backup Withholding and Information Reporting

We must report annually to the IRS and to each Non-U.S. Holder the gross amount of the distributions on our common stock paid to the holder and the tax withheld, if any, with respect to the distributions.

Non-U.S. Holders may have to comply with specific certification procedures to establish that the holder is not a United States person (as defined in the Internal Revenue Code) in order to avoid backup withholding at the applicable rate, currently 28% and scheduled to increase to 31% for taxable years 2013 and thereafter, with respect to dividends on our common stock. Dividends paid to Non-U.S. Holders subject to the U.S. withholding tax, as described above in "—Distributions on Our Common Stock," generally will be exempt from U.S. backup withholding.

Information reporting and backup withholding will generally apply to the proceeds of a disposition of our common stock by a Non-U.S. Holder effected by or through the U.S. office of any broker, U.S. or foreign, unless the holder certifies its status as a Non-U.S. Holder and satisfies certain other requirements, or otherwise establishes an exemption. Dispositions effected through a non-U.S. office of a U.S. broker or a non-U.S. broker with substantial U.S. ownership or operations generally will be treated in a manner similar to dispositions effected through a U.S. office of a broker. Prospective investors should consult their own tax advisors regarding the application of the information reporting and backup withholding rules to them.

Copies of information returns may be made available to the tax authorities of the country in which the Non-U.S. Holder resides or in which the Non-U.S. Holder is incorporated under the provisions of a specific treaty or agreement.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules from a payment to a Non-U.S. Holder can be refunded or credited against the Non-U.S. Holder's U.S. federal income tax liability, if any, provided that an appropriate claim is timely filed with the IRS.

Federal Estate Tax

Common stock owned (or treated as owned) by an individual who is not a citizen or a resident of the United States (as defined for U.S. federal estate tax purposes) at the time of death will be included in the individual's gross estate for U.S. federal estate tax purposes, unless an applicable estate or other tax treaty provides otherwise, and, therefore, may be subject to U.S. federal estate tax.

Medicare Contributions Tax

For taxable years beginning after December 31, 2012, a 3.8% tax is imposed on the net investment income (which includes dividends and gains recognized upon of a disposition of stock) of certain individuals, trusts and estates with adjusted gross income in excess of certain thresholds. This tax is imposed on individuals, estates and trusts that are U.S. Holders. The tax is expressly not imposed on nonresident aliens; however, estates and trusts that are not U.S. Holders are not expressly exempted from the tax. Therefore, non-U.S. Holders of our common shares should consult their tax advisors regarding application of this Medicare contribution tax in their particular situations.

UNDERWRITING

Merrill Lynch, Pierce, Fenner & Smith Incorporated, Morgan Stanley & Co. LLC and J.P. Morgan Securities LLC are acting as representatives of each of the underwriters named below. Subject to the terms and conditions set forth in an underwriting agreement among us and the underwriters, we have agreed to sell to the underwriters, and each of the underwriters has agreed, severally and not jointly, to purchase from us, the number of shares of common stock set forth opposite its name below.

Underwriter	Number of Shares
Merrill Lynch, Pierce, Fenner & Smith Incorporated	
Morgan Stanley & Co. LLC	
J.P. Morgan Securities LLC	
Deutsche Bank Securities Inc.	
Goldman, Sachs & Co.	
Total	

Subject to the terms and conditions set forth in the underwriting agreement, the underwriters have agreed, severally and not jointly, to purchase all of the shares sold under the underwriting agreement if any of these shares are purchased. If an underwriter defaults, the underwriting agreement provides that the purchase commitments of the nondefaulting underwriters may be increased or the underwriting agreement may be terminated.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act, or to contribute to payments the underwriters may be required to make in respect of those liabilities.

The underwriters are offering the shares, subject to prior sale, when, as and if issued to and accepted by them, subject to approval of legal matters by their counsel, including the validity of the shares, and other conditions contained in the underwriting agreement, such as the receipt by the underwriters of officer's certificates and legal opinions. The underwriters reserve the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part.

Commissions and Discounts

The representatives have advised us that the underwriters propose initially to offer the shares to the public at the public offering price set forth on the cover page of this prospectus and to dealers at that price less a concession not in excess of $ per share. After the initial offering, the public offering price, concession or any other term of the offering may be changed.

The following table shows the public offering price, underwriting discount and proceeds before expenses to us. The information assumes either no exercise or full exercise by the underwriters of their option to purchase additional shares.

	Per Share	Without Option	With Option
Public offering price	$	$	$
Underwriting discount	$	$	$
Proceeds, before expenses, to Bloomin' Brands, Inc.	$	$	$

The expenses of the offering, not including the underwriting discount, are estimated at $ and are payable by us.

Option to Purchase Additional Shares

We have granted an option to the underwriters, exercisable for 30 days after the date of this prospectus, to purchase up to additional shares at the public offering price, less the underwriting discount. If the underwriters exercise this option, each will be obligated, subject to conditions contained in the underwriting agreement, to purchase a number of additional shares proportionate to that underwriter's initial amount reflected in the above table.

Reserved Shares

At our request, the underwriters have reserved for sale, at the initial public offering price, up to % of the shares offered by this prospectus for sale to some of our directors, officers, employees and certain other persons who are associated with us. If these persons purchase reserved shares, this will reduce the number of shares available for sale to the general public. Any reserved shares that are not so purchased will be offered by the underwriters to the general public on the same terms as the other shares offered by this prospectus.

No Sales of Similar Securities

We, our executive officers and directors and our other existing security holders have agreed, subject to certain exceptions, not to sell or transfer any of our common stock or securities convertible into, exchangeable for, exercisable for, or repayable with our common stock, for 180 days after the date of this prospectus without first obtaining the written consent of the representatives. Specifically, we and these other persons have agreed, with certain limited exceptions, not to directly or indirectly:

- offer, pledge, sell or contract to sell any of our common stock;
- sell any option or contract to purchase any of our common stock;
- purchase any option or contract to sell any of our common stock;
- grant any option, right or warrant for the sale of any of our common stock;
- lend or otherwise dispose of or transfer any of our common stock;
- request or demand that we file a registration statement related to our common stock; or
- enter into any swap or other agreement that transfers, in whole or in part, the economic consequence of ownership of any of our common stock whether any such swap or transaction is to be settled by delivery of shares or other securities, in cash or otherwise.

This lock-up provision applies to our common stock and to securities convertible into or exchangeable or exercisable for or repayable with our common stock. It also applies to our common stock owned now or acquired later by the person executing the agreement or for which the person executing the agreement later acquires the power of disposition. In the event that either (x) during the last 17 days of the lock-up period referred to above, we issue an earnings release or material news or a material event relating to us occurs or (y) prior to the expiration of the lock-up period, we announce that we will release earnings results or become aware that material news or a material event will occur during the 16-day period beginning on the last day of the lock-up period, the restrictions described above shall continue to apply until the expiration of the 18-day period beginning on the issuance of the earnings release or the occurrence of the material news or material event.

Listing

We expect the shares to be approved for listing on the under the symbol "BLM."

Before this offering, there has been no public market for our common stock. The initial public offering price will be determined through negotiations among us and the representatives. In addition to prevailing market conditions, the factors to be considered in determining the initial public offering price are:

- the valuation multiples of publicly traded companies that the representatives believe to be comparable to us;
- our financial information;
- the history of, and the prospects for, our company and the industry in which we compete;
- an assessment of our management, its past and present operations, and the prospects for, and timing of, our future revenues;
- the present state of our development; and
- the above factors in relation to market values and various valuation measures of other companies engaged in activities similar to ours.

An active trading market for the shares may not develop. It is also possible that after the offering the shares will not trade in the public market at or above the initial public offering price.

The underwriters do not expect to sell more than 5% of the shares in the aggregate to accounts over which they exercise discretionary authority.

Price Stabilization, Short Positions and Penalty Bids

Until the distribution of the shares is completed, SEC rules may limit underwriters and selling group members from bidding for and purchasing our common stock. However, the representatives may engage in transactions that stabilize the price of the common stock, such as bids or purchases to peg, fix or maintain that price.

In connection with the offering, the underwriters may purchase and sell our common stock in the open market. These transactions may include short sales, purchases on the open market to cover positions created by short sales and stabilizing transactions. Short sales involve the sale by the underwriters of a greater number of shares than they are required to purchase in the offering. "Covered" short sales are sales made in an amount not greater than the underwriters' option to purchase additional shares described above. The underwriters may close out any covered short position by either exercising their option to purchase additional shares or purchasing shares in the open market. In determining the source of shares to close out the covered short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase shares through the option granted to them. "Naked" short sales are sales in excess of such option. The underwriters must close out any naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of our common stock in the open market after pricing that could adversely affect investors who purchase in the offering. Stabilizing transactions consist of various bids for or purchases of shares of common stock made by the underwriters in the open market prior to the completion of the offering.

The underwriters may also impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representatives have repurchased shares sold by or for the account of such underwriter in stabilizing or short covering transactions.

Similar to other purchase transactions, the underwriters' purchases to cover the syndicate short sales may have the effect of raising or maintaining the market price of our common stock or preventing or retarding a decline in the market price of our common stock. As a result, the price of our common stock may be higher than the price that might otherwise exist in the open market. The underwriters may conduct these transactions on , in the over-the-counter market or otherwise.

Neither we nor any of the underwriters make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of our common stock. In addition, neither we nor any of the underwriters make any representation that the representatives will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

Electronic Distribution

In connection with the offering, certain of the underwriters or securities dealers may distribute prospectuses by electronic means, such as e-mail.

Other Relationships

The underwriters and their respective affiliates are full-service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. Some of the underwriters and their affiliates have engaged in, and may in the future engage in, investment banking and other commercial dealings in the ordinary course of business with us or our affiliates. They have received, or may in the future receive, customary fees and commissions for these transactions.

Merrill Lynch, Pierce, Fenner & Smith Incorporated and Deutsche Bank Securities Inc. acted as initial purchasers in connection with the offering of our Senior Notes. In addition, affiliates of certain underwriters act in various capacities under our senior credit facility. Bank of America, N.A., an affiliate of, Merrill Lynch, Pierce, Fenner & Smith Incorporated, acts as syndication agent and Deutsche Bank AG New York Branch, an affiliate of Deutsche Bank Securities Inc., acts as administrative agent, pre-funded revolving credit facility deposit bank, swing line lender and a letter of credit issuer. Affiliates of Merrill Lynch, Pierce, Fenner & Smith Incorporated and Deutsche Bank Securities Inc. also act as lenders under our senior credit facility. In addition, Bank of America, N.A., an affiliate of Merrill Lynch, Pierce, Fenner & Smith Incorporated, and German American Capital Corporation, an affiliate of Deutsche Bank Securities Inc., co-originated our 2012 CMBS Loan. Banc of America Merrill Lynch Large Loan Inc., an affiliate of Merrill Lynch, Pierce, Fenner & Smith Incorporated, acted as depositor in connection with the securitization of the mortgage loan portion of the 2012 CMBS Loan. Merrill Lynch, Pierce, Fenner & Smith Incorporated and Deutsche Bank Securities Inc. also acted as co-lead manager, bookrunner and placement agent, and JP Morgan Securities LLC acted as co-manager and placement agent for the 2012 CMBS Loan. Bank of America, N.A., is also acting as servicer for the 2012 CMBS Loan.

The underwriters may have ongoing relationships with, render services to, and engage in transactions with us and our affiliates, which relationships and transactions may create conflicts of interest between the underwriters, on the one hand, and the investors in this offering, on the other hand. For example, Merrill Lynch, Pierce, Fenner & Smith Incorporated and Deutsche Bank Securities Inc. acted as the placement agents for the mezzanine portion of the 2012 CMBS Loans, and may have ongoing relationships with these lenders. The underwriters also assisted us in arranging the Sale-Leaseback Transaction. These restaurant properties do not secure the 2012 CMBS Loan but include restaurants of the same brand and/or concept as those that do secure the 2012 CMBS Loan. In light of such activities and the ongoing relationships of the underwriters with us, for purposes of your assessment of potential conflicts of interest involving the underwriters as it relates to their placement of these securities, you should assume that the underwriters will be, or would like to become, involved as arrangers, placement agents, underwriters or in other roles in other transactions for such parties.

In addition, in the ordinary course of their business activities, the underwriters and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of ours or our affiliates. The underwriters and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Notice to Prospective Investors in the European Economic Area

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a "Relevant Member State"), with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the "Relevant Implementation Date"), no offer of shares may be made to the public in that Relevant Member State other than:

- to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- to fewer than 100 or, if the Relevant Member State has implemented the relevant provision of the 2010 PD Amending Directive, 150, natural or legal persons (other than qualified investors as defined in the Prospectus Directive), as permitted under the Prospectus Directive, subject to obtaining the prior consent of the representatives; or
- in any other circumstances falling within Article 3(2) of the Prospectus Directive, provided that no such offer of shares shall require the company or the representatives to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

Each person in a Relevant Member State (other than a Relevant Member State where there is a Permitted Public Offer) who initially acquires any shares or to whom any offer is made will be deemed to have represented, acknowledged and agreed that (i) it is a "qualified investor" within the meaning of the law in that Relevant Member State implementing Article 2(1)(e) of the Prospectus Directive, and (ii) in the case of any shares acquired by it as a financial intermediary, as that term is used in Article 3(2) of the Prospectus Directive, the shares acquired by it in the offering have not been acquired on behalf of, nor have they been acquired with a view to their offer or resale to, persons in any Relevant Member State other than "qualified investors" as defined in the Prospectus Directive, or in circumstances in which the prior consent of the representatives has been given to the offer or resale. In the case of any shares being offered to a financial intermediary as that term is used in Article 3(2) of the Prospectus Directive, each such financial intermediary will be deemed to have represented, acknowledged and agreed that the shares acquired by it in the offer have not been acquired on a non-discretionary basis on behalf of, nor have they been acquired with a view to their offer or resale to, persons in circumstances which may give rise to an offer of any shares to the public other than their offer or resale in a Relevant Member State to qualified investors as so defined or in circumstances in which the prior consent of the representatives has been obtained to each such proposed offer or resale.

The company, the representatives and their affiliates will rely upon the truth and accuracy of the foregoing representation, acknowledgement and agreement.

This prospectus has been prepared on the basis that any offer of shares in any Relevant Member State will be made pursuant to an exemption under the Prospectus Directive from the requirement to publish a prospectus for offers of shares. Accordingly, any person making or intending to make an offer in that Relevant Member State of shares which are the subject of the offering contemplated in this prospectus may only do so in circumstances in which no obligation arises for the company or any of the underwriters to publish a prospectus pursuant to Article 3 of the Prospectus Directive in relation to such offer. Neither the company nor the

underwriters have authorized, nor do they authorize, the making of any offer of shares in circumstances in which an obligation arises for the company or the underwriters to publish a prospectus for such offer.

For the purpose of the above provisions, the expression "an offer to the public" in relation to any shares in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the shares to be offered so as to enable an investor to decide to purchase or subscribe the shares, as the same may be varied in the Relevant Member State by any measure implementing the Prospectus Directive in the Relevant Member State, and the expression "Prospectus Directive" means Directive 2003/71/EC (including the 2010 PD Amending Directive, to the extent implemented in the Relevant Member States) and includes any relevant implementing measure in the Relevant Member State, and the expression "2010 PD Amending Directive" means Directive 2010/73/EU.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Basis of Presentation

Bloomin' Brands, Inc. ("Bloomin' Brands" or the "Company"), formerly known as Kangaroo Holdings, Inc. was formed by an investor group comprised of funds advised by Bain Capital Partners, LLC ("Bain Capital"), Catterton Management Company, LLC ("Catterton"), Chris T. Sullivan, Robert D. Basham and J. Timothy Gannon (the "Founders") and certain members of our management. On June 14, 2007, Bloomin' Brands acquired OSI Restaurant Partners, Inc. by means of a merger and related transactions (the "Merger"). At the time of the Merger, OSI Restaurant Partners, Inc. was converted into a Delaware limited liability company named OSI Restaurant Partners, LLC ("OSI"). In connection with the Merger, Bloomin' Brands implemented a new ownership and financing arrangement for some of our restaurant properties, pursuant to which Private Restaurant Properties, LLC ("PRP"), a wholly-owned subsidiary of Bloomin' Brands, acquired 343 restaurant properties from OSI and leased them back to subsidiaries of OSI. OSI remains our primary operating entity and a wholly-owned subsidiary of Bloomin' Brands continues to lease certain of our owned restaurant properties to OSI's subsidiaries.

The total purchase price for the Merger was approximately $3.1 billion, and it was financed by borrowings under senior secured credit facilities and a commercial mortgage-backed securities loan (see Note 11), proceeds from the issuance of senior notes (see Note 11), an investment made by Bain Capital and Catterton, rollover equity from the Founders and investments made by certain members of management.

The Company owns and operates casual, upscale casual and fine dining restaurants primarily in the United States. The Company's restaurant portfolio has five concepts: Outback Steakhouse, Carrabba's Italian Grill, Bonefish Grill, Fleming's Prime Steakhouse and Wine Bar and Roy's. Additional Outback Steakhouse, Carrabba's Italian Grill and Bonefish Grill restaurants in which the Company has no direct investment are operated under franchise agreements.

In the opinion of the Company, all adjustments necessary for the fair presentation of the Company's results of operations, financial position and cash flows for the periods presented have been included.

2. Summary of Significant Accounting Policies

Principles of Consolidation

The Company's consolidated financial statements include the accounts and operations of Bloomin' Brands, Inc. and its wholly-owned subsidiaries, including OSI and PRP. All intercompany accounts and transactions have been eliminated in consolidation. The Company consolidates variable interest entities in which the Company is deemed to have a controlling financial interest as a result of the Company having: (1) the power to direct the activities that most significantly impact the entity's economic performance and (2) the obligation to absorb the losses or the right to receive the benefits that could potentially be significant to the variable interest entity. If the Company has a controlling financial interest in a variable interest entity, the assets, liabilities, and results of the operations of the variable interest entity are included in the consolidated financial statements (see Note 18).

The Company is a franchisor of 161 restaurants as of December 31, 2011, but does not possess any ownership interests in its franchisees and generally does not provide financial support to franchisees in its typical franchise relationship. These franchise relationships are not deemed variable interest entities and are not consolidated.

The equity method of accounting is used for investments in affiliated companies in which the Company is not in control, the Company's interest is generally between 20% and 50% and the Company has the ability to exercise significant influence over the entity. The Company's share of earnings or losses of affiliated companies

BLOOMIN' BRANDS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

accounted for under the equity method is recorded in "Income from operations of unconsolidated affiliates" in its Consolidated Statements of Operations. Through a joint venture arrangement with PGS Participacoes Ltda., the Company holds a 50% ownership interest in PGS Consultoria e Serviços Ltda. (the "Brazilian Joint Venture"). The Brazilian Joint Venture was formed in 1998 for the purpose of operating Outback Steakhouse franchise restaurants in Brazil. The Company accounts for the Brazilian Joint Venture under the equity method of accounting (see Note 17).

Use of Estimates

The preparation of the accompanying consolidated financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimated.

Cash and Cash Equivalents

Cash equivalents consist of investments that are readily convertible to cash with an original maturity date of three months or less. Cash and cash equivalents include $44.3 million and $31.5 million as of December 31, 2011 and 2010, respectively, for amounts in transit from credit card companies since settlement is reasonably assured.

Concentrations of Credit Risk

Financial instruments that potentially subject the Company to concentrations of credit risk are cash and cash equivalents and restricted cash. The Company attempts to limit its credit risk by utilizing outside investment managers with major financial institutions that, in turn, invest in United States treasury security funds, certificates of deposit, money market funds, noninterest-bearing accounts and other highly rated investments and marketable securities. At times, cash balances may be in excess of FDIC insurance limits.

Financial Instruments

Disclosure of fair value information about financial instruments, whether or not recognized in the Consolidated Balance Sheets, is required for those instruments for which it is practical to estimate that value. Fair value is a market-based measurement.

The Company's non-derivative financial instruments at December 31, 2011 and 2010 consist of cash equivalents, restricted cash, accounts receivable, accounts payable and current and long-term debt. The fair values of cash equivalents, accounts receivable and accounts payable approximate their carrying amounts reported in the Consolidated Balance Sheets due to their short duration. The carrying amounts of restricted cash, PRP's commercial mortgage-backed securities loan and OSI's other notes payable, sale-leaseback obligations and guaranteed debt approximate fair value. The fair value of OSI's senior secured credit facilities and senior notes is determined based on quoted market prices. The following table includes the carrying value and fair value of OSI's senior secured credit facilities and senior notes at December 31, 2011 and 2010 (in thousands):

	December 31,			
	2011		2010	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Senior secured term loan facility	$ 1,014,400	$ 953,536	$ 1,035,000	$ 985,838

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

Derivatives

The Company is highly leveraged and exposed to interest rate risk to the extent of its variable-rate debt. The Company manages its interest rate risk by offsetting some of its variable-rate debt with fixed-rate debt, through normal operating and financing activities and, when deemed appropriate, through the use of derivative financial instruments. The Company uses an interest rate cap as a method to limit the volatility of PRP's variable-rate commercial mortgage-backed securities loan. Under this interest rate cap, which renews annually, interest rate payments have a ceiling of 6.31%. If the market rate exceeds the ceiling, the counterparty must pay the Company an amount sufficient to reduce the interest payment to 6.31%. The interest rate cap did not have any market value at December 31, 2011 and 2010. From September 2007 to September 2010, the Company used an interest rate collar as part of its interest rate risk management strategy to manage its exposure to interest rate movements related to OSI's senior secured credit facilities. Given the interest rate environment, the Company did not enter into another derivative financial instrument upon the maturity of its interest rate collar on September 30, 2010.

The Company's restaurants are dependent upon energy to operate and are impacted by changes in energy prices, including natural gas. The Company uses derivative instruments to mitigate some of its overall exposure to material increases in natural gas prices. The Company records mark-to-market changes in the fair value of derivative instruments in earnings in the period of change. The Company does not enter into financial instruments for trading or speculative purposes.

Inventories

Inventories consist of food and beverages, and are stated at the lower of cost (first-in, first-out) or market. The Company periodically makes advance purchases of various inventory items to ensure adequate supply or to obtain favorable pricing. At December 31, 2011 and 2010, inventories included advance purchases of approximately $23.4 million and $10.7 million, respectively.

Consideration Received from Vendors

The Company receives consideration for a variety of vendor-sponsored programs, such as volume rebates, promotions and advertising allowances. Vendor consideration is recorded as a reduction of Cost of sales or Other restaurant operating expenses when recognized in the Company's Consolidated Statements of Operations. Advertising allowances are intended to offset the Company's costs of promoting and selling menu items in its restaurants and are recorded as a reduction to Other restaurant operating expenses when earned.

Restricted Cash

At December 31, 2011 and 2010, the current portion of restricted cash of $20.6 million and $8.1 million, respectively, was restricted for the payment of property taxes, the settlement of obligations in a rabbi trust for the Partner Equity Plan (the "PEP") and the settlement of other deferred compensation plans and bonus arrangements. The current portion of restricted cash at December 31, 2011 also included the fulfillment of certain provisions in PRP's commercial mortgage-backed securities loan. Long-term restricted cash at December 31, 2011 and 2010 of $3.6 million and $19.5 million, respectively, was restricted for the settlement of other deferred compensation plans and bonus arrangements. Long-term restricted cash at December 31, 2010 also included amounts restricted for the fulfillment of certain provisions in PRP's commercial mortgage-backed securities loan.

Property, Fixtures and Equipment

Property, fixtures and equipment are stated at cost, net of accumulated depreciation. At the time property, fixtures and equipment are retired, or otherwise disposed of, the asset and accumulated depreciation are

BLOOMIN' BRANDS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

removed from the accounts and any resulting gain or loss is included in earnings. The Company expenses repair and maintenance costs that maintain the appearance and functionality of the restaurant but do not extend the useful life of any restaurant asset. Improvements to leased properties are depreciated over the shorter of their useful life or the lease term, which includes renewal periods that are reasonably assured. Depreciation is computed on the straight-line method over the following estimated useful lives:

Buildings and building improvements	20 to 30 years
Furniture and fixtures	5 to 7 years
Equipment	2 to 7 years
Leasehold improvements	5 to 20 years
Capitalized software	3 to 5 years

The Company's accounting policies regarding property, fixtures and equipment include certain management judgments and projections regarding the estimated useful lives of these assets, the residual values to which the assets are depreciated or amortized, the determination of expected lease terms and the determination of what constitutes increasing the value and useful life of existing assets. These estimates, judgments and projections may produce materially different amounts of depreciation and amortization expense than would be reported if different assumptions were used.

Operating Leases

Rent expense for the Company's operating leases, which generally have escalating rentals over the term of the lease and may include potential rent holidays, is recorded on a straight-line basis over the initial lease term and those renewal periods that are reasonably assured. The initial lease term includes the "build-out" period of the Company's leases, which is typically before rent payments are due under the terms of the lease. The difference between rent expense and rent paid is recorded as deferred rent and is included in the Consolidated Balance Sheets. Payments received from landlords as incentives for leasehold improvements are recorded as deferred rent and are amortized on a straight-line basis over the term of the lease as a reduction of rent expense. Lease termination fees, if any, and future obligated lease payments for closed locations are recorded as an expense in the period that they are incurred. Exit-related lease obligations of $0.8 million and $1.1 million are recorded in "Accrued and other current liabilities" and $0.4 million and $0.4 million are recorded in "Other long-term liabilities, net" in the Company's Consolidated Balance Sheets as of December 31, 2011 and 2010, respectively. Assets and liabilities resulting from the Merger relating to favorable and unfavorable lease amounts are amortized on a straight-line basis to rent expense over the remaining lease term.

Pre-Opening Expenses

Non-capital expenditures associated with opening new restaurants are expensed as incurred.

Impairment or Disposal of Long-Lived Assets

The Company assesses the potential impairment of amortizable intangibles, including trademarks, franchise agreements and net favorable leases, and other long-lived assets whenever events or changes in circumstances indicate that the carrying value may not be recoverable. In evaluating long-lived restaurant assets for impairment, the Company considers a number of factors such as:

- A significant change in market price;
- A significant adverse change in the manner in which a long-lived asset is being used;

BLOOMIN' BRANDS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

- New laws and government regulations or a significant adverse change in business climate that adversely affect the value of a long-lived asset;
- A current expectation that, more likely than not, a long-lived asset will be sold or otherwise disposed of significantly before the end of its previously estimated useful life; and
- A current period operating or cash flow loss combined with a history of operating or cash flow losses or a projection that demonstrates continuing losses associated with the use of the underlying long-lived asset.

If the aforementioned factors indicate that the Company should review the carrying value of the restaurant's long-lived assets, the Company performs a two-step impairment analysis. Each Company-owned restaurant is evaluated individually for impairment since that is the lowest level at which identifiable cash flows can be measured independently from cash flows of other asset groups. If the total future undiscounted cash flows expected to be generated by the assets are less than its carrying amount, as prescribed by step one testing, recoverability is measured in step two by comparing the fair value of the assets to its carrying amount. Should the carrying amount exceed the asset's estimated fair value, an impairment loss is charged to earnings. Restaurant fair value is determined based on estimates of discounted future cash flows; and impairment charges primarily occur as a result of the carrying value of a restaurant's assets exceeding its estimated fair market value, primarily due to anticipated closures or declining future cash flows from lower projected future sales at existing locations.

The Company incurred total long-lived asset impairment charges and restaurant closing expense of $14.0 million, $5.2 million and $95.4 million for the years ended December 31, 2011, 2010 and 2009, respectively (see Note 7). All impairment charges are recorded in the line item "Provision for impaired assets and restaurant closings" in the Company's Consolidated Statements of Operations.

The Company's judgments and estimates related to the expected useful lives of long-lived assets are affected by factors such as changes in economic conditions and changes in operating performance and expected use. As the Company assesses the ongoing expected cash flows and carrying amounts of its long-lived assets, these factors could cause it to realize a material impairment charge. The Company uses the straight-line method to amortize definite-lived intangible assets.

Restaurant sites and certain other assets to be sold are included in assets held for sale when certain criteria are met, including the requirement that the likelihood of selling the assets within one year is probable. For assets that meet the held for sale criteria, the Company separately evaluates whether the assets also meet the requirements to be reported as discontinued operations. If the Company no longer had any significant continuing involvement with respect to the operations of the assets and cash flows were discontinued, it would classify the assets and related results of operations as discontinued. Assets whose sale is not probable within one year remain in property, fixtures and equipment until their sale is probable within one year. The Company had $1.3 million of assets held for sale as of December 31, 2011 and did not have any assets classified as held for sale as of December 31, 2010.

Generally, restaurant closure costs are expensed as incurred. When it is probable that the Company will cease using the property rights under a non-cancelable operating lease, it records a liability for the net present value of any remaining lease obligations net of estimated sublease income that can reasonably be obtained for the property. The associated expense is recorded in "Provision for impaired assets and restaurant closings." Any subsequent adjustments to the liability from changes in estimates are recorded in the period incurred.

BLOOMIN' BRANDS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

Goodwill and Indefinite-Lived Intangible Assets

The Company's indefinite-lived intangible assets consist only of goodwill and trade names. Goodwill represents the residual after allocation of the purchase price to the individual fair values and carryover basis of assets acquired. On an annual basis (during the second quarter of the fiscal year) or whenever events or changes in circumstances indicate that the carrying amounts may not be recoverable, the Company reviews the recoverability of goodwill and indefinite-lived intangible assets. The impairment test for goodwill involves comparing the fair value of the reporting units to their carrying amounts. If the carrying amount of a reporting unit exceeds its fair value, a second step is required to measure a goodwill impairment loss, if any. This step revalues all assets and liabilities of the reporting unit to their current fair values and then compares the implied fair value of the reporting unit's goodwill to the carrying amount of that goodwill. If the carrying amount of the reporting unit's goodwill exceeds the implied fair value of the goodwill, an impairment loss is recognized in an amount equal to the excess. The impairment test for trade names involves comparing fair value of the trade name, as determined through a discounted cash flow approach, to its carrying value.

Impairment indicators that may necessitate goodwill impairment testing in between the Company's annual impairment tests include the following:

- A significant adverse change in legal factors or in the business climate;
- An adverse action or assessment by a regulator;
- Unanticipated competition;
- A loss of key personnel;
- A more-likely-than-not expectation that a reporting unit or a significant portion of a reporting unit will be sold or otherwise disposed of; and
- The testing for recoverability of a significant asset group within a reporting unit.

Impairment indicators that may necessitate indefinite-lived intangible asset impairment testing in between the Company's annual impairment tests are consistent with those of its long-lived assets.

The Company performed its annual impairment test in the second quarter of 2011 and determined at that time that none of its four reporting units with remaining goodwill were at risk for material goodwill impairment since the fair value of each reporting unit was substantially in excess of its carrying amount. The Company did not record any goodwill or indefinite-lived intangible asset impairment charges during the years ended December 31, 2011 and 2010. As a result of the Company's annual impairment test in the second quarter of 2009, it recorded goodwill and indefinite-lived intangible asset impairment charges of $58.1 million and $36.0 million, respectively (see Note 8).

Sales declines at the Company's restaurants, unplanned increases in health insurance, commodity or labor costs, deterioration in overall economic conditions and challenges in the restaurant industry may result in future impairment charges. It is possible that changes in circumstances or changes in management's judgments, assumptions and estimates could result in an impairment charge of a portion or all of its goodwill or other intangible assets.

Construction in Progress

The Company capitalizes all direct restaurant construction costs. Upon restaurant opening, these costs are depreciated and charged to expense based upon their classification within property, fixtures and equipment. The amount of interest capitalized in connection with restaurant construction was immaterial in all periods.

BLOOMIN' BRANDS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

Deferred Financing Fees

The Company capitalizes deferred financing fees related to the issuance of debt obligations. The Company amortizes deferred financing fees to interest expense over the terms of the respective financing arrangements using the effective interest method or the straight-line method.

Liquor Licenses

The costs of obtaining non-transferable liquor licenses directly issued by local government agencies for nominal fees are expensed as incurred. The costs of purchasing transferable liquor licenses through open markets in jurisdictions with a limited number of authorized liquor licenses are capitalized as indefinite-lived intangible assets and included in "Other assets, net." Annual liquor license renewal fees are expensed over the renewal term.

Revenue Recognition

The Company records food and beverage revenues upon sale. Initial and developmental franchise fees are recognized as income once the Company has substantially performed all of its material obligations under the franchise agreement, which is generally upon the opening of the franchised restaurant. Continuing royalties, which are a percentage of net sales of the franchisee, are recognized as income when earned. Franchise-related revenues are included in the line "Other revenues" in the Consolidated Statements of Operations.

The Company defers revenue for gift cards, which do not have expiration dates, until redemption by the customer. The Company also recognizes gift card "breakage" revenue for gift cards when the likelihood of redemption by the customer is remote, which the Company determined are those gift cards issued on or before three years prior to the balance sheet date. The Company recorded breakage revenue of $11.1 million, $11.0 million and $9.3 million for the years ended December 31, 2011, 2010 and 2009, respectively. Breakage revenue is recorded as a component of "Restaurant sales" in the Consolidated Statements of Operations.

Gift cards sold at a discount are recorded as revenue upon redemption of the associated gift cards at an amount net of the related discount. Gift card sales commissions paid to third-party providers are initially capitalized and subsequently recognized as "Other restaurant operating" expenses upon redemption of the associated gift card. Deferred expenses are $9.7 million and $8.1 million as of December 31, 2011 and 2010, respectively, and are reflected in "Other current assets, net" in the Company's Consolidated Balance Sheets. Gift card sales that are accompanied by a bonus gift card to be used by the customer at a future visit result in a separate deferral of a portion of the original gift card sale. Revenue is recorded when the bonus card is redeemed at a value based on the estimated fair market value of the bonus card.

The Company collects and remits sales, food and beverage, alcoholic beverage and hospitality taxes on transactions with customers and reports such amounts under the net method in its Consolidated Statements of Operations. Accordingly, these taxes are not included in gross revenue.

Advertising Costs

Advertising production costs are expensed in the period when the advertising first occurs. All other advertising costs are expensed in the period in which the costs are incurred. The total amounts charged to advertising expense were $161.4 million, $146.1 million and $140.0 million, for the years ended December 31, 2011, 2010 and 2009, respectively, and were recorded in "Other restaurant operating" expenses in the Consolidated Statements of Operations.

BLOOMIN' BRANDS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

Foreign Currency Translation and Comprehensive Income (Loss)

For all significant non-U.S. operations, the functional currency is the local currency. Assets and liabilities of those operations are translated into U.S. dollars using the exchange rates in effect at the balance sheet date. Results of operations are translated using the average exchange rates for the reporting period. Translation gains and losses are reported as a separate component of Accumulated other comprehensive loss in shareholders' equity (deficit).

Foreign currency transactions may produce receivables or payables that are fixed in terms of the amount of foreign currency that will be received or paid. A change in exchange rates between the U.S dollar and the currency in which a transaction is denominated increases or decreases the expected amount of cash flows in U.S. dollars upon settlement of the transaction. This increase or decrease is a foreign currency transaction gain or loss that generally will be included in determining net income (loss) for the period in which the exchange rate changes. Similarly, a transaction gain or loss, measured from the transaction date or the most recent intervening balance sheet date, whichever is later, realized upon settlement of a foreign currency transaction generally will be included in determining net income (loss) for the period in which the transaction is settled.

Income Taxes

Deferred income tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred income tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred income tax assets and liabilities of a change in the tax rate is recognized in income in the period that includes the enactment date of the rate change. The Company recorded a valuation allowance to reduce its deferred income tax assets to the amount that is more likely than not to be realized. The Company has considered future taxable income and ongoing feasible tax planning strategies in assessing the need for the valuation allowance. Judgments made regarding future taxable income may change due to changes in market conditions, changes in tax laws or other factors. If the assumptions and estimates change in the future, the valuation allowance established may be increased or decreased, resulting in a respective increase or decrease in income tax expense.

The noncontrolling interest in domestic affiliated entities includes no provision or liability for income taxes, as any tax liability related thereto is the responsibility of the holder of the noncontrolling interest.

Employee Partner Payments and Buyouts

The managing partner of each Company-owned domestic restaurant and the chef partner of each Fleming's and Roy's Company-owned domestic restaurant, as well as area operating partners, generally receive distributions or payments for providing management and supervisory services to their restaurants based on a percentage of their associated restaurants' monthly cash flows. The expense associated with the monthly payments for managing and chef partners is included in "Labor and other related" expenses, and the expense associated with the monthly payments for area operating partners is included in "General and administrative" expenses in the Consolidated Statements of Operations.

Managing and chef partners that are eligible to participate in a deferred compensation program receive an unsecured promise of a cash contribution (see Note 3). An area operating partner's interest in the partnership (the "Management Partnership") that provides management and supervisory services to his or her restaurant may

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

be purchased, at the Company's option, after the restaurant has been open for a five-year period based on the terms specified in the agreement. The Company estimates future purchases of area operating partners' interests, as well as deferred compensation obligations to managing and chef partners, using current and historical information on restaurant performance and records the partner obligations in the line item "Partner deposits and accrued partner obligations" in its Consolidated Balance Sheets. In the period the Company purchases the area operating partner's interests, an adjustment is recorded to recognize any remaining expense associated with the purchase and reduce the related accrued buyout liability. Deferred compensation expenses for managing and chef partners are included in "Labor and other related" expenses and buyout expenses for area operating partners are included in "General and administrative" expenses in the Consolidated Statements of Operations.

Stock-based Compensation

The Company's 2007 Equity Incentive Plan (the "Equity Plan") permits the grant of stock options and restricted stock to Company management and other key employees. The Company accounts for its stock-based employee compensation using a fair value based method of accounting.

Generally, stock options vest and become nominally exercisable in 20% increments over a period of five years contingent on continued employee service. Shares acquired upon the exercise of stock options under the Equity Plan are generally subject to a stockholder's agreement that contains a management call option that allows the Company to repurchase all shares purchased through exercise of stock options upon termination of employment at any time prior to the earlier of an initial public offering or a change of control. If an employee's termination of employment is a result of death or disability, by the Company other than for cause or by the employee for good reason, the Company may repurchase exercised stock under this call option at fair market value. If an employee's termination of employment is by the Company for cause or by the employee without good reason, the Company may repurchase the stock under this call provision for the lesser of the exercise price or fair market value. Additionally, the holder of shares acquired upon the exercise of stock options is prohibited from transferring the shares to any person, subject to narrow exceptions, and should a permitted transfer occur, the transferred shares remain subject to the management call option. As a result of the transfer restrictions and call option, the Company does not record compensation expense for stock options that contain the call option since employees cannot realize monetary benefit from the options or any shares acquired upon the exercise of the options unless the employee is employed at the time of an initial public offering or change of control. There have not been any exercises of stock options by any employee to date, and all stock options of terminated employees with a call provision have been forfeited.

The Company uses the Black-Scholes option pricing model to estimate the weighted-average grant date fair value of stock options granted. Expected volatilities are based on historical volatilities of the stock of comparable companies. The expected term of options granted represents the period of time that options granted are expected to be outstanding. The risk-free rate for periods within the contractual life of the option is based on the U.S. Treasury yield curve in effect at the time of grant. Results may vary depending on the assumptions applied within the model. The benefits of tax deductions in excess of recognized compensation cost, if any, are reported as a financing cash flow.

Net Income (Loss) per Share

Basic net income (loss) per share is computed on the basis of the weighted average number of common shares that were outstanding during the period. Diluted net income (loss) per share includes the dilutive effect of common stock equivalents consisting of restricted stock and stock options, using the treasury stock method. Performance-based restricted stock and stock options are considered dilutive when the related performance criterion has been met.

BLOOMIN' BRANDS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

The computation of basic and diluted net income (loss) per common share is as follows (in thousands, except share and per share amounts):

	Years Ended December 31,		
	2011	2010	2009
Net income (loss) attributable to Bloomin' Brands, Inc.	$ 100,005	$ 52,968	$ (64,463)
Basic weighted average common shares outstanding	106,224,241	105,968,069	104,441,533
Effect of diluted securities:			
Employee stock options	399,103	—	—
Unvested restricted stock	66,003	—	—
Diluted weighted average common shares outstanding	106,689,347	105,968,069	104,441,533
Basic net income (loss) per common share	$ 0.94	$ 0.50	$ (0.62)
Diluted net income (loss) per common share	$ 0.94	$ 0.50	$ (0.62)

As of the year ended December 31, 2011 and 2010, the Company excluded 550,000 and 2,575,500 outstanding stock options, respectively, in the diluted net income per share calculation because the options were out of the money and to do so would have been antidilutive. As of the year ended December 31, 2009, the Company excluded 2,888,476 and 775,266 outstanding stock options and unvested restricted stock, respectively, in the diluted net loss per share calculation because the inclusion of these share based awards would have been antidilutive.

3. Stock-based and Deferred Compensation Plans

Stock-based and Deferred Compensation Plans

Managing and Chef Partners

Historically, the managing partner of each Company-owned domestic restaurant and the chef partner of each Fleming's and Roy's restaurant were required, as a condition of employment, to sign a five-year employment agreement and to purchase a non-transferable ownership interest in the Management Partnership that provided management and supervisory services to his or her restaurant. The purchase price for a managing partner's ownership interest was fixed at $25,000, and the purchase price for a chef partner's ownership interest ranged from $10,000 to $15,000. Managing and chef partners had the right to receive monthly distributions from the Management Partnership based on a percentage of their restaurant's monthly cash flows for the duration of the agreement, which varied by concept from 6% to 10% for managing partners and 2% to 5% for chef partners. Further, managing and chef partners were eligible to participate in the Partner Equity Plan ("PEP"), a deferred compensation program, upon completion of their five-year employment agreement.

In April 2011, the Company implemented modifications to its managing and chef partner compensation structure to provide greater incentives for sales and profit growth. Under the revised program, managing and chef partners continue to sign five-year employment agreements and receive monthly distributions of the same percentage of their restaurant's cash flow as under the prior program. However, under the revised program, in lieu of participation in the PEP, managing partners and chef partners are eligible to receive deferred compensation payments under a new Partner Ownership Account Plan (the "POA"). The POA places greater

BLOOMIN' BRANDS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

emphasis on year-over-year growth in cash flow than the PEP. Managing and chef partners will receive a greater value under the POA than they would have received under the PEP if certain levels of year-over-year cash flow growth are achieved and a lesser value than under the PEP if these levels are not achieved.

The POA requires, managing and chef partners to make an initial deposit of up to $10,000 into their "Partner Investment Account," and the Company will make a bookkeeping contribution to each partner's "Company Contributions Account" no later than the end of February of each year following the completion of each year (or partial year where applicable) under the partner's employment agreement. The value of each Company contribution will be equal to a percentage of the partner's restaurant's positive distributable cash flow plus, if the restaurant has been open at least 18 calendar months, a percentage of the year-over-year increase in the restaurant's positive distributable cash flow in accordance with the terms described in the partner's employment agreement.

The revised program also provides an annual bonus known as the President's Club, paid in addition to the monthly distributions of cash flow, designed to reward increases in their restaurant's annual sales above the concept sales plan with a required flow-through percentage of the incremental sales to cash flow. Managing and chef partners whose restaurants achieve certain annual sales targets (and the required flow through percentage) receive a bonus equal to a percentage of the incremental sales, such percentage determined by the sales target achieved.

Amounts credited to each partner's account under the POA may be allocated by the partner among benchmark funds offered under the POA, and the account balances of the partner will increase or decrease based on the performance of the benchmark funds. Upon termination of employment, all remaining balances in the Company Contributions Account in the POA are forfeited unless the partner has been with the Company for twenty years or more. Unless previously forfeited under the terms of the POA, 50% of the partner's total account balances generally will be distributed in the March following the completion of the initial five-year contract term with subsequent distributions varying based on the length of continued employment as a partner. The deferred compensation obligations under the POA are unsecured obligations of the Company.

All managing and chef partners who execute new employment agreements after May 1, 2011 are required to participate in the new partner program, including the POA. Managing and chef partners with a current employment agreement scheduled to expire December 1, 2011 or later had the opportunity (from April 27, 2011 through July 27, 2011) to amend their employment agreements to convert their existing partner program to participation in the new partner program, including the POA, effective June 1, 2011. As a result of this conversion, $2.7 million of the Company's total partner deposit liability was accelerated for the return of partners' capital that was required under the old program. As of December 31, 2011, the Company's POA liability was $8.0 million which was recorded in the line item "Partner deposits and accrued partner obligations" in its Consolidated Balance Sheet.

Upon the closing of the Merger, certain stock options that had been granted to managing and chef partners under a pre-merger managing partner stock plan (the "MP Stock Plan") upon completion of a previous employment contract were converted into the right to receive cash in the form of a "Supplemental PEP" contribution. Additionally, all outstanding, unvested partner employment grants of restricted stock under the MP Stock Plan were converted into the right to receive cash on a deferred basis. Additionally, certain members of management were given the option to either convert some or all of their restricted stock granted under the pre-merger stock plan in the same manner as managing partners or convert some or all of it into restricted stock of Kangaroo Holdings, Inc., now known as Bloomin' Brands, Inc. In accordance with the terms of the Employee Rollover Agreement adopted by the Company on June 14, 2007, those shares converted into restricted stock, now Bloomin' Brands restricted stock, vest 20% annually over five years, and grants are fully vested upon an

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

initial public offering or a change of control. Grants of restricted stock under the pre-merger stock plan that converted into the right to receive cash are referred to as "Restricted Stock Contributions."

As of December 31, 2011, the Company's total vested liability with respect to obligations primarily under the PEP, Supplemental PEP and Restricted Stock Contributions was approximately $107.8 million, of which $11.8 million and $96.0 million was included in the line items "Accrued and other current liabilities" and "Other long-term liabilities, net," respectively, in its Consolidated Balance Sheet. As of December 31, 2010, the Company's total vested liability with respect to obligations primarily under the PEP, Supplemental PEP and Restricted Stock Contributions was approximately $101.4 million, of which $14.0 million and $87.5 million was included in the line items "Accrued and other current liabilities" and "Other long-term liabilities, net," respectively, in its Consolidated Balance Sheet. Partners and management may allocate the contributions into benchmark investment funds, and these amounts due to participants will fluctuate according to the performance of their allocated investments and may differ materially from the initial contribution and current obligation.

Prior to the Merger, certain partners participating in the PEP were to receive common stock ("Partner Shares") upon completion of their employment contract. Upon closing of the Merger, these partners are entitled to receive a deferred payment of cash instead of common stock upon completion of their current employment term. Partners will not receive the deferred cash payment if they resign or are terminated for cause prior to completing their current employment terms. There will not be any future earnings or losses on these amounts prior to payment to the partners. The amount accrued for the Partner Shares obligation was approximately $0.7 million as of December 31, 2011 and was included in the line item "Accrued and other current liabilities" in the Company's Consolidated Balance Sheet. The amount accrued for the Partner Shares obligation was approximately $6.6 million as of December 31, 2010, of which $6.5 million and $0.1 million was included in the line items "Accrued and other current liabilities" and "Other long-term liabilities, net," respectively, in the Company's Consolidated Balance Sheet.

As of December 31, 2011 and 2010, the Company had approximately $56.9 million and $58.0 million, respectively, in various corporate owned life insurance policies and another $0.3 million and $1.0 million, respectively, of restricted cash, both of which are held within an irrevocable grantor or "rabbi" trust account for settlement of the Company's obligations under the PEP, Supplemental PEP, Restricted Stock Contributions and POA. The Company is the sole owner of any assets within the rabbi trust and participants are considered general creditors of the Company with respect to assets within the rabbi trust.

As of December 31, 2011 and 2010, there were $55.6 million and $49.0 million, respectively, of unfunded obligations related to the PEP, Supplemental PEP, Restricted Stock Contributions, Partner Shares liabilities and POA, excluding amounts not yet contributed to the partners' investment funds, which may require the use of cash resources in the future.

Amounts credited to partners' PEP accounts are fully vested at all times and participants have no discretion with respect to the form of benefit payments under the PEP. Effective January 1, 2009, the Company accelerated the distribution of PEP and Supplemental PEP benefits to certain active participants. Active managing and chef partners who complete an employment contract on or after January 1, 2009 and remain employed with the Company until their PEP accounts are fully distributed will receive their PEP distributions at certain payment dates throughout a seven-year period after completion of their employment contracts (previously each account was generally distributed to the participant over a ten-year period). Managing and chef partners who complete an employment contract on or after January 1, 2009 and do not remain employed with the Company until their PEP accounts are fully distributed will receive their entire PEP account balance in the seventh year after completion of their employment contract. Their PEP account balance will be determined as of

BLOOMIN' BRANDS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

the date of termination of employment, subject to any subsequent increases or decreases based on the performance of their investment elections.

Managing and chef partners whose PEP accounts relate to an employment contract completed before January 1, 2009 and those with Supplemental PEP accounts from the Merger, who in either case were employed with the Company through December 31, 2008, were permitted to keep the original ten-year distribution schedule or elect a new distribution schedule. Approximately 75% of participants elected the new distribution schedule, which results in distribution of their account balance at certain payment dates throughout a seven-year period.

If participants do not remain employed by the Company through 2015, then their remaining PEP account balance will be distributed in one payment in 2015. Their account balance will be determined as of the date of termination of employment, subject to any subsequent increases or decreases based on the performance of their investment choices.

Participants with PEP or Supplemental PEP accounts who were not employed with the Company through December 31, 2008 were required to keep the original ten-year distribution schedule.

Area Operating Partners

Area operating partners are required, as a condition of employment and within 30 days of the opening of his or her first restaurant, to make an initial investment of $50,000 in the Management Partnership that provides supervisory services to the restaurants that the area operating partner oversees within 30 days of the opening of his or her first restaurant. This interest gives the area operating partner the right to distributions from the Management Partnership based on a percentage of his or her restaurants' monthly cash flows for the duration of the agreement, typically ranging from 4% to 9%. The Company has the option to purchase an area operating partner's interest in the Management Partnership after the restaurant has been open for a five-year period on the terms specified in the agreement.

For restaurants opened on or after January 1, 2007, the area operating partner's percentage of cash distributions and buyout percentage is calculated based on the associated restaurant's return on investment compared to the Company's targeted return on investment and may range from 3.0% to 12.0%. This percentage is determined after the first five full calendar quarters from the date of the associated restaurant's opening and is adjusted each quarter thereafter based on a trailing 12-month restaurant return on investment. The buy-out percentage is the area operating partner's average distribution percentage for the 24 months immediately preceding the buy-out. Buyouts are paid in cash within 90 days or paid over a two-year period.

Management and Other Key Employees

During the years ended December 31, 2011 and 2009, 1,350,000 and 4,727,680 additional shares, respectively, were approved for stock option and restricted stock grants under the Equity Plan by the Board of Directors. During the year ended December 31, 2010, no additional shares were approved. A total of 12,350,000 shares were approved for stock options and restricted stock grants under the Equity Plan by the Board of Directors as of December 31, 2011. The maximum term of stock options and restricted stock granted under the Equity Plan is ten years.

Other Benefit Plans

The Company has a qualified defined contribution 401(k) plan (the OSI Restaurant Partners, LLC Salaried Employees 401(k) Plan and Trust, or the "401(k) Plan") covering substantially all full-time employees,

BLOOMIN' BRANDS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

except officers and certain highly compensated employees. Assets of the 401(k) Plan are held in trust for the sole benefit of the employees. The Company contributed $2.0 million, $1.9 million, and $2.0 million to the 401(k) Plan for the plan years ended December 31, 2011, 2010 and 2009, respectively.

The Company provides a deferred compensation plan for its highly compensated employees who are not eligible to participate in the 401(k) Plan. The deferred compensation plan allows these employees to contribute from 5% to 90% of their base salary and up to 100% of their cash bonus on a pre-tax basis to an investment account consisting of various investment fund options. The Company does not currently intend to provide any matching or profit-sharing contributions, and participants are fully vested in their deferrals and their related returns. Participants are considered unsecured general creditors in the event of Company bankruptcy or insolvency.

Stock Options

The following table presents a summary of the Company's stock option activity for the year ended December 31, 2011 (in thousands, except exercise price and contractual life):

	Options	Weighted-Average Exercise Price	Weighted-Average Remaining Contractual Life (years)	Aggregate Intrinsic Value
Outstanding at December 31, 2010	10,338	$ 7.00	8.1	$ 29,011
Granted	2,037	9.80		
Forfeited	(432)	6.50		
Outstanding at December 31, 2011	11,943	$ 7.50	7.5	$53,989
Exercisable at December 31, 2011	5,704	$ 7.42	6.7	$ 26,222

The weighted-average grant date fair value of stock options granted during the years ended December 31, 2011, 2010 and 2009 was $6.02, $3.18, and $3.65, respectively, and was estimated using the Black-Scholes option pricing model. The following assumptions were used to calculate the fair value of options granted during the years ended December 31, 2011, 2010 and 2009: (1) weighted-average risk-free interest rates of 2.09%, 1.95%, and 2.27%, respectively; (2) dividend yield of 0.0%; (3) expected term of six and a half years, six and a half years, and five years, respectively; and (4) weighted-average volatilities of 54.8%, 73.9% and 65.3%, respectively. The Company did not have any stock options exercised in the years ended December 31, 2011, 2010 and 2009 and therefore did not have any tax benefits realized from the exercise of stock options in these periods.

Generally, stock options vest and become nominally exercisable in 20% increments over a period of five years contingent on continued employee service. Shares acquired upon the exercise of stock options under the Equity Plan are generally subject to a stockholder's agreement that contains a management call option that allows the Company to repurchase all shares purchased through exercise of stock options upon termination of employment at any time prior to the earlier of an initial public offering or a change of control. If an employee's termination of employment is a result of death or disability, by the Company other than for cause or by the employee for good reason, the Company may repurchase exercised stock under this call option at fair market value. If an employee's termination of employment is by the Company for cause or by the employee without good reason, the Company may repurchase the stock under this call provision for the lesser of the exercise price or fair market value. Additionally, the holder of shares acquired upon the exercise of stock options is prohibited from transferring the shares to any person, subject to narrow exceptions, and should a permitted transfer occur,

BLOOMIN' BRANDS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

the transferred shares remain subject to the management call option. As a result of the transfer restrictions and call option, the Company does not record compensation expense for stock options that contain the call option since employees cannot realize monetary benefit from the options or any shares acquired upon the exercise of the options unless the employee is employed at the time of an initial public offering or change of control. There have not been any exercises of stock options by any employee to date, and all stock options of terminated employees with a call provision have been forfeited.

During the second quarter of 2009, the stock option agreements between the Company and certain of the Company's then named executive officers were amended to eliminate the call option, resulting in the recording of stock option compensation expense. Their amended stock option agreements also contain provisions that extend the stock option exercise period for each of these officers under certain circumstances. Further, the amendments add a provision that upon retirement, the number of options to be fully vested and exercisable shall be the greater of (i) the amount of options that are vested and exercisable as of the officer's separation date or (ii) 40% or 100% of the officer's options, depending on the officer.

In November 2009, the Company's chief executive officer ("CEO") received a stock option grant that contained a modified form of the call option. In accordance with accounting for stock-based compensation, this modified form of the call option does not preclude the Company from recording compensation expense during the service period for one quarter of her option shares. Compensation expense is not recorded for the remaining three quarters of her option shares since they are not considered vested from an accounting standpoint until the occurrence of a Qualifying Liquidity Event, as defined in the CEO's stock option agreement. On July 1, 2011, the CEO was granted an option to purchase 550,000 shares of common stock under the Equity Plan in accordance with the terms of her employment agreement. This option has an exercise price of $10.03 per share and is subject to the modified form of the management call option that applied to one quarter of her 2009 grant described above. These options will vest and compensation expense will be recorded equally over a five-year period on each anniversary of the grant date, contingent upon her continued employment with the Company.

In March 2010, the Company offered all then active employees the opportunity to exchange outstanding stock options with an exercise price of $10.00 per share for the same number of replacement stock options with an exercise price of $6.50 per share. Under the exchange program, the vested portion of the eligible stock options as of the grant date of the replacement stock options were exchanged for stock options that were fully vested. The unvested portion of the exchanged stock options were exchanged for unvested replacement stock options that vest and become exercisable over a period of time that is equal to the remaining vesting period of the exchanged stock options, plus one year, subject to the participant's continued employment through the new vesting date. For exchanged stock options that contained both performance-based and time-based vesting conditions, the replacement stock options contain only time-based vesting conditions and vest in accordance with the above terms. All eligible stock options were exchanged pursuant to the exchange program. The original stock options were cancelled, and the issuance of the replacement stock options occurred on April 6, 2010. As a result of the management call option, the stock options exchange did not have a material effect on the Company's consolidated financial statements.

The Company recorded compensation expense of $2.2 million, $1.1 million and $0.6 million and total recognized tax benefit of $0.8 million, $0.4 million and $0.2 million during the years ended December 31, 2011, 2010, and 2009 respectively, for vested stock options. The Company did not capitalize any stock-based compensation costs during any periods presented. As of December 31, 2011, there is $5.7 million of total unrecognized compensation expense related to non-vested stock options, which is expected to be recognized over a weighted-average period of approximately 3.7 years.

Restricted Stock

	Number of Restricted Share Awards (in thousands)	Weighted-Average Grant Date Fair Value Per Award
Restricted stock outstanding at December 31, 2010	481	$ 10.00
Vested	242	10.00
Restricted stock outstanding at December 31, 2011	239	$ 10.00

During the second quarter of 2009, the restricted stock agreements between the Company and certain of the Company's then named executive officers were amended. These amendments accelerated the vesting of these officers' shares of restricted stock such that they were fully vested on June 14, 2009. Of the total compensation expense recorded for the vesting of restricted stock during the year ended December 31, 2009, $10.3 million (2,036,925 shares) related to the accelerated vesting of the restricted stock held by these officers.

Compensation expense recognized in net income (loss) for the years ended December 31, 2011, 2010 and 2009 was $1.7 million, $2.0 million and $14.6 million, respectively, for restricted stock awards. The total tax benefit recognized related to the compensation expense recorded for restricted stock awards was $0.7 million, $0.8 million and $5.7 million for the years ended December 31, 2011, 2010 and 2009, respectively. As measured on the vesting date, the total fair value of restricted stock that vested during the years ended December 31, 2011, 2010 and 2009 was $2.3 million, $1.8 million and $8.9 million, respectively. Unrecognized pre-tax compensation expense related to non-vested restricted stock awards was approximately $0.8 million at December 31, 2011 and will be recognized over a weighted-average period of 0.5 years.

Shares of restricted stock issued to certain of the Company's current and former executive officers and other members of management vest each June 14 through 2012. In accordance with the terms of their applicable agreements, the Company loaned an aggregate of $0.9 million, $0.7 million and $3.3 million to these individuals in June and July of 2011 and 2010 and 2009, respectively, for their personal income tax obligations that resulted from vesting. As of December 31, 2011, a total of $7.2 million of loans and associated interest obligations to current and former executive officers and other members of management was outstanding and was recorded in the line item "Additional paid-in capital" in the Company's Consolidated Balance Sheet. The loans are full recourse and are collateralized by the vested shares of restricted stock. Although these loans are permitted in accordance with the terms of the agreements, the Company is not required to issue them in the future. During the first quarter of 2012, the Company's current executive officers repaid their entire loan balances.

4. Fair Value Measurements

Fair value is the price that would be received upon sale of an asset or paid upon transfer of a liability in an orderly transaction between market participants at the measurement date (exit price) and is a market-based measurement, not an entity-specific measurement. To measure fair value, the Company incorporates assumptions that market participants would use in pricing the asset or liability, and utilizes market data to the maximum extent possible. Measurement of fair value incorporates nonperformance risk (i.e., the risk that an obligation will not be fulfilled). In measuring fair value, the Company reflects the impact of its own credit risk on its liabilities, as well as any collateral. The Company also considers the credit standing of its counterparties in measuring the fair value of its assets.

BLOOMIN' BRANDS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

As a basis for considering market participant assumptions in fair value measurements, a three-tier fair value hierarchy prioritizes the inputs used in measuring fair value as follows:

- Level 1—Observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access;
- Level 2—Inputs, other than the quoted market prices included in Level 1, which are observable for the asset or liability, either directly or indirectly; and
- Level 3—Unobservable inputs for the asset or liability, which are typically based on an entity's own assumptions, as there is little, if any, related market data available.

In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the asset or liability.

Fair Value Measurements on a Recurring Basis

The Company invested $37.7 million and $51.4 million of its excess cash in money market funds classified as Cash and cash equivalents or restricted cash in its Consolidated Balance Sheet as of December 31, 2011 and 2010, at a net value of 1:1 for each dollar invested. The fair value of the investment in the money market funds is determined by using quoted prices for identical assets in an active market. As a result, the Company has determined that the inputs used to value this investment fall within Level 1 of the fair value hierarchy.

The Company is highly leveraged and exposed to interest rate risk to the extent of its variable-rate debt. The Company uses an interest rate cap with a notional amount of $775.7 million as a method to limit the volatility of PRP's variable-rate commercial mortgage-backed securities loan. As this interest rate cap did not have any fair market value at December 31, 2011 and 2010, it has been excluded from the applicable tables within this footnote.

The following tables present the Company's money market funds measured at fair value on a recurring basis as of December 31, 2011 and 2010, aggregated by the level in the fair value hierarchy within which those measurements fall (in thousands):

	Total December 31, 2011	Level 1	Level 2	Level 3

and other indefinite-lived intangible asset impairment charges, but it did incur impairment charges on long-lived assets held and used as a result of fair value measurements on a nonrecurring basis.

The following table presents losses related to the Company's assets and liabilities that were measured at fair value on a nonrecurring basis during the year ended December 31, 2011 aggregated by the level in the fair value hierarchy within which those measurements fall (in thousands):

	Year Ended December 31, 2011	Level 1	Level 2	Level 3	Total Losses
Long-lived assets held and used	$ 30,840	$29,455	$—	$1,385	$11,593

The Company recorded $11.6 million of impairment charges as a result of the fair value measurement on a nonrecurring basis of its long-lived assets held and used during the year ended December 31, 2011. The impaired long-lived assets had $30.8 million of remaining fair value at December 31, 2011. The Company used a discounted cash flow model (Level 3) and quoted prices from brokers (Level 1) to estimate the fair value of the long-lived assets included in the table above. Discount rate and growth rate assumptions are derived from current economic conditions, expectations of management and projected trends of current operating results.

During the year ended December 31, 2010, the Company did not incur any goodwill and other indefinite-lived intangible asset impairment charges or any other material impairment charges as a result of fair value measurements on a nonrecurring basis.

During the year ended December 31, 2009, the Company incurred goodwill and other indefinite-lived intangible asset impairment charges as well as other impairment charges as a result of fair value measurements on a nonrecurring basis. The following table presents losses related to the Company's assets and liabilities that were measured at fair value on a nonrecurring basis during the year ended December 31, 2009 aggregated by the level in the fair value hierarchy within which those measurements fall (in thousands):

	Year Ended December 31, 2009	Level 1	Level 2	Level 3	Total Losses

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

The Company recorded $91.4 million of impairment charges as a result of the fair value measurement on a nonrecurring basis of its long-lived assets held and used during the year ended December 31, 2009. The impaired long-lived assets had $9.3 million of remaining fair value at December 31, 2009.

The Company performed a separate valuation for five of its closed restaurant sites that collateralize PRP's commercial mortgage-backed securities loan using quoted prices from brokers for similar properties. The restaurant sites were written down to fair value resulting in impairment charges of $7.3 million (included in the total above) during the year ended December 31, 2009. The Company determined that the majority of these inputs are observable inputs that fall within Level 2 of the fair value hierarchy.

Due to the third quarter of 2009 sale of its Cheeseburger in Paradise concept, the Company recorded a $46.0 million impairment charge (included in the total above) during the second quarter of 2009 to reduce the carrying value of this concept's long-lived assets to their estimated fair market value. The Company used a weighted-average probability analysis and estimates of expected future cash flows to determine the fair value of this concept. The Company has determined that the majority of the inputs used to value this concept are unobservable inputs that fall within Level 3 of the fair value hierarchy.

The Company used a discounted cash flow model to estimate the fair value of the remaining long-lived assets held and used in the table above. Discount rate and growth rate assumptions are derived from current economic conditions, expectations of management and projected trends of current operating results. The Company has determined that the majority of these inputs are unobservable inputs that fall within Level 3 of the fair value hierarchy. The long-lived assets were written down to fair value, resulting in impairment charges of $38.1 million (included in the total above) during the year ended December 31, 2009.

The Company recorded goodwill impairment charges of $58.1 million and indefinite-lived intangible asset impairment charges of $36.0 million during the year ended December 31, 2009 as a result of its annual impairment test. The Company tests both its goodwill and its indefinite-lived intangible assets, which are trade names, for impairment by utilizing discounted cash flow models to estimate their fair values. These cash flow models involve several assumptions. Changes in the Company's assumptions could materially impact its fair value estimates. Assumptions critical to its fair value estimates are: (i) weighted-average cost of capital rates used to derive the present value factors used in determining the fair value of the reporting units and trade names; (ii) projected annual revenue growth rates used in the reporting unit and trade name models; and (iii) projected long-term growth rates used in the derivation of terminal year values. Other assumptions include estimates of projected capital expenditures and working capital requirements. These and other assumptions are impacted by economic conditions and expectations of management and will change in the future based on period-specific facts and circumstances. As a result, the Company has determined that the majority of the inputs used to value its goodwill and indefinite-lived intangible assets are unobservable inputs that fall within Level 3 of the fair value hierarchy.

The following table presents the range of assumptions the Company used to derive its fair value estimates among its reporting units, which vary between goodwill and trade names, during the annual impairment test conducted in the second quarter of 2009:

	Assumptions	
	Goodwill	Trade Names
Weighted-average cost of capital	12.5% - 15.0%	13.0% - 14.0%
Long-term growth rates	3%	3%
Annual revenue growth rates	(6.9)% - 12.0%	(3.9)% - 5.0%

5. Derivative Instruments and Hedging Activities

The Company is exposed to market risk from changes in interest rates on debt, changes in commodity prices and changes in foreign currency exchange rates.

Interest rate changes associated with the Company's variable-rate debt generally impact its earnings and cash flows, assuming other factors are held constant. The Company's exposure to interest rate fluctuations includes OSI's borrowings under its senior secured credit facilities and PRP's commercial mortgage-backed securities loan that bear interest at floating rates based on the Eurocurrency Rate or the Base Rate and the one-month London Interbank Offered Rate ("LIBOR"), respectively, plus an applicable borrowing margin (see Note 11). The Company manages its interest rate risk by offsetting some of its variable-rate debt with fixed-rate debt, through normal operating and financing activities and, when deemed appropriate, through the use of derivative financial instruments.

The Company uses an interest rate cap as a method to limit the volatility of PRP's variable-rate commercial mortgage-backed securities loan. Under the $775.7 million notional interest rate cap that terminates on June 15, 2012, interest rate payments have a ceiling of 6.31%. If the market rate exceeds the ceiling, the counterparty must pay the Company an amount sufficient to reduce the interest payment to 6.31%. The interest rate cap did not have any fair market value at December 31, 2011 and 2010. In connection with the refinancing of PRP's commercial mortgage-backed securities loan, the Company entered into a replacement interest rate cap effective March 27, 2012 with a notional amount of $48.7 million, a cap rate of 7.00% and a termination date of April 13, 2014. If necessary, the Company would record mark-to-market changes in the fair value of this derivative instrument in earnings in the period of change. The effects of this interest rate cap were immaterial to the Company's consolidated financial statements for all periods presented and have been excluded from any tables within this footnote.

From September 2007 to September 2010, the Company used an interest rate collar as part of its interest rate risk management strategy to manage its exposure to interest rate movements related to OSI's senior secured credit facilities. Given the interest rate environment, the Company did not enter into another derivative financial instrument upon the maturity of this interest rate collar on September 30, 2010. The Company does not enter into financial instruments for trading or speculative purposes.

Many of the ingredients used in the products sold in the Company's restaurants are commodities that are subject to unpredictable price volatility. Although the Company attempts to minimize the effect of price volatility by negotiating fixed price contracts for the supply of key ingredients, there are no established fixed price markets for certain commodities such as produce and wild fish, and the Company is subject to prevailing market conditions when purchasing those types of commodities. Other commodities are purchased based upon negotiated price ranges established with vendors with reference to the fluctuating market prices. The Company attempts to offset the impact of fluctuating commodity prices with other strategic purchasing initiatives. The Company does not use derivative financial instruments to manage its commodity price risk, except for natural gas as described below.

The Company's restaurants are dependent upon energy to operate and are impacted by changes in energy prices, including natural gas. The Company utilizes derivative instruments to mitigate some of its overall exposure to material increases in natural gas prices. The Company records mark-to-market changes in the fair value of these derivative instruments in earnings in the period of change. The effects of these natural gas swaps were immaterial to the Company's consolidated financial statements for all periods presented and have been excluded from any tables within this footnote.

BLOOMIN' BRANDS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

The Company's exposure to foreign currency exchange fluctuations relates primarily to its direct investment in restaurants in South Korea, Hong Kong and Brazil and to its royalties from international franchisees. The Company has not used financial instruments to hedge foreign currency exchange rate changes.

In addition to the market risks identified above, the Company is subject to business risk as its beef supply is highly dependent upon a limited number of vendors. In 2011, the Company purchased more than 90% of its domestic beef raw materials from four beef suppliers who represent approximately 75% of the total beef marketplace in the United States.

Non-designated Hedges of Interest Rate Risk

In September 2007, the Company entered into an interest rate collar with a notional amount of $1.0 billion as a method to limit the variability of OSI's senior secured credit facilities. The collar consisted of a LIBOR cap of 5.75% and a LIBOR floor of 2.99%. The collar's first variable-rate set date was December 31, 2007, and the option pairs expired at the end of each calendar quarter beginning March 31, 2008 and ending September 30, 2010, which was the maturity date of the collar. The quarterly expiration dates corresponded to the scheduled amortization payments of OSI's term loan.

The Company's interest rate collar was a non-designated hedge of the Company's exposure to interest rate risk. The Company recorded mark-to-market changes in the fair value of the derivative instrument in earnings in the period of change.

The following table presents the location and effect of the Company's interest rate collar on its Consolidated Statement of Operations for the years ended December 31, 2011, 2010, and 2009 (in thousands):

As of December 31, 2011, the Company had certain land and buildings, with carrying amounts of $14.1 million and $20.3 million, respectively, that have been leased to third parties under operating leases. Accumulated depreciation related to these leased assets of $3.4 million is included in Property, fixtures and equipment at December 31, 2011.

The Company expensed repair and maintenance costs of approximately $97.3 million, $94.3 million and $93.8 million for the years ended December 31, 2011, 2010 and 2009, respectively. Depreciation expense for the years ended December 31, 2011, 2010 and 2009 was $147.4 million, $150.4 million and $180.2 million, respectively.

During the years ended December 31, 2011 and 2010 and 2009, the Company recorded property, fixtures and equipment impairment charges of $11.5 million, $2.0 million and $82.9 million, respectively, for certain of the Company's restaurants in the line item "Provision for impaired assets and restaurant closings" in its Consolidated Statements of Operations (see Note 4).

Due to the third quarter of 2009 sale of the Company's Cheeseburger in Paradise concept, the Company recorded a $46.0 million impairment charge ($39.2 million of which is included in the 2009 total above) during the second quarter of 2009 to reduce the carrying value of this concept's long-lived assets to their estimated fair market value. This impairment included $39.2 million of charges to property, fixtures and equipment, $5.9 million of charges to intangible assets and $0.9 million of charges to other assets.

The fixed asset impairment charges described above primarily occurred as a result of the carrying value of a restaurant's assets exceeding its estimated fair market value, primarily due to anticipated closures or declining future cash flows from lower projected future sales at existing locations.

The Company performs its annual assessment for impairment of goodwill and other indefinite-lived intangible assets each year during the second quarter. The Company's review of the recoverability of goodwill is based primarily upon an analysis of the discounted cash flows of the related reporting units as compared to their carrying values (see Note 4). The Company also uses the discounted cash flow method to determine the fair value of its intangible assets.

The Company did not record any goodwill or indefinite-lived intangible asset impairment charges or any material definite-lived intangible asset impairment charges during 2011 and 2010. In October 2011, the Company sold its nine Company-owned Outback Steakhouse restaurants in Japan to a subsidiary of S Foods, Inc., one of the Company's beef supplier's in Japan, for $9.4 million. The buyer will have the right for future development of Outback Steakhouse franchise restaurants in Japan and will pay the Company a royalty in the range of 2.75% to 4.0% based on sales volumes. The Company used the net cash proceeds from this sale to pay down $7.5 million of OSI's outstanding term loans in accordance with the terms of the credit agreement amended in January 2010. The Company recorded a $1.1 million adjustment to reduce goodwill related to the disposal of these assets and recorded a loss of $4.3 million from this sale in General and administrative expenses in its Consolidated Statement of Operations for the year ended December 31, 2011.

Due to poor overall economic conditions, declining sales at Company-owned restaurants, reductions in the Company's projected results for future periods and a challenging environment for the restaurant industry, the Company recorded a goodwill impairment loss of $58.1 million for the domestic Outback Steakhouse concept and impairment charges of $36.0 million for the domestic Outback Steakhouse and Carrabba's Italian Grill trade names during the year ended December 31, 2009. The Company also recorded impairment charges of $7.7 million for other intangible assets for the year ended December 31, 2009.

BLOOMIN' BRANDS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

The accumulated purchase accounting adjustments to goodwill of $3.6 million were the result of adjustments to appraised fair values of acquired tangible assets.

Goodwill impairment charges are included in the line item "Goodwill impairment" and intangible asset impairment charges are included in the line item "Provision for impaired assets and restaurant closings" in the Company's Consolidated Statements of Operations.

Definite-lived intangible assets are amortized on a straight-line basis. The aggregate expense related to the amortization of the Company's trademarks, favorable leases, franchise agreements and other intangibles was $13.9 million, $14.0 million and $14.6 million for the years ended December 31, 2011, 2010 and 2009, respectively. Annual expense related to the amortization of intangible assets is anticipated to be approximately $14.4 million in 2012, $13.8 million in 2013, $13.2 million in 2014, $12.7 million in 2015 and $11.8 million in 2016.

In accordance with the terms of an asset purchase agreement that was amended in December 2004, the Company was obligated to pay a royalty to its Bonefish Grill founder and joint venture partner during his employment term with the Company. The Company had the option to terminate this royalty within 45 days of his termination of employment by making an aggregate payment equal to five times the amount of the royalty payable during the twelve full calendar months immediately preceding the month of his termination. As his employment terminated on October 1, 2011, the Company paid the approximately $8.5 million royalty termination fee in October 2011 and recorded this payment as an intangible asset in its Consolidated Balance Sheet in the fourth quarter of 2011. The intangible asset will be amortized over a five-year useful life.

Bloomin' Brands, Inc. is a holding company and conducts its operations through its subsidiaries, certain of which have incurred their own indebtedness as described below.

On June 14, 2007, in connection with the Merger, OSI entered into senior secured credit facilities with a syndicate of institutional lenders and financial institutions. These senior secured credit facilities provide for senior secured financing of up to $1.6 billion, consisting of a $1.3 billion term loan facility, a $150.0 million working capital revolving credit facility, including letter of credit and swing-line loan sub-facilities, and a $100.0 million pre-funded revolving credit facility that provides financing for capital expenditures only.

The senior secured term loan facility matures June 14, 2014. At each rate adjustment, OSI has the option to select a Base Rate plus 125 basis points or a Eurocurrency Rate plus 225 basis points for the borrowings under

BLOOMIN' BRANDS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

this facility. The Base Rate option is the higher of the prime rate of Deutsche Bank AG New York Branch and the federal funds effective rate plus 0.5 of 1% ("Base Rate") (3.25% at December 31, 2011 and 2010). The Eurocurrency Rate option is the 30, 60, 90 or 180-day Eurocurrency Rate ("Eurocurrency Rate") (ranging from 0.38% to 0.88% and from 0.31% to 0.50% at December 31, 2011 and 2010, respectively). The Eurocurrency Rate may have a nine- or twelve-month interest period if agreed upon by the applicable lenders. With either the Base Rate or the Eurocurrency Rate, the interest rate is reduced by 25 basis points if the associated Moody's Applicable Corporate Rating then most recently published is B1 or higher (the rating was Caa1 at December 31, 2011 and 2010).

OSI is required to prepay outstanding term loans, subject to certain exceptions, with:

- 50% of its "annual excess cash flow" (with step-downs to 25% and 0% based upon its rent-adjusted leverage ratio), as defined in the credit agreement and subject to certain exceptions;
- 100% of its "annual minimum free cash flow," as defined in the credit agreement, not to exceed $75.0 million for each fiscal year, if its rent-adjusted leverage ratio exceeds a certain minimum threshold;
- 100% of the net proceeds of certain assets sales and insurance and condemnation events, subject to reinvestment rights and certain other exceptions; and
- 100% of the net proceeds of any debt incurred, excluding permitted debt issuances.

Additionally, OSI is required, on an annual basis, to first, repay outstanding loans under the pre-funded revolving credit facility and second, fund a capital expenditure account to the extent amounts on deposit are less than $100.0 million, in both cases with 100% of OSI's "annual true cash flow," as defined in the credit agreement. In accordance with these requirements, in April 2012, OSI is required to repay its pre-funded revolving credit facility outstanding loan balance of $33.0 million and fund $37.6 million to its capital expenditure account using its "annual true cash flow." In April 2011, OSI repaid its pre-funded revolving credit facility outstanding loan balance of $78.1 million and funded $60.5 million to its capital expenditure account.

OSI's senior secured credit facilities require scheduled quarterly payments on the term loans equal to 0.25% of the original principal amount of the term loans for the first six years and three quarters following June 14, 2007. These payments are reduced by the application of any prepayments, and any remaining balance will be paid at maturity. The outstanding balance on the term loans was $1.0 billion at December 31, 2011 and 2010. OSI has classified $13.1 million of its term loans as current at December 31, 2011 and 2010 due to its required quarterly payments and the results of its covenant calculations, which indicate the additional term loan prepayments, as described above, will not be required. In October 2011, the Company sold its nine Company-owned Outback Steakhouse restaurants in Japan to a subsidiary of S Foods, Inc. and used the net cash proceeds from this sale to pay down $7.5 million of OSI's outstanding term loans in accordance with the terms of the OSI credit agreement amended in January 2010 (see Note 8).

Proceeds of loans and letters of credit under OSI's $150.0 million working capital revolving credit facility, which matures June 14, 2013, provide financing for working capital and general corporate purposes and, subject to a rent-adjusted leverage condition, for capital expenditures for new restaurant growth. This revolving credit facility bears interest at rates ranging from 100 to 150 basis points over the Base Rate or 200 to 250 basis points over the Eurocurrency Rate. There were no loans outstanding under the revolving credit facility at December 31, 2011 and 2010; however, $67.6 million and $70.3 million, respectively, of the credit facility was

not available for borrowing as: (i) $35.1 million and $36.5 million, respectively, of the credit facility was committed for the issuance of letters of credit as required by insurance companies that underwrite the Company's workers' compensation insurance and also, where required, for construction of new restaurants, (ii) $24.5 million of the credit facility was committed for the issuance of a letter of credit for OSI's guarantee of an uncollateralized line of credit for its joint venture partner, RY-8, Inc. ("RY-8"), in the development of Roy's restaurants, (iii) $6.0 million of the credit facility was committed for the issuance of a letter of credit to the insurance company that underwrites the Company's bonds for liquor licenses, utilities, liens and construction and (iv) $2.0 million and $3.2 million, respectively, of the credit facility was committed for the issuance of other letters of credit. OSI's total outstanding letters of credit issued under its working capital revolving credit facility may not exceed $75.0 million. Fees for the letters of credit range from 2.00% to 2.25% and the commitment fees for unused working capital revolving credit commitments range from 0.38% to 0.50%.

Proceeds of loans under OSI's $100.0 million pre-funded revolving credit facility, which expires June 14, 2013, are available to provide financing for capital expenditures, if the capital expenditure account described above has a zero balance. As of December 31, 2011 and 2010, OSI had $33.0 million and $78.1 million, respectively, outstanding on its pre-funded revolving credit facility. These borrowings were recorded in "Current portion of long-term debt" in the Company's Consolidated Balance Sheets, as OSI is required to repay any outstanding borrowings in April following each fiscal year using its "annual true cash flow," as defined in the credit agreement. At each rate adjustment, OSI has the option to select the Base Rate plus 125 basis points or a Eurocurrency Rate plus 225 basis points for the borrowings under this facility. In either case, the interest rate is reduced by 25 basis points if the associated Moody's Applicable Corporate Rating then most recently published is B1 or higher. Fees for the unused portion of the pre-funded revolving credit facility are 2.43%.

OSI's senior secured credit facilities require it to comply with certain financial covenants, including a quarterly Total Leverage Ratio ("TLR") test and an annual Minimum Free Cash Flow ("MFCF") test. The TLR is the ratio of OSI's Consolidated Total Debt to OSI's Consolidated EBITDA (earnings before interest, taxes, depreciation and amortization and certain other adjustments as defined in the senior secured credit facilities) and may not exceed 6.00 to 1.00. On an annual basis, if the Rent Adjusted Leverage Ratio ("RALR"), as defined, is greater than or equal to 5.25 to 1.00, OSI's MFCF cannot be less than $75.0 million. MFCF is calculated as OSI's Consolidated EBITDA plus decreases in OSI's Consolidated Working Capital less OSI's Consolidated Interest Expense, OSI's Capital Expenditures (except for that funded by OSI's senior secured pre-funded revolving credit facility), increases in OSI's Consolidated Working Capital and OSI's cash paid for taxes. (All of the above capitalized terms are as defined in the credit agreement). The credit agreement governing OSI's senior secured credit facilities, as amended on January 28, 2010, also includes negative covenants that, subject to significant exceptions, limit its ability and the ability of its restricted subsidiaries to: incur liens, make investments and loans, make capital expenditures (as described below), incur indebtedness or guarantees, engage in mergers, acquisitions and assets sales, declare dividends, make payments or redeem or repurchase equity interests, alter its business, engage in certain transactions with affiliates, enter into agreements limiting subsidiary distributions and prepay, redeem or purchase certain indebtedness. OSI's senior secured credit facilities contain customary representations and warranties, affirmative covenants and events of default. At December 31, 2011 and 2010, OSI was in compliance with its debt covenants.

OSI's capital expenditures are limited by the credit agreement. The annual capital expenditure limits range from $200.0 million to $250.0 million with various carry-forward and carry-back allowances. OSI's annual expenditure limits may increase after an acquisition. However, if (i) the RALR at the end of a fiscal year is greater than 5.25 to 1.00, (ii) OSI's "annual true cash flow" is insufficient to repay fully its pre-funded revolving credit facility and (iii) the capital expenditure account has a zero balance, its capital expenditures will be limited to $100.0 million for the succeeding fiscal year. This limitation will remain until there are no pre-funded

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

revolving credit facility loans outstanding and the amount on deposit in the capital expenditures account is greater than zero or until the RALR is less than 5.25 to 1.00. In 2010, OSI's capital expenditures were limited to $100.0 million as a result of the conditions described above. In 2011, OSI was not subject to this limitation and will not be subject to it in 2012.

The obligations under OSI's senior secured credit facilities are guaranteed by each of its current and future domestic 100% owned restricted subsidiaries in its Outback Steakhouse and Carrabba's Italian Grill concepts and certain non-restaurant subsidiaries (the "Guarantors") and by OSI HoldCo, Inc. ("OSI HoldCo"), the Company's indirect, wholly-owned subsidiary and OSI's direct owner. Subject to the conditions described below, the obligations are secured by a perfected security interest in substantially all of OSI's assets and the assets of the Guarantors and OSI HoldCo, in each case, now owned or later acquired, including a pledge of all of OSI's capital stock, the capital stock of substantially all of OSI's domestic wholly-owned subsidiaries and 65% of the capital stock of certain of OSI's material foreign subsidiaries that are directly owned by OSI, OSI HoldCo, or a Guarantor. Also, OSI is required to provide additional guarantees of the senior secured credit facilities in the future from other domestic wholly-owned restricted subsidiaries if the Consolidated EBITDA attributable to OSI's non-guarantor domestic wholly-owned restricted subsidiaries as a group exceeds 10% of OSI's Consolidated EBITDA as determined on an OSI company-wide basis. If this occurs, guarantees would be required from additional domestic wholly-owned restricted subsidiaries in such number that would be sufficient to lower the aggregate Consolidated EBITDA of the non-guarantor domestic wholly-owned restricted subsidiaries as a group to an amount not in excess of 10% of the OSI company-wide Consolidated EBITDA.

On June 14, 2007, PRP entered into first mortgage and mezzanine loans (together, the commercial mortgage-backed securities loan, or the "CMBS Loan") totaling $790.0 million. As part of the CMBS Loan, the lenders, German American Capital Corporation and Bank of America, N.A., have a security interest in PRP's properties and related improvements located throughout the United States and direct and indirect equity interests in PRP.

The CMBS Loan comprised a note payable and four mezzanine notes. The CMBS Loan had a maturity date of June 9, 2011, subject to one additional one-year extension by PRP to a maximum maturity date of June 9, 2012. During 2011, PRP elected to exercise the one-year extension.

All notes bore interest at the one-month LIBOR which was 0.28% and 0.27% at December 31, 2011 and 2010, respectively, plus an applicable spread which ranged from 0.51% to 4.25%. Interest-only payments were made on the ninth calendar day of each month and interest accrues beginning on the fifteenth calendar day of the preceding month.

The CMBS Loan required PRP to comply with certain financial covenants, including a lease coverage ratio and a loan to value ratio as defined in the CMBS Loan agreement. The CMBS Loan also contained customary representations, warranties, affirmative covenants and events of default. Upon disposal of any location that collateralized the CMBS Loan, PRP was required to pay the portion of the CMBS Loan principal that related to each disposed location. During the years ended December 31, 2011 and 2010, PRP did not dispose of any locations and therefore did not pay any principal on the CMBS loan for disposed location.

Subsequent to December 31, 2011, PRP repaid its CMBS Loan and New Private Restaurant Properties, LLC ("New PRP"), the Company's wholly-owned, indirect subsidiary, entered into a new commercial mortgage-backed securities loan (the "2012 CMBS Loan"). As a result of the 2012 CMBS Loan refinancing, the net amount repaid along with scheduled maturities within one year, $281.3 million, was classified as current at December 31, 2011 (see Note 20).

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

On June 14, 2007, OSI issued senior notes in an original aggregate principal amount of $550.0 million under an indenture among OSI, as issuer, OSI Co-Issuer, Inc., as co-issuer ("Co-Issuer"), a third-party trustee and the Guarantors. The senior notes mature on June 15, 2015. Interest is payable semiannually in arrears, at 10% per annum, in cash on each June 15 and December 15. Interest payments to the holders of record of the senior notes occur on the immediately preceding June 1 and December 1. Interest is computed on the basis of a 360-day year consisting of twelve 30-day months. The principal balance of senior notes outstanding at December 31, 2011 and 2010 was $248.1 million.

The senior notes are guaranteed on a senior unsecured basis by each restricted subsidiary that guarantees the senior secured credit facility. Under the terms of the indenture, the restricted subsidiaries shall be automatically and unconditionally released and discharged as guarantors of the senior notes if: (i) the subsidiary is sold or sells all of its fixed assets; (ii) the subsidiary is declared "unrestricted" for covenant purposes; (iii) the subsidiary's guarantee of other indebtedness is terminated or released; or (iv) the requirement for legal defeasance or covenant defeasance or to discharge the indenture have been satisfied.

The senior notes are general, unsecured senior obligations of OSI, Co-Issuer and the Guarantors and are equal in right of payment to all existing and future senior indebtedness, including the senior secured credit facility. The senior notes are effectively subordinated to all of OSI's, Co-Issuer's and the Guarantors' secured indebtedness, including the senior secured credit facility, to the extent of the value of the assets securing such indebtedness. The senior notes are senior in right of payment to all of OSI's, Co-Issuer's and the Guarantors' existing and future subordinated indebtedness.

The indenture governing the senior notes limits, under certain circumstances, OSI's ability and the ability of Co-Issuer and OSI's restricted subsidiaries to: incur liens, make investments and loans, incur indebtedness or guarantees, engage in mergers, acquisitions and assets sales, declare dividends, make payments or redeem or repurchase equity interests, alter its business, engage in certain transactions with affiliates, enter into agreements limiting subsidiary distributions and prepay, redeem or purchase certain indebtedness.

In accordance with the terms of the senior notes and the senior secured credit facility, OSI's restricted subsidiaries are also subject to restrictive covenants. Under certain circumstances, OSI is permitted to designate subsidiaries as unrestricted subsidiaries, which would cause them not to be subject to the restrictive covenants of the indenture or the credit agreement. As of December 31, 2011 and 2010, all but one of OSI's consolidated subsidiaries were restricted subsidiaries, as a subsidiary that operated six restaurants in Canada was designated as an unrestricted subsidiary in April 2009.

Additional senior notes may be issued under the indenture from time to time, subject to certain limitations. Initial and additional senior notes issued under the indenture will be treated as a single class for all purposes under the indenture, including waivers, amendments, redemptions and offers to purchase.

OSI may redeem some or all of the senior notes at the redemption prices (expressed as percentages of principal amount of the senior notes to be redeemed) listed below, plus accrued and unpaid interest thereon and additional interest, if any, to the applicable redemption date. The redemption prices are effective for a twelve-month period beginning on June 15 of each of the years indicated below.

2012	102.5%

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

Upon a change in control as defined in the indenture, OSI would be required to make an offer to purchase all of the senior notes at a price in cash equal to 101% of the aggregate principal amount thereof plus accrued interest and unpaid interest and additional interest, if any, to the date of purchase.

During the first quarter of 2009, OSI purchased $240.1 million in aggregate principal amount of its senior notes in a cash tender offer. OSI paid $73.0 million for the senior notes purchased and $6.7 million of accrued interest. The Company recorded a gain from the extinguishment of debt of $158.1 million in the line item "Gain on extinguishment of debt" in its Consolidated Statement of Operations for the year ended December 31, 2009. The gain was reduced by $6.1 million for the pro rata portion of unamortized deferred financing fees that related to the extinguished senior notes and by $3.0 million for fees related to the tender offer. The purpose of the tender offer was to reduce the principal amount of debt outstanding, reduce the related debt service obligations and improve OSI's financial covenant position under its senior secured credit facilities.

As of December 31, 2011 and 2010, OSI had approximately $9.1 million and $7.6 million, respectively, of notes payable at interest rates ranging from 0.76% to 7.00% and from 1.07% to 7.00%, respectively. These notes have been primarily issued for buyouts of managing and area operating partner interests in the cash flows of their restaurants and generally are payable over a period of two through five years.

Debt Guarantees

OSI is the guarantor of an uncollateralized line of credit that permits borrowing of up to a maximum of $24.5 million for its joint venture partner, RY-8, in the development of Roy's restaurants. The line of credit originally expired in December 2004 and was amended for a fourth time on April 1, 2009 to a revised termination date of April 15, 2013. According to the terms of the credit agreement, RY-8 may borrow, repay, re-borrow or prepay advances at any time before the termination date of the agreement. On the termination date of the agreement, the entire outstanding principal amount of the loan then outstanding and any accrued interest is due. At December 31, 2011 and 2010, the outstanding balance on the line of credit was $24.5 million.

RY-8's obligations under the line of credit are unconditionally guaranteed by OSI and Roy's Holdings, Inc. ("RHI"). If an event of default occurs, as defined in the agreement, the total outstanding balance, including any accrued interest, is immediately due from the guarantors. At December 31, 2011 and 2010, $24.5 million of OSI's $150.0 million working capital revolving credit facility was committed for the issuance of a letter of credit for this guarantee.

If an event of default occurs and RY-8 is unable to pay the outstanding balance owed, OSI would, as one of the two guarantors, be liable for this balance. However, in conjunction with the credit agreement, RY-8 and RHI have entered into an Indemnity Agreement and a Pledge of Interest and Security Agreement in OSI's favor. These agreements provide that if OSI is required to perform under its obligation as guarantor pursuant to the credit agreement, then RY-8 and RHI will indemnify OSI against all losses, claims, damages or liabilities which arise out of or are based upon its guarantee of the credit agreement. RY-8's and RHI's obligations under these agreements are collateralized by a first priority lien upon and a continuing security interest in any and all of RY-8's interests in the joint venture.

	Years Ended December 31,		
	2011	2010	2009
Income taxes at federal statutory rate	35.0%	35.0%	35.0%
State and local income taxes, net of federal benefit	4.1	4.8	(3.8)

Foreign rate differential	(2.4)	(2.1)	1.9
Other, net	(0.9)	0.6	0.5

The effective income tax rate for the year ended December 31, 2011 was 16.6% compared to 26.5% for the year ended December 31, 2010. The net decrease in the effective income tax rate in 2011 as compared to the previous year was primarily due to the increase in the domestic pretax book income in which the deferred income tax assets are subject to a valuation allowance and the state and foreign income tax provision being a lower percentage of consolidated pretax income as compared to the prior year. The effective income tax rate for the year ended December 31, 2010 was 26.5% compared to 3.7% for the year ended December 31, 2009. The net increase in the effective income tax rate in 2010 as compared to the previous year was primarily due to the effect of the change in the valuation allowance against deferred income tax assets.

The effective income tax rate for the year ended December 31, 2011 was lower than the combined federal and state statutory rate of 38.7% primarily due to the benefit of the tax credit for excess FICA tax on employee-reported tips and loss on investments as a result of the sale of assets in Japan together being such a large percentage of pretax income. The effective income tax rate for the year ended December 31, 2010 was lower than the combined federal and state statutory rate of 38.9% primarily due to the benefit of the tax credit for excess FICA tax on employee-reported tips, which was partially offset by the valuation allowance and income taxes in states that only have limited deductions in computing the state current income tax provision. The effective income tax rate for the year ended December 31, 2009 was significantly lower than the combined federal and state statutory rate of 38.9% primarily due to an increase in the valuation allowance on deferred income tax assets, which was partially offset by the benefit of the tax credit for excess FICA tax on employee-reported tips being such a large percentage of pretax loss.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

A valuation allowance reduces the deferred income tax assets reported if, based on the weight of the evidence, it is more likely than not that some portion or all of the deferred income tax assets will not be realized. After consideration of all of the evidence, the Company has determined that a valuation allowance of $35.8 million and $25.9 million is necessary at December 31, 2011 and 2010, respectively.

A provision (benefit) for income taxes has not been recorded for any United States or additional foreign taxes on undistributed earnings related to the Company's foreign affiliates as these earnings were and are expected to continue to be permanently reinvested. If the Company identifies an exception to its general reinvestment policy of undistributed earnings, additional taxes will be posted. It is not practical to determine the amount of unrecognized deferred income tax liabilities on the undistributed earnings.

The Company has a federal net operating loss carryforward for tax purposes of approximately $49.4 million. This loss can be carried forward for 20 years from the tax year in which it is was generated and will expire in the years 2027 and 2029. The Company has state net operating loss carryforwards of approximately $46.2 million. These state net operating loss carryforwards will expire between 2012 and 2029. The Company has foreign net operating loss carryforwards of approximately $5.5 million. These foreign net operating loss carryforwards will expire between 2015 and 2018.

The Company has general business tax credits of approximately $138.8 million. These credits can be carried forward for 20 years and will expire between 2027 and 2031. The Company has foreign tax credits available to utilize against federal income taxes of approximately $15.6 million. These credits can be carried forward for ten years and will expire between 2017 and 2021.

As of December 31, 2011 and December 31, 2010, the Company had $14.0 million and $16.4 million, respectively, of unrecognized tax benefits ($1.5 million and $1.3 million, respectively, in "Other long-term liabilities, net," $2.5 million and $6.3 million, respectively, in "Accrued and other current liabilities" and $10.0 million and $8.8 million, respectively, in "Deferred income tax liabilities"). Additionally, the Company accrued $4.1 million and $6.1 million of interest and penalties related to uncertain tax positions as of December 31, 2011 and December 31, 2010, respectively. Of the total amount of unrecognized tax benefits, including accrued interest and penalties, $15.2 million and $18.0 million, respectively, if recognized, would impact the Company's effective tax rate. The difference between the total amount of unrecognized tax benefits and the amount that would impact the effective tax rate consists of items that are offset by deferred income tax assets and the federal tax benefit of state income tax items.

In many cases, the Company's uncertain tax positions are related to tax years that remain subject to examination by relevant taxable authorities. Based on the outcome of these examinations, or as a result of the expiration of the statute of limitations for specific jurisdictions, it is reasonably possible that the related recorded unrecognized tax benefits for tax positions taken on previously filed tax returns will decrease by approximately $5.0 million to $6.0 million within the next twelve months after December 31, 2011.

The Company is currently open to audit under the statute of limitations by the Internal Revenue Service for the years ended December 31, 2007 through 2010. The Company and its subsidiaries' state and foreign income tax returns are also open to audit under the statute of limitations for the years ended December 31, 2000 through 2010.

The Company accounts for interest and penalties related to uncertain tax positions as part of its Provision for income taxes and recognized expense of $0.9 million, $2.1 million and $1.3 million for the years ended December 31, 2011, 2010 and 2009, respectively.

15. Recently Issued Financial Accounting Standards

In May 2011, the Financial Accounting Standards Board (the "FASB") issued Accounting Standards Update ("ASU") No. 2011-04, "Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs," ("ASU No. 2011-04") that establishes a number of new requirements for fair value measurements. These include: (i) a prohibition on grouping financial instruments for purposes of determining fair value, except when an entity manages market and credit risks on the basis of the entity's net exposure to the group; (ii) an extension of the prohibition against the use of a blockage factor to all fair value measurements (that prohibition currently applies only to financial instruments with quoted prices in active markets); and (iii) a requirement that for recurring Level 3 fair value measurements, entities disclose quantitative information about unobservable inputs, a description of the valuation process used and qualitative details about the sensitivity of the measurements. Additionally, for items not carried at fair value but for which fair value is disclosed, entities will be required to disclose the level within the fair value hierarchy that applies to the fair value measurement disclosed. ASU No. 2011-04 is effective for interim and annual periods beginning after December 15, 2011. While the provisions of ASU No. 2011-04 will increase the Company's fair value disclosures, this guidance will not have an impact on the Company's financial position, results of operations or cash flows.

In June 2011, the FASB issued ASU No. 2011-05, "Comprehensive Income (Topic 220): Presentation of Comprehensive Income," ("ASU No. 2011-05") that eliminates the option to report other comprehensive income and its components in the statement of changes in equity. Instead, the new guidance requires the Company to present the components of net income and other comprehensive income in one continuous statement, referred to as the statement of comprehensive income, or in two separate, but consecutive statements. While the new guidance changes the presentation of comprehensive income, there are no changes to the components that are recognized in net income or other comprehensive income under current accounting guidance. ASU No. 2011-05 must be applied retrospectively and is effective for public companies during the interim and annual periods beginning after December 15, 2011, with early adoption permitted. Additionally, in December 2011, the FASB issued ASU No. 2011-12, "Comprehensive Income (Topic 220): Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in Accounting Standards Update No. 2011-05" ("ASU No. 2011-12"), which indefinitely defers the requirement in ASU No. 2011-05 to present reclassification adjustments out of accumulated other comprehensive income by component in both the statement in which net income is presented and the statement in which other comprehensive income is presented. The deferral of the presentation requirements does not impact the effective date of the other requirements in ASU 2011-05. During the deferral period, the existing requirements in generally accepted accounting principles in the United States ("U.S. GAAP") for the presentation of reclassification adjustments must continue to be followed. ASU No. 2011-12 is effective for public companies during the interim and annual periods beginning after December 15, 2011. ASU No. 2011-05 and ASU No. 2011-12 will not have an impact on the Company's financial position, results of operations or cash flows as the guidance only requires a presentation change to comprehensive income.

In September 2011, the FASB issued ASU No. 2011-08, "Intangibles—Goodwill and Other (Topic 350)—Testing Goodwill for Impairment," ("ASU No. 2011-08") which permits an entity to make a qualitative assessment of whether it is more likely than not that a reporting unit's fair value is less than its carrying value before applying the two-step quantitative goodwill impairment test. If it is determined through the qualitative assessment that a reporting unit's fair value is more likely than not greater than its carrying value, the remaining impairment steps would be unnecessary. The qualitative assessment is optional, allowing entities to go directly to the quantitative assessment. ASU No. 2011-08 is effective for annual and interim goodwill impairment tests performed in fiscal years beginning after December 15, 2011, with early adoption permitted. This guidance will not have a material impact on the Company's financial position, results of operations or cash flows.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

In December 2011, the FASB issued ASU No. 2011-10, "Property, Plant, and Equipment (Topic 360): Derecognition of in Substance Real Estate —a Scope Clarification," ("ASU No. 2011-10") which applies to a parent company that ceases to have a controlling financial interest in a subsidiary, that is in substance real estate, as a result of a default on the subsidiary's nonrecourse debt. The new guidance emphasizes that the parent should only deconsolidate the real estate subsidiary when legal title to the real estate is transferred to the lender and the related nonrecourse debt has been extinguished. If the reporting entity ceases to have a controlling financial interest under subtopic 810-10, the reporting entity would continue to include the real estate, debt, and the results of the subsidiary's operations in its consolidated financial statements until legal title to the real estate is transferred to legally satisfy the debt. This standard takes effect for public companies during the annual and interim periods beginning on or after June 15, 2012. The adoption of this guidance is not expected to have a material impact on the Company's financial statements.

In December 2011, the FASB issued ASU No. 2011-11, "Balance Sheet (Topic 210) -Disclosures about Offsetting Assets and Liabilities," ("ASU 2011-11") which enhances current disclosures about financial instruments and derivative instruments that are either offset on the statement of financial position or subject to an enforceable master netting arrangement or similar agreement, irrespective of whether they are offset on the statement of financial position. The guidance requires the Company to provide both net and gross information for these assets and liabilities. ASU No. 2011-11 is effective for annual reporting periods beginning on or after January 1, 2013, and interim periods within those annual periods with retrospective application required. This guidance will not have an impact on the Company's financial position, results of operations or cash flows as it only requires a presentation change to offsetting (netting) assets and liabilities.

16. Commitments and Contingencies

Operating Leases

The Company leases restaurant and office facilities and certain equipment under operating leases having initial terms expiring between 2012 and 2024. The restaurant facility leases have renewal clauses primarily from five to 30 years exercisable at the option of the Company. Rent expense for the Company's operating leases, which generally have escalating rentals over the term of the lease and may include potential rent holidays, is recorded on a straight-line basis over the initial lease term and those renewal periods that are reasonably assured. Certain of these leases require the payment of contingent rentals leased on a percentage of gross revenues, as defined by the terms of the applicable lease agreement. Total rental expense for the years ended December 31, 2011, 2010 and 2009 was approximately $132.9 million, $128.1 million and $132.0 million, respectively, and included contingent rentals of approximately $5.6 million, $4.5 million and $3.8 million, respectively.

As of December 31, 2011, future minimum rental payments under non-cancelable operating leases (including leases for restaurants scheduled to open in 2012) are as follows (in thousands):

2012	$ 106,258
2013	98,174
2014	81,771
2015	64,053
2016	45,993
Thereafter	107,130
Total minimum lease payments(1)	$ 503,379

(1) Total minimum lease payments have not been reduced by minimum sublease rentals of $3.0 million due in future periods under non-cancelable subleases. On March 14, 2012, the Company entered into a sale-

leaseback transaction with two third-party real estate institutional investors in which the Company sold 67 restaurant properties and then simultaneously leased these properties back under nine master leases with initial terms of 20 years each. As a result, the Company will have an additional $362.6 million of operating lease payments over the initial terms of these lease agreements (see Note 20).

Purchase Obligations

The Company has minimum purchase commitments with various vendors through June 2016. Outstanding commitments consist primarily of minimum purchase commitments of beef, cheese, potatoes and other food and beverage products related to normal business operations and contracts for advertising, marketing, sports sponsorships, printing and technology. In 2011, the Company purchased more than 90% of its beef raw materials from four beef suppliers who represented approximately 75% of the total beef marketplace in the United States.

Litigation and Other Matters

The Company is subject to legal proceedings, claims and liabilities, such as liquor liability, sexual harassment and slip and fall cases, which arise in the ordinary course of business and are generally covered by insurance. In the opinion of management, the amount of ultimate liability with respect to those actions will not have a material adverse impact on the Company's financial position or results of operations and cash flows. The Company accrues for loss contingencies that are probable and reasonably estimable. The Company generally does not accrue for legal costs expected to be incurred with a loss contingency until those services are provided.

Guarantees and RY-8, Inc.

OSI guarantees debt owed to banks by one of its joint venture partners and by landlords of one of its Outback Steakhouse restaurants in South Korea. The maximum amount guaranteed and the outstanding guaranteed amount were each approximately $26.0 million at December 31, 2011. OSI would have to perform under the guarantees if the borrowers default under their respective loan agreements. A default would cause OSI to exercise all available rights and remedies.

Pursuant to the Company's joint venture agreement for the development of Roy's restaurants, RY-8, its joint venture partner, has the right to require the Company to purchase up to 50% of RY-8's interest in the joint venture at any time after June 17, 2009. The purchase price would be equal to the fair market value of the joint venture as of the date that RY-8 exercised its put option multiplied by the percentage purchased.

As of December 31, 2011, the Company is due $2.8 million from RY-8 for interest and line of credit renewal fees and capital expenditures for additional restaurant development made on behalf of RY-8 because the joint venture partner's $24.5 million line of credit was fully extended. This amount is eliminated in consolidation (see Note 18). Additional payments on behalf of RY-8 may be required in the future.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

Insurance

The Company purchased insurance for individual claims that exceed the amounts listed in the following table:

	2011	2010	2009
Workers' Compensation	$ 1,500,000	$ 1,500,000	$ 1,500,000
General Liability(1)	1,500,000	1,500,000	1,500,000
Health(2)	400,000	300,000	300,000
Property Coverage(3)	2,500,000 / 500,000	2,500,000 / 500,000	2,500,000 /500,000
Employment Practices Liability	2,000,000	2,000,000	2,000,000
Directors' and Officers' Liability	250,000	250,000	250,000
Fiduciary Liability	25,000	25,000	25,000

(1) In 2011, claims arising from liquor liability had the same self-insured retention as general liability. For claims in 2010 and 2009, there was an additional $1.0 million self-insured retention per claim until a $2.0 million liquor liability aggregate had been met. At that time, any claims arising from liquor liability reverted to the general liability self-insured retention.

(2) The Company is self-insured for all aggregate health benefits claims, limited to $0.4 million per covered individual in 2011 and $0.3 million per covered individual in 2010 and 2009. The Company retained the first $0.3 million, $0.4 million and $0.2 million of payable losses under the plan as an additional deductible in 2011, 2010 and 2009, respectively. The 2010 and 2009 insurer's liability was limited to $2.0 million per individual per year.

(3) The Company has a $0.5 million deductible per occurrence for those properties that collateralize PRP's CMBS Loan and a $2.5 million deductible per occurrence for all other locations. Property limits are $60.0 million each occurrence, and the Company does not quota share in any loss above either deductible level.

The Company records a liability for all unresolved claims and for an estimate of incurred but not reported claims at the anticipated cost to the Company. In establishing reserves, the Company considers certain actuarial assumptions and judgments regarding economic conditions, the frequency and severity of claims and claim development history and settlement practices. Unanticipated changes in these factors or future adjustments to these estimates may produce materially different amounts of expense that would be reported under these programs. Reserves recorded for worker's compensation and general liability claims are discounted using the average of the 1-year and 5-year risk free rate of monetary assets that have comparable maturities. When recovery from an insurance policy is considered probable, a receivable is recorded.

17. Related Parties

Paradise Restaurant Group, LLC

In September 2009, the Company sold its Cheeseburger in Paradise concept, which included 34 restaurants, to Paradise Restaurant Group, LLC ("PRG"), an entity formed and controlled by the president of the concept. Other investors in PRG include a current development partner in certain Carrabba's Italian Grill restaurants and former Company employees. Based on the terms of the purchase and sale agreement, the Company continued to consolidate PRG after the sale transaction since the Company was considered the primary beneficiary of the entity under the then applicable accounting guidance. However, upon adoption of new accounting guidance for variable interest entities on January 1, 2010, the Company is no longer the primary beneficiary of PRG, and as a result, PRG is no longer considered a related party as of January 1, 2010 (see Note 18).

BLOOMIN' BRANDS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

The Company provided the financing for the sale of the Cheeseburger in Paradise concept in the form of a $2.0 million promissory note that bears interest at a rate of 600 basis points over the 90-day LIBOR. The promissory note must be repaid in five annual installments that commence one year from the September 15, 2009 closing date. In accordance with the terms of the promissory note, the annual principal and interest payment amounts are based on the cash flow of PRG, subject to certain maximum payment limits. The promissory note and the payment of the purchase price are secured by a first priority purchase money security interest in the membership interests and assets of PRG. The loan agreement for the promissory note also contains certain protective covenants such as, but not limited to: (i) PRG must obtain the Company's prior written approval before incurring any additional indebtedness or new lease obligations or before extending or renewing any existing obligations, (ii) the Company retains the right to approve PRG's financial capital and development plans, (iii) PRG cannot make any distributions, dividends or other payment of funds other than approved in an annual capital and financial plan and (iv) PRG cannot make any substantial change to its executive or management personnel or change its general character of business without the Company's prior written consent.

The Company also provided PRG a $2.0 million revolving line of credit (reduced to $1.0 million in September 2010) to assist with seasonal cash flow shortages. The revolving line of credit matured on September 15, 2011 and there were no draws on the revolving line of credit prior to maturity.

The Company assigned PRG all restaurant property leases under their current terms, except for three locations that are leased under modified terms as provided in the purchase and sale agreement. For certain of the assigned third-party leases, the Company remains contingently liable. The buyer is responsible for paying common area maintenance, real estate taxes and other expenses on these restaurant properties.

T-Bird Nevada, LLC

On February 19, 2009, the Company filed an action in Florida against T-Bird Nevada, LLC ("T-Bird") and certain of its affiliates (collectively, the "T-Bird Parties"). T-Bird is a limited liability company affiliated with the Company's California franchisees of Outback Steakhouse restaurants. The action sought payment on a promissory note made by T-Bird that the Company purchased from T-Bird's former lender, among other remedies. The principal balance on the promissory note, plus accrued and unpaid interest, was approximately $33.3 million at the time it was purchased. On September 11, 2009, the T-Bird Parties filed an answer and counterclaims against the Company and certain of its officers and affiliates. The answer generally denied T-Bird's liability on the loan, and the counterclaims restated the same claims made by the T-Bird Parties in their California action (as described below).

On February 20, 2009, the T-Bird Parties filed suit against the Company and certain of its officers and affiliates in the Superior Court of the State of California, County of Los Angeles. After certain legal proceedings, the T-Bird Parties filed an amended complaint on November 29, 2010. Like the original complaint, the T-Bird Parties' amended complaint claimed, among other things, that the Company made various misrepresentations and breached certain oral promises allegedly made by the Company and certain of its officers to the T-Bird Parties that the Company would acquire the restaurants owned by the T-Bird Parties and until that time the Company would maintain financing for the restaurants that would be nonrecourse to the T-Bird Parties. The amended complaint sought damages in excess of $100.0 million, exemplary or punitive damages, and other remedies.

On September 26, 2011, the Company entered into a settlement agreement (the "Settlement Agreement") with the T-Bird Parties to settle all outstanding litigation with T-Bird. In accordance with the terms of the Settlement Agreement, T-Bird agreed to pay $33.3 million to the Company to satisfy the T-Bird

BLOOMIN' BRANDS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

promissory note that the Company purchased from T-Bird's former lender. This settlement payment was received in November 2011 and recorded as Recovery of note receivable from affiliated entity in the Company's Consolidated Statement of Operations for the year ended December 31, 2011.

Pursuant to the Settlement Agreement, the Company (through its indirect subsidiary, Outback Steakhouse of Florida, LLC) granted to California Steakhouse Developer, LLC, a T-Bird affiliate, for a period of 20 years, the right to develop and operate Outback Steakhouse restaurants as a franchisee in the State of California as set forth in a development agreement dated November 23, 2011 (the "Development Agreement").

Additionally, the Company has granted certain T-Bird affiliates (the "T-Bird Entities") the non-transferable right (the "Put Right") to require the Company to acquire all of the equity interests in the T-Bird Entities that own Outback Steakhouse restaurants and the rights under the Development Agreement for cash. The closing of the Put Right is subject to certain conditions including the negotiation of a transaction agreement reasonably acceptable to the parties, the absence of dissenters rights being exercised by the equity owners above a specified level and compliance with the Company's debt agreements. The Put Right is exercisable for a one-year period beginning on the date of closing of an initial public offering (an "IPO") of at least $100 million worth of shares of the Company's or an affiliate's common stock or if the Company or OSI has not completed an IPO, for a period of 60 days after execution of a definitive agreement to sell only the Outback Steakhouse brand and all of its Company-owned Outback Steakhouse restaurants.

If the Put Right is exercised, the Company will pay a purchase price equal to a multiple of the T-Bird Entities' earnings before interest, taxes, depreciation and amortization, subject to certain adjustments ("Adjusted EBITDA"), for the trailing 12 months, net of liabilities of the T-Bird Entities. The multiple is equal to 75% of the multiple of the Company's or affiliate's Adjusted EBITDA reflected in its stock price in the case of an IPO or, in a sale of the Outback Steakhouse brand, 75% of the multiple of the Adjusted EBITDA that the Company is receiving in the sale. The Company has a one-time right to reject the exercise of the Put Right if the transaction would be dilutive to its consolidated earnings per share. In such event, the Put Right is extended until the first anniversary of the Company's notice to the T-Bird Entities of such rejection. The Company has agreed to waive all rights of first refusal in its franchise arrangements with the T-Bird Entities in connection with a sale of all, and not less than all, of the assets, or at least 75% of the ownership of the T-Bird Entities.

Bain, Catterton, Founders and Board of Directors

Upon completion of the Merger, the Company entered into a management agreement with Kangaroo Management Company I, LLC (the "Management Company"), whose members are the Founders and entities affiliated with Bain Capital and Catterton. In accordance with the terms of the management agreement, the Management Company provides management services to the Company until the tenth anniversary of the consummation of the Merger, with one-year extensions thereafter until terminated. The Management Company receives an aggregate annual management fee equal to $9.1 million and reimbursement for out-of-pocket and other reimbursable expenses incurred by it, its members, or their respective affiliates in connection with the provision of services pursuant to the agreement. Management fees, including out-of-pocket and other reimbursable expenses, of $9.4 million, $11.6 million and $10.7 million for the years ended December 31, 2011, 2010 and 2009, respectively, were included in "General and administrative" expenses in the Company's Consolidated Statements of Operations. The management agreement includes customary exculpation and indemnification provisions in favor of the Management Company, Bain Capital and Catterton and their respective affiliates. The management agreement may be terminated by the Company, Bain Capital and Catterton at any time and will terminate automatically upon an initial public offering or a change of control unless the Company and the counterparty(s) determine otherwise.

BLOOMIN' BRANDS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

The Company holds an 89.62% interest in OSI/Fleming's, LLC and a minority interest holder in the Fleming's Prime Steakhouse and Wine Bar joint venture holds a 7.88% interest in any Fleming's Prime Steakhouse and Wine Bar restaurants that opened prior to 2009. The remaining 2.50% is owned by AWA III Steakhouses, Inc., which is wholly-owned by a former Chairman of the Board of Directors (through December 31, 2011) and former named executive officer of the Company, through a revocable trust in which he and his wife are the grantors, trustees and sole beneficiaries. The Company assumed the minority interest holder's 7.88% ownership interest in any Fleming's Prime Steakhouse and Wine Bar restaurants that opened in 2009 or later and AWA III Steakhouses, Inc.'s interest remains at 2.50% for these restaurants.

Other

The Company holds a 50% ownership interest in the Brazilian Joint Venture, which was formed in 1998 for the purpose of operating Outback Steakhouse franchise restaurants in Brazil. The Company accounts for the Brazilian Joint Venture under the equity method of accounting. At December 31, 2011 and 2010, the net investment of $34.0 million and $31.0 million, respectively, was recorded in "Investments in and advances to unconsolidated affiliates, net," and a foreign currency translation adjustment of ($3.8) million and $3.5 million, respectively, was recorded in "Accumulated other comprehensive loss" in the Consolidated Balance Sheets and the Company's share of earnings of $6.8 million, $5.5 million and $2.7 million was recorded in "Income from operations of unconsolidated affiliates" in the Consolidated Statements of Operations for the years ended December 31, 2011, 2010 and 2009, respectively.

One of the current and one of the former owners of the Company's primary domestic beef cutting operation have a greater than 50% combined ownership interest in SEA Restaurants, LLC, the Company's franchisee of six Outback Steakhouse restaurants in Southeast Asia. These individuals have not received any distributions related to this ownership interest.

18. Variable Interest Entities

The Company consolidates variable interest entities in which the Company is deemed to have a controlling financial interest as a result of the Company having (1) the power to direct the activities that most significantly impact the entity's economic performance and (2) the obligation to absorb the losses or the right to receive the benefits that could potentially be significant to the variable interest entity. If the Company has a controlling financial interest in a variable interest entity, the assets, liabilities, and results of the operations of the variable interest entity are included in the consolidated financial statements (see Note 2).

Roy's and RY-8, Inc.

The Company's consolidated financial statements include the accounts and operations of its Roy's joint venture although it has less than majority ownership. The Company determined it is the primary beneficiary of the joint venture since the Company has the power to direct or cause the direction of the activities that most significantly impact the entity on a day-to-day basis such as decisions regarding menu development, purchasing, restaurant expansion and closings and the management of employee-related processes. Additionally, the Company has the obligation to absorb losses or the right to receive benefits of the Roy's joint venture that could potentially be significant to the Roy's joint venture. The majority of capital contributions made by the Company's partner in the Roy's joint venture, RY-8, have been funded by loans to RY-8 from a third party where OSI provides a guarantee (see Note 11). The guarantee is secured by a collateral interest in RY-8's membership interest in the joint venture. The carrying amounts of consolidated assets and liabilities included within the Company's Consolidated Balance Sheets for the Roy's joint venture were $26.2 million and $9.6 million, respectively, at December 31, 2011 and $28.7 million and $10.5 million, respectively, at December 31, 2010.

BLOOMIN' BRANDS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

The Company is also the primary beneficiary of RY-8 because its implicit variable interest in that entity, which is considered a de facto related party, indirectly receives the variability of the entity through absorption of RY-8's expected losses, and therefore the Company also consolidates RY-8. Since RY-8's $24.5 million line of credit became fully extended in 2007, the Company made interest payments, paid line of credit renewal fees and made capital expenditures for additional restaurant development on behalf of RY-8. The Company is obligated to provide financing, either through OSI's guarantee with a third-party institution or loans, for all required capital contributions and interest payments. Therefore, any additional RY-8 capital requirements in connection with the joint venture likely will be the Company's responsibility. The Company classifies OSI's $24.5 million contingent obligation as guaranteed debt and the portion of income or loss attributable to RY-8 is eliminated in the line item in the Consolidated Statement of Operations entitled "Net income (loss) attributable to noncontrolling interests." All material intercompany balances and transactions have been eliminated.

Paradise Restaurant Group, LLC

In September 2009, the Company sold its Cheeseburger in Paradise concept, which included 34 restaurants, for $2.0 million to PRG, an entity formed and controlled by the president of the concept. Based on the terms of the purchase and sale agreement, the Company determined at that time that it was the primary beneficiary and continued to consolidate PRG after the sale transaction.

Upon adoption of new accounting guidance for variable interest entities on January 1, 2010, the Company determined that it is no longer the primary beneficiary of PRG. As a result, the Company deconsolidated PRG on January 1, 2010. The Company determined that certain rights pursuant to a $2.0 million promissory note, which is fully reserved, owed to the Company by PRG are non-substantive participating rights, and as a result, the Company does not have the power to direct the activities that most significantly impact the entity. At December 31, 2011, the maximum undiscounted exposure to loss as a result of the Company's involvement with PRG is $25.8 million related to lease payments over a period of 11 years in the event that PRG defaults on these leases.

19. Segment Reporting

The Company operates restaurants under five brands that have similar economic characteristics, nature of products and services, class of customer and distribution methods, and the Company believes it meets the criteria for aggregating its six operating segments, which are the five brands and the Company's international Outback Steakhouse operations, into a single reporting segment in accordance with the applicable accounting guidance. Approximately 9% of the Company's total revenues for the year ended December 31, 2011 and 8% of the Company's total revenues for the years ended December 31, 2010 and 2009 were attributable to operations in foreign countries. Approximately 2% and 3% of the Company's total long-lived assets, excluding goodwill and intangible assets, were located in foreign countries where the Company holds assets as of December 31, 2011 and 2010, respectively.

20. Subsequent Events

We have evaluated subsequent events for potential recognition and/or disclosure through April 6, 2012, which is the date the consolidated financial statements included in this prospectus were filed with the Securities and Exchange Commission.

Effective March 14, 2012, the Company entered into a sale-leaseback transaction with two third party real estate institutional investors in which the Company sold 67 restaurant properties at fair market value for

BLOOMIN' BRANDS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

$194.9 million. The Company then simultaneously leased these properties under nine master leases (collectively, the "REIT Master Leases"). The initial term of the REIT Master Leases are 20 years with four five-year renewal options. One renewal period is at a fixed rental amount and the last three renewal periods are generally based at the then-current fair market values. The sale at fair market value and subsequent leaseback qualified for sale-leaseback accounting treatment, and the REIT Master Leases are classified as operating leases. The Company will defer the recognition of the $42.7 million gain on the sale of certain of the properties over the initial term of the lease. In accordance with the applicable accounting guidance, the 67 restaurant properties are not classified as held for sale at December 31, 2011 since the Company will be leasing back the properties.

Effective March 27, 2012, New PRP entered into the 2012 CMBS Loan with German American Capital Corporation and Bank of America, N.A. The 2012 CMBS Loan totals $500.0 million and is comprised of a first mortgage loan in the amount of $324.8 million, collateralized by 261 of the Company's properties, and two mezzanine loans totaling $175.2 million. The loans have a maturity date of April 10, 2017. The first mortgage loan has five fixed rate components and a floating rate component. The fixed rate components bear interest at a rate of 2.37% to 6.81% per annum. The floating rate component bears interest at a rate per annum equal to the 30-day LIBOR rate (with a floor of 1%) plus 2.37%. The first mezzanine loan bears interest at a rate of 9.0% per annum, and the second mezzanine loan bears interest at a rate of 11.25% per annum. The proceeds from the 2012 CMBS Loan, together with the proceeds from the sale-leaseback transaction described above and excess cash held in PRP, were used to repay PRP's existing CMBS Loan. As a result of the 2012 CMBS Loan refinancing, the net amount repaid along with scheduled maturities within one year, $281.3 million, was classified as current at December 31, 2011. During the first quarter of 2012, the Company recorded a $2.9 million Loss on extinguishment of debt.

Report of independent auditors

To the Management and Members of
PGS Consultoria e Serviços Ltda.

We have audited the accompanying consolidated balance sheet of PGS Consultoria e Serviços Ltda. as of December 31, 2010, and the related consolidated statement of income, changes in members' equity and cash flows for the year then ended. These financial statements are the responsibility of the Company's Management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Company's internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of PGS Consultoria e Serviços Ltda. as of December 31, 2010, and the consolidated results of its operations and its cash flows for the year then ended in conformity with accounting practices adopted in Brazil.

The accounting practices adopted in Brazil differ, in certain significant respects, from the accounting principles generally accepted in the United States of America. Information relating to the nature and effect of such differences is presented in Note 18 to the consolidated financial statements.

1. Corporate information

PGS Consultoria e Serviços Ltda. ("PGS Consultoria" or the "Parent Company") was formed in May 1997 and is headquartered at Av. Dr. Chucri Zaidan, 80, 8th floor, in the City and State of São Paulo.

PGS Consultoria is the holding company of the CLS Companies (collectively referred as the "Group"). The main purpose of the CLS Companies ("CLS"), which is comprised of (i) CLS São Paulo Ltda. ("CLS SP"); (ii) CLS Restaurantes Rio de Janeiro Ltda. ("CLS RJ"); (iii) CLS Restaurantes Brasília Ltda. ("CLS BSB"); and (iv) CLS Restaurantes do Sul Ltda. ("CLS do Sul"), is to explore and manage restaurants under the trade mark "Outback Steakhouse" in Brazil.

"Outback Steakhouse" is an Australian steakhouse concept, open for dinner only in the United States of America, but for both lunch and dinner in some areas of the world, such as in Brazil. Although beef and steak items make up a good portion of the menu, the concept offers a variety of chicken, ribs, seafood, and pasta dishes. The Group's strategy is to differentiate its restaurants by emphasizing consistently high-quality food, concentrated service, generous portions at affordable prices and a casual atmosphere suggestive of the Australian Outback.

CLS operates 34 (thirty four) restaurants altogether, in sixteen different cities, being: (i) 8 (eight) in Rio de Janeiro and 1 (one) in Niterói, State of Rio de Janeiro, and 1 (one) in Vitoria, State of Espirito Santo (CLS RJ); (ii) 10 (ten) in São Paulo, 2 (two) in Campinas, 1(one) in Barueri, 1 (one) in São Bernado do Campo, 1(one) in São Caetano do Sul, 1(one) in São José dos Campos and 1 (one) in Ribeirão Preto, State of São Paulo (CLS SP); (iii) 2 (two) in Brasilia, Federal District, 1 (one) in Belo Horizonte, State of Minas Gerais, 1 (one) in Salvador, State of Bahia, and 1 (one) in Goiânia, State of Goiás (CLS BSB); and (iv) 1 (one) in Porto Alegre, State of Rio Grande do Sul and 1 (one) in Curitiba, State of Paraná (CLS do Sul).

These consolidated financial statements were approved by the Parent Company's management on March 25, 2011.

2. Basis of preparation

The preparation of the accompanying consolidated financial statements requires management to make certain estimates and assumptions that affect the reported amounts. These estimates were determined based on objective and subjective factors, considering management's judgment to determine the adequate amounts to be recorded in the consolidated financial statements.

Significant items subject to such estimates and assumptions include selection of useful lives of property, fixtures and equipment and analysis of their recoverability in operations, credit risk assessment to determine the allowance for doubtful accounts, as well as analysis of other risks to determine other provisions, including those set up for contingencies. Settlement of transactions involving these estimates may result in amounts significantly different from those recorded in the consolidated financial statements due to the uncertainties inherent in the estimation process. The Group reviews its estimates and assumptions at least annually.

The consolidated financial statements were prepared and are presented in accordance with the accounting practices adopted in Brazil, which comprise the pronouncements, interpretations and guidance issued by the Brazilian Accounting Pronouncements Committee (*Comitê de Pronunciamentos Contábeis* ("CPC")), which are converged to the International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB").

2. Basis of preparation (Continued)

The consolidated financial statements presented herein do not include the Parent Company's stand alone financial statements and are not intended to be used for statutory purposes.

Accounting practices adopted in Brazil ("BR GAAP") differ in significant respects from accounting principles generally accepted in the United States of America ("US GAAP"). A description of certain differences on cash flows from BR GAAP to US GAAP is provided in Note 18.

3. Basis of consolidation

The consolidated financial statements include the operations of PGS Consultoria and the "CLS Companies". The details of the participation in CLS Companies, comprised of CLS SP, CLS RJ, CLS BSB and CLS do Sul, are summarized as follow:

	2011 (unaudited)		2010		2009 (unaudited)	
	Capital stock(1)	Retained earnings(2)	Capital stock(1)	Retained earnings(2)	Capital stock(1)	Retained earnings(2)
CLS SP	**89.96%**	**100%**	91.60%	100%	90.78%	100%
CLS RJ	**96.22%**	**100%**	96.08%	100%	96.72%	100%
CLS BSB	**95.51%**	**100%**	95.63%	100%	95.72%	100%
CLS do Sul	**97.17%**	**100%**	97.17%	100%	97.17%	100%

(1) The capital stock of the CLS Companies is shared primarily between PGS Consultoria, proprietors (stores' managing partners) and JVs (operating partners who supervise the Rio de Janeiro, São Paulo, Brasília and South Region stores), in accordance with their respective interests.

(2) According to each individual partners' association document known as "Protocolo de Entendimentos" (Memorandum of Understanding), dividends are distributed to minority partners (proprietors and JV's) based on certain criteria, such as a percentage of the pre-tax income results of their respective restaurants and supervision areas and other, being the remaining undistributed earnings 100% of PGS Consultoria. Such dividends are recognized as compensation expense in the income statement in the period earned by the minority partners.

The financial statements of the CLS Companies are prepared for the same reporting period as the Parent Company. Accounting policies of CLS Companies have been adjusted to ensure consistency with the accounting policies adopted by the Group. All intra-group balances, income and expenses, unrealized gain and losses and dividends resulting from intra-group transactions have been eliminated in consolidation.

Basis of consolidation from January 1, 2010

Capital contributions to the CLS Companies received from the minority partners are recorded as long-term liabilities in the line item "minority partner deposit". Monthly payments made pursuant to the "Protocolo de Entendimentos" (Memorandum of Understanding) are paid as dividends and are recognized as compensation expense in the period earned by the minority partners.

Basis of consolidation prior to January 1, 2010

The above-mentioned requirements were applied on a retrospective basis.

4. Summary of significant accounting policies

4.1. Revenue recognition

Revenue is recognized to the extent that it is probable that the economic benefits are likely to flow to the Group and the revenue can be reliably measured, regardless of when payment is made.

Revenue is measured at the fair value of the consideration received or receivable, net of discounts and taxes.

Revenue from sale is recognized when the significant risks and rewards have passed to the buyer. No revenue is recognized if there are significant uncertainties regarding its realization.

4.2. Foreign currency translation

The consolidated financial statements are presented in Brazilian Reais, which is also the Parent Company and the CLS Companies' functional currency.

Foreign currency transactions are initially recorded by the Group entities at the functional currency exchange rate prevailing on the date of the transaction.

Monetary assets and liabilities denominated in foreign currency are translated at the functional currency exchange rate on the reporting date. All differences are recorded to the income statement.

4.3. Financial instruments

Financial instruments are only recognized as of the date when the Group becomes a part of the contract provisions of financial instruments. Once recognized, they are initially recorded at their fair value plus transaction costs that are directly attributable to their acquisition or issuance, except in the case of financial assets and liabilities classified in the category at fair value through profit or loss ("P&L"), when such costs are directly charged to P&L for the period. Subsequent measurement of financial assets and liabilities is determined by their classification at each balance sheet.

The Group's most significant financial assets are cash and cash equivalents and accounts receivable, whereas the main financial liabilities are comprised of trade accounts payable and loans.

4.4. Cash and cash equivalents

Cash and cash equivalents include bank account balances and short-term investments redeemable within three months or less from the date of acquisition, subject to insignificant risk of change in their market value. The short-term investments included as cash equivalents are mostly classified as "financial assets at fair value through P&L".

4.5. Trade accounts receivable

Trade accounts receivable are shown at realization amounts, and refer primarily to the amounts to be received from credit cards companies due to the sales in the restaurants. No allowance for doubtful accounts has been recorded due to the remote chances of losses on receivables.

4. Summary of significant accounting policies (Continued)

4.6. Inventories

Inventories are valued at the lower of cost and net realizable value. Inventories consist of food and beverages and restaurant supplies, and are stated at the average purchase cost.

4.7. Property, fixtures and equipment

Property, fixtures and equipment are stated at acquisition cost, net of accumulated depreciation. Improvements to leased properties are depreciated over the lease term. Depreciation is computed on the straight-line method over the following estimated useful lives:

Furniture and fixtures	10 years
Computers	5 years
Equipment and facilities	10 years
Buildings	25 years
Leasehold improvements	10 to 15 years

The CLS companies capitalize all direct costs incurred to construct its restaurants. Upon restaurant opening, these costs are depreciated and charged to the consolidated statements of income. The amount of interest capitalized in connection with restaurant construction was immaterial in all periods.

An item of property, fixtures and equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gains or losses arising on derecognition of the asset is included in the consolidated statements of income when the asset is derecognized.

The assets' residual value, useful lives and methods of depreciation are reviewed at each financial year end, and adjusted prospectively, if appropriate.

4.8. Intangible assets

Intangible assets consist primarily of software and franchise fees. Intangible assets acquired separately are measured on initial recognition at cost. After the initial recognition, intangible assets are presented at cost, net of accrued amortization and impairment losses.

The useful lives of intangible assets are assessed as either finite or indefinite. Intangible assets with finite lives are amortized over the useful economic life. Both finite and indefinite intangible assets are assessed for impairment whenever there is an indication that the intangible asset may be impaired.

Gains or losses arising from derecognition of an intangible asset are included in the consolidated statements of income when the asset is derecognized.

4.9. Loans

Loans are recognized initially at fair value, plus directly attributable transaction costs. Following the initial recognition, loans subject to interest are measured at the amortized cost using the effective interest rate method. Gains and losses are recognized in the income statement at the time when the liabilities are written off, as well as during the amortization process according to the effective interest rate method.

4. Summary of significant accounting policies (Continued)

4.10. Other assets and liabilities

Liabilities are recognized in the balance sheet when the Group has a legal or constructive obligation arising from past events, the settlement of which is expected to result in an outflow of economic benefits. Provisions are recorded reflecting the best estimates of the risk involved. An asset is recognized in the balance sheet when it is likely that its economic benefits will flow to the Group and its cost or value may be safely measured.

Assets and liabilities are classified as current when their realization or settlement is likely to occur within the following twelve months. Otherwise they are stated as noncurrent.

4.11. Taxation

Taxes on sales

Revenues from sales and services are subject to the following taxes and contributions, at the rates shown below:

State VAT—ICMS	From 2% to 25%
Social Contribution Tax on Gross Revenue for Social Integration Program—PIS	From 0.65 to 1.65%
Social Contribution Tax on Gross Revenue for Social Security Funding—COFINS	From 3.00 to 7.60%
Service Tax—ISS	5%

The above charges are presented as deductions from sales in the consolidated statements of income.

Income tax and social contribution—current

Taxation on income includes the income tax and the social contribution. CLS SP, CLS RJ and CLS Brasília record the income tax and social contribution based on taxable income (previously based on the presumed profits method). Income tax is calculated at a rate of 15%, plus a surtax of 10% on taxable profit exceeding R$ 240 over 12 months, whereas social contribution tax is computed at a rate of 9% on taxable profit, both recognized on an accrual basis. Therefore, additions to the book profit of expenses, temporarily nondeductible, or exclusions from revenues, temporarily nontaxable, for computation of current taxable profit generate deferred tax credits or debits.

The computation for income tax and social contribution for the CLS Sul was calculated according with the presumed profits method, which basis and rates are set forth in the tax legislation in force. CLS BSB was included in the presumed profits method until December 31, 2010.

Advances or amounts subject to offset are stated in current or non-current assets, according to the estimate of their realization.

4. Summary of significant accounting policies (Continued)

4.11. Taxation *(Continued)*

Income tax and social contribution—deferred

Deferred income tax and social contribution are generated by tax loss carryforwards and by temporary differences on the balance sheet date between the tax basis of assets and liabilities and their book values.

The book value of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are reassessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred income tax and social contribution assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted at the reporting date.

Deferred tax assets and liabilities are offset if a legally enforceable right to offset exists and the deferred taxes relate to the same taxable entity and the same taxation authority.

4.12. Judgments, estimates and significant accounting assumptions

Judgments

The preparation of the consolidated financial statements requires management to make judgments and estimates, and adopt assumptions that affect the amounts stated for revenues, expenses, assets and liabilities, as well as the disclosures of contingent liabilities on the financial statement date.

However, uncertainties regarding these estimates and assumptions might lead to results that require significant adjustments to the book value of an asset or liability affected in future periods.

Estimates and assumptions

Major assumptions related to sources of uncertainty in future estimates and other relevant sources of uncertainty in estimates on the balance sheet date that entail significant risk of material adjustment to the book value of assets and liabilities in the next financial year are discussed as follows.

Impairment loss on nonfinancial assets

Impairment loss exists when the carrying value of an asset or cash-generating unit exceeds its recoverable amount, which is the higher of fair value less sales costs and value in use. The fair value less sales cost is calculated based on available information about similar asset sales transactions or market-observable prices less additional costs to dispose of the asset item. In 2011 the Company recorded impairment loss in the amount of R$300 related to leasehold improvements located in office spaces that the Company plans to vacate. No other evidence indicating that the asset net book values exceeding their recoverable amounts has been identified.

4.12. Judgments, estimates and significant accounting assumptions *(Continued)*

Estimates and assumptions (Continued)

Taxes

Uncertainties exist with respect to the interpretation of complex tax regulations and the amount and timing of future taxable income. The Group establishes provisions, based on reasonable estimates, for possible consequences of audits by the tax authorities. The amount of such provisions is based on several factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority.

Deferred tax assets are recognized for all unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilized. Significant management judgment is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and the level of future taxable profits together with future tax strategies.

The Group has tax loss carryforwards for both income tax and social contribution amounting approximately to R$2,197 at December 31, 2011 (R$2,100 in 2010). These losses, which relate to the Parent Company that has a history of taxable losses, do not expire and may not be used to offset taxable income elsewhere in the Group. Tax-offsettable losses generated in Brazil may be offset against future taxable profit up to 30% of the taxable profit determined in any given year. CLS SP, CLS RJ and CLS Brasília have no tax losses, but taxable temporary differences.

If the Group was able to recognize all unrecognized deferred tax assets, profit would increase by R$1,143 at December 31, 2011 (R$705 in 2010). Further details on deferred taxes are disclosed in Note 13.3.

Provisions

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The expense relating to any provision is presented in the income statement net of any reimbursement.

Provisions are recorded in an amount considered sufficient by the Group's management, supported by the opinion of their legal advisors, to cover probable losses on lawsuits. Further details on contingencies are disclosed in Note 12.

4.13. Minority partner distributions and buyouts

The proprietors and the JVs are required to sign a five to seven-year agreement ("Protocolo de Entendimentos"—Memorandum of Understanding) and to purchase an ownership interest in the CLS Companies. This ownership interest gives the proprietor and the JVs the right to receive distributions based on a percentage of the after-tax income results of their respective restaurants for the duration of the agreement.

PGS Consultoria has the option to purchase the minority partners' interests after a five to seven-year period based on the terms specified in the agreement.

4. Summary of significant accounting policies (Continued)

4.13. Minority partner distributions and buyouts (Continued)

The Group estimates future purchases of proprietors' and JVs' interests using current information on restaurant performance and records the minority partner obligations in the line item "accrued buyout liability" in the consolidated balance sheets. In the period the Group purchases the proprietors' and JVs' interests, an adjustment is recorded to recognize any remaining expense associated with the purchase and reduce the related accrued buyout liability.

Distributions made to proprietors and JVs are included in "restaurant payroll expenses" and "general and administrative expenses," respectively, in the consolidated statements of income.

4.14 Operating Leases

Rent expense for the Company's operating leases, which generally have escalating rentals over the term of the lease and may include potential rent holidays, is recorded on a straight-line basis over the initial lease term and those renewal periods that are reasonably assured. The initial lease term includes the "build-out" period of the Company's leases, which is typically before rent payments are due under the terms of the lease. The difference between rent expense and rent paid is recorded as deferred rent and is included in the Consolidated Balance Sheets. Payments received from landlords as incentives for leasehold improvements are recorded as deferred rent and are amortized on a straight-line basis over the term of the lease as a reduction of rent expense. Lease termination fees, if any, and future obligated lease payments for closed locations are recorded as an expense in the period that they are incurred.

4.15. Pre-Opening Expenses

Non-capital expenditures associated with opening new restaurants are expensed as incurred.

Distribution of Profits—CLS Companies

Dividends paid to proprietors (stores' managing partners) and to JVs (operating partners who supervise the Rio de Janeiro, São Paulo, Brasília and South Region stores) are distributed according to the criteria stated within each individual partner's association document referred to as "Protocolo de Entendimento" (Memorandum of Understanding).

Partners are paid dividends according to a percentage of the after-tax income results ("ATI") of their respective restaurants, as per their P&L statements. It is 7.5% of ATI for managing partners and 3.5% to 6% for operating partners. Members of top management have also received dividends based on certain monthly fixed amounts stipulated in the previous year's budget submitted to and approved by OSI.

Based on the above and in accordance with local laws allowing actual distributions to be different than the exact amount owed to a partner, based on his/her members' position, the CLS Companies distributed the following amounts to its partners during 2011 (unaudited), 2010, and 2009 (unaudited):

	2011 (unaudited)	2010	2009 (unaudited)

Executives	**2,113**	3,241	2,052
	6,738	6,518	4,538

12. Contingencies

The Group is involved in tax, civil and labor lawsuits arising in the normal course of operations. These matters are discussed at the administrative and judicial levels. Judicial deposits related to these matters are made, when applicable. The Company accrues for loss contingencies that are probable and reasonably estimable.

The provision amount of R$ 2,100 was recorded as of December 31, 2011 and is related mainly by approximately R$2,000 to uniforms allowance that was not subjected to social contribution and withholding income tax. Such provision covers all CLS companies.

At December 31, 2011 (unaudited), 2010 and 2009 (unaudited), the Group's external legal advisors estimate the chances of a final unfavorable outcome as "possible" in certain matters, primarily related to labor and tax claims. The total possible contingencies that are uncertain at this time and could have a material adverse effect on the Company's financial condition are R$11,600 as of December 31, 2011.

The three most significant cases for the CLS Companies involve amounts totaling approximately R$ 4,600 (CLS SP). These suits were filed by Secretaria de Fazenda do Estado de São Paulo seeking additional payments for ICMS under the taxpayer substitution system in addition to fines for noncompliance with other accessory obligations. The most significant case for PGS Consultoria, involves an amount totaling approximately R$ 2,900. In this matter the tax authorities are questioning the payment of income tax and social contribution.

The Group is questioning a matter related to the validity of the social contribution tax for intervention in the economic order (CIDE), established by law, on the remittance of royalties. Management, supported by preliminary injunctions granted in its favor, is judicially paying this tax. The judicial deposit related to this matter amounts to R$ 4,003 at December 31, 2011 (unaudited), (R$ 2,787 in 2010 and R$ 1,833 in 2009 (unaudited)). The Group maintains a provision related to this tax, which is presented in noncurrent liabilities in accordance with the expected date of outcome of these proceedings.

13. Income tax and social contribution

CLS do Sul has elected to calculate income tax and social contribution using the "presumed profits" method. Under the "presumed profits" method, taxable income is calculated as an amount equal to different percentages of gross revenue based on the activities of the taxpayer.

Under current Brazil tax law, the percentages of the CLS Companies' gross revenues are 8% for calculating income tax, and 12% for social contribution. The Parent Company, CLS SP, CLS RJ, and CLS BSB calculate their income tax and social contribution using the "actual profits" method, which is based on total taxable income.

13. Income tax and social contribution (Continued)

Tax loss carry forwards through December 31, 2011 (unaudited) and 2010 relating to income tax and social contributions were approximately R$2,764 and R$ 2,100, respectively, comprised entirely of fiscal results of the Parent Company. These tax loss carry forwards can offset future taxable income. Brazilian tax laws restrict the offset of tax losses to 30% of taxable profits on an annual basis. These losses can be used indefinitely and are not impacted by a change in ownership of the Parent Company.

Deferred income tax and social contribution assets, resulting from tax loss carry forwards and temporary differences, are recorded taking into consideration the probable realization thereof, based on projected future results of operations considering internal assumptions and future economic scenarios that are subject to change. These projections indicate that future operating results will provide taxable income for CLS SP, CLS RJ and CLS BSB. Therefore the Group's management expects to realize the deferred tax assets. The unused credits reflect the assessment of the likelihood of realizing the deferred tax asset comprised of the tax loss carry forwards attributable to the Parent Company.

15. Financial instruments

The Group evaluated its financial assets and liabilities in relation to market value through available information available and appropriate evaluation methodologies. The interpretation of market data and the selection of evaluation methods require extensive judgment and estimates to calculate the most appropriate realization value. Consequently, the estimates presented do not necessarily show the amounts that may be realized in the market. The use of different market assumptions and/or methods may have a material effect on the estimated realization values.

The Group's main financial instruments consist of cash and cash equivalents, trade accounts receivable, trade accounts payable and current and noncurrent loans.

Fair value measurements

Fair value is the price that would be received upon sale of an asset or paid upon transfer of a liability in an orderly transaction between market participants at the measurement date and is a market-based measurement. To measure fair value, the Group incorporates assumptions that market participants would use in pricing the asset or liability, and utilizes market data to the maximum extent possible.

Set out below is a comparison by financial statement class of the book value and fair value of the Group's financial instruments that are carried in the consolidated financial statements.

	49,764	37,036	33,085	**49,764**	37,036	33,085

The fair values of cash and cash equivalents, trade accounts receivable, trade accounts payable and short-term accounts payable approximate their respective book values due to the their short-term maturity. Loans are recognized initially at fair value, plus directly attributable transaction costs. Following the initial recognition, loans subject to interest are measured at the amortized cost using the effective interest rate method.

As a basis for considering the market participant assumptions in fair value measurements, a three-tier fair value hierarchy prioritizes the inputs used in measuring fair values as follows:

- Level 1—observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities that the Group has the ability to access;
- Level 2—inputs, other than the quoted market prices included in Level 1, which are observable for the asset or liability, either directly or indirectly; and
- Level 3—unobservable inputs for the asset or liability, which are typically based on an entity's own assumptions, as there is little, if any, related market data available.

The fair value measurement of short-term investments classified as cash and cash equivalents at December 31, 2011, 2010 and 2009, in the amount of R$13,544 (unaudited), R$ 8,863, and R$ 2 (unaudited), respectively, uses inputs that fall within Level 2 of the fair value hierarchy.

The Group is not engaged in any outstanding hedging instruments, term contracts, swap operations, options, futures, or embedded derivatives operations. Therefore, the Group has no risk related to derivatives utilization policies.

Significant market risk factors affecting the Group's business are as follows:

Exchange rate risk

This risk arises from the possibility of the Group incurring losses because of fluctuations in foreign currency exchange rates. The Group presents liabilities denominated in US dollars, mainly in connection with the loans from the related party OSI.

The Group does not use hedging instruments to protect against exchange rate fluctuations between the Brazilian real and the US dollar.

Credit risk

This risk mainly involves the Groups' cash and cash equivalents and accounts receivable. The Group carries out operations with highly-rated banks, which minimizes risk. Accounts receivable are substantially generated from credit card companies resulting from sales in the restaurants. Management does not anticipate losses in the realization of such receivables.

Liquidity risk

Liquidity risk arises from the possibility that the Group may not have sufficient funds to comply with their financial commitments due to the different currencies and settlement terms of their rights and obligations.

In order to mitigate liquidity risk for the Parent Company and its subsidiaries. the Group's liquidity and cash flow is monitored on a daily basis by Management, assuring that cash flow from operations and available funding, when necessary, is sufficient to meet its commitment schedule.

Interest rate risk

Interest rate risk arises from the possibility that the Group incurs losses because of fluctuations in interest rates that could increase certain financial expenses related to loans and financing raised from the market. The Group's exposure to market risks for changes in interest rates relates primarily to the bank debt and loans with related parties. Considering the Group's debt profile, management considers the risk of exposure to interest rate variation to be insignificant.

Capital Management

Capital includes units of interest and equity attributable to the equity holders of the Parent.

The primary objective of the Group's capital management is to ensure that it maintains sufficient capital in order to support its business and maximize member value.

The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust dividend payments to members, return capital to members, take out new loans, or issue new units of interest. No changes were made to the objectives, policies, or processes for managing capital during the years ended December 31, 2011 (unaudited), 2010, and 2009 (unaudited).

Included within net debt are loans, trade accounts payable, less cash and cash equivalents.

16. Operating lease commitments

Minimum rent payments under operating leases are recognized on a straight-line basis over the term of the lease including any periods of free rent. Rental expense for operating leases during 2011 (unaudited), 2010, and 2009 (unaudited) was R$12,255, R$8,448, and R$7,061, respectively.

The Group has entered into operating leases for the restaurants locations. These leases have an average life of between 10 to 15 years. Future minimum rentals payable under non-cancellable operating leases as at December 31 are as follows:

	2011 (unaudited)	2010	2009 (unaudited)

17. Insurance coverage

The Group maintains insurance coverage primarily for risks of loss relating to property damages, loss of profit, and fixed asset items. Coverage amounts are deemed sufficient by Management to cover any potential losses. At December 31, 2011, the Group had the following main insurance policies contracted with third parties:

Type	Insurance company	Inception date	Expiry date	Maximum indemnity limit
Property damages	Generali Brasil Seguros	30/Sep/2011	30/Jun/2012	R$ 10,000

Directors and Officers liability	Ace Seguradora S.A.	11/Jul/2011	11/Jul/2012	R$ 5,000

18. Summary and reconciliation of the differences between the accounting practices adopted in Brazil and accounting principles generally accepted in the United States of America

The consolidated financial statements were prepared and are presented in accordance with BR GAAP, which comprise the pronouncements, interpretations and guidance issued by the Brazilian Accounting Pronouncements Committee ("CPC"). Note 4 to the consolidated financial statements summarizes the principal accounting practices adopted by the Group.

BR GAAP differs, in certain significant respects, from US GAAP. No relevant differences between BR GAAP and US GAAP were identified for the Group's members' equity and net income as of and for the years ended December 31, 2011 (unaudited), 2010, and 2009 (unaudited).

Classification of statement of cash flows

Under BR GAAP, the classification of certain cash flow items is presented differently from US GAAP. Under BR GAAP, interest paid is recorded in financing activities. For US GAAP purposes, interest paid is classified in operating activities.

Recently Issued Accounting Standards

In December 2011, the FASB issued ASU No. 2011-11, Balance Sheet (Topic 210): Disclosures about Offsetting Assets and Liabilities. ASU 2011-11 requires an entity to disclose information about offsetting and related arrangements to enable users of financial statements to understand the effect of those arrangements on its financial position, and to allow investors to better compare financial statements prepared under U.S. GAAP with financial statements prepared under International Financial Reporting Standards (IFRS). The new standards are effective for annual periods beginning January 1, 2013, and interim periods within those annual periods. Retrospective application is required. The Company will implement the provisions of ASU 2011-11 as of January 1, 2013.

18. Summary and reconciliation of the differences between the accounting practices adopted in Brazil and accounting principles generally accepted in the United States of America (Continued)

In June 2011, the FASB issued ASU 2011-05, Comprehensive Income (Topic 220): Presentation of Comprehensive Income. Under this ASU, an entity will have the option to present the components of net income and comprehensive income in either one or two consecutive financial statements. The ASU eliminates the option in U.S. GAAP to present other comprehensive income in the statement of changes in equity. An entity should apply the ASU retrospectively. For a nonpublic entity, the ASU is effective for fiscal years ending after December 15, 2012, and interim and annual periods thereafter. Early adoption is permitted. In December 2011, the FASB decided to defer the effective date of those changes in ASU 2011-05 that relate only to the presentation of reclassification adjustments in the statement of income by issuing ASU 2011-12, Comprehensive Income (Topic 220): Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive income in Accounting Standards Update 2011-05. The Company plans to implement the provisions of ASU 2011-05 by presenting a separate statement of other comprehensive income following the statement of income in 2012.

In May 2011, the FASB issued ASU 2011-04, Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs. The new standards do not extend the use of fair value but, rather, provide guidance about how fair value should be applied where it already is required or permitted under IFRS or U.S. GAAP. For U.S. GAAP, most of the changes are clarifications of existing guidance or wording changes to align with IFRS. A nonpublic entity is required to apply the ASU prospectively for annual periods beginning after December 15, 2011. The Company expects that the adoption of ASU 2011-04 in 2012 will not have a material impact on its consolidated financial statements.

In October 2009, the FASB issued Accounting Standards Update (ASU) 2009-13, Revenue Recognition (Topic 605): Multiple Deliverable Revenue Arrangements (EITF Issue No. 08-1, “Revenue Arrangements with Multiple Deliverables”). ASU 2009-13 amends FASB ASC Subtopic 605-25, Revenue Recognition-Multiple-Element Arrangements, to eliminate the requirement that all undelivered elements have vendor specific objective evidence of selling price (VSOE) or third party evidence of selling price (TPE) before an entity can recognize the portion of an overall arrangement fee that is attributable to items that already have been delivered. In the absence of VSOE and TPE for one or more delivered or undelivered elements in a multiple element arrangement, entities will be required to estimate the selling prices of those elements. The overall arrangement fee will be allocated to each element (both delivered and undelivered items) based on their relative selling prices, regardless of whether those selling prices are evidenced by VSOE or TPE or are based on the entity’s estimated selling price. Application of the “residual method” of allocating an overall arrangement fee between delivered and undelivered elements will no longer be permitted upon adoption of ASU 2009-13. Additionally, the new guidance will require entities to disclose more information about their multiple element revenue arrangements. ASU 2009-13 is effective prospectively for revenue arrangements entered into or materially modified in fiscal years beginning on or after June 15, 2010. Early adoption is permitted. The adoption of ASU 2009-13 in 2011 did not have an effect on the Company’s consolidated financial statements.

The Registrant is governed by the Delaware General Corporation Law, or DGCL. Section 145 of the DGCL provides that a corporation may indemnify any person, including an officer or director, who was or is, or is threatened to be made, a party to any threatened, pending or completed legal action, suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of such corporation), by reason of the fact that such person was or is an officer, director, employee or agent of such corporation or is or was serving at the request of such corporation as a director, officer, employee or agent of another corporation or enterprise. The indemnity may include expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by such person in connection with such action, suit or proceeding, provided such officer, director, employee or agent acted in good faith and in a manner such person reasonably believed to be in, or not opposed to, the corporation's best interest and, for criminal proceedings, had no reasonable cause to believe that such person's conduct was unlawful. A Delaware corporation may indemnify any person, including an officer or director, who was or is, or is threatened to be made, a party to any threatened, pending or contemplated action or suit by or in the right of such corporation, under the same conditions, except that such indemnification is limited to expenses (including attorneys' fees) actually and reasonably incurred by such person, and except that no indemnification is permitted without judicial approval if such person is adjudged to be liable to such corporation. Where an officer or director of a corporation is successful, on the merits or otherwise, in the defense of any action, suit or proceeding referred to above, or any claim, issue or matter therein, the corporation must indemnify that person against the expenses (including attorneys' fees) which such officer or director actually and reasonably incurred in connection therewith.

The Registrant's amended and restated bylaws will authorize the indemnification of its officers and directors, consistent with Section 145 of the Delaware General Corporation Law, as amended. The Registrant intends to enter into indemnification agreements with each of its directors and executive officers. These agreements, among other things, will require the Registrant to indemnify each director and executive officer to the fullest extent permitted by Delaware law, including advancement of expenses such as attorneys' fees, judgments, fines and settlement amounts incurred by the director or executive officer in any action or proceeding, including any action or proceeding by or in right of the Registrant, arising out of the person's services as a director or executive officer.

Reference is made to Section 102(b)(7) of the DGCL, which enables a corporation in its original certificate of incorporation or an amendment thereto to eliminate or limit the personal liability of a director for violations of the director's fiduciary duty, except (i) for any breach of the director's duty of loyalty to the corporation or its stockholders, (ii) for acts or omissions not in good faith or that involve intentional misconduct or a knowing violation of law, (iii) pursuant to Section 174 of the DGCL, which provides for liability of directors for unlawful payments of dividends or unlawful stock purchases or redemptions or (iv) for any transaction from which a director derived an improper personal benefit.

The Registrant expects to maintain standard policies of insurance that provide coverage (i) to its directors and officers against loss arising from claims made by reason of breach of duty or other wrongful act and (ii) to the Registrant with respect to indemnification payments that it may make to such directors and officers.

The proposed form of Underwriting Agreement to be filed as Exhibit 1.1 to this Registration Statement provides for indemnification to the Registrant's directors and officers by the underwriters against certain liabilities.

Item 17. Undertakings.

The undersigned Registrant hereby undertakes to provide to the underwriters at the closing specified in the underwriting agreement, certificates in such denominations and registered in such names as required by the underwriters to permit prompt delivery to each purchaser.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the Registrant pursuant to the foregoing provisions, or otherwise, the Registrant has been advised that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the Registrant of expenses incurred or paid by a director, officer or controlling person of the Registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the Registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

The undersigned Registrant hereby undertakes that:

(1) For purposes of determining any liability under the Securities Act, the information omitted from the form of prospectus filed as part of this registration statement in reliance upon Rule 430A and contained in a form of prospectus filed by the Registrant pursuant to Rule 424(b)(1) or (4) or 497(h) under the Securities Act shall be deemed to be part of this registration statement as of the time it was declared effective.

(2) For the purpose of determining any liability under the Securities Act, each post-effective amendment that contains a form of prospectus shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

Pursuant to the requirements of the Securities Act of 1933, the registrant has duly caused this registration statement to be signed on its behalf by the undersigned, thereunto duly authorized, in the City of Tampa, State of Florida, on April 6, 2012.

(a) Any request, demand, authorization, direction, notice, consent, waiver or other action provided by this Indenture to be given or taken by Holders may be embodied in and evidenced by one or more instruments of substantially similar tenor signed by such Holders in person or by an agent duly appointed in writing. Except as herein otherwise expressly provided, such action shall become effective when such instrument or instruments are delivered to the Trustee and, where it is hereby expressly required, to the Co-Issuers. Proof of execution of any such instrument or of a writing appointing any such agent, or the holding by any Person of a Note, shall be sufficient for any purpose of this Indenture

and (subject to Section 7.01) conclusive in favor of the Trustee and the Co-Issuers, if made in the manner provided in this Section 1.05.

If such a record date is fixed, the Holders on such record date or their duly appointed proxy or proxies, and only such Persons, shall be entitled to make, give or take such request, demand, authorization, direction, notice, consent, waiver or other action, whether or not such Holders remain Holders after such record date. No such request, demand, authorization, direction, notice, consent, waiver or other action shall be valid or effective if made, given or taken more than 90 days after such record date.

Any endorsement of a Global Note to reflect the amount of any increase or decrease in the aggregate principal amount of outstanding Notes represented thereby shall be made by the Trustee or the Custodian, at the direction of the Trustee, in accordance with instructions given by the Holder thereof as required by Section 2.06 hereof.

The Issuer at any time may require a Paying Agent to pay all money held by it to the Trustee. Upon payment over to the Trustee, the Paying Agent (if other than the Issuer or a Subsidiary) shall have no further liability for the money. of the Restricted Period and (B) the receipt by the Registrar of any certificates required pursuant to Rule 903. Upon consummation of an Exchange Offer by the Co-Issuers in accordance with Section 2.06(f) hereof, the requirements of this Section 2.06(b)(ii) shall be deemed to have been satisfied upon receipt by the Registrar of the instructions contained in the Letter of Transmittal delivered by the Holder of such beneficial interests in the Restricted Global Notes. Upon satisfaction of all of the requirements for transfer or exchange of beneficial interests in Global Notes contained in this Indenture and the Notes or otherwise applicable under the Securities Act, the Trustee shall adjust the principal amount of the relevant Global Note(s) pursuant to Section 2.06(h) hereof.

(iii) Transfer of Beneficial Interests to Another Restricted Global Note . A beneficial interest in any Restricted Global Note may be transferred to a Person who takes delivery thereof in the form of a beneficial interest in another Restricted Global Note if the transfer complies with the requirements of Section 2.06(b)(ii) hereof and the Registrar receives the following:

(A) such exchange or transfer is effected pursuant to the Exchange Offer in accordance with the Registration Rights Agreement and the holder of the beneficial interest to be transferred, in the case of an exchange, or the transferee, in the case of a transfer, certifies in the applicable Letter of Transmittal that it is not (1) a Participating Broker-Dealer, (2) a Person participating in the distribution of the Exchange Notes or (3) a Person who is an affiliate (as defined in Rule 144) of the Co-Issuers;

(B) such transfer is effected pursuant to the Shelf Registration Statement in accordance with the Registration Rights Agreement;

(C) such transfer is effected by a Participating Broker-Dealer pursuant to the Exchange Offer Registration Statement in accordance with the Registration Rights Agreement; or

and, in each such case set forth in this subparagraph (D), if the Registrar so requests or if the Applicable Procedures so require, an Opinion of Counsel in form reasonably acceptable to the Registrar to the effect that such exchange or transfer is in compliance with the Securities Act and that the restrictions on transfer contained herein and in the Private Placement Legend are no longer required in order to maintain compliance with the Securities Act.

If any such transfer is effected pursuant to subparagraph (B) or (D) above at a time when an Unrestricted Global Note has not yet been issued, the Co-Issuers shall issue and, upon receipt of an Authentication Order in accordance with Section 2.02 hereof, the Trustee shall authenticate one or more Unrestricted Global Notes in an aggregate principal amount equal to the aggregate principal amount of beneficial interests transferred pursuant to subparagraph (B) or (D) above.

If required by the Trustee or the Co-Issuers, an indemnity bond must be supplied by the Holder that is sufficient in the judgment of the Trustee and the Co-Issuers to protect the Co-Issuers, the Trustee, any Agent and any authenticating agent from any loss that any of them may suffer if a Note is replaced. The Co-Issuers may charge for its expenses in replacing a Note.

Every replacement Note is a contractual obligation of the Co-Issuers and shall be entitled to all of the benefits of this Indenture equally and proportionately with all other Notes duly issued hereunder.

If the principal amount of any Note is considered paid under Section 4.01 hereof, it ceases to be outstanding and interest on it ceases to accrue.

If the Paying Agent (other than the Issuer, a Subsidiary or an Affiliate of any thereof) holds, on a redemption date or maturity date, money sufficient to pay Notes payable on that date, then on and after that date such Notes shall be deemed to be no longer outstanding and shall cease to accrue interest.

Section 2.09 Treasury Notes.

In determining whether the Holders of the required principal amount of Notes have concurred in any direction, waiver or consent, Notes owned by the Co-Issuers, or by any Affiliate of the Co-Issuers, shall be considered as though not outstanding, except that for the purposes of determining whether the Trustee shall be protected in relying on any such direction, waiver or consent, only Notes that a Responsible Officer of the Trustee knows are so owned shall be so disregarded. Notes so owned which have been pledged in good faith shall not be disregarded if the pledgee establishes to the satisfaction of the Trustee the pledgee's right to deliver any such direction, waiver or consent with respect to the Notes and that the pledgee is not the Issuer or any obligor upon the Notes or any Affiliate of the Issuer or of such other obligor.

Section 2.10 Temporary Notes.

Until certificates representing Notes are ready for delivery, the Co-Issuers may prepare and the Trustee, upon receipt of an Authentication Order, shall authenticate temporary Notes. Temporary Notes shall be substantially in the form of certificated Notes but may have variations that the Co-Issuers consider appropriate for temporary Notes and as shall be reasonably acceptable to the Trustee. Without unreasonable delay, the Co-Issuers shall prepare and the Trustee shall authenticate definitive Notes in exchange for temporary Notes.

Holders and beneficial holders, as the case may be, of temporary Notes shall be entitled to all of the benefits accorded to Holders, or beneficial holders, respectively, of Notes under this Indenture.

Section 2.11 Cancellation.

The Co-Issuers at any time may deliver Notes to the Trustee for cancellation. The Registrar and Paying Agent shall forward to the Trustee any Notes surrendered to them for registration of transfer, exchange or payment. The Trustee or, at the direction of the Trustee, the Registrar or the Paying Agent and no one else shall cancel all Notes surrendered for registration of transfer, exchange, payment, replacement or cancellation and shall dispose of cancelled Notes (subject to the record retention requirement of the Exchange Act) in its customary manner. Certification of the disposal of all cancelled Notes shall be delivered to the Issuer upon its request therefor. The Co-Issuers may not issue new Notes to replace Notes that they have paid or that have been delivered to the Trustee for cancellation.

Section 2.12 Defaulted Interest.

If the Co-Issuers default in a payment of interest on the Notes, it shall pay the defaulted interest in any lawful manner plus, to the extent lawful, interest payable on the defaulted interest to the Persons who are Holders on a subsequent special record date, in each case at the rate provided in the Notes and in Section 4.01 hereof. The Co-Issuers shall notify the Trustee in writing of the amount of defaulted interest proposed to be paid on each Note and the date of the proposed payment, and at the same time the Co-Issuers shall deposit with the Trustee an amount of money equal to the aggregate amount proposed to be paid in respect of such defaulted interest or shall make arrangements satisfactory to the Trustee for such deposit prior to the date of the proposed payment, such money when deposited to be held in trust for the benefit of the Persons entitled to such defaulted interest as provided in this Section 2.12. The Trustee shall fix or cause to be fixed each such special record date and payment date; provided that no such special record date shall be less than 10 days prior to the related payment date for such defaulted interest. The Trustee shall promptly notify the Co-Issuers of such special record date. At least 15 days before the special record date, the Issuer (or, upon the written request of the Issuer, the Trustee in the

name and at the expense of the Co-Issuers) shall mail or cause to be mailed, first-class postage prepaid, to each Holder a notice at his or her address as it appears in the Note Register that states the special record date, the related payment date and the amount of such interest to be paid.

Subject to the foregoing provisions of this Section 2.12 and for greater certainty, each Note delivered under this Indenture upon registration of transfer of or in exchange for or in lieu of any other Note shall carry the rights to interest accrued and unpaid, and to accrue, which were carried by such other Note.

Section 2.13 CUSIP Numbers.

The Co-Issuers in issuing the Notes may use CUSIP numbers (if then generally in use) and, if so, the Trustee shall use CUSIP numbers in notices of redemption as a convenience to Holders; provided that any such notice may state that no representation is made as to the correctness of such numbers either as printed on the Notes or as contained in any notice of redemption and that reliance may be placed only on the other identification numbers printed on the Notes, and any such redemption shall not be affected by any defect in or omission of such numbers. The Co-Issuers will as promptly as practicable notify the Trustee of any change in the CUSIP numbers.

ARTICLE 3

Section 3.01 Notices to Trustee.

If the Co-Issuers elect to redeem Notes pursuant to Section 3.07 hereof, they shall furnish to the Trustee, at least 2 Business Days before notice of redemption is required to be mailed or caused to be mailed to Holders pursuant to Section 3.03 hereof but not more than 60 days before a redemption date, an Officer's Certificate setting forth (i) the paragraph or subparagraph of such Notes and/or Section of this Indenture pursuant to which the redemption shall occur, (ii) the redemption date, (iii) the principal amount of the Notes to be redeemed and (iv) the redemption price.

Section 3.02 Selection of Notes To Be Redeemed or Purchased.

If less than all of the Notes are to be redeemed or purchased in an offer to purchase at any time, the Trustee shall select the Notes to be redeemed or purchased (a) if the Notes are listed on any national securities exchange, in compliance with the requirements of the principal national securities exchange on which the Notes are listed or (b) on a *pro rata* basis or, to the extent that selection on a *pro rata* basis is not practicable, by lot or by such other method the Trustee considers fair and appropriate. In the event of partial redemption or purchase by lot, the particular Notes to be redeemed or purchased shall be selected, unless otherwise provided herein, not less than 30 nor more than 60 days prior to the redemption date by the Trustee from the outstanding Notes not previously called for redemption or purchase.

The Trustee shall promptly notify the Co-Issuers in writing of the Notes selected for redemption or purchase and, in the case of any Note selected for partial redemption or purchase, the principal amount thereof to be redeemed or purchased. Notes and portions of Notes selected shall be in amounts of $1,000 or whole multiples of $1,000; no Notes of $1,000 or less can be redeemed in part, except that if all of the Notes of a Holder are to be redeemed or purchased, the entire outstanding amount of Notes held by such Holder, even if not a multiple of $1,000, shall be redeemed or purchased. Except as provided in the preceding sentence, provisions of this Indenture that apply to Notes called for redemption or purchase also apply to portions of Notes called for redemption or purchase.

Section 3.03 Notice of Redemption.

Subject to Section 3.09 hereof, the Co-Issuers shall mail or cause to be mailed by first-class mail, postage prepaid, notices of redemption at least 30 days but not more than 60 days before the redemption date to each Holder of Notes to be redeemed at such Holder's registered address or shall otherwise deliver on such timeframe such notice in accordance with the procedures of DTC, except that redemption notices may be mailed more than 60 days prior to a redemption date if the notice is issued in connection with Article 8 or Article 11 hereof. Except as set forth in Section 3.07(b) hereof, notices of redemption may not be conditional.

The notice shall identify the Notes to be redeemed and shall state:

(a) the redemption date;

(b) the redemption price;

(c) if any Note is to be redeemed in part only, the portion of the principal amount of that Note that is to be redeemed and that, after the redemption date upon surrender of such Note, a new Note or Notes in principal amount equal to the unredeemed portion of the original Note representing the same indebtedness to the extent not redeemed will be issued in the name of the Holder of the Notes upon cancellation of the original Note;

(d) the name and address of the Paying Agent;

(e) that Notes called for redemption must be surrendered to the Paying Agent to collect the redemption price;

(f) that, unless the Co-Issuers default in making such redemption payment, interest on Notes called for redemption ceases to accrue on and after the redemption date;

(g) the paragraph or subparagraph of the Notes and/or Section of this Indenture pursuant to which the Notes called for redemption are being redeemed;

(h) that no representation is made as to the correctness or accuracy of the CUSIP number, if any, listed in such notice or printed on the Notes; and

(i) if in connection with a redemption pursuant to Section 3.07(b) hereof, any condition to such redemption.

At the Co-Issuers' request, the Trustee shall give the notice of redemption in the Co-Issuers' name and at their expense; provided that the Co-Issuers shall have delivered to the Trustee, at least 2 Business Days before notice of redemption is required to be mailed or caused to be mailed to Holders pursuant to this Section 3.03 (unless a shorter notice shall be agreed to by the Trustee), an Officer's Certificate requesting that the Trustee give such notice and setting forth the information to be stated in such notice as provided in the preceding paragraph.

Section 3.04 Effect of Notice of Redemption.

Once notice of redemption is mailed in accordance with Section 3.03 hereof, Notes called for redemption become irrevocably due and payable on the redemption date at the redemption price (except as provided for in Section 3.07(b) hereof). The notice, if mailed in a manner herein provided, shall

be conclusively presumed to have been given, whether or not the Holder receives such notice. In any case, failure to give such notice by mail or any defect in the notice to the Holder of any Note designated for redemption in whole or in part shall not affect the validity of the proceedings for the redemption of any other Note. Subject to Section 3.05 hereof, on and after the redemption date, interest ceases to accrue on Notes or portions of Notes called for redemption.

Section 3.05 Deposit of Redemption or Purchase Price.

Prior to 10:00 a.m. (New York City time) on the redemption or purchase date, the Co-Issuers shall deposit with the Trustee or with the Paying Agent money sufficient to pay the redemption or purchase price of and accrued and unpaid interest (including Additional Interest, if any) on all Notes to be redeemed or purchased on that date. The Trustee or the Paying Agent shall promptly return to the Co-Issuers any money deposited with the Trustee or the Paying Agent by the Co-Issuers in excess of the amounts necessary to pay the redemption price of, and accrued and unpaid interest on, all Notes to be redeemed or purchased.

If the Co-Issuers comply with the provisions of the preceding paragraph, on and after the redemption or purchase date, interest shall cease to accrue on the Notes or the portions of Notes called for redemption or purchase. If a Note is redeemed or purchased on or after a Record Date but on or prior to the related Interest Payment Date, then any accrued and unpaid interest to the redemption or purchase date shall be paid to the Person in whose name such Note was registered at the close of business on such Record Date. If any Note called for redemption or purchase shall not be so paid upon surrender for redemption or purchase because of the failure of the Co-Issuers to comply with the preceding paragraph, interest shall be paid on the unpaid principal, from the redemption or purchase date until such principal is paid, and to the extent lawful on any interest accrued to the redemption or purchase date not paid on such unpaid principal, in each case at the rate provided in the Notes and in Section 4.01 hereof.

Section 3.06 Notes Redeemed or Purchased in Part.

Upon surrender of a Note that is redeemed or purchased in part, the Co-Issuers shall issue and the Trustee shall authenticate for the Holder at the expense of the Co-Issuers a new Note equal in principal amount to the unredeemed or unpurchased portion of the Note surrendered representing the same indebtedness to the extent not redeemed or purchased; provided that each new Note will be in a principal amount of $1,000 or an integral multiple of $1,000. It is understood that, notwithstanding anything in this Indenture to the contrary, only an Authentication Order and not an Opinion of Counsel or Officer's Certificate is required for the Trustee to authenticate such new Note.

Section 3.07 Optional Redemption.

(a) At any time prior to June 15, 2011, the Co-Issuers may redeem all or a part of the Notes, upon not less than 30 nor more than 60 days' prior notice mailed by first-class mail to the registered address of each Holder of Notes or otherwise delivered in accordance with the procedures of DTC, at a redemption price equal to 100% of the principal amount of the Notes redeemed plus the Applicable Premium as of, and accrued and unpaid interest and Additional Interest, if any, to the date of redemption (the "**Redemption Date**"), subject to the rights of Holders of record on the relevant Record Date to receive interest due on the relevant Interest Payment Date.

interest thereon and Additional Interest, if any, to the applicable Redemption Date, subject to the right of Holders of record on the relevant Record Date to receive interest due on the relevant Interest Payment Date, with the net cash proceeds of one or more Equity Offerings; provided that at least 50% of the sum of the aggregate principal amount of Notes originally issued under this Indenture and any Additional Notes that are issued under this Indenture after the Issue Date remains outstanding immediately after the occurrence of each such redemption; provided further that each such redemption occurs within 90 days of the date of closing of each such Equity Offering. Notice of any redemption upon any Equity Offering may be given prior to such redemption, and any such redemption or notice may, at the Co-Issuers' discretion, be subject to one or more conditions precedent, including, but not limited to, completion of the related Equity Offering.

(c) Except pursuant to Sections 3.07(a) and (b), the Notes will not be redeemable at the Issuer's option before June 15, 2011.

(d) On and after June 15, 2011, the Co-Issuers may redeem the Notes, in whole or in part, at the redemption prices (expressed as percentages of principal amount of the Notes to be redeemed) set forth below, plus accrued and unpaid interest thereon and Additional Interest, if any, to the applicable Redemption Date, subject to the right of Holders of record on the relevant Record Date to receive interest due on the relevant Interest Payment Date, if redeemed during the twelve-month period beginning on June 15 of each of the years indicated below:

Year	Percentage
2011	105.000%
2012	102.500%
2013 and thereafter	100.000%

(e) Any redemption pursuant to this Section 3.07 shall be made pursuant to the provisions of Sections 3.01 through 3.06 hereof.

Section 3.08 Mandatory Redemption.

The Co-Issuers shall not be required to make mandatory redemption or sinking fund payments with respect to the Notes.

Section 3.09 Offers To Repurchase by Application of Excess Proceeds.

(a) In the event that, pursuant to Section 4.10 hereof, the Co-Issuers shall be required to commence an Asset Sale Offer, they shall follow the procedures specified below.

(b) The Asset Sale Offer shall remain open for a period of 20 Business Days following its commencement and no longer, except to the extent that a longer period is required by applicable law (the "**Offer Period**"). No later than five Business Days after the termination of the Offer Period (the " **Purchase Date**"), the Co-Issuers shall apply all Excess Proceeds (the "**Offer Amount**") to the purchase of Notes and, if required, Pari Passu Indebtedness (on a *pro rata* basis, if applicable), or, if less than the Offer Amount has been tendered, all Notes and Pari Passu Indebtedness tendered in response to the Asset Sale Offer. Payment for any Notes so purchased shall be made in the same manner as interest payments are made.

(c) If the Purchase Date is on or after a Record Date and on or before the related Interest Payment Date, any accrued and unpaid interest and Additional Interest, if any, up to but excluding

the Purchase Date, shall be paid to the Person in whose name a Note is registered at the close of business on such Record Date, and no additional interest shall be payable to Holders who tender Notes pursuant to the Asset Sale Offer.

(d) Upon the commencement of an Asset Sale Offer, the Co-Issuers shall send, by first-class mail, a notice to each of the Holders, with a copy to the Trustee. The notice shall contain all instructions and materials necessary to enable such Holders to tender Notes pursuant to the Asset Sale Offer. The Asset Sale Offer shall be made to all Holders and holders of Pari Passu Indebtedness. The notice, which shall govern the terms of the Asset Sale Offer, shall state:

(i) that the Asset Sale Offer is being made pursuant to this Section 3.09 and Section 4.10 hereof and the length of time the Asset Sale Offer shall remain open;

(ii) the Offer Amount, the purchase price and the Purchase Date;

(iii) that any Note not tendered or accepted for payment shall continue to accrue interest;

(iv) that, unless the Co-Issuers default in making such payment, any Note accepted for payment pursuant to the Asset Sale Offer shall cease to accrue interest on and after the Purchase Date;

(v) that Holders electing to have a Note purchased pursuant to an Asset Sale Offer may elect to have Notes purchased in integral multiples of $1,000 only;

(vi) that Holders electing to have a Note purchased pursuant to any Asset Sale Offer shall be required to surrender the Note, with the form entitled "Option of Holder to Elect Purchase" attached to the Note completed, or transfer such Note by book-entry transfer, to the Issuer, the Depositary, if appointed by the Issuer, or a Paying Agent at the address specified in the notice at least three days before the Purchase Date;

(vii) that Holders shall be entitled to withdraw their election if the Co-Issuers, the Depositary or the Paying Agent, as the case may be, receive, not later than the expiration of the Offer Period, a telegram, facsimile transmission or letter setting forth the name of the Holder, the principal amount of the Note the Holder delivered for purchase and a statement that such Holder is withdrawing his election to have such Note purchased;

(viii) that, if the aggregate principal amount of Notes and Pari Passu Indebtedness surrendered by the holders thereof exceeds the Offer Amount, the Trustee shall select the Notes and the Co-Issuers, or, if so elected by the Co-Issuers, the agent for such Pari Passu Indebtedness, shall select such Pari Passu Indebtedness to be purchased on a *pro rata* basis based on the accreted value or principal amount of the Notes or such Pari Passu Indebtedness tendered (with such adjustments as may be deemed appropriate by the Trustee so that only Notes in denominations of $1,000, or integral multiples thereof, shall be purchased); and

(ix) that Holders whose Notes were purchased only in part shall be issued new Notes equal in principal amount to the unpurchased portion of the Notes surrendered (or transferred by book-entry transfer) representing the same indebtedness to the extent not repurchased.

(e) On or before the Purchase Date, the Co-Issuers shall, to the extent lawful, (1) accept for payment, on a *pro rata* basis to the extent necessary, the Offer Amount of Notes or portions

thereof validly tendered pursuant to the Asset Sale Offer, or if less than the Offer Amount has been tendered, all Notes tendered and (2) deliver or cause to be delivered to the Trustee the Notes properly accepted together with an Officer's Certificate stating the aggregate principal amount of Notes or portions thereof so tendered.

(f) The Co-Issuers, the Depositary or the Paying Agent, as the case may be, shall promptly mail or deliver to each tendering Holder an amount equal to the purchase price of the Notes properly tendered by such Holder and accepted by the Co-Issuers for purchase, and the Co-Issuers shall promptly issue a new Note, and the Trustee, upon receipt of an Authentication Order, shall authenticate and mail or deliver (or cause to be transferred by book-entry) such new Note to such Holder (it being understood that, notwithstanding anything in this Indenture to the contrary, no Opinion of Counsel or Officer's Certificate is required for the Trustee to authenticate and mail or deliver such new Note) in a principal amount equal to any unpurchased portion of the Note surrendered representing the same indebtedness to the extent not repurchased; provided that each such new Note shall be in a principal amount of $1,000 or an integral multiple thereof. Any Note not so accepted shall be promptly mailed or delivered by the Co-Issuers to the Holder thereof. COVENANTS

Section 4.01 Payment of Notes.

The Co-Issuers shall pay or cause to be paid the principal of, premium, if any, Additional Interest, if any, and interest on the Notes on the dates and in the manner provided in the Notes. Principal, premium, if any, Additional Interest, if any, and interest shall be considered paid on the date due if the Paying Agent, if other than the Co-Issuers or a Subsidiary, holds as of noon Eastern Time on the due date money deposited by the Co-Issuers in immediately available funds and designated for and sufficient to pay all principal, premium, if any, and interest then due. If a payment date is not a Business Day, payment may be made on the next succeeding day that is a Business Day and no interest shall accrue for the intervening period if payment is so made on such Business Day.

The Co-Issuers shall pay all Additional Interest, if any, in the same manner on the dates and in the amounts set forth in the Registration Rights Agreement.

The Co-Issuers shall pay interest (including post-petition interest in any proceeding under any Bankruptcy Law) on overdue principal at the rate equal to the then applicable interest rate on the Notes to the extent lawful; it shall pay interest (including post-petition interest in any proceeding under any Bankruptcy Law) on overdue installments of interest and Additional Interest (without regard to any applicable grace period) at the same rate to the extent lawful.

Section 4.02 Maintenance of Office or Agency.

The Co-Issuers shall maintain an office or agency (which may be an office of the Trustee or an affiliate of the Trustee, Registrar or co-registrar) where Notes may be surrendered for registration of transfer or for exchange or presented for payment and where notices and demands to or upon the Co-

Issuers in respect of the Notes and this Indenture may be served. The Co-Issuers shall give prompt written notice to the Trustee of the location, and any change in the location, of such office or agency. If at any time the Co-Issuers shall fail to maintain any such required office or agency or shall fail to furnish the Trustee with the address thereof, such presentations, surrenders, notices and demands may be made or served at the Corporate Trust Office of the Trustee.

The Co-Issuers may also from time to time designate one or more other offices or agencies where the Notes may be presented or surrendered for any or all such purposes and may from time to time rescind such designations; provided that no such designation or rescission shall in any manner relieve the Co-Issuers of their obligation to maintain an office or agency for such purposes. The Co-Issuers shall give prompt written notice to the Trustee of any such designation or rescission and of any change in the location of any such other office or agency.

The Co-Issuers hereby initially designate the office of the Trustee located at 213 Court Street, Suite 703, Middletown, CT 06457, Attention: Joseph P. O'Donnell, Vice President, as one such office or agency of the Co-Issuers in accordance with Section 2.03 hereof.

Section 4.03 Reports and Other Information.

Notwithstanding that the Issuer may not be subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act or otherwise report on an annual and quarterly basis on forms provided for such annual and quarterly reporting pursuant to rules and regulations promulgated by the SEC, the Issuer shall file with the SEC within 15 days after the dates set forth below:

(1) within 90 days after the end of each fiscal year (105 days for the fiscal year ending December 31, 2007), annual reports on Form 10-K, or any successor or comparable form, containing the information required to be contained therein, or required in such successor or comparable form;

(2) within 45 days after the end of each of the first three fiscal quarters of each fiscal year (75 days for the fiscal quarter ending June 30, 2007 and September 30, 2007), reports on Form 10-Q containing all quarterly information that would be required to be contained in Form 10-Q, or any successor or comparable form;

(3) promptly from time to time after the occurrence of an event required to be therein reported, such other reports on Form 8-K, or any successor or comparable form; and

(4) any other information, documents and other reports which the Issuer would be required to file with the SEC if it were subject to Section 13 or 15(d) of the Exchange Act beginning on and after the Issue Date;

in each case, in a manner that complies in all material respects with the requirements specified in such form. Notwithstanding the foregoing, the Issuer shall not be so obligated to file such reports with the SEC (i) if the SEC does not permit such filing or (ii) prior to the consummation of an exchange offer or the effectiveness of a shelf registration statement as required by the Registration Rights Agreement, so long as if clause (i) or (ii) is applicable the Issuer makes available such information to prospective purchasers of Notes, in addition to providing such information to the Trustee and the Holders of the Notes, in each case, at the Issuer's expense and by the applicable date the Issuer would be required to file such information pursuant to the immediately preceding sentence. To the extent any such information is not so filed or furnished, as applicable, within the time periods specified above and such information is subsequently filed or furnished, as applicable, the Issuer will be deemed to have satisfied its obligations with

respect thereto at such time and any Default with respect thereto shall be deemed to have been cured; provided that such cure shall not otherwise affect the rights of the Holders under Article 6 hereof if Holders of at least 25% in principal amount of the then total outstanding Notes have declared the principal, premium, if any, interest and any other monetary obligations on all the then outstanding Notes to be due and payable immediately and such declaration shall not have been rescinded or cancelled prior to such cure. In addition, to the extent not satisfied by the foregoing, for so long as any Notes are outstanding, the Issuer shall furnish to Holders and to securities analysts and prospective investors, upon their request, the information required to be delivered pursuant to Rule 144A(d)(4) under the Securities Act. The Issuer will deliver the financial statements and information of the type required to be delivered pursuant to clause (2) of the first sentence of this Section 4.03 with respect to the fiscal quarter ended June 30, 2007, which, notwithstanding the foregoing, shall not be required to give *pro forma* effect to the Transactions, shall not be required to contain financial statement footnote disclosure and shall not be required to contain consolidating financial data with respect to the Guarantor and non-Guarantor Subsidiaries of the type contemplated by Rule 3-10 of Regulation S-X promulgated under the Securities Act or otherwise.

In the event that any direct or indirect parent company of the Issuer becomes a guarantor of the Notes, the Issuer may satisfy its obligations under this Section 4.03 with respect to financial information relating to the Issuer by furnishing financial information relating to such parent; provided that the same is accompanied by consolidating information that explains in reasonable detail the differences between the information relating to such parent, on the one hand, and the information relating to the Issuer and its Restricted Subsidiaries on a standalone basis, on the other hand.

Notwithstanding the foregoing, the requirements of this Section 4.03 shall be deemed satisfied prior to the commencement of the Exchange Offer or the effectiveness of the Shelf Registration Statement by the filing with the SEC of the Exchange Offer Registration Statement or Shelf Registration Statement or any other filing, and any amendments thereto, with such financial information that satisfies Regulation S-X of the Securities Act.

Delivery of such reports, information and documents to the Trustee is for informational purposes only and the Trustee's receipt of such shall not constitute constructive notice of any information contained therein or determinable from information contained therein, including the Issuer's compliance with any of its covenants hereunder (as to which the Trustee is entitled to rely exclusively on Officer's Certificates).

Section 4.04 Compliance Certificate.

(a) The Co-Issuers and each Guarantor (to the extent that such Guarantor is so required under the Trust Indenture Act) shall deliver to the Trustee, within 120 days after the end of each fiscal year ending after the Issue Date, a certificate from the principal executive officer, principal financial officer or principal accounting officer stating that a review of the activities of the Co-Issuers and the Restricted Subsidiaries during the preceding fiscal year has been made under the supervision of the signing Officer with a view to determining whether the Co-Issuers have kept, observed, performed and fulfilled their obligations under this Indenture, and further stating, as to such Officer signing such certificate, that to the best of his or her knowledge the Co-Issuers have kept, observed, performed and fulfilled each and every condition and covenant contained in this Indenture during such fiscal year and are not in default in the performance or observance of any of the terms, provisions, covenants and conditions of this Indenture (or, if a Default shall have occurred, describing all such Defaults of which he or she may have knowledge and what action the Co-Issuers are taking or propose to take with respect thereto).

(b) When any Default has occurred and is continuing under this Indenture, or if the Trustee or the holder of any other evidence of Indebtedness of the Co-Issuers or any Subsidiary gives any

notice or takes any other action with respect to a claimed Default, the Co-Issuers shall promptly (which shall be no more than five (5) Business Days) deliver to the Trustee by registered or certified mail or by facsimile transmission an Officer's Certificate specifying such event and what action the Co-Issuers propose to take with respect thereto.

Section 4.05 Taxes.

The Co-Issuers shall pay or discharge, and shall cause each of the Restricted Subsidiaries to pay or discharge, prior to delinquency, all material taxes, lawful assessments, and governmental levies except such as are contested in good faith and by appropriate actions or where the failure to effect such payment or discharge is not adverse in any material respect to the Holders of the Notes.

Section 4.06 Stay, Extension and Usury Laws.

The Co-Issuers and each of the Guarantors covenant (to the extent that they may lawfully do so) that they shall not at any time insist upon, plead, or in any manner whatsoever claim or take the benefit or advantage of, any stay, extension or usury law wherever enacted, now or at any time hereafter in force, that may affect the covenants or the performance of this Indenture; and the Co-Issuers and each of the Guarantors (to the extent that they may lawfully do so) hereby expressly waive all benefit or advantage of any such law, and covenant (to the extent that they may lawfully do so) that they shall not, by resort to any such law, hinder, delay or impede the execution of any power herein granted to the Trustee, but shall suffer and permit the execution of every such power as though no such law has been enacted.

Section 4.07 Limitation on Restricted Payments.

The Issuer shall not, and shall not permit any of its Restricted Subsidiaries to, directly or indirectly:

(I) declare or pay any dividend or make any payment having the effect thereof or any distribution on account of the Issuer's, or any of its Restricted Subsidiaries' Equity Interests, including any dividend or distribution payable in connection with any merger or consolidation other than:

(a) dividends or distributions by the Issuer payable solely in Equity Interests (other than Disqualified Stock) of the Issuer; or

(b) dividends or distributions by a Restricted Subsidiary so long as, in the case of any dividend or distribution payable on or in respect of any class or series of securities (or other Equity Interests) issued by a Restricted Subsidiary other than a Wholly-Owned Subsidiary, the Issuer or a Restricted Subsidiary receives at least its pro rata share of such dividend or distribution in accordance with its Equity Interests in such class or series of securities (or other Equity Interests);

(II) purchase, redeem, defease or otherwise acquire or retire for value any Equity Interests of the Issuer or any direct or indirect parent of the Issuer, including in connection with any merger or consolidation;

(a) Indebtedness permitted under clauses (7) and (8) of the definition of "Permitted Debt"; or

(b) the purchase, repurchase or other acquisition of Subordinated Indebtedness purchased in anticipation of satisfying a sinking fund obligation, principal installment or final maturity, in each case due within one year of the date of purchase, repurchase or acquisition; or

(IV) make any Restricted Investment

(all such payments and other actions set forth in clauses (I) through (IV) above being collectively referred to as " **Restricted Payments**"), unless, at the time of such Restricted Payment:

(1) no Default shall have occurred and be continuing or would occur as a consequence thereof;

(2) immediately after giving effect to such transaction on a pro forma basis, the Issuer could incur $1.00 of additional Indebtedness pursuant to the Coverage Ratio Test; and

(3) such Restricted Payment, together with the aggregate amount of all other Restricted Payments made by the Issuer and its Restricted Subsidiaries after the Issue Date (including Restricted Payments permitted by clauses (1), (6)(c), (9) and (14) of the next succeeding paragraph, but excluding all other Restricted Payments permitted by the next succeeding paragraph), is less than the sum (the " **Restricted Payments Basket**") of (without duplication):

(a) 50% of the Consolidated Net Income of the Issuer for the period (taken as one accounting period) commencing April 1, 2007 to the end of the Issuer's most recently ended fiscal quarter for which internal financial statements are available at the time of such Restricted Payment, or, in the case such Consolidated Net Income for such period is a deficit, minus 100% of such deficit; plus

(b) 100% of the aggregate net cash proceeds and the fair market value, as determined in good faith by the Issuer, of marketable securities or other property received by the Issuer since immediately after the Issue Date (other than net cash proceeds to the extent such net cash proceeds have been used to incur Indebtedness, Disqualified Stock or Preferred Stock pursuant to clause (12) of the definition of "Permitted Debt") from the issue or sale of:

(i) (A) Equity Interests of the Issuer, including Treasury Capital Stock, but excluding cash proceeds and the fair market value, as determined in good faith by the Issuer, of marketable securities or other property received from the sale of:

(x) Equity Interests to members of management, members of the board of managers or directors or consultants of the Issuer, any direct or indirect parent company of the Issuer and the Issuer's Subsidiaries after the Issue Date to the extent such amounts have been applied to Restricted Payments made in accordance with clause (4) of the next succeeding paragraph; and

(y) Designated Preferred Stock; and

(B) to the extent such net cash proceeds are actually contributed to the Issuer, Equity Interests of the Issuer's direct or indirect parent companies (excluding contributions of the proceeds from the sale of Designated Preferred Stock of such companies or contributions to the extent such amounts have been applied to Restricted Payments made in accordance with clause (4) of the next succeeding paragraph); or

(ii) debt securities of the Issuer that have been converted into or exchanged for Equity Interests of the Issuer or any direct or indirect parent of the Issuer;

provided, however, that this clause (b) shall not include the proceeds from (W) Refunding Capital Stock, (X) Equity Interests or convertible debt securities of the Issuer sold to a Restricted Subsidiary, (Y) Disqualified Stock or debt securities that have been converted into Disqualified Stock or (Z) Excluded Contributions; *plus*

(c) 100% of the aggregate amount of cash and the fair market value, as determined in good faith by the Issuer, of marketable securities or other property contributed to the capital of the Issuer following the Issue Date other than (X) net cash proceeds to the extent such net cash proceeds have been used to incur Indebtedness or issue Disqualified Stock or Preferred Stock pursuant to clause (12) of the definition of "Permitted Debt," (Y) by a Restricted Subsidiary and (Z) from any Excluded Contributions; *plus*

(d) 100% of the aggregate amount received in cash and the fair market value, as determined in good faith by the Issuer, of marketable securities or other property received by means of:

(i) the sale or other disposition (other than to the Issuer or a Restricted Subsidiary) of Restricted Investments made by the Issuer or its Restricted Subsidiaries and repurchases and redemptions of such Restricted Investments from the Issuer or its Restricted Subsidiaries and repayments of loans or advances, and releases of guarantees, which constitute Restricted Investments by the Issuer or its Restricted Subsidiaries, in each case after the Issue Date; or

(ii) the sale (other than to the Issuer or a Restricted Subsidiary) of the stock of an Unrestricted Subsidiary or a distribution from an Unrestricted Subsidiary (other than in each case to the extent the Investment in such Unrestricted Subsidiary was made by the Issuer or a Restricted Subsidiary pursuant to clause (7) of the next succeeding paragraph or to the extent such Investment constituted a Permitted Investment) or a dividend from an Unrestricted Subsidiary after the Issue Date; *plus*

(e) in the case of the redesignation of an Unrestricted Subsidiary as a Restricted Subsidiary or the merger, amalgamation or consolidation of an Unrestricted Subsidiary into the Issuer or a Restricted Subsidiary or the transfer of all or substantially all of the assets of an Unrestricted Subsidiary to the Issuer or a Restricted Subsidiary after the Issue Date, the fair market value of the Investment in such Unrestricted Subsidiary (or the assets transferred), as determined by the Issuer in good faith or, if such fair market value may exceed $75.0 million, in writing by an Independent Financial Advisor, at the time of the redesignation of such Unrestricted Subsidiary as a Restricted Subsidiary or at the time of such merger, amalgamation, consolidation or transfer of assets to the extent

the Investment in such Unrestricted Subsidiary was made by the Issuer or a Restricted Subsidiary pursuant to clause (7) of the next succeeding paragraph or to the extent such Investment constituted a Permitted Investment.

The foregoing provisions shall not prohibit:

(1) the payment of any dividend or distribution within 60 days after the date of declaration thereof, if at the date of declaration such payment would have complied with the provisions of this Indenture;

(20) Indebtedness of the Issuer or any of its Restricted Subsidiaries consisting of (i) the financing of insurance premiums or (ii) take-or-pay obligations contained in supply arrangements, in each case incurred in the ordinary course of business;

(21) Indebtedness consisting of Indebtedness issued by the Issuer or any of its Restricted Subsidiaries (i) to current or former officers, members of the board of managers or directors, employees and consultants thereof, their respective estates, spouses or former spouses, in each case to finance the purchase or redemption of Equity Interests of the Issuer or any direct or indirect parent company of the Issuer to the extent described in clause (4) of Section 4.07 or (ii) current or former employees, and development partners, of the Issuer and its Restricted

Subsidiaries, in each case, issued as consideration in respect of repurchases, redemptions or acquisitions of Equity Interests in Employment Participation Subsidiaries permitted under clause (17) of the definition of "Permitted Investment" in the ordinary course of business consistent with past practice; and

(22) Indebtedness or Disqualified Stock of the Issuer and Indebtedness, Disqualified Stock or Preferred Stock of the Issuer or any Restricted Subsidiary not otherwise permitted hereunder in an aggregate principal amount or liquidation preference, which when aggregated with the principal amount and liquidation preference of all other Indebtedness, Disqualified Stock and Preferred Stock then outstanding and incurred pursuant to this clause (22), does not at any one time outstanding exceed $100.0 million (it being understood that any Indebtedness incurred or Disqualified Stock or Preferred Stock issued pursuant to this clause (22) shall cease to be deemed incurred or outstanding for purposes of this clause (22) but shall be deemed incurred for the purposes of the first paragraph of this Section 4.09 from and after the first date on which the Issuer or such Restricted Subsidiary could have incurred such Indebtedness, Disqualified Stock or Preferred Stock under the first paragraph of this Section 4.09 without reliance on this clause (22)).

For purposes of determining compliance with this Section 4.09:

(1) in the event that an item of Indebtedness, Disqualified Stock or Preferred Stock (or any portion thereof) meets the criteria of more than one of the categories of permitted Indebtedness, Disqualified Stock or Preferred Stock described in clauses (1) through (21) of the definition of "Permitted Debt" or is entitled to be incurred pursuant to the Coverage Ratio Test, the Issuer, in its sole discretion, shall classify or reclassify such item of Indebtedness, Disqualified Stock or Preferred Stock (or any portion thereof) and shall only be required to include the amount and type of such Indebtedness, Disqualified Stock or Preferred Stock in one of the above clauses provided; that all Indebtedness outstanding under the term loan portion of the Senior Credit Facilities on the Issue Date shall at all times be deemed to be outstanding in reliance on clause (1) of the definition of "Permitted Debt"; and

(2) at the time of incurrence, the Issuer shall be entitled to divide and classify an item of Indebtedness in more than one of the types of Indebtedness described in the first and second paragraphs of this Section 4.09.

Accrual of interest, the accretion of accreted value and the payment of interest in the form of additional Indebtedness, Disqualified Stock or Preferred Stock shall not be deemed to be an incurrence of Indebtedness, Disqualified Stock or Preferred Stock for purposes of this Section 4.09.

For purposes of determining compliance with any U.S. dollar-denominated restriction on the incurrence of Indebtedness, the U.S. dollar-equivalent principal amount of Indebtedness denominated in a foreign currency shall be calculated based on the relevant currency exchange rate in effect on the date such Indebtedness was incurred, in the case of term debt, or first committed, in the case of revolving credit debt; provided that if such Indebtedness is incurred to refinance other Indebtedness denominated in a foreign currency, and such refinancing would cause the applicable U.S. dollar denominated restriction to be exceeded if calculated at the relevant currency exchange rate in effect on the date of such refinancing, such U.S. dollar-denominated restriction shall be deemed not to have been exceeded so long as the principal amount of such refinancing Indebtedness does not exceed the principal amount of such Indebtedness being refinanced.

The principal amount of any Indebtedness incurred to refinance other Indebtedness, if incurred in a different currency from the Indebtedness being refinanced, shall be calculated based on the currency exchange rate applicable to the currencies in which such respective Indebtedness is denominated that is in effect on the date of such refinancing.

The Issuer shall not, and shall not permit any Guarantor to, directly or indirectly, incur any Indebtedness (including Acquired Indebtedness) that is subordinated or junior in right of payment to any Indebtedness of the Issuer or such Guarantor, as the case may be, unless such Indebtedness is expressly subordinated in right of payment to the Notes or such Guarantor's Guarantee to the extent and in the same manner as such Indebtedness is subordinated to other Indebtedness of the Issuer or such Guarantor, as the case may be.

For purposes of this Indenture, (1) Indebtedness that is unsecured is not deemed to be subordinated or junior to Secured Indebtedness merely because it is unsecured and (2) senior indebtedness is not deemed to be subordinated or junior to any other senior indebtedness merely because it has a junior priority with respect to the same collateral.

Section 4.10 Asset Sales.

The Issuer shall not, and shall not permit any of its Restricted Subsidiaries to, consummate an Asset Sale, unless:

(1) the Issuer or such Restricted Subsidiary, as the case may be, receives consideration at the time of such Asset Sale at least equal to the fair market value (as determined in good faith by the Issuer) of the assets sold or otherwise disposed of; and

(2) except in the case of a Permitted Asset Swap, at least 75% of the consideration therefor received by the Issuer or such Restricted Subsidiary, as the case may be, is in the form of Cash Equivalents; provided that the amount of:

(a) any liabilities (as shown on the Issuer's or such Restricted Subsidiary's most recent balance sheet or in the footnotes thereto) of the Issuer or such Restricted Subsidiary, other than liabilities that are by their terms subordinated to the Notes, that are assumed by the transferee of any such assets and for which the Issuer and all of its Restricted Subsidiaries have been validly released by all creditors in writing,

(b) any securities received by the Issuer or such Restricted Subsidiary from such transferee that are converted by the Issuer or such Restricted Subsidiary into Cash Equivalents (to the extent of the Cash Equivalents received) within 180 days following the closing of such Asset Sale, and

(c) any Designated Non-cash Consideration received by the Issuer or such Restricted Subsidiary in such Asset Sale having an aggregate fair market value, taken together with all other Designated Non-cash Consideration received pursuant to this clause (c) that is at that time outstanding, not to exceed 5.0% of Total Tangible Assets at the time of the receipt of such Designated Non-cash Consideration, with the fair market value of each item of Designated Non-cash Consideration being measured at the time received and without giving effect to subsequent changes in value,

shall be deemed to be Cash Equivalents for purposes of this provision and for no other purpose.

Within 450 days after the receipt of any Net Proceeds of any Asset Sale, the Issuer or such Restricted Subsidiary, at its option, may apply the Net Proceeds from such Asset Sale,

(1) to permanently reduce:

(a) Obligations under the Senior Credit Facilities and to correspondingly reduce commitments with respect thereto;

(b) Obligations under Indebtedness (other than Subordinated Indebtedness) that is secured by a Lien, which Lien is permitted by this Indenture, and to correspondingly reduce commitments with respect thereto;

(c) Obligations under other Indebtedness (other than Subordinated Indebtedness) (and to correspondingly reduce commitments with respect thereto), provided that the Issuer shall equally and ratably reduce Obligations under the Notes as provided under Section 3.07 hereof, through openmarket purchases (to the extent such purchases are at or above 100% of the principal amount thereof) or by making an offer (in accordance with the procedures set forth below for an Asset Sale Offer) to all Holders to purchase their Notes at 100% of the principal amount thereof, plus the amount of accrued but unpaid interest, if any, and Additional Interest, if any, on the amount of Notes that would otherwise be prepaid; or

(d) Indebtedness of a Restricted Subsidiary that is not a Guarantor, other than Indebtedness owed to the Issuer or another Restricted Subsidiary;

(2) to make (a) an Investment in any one or more businesses, provided that such Investment in any business is in the form of the acquisition of Capital Stock and results in the Issuer or another of its Restricted Subsidiaries, as the case may be, owning an amount of the Capital Stock of such business such that it constitutes a Restricted Subsidiary, (b) capital expenditures or (c) acquisitions of other assets, in the case of each of (a), (b) and (c), used or useful in a Similar Business; or

(3) to make an Investment in (a) any one or more businesses, provided that such Investment in any business is in the form of the acquisition of Capital Stock and results in the Issuer or another of its Restricted Subsidiaries, as the case may be, owning an amount of the Capital Stock of such business such that it constitutes a Restricted Subsidiary, (b) properties or (c) other assets that, in the case of each of (a), (b) and (c), replace the businesses, properties and/or assets that are the subject of such Asset Sale;

provided that, in the case of clauses (2) and (3) above, a binding commitment shall be treated as a permitted application of the Net Proceeds from the date of such commitment so long as the Issuer or such other Restricted Subsidiary enters into such commitment with the good faith expectation that such Net Proceeds shall be applied to satisfy such commitment within 180 days of such commitment (an " **Acceptable Commitment**") and, in the event any Acceptable Commitment is later cancelled or terminated for any reason before the Net Proceeds are applied in connection therewith, the Issuer or such Restricted Subsidiary enters into another Acceptable Commitment (a "**Second Commitment**") within 180 days of such cancellation or termination; provided further that if any Second Commitment is later cancelled or terminated for any reason before such Net Proceeds are applied, then such Net Proceeds shall constitute Excess Proceeds.

Any Net Proceeds from the Asset Sale that are not invested or applied as provided and within the time period set forth in the preceding paragraph shall be deemed to constitute "**Excess Proceeds.**" When the aggregate amount of Excess Proceeds exceeds $40.0 million, the Issuer shall make an offer to all Holders of the Notes and, if required by the terms of any Indebtedness that is *pari passu* with

the Notes ("**Pari Passu Indebtedness**"), to the holders of such Pari Passu Indebtedness (an " **Asset Sale Offer**"), to purchase the maximum aggregate principal amount of the Notes and such Pari Passu Indebtedness that is an integral multiple of $1,000 that may be purchased out of the Excess Proceeds at an offer price in cash in an amount equal to 100% of the principal amount thereof, plus accrued and unpaid interest and Additional Interest, if any, to the date fixed for the closing of such offer, in accordance with the procedures set forth in this Indenture. The Issuer shall commence an Asset Sale Offer with respect to Excess Proceeds within ten Business Days after the date that Excess Proceeds exceed $40.0 million by mailing the notice required pursuant to the terms of this Indenture, with a copy to the Trustee or otherwise in accordance with the procedures of DTC.

To the extent that the aggregate amount of Notes and such Pari Passu Indebtedness tendered pursuant to an Asset Sale Offer is less than the Excess Proceeds, the Issuer may use any remaining Excess Proceeds for general corporate purposes, subject to compliance with other covenants contained in this Indenture. If the aggregate principal amount of Notes and the Pari Passu Indebtedness surrendered in an Asset Sale Offer exceeds the amount of Excess Proceeds, the Trustee shall select the Notes and the Co-Issuers, or, if so elected by the Co-Issuers, the agent for such Pari Passu Indebtedness, shall select such Pari Passu Indebtedness to be purchased on a pro rata basis based on the accreted value or principal amount of the Notes or such Pari Passu Indebtedness tendered in accordance with Section 3.09. Upon completion of any such Asset Sale Offer, the amount of Excess Proceeds shall be reset to zero (regardless of whether there are any remaining Excess Proceeds upon such completion).

Pending the final application of any Net Proceeds pursuant to this Section 4.10, the holder of such Net Proceeds may apply such Net Proceeds temporarily to reduce Indebtedness outstanding under a revolving credit facility or otherwise use such Net Proceeds in any manner not prohibited by this Indenture.

The Co-Issuers will comply with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws and regulations thereunder to the extent such laws or regulations are applicable in connection with the repurchase of the Notes pursuant to an Asset Sale Offer. To the extent that the provisions of any securities laws or regulations conflict with the provisions of this Indenture, the Issuer will comply with the applicable securities laws and regulations and shall not be deemed to have breached its obligations described in this Indenture by virtue thereof.

Section 4.11 Transactions with Affiliates.

The Issuer shall not, and shall not permit any of its Restricted Subsidiaries to, make any payment to, or sell, lease, transfer or otherwise dispose of any of its properties or assets to, or purchase any property or assets from, or enter into or make or amend any transaction, contract, agreement, understanding, loan, advance or guarantee with, or for the benefit of, any Affiliate of the Issuer (each of the foregoing, an " **Affiliate Transaction**") involving aggregate payments or consideration in excess of $10.0 million, unless:

(1) such Affiliate Transaction is on terms that are not materially less favorable to the Issuer or its relevant Restricted Subsidiary than those that would have been obtained in a comparable transaction by the Issuer or such Restricted Subsidiary with an unrelated Person on an arm's-length basis; and

(2) the Issuer delivers to the Trustee with respect to any Affiliate Transaction or series of related Affiliate Transactions involving aggregate payments or consideration in excess of $30.0 million, a resolution adopted by the majority of the board of managers or directors of the

Issuer approving such Affiliate Transaction and set forth in an Officer's Certificate certifying that such Affiliate Transaction complies with clause (1) above.

The foregoing provisions will not apply to the following:

(1) transactions between or among the Issuer or any of its Restricted Subsidiaries;

(2) Restricted Payments permitted by Section 4.07 hereof and Investments constituting Permitted Investments;

(3) the payment of management, consulting, monitoring, transaction and advisory fees and termination fees and related indemnities and expenses pursuant to the Sponsor Management Agreement as in effect on the Issue Date and any amendment, modification or replacement thereof or any similar agreement that is not, when taken as a whole, less favorable to the holders of the Notes in any material respect as compared to the Sponsor Management Agreement as in effect on the Issue Date (it being agreed, however, that termination fees (or similar amounts) payable upon the occurrence of an initial public offering or a Change of Control (or any events or circumstances of a substantially similar nature) not to exceed an amount equal to the present value (as determined (or pursuant to a determination agreed to) by the Issuer in good faith) of the aggregate amount of any fees that would otherwise have been payable under the Sponsor Management Agreement as in effect on the Issue Date during the stated term thereof shall in any event be permitted);

(4) the payment of reasonable and customary fees and compensation paid to, and indemnities and reimbursements provided on behalf of, officers, members of the board of managers or directors, employees or consultants of the Issuer, any of its direct or indirect parent companies or any of its Restricted Subsidiaries;

(5) transactions in which the Issuer or any of its Restricted Subsidiaries, as the case may be, delivers to the Trustee a letter from an Independent Financial Advisor stating that such transaction is fair to the Issuer or such Restricted Subsidiary from a financial point of view or stating that the terms are not materially less favorable to the Issuer or its relevant Restricted Subsidiary than those that would have been obtained in a comparable transaction by the Issuer or such Restricted Subsidiary with an unrelated Person on an arm's-length basis;

(6) any agreement as in effect as of the Issue Date, or any amendment thereto (so long as any such amendment is not disadvantageous in any material respect to the Holders when taken as a whole as compared to the applicable agreement as in effect on the Issue Date);

(7) the existence of, or the performance by the Issuer or any of its Restricted Subsidiaries of its obligations under the terms of, any stockholders agreement (including any registration rights agreement or purchase agreement related thereto) to which it is a party as of the Issue Date and any similar agreements which it may enter into thereafter; provided, however, that the existence of, or the performance by the Issuer or any of its Restricted Subsidiaries of obligations under, any future amendment to any such existing agreement or any similar agreement entered into after the Issue Date shall only be permitted by this clause (7) to the extent that the terms of any such amendment or new agreement are not otherwise disadvantageous in any material respect to the Holders when taken as a whole as compared to the original agreement in effect on the Issue Date;

(8) the Transactions and the payment of all fees and expenses related to the Transactions, including Transaction Expenses, in each case as disclosed in the Offering Memorandum;

(9) transactions with customers, clients, suppliers, or purchasers or sellers of goods or services, in each case in the ordinary course of business and otherwise in compliance with the terms of this Indenture which are fair to the Issuer and its Restricted Subsidiaries, in the reasonable determination of the board of managers or directors of the Issuer or the senior management thereof, or are on terms at least as favorable as would reasonably have been obtained at such time from an unaffiliated party;

(10) the issuance of Equity Interests (other than Disqualified Stock) of the Issuer to any direct or indirect parent of the Issuer or to any Permitted Holder or to any member of the board of managers or any director, officer, employee or consultant of the Issuer, any Subsidiary or any direct or indirect parent of the Issuer;

(11) any customary transaction with a Securitization Subsidiary effected as part of a Qualified Securitization Financing;

(12) payments by the Issuer or any of its Restricted Subsidiaries to or for the benefit of any of the Investors or Founders made for any financial or transaction advisory, financing, underwriting or placement services or in respect of other investment banking activities, including, without limitation, in connection with acquisitions, divestitures and securities offerings, which payments are approved by a majority of the board of managers or directors of the Issuer in good faith or are otherwise permitted by this Indenture (it being agreed that fees of up to 1.0% of the gross amount of any applicable transaction shall in any event be permitted);

(13) payments or loans (or cancellation of loans) to employees or consultants of the Issuer, any of its direct or indirect parent companies or any of its Restricted Subsidiaries and employment agreements, stock option plans, restricted stock plans, bonus programs and other similar arrangements with such employees or consultants which, in each case, are approved by the Issuer in good faith; and

(14) investments by the Investors in securities of the Issuer or any of its Restricted Subsidiaries so long as (i) the investment is being offered generally to other investors on the same or more favorable terms and (ii) the investment constitutes less than 5% of the proposed or outstanding issue amount of such class of securities.

Section 4.12 Liens.

The Issuer shall not, and shall not permit any Guarantor to, directly or indirectly, create, incur, assume or suffer to exist any Lien (except Permitted Liens) that secures obligations under any Indebtedness or any related guarantee, on any asset or property of the Issuer or any Guarantor, or any income or profits therefrom, or assign or convey any right to receive income therefrom, unless:

(1) in the case of Liens securing Subordinated Indebtedness, the Notes and related Guarantees are secured by a Lien on such property, assets or proceeds that is senior in priority to such Liens; or

(2) in all other cases, the Notes or the Guarantees are equally and ratably secured;

except that the foregoing shall not apply to or restrict (a) Liens securing the Notes and the related Guarantees, (b) Liens securing (x) Indebtedness permitted to be incurred under Senior Credit Facilities, including any letter of credit facility relating thereto, that was permitted by the terms of this Indenture to be incurred pursuant to clause (1) of the definition of "Permitted Debt" and (y) both (i) Indebtedness described in clause (x) or in respect of any Senior Credit Facilities secured by Liens pursuant to subclause (c) below or pursuant to clause (6) of the definition of "Permitted Liens" and (ii) obligations of the Issuer or any Guarantor in respect of any Bank Products or Cash Management Services provided by any lender, letter of credit issuer or agent party to any Senior Credit Facilities or any affiliate of such lender, letter of credit issuer or agent (or any Person that was a lender, letter of credit issuer or agent or an affiliate thereof at the time the applicable agreements pursuant to which such Bank Products or Cash Management Services are provided were entered into) and (c) Liens incurred to secure Obligations in respect of any Indebtedness permitted to be incurred pursuant to Section 4.09 hereof; provided that, with respect to Liens securing Obligations permitted under this subclause (c), at the time of incurrence and after giving *pro forma* effect thereto, the Consolidated Secured Debt Ratio would be no greater than 4.0 to 1.0.

Any Lien created for the benefit of the Holders of the Notes pursuant to this Section 4.12 shall be deemed automatically and unconditionally released and discharged upon the release and discharge of each of the Liens described in clauses (1) and (2) of this Section 4.12.

Section 4.13 Corporate Existence.

Subject to Article 5 hereof, the Co-Issuers shall do or cause to be done all things necessary to preserve and keep in full force and effect their limited liability company or corporate existence, as applicable, and the corporate, partnership, limited liability company or other existence of each of the Restricted Subsidiaries, in accordance with the respective organizational documents (as the same may be amended from time to time) of the Co-Issuers or any such Restricted Subsidiary; provided that, notwithstanding the foregoing, the Issuer may at any time change its existence to a corporation, including through a direct conversion in accordance with the laws of the State of Delaware or by means of a merger under Section 5.01(b)(2).

Section 4.14 Offer to Repurchase Upon Change of Control.

If a Change of Control occurs, unless the Issuer has previously or concurrently mailed a redemption notice with respect to all the outstanding Notes as described under Section 3.07 hereof, the Co-Issuer shall make an offer to purchase all of the Notes pursuant to the offer described below (the " **Change of Control Offer**") at a price in cash (the "**Change of Control Payment**") equal to 101% of the aggregate principal amount thereof plus accrued and unpaid interest and Additional Interest, if any, to the date of purchase, subject to the right of Holders of record of the Notes on the relevant Record Date to receive interest due on the relevant Interest Payment Date. Within 30 days following any Change of Control, the Issuer shall send notice of such Change of Control Offer by first-class mail, with a copy to the Trustee, to each Holder of Notes to the address of such Holder appearing in the security register or otherwise in accordance with the procedures of DTC, with the following information:

(1) that a Change of Control Offer is being made pursuant to this Section 4.14 and that all Notes properly tendered pursuant to such Change of Control Offer will be accepted for payment by the Issuer;

(2) the purchase price and the purchase date, which will be no earlier than 30 days nor later than 60 days from the date such notice is mailed (the "**Change of Control Payment Date**");

(3) that any Note not properly tendered will remain outstanding and continue to accrue interest;

(4) that unless the Co-Issuers default in the payment of the Change of Control Payment, all Notes accepted for payment pursuant to the Change of Control Offer will cease to accrue interest on the Change of Control Payment Date;

(5) that Holders electing to have any Notes purchased pursuant to a Change of Control Offer will be required to surrender such Notes, with the form entitled "Option of Holder to Elect Purchase" on the reverse of such Notes completed, to the paying agent specified in the notice at the address specified in the notice prior to the close of business on the third Business Day preceding the Change of Control Payment Date;

The unpurchased portion of the Notes must be equal to $1,000 or an integral multiple thereof; and

(8) the other instructions, as determined by the Issuer, consistent with this Section 4.14, that a Holder must follow.

The notice, if mailed in a manner herein provided, shall be conclusively presumed to have been given, whether or not the Holder receives such notice. If (a) the notice is mailed in a manner herein provided and (b) any Holder fails to receive such notice or a Holder receives such notice but it is defective, such Holder's failure to receive such notice or such defect shall not affect the validity of the proceedings for the purchase of the Notes as to all other Holders that properly received such notice without defect. The Co-Issuers shall comply with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws and regulations thereunder to the extent such laws or regulations are applicable in connection with the repurchase by the Co-Issuers of Notes pursuant to a Change of Control Offer. To the extent that the provisions of any securities laws or regulations conflict with the provisions of this Section 4.14, the Co-Issuers shall comply with the applicable securities laws and regulations and shall not be deemed to have breached its obligations under this Section 4.14 by virtue thereof.

On the Change of Control Payment Date, the Co-Issuers shall, to the extent permitted by law,

(1) accept for payment all Notes issued by the Co-Issuers or portions thereof properly tendered pursuant to the Change of Control Offer;

(2) deposit with the Paying Agent an amount equal to the aggregate Change of Control Payment in respect of all Notes or portions thereof so tendered; and

(3) deliver, or cause to be delivered, to the Trustee for cancellation the Notes so accepted together with an Officer's Certificate to the Trustee stating that such Notes or portions thereof have been tendered to and purchased by the Co-Issuers.

The Co-Issuers shall not be required to make a Change of Control Offer following a Change of Control if a third party makes the Change of Control Offer in the manner, at the times and otherwise in compliance with the requirements set forth in this Section 4.14 applicable to a Change of Control Offer made by the Co-Issuers and purchases all Notes validly tendered and not withdrawn under such Change of Control Offer. Notwithstanding anything to the contrary herein, a Change of Control Offer may be made in advance of a Change of Control, conditional upon such Change of Control, if a definitive agreement is in place for the Change of Control at the time of making of the Change of Control Offer.

Other than as specifically provided in this Section 4.14, any purchase pursuant to this Section 4.14 shall be made pursuant to the provisions of Sections 3.02, 3.05 and 3.06 hereof.

Section 4.15 Limitation on Guarantees of Indebtedness by Restricted Subsidiaries .

The Issuer shall not permit any of its Wholly-Owned Subsidiaries that are Restricted Subsidiaries (and non-Wholly-Owned Subsidiaries if such non-Wholly-Owned Subsidiaries guarantee other capital markets debt securities of the Issuer or any Restricted Subsidiary or guarantee all or a portion of the Senior Credit Facilities), other than a Guarantor or a Foreign Subsidiary, to guarantee the payment of any Indebtedness of the Issuer or any other Guarantor unless:

(1) such Restricted Subsidiary within 30 days executes and delivers a supplemental indenture to this Indenture, the form of which is attached as Exhibit D hereto, providing for a Guarantee by such Restricted Subsidiary, except that with respect to a guarantee of Indebtedness of the Issuer or any Guarantor, if such Indebtedness is by its express terms subordinated in right of payment to the Notes or such Guarantor's Guarantee, any such guarantee by such Restricted Subsidiary with respect to such Indebtedness shall be subordinated in right of payment to such Guarantee substantially to the same extent as such Indebtedness is subordinated to the Notes;

(2) such Restricted Subsidiary waives and shall not in any manner whatsoever claim or take the benefit or advantage of, any rights of reimbursement, indemnity or subrogation or any other rights against the Issuer or any other Restricted Subsidiary as a result of any payment by such Restricted Subsidiary under its Guarantee; and

(3) such Restricted Subsidiary shall deliver to the Trustee an Opinion of Counsel to the effect that:

(a) such Guarantee has been duly executed and authorized; and

(b) such Guarantee constitutes a valid, binding and enforceable obligation of such Restricted Subsidiary, except insofar as enforcement thereof may be limited by bankruptcy, insolvency or similar laws (including, without limitation, all laws relating to fraudulent transfers) and except insofar as enforcement thereof is subject to general principles of equity;

provided that this Section 4.15 shall not be applicable to any guarantee of any Restricted Subsidiary that existed at the time such Person became a Restricted Subsidiary and was not incurred in connection with, or in contemplation of, such Person becoming a Restricted Subsidiary.

The Issuer may elect, in its sole discretion, to cause any Subsidiary that is not otherwise required to be a Guarantor to become a Guarantor, in which case, such Subsidiary shall only be required to comply with clauses (1) (other than with respect to any time period) and (2) of this Section 4.15.

Section 4.16 Limitation on Activities of the Co-Issuer .

The Co-Issuer may not hold any material assets, become liable for any material obligations, engage in any material trade or business, or conduct any material business activity, other than (1) the issuance of its Equity Interests to the Issuer or any Wholly-Owned Subsidiary that is a Restricted Subsidiary of the Issuer, (2) the incurrence of Indebtedness under the Notes, the Senior Credit Facilities and any other Indebtedness that is permitted to be incurred by the Issuer under Section 4.09 and (3) activities incidental thereto; provided that the foregoing restrictions and limitations shall not apply upon (x) the merger or consolidation of the Co-Issuer with the Issuer (the survivor of which is a corporation organized under the laws of the United States, any state thereof, the District of Columbia or any territory thereof) or (y) the Issuer or any successor to the Issuer being or becoming a corporation organized under the laws of the United States, any state thereof, the District of Columbia or any territory thereof. So long as the Issuer or any successor to the Issuer under the Notes is an entity other than a corporation there shall be a co-issuer of the Notes that is a Wholly-Owned Subsidiary of the Issuer and a Restricted Subsidiary that is a corporation organized and existing under the laws of the United States, any state of the United States or any territory thereof.

ARTICLE 5

SUCCESSORS

Section 5.01 Merger, Consolidation or Sale of All or Substantially All Assets .

(a) The Issuer shall not consolidate or merge with or into or wind up into (whether or not the Issuer is the surviving entity), or sell, assign, transfer, lease, convey or otherwise dispose of all or substantially all of its properties or assets, in one or more related transactions, to any Person unless:

(1) the Issuer is the surviving Person or the Person formed by or surviving any such consolidation or merger (if other than the Issuer) or to which such sale, assignment, transfer, lease, conveyance or other disposition will have been made is a corporation or limited liability company organized or existing under the laws of the jurisdiction of organization of the Issuer or the laws of the United States, any state thereof, the District of Columbia or any territory thereof (the Issuer or such Person, as the case may be, being herein called the " **Successor Company**");

(2) the Successor Company, if other than the Issuer, expressly assumes all the obligations of the Issuer under the Notes pursuant to supplemental indentures or other documents or instruments in form reasonably satisfactory to the Trustee;

(3) immediately after such transaction, no Default exists;

(4) immediately after giving *pro forma* effect to such transaction and any related financing transactions, as if such transactions had occurred at the beginning of the applicable four-quarter period,

(a) the Successor Company would be permitted to incur at least $1.00 of additional Indebtedness pursuant to the Coverage Ratio Test, or

(b) the Fixed Charge Coverage Ratio for the Successor Company and its Restricted Subsidiaries would be greater than the Fixed Charge Coverage Ratio for the Issuer and its Restricted Subsidiaries immediately prior to such transaction;

(5) each Guarantor, unless it is the other party to the transactions described above, in which case Section 5.01(c)(1)(B) hereof shall apply, shall have by supplemental indenture confirmed that its Guarantee shall apply to such Person's obligations under this Indenture, the Notes and the Registration Rights Agreement; and

(6) the Issuer shall have delivered to the Trustee an Officer's Certificate and an Opinion of Counsel, each stating that such consolidation, merger or transfer and such supplemental indentures, if any, comply with this Indenture.

The Successor Company shall succeed to, and be substituted for, the Issuer, as the case may be, under this Indenture, the Guarantees and the Notes, as applicable.

(b) Clauses (3), (4), (5) and (6) of Section 5.01(a) hereof shall not apply to the merger contemplated by the Transaction Agreement. Notwithstanding clauses (3) and (4) of Section 5.01(a) hereof,

(1) any Restricted Subsidiary may consolidate with or merge into or transfer all or part of its properties and assets to the Issuer, and

(2) the Issuer may merge with an Affiliate of the Issuer, as the case may be, solely for the purpose of reincorporating (including as contemplated by Section 4.13) the Issuer in a State of the United States, the District of Columbia or any territory thereof so long as the amount of Indebtedness of the Issuer and its Restricted Subsidiaries is not increased thereby.

(c) No Guarantor shall, and the Issuer shall not permit any Guarantor to, consolidate or merge with or into or wind up into (whether or not the Issuer or Guarantor is the surviving corporation), or sell, assign, transfer, lease, convey or otherwise dispose of all or substantially all of its properties or assets, in one or more related transactions, to any Person unless:

(1) (a) such Guarantor is the surviving corporation or the Person formed by or surviving any such consolidation or merger (if other than such Guarantor) or to which such sale, assignment, transfer, lease, conveyance or other disposition will have been made is a corporation organized or existing under the laws of the jurisdiction of organization of such Guarantor, as the case may be, or the laws of the United States, any state thereof, the District of Columbia or any territory thereof (such Guarantor or such Person, as the case may be, being herein called the " **Successor Person**");

(b) the Successor Person, if other than such Guarantor, expressly assumes all the obligations of such Guarantor under this Indenture and such Guarantor's related Guarantee pursuant to supplemental indentures or other documents or instruments in form reasonably satisfactory to the Trustee;

(c) immediately after such transaction, no Default exists; and

(d) the Issuer shall have delivered to the Trustee an Officer's Certificate and, if requested by the Trustee, an Opinion of Counsel, each stating that such consolidation, merger or transfer and such supplemental indentures, if any, comply with this Indenture; or

(2) the transaction is made in compliance with clauses (1) and (2) of the first paragraph of Section 4.10 hereof.

(d) Subject to certain limitations described in this Indenture, the Successor Person shall succeed to, and be substituted for, such Guarantor under this Indenture and such Guarantor's Guarantee. Notwithstanding the foregoing, any Guarantor may merge into or with or wind up into or transfer all or part of its properties and assets to another Guarantor or the Issuer.

Section 5.02 Successor Corporation Substituted.

Upon any consolidation or merger, or any sale, assignment, transfer, lease, conveyance or other disposition of all or substantially all of the assets of the Co-Issuers in accordance with Section 5.01 hereof, the successor corporation formed by such consolidation or into or with which the Co-Issuers is merged or to which such sale, assignment, transfer, lease, conveyance or other disposition is made shall succeed to, and be substituted for (so that from and after the date of such consolidation, merger, sale, lease, conveyance or other disposition, the provisions of this Indenture referring to the Issuer shall refer instead to the successor corporation and not to the Co-Issuers), and may exercise every right and power of the Co-Issuers under this Indenture with the same effect as if such successor Person had been named as the Co-Issuers herein; provided that the predecessor Co-Issuers shall not be relieved from the obligation to pay the principal of and interest and Additional Interest, if any, on the Notes except in the case of a sale, assignment, transfer, lease, conveyance or other disposition of all of the Co-Issuers' assets that meets the requirements of Section 5.01 hereof.

ARTICLE 6

DEFAULTS AND REMEDIES

Section 6.01 Events of Default.

(a) An "**Event of Default**" wherever used herein, means any one of the following events (whatever the reason for such Event of Default and whether it shall be voluntary or involuntary or be effected by operation of law or pursuant to any judgment, decree or order of any court or any order, rule or regulation of any administrative or governmental body):

(1) default in payment when due and payable, upon redemption, acceleration or otherwise, of principal of, or premium, if any, on the Notes;

(2) default for 30 days or more in the payment when due of interest or Additional Interest on or with respect to the Notes;

(3) failure by the Co-Issuers or any Guarantor for 60 days after receipt of written notice given by the Trustee or the Holders of not less than 25% in principal amount of the Notes to comply with any of its obligations, covenants or agreements (other than a default referred to in clauses (1) and (2) above) contained in this Indenture or the Notes;

(4) default under any mortgage, indenture or instrument under which there is issued or by which there is secured or evidenced any Indebtedness for money borrowed by the Issuer or any of its Restricted Subsidiaries or the payment of which is guaranteed by the Issuer or any of its Restricted Subsidiaries, other than Indebtedness owed to the Issuer or a Restricted Subsidiary, whether such Indebtedness or guarantee now exists or is created after the issuance of the Notes, if both:

(a) such default either results from the failure to pay any principal of such Indebtedness at its stated final maturity (after giving effect to any applicable grace periods) or relates to an obligation other than the obligation to pay principal of any such Indebtedness at its stated final maturity and results in the holder or holders of such Indebtedness causing such Indebtedness to become due prior to its stated maturity; and

(b) the principal amount of such Indebtedness, together with the principal amount of any other such Indebtedness in default for failure to pay any principal at its stated final maturity (after giving effect to any applicable grace periods), or the maturity of which has been so accelerated, aggregate $50.0 million or more at any one time outstanding;

(5) failure by the Issuer or any Significant Subsidiary, or any group of Restricted Subsidiaries that, taken together (as of the latest audited consolidated financial statements for the Issuer), would constitute a Significant Subsidiary, to pay final judgments aggregating in excess of $50.0 million, which final judgments remain unpaid, undischarged and unstayed for a period of more than 60 days after such judgment becomes final, and in the event such judgment is covered by insurance, an enforcement proceeding has been commenced by any creditor upon such judgment or decree which is not promptly stayed;

(6) the Co-Issuers or any of the Restricted Subsidiaries that is a Significant Subsidiary or any group of Restricted Subsidiaries that, taken together (as of the latest audited consolidated financial statements for the Issuer), would constitute a Significant Subsidiary, pursuant to or within the meaning of any Bankruptcy Law:

(i) commences proceedings to be adjudicated bankrupt or insolvent;

(ii) consents to the institution of bankruptcy or insolvency proceedings against it, or the filing by it of a petition or answer or consent seeking reorganization or relief under applicable Bankruptcy Law;

(iii) consents to the appointment of a receiver, liquidator, assignee, trustee, sequestrator or other similar official of it or for all or substantially all of its property;

(iv) makes a general assignment for the benefit of its creditors; or

(v) generally is not paying its debts as they become due;

(7) a court of competent jurisdiction enters an order or decree under any Bankruptcy Law that:

(i) is for relief against the Co-Issuers or any of the Restricted Subsidiaries that is a Significant Subsidiary or any group of Restricted Subsidiaries that, taken together, would constitute a Significant Subsidiary, in a proceeding in which the Co-Issuers or any such Restricted Subsidiaries, that is a Significant Subsidiary or any group of Restricted Subsidiaries that, taken together (as of the latest audited consolidated financial statements for the Issuer), would constitute a Significant Subsidiary, is to be adjudicated bankrupt or insolvent;

(ii) appoints a receiver, liquidator, assignee, trustee, sequestrator or other similar official of the Co-Issuers or any of the Restricted Subsidiaries that is a Significant

Subsidiary or any group of Restricted Subsidiaries that, taken together (as of the latest audited consolidated financial statements for the Issuer), would constitute a Significant Subsidiary, or for all or substantially all of the property of the Co-Issuers or any of the Restricted Subsidiaries that is a Significant Subsidiary or any group of Restricted Subsidiaries that, taken together (as of the latest audited consolidated financial statements for the Issuer), would constitute a Significant Subsidiary; or

(iii) orders the liquidation of the Co-Issuers or any of the Restricted Subsidiaries that is a Significant Subsidiary or any group of Restricted Subsidiaries that, taken together (as of the latest audited consolidated financial statements for the Issuer), would constitute a Significant Subsidiary;

and the order or decree remains unstayed and in effect for 60 consecutive days; or

(8) the Guarantee of any Significant Subsidiary, or any group of Restricted Subsidiaries that, taken together (as of the latest audited consolidated financial statements for the Issuer), would constitute a Significant Subsidiary, shall for any reason cease to be in full force and effect or any responsible officer of any Guarantor that is a Significant Subsidiary, or any group of Restricted Subsidiaries that, taken together (as of the latest audited consolidated financial statements for the Issuer), would constitute a Significant Subsidiary, as the case may be, denies that it has any further liability under its or their Guarantee(s) or gives notice to such effect, other than by reason of the termination of this Indenture or the release of any such Guarantee in accordance with this Indenture.

(b) In the event of any Event of Default specified in clause (4) of Section 6.01(a) hereof, such Event of Default and all consequences thereof (excluding any resulting payment default, other than as a result of acceleration of the Notes) shall be annulled, waived and rescinded, automatically and without any action by the Trustee or the Holders, if within 20 days after such Event of Default arose:

(1) the Indebtedness or guarantee that is the basis for such Event of Default has been discharged; or

(2) holders thereof have rescinded or waived the acceleration, notice or action (as the case may be) giving rise to such Event of Default; or

(3) the default that is the basis for such Event of Default has been cured.

Section 6.02 Acceleration.

If any Event of Default (other than an Event of Default specified in clause (6) or (7) of Section 6.01(a) hereof with respect to the Issuer) occurs and is continuing under this Indenture, the Trustee or the Holders of at least 25% in principal amount of the then total outstanding Notes may declare the principal, premium, if any, interest and any other monetary obligations on all the then outstanding Notes to be due and payable immediately. Upon the effectiveness of such declaration, such principal and interest shall be due and payable immediately. The Trustee shall have no obligation to accelerate the Notes if and so long as a committee of its Responsible Officers in good faith determines acceleration is not in the best interest of the Holders of the Notes.

Notwithstanding the foregoing, in the case of an Event of Default arising under clause (6) or (7) of Section 6.01(a) hereof with respect to the Issuer, all outstanding Notes shall be due and payable immediately without further action or notice.

The Holders of a majority in aggregate principal amount of the then outstanding Notes by written notice to the Trustee may on behalf of all of the Holders rescind an acceleration and its consequences:

(1) if the rescission would not conflict with any judgment or decree;

(2) if all existing Events of Default have been cured, waived, annulled or rescinded except nonpayment of principal interest, Additional Interest, if any, or premium that has become due solely because of the acceleration;

(3) to the extent the payment of such interest is lawful, interest on overdue installments of interest and overdue principal, which has become due otherwise than by such declaration of acceleration, has been paid; and

(4) if the Issuer has paid the Trustee its reasonable compensation and reimbursed the Trustee for its expenses, disbursements and advances.

Section 6.03 Other Remedies.

If an Event of Default occurs and is continuing, the Trustee may pursue any available remedy to collect the payment of principal, premium, if any, and interest on the Notes or to enforce the performance of any provision of the Notes or this Indenture.

The Trustee may maintain a proceeding even if it does not possess any of the Notes or does not produce any of them in the proceeding. A delay or omission by the Trustee or any Holder of a Note in exercising any right or remedy accruing upon an Event of Default shall not impair the right or remedy or constitute a waiver of or acquiescence in the Event of Default. All remedies are cumulative to the extent permitted by law.

Section 6.04 Waiver of Past Defaults.

Holders of not less than a majority in aggregate principal amount of the then outstanding Notes by notice to the Trustee may on behalf of the Holders of all of the Notes waive any existing Default and its consequences hereunder, except a continuing Default in the payment of the principal of, premium, if any, Additional Interest, if any, or interest on, any Note held by a non-consenting Holder (including in connection with an Asset Sale Offer or a Change of Control Offer); provided, subject to Section 6.02 hereof, that the Holders of a majority in aggregate principal amount of the then outstanding Notes may rescind an acceleration and its consequences, including any related payment default that resulted from such acceleration. Upon any such waiver, such Default shall cease to exist, and any Event of Default arising therefrom shall be deemed to have been cured for every purpose of this Indenture; but no such waiver shall extend to any subsequent or other Default or impair any right consequent thereto.

Section 6.05 Control by Majority.

Holders of a majority in principal amount of the then total outstanding Notes may direct the time, method and place of conducting any proceeding for any remedy available to the Trustee or of exercising any trust or power conferred on the Trustee. The Trustee, however, may refuse to follow any direction that conflicts with law or this Indenture or that the Trustee determines is unduly prejudicial to the rights of any other Holder of a Note or that would involve the Trustee in personal liability.

Section 6.06 Limitation on Suits.

Subject to Section 6.07 hereof, no Holder of a Note may pursue any remedy with respect to this Indenture or the Notes unless:

(1) such Holder has previously given the Trustee notice that an Event of Default is continuing;

(2) Holders of at least 25% in principal amount of the total outstanding Notes have requested the Trustee to pursue the remedy;

(3) Holders of the Notes have offered the Trustee security or indemnity reasonably satisfactory to it against any loss, liability or expense;

(4) the Trustee has not complied with such request within 60 days after the receipt thereof and the offer of security or indemnity; and

(5) Holders of a majority in principal amount of the total outstanding Notes have not given the Trustee a direction inconsistent with such request within such 60-day period.

A Holder of a Note may not use this Indenture to prejudice the rights of another Holder of a Note or to obtain a preference or priority over another Holder of a Note.

Section 6.07 Rights of Holders of Notes To Receive Payment.

Notwithstanding any other provision of this Indenture, the right of any Holder of a Note to receive payment of principal, premium, if any, and Additional Interest, if any, and interest on the Note, on or after the respective due dates expressed in the Note (including in connection with an Asset Sale Offer or a Change of Control Offer), or to bring suit for the enforcement of any such payment on or after such respective dates, shall not be impaired or affected without the consent of such Holder.

Section 6.08 Collection Suit by Trustee.

If an Event of Default specified in Section 6.01(a)(1) or (2) hereof occurs and is continuing, the Trustee is authorized to recover judgment in its own name and as trustee of an express trust against the Co-Issuers for the whole amount of principal of, premium, if any, and Additional Interest, if any, and interest remaining unpaid on the Notes and interest on overdue principal and, to the extent lawful, interest and such further amount as shall be sufficient to cover the costs and expenses of collection, including the reasonable compensation, expenses, disbursements and advances of the Trustee, its agents and counsel.

Section 6.09 Restoration of Rights and Remedies.

If the Trustee or any Holder has instituted any proceeding to enforce any right or remedy under this Indenture and such proceeding has been discontinued or abandoned for any reason, or has been determined adversely to the Trustee or to such Holder, then and in every such case, subject to any determination in such proceedings, the Co-Issuers, the Trustee and the Holders shall be restored severally and respectively to their former positions hereunder and thereafter all rights and remedies of the Trustee and the Holders shall continue as though no such proceeding has been instituted.

Section 6.10 Rights and Remedies Cumulative.

Except as otherwise provided with respect to the replacement or payment of mutilated, destroyed, lost or stolen Notes in Section 2.07 hereof, no right or remedy herein conferred upon or reserved to the Trustee or to the Holders is intended to be exclusive of any other right or remedy, and every right and remedy shall, to the extent permitted by law, be cumulative and in addition to every other right and remedy given hereunder or now or hereafter existing at law or in equity or otherwise. The assertion or employment of any right or remedy hereunder, or otherwise, shall not prevent the concurrent assertion or employment of any other appropriate right or remedy.

Section 6.11 Delay or Omission Not Waiver.

No delay or omission of the Trustee or of any Holder of any Note to exercise any right or remedy accruing upon any Event of Default shall impair any such right or remedy or constitute a waiver of any such Event of Default or an acquiescence therein. Every right and remedy given by this Article or by law to the Trustee or to the Holders may be exercised from time to time, and as often as may be deemed expedient, by the Trustee or by the Holders, as the case may be.

Section 6.12 Trustee May File Proofs of Claim.

The Trustee is authorized to file such proofs of claim and other papers or documents as may be necessary or advisable in order to have the claims of the Trustee (including any claim for the reasonable compensation, expenses, disbursements and advances of the Trustee, its agents and counsel) and the Holders of the Notes allowed in any judicial proceedings relative to the Co-Issuers (or any other obligor upon the Notes including the Guarantors), its creditors or its property and shall be entitled and empowered to participate as a member in any official committee of creditors appointed in such matter and to collect, receive and distribute any money or other property payable or deliverable on any such claims and any custodian in any such judicial proceeding is hereby authorized by each Holder to make such payments to the Trustee, and in the event that the Trustee shall consent to the making of such payments directly to the Holders, to pay to the Trustee any amount due to it for the reasonable compensation, expenses, disbursements and advances of the Trustee, its agents and counsel, and any other amounts due the Trustee under Section 7.07 hereof. To the extent that the payment of any such compensation, expenses, disbursements and advances of the Trustee, its agents and counsel, and any other amounts due the Trustee under Section 7.07 hereof out of the estate in any such proceeding, shall be denied for any reason, payment of the same shall be secured by a Lien on, and shall be paid out of, any and all distributions, dividends, money, securities and other properties that the Holders may be entitled to receive in such proceeding whether in liquidation or under any plan of reorganization or arrangement or otherwise. Nothing herein contained shall be deemed to authorize the Trustee to authorize or consent to or accept or adopt on behalf of any Holder any plan of reorganization, arrangement, adjustment or composition affecting the Notes or the rights of any Holder, or to authorize the Trustee to vote in respect of the claim of any Holder in any such proceeding.

Section 6.13 Priorities.

If the Trustee collects any money or property pursuant to this Article 6, it shall pay out the money or property in the following order:

(i) to the Trustee, its agents and attorneys for amounts due under Section 7.07 hereof, including payment of all compensation, expenses and liabilities incurred, and all advances made, by the Trustee and the costs and expenses of collection;

(ii) to Holders of Notes for amounts due and unpaid on the Notes for principal, premium, if any, and Additional Interest, if any, and interest, ratably, without preference or priority of any kind, according to the amounts due and payable on the Notes for principal, premium, if any, and Additional Interest, if any, and interest, respectively; and

(iii) to the Co-Issuers or to such party as a court of competent jurisdiction shall direct including a Guarantor, if applicable.

The Trustee may fix a record date and payment date for any payment to Holders of Notes pursuant to this Section 6.13.

Section 6.14 Undertaking for Costs.

In any suit for the enforcement of any right or remedy under this Indenture or in any suit against the Trustee for any action taken or omitted by it as a Trustee, a court in its discretion may require the filing by any party litigant in the suit of an undertaking to pay the costs of the suit, and the court in its discretion may assess reasonable costs, including reasonable attorneys' fees and expenses, against any party litigant in the suit, having due regard to the merits and good faith of the claims or defenses made by the party litigant. This Section 6.14 does not apply to a suit by the Trustee, a suit by a Holder of a Note pursuant to Section 6.07 hereof, or a suit by Holders of more than 10% in principal amount of the then outstanding Notes.

ARTICLE 7

TRUSTEE

Section 7.01 Duties of Trustee.

(a) If an Event of Default has occurred and is continuing, the Trustee shall exercise such of the rights and powers vested in it by this Indenture, and use the same degree of care and skill in its exercise, as a prudent person would exercise or use under the circumstances in the conduct of such person's own affairs.

(b) Except during the continuance of an Event of Default:

(i) the duties of the Trustee shall be determined solely by the express provisions of this Indenture and the Trustee need perform only those duties that are specifically set forth in this Indenture and no others, and no implied covenants or obligations shall be read into this Indenture against the Trustee; and

(ii) in the absence of bad faith on its part, the Trustee may conclusively rely, as to the truth of the statements and the correctness of the opinions expressed therein, upon certificates or opinions furnished to the Trustee and conforming to the requirements of this Indenture. However, in the case of any such certificates or opinions which by any provision hereof are specifically required to be furnished to the Trustee, the Trustee shall examine the certificates and opinions to determine whether or not they conform to the form required by this Indenture (but need not confirm or investigate the accuracy of mathematical calculations or other facts stated therein).

(c) The Trustee may not be relieved from liabilities for its own negligent action, its own negligent failure to act, or its own willful misconduct, except that:

(i) this paragraph (c) does not limit the effect of paragraph (b) of this Section 7.01;

(ii) the Trustee shall not be liable for any error of judgment made in good faith by a Responsible Officer, unless it is proved in a court of competent jurisdiction that the Trustee was negligent in ascertaining the pertinent facts; and

(iii) the Trustee shall not be liable with respect to any action it takes or omits to take in good faith in accordance with a direction received by it pursuant to Section 6.05 hereof.

(d) Whether or not therein expressly so provided, every provision of this Indenture that in any way relates to the Trustee is subject to this Section 7.01.

(e) The Trustee shall be under no obligation to exercise any of its rights or powers under this Indenture at the request or direction of any of the Holders of the Notes unless the Holders have offered to the Trustee indemnity or security reasonably satisfactory to it against any loss, liability or expense.

(f) The Trustee shall not be liable for interest on any money received by it except as the Trustee may agree in writing with the Co-Issuers. Money held in trust by the Trustee need not be segregated from other funds except to the extent required by law.

Section 7.02 Rights of Trustee.

(a) The Trustee may conclusively rely upon any document believed by it to be genuine and to have been signed or presented by the proper Person. The Trustee need not investigate any fact or matter stated in the document, but the Trustee, in its discretion, may make such further inquiry or investigation into such facts or matters as it may see fit, and, if the Trustee shall determine to make such further inquiry or investigation, it shall be entitled to examine the books, records and premises of the Co-Issuers, personally or by agent or attorney at the sole cost of the Co-Issuers and shall incur no liability or additional liability of any kind by reason of such inquiry or investigation.

(b) Before the Trustee acts or refrains from acting, it may require an Officer's Certificate (from the Co-Issuers) or an Opinion of Counsel or both. The Trustee shall not be liable for any action it takes or omits to take in good faith in reliance on such Officer's Certificate or Opinion of Counsel. The Trustee may consult with counsel of its selection and the advice of such counsel or any Opinion of Counsel shall be full and complete authorization and protection from liability in respect of any action taken, suffered or omitted by it hereunder in good faith and in reliance thereon.

(c) The Trustee may act through its attorneys and agents and shall not be responsible for the misconduct or negligence of any agent or attorney appointed with due care.

(d) The Trustee shall not be liable for any action it takes or omits to take in good faith that it believes to be authorized or within the rights or powers conferred upon it by this Indenture.

(e) Unless otherwise specifically provided in this Indenture, any demand, request, direction or notice from the Co-Issuers shall be sufficient if signed by an Officer of each Co-Issuer.

(f) None of the provisions of this Indenture shall require the Trustee to expend or risk its own funds or otherwise to incur any liability, financial or otherwise, in the performance of any of its duties hereunder, or in the exercise of any of its rights or powers if it shall have reasonable grounds for believing that repayment of such funds or indemnity satisfactory to it against such risk or liability is not assured to it.

(g) The Trustee shall not be deemed to have knowledge or notice of any Default or Event of Default unless a Responsible Officer of the Trustee has actual knowledge thereof or unless written notice of any event which is in fact such a Default or Event of Default is received by the Trustee at the Corporate Trust Office of the Trustee, and such notice references the Notes and this Indenture.

(h) In no event shall the Trustee be responsible or liable for special, indirect, or consequential loss or damage of any kind whatsoever (including, but not limited to, loss of profit) irrespective of whether the Trustee has been advised of the likelihood of such loss or damage and regardless of the form of action.

(i) The rights, privileges, protections, immunities and benefits given to the Trustee, including, without limitation, its right to be indemnified, are extended to, and shall be enforceable by, the Trustee in each of its capacities hereunder, and each agent, custodian and other Person employed to act hereunder.

(j) In the event the Co-Issuers are required to pay Additional Interest, the Co-Issuers will provide written notice to the Trustee of the Co-Issuers' obligation to pay Additional Interest no later than 15 days prior to the next Interest Payment Date, which notice shall set forth the amount of the Additional Interest to be paid by the Co-Issuers. The Trustee shall not at any time be under any duty or responsibility to any Holders to determine whether the Additional Interest is payable and the amount thereof.

Section 7.03 Individual Rights of Trustee.

The Trustee in its individual or any other capacity may become the owner or pledgee of Notes and may otherwise deal with the Co-Issuers or any Affiliate of the Co-Issuers with the same rights it would have if it were not Trustee. However, in the event that the Trustee acquires any conflicting interest it must eliminate such conflict within 90 days, apply to the SEC for permission to continue as trustee or resign. Any Agent may do the same with like rights and duties. The Trustee is also subject to Sections 7.10 and 7.11 hereof.

Section 7.04 Trustee's Disclaimer.

The Trustee shall not be responsible for and makes no representation as to the validity or adequacy of this Indenture or the Notes, it shall not be accountable for the Co-Issuers' use of the proceeds from the Notes or any money paid to the Co-Issuers or upon the Co-Issuers' direction under any provision of this Indenture, it shall not be responsible for the use or application of any money received by any Paying Agent other than the Trustee, and it shall not be responsible for any statement or recital herein or any statement in the Notes or any other document in connection with the sale of the Notes or pursuant to this Indenture other than its certificate of authentication.

Section 7.05 Notice of Defaults.

If a Default occurs and is continuing and if it is known to the Trustee, the Trustee shall mail to Holders of Notes a notice of the Default within 90 days after it occurs. Except in the case of a

Default relating to the payment of principal, premium, if any, or interest on any Note, the Trustee may withhold from the Holders notice of any continuing Default if and so long as a committee of its Responsible Officers in good faith determines that withholding the notice is in the interests of the Holders of the Notes.

Section 7.06 Reports by Trustee to Holders of the Notes.

Within 60 days after each August 15, beginning with the August 15 following the date of this Indenture, and for so long as Notes remain outstanding, the Trustee shall mail to the Holders of the Notes a brief report dated as of such reporting date that complies with Trust Indenture Act Section 313(a) (but if no event described in Trust Indenture Act Section 313(a) has occurred within the twelve months preceding the reporting date, no report need be transmitted). The Trustee also shall comply with Trust Indenture Act Section 313(b)(2). The Trustee shall also transmit by mail all reports as required by Trust Indenture Act Section 313(c).

A copy of each report at the time of its mailing to the Holders of Notes shall be mailed to the Issuer and filed with the SEC and each stock exchange on which the Notes are listed in accordance with Trust Indenture Act Section 313(d). The Co-Issuers shall promptly notify the Trustee when the Notes are listed on any stock exchange or delisted therefrom.

Section 7.07 Compensation and Indemnity.

The Co-Issuers shall pay to the Trustee from time to time such compensation for its acceptance of this Indenture and services hereunder as the parties shall agree in writing from time to time. The Trustee's compensation shall not be limited by any law on compensation of a trustee of an express trust. The Co-Issuers shall reimburse the Trustee promptly upon request for all reasonable disbursements, advances and expenses incurred or made by it in addition to the compensation for its services. Such expenses shall include the reasonable compensation, disbursements and expenses of the Trustee's agents and counsel.

The Co-Issuers and the Guarantors, jointly and severally, shall indemnify the Trustee for, and hold the Trustee harmless against, any and all loss, damage, claims, liability or expense (including attorneys' fees) incurred by it in connection with the acceptance or administration of this trust and the performance of its duties hereunder (including the costs and expenses of enforcing this Indenture against the Co-Issuers or any of the Guarantors (including this Section 7.07) or defending itself against any claim whether asserted by any Holder, the Co-Issuers or any Guarantor, or liability in connective with the acceptance, exercise or performance of any of its powers or duties hereunder). The Trustee shall notify the Co-Issuers promptly of any claim for which it may seek indemnity. Failure by the Trustee to so notify the Co-Issuers shall not relieve the Co-Issuers of their obligations hereunder. The Co-Issuers shall defend the claim and the Trustee may have separate counsel and the Co-Issuers shall pay the fees and expenses of such counsel. The Co-Issuers need not reimburse any expense or indemnify against any loss, liability or expense incurred by the Trustee through the Trustee's own willful misconduct, negligence or bad faith.

The obligations of the Co-Issuers under this Section 7.07 shall survive the satisfaction and discharge of this Indenture or the earlier resignation or removal of the Trustee.

To secure the payment obligations of the Co-Issuers and the Guarantors in this Section 7.07, the Trustee shall have a Lien prior to the Notes on all money or property held or collected by the Trustee, except that held in trust to pay principal and interest on particular Notes. Such Lien shall survive the satisfaction and discharge of this Indenture.

When the Trustee incurs expenses or renders services after an Event of Default specified in Section 6.01(a)(6) or (7) hereof occurs, the expenses and the compensation for the services (including the fees and expenses of its agents and counsel) are intended to constitute expenses of administration under any Bankruptcy Law.

The Trustee shall comply with the provisions of Trust Indenture Act Section 313(b)(2) to the extent applicable.

Section 7.08 Replacement of Trustee.

A resignation or removal of the Trustee and appointment of a successor Trustee shall become effective only upon the successor Trustee's acceptance of appointment as provided in this Section 7.08. The Trustee may resign in writing at any time and be discharged from the trust hereby created by so notifying the Co-Issuers. The Holders of a majority in principal amount of the then outstanding Notes may remove the Trustee by so notifying the Trustee and the Co-Issuers in writing. The Co-Issuers may remove the Trustee if:

(a) the Trustee fails to comply with Section 7.10 hereof;

(b) the Trustee is adjudged a bankrupt or an insolvent or an order for relief is entered with respect to the Trustee under any Bankruptcy Law;

(c) a custodian or public officer takes charge of the Trustee or its property; or

(d) the Trustee becomes incapable of acting.

If the Trustee resigns or is removed or if a vacancy exists in the office of Trustee for any reason, the Co-Issuers shall promptly appoint a successor Trustee. Within one year after the successor Trustee takes office, the Holders of a majority in principal amount of the then outstanding Notes may appoint a successor Trustee to replace the successor Trustee appointed by the Co-Issuers.

If a successor Trustee does not take office within 60 days after the retiring Trustee resigns or is removed, the retiring Trustee (at the Co-Issuers' expense), the Co-Issuers or the Holders of at least 10% in principal amount of the then outstanding Notes may petition any court of competent jurisdiction for the appointment of a successor Trustee.

If the Trustee, after written request by any Holder who has been a Holder for at least six months, fails to comply with Section 7.10 hereof, such Holder may petition any court of competent jurisdiction for the removal of the Trustee and the appointment of a successor Trustee.

A successor Trustee shall deliver a written acceptance of its appointment to the retiring Trustee and to the Co-Issuers. Thereupon, the resignation or removal of the retiring Trustee shall become effective, and the successor Trustee shall have all the rights, powers and duties of the Trustee under this Indenture. The successor Trustee shall mail a notice of its succession to Holders. The retiring Trustee shall promptly transfer all property held by it as Trustee to the successor Trustee; provided all sums owing to the Trustee hereunder have been paid and subject to the Lien provided for in Section 7.07 hereof. Notwithstanding replacement of the Trustee pursuant to this Section 7.08, the Co-Issuers' obligations under Section 7.07 hereof shall continue for the benefit of the retiring Trustee.

Section 7.09 Successor Trustee by Merger, etc.

If the Trustee consolidates, merges or converts into, or transfers all or substantially all of its corporate trust business to, another corporation, the successor corporation without any further act shall be the successor Trustee.

Section 7.10 Eligibility; Disqualification.

There shall at all times be a Trustee hereunder that is a corporation organized and doing business under the laws of the United States of America or of any state thereof that is authorized under such laws to exercise corporate trustee power, that is subject to supervision or examination by federal or state authorities and that has a combined capital and surplus of at least $50,000,000 as set forth in its most recent published annual report of condition.

This Indenture shall always have a Trustee who satisfies the requirements of Trust Indenture Act Sections 310(a)(1), (2) and (5). The Trustee is subject to Trust Indenture Act Section 310(b).

Section 7.11 Preferential Collection of Claims Against Co-Issuers.

The Trustee is subject to Trust Indenture Act Section 311(a), excluding any creditor relationship listed in Trust Indenture Act Section 311(b). A Trustee who has resigned or been removed shall be subject to Trust Indenture Act Section 311(a) to the extent indicated therein.

ARTICLE 8

LEGAL DEFEASANCE AND COVENANT DEFEASANCE

Section 8.01 Option To Effect Legal Defeasance or Covenant Defeasance.

The Co-Issuers may, at their option and at any time, elect to have either Section 8.02 or 8.03 hereof applied to all outstanding Notes upon compliance with the conditions set forth below in this Article 8.

Section 8.02 Legal Defeasance and Discharge.

Upon the Co-Issuers' exercise under Section 8.01 hereof of the option applicable to this Section 8.02, the Co-Issuers and the Guarantors shall, subject to the satisfaction of the conditions set forth in Section 8.04 hereof, be deemed to have been discharged from their obligations with respect to all outstanding Notes and Guarantees on the date the conditions set forth below are satisfied (" Legal Defeasance"). For this purpose, Legal Defeasance means that the Co-Issuers shall be deemed to have paid and discharged the entire Indebtedness represented by the outstanding Notes, which shall thereafter be deemed to be "outstanding" only for the purposes of Section 8.05 hereof and the other Sections of this Indenture referred to in (a) and (b) below, and to have satisfied all their other obligations under such Notes and this Indenture including that of the Guarantors (and the Trustee, on demand of and at the expense of the Co-Issuers, shall execute proper instruments acknowledging the same), except for the following provisions which shall survive until otherwise terminated or discharged hereunder:

(a) the rights of Holders of Notes to receive payments in respect of the principal of, premium, if any, and interest on the Notes when such payments are due solely out of the trust created pursuant to this Indenture referred to in Section 8.04 hereof;

(b) the Co-Issuers' obligations with respect to Notes concerning issuing temporary Notes, registration of such Notes, mutilated, destroyed, lost or stolen Notes and the maintenance of an office or agency for payment and money for security payments held in trust;

(c) the rights, powers, trusts, duties and immunities of the Trustee, and the Co-Issuers' obligations in connection therewith; and

(d) this Section 8.02.

Subject to compliance with this Article 8, the Co-Issuers may exercise their option under this Section 8.02 notwithstanding the prior exercise of their option under Section 8.03 hereof.

Section 8.03 Covenant Defeasance.

Upon the Co-Issuers' exercise under Section 8.01 hereof of the option applicable to this Section 8.03, the Co-Issuers and the Guarantors shall, subject to the satisfaction of the conditions set forth in Section 8.04 hereof, be released from their obligations under the covenants contained in Sections 4.03, 4.04, 4.05, 4.07, 4.08, 4.09, 4.10, 4.11, 4.12, 4.13, 4.14 and 4.15 hereof and clauses (4) and (5) of Section 5.01(a), Sections 5.01(c) and 5.01(d) hereof with respect to the outstanding Notes on and after the date the conditions set forth in Section 8.04 hereof are satisfied (" **Covenant Defeasance**"), and the Notes shall thereafter be deemed not "outstanding" for the purposes of any direction, waiver, consent or declaration or act of Holders (and the consequences of any thereof) in connection with such covenants, but shall continue to be deemed "outstanding" for all other purposes hereunder (it being understood that such Notes shall not be deemed outstanding for accounting purposes). For this purpose, Covenant Defeasance means that, with respect to the outstanding Notes, the Co-Issuers may omit to comply with and shall have no liability in respect of any term, condition or limitation set forth in any such covenant, whether directly or indirectly, by reason of any reference elsewhere herein to any such covenant or by reason of any reference in any such covenant to any other provision herein or in any other document and such omission to comply shall not constitute a Default or an Event of Default under Section 6.01 hereof, but, except as specified above, the remainder of this Indenture and such Notes shall be unaffected thereby. In addition, upon the Co-Issuers' exercise under Section 8.01 hereof of the option applicable to this Section 8.03 hereof, subject to the satisfaction of the conditions set forth in Section 8.04 hereof, Sections 6.01(a)(3), 6.01(a)(4), 6.01(a)(5), 6.01(a)(6) (solely with respect to Restricted Subsidiaries subject thereto), 6.01(a)(7) (solely with respect to Restricted Subsidiaries subject thereto) and 6.01(a)(8) hereof shall not constitute Events of Default.

Section 8.04 Conditions to Legal or Covenant Defeasance.

In order to exercise either Legal Defeasance or Covenant Defeasance with respect to the Notes:

(1) the Co-Issuers must irrevocably deposit with the Trustee, in trust, for the benefit of the Holders of the Notes, cash in U.S. dollars, Government Securities, or a combination thereof, in such amounts as will be sufficient, in the opinion of a nationally recognized firm of independent public accountants, to pay the principal of, premium, if any, and interest due on the Notes on the stated maturity date or on the redemption date, as the case may be, of such principal, premium, if any, or interest on such Notes and the Issuer must specify whether such Notes are being defeased to maturity or to a particular redemption date;

(2) in the case of Legal Defeasance, the Co-Issuers shall have delivered to the Trustee an Opinion of Counsel reasonably acceptable to the Trustee confirming that, subject to customary assumptions and exclusions,

(a) the Co-Issuers have received from, or there has been published by, the United States Internal Revenue Service a ruling, or

(b) since the issuance of the Notes, there has been a change in the applicable U.S. federal income tax law,

in either case to the effect that, and based thereon such Opinion of Counsel shall confirm that, subject to customary assumptions and exclusions, the Holders of the Notes will not recognize income, gain or loss for U.S. federal income tax purposes, as applicable, as a result of such Legal Defeasance and will be subject to U.S. federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such Legal Defeasance had not occurred;

(3) in the case of Covenant Defeasance, the Co-Issuers shall have delivered to the Trustee an Opinion of Counsel reasonably acceptable to the Trustee confirming that, subject to customary assumptions and exclusions, the Holders of the Notes will not recognize income, gain or loss for U.S. federal income tax purposes as a result of such Covenant Defeasance and will be subject to such tax on the same amounts, in the same manner and at the same times as would have been the case if such Covenant Defeasance had not occurred;

(4) no Default (other than that resulting from borrowing funds to be applied to make such deposit and any similar and simultaneous deposit relating to other Indebtedness, and the granting of Liens in connection therewith) shall have occurred and be continuing on the date of such deposit;

(5) such Legal Defeasance or Covenant Defeasance shall not result in a breach or violation of, or constitute a default under the Senior Credit Facilities, or any other material agreement or instrument (other than this Indenture) to which the Co-Issuers or any Guarantor is a party or by which the Co-Issuers or any Guarantor is bound (other than that resulting from any borrowing of funds to be applied to make the deposit required to effect such Legal Defeasance or Covenant Defeasance and any similar and simultaneous deposit relating to other Indebtedness, and the granting of Liens in connection therewith);

(6) the Co-Issuers shall have delivered to the Trustee an Opinion of Counsel to the effect that, as of the date of such opinion and subject to customary assumptions and exclusions following the deposit, the trust funds will not be subject to the effect of Section 547 of Title 11 of the United States Code;

(7) the Co-Issuers shall have delivered to the Trustee an Officer's Certificate stating that the deposit was not made by the Issuer with the intent of defeating, hindering, delaying or defrauding any creditors of the Issuer or any Guarantor or others; and

(8) the Co-Issuers shall have delivered to the Trustee an Officer's Certificate and an Opinion of Counsel (which Opinion of Counsel may be subject to customary assumptions and exclusions) each stating that all conditions precedent provided for or relating to the Legal Defeasance or the Covenant Defeasance, as the case may be, have been complied with.

Section 8.05 Deposited Money and Government Securities To Be Held in Trust; Other Miscellaneous Provisions .

Subject to Section 8.06 hereof, all money and Government Securities (including the proceeds thereof) deposited with the Trustee (or other qualifying trustee, collectively for purposes of this Section 8.05, the " **Trustee**") pursuant to Section 8.04 hereof in respect of the outstanding Notes shall be held in trust and applied by the Trustee, in accordance with the provisions of such Notes and this Indenture, to the payment, either directly or through any Paying Agent (including the Co-Issuers or a Guarantor acting as Paying Agent) as the Trustee may determine, to the Holders of such Notes of all sums due and to become due thereon in respect of principal, premium and Additional Interest, if any, and interest, but such money need not be segregated from other funds except to the extent required by law.

The Co-Issuers shall pay and indemnify the Trustee against any tax, fee or other charge imposed on or assessed against the cash or Government Securities deposited pursuant to Section 8.04 hereof or the principal and interest received in respect thereof other than any such tax, fee or other charge which by law is for the account of the Holders of the outstanding Notes.

Anything in this Article 8 to the contrary notwithstanding, the Trustee shall deliver or pay to the Co-Issuers from time to time upon the request of the Co-Issuers any money or Government Securities held by it as provided in Section 8.04 hereof which, in the opinion of a nationally recognized firm of independent public accountants expressed in a written certification thereof delivered to the Trustee (which may be the opinion delivered under Section 8.04(1) hereof), are in excess of the amount thereof that would then be required to be deposited to effect an equivalent Legal Defeasance or Covenant Defeasance.

Section 8.06 Repayment to Co-Issuers.

Subject to any applicable abandoned property law, any money deposited with the Trustee or any Paying Agent, or then held by the Co-Issuers, in trust for the payment of the principal of, premium and Additional Interest, if any, or interest on any Note and remaining unclaimed for two years after such principal, and premium and Additional Interest, if any, or interest has become due and payable shall be paid to the Co-Issuers on their request or (if then held by the Co-Issuers) shall be discharged from such trust; and the Holder of such Note shall thereafter look only to the Co-Issuers for payment thereof, and all liability of the Trustee or such Paying Agent with respect to such trust money, and all liability of the Co-Issuers as trustee thereof, shall thereupon cease.

Section 8.07 Reinstatement.

If the Trustee or Paying Agent is unable to apply any United States dollars or Government Securities in accordance with Section 8.02 or 8.03 hereof, as the case may be, by reason of any order or judgment of any court or governmental authority enjoining, restraining or otherwise prohibiting such application, then the Co-Issuers' obligations under this Indenture and the Notes shall be revived and reinstated as though no deposit had occurred pursuant to Section 8.02 or 8.03 hereof until such time as the Trustee or Paying Agent is permitted to apply all such money in accordance with Section 8.02 or 8.03 hereof, as the case may be; provided that, if the Co-Issuers make any payment of principal of, premium and Additional Interest, if any, or interest on any Note following the reinstatement of its obligations, the Co-Issuers shall be subrogated to the rights of the Holders of such Notes to receive such payment from the money held by the Trustee or Paying Agent.

ARTICLE 9

AMENDMENT, SUPPLEMENT AND WAIVER

Section 9.01 Without Consent of Holders of Notes.

Notwithstanding Section 9.02 hereof, the Co-Issuers, any Guarantor (with respect to a Guarantee to which it is a party or this Indenture) and the Trustee may amend or supplement this Indenture and any Guarantee or Notes without the consent of any Holder:

(1) to cure any ambiguity, omission, mistake, defect or inconsistency;

(2) to provide for uncertificated Notes of such series in addition to or in place of certificated Notes;

(3) to comply with Section 5.01 hereof;

(4) to provide for the assumption of the Issuer's or any Guarantor's obligations to the Holders in a transaction that complies with this Indenture;

(5) to make any change that would provide any additional rights or benefits to the Holders or that does not adversely affect the legal rights under this Indenture of any such Holder;

(6) to add covenants for the benefit of the Holders or to surrender any right or power conferred upon the Issuer, the Co-Issuer or any Guarantor;

(7) to comply with requirements of the SEC in order to effect or maintain the qualification of this Indenture under the Trust Indenture Act;

(8) to evidence and provide for the acceptance and appointment under this Indenture of a successor Trustee thereunder pursuant to the requirements thereof;

(9) to provide for the issuance of exchange notes or private exchange notes, which are identical to exchange notes except that they are not freely transferable;

(10) to add a Guarantor under this Indenture;

(11) to conform the text of this Indenture, Guarantees or the Notes to any provision of the "Description of Notes" section of the Offering Memorandum to the extent that such provision in such "Description of Notes" section was intended to be a verbatim recitation of a provision of this Indenture, Guarantee or Notes; or

(12) to make any amendment to the provisions of this Indenture relating to the transfer and legending of Notes as permitted by this Indenture, including, without limitation to facilitate the issuance and administration of the Notes; provided, however, that (i) compliance with this Indenture as so amended would not result in Notes being transferred in violation of the Securities Act or any applicable securities law and (ii) such amendment does not materially and adversely affect the rights of Holders to transfer Notes.

Upon the request of the Co-Issuers accompanied by a resolution of its board of directors authorizing the execution of any such amended or supplemental indenture, and upon receipt by the

Trustee of the documents described in Section 7.02 hereof, the Trustee shall join with the Co-Issuers and the Guarantors in the execution of any amended or supplemental indenture authorized or permitted by the terms of this Indenture and to make any further appropriate agreements and stipulations that may be therein contained, but the Trustee shall not be obligated to enter into such amended or supplemental indenture that affects its own rights, duties or immunities under this Indenture or otherwise. Notwithstanding the foregoing, no Opinion of Counsel shall be required in connection with the addition of a Guarantor under this Indenture upon execution and delivery by such Guarantor and the Trustee of a supplemental indenture to this Indenture, the form of which is attached as Exhibit D hereto, and delivery of an Officer's Certificate.

Section 9.02 With Consent of Holders of Notes.

Except as provided below in this Section 9.02, the Co-Issuers and the Trustee may amend or supplement this Indenture, the Notes and the Guarantees with the consent of the Holders of at least a majority in principal amount of the Notes (including Additional Notes, if any) then outstanding voting as a single class (including, without limitation, consents obtained in connection with a tender offer or exchange offer for, or purchase of, the Notes), and, subject to Sections 6.04 and 6.07 hereof, any existing Default or Event of Default (other than a Default or Event of Default in the payment of the principal of, premium and Additional Interest, if any, or interest on the Notes, except a payment default resulting from an acceleration that has been rescinded) or compliance with any provision of this Indenture, the Guarantees or the Notes may be waived with the consent of the Holders of a majority in principal amount of the then outstanding Notes (including Additional Notes, if any) voting as a single class (including consents obtained in connection with a tender offer or exchange offer for, or purchase of, the Notes). Section 2.08 hereof and Section 2.09 hereof shall determine which Notes are considered to be "outstanding" for the purposes of this Section 9.02.

Upon the request of the Co-Issuers accompanied by a resolution of its board of directors authorizing the execution of any such amended or supplemental indenture, and upon the filing with the Trustee of evidence satisfactory to the Trustee of the consent of the Holders of Notes as aforesaid, and upon receipt by the Trustee of the documents described in Section 7.02 hereof, the Trustee shall join with the Co-Issuers in the execution of such amended or supplemental indenture unless such amended or supplemental indenture directly affects the Trustee's own rights, duties or immunities under this Indenture or otherwise, in which case the Trustee may in its discretion, but shall not be obligated to, enter into such amended or supplemental indenture.

It shall not be necessary for the consent of the Holders of Notes under this Section 9.02 to approve the particular form of any proposed amendment or waiver, but it shall be sufficient if such consent approves the substance thereof.

After an amendment, supplement or waiver under this Section 9.02 becomes effective, the Co-Issuers shall mail to the Holders of Notes affected thereby a notice briefly describing the amendment, supplement or waiver. Any failure of the Co-Issuers to mail such notice, or any defect therein, shall not, however, in any way impair or affect the validity of any such amended or supplemental indenture or waiver.

Without the consent of each affected Holder of Notes, an amendment or waiver under this Section 9.02 may not (with respect to any Notes held by a non-consenting Holder):

(1) reduce the principal amount of such Notes whose Holders must consent to an amendment, supplement or waiver;

(2) reduce the principal of or change the fixed final maturity of any such Note or alter or waive the provisions with respect to the redemption of such Notes (other than provisions relating to Section 3.09, Section 4.10 and Section 4.14 hereof to the extent that any such amendment or waiver does not have the effect of reducing the principal of or changing the fixed final maturity of any such Note or altering or waiving the provisions with respect to the redemption of such Notes);

(3) reduce the rate of or change the time for payment of interest on any Note;

(4) waive a Default in the payment of principal of or premium, if any, or interest on the Notes, except a rescission of acceleration of the Notes by the Holders of at least a majority in aggregate principal amount of the Notes and a waiver of the payment default that resulted from such acceleration, or in respect of a covenant or provision contained in this Indenture or any Guarantee which cannot be amended or modified without the consent of all affected Holders;

(5) make any Note payable in money other than that stated therein;

(6) make any change in the provisions of this Indenture relating to waivers of past Defaults or the rights of Holders to receive payments of principal of or premium, if any, or interest on the Notes;

(7) make any change to this paragraph of this Section 9.02;

(8) impair the right of any Holder to receive payment of principal of, or interest on, such Holder's Notes on or after the due dates therefor or to institute suit for the enforcement of any payment on or with respect to such Holder's Notes;

(9) make any change to or modify the ranking of the Notes that would adversely affect the Holders; or

(10) except as expressly permitted by this Indenture, modify the Guarantees of any Significant Subsidiary, or any group of Restricted Subsidiaries that, taken together (as of the latest audited consolidated financial statements for the Issuer), would constitute a Significant Subsidiary, in any manner adverse to the Holders of the Notes.

Section 9.03 Compliance with Trust Indenture Act.

Every amendment or supplement to this Indenture or the Notes shall be set forth in an amended or supplemental indenture that complies with the Trust Indenture Act as then in effect.

Section 9.04 Revocation and Effect of Consents.

Until an amendment, supplement or waiver becomes effective, a consent to it by a Holder of a Note is a continuing consent by the Holder of a Note and every subsequent Holder of a Note or portion of a Note that evidences the same debt as the consenting Holder's Note, even if notation of the consent is not made on any Note. However, any such Holder of a Note or subsequent Holder of a Note may revoke the consent as to its Note if the Trustee receives written notice of revocation before the date the waiver, supplement or amendment becomes effective. An amendment, supplement or waiver becomes effective in accordance with its terms (or if silent as to effectiveness, on the date on which the Trustee receives an Officers' Certificate certifying that the Holders of the requisite principal amount of Notes have consented (and not theretofore revoked such consent) to such amendment, supplement or waiver) and thereafter binds every Holder.

The Co-Issuers may, but shall not be obligated to, fix a record date for the purpose of determining the Holders entitled to consent to any amendment, supplement, or waiver. If a record date is fixed, then, notwithstanding the preceding paragraph, those Persons who were Holders at such record date (or their duly designated proxies), and only such Persons, shall be entitled to consent to such amendment, supplement, or waiver or to revoke any consent previously given, whether or not such Persons continue to be Holders after such record date. No such consent shall be valid or effective for more than 120 days after such record date unless the consent of the requisite number of Holders has been obtained.

Section 9.05 Notation on or Exchange of Notes.

The Trustee may place an appropriate notation about an amendment, supplement or waiver on any Note thereafter authenticated. The Co-Issuers in exchange for all Notes may issue and the Trustee shall, upon receipt of an Authentication Order, authenticate new Notes that reflect the amendment, supplement or waiver.

Failure to make the appropriate notation or issue a new Note shall not affect the validity and effect of such amendment, supplement or waiver.

Section 9.06 Trustee To Sign Amendments, etc.

The Trustee shall sign any amendment, supplement or waiver authorized pursuant to this Article 9 if the amendment or supplement does not adversely affect the rights, duties, liabilities or immunities of the Trustee. Neither the Issuer nor the Co-Issuer may sign an amendment, supplement or waiver until its board of directors (or a duly authorized committee thereof) (or, if applicable, board of managers) approves it. In executing any amendment, supplement or waiver, the Trustee shall be provided with and (subject to Section 7.01 hereof) shall be fully protected in relying upon, in addition to the documents required by Section 12.04 hereof, an Officer's Certificate and an Opinion of Counsel stating that the execution of such amended or supplemental indenture is authorized or permitted by this Indenture and that such amendment, supplement or waiver is the legal, valid and binding obligation of the Co-Issuers and any Guarantors party thereto, enforceable against them in accordance with its terms, subject to customary exceptions, and complies with the provisions hereof (including Section 9.03). Notwithstanding the foregoing, no Opinion of Counsel will be required for the Trustee to execute any amendment or supplement adding a new Guarantor under this Indenture.

Section 9.07 Payment for Consent.

The Issuer shall not, and shall not permit any of its Subsidiaries to, directly or indirectly, pay or cause to be paid any consideration, whether by way of interest, fee or otherwise, to or for the benefit of any Holder for or as an inducement to any consent, waiver or amendment of any of the terms or provisions of this Indenture or the Notes unless such consideration is offered to all Holders and is paid to all Holders that so consent, waive or agree to amend in the time frame set forth in the solicitation documents relating to such consent, waiver or agreement.

ARTICLE 10

GUARANTEES

Section 10.01 Guarantee.

Subject to this Article 10, each of the Guarantors hereby fully, jointly and severally, irrevocably and unconditionally guarantees to each Holder of a Note authenticated and delivered by the Trustee and to the Trustee and its successors and assigns, irrespective of the validity and enforceability of this Indenture, the Notes or the obligations of the Co-Issuers hereunder or thereunder, that: (a) the principal of, and interest, premium and Additional Interest, if any, on the Notes shall be promptly paid in full when due, whether at maturity, by acceleration, redemption or otherwise, and interest on the overdue principal of and interest on the Notes, if any, if lawful, and all other Obligations of the Co-Issuers to the Holders or the Trustee hereunder or thereunder shall be promptly paid in full or performed, all in accordance with the terms hereof and thereof; and (b) in case of any extension of time of payment or renewal of any Notes or any of such other obligations, that same shall be promptly paid in full when due or performed in accordance with the terms of the extension or renewal, whether at stated maturity, by acceleration or otherwise. Failing payment when due of any amount so guaranteed or any performance so guaranteed for whatever reason, the Guarantors shall be jointly and severally obligated to pay the same immediately. Each Guarantor agrees that this is a guarantee of payment and not a guarantee of collection.

The Guarantors hereby agree that their obligations hereunder shall be unconditional, irrespective of the validity, regularity or enforceability of the Notes or this Indenture, the absence of any action to enforce the same, any waiver or consent by any Holder of the Notes with respect to any provisions hereof or thereof, the recovery of any judgment against the Co-Issuers, any action to enforce the same or any other circumstance which might otherwise constitute a legal or equitable discharge or defense of a guarantor. Each Guarantor hereby waives diligence, presentment, demand of payment, filing of claims with a court in the event of insolvency or bankruptcy of the Co-Issuers, any right to require a proceeding first against the Co-Issuers, protest, notice and all demands whatsoever and covenants that this Guarantee shall not be discharged except by complete performance of the obligations contained in the Notes and this Indenture.

Each Guarantor also agrees to pay any and all costs and expenses (including reasonable attorneys' fees) incurred by the Trustee or any Holder in enforcing any rights under this Section 10.01.

If any Holder or the Trustee is required by any court or otherwise to return to the Co-Issuers, the Guarantors or any custodian, trustee, liquidator or other similar official acting in relation to either the Co-Issuers or the Guarantors, any amount paid either to the Trustee or such Holder, this Guarantee, to the extent theretofore discharged, shall be reinstated in full force and effect.

Each Guarantor agrees that it shall not be entitled to any right of subrogation in relation to the Holders in respect of any obligations guaranteed hereby until payment in full of all obligations guaranteed hereby. Each Guarantor further agrees that, as between the Guarantors, on the one hand, and the Holders and the Trustee, on the other hand, (x) the maturity of the obligations guaranteed hereby may be accelerated as provided in Article 6 hereof for the purposes of this Guarantee, notwithstanding any stay, injunction or other prohibition preventing such acceleration in respect of the obligations guaranteed hereby, and (y) in the event of any declaration of acceleration of such obligations as provided in Article 6 hereof, such obligations (whether or not due and payable) shall forthwith become due and payable by the Guarantors for the purpose of this Guarantee. The Guarantors shall have the right to seek contribution from any non-paying Guarantor so long as the exercise of such right does not impair the rights of the Holders under the Guarantees.

Each Guarantee shall remain in full force and effect and continue to be effective should any petition be filed by or against the Co-Issuers for liquidation, reorganization, should the Co-Issuers become insolvent or make an assignment for the benefit of creditors or should a receiver or trustee be appointed for all or any significant part of the Co-Issuers' assets, and shall, to the fullest extent permitted by law, continue to be effective or be reinstated, as the case may be, if at any time payment and performance of the Notes are, pursuant to applicable law, rescinded or reduced in amount, or must otherwise be restored or returned by any obligee on the Notes or Guarantees, whether as a "voidable preference," "fraudulent transfer" or otherwise, all as though such payment or performance had not been made. In the event that any payment or any part thereof, is rescinded, reduced, restored or returned, the Notes shall, to the fullest extent permitted by law, be reinstated and deemed reduced only by such amount paid and not so rescinded, reduced, restored or returned.

In case any provision of any Guarantee shall be invalid, illegal or unenforceable, the validity, legality, and enforceability of the remaining provisions shall not in any way be affected or impaired thereby.

The Guarantee issued by any Guarantor shall be a general unsecured senior obligation of such Guarantor and shall be *pari passu* in right of payment with all existing and future senior Indebtedness of such Guarantor, if any.

Each payment to be made by a Guarantor in respect of its Guarantee shall be made without set-off, counterclaim, reduction or diminution of any kind or nature.

Section 10.02 Limitation on Guarantor Liability.

Each Guarantor, and by its acceptance of Notes, each Holder, hereby confirms that it is the intention of all such parties that the Guarantee of such Guarantor not constitute a fraudulent transfer or conveyance for purposes of Bankruptcy Law, the Uniform Fraudulent Conveyance Act, the Uniform Fraudulent Transfer Act or any similar federal or state law to the extent applicable to any Guarantee. To effectuate the foregoing intention, the Trustee, the Holders and the Guarantors hereby irrevocably agree that the obligations of each Guarantor shall be limited to the maximum amount as will, after giving effect to such maximum amount and all other contingent and fixed liabilities of such Guarantor that are relevant under such laws and after giving effect to any collections from, rights to receive contribution from or payments made by or on behalf of any other Guarantor in respect of the obligations of such other Guarantor under this Article 10, result in the obligations of such Guarantor under its Guarantee not constituting a fraudulent conveyance or fraudulent transfer under applicable law. Each Guarantor that makes a payment under its Guarantee shall be entitled upon payment in full of all guaranteed obligations under this Indenture to a contribution from each other Guarantor in an amount equal to such other Guarantor's *pro rata* portion of such payment based on the respective net assets of all the Guarantors at the time of such payment determined in accordance with GAAP.

Section 10.03 Execution and Delivery.

To evidence its Guarantee set forth in Section 10.01 hereof, each Guarantor hereby agrees that this Indenture shall be executed on behalf of such Guarantor by one of its Officers.

Each Guarantor hereby agrees that its Guarantee set forth in Section 10.01 hereof shall remain in full force and effect notwithstanding the absence of the endorsement of any notation of such Guarantee on the Notes.

If an Officer whose signature is on this Indenture no longer holds that office at the time the Trustee authenticates the Note, the Guarantee shall be valid nevertheless.

The delivery of any Note by the Trustee, after the authentication thereof hereunder, shall constitute due delivery of the Guarantee set forth in this Indenture on behalf of the Guarantors.

If required by Section 4.15 hereof, the Co-Issuers shall cause any newly created or acquired Restricted Subsidiary to comply with the provisions of Section 4.15 hereof and this Article 10, to the extent applicable.

Section 10.04 Subrogation.

Each Guarantor shall be subrogated to all rights of Holders of Notes against the Co-Issuers in respect of any amounts paid by any Guarantor pursuant to the provisions of Section 10.01 hereof; provided that, if an Event of Default has occurred and is continuing, no Guarantor shall be entitled to enforce or receive any payments arising out of, or based upon, such right of subrogation until all amounts then due and payable by the Co-Issuers under this Indenture or the Notes shall have been paid in full.

Section 10.05 Benefits Acknowledged.

Each Guarantor acknowledges that it will receive direct and indirect benefits from the financing arrangements contemplated by this Indenture and that the guarantee and waivers made by it pursuant to its Guarantee are knowingly made in contemplation of such benefits.

Section 10.06 Release of Guarantees.

A Guarantee by a Guarantor shall be automatically and unconditionally released and discharged, and no further action by such Guarantor, the Co-Issuers or the Trustee is required for the release of such Guarantor's Guarantee, upon:

(1) (a) any sale, exchange, disposition or transfer (by merger or otherwise) of (x) the Capital Stock of such Guarantor, after which the applicable Guarantor is no longer a Restricted Subsidiary, or (y) all or substantially all the assets of such Guarantor, which sale, exchange, disposition or transfer in each case is made in compliance with clauses (1) and (2) of the first paragraph of Section 4.10;

(b) the release or discharge of the guarantee by such Guarantor of the Senior Credit Facilities or the guarantee which resulted in the creation of such Guarantee, except a discharge or release by or as a result of payment under such guarantee under the Senior Credit Facilities;

(c) the proper designation of any Restricted Subsidiary that is a Guarantor as an Unrestricted Subsidiary; or

(2) the Issuer delivering to the Trustee an Officer's Certificate and, if requested by the Trustee, an Opinion of Counsel, each stating that all conditions precedent provided for in this Indenture relating to such transaction have been complied with.

ARTICLE 11

SATISFACTION AND DISCHARGE

Section 11.01 Satisfaction and Discharge.

This Indenture shall be discharged and shall cease to be of further effect as to all Notes, when either:

(1) all Notes theretofore authenticated and delivered, except lost, stolen or destroyed Notes which have been replaced or paid and Notes for whose payment money has theretofore been deposited in trust, have been delivered to the Trustee for cancellation; or

(2) (A) all Notes not theretofore delivered to the Trustee for cancellation have become due and payable by reason of the making of a notice of redemption or otherwise, shall become due and payable within one year or are to be called for redemption within one year under arrangements satisfactory to the Trustee for the giving of notice of redemption by the Trustee in the name, and at the expense, of the Co-Issuers and the Co-Issuers or any Guarantor have irrevocably deposited or caused to be deposited with the Trustee as trust funds in trust solely for the benefit of the Holders of the Notes, cash in U.S. dollars, Government Securities, or a combination thereof, in such amounts as will be sufficient without consideration of any reinvestment of interest to pay and discharge the entire indebtedness on the Notes not theretofore delivered to the Trustee for cancellation for principal, premium, if any, and accrued interest to the date of maturity or redemption;

(B) no Default (other than that resulting from borrowing funds to be applied to make such deposit and any similar and simultaneous deposit relating to other Indebtedness, and the granting of Liens in connection therewith) with respect to this Indenture or the Notes shall have occurred and be continuing on the date of such deposit or shall occur as a result of such deposit and such deposit will not result in a breach or violation of, or constitute a default under the Senior Credit Facilities, or any other material agreement or instrument (other than this Indenture) to which the Issuer or any Guarantor is a party or by which the Issuer or any Guarantor is bound (other than that resulting from any borrowing of funds to be applied to make such deposit and any similar and simultaneous deposit relating to other Indebtedness, and the granting of Liens in connection therewith);

(C) the Co-Issuers have paid or caused to be paid all sums payable by it under this Indenture; and

(D) the Co-Issuers have delivered irrevocable instructions to the Trustee to apply the deposited money toward the payment of the Notes at maturity or the redemption date, as the case may be.

In addition, the Co-Issuers must deliver an Officer's Certificate and an Opinion of Counsel to the Trustee stating that all conditions precedent to satisfaction and discharge have been satisfied.

Notwithstanding the satisfaction and discharge of this Indenture, if money shall have been deposited with the Trustee pursuant to subclause (A) of clause (2) of this Section 11.01, the provisions of Section 11.02 and Section 8.06 hereof shall survive such satisfaction and discharge.

Section 11.02 Application of Trust Money.

Subject to the provisions of Section 8.06 hereof, all money deposited with the Trustee pursuant to Section 11.01 hereof shall be held in trust and applied by it, in accordance with the provisions of the Notes and this Indenture, to the payment, either directly or through any Paying Agent (including the Co-Issuers acting as their own Paying Agent) as the Trustee may determine, to the Persons entitled thereto, of the principal (and premium and Additional Interest, if any) and interest for whose payment such money has been deposited with the Trustee; but such money need not be segregated from other funds except to the extent required by law.

If the Trustee or Paying Agent is unable to apply any money or Government Securities in accordance with Section 11.01 hereof by reason of any legal proceeding or by reason of any order or judgment of any court or governmental authority enjoining, restraining or otherwise prohibiting such application, the Co-Issuers' and any Guarantor's obligations under this Indenture and the Notes shall be revived and reinstated as though no deposit had occurred pursuant to Section 11.01 hereof; provided that if the Co-Issuers have made any payment of principal of, premium and Additional Interest, if any, or interest on any Notes because of the reinstatement of its obligations, the Co-Issuers shall be subrogated to the rights of the Holders of such Notes to receive such payment from the money or Government Securities held by the Trustee or Paying Agent.

All agreements of the Co-Issuers in this Indenture and the Notes shall bind their successors. All agreements of the Trustee in this Indenture shall bind its successors. All agreements of each Guarantor in this Indenture shall bind its successors, except as otherwise provided in Section 10.06 hereof.

Section 12.14 Counterpart Originals.

The parties may sign any number of copies of this Indenture. Each signed copy shall be an original, but all of them together represent the same agreement. This Indenture may be executed in multiple counterparts which, when taken together, shall constitute one instrument.

Section 12.15 Table of Contents, Headings, etc.

The Table of Contents, Cross-Reference Table and headings of the Articles and Sections of this Indenture have been inserted for convenience of reference only, are not to be considered a part of this Indenture and shall in no way modify or restrict any of the terms or provisions hereof.

(a) Along with all Guarantors named in the Indenture, to jointly and severally unconditionally guarantee to each Holder of a Note authenticated and delivered by the Trustee and to the Trustee and its successors and assigns, irrespective of the validity and enforceability of the Indenture, the Notes or the obligations of the Co-Issuers hereunder or thereunder, that:

(i) the principal of and interest, premium and Additional Interest, if any, on the Notes will be promptly paid in full when due, whether at maturity, by acceleration, redemption or otherwise, and interest on the overdue principal of and interest on the Notes, if any, if lawful, and all other obligations of the Co-Issuers to the Holders or the Trustee hereunder or thereunder will be promptly paid in full or performed, all in accordance with the terms hereof and thereof; and

(ii) in case of any extension of time of payment or renewal of any Notes or any of such other obligations, that same will be promptly paid in full when due or

performed in accordance with the terms of the extension or renewal, whether at stated maturity, by acceleration or otherwise. Failing payment when due of any amount so guaranteed or any performance so guaranteed for whatever reason, the Guarantors and the Guaranteeing Subsidiary shall be jointly and severally obligated to pay the same immediately. This is a guarantee of payment and not a guarantee of collection.

(b) The obligations hereunder shall be unconditional, irrespective of the validity, regularity or enforceability of the Notes or the Indenture, the absence of any action to enforce the same, any waiver or consent by any Holder of the Notes with respect to any provisions hereof or thereof, the recovery of any judgment against the Co-Issuers, any action to enforce the same or any other circumstance which might otherwise constitute a legal or equitable discharge or defense of a guarantor.

(c) The following is hereby waived: diligence, presentment, demand of payment, filing of claims with a court in the event of insolvency or bankruptcy of the Co-Issuers, any right to require a proceeding first against the Co-Issuers, protest, notice and all demands whatsoever.

(d) This Guarantee shall not be discharged except by complete performance of the obligations contained in the Notes, the Indenture and this Supplemental Indenture, and the Guaranteeing Subsidiary accepts all obligations of a Guarantor under the Indenture.

(e) If any Holder or the Trustee is required by any court or otherwise to return to the Co-Issuers, the Guarantors (including the Guaranteeing Subsidiary), or any custodian, trustee, liquidator or other similar official acting in relation to either the Co-Issuers or the Guarantors, any amount paid either to the Trustee or such Holder, this Guarantee, to the extent theretofore discharged, shall be reinstated in full force and effect.

(f) The Guaranteeing Subsidiary shall not be entitled to any right of subrogation in relation to the Holders in respect of any obligations guaranteed hereby until payment in full of all obligations guaranteed hereby.

(g) As between the Guaranteeing Subsidiary, on the one hand, and the Holders and the Trustee, on the other hand, (x) the maturity of the obligations guaranteed hereby may be accelerated as provided in Article 6 of the Indenture for the purposes of this Guarantee, notwithstanding any stay, injunction or other prohibition preventing such acceleration in respect of the obligations guaranteed hereby, and (y) in the event of any declaration of acceleration of such obligations as provided in Article 6 of the Indenture, such obligations (whether or not due and payable) shall forthwith become due and payable by the Guaranteeing Subsidiary for the purpose of this Guarantee.

(h) The Guaranteeing Subsidiary shall have the right to seek contribution from any non-paying Guarantor so long as the exercise of such right does not impair the rights of the Holders under this Guarantee.

(i) Pursuant to Section 10.02 of the Indenture, after giving effect to all other contingent and fixed liabilities that are relevant under any applicable Bankruptcy or fraudulent conveyance laws, and after giving effect to any collections from, rights to receive contribution from or payments made by or on behalf of any other Guarantor in respect of the obligations of such other Guarantor under Article 10 of the Indenture, this new Guarantee shall be limited to the maximum amount permissible such that the obligations of such Guaranteeing Subsidiary under this Guarantee will not constitute a fraudulent transfer or conveyance.

(j) This Guarantee shall remain in full force and effect and continue to be effective should any petition be filed by or against the Co-Issuers for liquidation, reorganization, should the Co-Issuers become insolvent or make an assignment for the benefit of creditors or should a receiver or trustee be appointed for all or any significant part of the Co-Issuers' assets, and shall, to the fullest extent permitted by law, continue to be effective or be reinstated, as the case may be, if at any time payment and performance of the Notes are, pursuant to applicable law, rescinded or reduced in amount, or must otherwise be restored or returned by any obligee on the Notes and Guarantee, whether as a "voidable preference", "fraudulent transfer" or otherwise, all as though such payment or performance had not been made. In the event that any payment or any part thereof, is rescinded, reduced, restored or returned, the Note shall, to the fullest extent permitted by law, be reinstated and deemed reduced only by such amount paid and not so rescinded, reduced, restored or returned.

(k) In case any provision of this Guarantee shall be invalid, illegal or unenforceable, the validity, legality, and enforceability of the remaining provisions shall not in any way be affected or impaired thereby.

(l) This Guarantee shall be a general unsecured senior obligation of such Guaranteeing Subsidiary, ranking *pari passu* with any other future senior Indebtedness of such Guaranteeing Subsidiary, if any.

(m) Each payment to be made by the Guaranteeing Subsidiary in respect of this Guarantee shall be made without set-off, counterclaim, reduction or diminution of any kind or nature.

(3) Execution and Delivery. The Guaranteeing Subsidiary agrees that the Guarantee shall remain in full force and effect notwithstanding the absence of the endorsement of any notation of such Guarantee on the Notes.

(4) Merger, Consolidation or Sale of All or Substantially All Assets .

(a) The Guaranteeing Subsidiary may not consolidate or merge with or into or wind up into (whether or not the Issuer or Guaranteeing Subsidiary is the surviving corporation), or sell, assign, transfer, lease, convey or otherwise dispose of all or substantially all of its properties or assets, in one or more related transactions, to any Person unless:

(B) the Successor Person, if other than the Guaranteeing Subsidiary, expressly assumes all the obligations of the Guaranteeing Subsidiary under the Indenture and the Guaranteeing Subsidiary's related Guarantee pursuant to supplemental indentures or other documents or instruments in form reasonably satisfactory to the Trustee;

(C) immediately after such transaction, no Default exists; and

(D) the Co-Issuers shall have delivered to the Trustee an Officer's Certificate and an Opinion of Counsel, each stating that such consolidation, merger or transfer and such supplemental indentures, if any, comply with the Indenture; or

(ii) the transaction is made in compliance with clauses (1) and (2) of the first paragraph of Section 4.10 of the Indenture;

(b) Subject to certain limitations described in the Indenture, the Successor Person will succeed to, and be substituted for, the Guaranteeing Subsidiary under the Indenture and the Guaranteeing Subsidiary's Guarantee. 3.1.1. Demand Registration Rights. At any time following the Initial Public Offering but subject to Section 2, any Investors, Other Investors or Founders that, collectively, beneficially hold at least 5% of the outstanding Shares (the " Initiating Holders"), by notice to the Company specifying the intended method or methods of disposition, may request that the Company effect the registration under the Securities Act for a Public Offering of all or a specified part of the Registrable Securities held by such Initiating Holders.

Notwithstanding the foregoing, no Initiating Holder may request a registration unless the value of Registrable Securities that the Initiating Holders propose to sell in such Public Offering on Form S-1 (or any other registration form that contains substantially the same information required by such form) is at least twenty-five million dollars ($25,000,000), or, in the case of any other registration on Form S-3, fifteen million dollars ($15,000,000) or, in either case, such lower amount as agreed by the Board. The Company will then use its best efforts to (i) effect the registration under the Securities Act (including by means of a shelf registration pursuant to Rule 415 under the Securities Act if so requested by a majority of the Initiating Holders and if the Company is then eligible to use such registration) of the Registrable Securities that the Company has been requested to register by such Initiating Holders together with all other Registrable Securities that the Company has been requested to register pursuant to Section 3.2 by other Holders, all to the extent required to permit the disposition of the Registrable Securities that the Company has been so requested to register, and (ii) if requested by an Initiating Holder, obtain acceleration of the effective date of the registration statement relating to such registration; provided, however, that the Company shall not be obligated to take any action to effect any such registration pursuant to this Section 3.1.1:

(a) prior to the consummation of the first underwritten Public Offering following the Initial Public Offering if the Initiating Holders are exclusively Other Investors and/or Founders;

(b) during the effectiveness of any Principal Lock-Up Agreement entered into in connection with any registration statement pertaining to an underwritten public offering of securities of the Company for its own account (other than a Rule 145 Transaction, or a registration relating solely to employee benefit plans);

(c) if a registration statement requested under this Section 3.1.1 became effective within the preceding 90 days (unless otherwise consented to by the Board).

3.1.2. Shelf Takedowns. At any time during which the Company has effective a shelf registration pursuant to Rule 415 under the Securities Act with respect to such Holder's Shares, any Holder (a "Shelf Takedown Holder"), by notice to the Company specifying the intended method or methods of disposition, may request that the Company effect an underwritten offering of the Shelf Takedown Holder's Shares that are subject to such registration statement (an "Underwritten Shelf Takedown") of all or a specified part of the Registrable Securities held by such Shelf Takedown Holder; provided, however, that the value of Registrable Securities that the Shelf Takedown Holder proposes to sell in an Underwritten Shelf Takedown is at least twenty-five million dollars ($25,000,000) or fifteen million dollars ($15,000,000) in the case of a registration statement that does not include substantially more information than is required to included on Form S-3 or, in either case, such lower amount as agreed to by the Board. The Company shall not be obligated to take any action to effect any such Underwritten Shelf Takedown pursuant to this Section 3.1.2 if an Underwritten Shelf Takedown requested under this Section 3.1.2 was consummated within the preceding 90 days (unless otherwise consented to by the Board).

3.1.3. Form. Except as otherwise provided above or required by law, each registration requested pursuant to Section 3.1.1 shall be effected by the filing of a registration statement on Form S-3 (or any other form which includes substantially the same information as would be required to be included in a registration statement on such form as currently constituted); provided, that if any registration requested pursuant to this Section 3.1 is proposed to be effected on Form S-3 (or any successor or similar short-form registration statement) and is in connection with an underwritten offering, and if the managing underwriter shall advise the Company in writing that, in its opinion, it is of material importance to the success of such proposed offering to file a registration statement on Form S-1 (or any successor or similar registration statement), or to include in such registration statement information not required to be included pursuant to Form S-3 (or any successor or similar short-form registration statement), then the Company will file a registration statement on Form S-1 or supplement Form S-3 (or any successor or similar short-form registration statement) as reasonably requested by such managing underwriter.

3.1.4. Payment of Expenses. The Company will pay all Registration Expenses in connection with registrations of Registrable Securities pursuant to this Section 3.1, including all reasonable expenses (other than fees and disbursements of counsel that do not constitute Registration Expenses) that any Holder incurs in connection with each registration of Registrable Securities requested pursuant to this Section 3.1.

3.1.5. Additional Procedures. In the case of a registration pursuant to Section 3.1 hereof, whenever an Initiating Holder is entitled to request and so requests that such registration shall be effected pursuant to an underwritten offering, the Company shall include such information in any written notice to Holders required by

Section 3.2. In such event, the right of any Holder to have securities owned by such Holder included in such registration shall be conditioned upon the inclusion of such Holder's Registrable Securities in the underwriting (unless otherwise mutually agreed upon by the Initiating Holder and such Holder). If requested by the Initiating Holder or Shelf Takedown Holder, the Company together with the Holders proposing to distribute their securities through the underwriting will enter into an underwriting agreement with the underwriters for such offering containing such representations and warranties by the Company and such Holders and such other terms and provisions as are customarily contained in underwriting agreements with respect to secondary distributions, including customary indemnity and contribution provisions (subject, in each case, to the limitations on such liabilities set forth in this Agreement).

3.1.6. Suspension of Registration. If the filing, initial effectiveness or continued use of a registration statement, including a shelf registration statement pursuant to Rule 415 under the Securities Act, in respect of a registration pursuant to this Section 3.1 at any time would require the Company to make a public disclosure of material non-public information, which disclosure in the good faith judgment of the Board (after consultation with external legal counsel) (i) would be required to be made in any registration statement so that such registration statement would not be materially misleading, (ii) would not be required to be made at such time but for the filing, effectiveness or continued use of such registration statement and (iii) would have a material adverse effect on the Company or its business, or on the Company's ability to effect a material proposed acquisition, disposition, financing, reorganization, recapitalization or similar transaction, then the Company may, upon giving prompt written notice of such action to the Holders participating in such registration, delay the filing or initial effectiveness of, or suspend use of, such registration statement; provided, that the Company shall not be permitted to do so (i) for a period exceeding 30 days on any one occasion or (ii) for an aggregate period exceeding 60 days in any 12-month period. In the event the Company exercises its rights under the preceding sentence, such Holders agree to suspend, promptly upon their receipt of the notice referred to above, their use of any prospectus relating to such registration in connection with any sale or offer to sell Registrable Securities. The Company shall promptly notify such Holders of the expiration of any period during which it exercised its rights under this Section 3.1.6. The Company agrees that, in the event it exercises its rights under this Section 3.1.6, it shall, within 30 days following such Holders' receipt of the notice of suspension, update the suspended registration statement as may be necessary to permit the Holders to resume use thereof in connection with the offer and sale of their Registrable Securities in accordance with applicable law.

3.2. Piggyback Registration Rights.

3.2.1. Piggyback Registration.

(a) General. Each time the Company proposes to register any shares of Common Stock under the Securities Act on a form which would permit registration of Registrable Securities for sale to the public, for its own account and/or for the account of any other Person (pursuant to Section 3.1 or otherwise)

for sale in a Public Offering, the Company will give notice to all Holders of its intention to do so. Any Holder may, by written response delivered to the Company within 20 days after the date of delivery of such notice, request that all or a specified part of such Holder's Registrable Securities be included in such registration. A Holder may request in any such response that varying numbers of such Holder's Registrable Securities be included in the registration based on varying prices at which such Registrable Securities are to be sold in the registered offering. The Company thereupon will use its best efforts to cause to be included in such registration under the Securities Act all Registrable Securities that the Company has been so requested to register by such Holders, to the extent required to permit the disposition (in accordance with the methods to be used by the Company or, pursuant to Section 3.1, other Holders in such Public Offering) of the Registrable Securities to be so registered; provided that (i) if, at any time after giving written notice of its intention to register any securities, the Company shall determine for any reason not to proceed with the proposed registration of the securities to be sold by it, the Company may, at its election, give written notice of such determination to each Holder and, thereupon, shall be relieved of its obligation to register any Registrable Securities in connection with such registration (but not from its obligation to pay the Registration Expenses in connection therewith), and (ii) if such registration involves an underwritten offering, all Holders requesting to be included in the Company's registration must sell their Registrable Securities to the underwriters selected by the Company on the same terms and conditions as apply to the Company (with such differences as may be customary or appropriate in combined primary and secondary offerings, and, in any event, without providing for indemnification or contribution obligations in excess of what is required by Section 3.4) or, in the case of a registration initiated pursuant to Section 3.1.1, the Principal Participating Holders. No registration of Registrable Securities effected under this Section 3.2 shall relieve the Company of any of its obligations to effect registrations of Registrable Securities pursuant to Section 3.1 hereof.

(b) Excluded Transactions. The Company shall not be obligated to effect any registration of Registrable Securities under this Section 3.2 or give any notice to Holders of the Company's intent to register Registrable Securities, in each case incidental to the registration of any of its securities in connection with:

(i) Any Public Offering relating to employee benefit plans or dividend reinvestment plans;

(ii) Any Public Offering relating to the acquisition or merger after the date hereof by the Company or any of its subsidiaries of or with any other businesses except to the extent such Public Offering is for the sale of securities for cash; or

(iii) The Initial Public Offering, unless such offering shall include any Registrable Securities of any Holder or the Board determines otherwise.

3.2.2. Payment of Expenses. The Company will pay all Registration Expenses in connection with registrations of Registrable Securities pursuant to this Section 3.2.

3.2.3. Additional Procedures. Holders participating in any Public Offering pursuant to this Section 3.2 shall take all such actions and execute all such documents and instruments that are reasonably requested by the Company to effect the sale of their Registrable Securities in such Public Offering, including being parties to the underwriting agreement entered into by the Company and any other selling shareholders in connection therewith and being liable in respect of the representations and warranties and the other agreements (including customary selling stockholder representations, warranties, indemnifications and "lock-up" agreements) for the benefit of the underwriters contained therein; provided, however, that (i) with respect to individual representations, warranties, indemnities and agreements of sellers of Registrable Securities in such Public Offering, the aggregate amount of such liability shall not exceed any such Holder's net proceeds from such offering, (ii) to the extent selling stockholders give further representations, warranties and indemnities, then with respect to all other representations, warranties and indemnities of sellers of Registrable Securities in such Public Offering, the aggregate amount of such liability shall not exceed the lesser of (A) any such Holder's pro rata portion of any such liability, in accordance with such Holder's portion of the total number of Registrable Securities included in the offering, and (B) any such Holder's net proceeds from such offering and (iii) the aggregate liability with respect to clauses (i) and (ii) shall not exceed such holder's net proceeds from such offering.

3.3. Certain Other Provisions.

3.3.1. Underwriter's Cutback. In connection with any registration of shares, the underwriter may determine that marketing factors (including an adverse effect on the per share offering price) require a limitation of the number of shares to be underwritten. Notwithstanding any contrary provision of this Section 3 and subject to the terms of this Section 3.3.1, the underwriter may limit the number of shares which would otherwise be included in such registration by excluding any or all Registrable Securities from such registration, it being understood that, if the registration in question involves a registration for sale of securities for the Company's own account, then the number of shares which the Company seeks to have registered in such registration shall not be subject to exclusion, in whole or in part, under this Section 3.3.1. Upon receipt of notice from the underwriter of the need to reduce the number of shares to be included in the registration, the Company shall advise all holders of the Company's securities that would otherwise be registered and underwritten pursuant hereto, and the number of shares of such securities, including Registrable Securities, that may be included in the registration shall be allocated in the following manner: shares, other than Registrable Securities, requested to be included in such registration by other shareholders shall be excluded unless the Company, with the consent of the parties required to approve any amendment or waiver of this Agreement pursuant to Section 6.2, has granted registration rights which are to be treated on an equal basis with Registrable Securities for the purpose of the exercise of the underwriter cutback (such shares afforded such equal treatment being " Parity Shares"); and, if a limitation on the number of shares is

still required, the number of Registrable Securities, Parity Shares and other shares of Common Stock that may be included in such registration shall be allocated among the holders thereof in proportion, as nearly as practicable, as follows:

(a) there shall be first allocated to each such holder requesting that its Registrable Securities or Parity Shares be registered in such registration a number of such shares to be included in such registration equal to the lesser of (i) the number of such shares requested to be registered by such holder, and (ii) a number of such shares equal to such holder's Pro Rata Portion;

(b) the balance, if any, not allocated pursuant to clause (a) above shall be allocated to those holders requesting that their Registrable Securities or Parity Shares be registered in such registration that requested to register a number of such shares in excess of such holder's Pro Rata Portion pro rata to each such holder based upon the number of Registrable Securities and Parity Shares held by such holder, or in such other manner as the holders requesting that their Registrable Securities or Parity Shares be registered in such registration may otherwise agree; and

(c) the balance, if any, not allocated pursuant to clause (b) above shall be allocated to shares, other than Registrable Securities and Parity Shares, requested to be included in such registration by other stockholders.

For purposes of any underwriter cutback, all Registrable Securities held by any Holder shall also include any Registrable Securities held by the partners, retired partners, shareholders or Affiliates of such Holder, or the estates and family members of any such Holder or such partners and retired partners, any trusts for the benefit of any of the foregoing Persons and, at the election of such Holder or such partners, retired partners, trusts or Affiliates, any Charitable Organization to which any of the foregoing shall have contributed Common Stock prior to the execution of the underwriting agreement in connection with such underwritten offering, and such Holder and other Persons shall be deemed to be a single selling Holder, and any pro rata reduction with respect to such selling Holder shall be based upon the aggregate amount of Common Stock owned by all entities and individuals included with such selling Holder, as defined in this sentence. No securities excluded from the underwriting by reason of the underwriter's marketing limitation shall be included in such registration. Upon delivery of a written request pursuant to Section 3.1.1 or 3.2.1(a) that Registrable Securities be sold in an underwritten offering, the Holder thereof may not thereafter elect to withdraw therefrom without the written consent of the Principal Participating Holders. Notwithstanding the foregoing, (i) if the managing underwriter of any underwritten offering shall advise the Holders participating in the offering that the Registrable Securities covered by the registration statement cannot be sold in such offering within a price range acceptable to the Initiating Holder or Shelf Takedown Holder, then the Initiating Holder or Shelf Takedown Holder shall have the right to withdraw from such underwritten offering and, upon any such withdrawal, the Principal Participating Holders remaining after such withdrawal shall have the right to notify the Company that they have determined that the registration statement be abandoned or withdrawn, in which event the Company shall abandon or withdraw such registration statement, (ii) if the price to the public at which the Registrable Securities are proposed to be sold will be less than 90% of the average

closing price of the Common Stock during the 10 trading days preceding the date on which notice of such offering was given pursuant to Section 3.2.1(a) , then any Holder participating in such underwritten offering may elect to withdraw from such offering by written notice to the Company and (iii) nothing in this Section 3.3.1 shall be deemed to limit a Holder's ability pursuant to Section 3.2.1(a) to request the registration and sale of varying numbers of Registrable Securities based on varying prices at which such Registrable Securities are to be sold in the offering. The Company may, but shall not be required to, extend a similar withdrawal right to other Holders or holders of Parity Shares.

3.3.2. Registration Procedures. If, and in each case when, the Company is required to effect a registration of any Registrable Securities as provided in this Section 3, the Company shall promptly:

(a) prepare and, in any event within 45 days (30 days in the case of a Form S-3 registration) after the end of the period under Section 3.2.1(a) within which a piggyback request for registration may be given to the Company, file with the Commission a registration statement with respect to such Registrable Securities and use its best efforts to cause such registration statement to become effective within 90 days of the initial filing;

(b) prepare and file with the Commission such amendments and supplements to such registration statement and the prospectus used in connection therewith as may be necessary to keep such registration statement effective for a period of 270 days (or such shorter period which will terminate when all Registrable Securities covered by such registration statement have been sold) and to comply with the provisions of the Securities Act and the Exchange Act with respect to the disposition of all securities covered by such registration statement during such period in accordance with the intended methods of disposition by the seller or sellers thereof set forth in such registration statement; provided, that before filing a registration statement or prospectus, or any amendments or supplements thereto in accordance with Section 3.1 or 3.2, the Company will furnish to counsel selected pursuant to Section 3.3.3 hereof copies of all documents proposed to be filed, which documents will be subject to the review of such counsel;

(c) furnish to each seller of such Registrable Securities such number of copies of such registration statement and of each amendment and supplement thereto (in each case including all exhibits filed therewith), such number of copies of the prospectus included in such registration statement (including each preliminary prospectus and summary prospectus), in conformity with the requirements of the Securities Act, and such other documents as such seller may reasonably request in order to facilitate the disposition of the Registrable Securities by such seller;

(d) use its best efforts to register or qualify such Registrable Securities covered by such registration in such jurisdictions as each seller shall reasonably request, and do any and all other acts and things which may be reasonably

necessary or advisable to enable such seller to consummate the disposition in such jurisdictions of the Registrable Securities owned by such seller, except that the Company shall not for any such purpose be required to qualify generally to do business as a foreign corporation in any jurisdiction where, but for the requirements of this clause (d) it would not be obligated to be so qualified or to consent to general service of process in any such jurisdiction;

(e) notify each seller of any such Registrable Securities covered by such registration statement, at any time when a prospectus relating thereto is required to be delivered under the Securities Act, of the Company's becoming aware that the prospectus included in such registration statement, as then in effect, includes an untrue statement of a material fact or omits to state a material fact required to be stated therein or necessary to make the statements therein not misleading in the light of the circumstances then existing, and, at the request of any such seller, prepare and furnish to such seller a reasonable number of copies of an amended or supplemental prospectus as may be necessary so that, as thereafter delivered to the purchasers of such Registrable Securities, such prospectus shall not include an untrue statement of a material fact or omit to state a material fact required to be stated therein or necessary to make the statements therein not misleading in the light of the circumstances then existing;

(f) otherwise use its best efforts to comply with all applicable rules and regulations of the Commission, and make available to its security holders, as soon as reasonably practicable (but not more than 15 months) after the effective date of the registration statement, an earnings statement which shall satisfy the provisions of Section 11(a) of the Securities Act;

(g) (i) if such Registrable Securities are Common Stock (including Common Stock issuable upon conversion, exchange or exercise of another security), use its best efforts to list such Registrable Securities on any securities exchange on which the Common Stock is then listed if such Registrable Securities are not already so listed, and (ii) use its best efforts to provide a transfer agent and registrar for such Registrable Securities covered by such registration statement not later than the effective date of such registration statement;

(h) enter into such customary agreements (including an underwriting agreement in customary form), which may include indemnification provisions in favor of underwriters and other Persons in addition to the provisions of Section 3.4 hereof, and take such other actions as the Principal Participating Holders or the underwriters, if any, reasonably request in order to expedite or facilitate the disposition of such Registrable Securities;

(i) obtain a "cold comfort" letter or letters from the Company's independent public accountants in customary form and covering matters of the type customarily covered by "cold comfort" letters as the Principal Participating Holders shall reasonably request;

(j) make available for inspection by any seller of such Registrable Securities covered by such registration statement, by any managing underwriter or underwriters participating in any disposition to be effected pursuant to such registration statement and by any attorney, accountant or other agent retained by any such seller or any such managing underwriter or underwriters, all pertinent financial and other records, pertinent corporate documents and properties of the Company, and cause all of the Company's officers, directors and employees to supply all information reasonably requested by any such seller, underwriter, attorney, accountant or agent in connection with such registration statement (subject to each party referred to in this clause (j) entering into customary confidentiality agreements in a form reasonably acceptable to the Company);

(k) notify counsel (selected pursuant to Section 3.3.3 hereof) for the Holders included in such registration statement and the managing underwriter or agent, immediately, and confirm the notice in writing (i) when the registration statement, or any post-effective amendment to the registration statement, shall have become effective, or any supplement to the prospectus or any amendment to the prospectus shall have been filed, (ii) of the receipt of any comments from the Commission, (iii) of any request of the Commission to amend the registration statement, or to amend or supplement the prospectus, or for additional information, (iv) of the issuance by the Commission of any stop order suspending the effectiveness of the registration statement, or of any order preventing or suspending the use of any preliminary prospectus, or of the suspension of the qualification of the registration statement for offering or sale in any jurisdiction, or of the institution or threatening of any proceedings for any of such purposes, (v) of the issuance by the Commission of a notice of objection to the use of the form on which such registration statement has been filed and (vi) of the occurrence of any event that causes the Company to become an "ineligible issuer" as defined in Rule 405 under the Securities Act;

(l) use its best efforts to prevent the issuance of any stop order suspending the effectiveness of the registration statement, or of any order preventing or suspending the use of any preliminary prospectus, and, if any such order is issued, to obtain the withdrawal of any such order as soon as practicable;

(m) if requested by the managing underwriter or agent or any Holder covered by the registration statement, incorporate in a prospectus supplement or post-effective amendment such information as the managing underwriter or agent or such Holder reasonably requests to be included therein, including, with respect to the number of Registrable Securities being sold by such Holder to such underwriter or agent, the purchase price being paid therefor by such underwriter or agent and with respect to any other terms of the underwritten offering of the Registrable Securities to be sold in such offering; and, make all required filings of such prospectus supplement or post-effective amendment as soon as practicable after being notified of the matters incorporated in such prospectus supplement or post-effective amendment;

(n) cooperate with the Holders covered by the registration statement and the managing underwriter or agent, if any, to facilitate the timely preparation and delivery of certificates (not bearing any restrictive legends) representing securities to be sold under the registration statement, and enable such securities to be in such denominations and registered in such names as the managing underwriter or agent, if any, or such Holders may request;

(o) obtain for delivery to the Holders being registered and to the underwriters or agents an opinion or opinions from counsel for the Company in customary form and in form, substance and scope reasonably satisfactory to such Holders, underwriters or agents and their counsel;

(p) cooperate with each seller of Registrable Securities and each underwriter or agent participating in the disposition of such Registrable Securities and their respective counsel in connection with any filings required to be made with the NASD; and

(q) use its best efforts to make available the executive officers of the Company to participate with the Holders and any underwriters in any "road shows" that may be reasonably requested by the Holders in connection with distribution of the Registrable Securities.

3.3.3. Selection of Underwriters and Counsel. The underwriters and legal counsel to be retained by the Company in connection with any Public Offering shall be selected by the Board; provided, that in the case of an offering following a request therefor under Section 3.1.1, such underwriters and counsel shall be reasonably acceptable to the Principal Participating Holders. In connection with any registration of Registrable Securities pursuant to Sections 3.1 and 3.2 hereof, the Principal Participating Holders may select one counsel to represent all Holders covered by such registration; provided, however, that in the event that the counsel selected as provided above is also acting as counsel to the Company in connection with such registration, the remaining Holders shall be entitled to select one additional counsel to represent, at the Company's expense, all such remaining Holders.

3.3.4. Company Lock-Up. If any registration pursuant to Section 3.1 of this Agreement shall be in connection with an underwritten Public Offering, the Company agrees not to effect any public sale or distribution of any Common Stock of the Company (or securities convertible into or exchangeable or exercisable for Common Stock) (in each case, other than as part of such underwritten public offering and other than pursuant to a registration on Form S-4 or S-8) for its own account, within 90 days (or such shorter period as the managing underwriters may require) after the effective date of such registration (except as part of such registration).

3.3.5. Other Agreements. The Company covenants and agrees that, so long as any Person holds any Registrable Securities in respect of which any registration rights provided for in Section 3.1 of this Agreement remain in effect, the Company will not, directly or indirectly, grant to any Person or agree to or otherwise become obligated in

respect of rights of registration in the nature or substantially in the nature of those set forth in Section 3.1 or 3.2 of this Agreement without the consent of Stockholders holding a majority of the Registrable Securities (plus the consent of any Stockholder who would be disproportionately and adversely affected thereby compared to other Stockholders) other than registration rights set forth in Section 3.1 or 3.2 that are provided to Managers, Other Investors or Investors that join this Agreement from time to time.

3.4. Indemnification and Contribution.

3.4.1. Indemnities of the Company. In the event of any registration of any Registrable Securities or other debt or equity securities of the Company or any of its subsidiaries under the Securities Act pursuant to this Section 3 or otherwise, and in connection with any registration statement or any other disclosure document produced by or on behalf of the Company or any of its subsidiaries, including reports required and other documents filed under the Exchange Act, and other documents pursuant to which any debt or equity securities of the Company or any of its subsidiaries are sold (whether or not for the account of the Company or its subsidiaries), the Company will, and hereby does, and will cause each of its subsidiaries, jointly and severally, to indemnify and hold harmless each Holder, any Person who is or might be deemed to be a controlling Person of the Company or any of its subsidiaries within the meaning of Section 15 of the Securities Act or Section 20 of the Exchange Act, their respective direct and indirect partners, advisory board members, advisors, directors, officers, trustees, members and shareholders, and each other Person, if any, who controls any such holder or any such controlling Person within the meaning of Section 15 of the Securities Act or Section 20 of the Exchange Act (each such Person being referred to herein as a "Covered Person"), against any losses, claims, damages or liabilities or actions or proceedings in respect thereof (collectively, "Losses"), joint or several, to which such Covered Person may be or become subject under the Securities Act, the Exchange Act, any other securities or other law of any jurisdiction, the common law or otherwise, insofar as such Losses arise out of or are based upon (i) any untrue statement or alleged untrue statement of any material fact contained or incorporated by reference in any registration statement under the Securities Act, any preliminary prospectus or final prospectus included therein, or any related summary prospectus, "issuer free writing prospectus" as defined in Rule 433 under the Securities Act ("Issuer FWP") or any amendment or supplement thereto, or any document incorporated by reference therein, or any other such disclosure document (including reports and other documents filed under the Exchange Act and any document incorporated by reference therein) or other document or report, (ii) any omission or alleged omission to state therein a material fact required to be stated therein or necessary to make the statements therein not misleading or (iii) any violation or alleged violation by the Company or any of its subsidiaries of any federal, state, foreign or common law rule or regulation applicable to the Company or any of its subsidiaries and relating to action or inaction in connection with any such registration, disclosure document or other document or report, and will reimburse such Covered Person for any legal or any other expenses incurred by it in connection with investigating or defending any such Loss; provided, however, that neither the Company nor any of its subsidiaries shall be liable to any

Covered Person in any such case to the extent that any such Loss arises out of or is based upon an untrue statement or omission made in such registration statement, any such preliminary prospectus, final prospectus, summary prospectus, amendment or supplement, incorporated document or other such disclosure document or other document or report, in reliance upon and in conformity with written information furnished to the Company or to any of its subsidiaries through an instrument duly executed by such Covered Person specifically stating that it is for use in the preparation thereof. The indemnities of the Company and of its subsidiaries contained in this Section 3.4.1 shall remain in full force and effect regardless of any investigation made by or on behalf of such Covered Person, and shall survive any transfer of securities or any termination of this Agreement.

3.4.2. Indemnities to the Company. Subject to Section 3.4.4, the Company and any of its subsidiaries may require, as a condition to including any securities in any registration statement filed pursuant to this Section 3, that the Company and any of its subsidiaries shall have received an undertaking satisfactory to it from the prospective seller of such securities, severally and not jointly, to indemnify and hold harmless the Company and any of its subsidiaries, each director of the Company or any of its subsidiaries, each officer of the Company or any of its subsidiaries who shall sign such registration statement and each other Person (other than such seller), if any, who controls the Company and any of its subsidiaries within the meaning of Section 15 of the Securities Act or Section 20 of the Exchange Act and each other prospective seller of such securities with respect to any statement in or omission from such registration statement, any preliminary prospectus, final prospectus or summary prospectus included therein, or any amendment or supplement thereto, or any other disclosure document (including reports and other documents filed under the Exchange Act or any document incorporated therein) or other document or report, if such statement or omission was made in reliance upon and in conformity with written information furnished to the Company or any of its subsidiaries through an instrument executed by such seller specifically stating that it is for use in the preparation of such registration statement, preliminary prospectus, final prospectus, summary prospectus, Issuer FWP, amendment or supplement, incorporated document or other document or report. Such indemnity shall remain in full force and effect regardless of any investigation made by or on behalf of the Company, any of its subsidiaries or any such director, officer or controlling Person and shall survive any transfer of securities or any termination of this Agreement.

3.4.3. Contribution. If the indemnification provided for in Section 3.4.1 or 3.4.2 hereof is unavailable to a party that would have been entitled to indemnification pursuant to the foregoing provisions of this Section 3.4 (an " Indemnitee") in respect of any Losses referred to therein, then each party that would have been an indemnifying party thereunder shall, subject to Section 3.4.4, and in lieu of indemnifying such Indemnitee, contribute to the amount paid or payable by such Indemnitee as a result of such Losses in such proportion as is appropriate to reflect the relative fault of such indemnifying party on the one hand and such Indemnitee on the other in connection with the statements or omissions which resulted in such Losses. The relative fault shall be determined by reference to, among other things, whether the untrue statement of a

material fact or the omission to state a material fact relates to information supplied by such indemnifying party or such Indemnitee and the parties' relative intent, knowledge, access to information and opportunity to correct or prevent such statement or omission. The parties agree that it would not be just or equitable if contribution pursuant to this Section 3.4.3 were determined by pro rata allocation or by any other method of allocation which does not take account of the equitable considerations referred to in the preceding sentence. The amount paid or payable by a contributing party as a result of the Losses referred to above in this Section 3.4.3 shall include any legal or other expenses reasonably incurred by such Indemnitee in connection with investigating or defending any such action or claim. No Person guilty of fraudulent misrepresentation (within the meaning of Section 11(f) of the Securities Act) shall be entitled to contribution from any Person who was not guilty of such fraudulent misrepresentation.

3.4.4. Limitation on Liability of Holders of Registrable Securities. The liability of each Holder in respect of any indemnification or contribution obligation of such Holder arising under this Section 3.4 shall not in any event exceed an amount equal to the net proceeds to such Holder (after deduction of all underwriters' discounts and commissions) from the disposition of the Registrable Securities disposed of by such Holder pursuant to such registration.

3.4.5. Indemnification Procedures. Promptly after receipt by an Indemnitee of written notice of the commencement of any action or proceeding with respect to which a claim for indemnification may be made pursuant to this Section 3.4, such Indemnitee will, if a claim in respect thereof is to be made against an indemnifying party, give written notice to the latter of the commencement of such action or proceeding; provided, that the failure of the Indemnitee to give notice as provided herein shall not relieve the indemnifying party of its obligations under this Section 3.4, except to the extent that the indemnifying party is materially prejudiced by such failure to give notice. In case any such action or proceeding is brought against an Indemnitee, the indemnifying party will be entitled to participate in and to assume the defense thereof (at its expense), jointly with any other indemnifying party similarly notified to the extent that they may wish, with counsel reasonably satisfactory to such Indemnitee, and after notice from the indemnifying party to such Indemnitee of its election so to assume the defense thereof, the indemnifying party will not be liable to such Indemnitee for any legal or other expenses subsequently incurred by the latter in connection with the defense thereof other than reasonable costs of investigation, and shall have no liability for any settlement made by the Indemnitee without the consent of the indemnifying party, such consent not to be unreasonably withheld. Notwithstanding the foregoing, if in such Indemnitee's reasonable judgment a conflict of interest between such Indemnitee and the indemnifying parties may exist in respect of such action or proceeding or the indemnifying party does not assume the defense of any such action or proceeding within a reasonable time after notice of commencement, the Indemnitee shall have the right to assume or continue its own defense and the indemnifying party shall be liable for any reasonable expenses therefor, but in no event will bear the expenses for more than one firm of counsel for all Indemnitees in each jurisdiction who shall be approved by the Principal Participating Holders in the registration in respect of which such indemnification is sought. No indemnifying party will settle any action or

proceeding or consent to the entry of any judgment without the prior written consent of the Indemnitee, unless such settlement or judgment (i) includes as an unconditional term thereof the giving by the claimant or plaintiff of a release to such Indemnitee from all liability in respect of such action or proceeding, and (ii) does not involve the imposition of equitable remedies or the imposition of any obligations on such Indemnitee, and does not otherwise adversely affect such Indemnitee, other than as a result of the imposition of financial obligations for which such Indemnitee will be indemnified hereunder.

3.5. Permitted Registration Rights Assignees .

3.5.1. Registration Rights. The rights of a Holder to cause the Company to register its Registrable Securities pursuant to Section 3.1 or 3.2 may be assigned (but only with all related obligations as set forth below) in a Transfer effected in accordance with the terms of the Stockholders Agreement and this Agreement to: (a) a Charitable Organization, (b) a Permitted Transferee or (c) any other transferee that, together with its Affiliates, in the case of this clause (c) acquires shares of Registrable Securities either (i) for consideration of at least $15,000,000 or (ii) having a then fair market value (determined in good faith by the Board) of at least $15,000,000 (the transferees described in clauses (a), (b) and (c) each a " Permitted Registration Rights Assignee "). Without prejudice to any other or similar conditions imposed hereunder, with respect to any such Transfer, no assignment permitted under the terms of this Section 3.5.1 shall be effective unless the Permitted Registration Rights Assignee, if not a Stockholder, has delivered to the Company a written acknowledgment and agreement in form and substance reasonably satisfactory to the Company that such Registrable Securities in respect of which such assignment is made shall be deemed Shares and shall be subject to all of the provisions of this Agreement relating to Shares, and that such Permitted Registration Rights Assignee shall be bound by, and shall be an Other Holder party to, this Agreement and the holder of Shares hereunder. A transferee to whom rights are transferred pursuant to this Section 3.5.1 may not again transfer such rights to any Person, other than as provided in this Section 3.5.1. A Permitted Transferee to whom rights are transferred pursuant to this Section 3.5.1 may not again transfer such rights to any other Permitted Transferee, other than as provided in this Section 3.5.1. An Affiliate or Affiliated Fund of an Investor to whom rights are assigned pursuant to this Section 3.5.1 in connection with a Transfer of Shares by such Investor will be deemed for all purposes under this Agreement to have been the beneficial Holder at Closing of the proportionate number of Shares that such Affiliate or Affiliated Fund held indirectly (through the Transferring Investor and its Affiliates or Affiliated Funds) on a pass-through basis.

3.6. Form S-8 Registration. The Company shall use commercially reasonable efforts (i) to file, not later than 60 calendar days following the effectiveness of a registration statement in connection with the Initial Public Offering, a registration statement on Form S-8 (or successor registration statement) covering the shares of Common Stock issuable upon exercise of equity-based awards granted under all Company Stock Option Plans, and (ii) to keep such registration statement (or a successor registration statement) effective for so long as there are equity-based awards outstanding and exercisable under any such Company Stock Option Plan.

4. REMEDIES.

4.1. Generally. The parties shall have all remedies available at law, in equity or otherwise in the event of any breach or violation of this Agreement or any default hereunder. The parties acknowledge and agree that, in the event of any breach of this Agreement, in addition to any other remedies which may be available, each of the parties hereto shall be entitled to specific performance of the obligations of the other parties hereto, and, in addition, to such other equitable remedies (including preliminary or temporary relief) as may be appropriate in the circumstances.

5. COORDINATION.

5.1. Generally. Subject to Section 2, from and after the consummation of the Initial Public Offering, each Holder may Transfer Shares (a) in a block sale, (b) pursuant to Rule 144 or (c) to its partners, members or other holders of its beneficial interests, in each case, only on a Transfer Date. In addition, after the Initial Public Offering, to the extent any Holders are considered a group for purposes of aggregating sales to comply with Rule 144 volume limitations, neither (i) the Bain Funds, collectively, (ii) the Catterton Funds, collectively, nor (iii) any other Holder shall Transfer any Shares in excess of such Holder's pro rata share of such permitted volume.

6. AMENDMENT, TERMINATION, ETC.

6.1. Oral Modifications. This Agreement may not be orally amended, modified, extended or terminated, nor shall any oral waiver of any of its terms be effective.

6.2. Written Modifications. This Agreement may be amended, modified or extended, and the provisions hereof may be waived, only by an agreement in writing signed by the Company and the Stockholders that hold a majority of the Shares held by all Stockholders; provided, however, that any amendment, modification, extension or waiver (an "Amendment") shall also require the consent of any Stockholder who would be disproportionately and adversely affected thereby. Each such Amendment shall be binding upon each party hereto and each holder of Shares subject hereto. In addition, each party hereto and each holder of Shares subject hereto may waive any right hereunder by an instrument in writing signed by such party or holder. This Agreement may be terminated only by an agreement in writing signed by the Company and each of the Stockholders who hold Registrable Securities.

6.3. Effect of Termination. No termination under this Agreement shall relieve any Person of liability for breach prior to termination. In the event this Agreement is terminated, each Covered Person shall retain the indemnification and contribution rights pursuant to Section 3.4 hereof with respect to any matter that (i) may be an indemnified liability thereunder and (ii) occurred prior to such termination.

Notwithstanding the foregoing, to the extent that any party hereto is or becomes a party in any litigation in connection with which it may assert indemnification rights set forth in this agreement, the court in which such litigation is being heard shall be deemed to be included in clause (i) above. Notwithstanding the foregoing, any party to this Agreement may commence and maintain an action to enforce a judgment of any of the above-named courts in any court of competent jurisdiction. EACH PARTY HERETO ACKNOWLEDGES THAT IT HAS BEEN INFORMED BY THE OTHER PARTIES HERETO THAT THIS SECTION 9.3 CONSTITUTES A MATERIAL INDUCEMENT UPON WHICH THEY ARE RELYING AND WILL RELY IN ENTERING INTO THIS AGREEMENT. Exhibit 10.1

KANGAROO HOLDINGS INC.
2007 EQUITY INCENTIVE PLAN

1. DEFINED TERMS

Exhibit A, which is incorporated by reference, defines the terms used in the Plan and sets forth certain operational rules related to those terms.

2. PURPOSE

The Plan has been established to advance the interests of the Company by providing for the grant to Participants of Stock-based Awards.

3. ADMINISTRATION

The Administrator has discretionary authority, subject only to the express provisions of the Plan, to interpret the Plan; determine eligibility for and grant Awards; determine, modify or waive the terms and conditions of any Award; prescribe forms, rules and procedures; and otherwise do all things necessary to carry out the purposes of the Plan. Determinations of the Administrator made under the Plan will be conclusive and will bind all parties.

4. LIMITS ON AWARDS UNDER THE PLAN

(a) **Number of Shares**. A maximum of 4,000,000 shares of Stock may be delivered in satisfaction of Awards under the Plan. The number of shares of Stock delivered in satisfaction of Awards shall, for purposes of the preceding sentence, be determined net of shares of Stock withheld by the Company in payment of the exercise price of the Award or in satisfaction of tax withholding requirements with respect to the Award. To the extent that any Award granted under the Plan terminates, expires or is canceled without having been exercised, the Stock covered by such Award shall again be available for Awards under the Plan. The limit set forth in this Section 4(a) shall be construed to comply with Section 422. To the extent consistent with the requirements of Section 422, Stock issued under awards of an acquired company that are converted, replaced or adjusted in connection with the acquisition shall not reduce the number of shares available for Awards under the Plan.

(b) **Type of Shares**. Stock delivered by the Company under the Plan may be authorized but unissued Stock or previously issued Stock acquired by the Company.

5. ELIGIBILITY AND PARTICIPATION

The Administrator will select Participants from among those key Employees and directors of, and consultants and advisors to, the Company or its Affiliates who, in the opinion of the Administrator, are in a position to make a significant contribution to the success of the Company and its Affiliates. Eligibility for ISOs is limited to employees of the Company or of a "parent corporation" or "subsidiary corporation" of the Company, as those terms are defined in Section 424 of the Code.

6. RULES APPLICABLE TO AWARDS

(a) All Awards

(1) Award Provisions. The Administrator will determine the terms of all Awards, subject to the limitations provided herein. By accepting an Award, the Participant agrees to the terms of the Award and the Plan. Notwithstanding any provision of this Plan to the contrary, awards of an acquired company that are converted, replaced or adjusted in connection with the acquisition may contain terms and conditions that are inconsistent with the terms and conditions specified herein, as determined by the Administrator.

(2) Term of Plan. No Awards may be made after June 30, 2017, but previously granted Awards may continue beyond that date in accordance with their terms.

(3) Transferability. Awards may not be transferred other than by will or by the laws of descent and distribution, and, during a Participant's lifetime, Awards requiring exercise may be exercised only by the Participant.

(4) Vesting, Etc. The Administrator may determine the time or times at which an Award will vest or become exercisable, and the terms on which an Award requiring exercise will remain exercisable. Without limiting the foregoing, the Administrator may at any time accelerate the vesting or exercisability of an Award, regardless of any adverse or potentially adverse tax consequences resulting from such acceleration. Unless the Administrator expressly provides otherwise, however, the following rules will apply: immediately upon the cessation of the Participant's Employment, each Award requiring exercise that is then held by the Participant or by the Participant's permitted transferees, if any, will cease to be exercisable and will terminate, and all other Awards that are then held by the Participant or by the Participant's permitted transferees, if any, to the extent not already vested will be forfeited, except that:

(A) subject to (B) and (C) below, all Stock Options held by the Participant or the Participant's permitted transferees, if any, immediately prior to the cessation of the Participant's Employment, to the extent then vested and exercisable, and any Stock Options that become vested and exercisable as a result of the cessation of the Participant's Employment, will remain exercisable for the lesser of (i) a period of 90 days, or (ii) the period ending on the latest date on which such Stock Option could have been exercised without regard to this Section 6(a)(4), and will thereupon terminate;

(B) all Stock Options held by a Participant or the Participant's permitted transferees, if any, immediately prior to the Participant's death or Disability, to the extent then exercisable, will remain exercisable for the lesser of (i) the one year period ending with the first anniversary of the Participant's death or Disability, or (ii) the period ending on the latest date on which such Stock Option could have been exercised without regard to this Section 6(a)(4), and will thereupon terminate; and

(C) all Stock Options held by a Participant or the Participant's permitted transferees, if any, immediately prior to the cessation of the Participant's Employment will immediately terminate upon such cessation if the Administrator determines that such cessation of Employment is the result of Cause.

(5) Taxes. The Administrator will make such provision for the withholding of taxes as it deems necessary. The Administrator may, but need not unless otherwise specified in an Award, hold back shares of Stock from an Award or permit a Participant to tender previously owned shares of Stock in satisfaction of tax withholding requirements (but not in excess of the minimum withholding required by law).

(6) Dividend Equivalents, Etc. Except as otherwise provided in an Award, the Administrator may provide for the payment of amounts in lieu of cash dividends or other cash distributions with respect to Stock subject to an Award. Any entitlement to dividend equivalents or similar entitlements shall be established and administered consistent either with exemption from, or compliance with, the requirements of Section 409A.

(7) Rights Limited. Nothing in the Plan will be construed as giving any person the right to continued employment or service with the Company or its Affiliates, or any rights as a stockholder except as to shares of Stock actually issued under the Plan. The loss of existing or potential profit in Awards will not constitute an element of damages in the event of termination of Employment for any reason, even if the termination is in violation of an obligation of the Company or any Affiliate to the Participant.

(8) Coordination with Other Plans. Awards under the Plan may be granted in tandem with, or in satisfaction of or substitution for, other Awards under the Plan or awards made under other compensatory plans or programs of the Company or its Affiliates. For example, but without limiting the generality of the foregoing, awards under other compensatory plans or programs of the Company or its Affiliates may be settled in Stock (including, without limitation, Unrestricted Stock) if the Administrator so determines, in which case the shares delivered shall be treated as awarded under the Plan (but shall not reduce the number of shares available under the Plan as set forth in Section 4 above).

(9) Section 409A. Each Award shall contain such terms as the Administrator determines, and shall be construed and administered, such that the Award either (i) qualifies for an exemption from the requirements of Section 409A to the extent applicable, or (ii) satisfies such requirements.

(10) Certain Requirements of Corporate Law. Awards shall be granted and administered consistent with the requirements of applicable Delaware law relating to the issuance of stock and the consideration to be received therefor, and with the applicable requirements of the stock exchanges or other trading systems on which the Stock is listed or entered for trading, in each case as determined by the Administrator.

(11) Other Restrictions. For the avoidance of doubt, Awards and Stock issued upon exercise of Awards may be subject to restrictions under other agreements to which Participants are, or may become, party.

(b) Awards Requiring Exercise

(1) Time And Manner Of Exercise. Unless the Administrator expressly provides otherwise in an Award, an Award requiring exercise by the holder will not be deemed to have been exercised until the Administrator receives a notice of exercise (in form acceptable to the Administrator) signed by the appropriate person and accompanied by any payment (in cash or Stock, as applicable) required under the Award, if any. If the Award is exercised by any person other than the Participant, the Administrator may require satisfactory evidence that the person exercising the Award has the right to do so.

(2) Exercise Price. The exercise price (or the base value from which appreciation is to be measured) of each Award requiring exercise shall be 100% (in the case of an ISO granted to a ten-percent shareholder within the meaning of subsection (b)(6) of Section 422, 110%) of the Fair Market Value of the Stock subject to the Award, determined as of the date of grant, or such higher amount as the Administrator may determine in connection with the grant.

(3) Payment Of Exercise Price. Where the exercise of an Award is to be accompanied by payment, payment of the exercise price shall be by cash or check reasonably acceptable to the Administrator, or, if so permitted by the Administrator and if legally permissible, (i) through the delivery of shares of Stock that have been outstanding for at least six months (unless the Administrator approves a shorter period) and that have a Fair Market Value equal to the exercise price, (ii) at such time, if any, as the Stock is publicly traded, through a broker-assisted exercise program reasonably acceptable to the Administrator, (iii) by other means reasonably acceptable to the Administrator or (iv) by any combination of the foregoing permissible forms of payment. The delivery of shares of Stock in payment of the exercise price under clause (i) above may be accomplished either by actual delivery or by constructive delivery through attestation of ownership, subject to such rules as the Administrator may reasonably prescribe.

(4) Maximum Term. Awards requiring exercise will have a maximum term not to exceed ten years from the date of grant.

7. EFFECT OF CERTAIN TRANSACTIONS

(a) Mergers, Etc. Except as otherwise provided in an Award:

(1) Assumption or Substitution. Subject to any required action by the stockholders of the Company, in the event that the Company shall be the surviving corporation in any merger or consolidation (except a merger or consolidation as a result of which the holders of shares of Stock receive securities of another corporation), the Awards outstanding on the date of such merger or consolidation shall pertain to and apply to the securities that a holder of the number of shares of Stock subject to any such Award would have received in such merger or consolidation (it being understood that if, in connection with such transaction, the holders of Stock of the Company retain their shares of Stock and are not entitled to any additional or other consideration, the Awards shall not be affected by such transaction).

(2) Cash-Out of Awards. In the event of (i) a dissolution or liquidation of the Company or any of its Affiliates, (ii) a sale, directly or indirectly, of all or substantially all of the Company's assets, (iii) a merger or consolidation involving the Company or any of its Affiliates in which the Company or any of its Affiliates is not the surviving corporation or (iv) a merger or consolidation involving the Company or any of its Affiliates in which the Company or any of its Affiliates is the surviving corporation but the holders of shares of Stock receive securities of another corporation and/or other property, including cash, the Administrator shall, in its sole discretion (a) have the power to provide for the exchange of each Award outstanding immediately prior to such event (whether or not then exercisable) for an award on some or all of the property for which the stock underlying such Awards are exchanged, and, incident thereto, make an equitable adjustment, as reasonably determined by the Administrator, in the exercise price of Awards, or the number or kind of securities or amount of property subject to the Awards and/or, (b) if appropriate, cancel, effective immediately prior to such event, any outstanding Award (whether or not exercisable or vested) and in full consideration of such cancellation pay to the Participant an amount in cash, with respect to each underlying share of Stock, equal to the excess of (1) the value, as determined by the Administrator in its good faith discretion, of securities and/or property (including cash) received by such holders of shares of Stock as a result of such event over (2) the exercise price, as the Administrator may in good faith consider appropriate to prevent dilution or enlargement of rights; *provided*, that the Administrator shall not exercise discretion under this Section 7(a)(2) with respect to an Award or portion thereof providing for "nonqualified deferred compensation" subject to Section 409A in a manner that would constitute an extension or acceleration of, or other change in, payment terms if such change would be inconsistent with the applicable requirements of Section 409A.

(3) Additional Limitations. Any share of Stock and any cash or other property delivered pursuant to Section 7(a)(2) above with respect to an Award may, in the discretion of the Administrator, contain such restrictions, if any, as the Administrator deems appropriate to reflect any performance or other vesting conditions to which the Award was subject as of such transaction and that did not lapse (and were not satisfied) in connection with such transaction. In the case of Restricted Stock that does not vest in connection with such transaction, the Administrator may require that any amounts delivered, exchanged or otherwise paid in respect of such Stock in connection with such transaction be placed in escrow, or otherwise be made subject to such restrictions as the Administrator deems appropriate to carry out the intent of the Plan.

(b) Changes in and Distributions With Respect to Stock

(1) Basic Adjustment Provisions. Subject to any required action by the stockholders of the Company, in the event of any increase or decrease in the number or change in the kind of issued shares of stock or securities that results from a subdivision or consolidation of shares of Stock, the payment of a stock dividend or from a recapitalization, or any other increase, decrease or other change in the number of such shares effected without receipt of consideration by the Company, the Administrator shall make such adjustments with respect to the number of shares of Stock or other securities specified in Section 4(a) above, the number and kind of shares of Stock or other securities subject to the Awards and/or the exercise price per share of Stock or other security, as the Administrator may consider appropriate to prevent the enlargement or dilution of rights.

(2) Certain Other Adjustments. The Administrator may also make adjustments of the type described in Section 7(b)(1) above to take into account distributions to stockholders other than those provided for in Section 7(a) and 7(b)(1) above, or any other event, if the Administrator determines that adjustments are appropriate to avoid distortion in the operation of the Plan and to preserve the value of Awards made hereunder, having due regard for the qualification of ISOs under Section 422 and the requirements of Section 409A, where applicable.

(3) Continuing Application of Plan Terms. References in the Plan to shares of Stock will be construed to include any stock or securities resulting from an adjustment pursuant to this Section 7.

8. LEGAL CONDITIONS ON DELIVERY OF STOCK

The Company will not be obligated to deliver any shares of Stock pursuant to the Plan, or to remove any restriction from shares of Stock previously delivered under the Plan, until: (i) the Company is satisfied that all legal matters in connection with the issuance and delivery of such shares have been addressed and resolved, (ii) if a Public Market for the Stock exists, the shares to be delivered have been listed or authorized to be listed on such exchange or system upon official notice of issuance and (iii) all conditions of the Award have been satisfied or waived. If the sale of Stock has not been registered under the Securities Act of 1933, as amended, the Company may require, as a condition to exercise of the Award, such representations or agreements as counsel for the Company may consider appropriate to avoid violation of such Act. The Company may require that certificates evidencing Stock issued under the Plan bear an appropriate legend reflecting any restriction on transfer applicable to such Stock, and the Company may hold the certificates pending lapse of the applicable restrictions.

9. AMENDMENT AND TERMINATION

The Administrator may at any time or times amend the Plan or any outstanding Award for any purpose which may at the time be permitted by law, and may at any time terminate the Plan as to any future grants of Awards; *provided*, that, except as otherwise expressly provided in the Plan, the Administrator may not, without the Participant's consent, alter the terms of an Award so as to affect materially and adversely the Participant's rights under the Plan or an Award, unless the Administrator expressly reserved the right to do so at the time of the Award. Any amendments to the Plan shall be conditioned upon stockholder approval only to the extent, if any, such approval is required by law (including the Code), as determined by the Administrator.

10. OTHER COMPENSATION ARRANGEMENTS

The existence of the Plan or the grant of any Award will not in any way affect the Company's right to Award a person bonuses or other compensation in addition to Awards under the Plan.

11. MISCELLANEOUS

(a) WAIVER OF JURY TRIAL. BY ACCEPTING AN AWARD UNDER THE PLAN, EACH PARTICIPANT WAIVES ANY RIGHT TO A TRIAL BY JURY IN ANY ACTION, PROCEEDING OR COUNTERCLAIM CONCERNING ANY RIGHTS UNDER THE PLAN AND ANY AWARD, OR UNDER ANY AMENDMENT, WAIVER, CONSENT, INSTRUMENT, DOCUMENT OR OTHER AGREEMENT DELIVERED OR WHICH IN THE FUTURE MAY BE DELIVERED IN CONNECTION THEREWITH, AND AGREES THAT ANY SUCH ACTION, PROCEEDINGS OR COUNTERCLAIM SHALL BE TRIED BEFORE A COURT AND NOT BEFORE A JURY. BY ACCEPTING AN AWARD UNDER THE PLAN, EACH PARTICIPANT CERTIFIES THAT NO OFFICER, REPRESENTATIVE OR ATTORNEY OF THE COMPANY HAS REPRESENTED, EXPRESSLY OR OTHERWISE, THAT THE COMPANY WOULD NOT, IN THE EVENT OF ANY ACTION, PROCEEDING OR COUNTERCLAIM, SEEK TO ENFORCE THE FOREGOING WAIVERS.

(b) Limitation of Liability. Notwithstanding anything to the contrary in the Plan, neither the Company, nor any Affiliate, nor the Administrator, nor any person acting on behalf of the Company, any Affiliate, or the Administrator, shall be liable to any Participant or to the estate or beneficiary of any Participant or to any other holder of an Award by reason of any acceleration of income, or any additional tax, asserted by reason of the failure of an Award to satisfy the requirements of Section 422 or Section 409A or by reason of Section 4999 of the Code; *provided*, that (i) nothing in this Section 11(b) shall limit the ability of the Administrator or the Company to provide by separate express written agreement with a Participant for a gross-up payment or other payment in connection with any such tax or additional tax, and (ii) nothing in this Section 11(b) shall limit the liability of the Company to any Participant or to the estate or beneficiary of such Participant by reason of the failure of an Award to satisfy the requirements of Section 409A to the extent such failure results from the Administrator's gross negligence in connection with the administration of the Plan.

EXHIBIT A

Definition of Terms

The following terms, when used in the Plan, will have the meanings and be subject to the provisions set forth below:

"Administrator": The Board, except that the Board may delegate its authority under the Plan to a committee of the Board, in which case references herein to the Board shall refer to such committee. The Board may delegate (i) to one or more of its members such of its duties, powers and responsibilities as it may determine; (ii) to one or more officers of the Company the power to grant rights or options to the extent permitted by Section 157(c) of the Delaware General Corporation Law; and (iii) to such Employees or other persons as it determines such ministerial tasks as it deems appropriate. In the event of any delegation described in the preceding sentence, the term "Administrator" shall include the person or persons so delegated to the extent of such delegation.

"Affiliate": Any corporation or other entity that stands in a relationship to the Company that would result in the Company and such corporation or other entity being treated as one employer under Section 414(b) and Section 414(c) of the Code, except that in determining eligibility for the grant of a Stock Option by reason of service for an Affiliate, Sections 414(b) and 414(c) of the Code shall be applied by substituting "at least 50%" for "at least 80%" under Section 1563(a)(1), (2) and (3) of the Code and Treas. Regs. § 1.414(c)-2; *provided*, that to the extent permitted under Section 409A, "at least 20%" shall be used in lieu of "at least 50%"; *and further provided*, that the lower ownership threshold described in this definition (50% or 20% as the case may be) shall apply only if the same definition of affiliation is used consistently with respect to all compensatory stock options or stock awards (whether under the Plan or another plan).

"Award": Any or a combination of the following:

(i) Stock Options.

(ii) Restricted Stock

"Board": The Board of Directors of the Company.

"Cause": The termination of the Participant's Employment on account of "Cause" has the meaning ascribed to it in the Participant's Award, or, if there is no definition of "Cause" in the Participant's Award, in the Participant's employment agreement with the Company or its Affiliates, or, if the Participant does not have an employment agreement or there is no definition of "Cause" in the Participant's employment agreement, (i) the willful failure by the Participant to substantially perform his duties with the Company or any Affiliate (other than any such failure resulting from incapacity due to physical or mental illness); (ii) the Participant's negligence, willful misconduct or illegal conduct in the performance of his duties for the Company or any

Affiliate which has resulted in, or is reasonably expected to result in, injury to the Company or any Affiliate; (iii) the Participant's conviction of, or entering a plea of guilty or *nolo contendere* to, a misdemeanor involving theft or embezzlement, or a felony; or (iv) the breach by the Participant of any obligations under any written agreement or covenant with the Company or any of its Affiliates, or of any fiduciary duty or any material act of disloyalty, in any case, which has resulted in or is reasonably expected to result in injury to the Company or any Affiliates.

"Change in Control": shall have the meaning set forth in the Company's Stockholders Agreement dated as of June 14, 2007.

"Code": The U.S. Internal Revenue Code of 1986, as from time to time amended and in effect, or any successor statute, as from time to time in effect.

"Company": Kangaroo Holdings, Inc.

AGREEMENT

In consideration of the foregoing, and the representations, warranties, covenants and conditions set forth below, the parties hereto, intending to be legally bound, hereby agree as follows:

1. Definitions. Capitalized terms defined in the Merger Agreement and used but not otherwise defined in this Agreement are used herein as so defined in the Merger Agreement.

2. Sale and Acquisition of Rollover Securities.

2.1. On the terms and subject to the conditions hereof, the Company hereby agrees to issue to the Rollover Stockholder, and by his acceptance hereof the Rollover Stockholder agrees to acquire from the Company for investment, on the Closing Date immediately prior to the Effective Time, the number of shares of Company Common Stock set forth opposite the name of the Rollover Stockholder on Schedule 1 hereto in consideration for the surrender of the Rollover Shares set forth opposite the name of the Rollover Stockholder on Schedule 1 hereto (the "Exchange"). 2.3. The Exchange is intended to qualify as a tax-free exchange with respect to the Rollover Stockholder under Section 351 of the Internal Revenue Code of 1986, as amended (the "Code"). No party hereto will take a position inconsistent with the preceding sentence on any tax return or otherwise unless required pursuant to a final determination (as defined in Section 1313 of the Code).

2.4. Immediately prior to the Effective Time, against delivery to the Company by the Rollover Stockholder of the Rollover Shares contemplated by Section 2.1 hereof, the Company will deliver to the Rollover Stockholder a certificate or certificates for the Rollover Securities to be acquired by the Rollover Stockholder, registered in the name of the Rollover Stockholder.

2.5. 3. Representations and Warranties of the Company. The Company represents and warrants to the Rollover Stockholder, as of the date hereof and as of the Closing Date, that:

3.1. The Company is duly organized, validly existing and in good standing under the laws of the State of Delaware. The Company has delivered to the Rollover Stockholder true

and complete copies of the Company's Charter and the By-Laws of the Company as in effect on the date hereof. Such documents will be in effect in such form as delivered from and after the Closing Date.

3.2. The Company has, or prior to the Closing Date will have, taken all corporate action required to authorize the execution and delivery of this Agreement and the issuance of the Rollover Securities. The Company has the corporate power and authority to execute and deliver this Agreement and to perform its obligations hereunder, including issuing the Rollover Securities.

3.3. The Rollover Securities, when issued in exchange for the Rollover Shares as contemplated by Section 2.1 hereof, will be duly authorized, validly issued, fully paid and non-assessable.

3.4. Neither the Company nor any of its subsidiaries has conducted any material business or entered into any material transactions or incurred any material liability other than in connection with the formation of the Company, the Merger Agreement, the transactions contemplated hereby and thereby and the financing thereof.

3.5. Each of the Stockholders Agreement, the Registration Rights Agreement and this Agreement is, or at or prior to the Closing will be, duly executed and delivered by, and a legal, valid and binding obligation of, the Company and Merger Sub, or such of them as are a party thereto, enforceable in accordance with its respective terms.

3.6. Following the consummation of the transactions contemplated by the Merger Agreement, the shares of stock and other equity interests of the Company will be owned, beneficially and of record, by the persons and in the amounts set forth in Schedule 2 hereto.

4. Representations and Warranties of the Rollover Stockholder. The Rollover Stockholder represents and warrants to the Company as of the date hereof and as of the Closing Date, that:

4.1. The Rollover Stockholder has full legal capacity, power and authority to execute and deliver this Agreement and to perform his obligations hereunder. This Agreement has been duly executed and delivered by the Rollover Stockholder, and is the legal, valid and binding obligation of the Rollover Stockholder, enforceable against him in accordance with the terms hereof.

4.2. The Rollover Stockholder is the record and beneficial owner of the outstanding Rollover Shares set forth opposite the Rollover Stockholder's name on Schedule 1 hereto, and has good and marketable title to such Rollover Shares, free and clear of all encumbrances except as are imposed by applicable securities laws. The Rollover Stockholder has, or as of the effectiveness of the Exchange will have, full right, power and authority to transfer and deliver to the Company valid title to the Rollover Shares held by the Rollover Stockholder, free and clear of all encumbrances. Immediately following the Exchange, the Company will be the record and beneficial owner of such Rollover Shares, and have good and marketable title to such Rollover Shares, free and clear of all encumbrances except as are imposed by applicable securities laws or created by the Company. Except pursuant to this Agreement,

there is no contractual obligation pursuant to which the Rollover Stockholder has, directly or indirectly, granted any option, warrant or other right to any Person to acquire any Rollover Shares.

4.3. The Rollover Stockholder has been advised that the Rollover Securities have not been registered under the Securities Act or any state securities laws and, therefore, cannot be resold unless they are registered under the Securities Act and applicable state securities laws, or unless an exemption from such registration requirements is available. The Rollover Stockholder is aware that the Company is under no obligation to effect any such registration with respect to the Rollover Securities (except solely to the extent provided in the Registration Rights Agreement) or to file for or comply with any exemption from registration.

4.4. The Rollover Stockholder is aware that he may sell, transfer or otherwise dispose of the Rollover Securities only in a manner consistent with the Securities Act and the terms and conditions set forth in this Agreement, the Stockholders Agreement and the Registration Rights Agreement.

4.6. The Rollover Stockholder either (a) is an "Accredited Investor" within the meaning of Regulation D under the Securities Act or (b) either on his own or with the assistance of a qualified "purchaser representative" (as defined in Regulation D under the Securities Act), has such knowledge and experience in financial and business matters that he is capable of evaluating the merits and risks of the prospective investment. An " Accredited Investor" includes any person who comes within any of the following categories, or who the issuer reasonably believes comes within any of the following categories, at the time of the sale of the securities to that person: (a) any natural person whose individual net worth, or joint net worth with that person's spouse, at the time of his purchase exceeds $1,000,000 and (b) any natural person who had an individual income in excess of $200,000 in each of the two most recent years, or joint income with that person's spouse in excess of $300,000 in each of those years, and has a reasonable expectation of reaching the same income level in the current year.

4.7. The Rollover Stockholder's financial condition is such that he is able to (a) bear the economic risk of holding the Rollover Securities for an indefinite period of time, and (b) incur a complete loss of his entire investment in such Rollover Securities.

4.8. The Rollover Stockholder has such knowledge and experience in financial and business matters that he is capable, either on his own or with the assistance of a qualified "purchaser representative" (as defined in Regulation D under the Securities Act), of evaluating the merits and risks of such investment.

4.9. The Rollover Stockholder has been afforded the opportunity to ask questions and receive answers concerning the terms and conditions of the offering of Rollover Securities, and to obtain information reasonably necessary for him to evaluate the offering.

4.10. The Rollover Stockholder agrees that his acceptance of the Rollover Securities constitutes an acknowledgement and waiver of any right that he may have to rescind this or any other transaction in the Company's securities based upon any previous offers to buy such securities.

5. Conditions to Acquisition and Issuance of Rollover Securities .

5.1. The Company's obligation to issue and sell the Rollover Securities is subject to the satisfaction of the following conditions:

(a) all material representations and warranties of the Rollover Stockholder contained in this Agreement will be true and correct as of the Closing, and consummation of the subscriptions contemplated hereby will constitute a reaffirmation by the Rollover Stockholder that all material representations and warranties of the Rollover Stockholder contained in this Agreement are true and correct as of the Closing;

(b) on the Closing Date, following (but substantially contemporaneously with) the Exchange, all conditions to the Company's obligation to close under the Merger Agreement will have been satisfied or waived by the Company; and

(c) on or before the Closing Date, substantially contemporaneously with the Exchange, the Rollover Stockholder will have duly executed and delivered to the Company a counterpart of the Stockholders Agreement and the Registration Rights Agreement.

5.2. The Rollover Stockholder's obligation to deliver the Rollover Shares to the Company and to acquire the Rollover Securities in exchange therefor is subject to the satisfaction of the following conditions:

(a) all representations and warranties of the Company contained in this Agreement will be true and correct as of the Closing, and consummation of the Closing will constitute a reaffirmation by the Company that all the representations and warranties of the Company contained in this Agreement are true and correct as of the Closing; and

(b) at or prior to the Exchange, each party other than the Rollover Stockholder will have duly executed and delivered to the Rollover Stockholder a counterpart of the Stockholders Agreement and the Registration Rights Agreement.

6. Indemnities.

6.1. The Company will indemnify, exonerate and hold the Rollover Stockholder and each of his affiliates, fiduciaries, employees and agents and each of the partners, members, shareholders, affiliates, directors, officers, fiduciaries, employees and agents of each of the foregoing (collectively, the "Indemnitees") free and harmless from and against any and all actions, causes of action, suits, losses, liabilities and damages and expenses in connection therewith, including, without limitation, reasonable attorneys' fees and disbursements, but excluding punitive damages (collectively, the "Indemnified Liabilities"), incurred by the Indemnitees or any of them as a result of, arising out of or relating to any breach of any representation, warranty or agreement in this Agreement by the Company. If and to the extent that the foregoing undertaking may be unenforceable for any reason, the Company hereby agrees to make the maximum contribution to the payment and satisfaction of each of such Indemnified Liabilities that is permissible under applicable law.

6.2. The Rollover Stockholder will indemnify, exonerate and hold the Company harmless from and against any and all Indemnified Liabilities as a result of, arising out of or relating to any breach of any representation, warranty or agreement in this Agreement by the Rollover Stockholder; provided, that the Rollover Stockholder shall be liable only to the extent of the value of his Rollover Securities. If and to the extent that the foregoing undertaking may be unenforceable for any reason, the Rollover Stockholder hereby agrees to make the maximum contribution to the payment and satisfaction of each of such Indemnified Liabilities that is permissible under applicable law, subject to the limitation in the proviso to the immediately preceding sentence.

7. Restrictions on Transfer.

7.1. Restrictive Securities Act Legend. All certificates representing Rollover Securities will bear a legend in substantially the following form:

"THE SECURITIES REPRESENTED BY THIS CERTIFICATE WERE ISSUED IN A PRIVATE PLACEMENT, WITHOUT REGISTRATION UNDER THE SECURITIES ACT OF 1933, AS AMENDED (THE "ACT"), AND MAY NOT BE SOLD, ASSIGNED, PLEDGED OR OTHERWISE TRANSFERRED IN THE ABSENCE OF AN EFFECTIVE REGISTRATION UNDER THE ACT COVERING THE TRANSFER OR AN OPINION OF COUNSEL, SATISFACTORY TO THE ISSUER, THAT REGISTRATION UNDER THE ACT IS NOT REQUIRED."

7.2. Termination of 7.1 Restrictions. The restrictions imposed by Section 7.1 hereof upon the transferability of Rollover Securities will cease and terminate as to any particular Rollover Securities (a) when, in the reasonable opinion of Ropes & Gray LLP or other counsel reasonably acceptable to the Company, such restrictions are no longer required in order to assure compliance with the Securities Act, or (b) when the Rollover Securities have been registered under the Securities Act or transferred pursuant to Rule 144 thereunder. Whenever such restrictions cease and terminate as to any Rollover Securities, or such Rollover Securities are transferable under paragraph (k) of Rule 144, the holder thereof will be entitled to receive from the Company, without expense, new certificates not bearing the legend set forth in Section 7.1 hereof.

8. Miscellaneous.

8.1. Entire Agreement. This Agreement and the other agreements referred to herein set forth the entire understanding among the parties with respect to the subject matter hereof and thereof.

8.3. Amendment.

(a) This Agreement can be amended or modified only by an instrument in writing signed by the party against whom enforcement of such change is sought.

(b) No failure or delay by any party in exercising any right, power or privilege hereunder will operate as a waiver thereof, nor will any single or partial exercise thereof preclude any other or further exercise thereof, or the exercise of any other right, power or privilege. The rights and remedies herein provided will be cumulative and not exclusive of any rights or remedies provided by law.

8.4. Expenses. The Company shall bear its and the Rollover Stockholder's costs and expenses in connection with or relating to the preparation, negotiation and execution of this Agreement, and the consummation of the transactions contemplated hereby. 8.5. Successors; Assignment. This Agreement will bind and inure to the benefit of the parties hereto and their respective successors, assigns, heirs and representatives. Prior to the Closing, the Rollover Stockholder may not assign any of his rights hereunder, and, after the Closing, the Rollover Stockholder may assign any of his rights hereunder only in connection with a transfer of the Rollover Securities in compliance with the terms and conditions of the Stockholders Agreement and the Registration Rights Agreement.

8.7. Counterparts. This Agreement may be executed in any number of counterparts, each of which will be deemed an original, but all of which will together constitute one and the same instrument.

9. Governing Law; Disputes.

9.1. Governing Law. This Agreement and all claims arising in whole or in part out of, based on or in connection with this Agreement will be governed by and construed in accordance with the domestic substantive laws of the State of New York, without giving effect to any choice or conflict of law provision or rule that would cause the application of the domestic substantive laws of any other jurisdiction.

Notwithstanding the foregoing, to the extent that any party hereto is or becomes a party in any litigation in connection with which it or he may assert indemnification rights set forth in this agreement, the court in which such litigation is being heard shall be deemed to be included in clause (a) above. This Employee Rollover Agreement (this "Agreement") is made as of June 14, 2007 between Kangaroo Holdings, Inc. (the "Company") and the stockholder of OSI Restaurant Partners, Inc. ("OSI" or the "Target") listed on Schedule 1 hereto as holding the "Rollover Shares" listed thereon (the "Rollover Stockholder").

RECITALS

The Company has entered into an Agreement and Plan of Merger, dated as of November 5, 2006 (the "Merger Agreement"), by and between the Company, a Delaware corporation, Kangaroo Acquisition, Inc. (the "Merger Sub"), a Delaware corporation, and the Target, a Delaware corporation, pursuant to which the Merger Sub will merge with and into Target (the "Merger") on the terms and subject to the conditions set forth in the Merger Agreement.

The Company owns all of the common stock of Merger Sub.

Under the Amended and Restated Certificate of Incorporation of the Company, as in effect on the date hereof (the "Company's Charter"), the Company is authorized to issue shares of common stock, par value $0.01 per share (the "Company Stock").

The Rollover Stockholder holds shares in the Target. As contemplated under Section 2.1(b) of the Merger Agreement, the Rollover Stockholder is willing to acquire, and the Company is willing to issue and transfer to the Rollover Stockholder, the number of shares of Company Stock set forth opposite the name of the Rollover Stockholder on Schedule 1 hereto in exchange for the Rollover Stockholder's Rollover Shares, all on the terms and subject to conditions set forth in this Agreement.

On the date hereof, the Company, the Rollover Stockholder, Bain Capital (OSI) IX, L.P., Bain Capital (OSI) IX Coinvestment, L.P., BCIP TCV, LLC, Bain Capital Integral Investors 2006, LLC, BCIP Associates - G, Catterton Partners VI - Kangaroo, L.P., Catterton Partners VI - Kangaroo Coinvest, L.P. and all other stockholders of the Company are entering into both a stockholders agreement (the "Stockholders Agreement") and a registration rights agreement (the "Registration Rights Agreement"), each dated as of the date hereof and together setting forth certain agreements with respect to, among other things, the management of the Company and transfers of its shares in various circumstances.

AGREEMENT

In consideration of the foregoing, and the representations, warranties, covenants and conditions set forth below, the parties hereto, intending to be legally bound, hereby agree as follows:

1. Definitions. Capitalized terms defined in the Merger Agreement and used but not otherwise defined in this Agreement are used herein as so defined in the Merger Agreement.

2. Sale and Acquisition of Rollover Securities.

2.1. On the terms and subject to the conditions hereof, the Company hereby agrees to issue to the Rollover Stockholder, and by his acceptance hereof the Rollover Stockholder agrees to acquire from the Company for investment, on the Closing Date immediately prior to the Effective Time, the number of shares of Company Common Stock set forth opposite the name of the Rollover Stockholder on Schedule 1 hereto in consideration for the surrender of the Rollover Shares set forth opposite the name of the Rollover Stockholder on Schedule 1 hereto (the "Exchange"). The shares of Company Common Stock being acquired by the Rollover Stockholder in the Exchange are referred to herein as the " Rollover Securities" and Rollover Securities subject to forfeiture pursuant to Section 3 hereof are referred to herein as " Restricted Stock."

2.2. The Exchange will take place at the same time and location as, and will be substantially contemporaneous with, but immediately prior to, the Effective Time under the Merger Agreement. If, prior to the closing hereunder, the Merger Agreement is terminated, this Agreement will automatically terminate and be without further force and effect.

2.3. The Exchange is intended to qualify as a tax-free exchange with respect to the Rollover Stockholder under Section 351 of the Internal Revenue Code of 1986, as amended (the "Code"). No party hereto will take a position inconsistent with the preceding sentence on any tax return or otherwise unless required pursuant to a final determination (as defined in Section 1313 of the Code).

2.4. Immediately prior to the Effective Time, against delivery to the Company by the Rollover Stockholder of the Rollover Shares contemplated by Section 2.1 hereof, the Company will deliver to the Rollover Stockholder a certificate or certificates for the Rollover Securities to be acquired by the Rollover Stockholder, registered in the name of the Rollover Stockholder.

3. Rollover Securities.

3.1. Forfeiture Risk. If the Rollover Stockholder ceases to be employed by the Company and its subsidiaries for any reason, then (subject to any contrary provision of Section 3.2 below or any subsequent written agreement between the Company and the Rollover Stockholder) any and all outstanding Restricted Stock (except to the extent that such Restricted Stock becomes "Vested" as a result of such termination) shall be automatically and immediately forfeited by the holder thereof.

3.2. Vesting. Notwithstanding anything in this Agreement or in any other agreement between the Rollover Stockholder and the Company, Target or any of their respective Affiliates, Rollover Securities acquired hereunder shall cease to be subject to forfeiture pursuant to Section 3.1 above (" Vest"), and, thus, shall cease to be Restricted Stock:

(a) during the Rollover Stockholder's employment by the Company or its subsidiaries, in five equal installments on each of the first, second, third, fourth and fifth anniversaries of the Closing Date;

(b) immediately upon termination of the Rollover Stockholder's employment by the Company or its subsidiaries (i) upon the death or Disability (as defined in the Rollover Stockholder's employment agreement with the Company or its subsidiaries (the " Employment Agreement")), (ii) by the Company or its subsidiaries other than for Cause (as defined in the Employment Agreement) or (iii) by the Rollover Stockholder for Good Reason (as defined in the Employment Agreement); or

(c) upon a Change of Control (as defined in the Stockholders Agreement).

3.3. Vesting Date Liquidity. From time to time, no later than each date upon which Rollover Securities Vest hereunder, the Company will, at its option, (a) offer to purchase (or cause a designee to offer to purchase) shares of Company Stock granted hereunder that will have Vested on or before the applicable date, and/or (b) make a loan to the Rollover Stockholder with a rate of interest no greater than the Applicable Federal Rate and on such other commercially reasonable terms determined by the Company. The aggregate amount of the fair market value of Rollover Securities to be purchased and/or the loan to be made under this Section 3.3 will be no more than the statutory minimum aggregate amount of the federal, state, local and foreign withholding tax liability (and related employment or other payroll taxes) payable by the Rollover Stockholder as a result of the applicable Vesting of Rollover Securities.

3.4. Power of Attorney. The Rollover Stockholder hereby (a) appoints the Company as the attorney-in-fact of the Rollover Stockholder to take such actions as may be necessary or appropriate to effectuate a transfer of the record ownership of any such Restricted Stock that is forfeited or repurchased hereunder, (b) agrees to deliver to the Company, as a precondition to the issuance of any certificate or certificates with respect to Restricted Stock hereunder, one or more stock powers, endorsed in blank, with respect to such Stock and (c) agrees to sign such other powers and take such other actions as the Company may reasonably request to accomplish the forfeiture or transfer of any Restricted Stock that are forfeited or repurchased hereunder.

3.5. Other Agreements. The Rollover Securities will be subject to the terms and conditions of the Stockholders Agreement and the Registration Rights Agreement as "Management Shares;" provided, however, that the Rollover Securities will not be subject to the "Management Call Option" set forth in Section 5 of the Stockholders Agreement or any similar right set forth therein.

3.6. Dividends. The Rollover Stockholder shall be entitled to (a) receive any and all dividends or other distributions paid with respect to the Rollover Securities of which the Rollover Stockholder is the record owner on the record date for such dividend or other distribution, and (b) subject to the terms of the Stockholders Agreement, vote any Shares of which the Rollover Stockholder is the record owner on the record date for such vote; provided, however, that any property (other than cash) distributed with respect to a share of Stock (the " Associated Share") acquired hereunder, including, without limitation, a distribution of Stock by reason of a stock dividend, stock split or otherwise, or a distribution of other securities with respect to an Associated Share, shall be subject to the restrictions of this Agreement in the same manner and for so long as the Associated Share remains subject to such restrictions, and shall be promptly forfeited if and when the Associated Share is so forfeited.

4. Representations and Warranties of the Company. The Company represents and warrants to the Rollover Stockholder, as of the date hereof and as of the Closing Date, that:

4.1. The Company is duly organized, validly existing and in good standing under the laws of the State of Delaware. The Company has delivered to the Rollover Stockholder true and complete copies of the Company's Charter and the By-Laws of the Company as in effect on the date hereof. Such documents will be in effect in such form as delivered from and after the Closing Date.

4.2. The Company has, or prior to the Closing Date will have, taken all corporate action required to authorize the execution and delivery of this Agreement and the issuance of the Rollover Securities. The Company has the corporate power and authority to execute and deliver this Agreement and to perform its obligations hereunder, including issuing the Rollover Securities.

4.3. The Rollover Securities, when issued in exchange for the Rollover Shares as contemplated by Section 2.1 hereof, will be duly authorized, validly issued, fully paid and non-assessable.

4.4. Neither the Company nor any of its subsidiaries has conducted any material business or entered into any material transactions or incurred any material liability other than in connection with the formation of the Company, the Merger Agreement, the transactions contemplated hereby and thereby and the financing thereof.

4.5. Each of the Stockholders Agreement, the Registration Rights Agreement and this Agreement is, or at or prior to the Closing will be, duly executed and delivered by, and a legal, valid and binding obligation of, the Company and Merger Sub, or such of them as are a party thereto, enforceable in accordance with its respective terms.

4.6. Following the consummation of the transactions contemplated by the Merger Agreement, the shares of stock and other equity interests of the Company will be owned, beneficially and of record, by the persons and in the amounts set forth in Schedule 2 hereto.

5. Representations and Warranties of the Rollover Stockholder. The Rollover Stockholder represents and warrants to the Company as of the date hereof and as of the Closing Date, that:

5.1. The Rollover Stockholder has full legal capacity, power and authority to execute and deliver this Agreement and to perform his obligations hereunder. This Agreement has been duly executed and delivered by the Rollover Stockholder, and is the legal, valid and binding obligation of the Rollover Stockholder, enforceable against him in accordance with the terms hereof.

5.2. The Rollover Stockholder is the record and beneficial owner of the outstanding Rollover Shares set forth opposite the Rollover Stockholder's name on Schedule 1 hereto, and has good and marketable title to such Rollover Shares, free and clear of all encumbrances except as are imposed by applicable securities laws or as result from vesting conditions or transfer restrictions imposed on such Rollover Shares at the time of grant or thereafter by OSI or its affiliates. The Rollover Stockholder has, or as of the effectiveness of the Exchange will have, the full right, power and authority to transfer and deliver to the Company valid title to the Rollover Shares held by the Rollover Stockholder, free and clear of all encumbrances. Immediately following the Exchange, the Company will be the record and beneficial owner of such Rollover Shares, and have good and marketable title to such Rollover Shares, free and clear of all encumbrances except as are imposed by applicable securities laws or created by the Company. Except pursuant to this Agreement, there is no contractual obligation pursuant to which the Rollover Stockholder has, directly or indirectly, granted any option, warrant or other right to any Person to acquire any Rollover Shares.

5.3. The Rollover Stockholder has been advised that the Rollover Securities have not been registered under the Securities Act or any state securities laws and, therefore, cannot be resold unless they are registered under the Securities Act and applicable state securities laws, or unless an exemption from such registration requirements is available. The Rollover Stockholder is aware that the Company is under no obligation to effect any such registration with respect to the Rollover Securities (except solely to the extent provided in the Registration Rights Agreement) or to file for or comply with any exemption from registration.

5.4. The Rollover Stockholder is aware that the Rollover Stockholder may sell, transfer or otherwise dispose of the Rollover Securities only in a manner consistent with the Securities Act and the terms and conditions set forth in this Agreement, the Stockholders Agreement and the Registration Rights Agreement.

5.5. The Rollover Stockholder (a) is acquiring the Rollover Securities for his own account, not as a nominee or agent, and not with a view to, or for resale in connection with, the distribution thereof in violation of the Securities Act, (b) has no present intention of selling, granting any participation in or otherwise distributing the Rollover Securities and (c) is under no obligation, contractual or otherwise, to sell, transfer or pledge any Rollover Securities, or grant any participation interest in any Rollover Securities, to any person or entity.

5.6. The Rollover Stockholder either (a) is an "Accredited Investor" within the meaning of Regulation D under the Securities Act or (b) either on his own or with the assistance of a qualified "purchaser representative" (as defined in Regulation D under the Securities Act), has such knowledge and experience in financial and business matters that he is capable of evaluating the merits and risks of the prospective investment. An " Accredited Investor" includes any person who comes within any of the following categories, or who the issuer reasonably believes comes within any of the following categories, at the time of the sale of the securities to that person: (a) any natural person whose individual net worth, or joint net worth with that person's spouse, at the time of his purchase exceeds $1,000,000 and (b) any natural person who had an individual income in excess of $200,000 in each of the two most recent years, or joint income with that person's spouse in excess of $300,000 in each of those years, and has a reasonable expectation of reaching the same income level in the current year.

5.7. The Rollover Stockholder's financial condition is such that the Rollover Stockholder is able to (a) bear the economic risk of holding the Rollover Securities for an indefinite period of time, and (b) incur a complete loss of his entire investment in such Rollover Securities.

5.8. The Rollover Stockholder has such knowledge and experience in financial and business matters that he is capable, either on his own or with the assistance of a qualified "purchaser representative" (as defined in Regulation D under the Securities Act), of evaluating the merits and risks of such investment.

5.9. The Rollover Stockholder has been afforded the opportunity to ask questions and receive answers concerning the terms and conditions of the offering of Rollover Securities, and to obtain information reasonably necessary for him to evaluate the offering.

5.10. The Rollover Stockholder agrees that his acceptance of the Rollover Securities constitutes an acknowledgement and waiver of any right that he may have to rescind this or any other transaction in the Company's securities based upon any previous offers to buy such securities.

6. Conditions to Acquisition and Issuance of Rollover Securities .

6.1. The Company's obligation to issue and sell the Rollover Securities is subject to the satisfaction of the following conditions:

(a) all material representations and warranties of the Rollover Stockholder contained in this Agreement will be true and correct as of the Closing, and consummation of the subscriptions contemplated hereby will constitute a reaffirmation by the Rollover Stockholder that all material representations and warranties of the Rollover Stockholder contained in this Agreement are true and correct as of the Closing;

(b) on the Closing Date, following (but substantially contemporaneously with) the Exchange, all conditions to the Company's obligation to close under the Merger Agreement will have been satisfied or waived by the Company; and

(c) on or before the Closing Date, substantially contemporaneously with the Exchange, the Rollover Stockholder will have duly executed and delivered to the Company a counterpart of the Stockholders Agreement and the Registration Rights Agreement.

6.2. The Rollover Stockholder's obligation to deliver the Rollover Shares to the Company and to acquire the Rollover Securities in exchange therefor is subject to the satisfaction of the following conditions:

(a) all representations and warranties of the Company contained in this Agreement will be true and correct as of the Closing, and consummation of the Closing will constitute a reaffirmation by the Company that all the representations and warranties of the Company contained in this Agreement are true and correct as of the Closing; and

(b) at or prior to the Exchange, each party other than the Rollover Stockholder will have duly executed and delivered to the Rollover Stockholder a counterpart of the Stockholders Agreement and the Registration Rights Agreement.

7. Indemnities.

7.1. The Company will indemnify, exonerate and hold the Rollover Stockholder and each of his affiliates, fiduciaries, employees and agents and each of the partners, members, shareholders, affiliates, directors, officers, fiduciaries, employees and agents of each of the foregoing (collectively, the "Indemnitees") free and harmless from and against any and all actions, causes of action, suits, losses, liabilities and damages and expenses in connection therewith, including, without limitation, reasonable attorneys' fees and disbursements, but excluding punitive damages (collectively, the "Indemnified Liabilities"), incurred by the Indemnitees or any of them as a result of, arising out of or relating to any breach of any representation, warranty or agreement in this Agreement by the Company. If and to the extent that the foregoing undertaking may be unenforceable for any reason, the Company hereby agrees to make the maximum contribution to the payment and satisfaction of each of such Indemnified Liabilities that is permissible under applicable law.

7.2. The Rollover Stockholder will indemnify, exonerate and hold the Company harmless from and against any and all Indemnified Liabilities as a result of, arising out of or relating to any breach of any representation, warranty or agreement in this Agreement by the Rollover Stockholder; provided, that the Rollover Stockholder shall be liable only to the extent of the value of his Rollover Securities. If and to the extent that the foregoing undertaking may be unenforceable for any reason, the Rollover Stockholder hereby agrees to make the maximum contribution to the payment and satisfaction of each of such Indemnified Liabilities that is permissible under applicable law, subject to the limitation in the proviso to the immediately preceding sentence.

8. Restrictions on Transfer.

8.1. Restrictive Securities Act Legend. All certificates representing Rollover Securities will bear a legend in substantially the following form:

"THE SECURITIES REPRESENTED BY THIS CERTIFICATE WERE ISSUED IN A PRIVATE PLACEMENT, WITHOUT REGISTRATION UNDER THE SECURITIES ACT OF 1933, AS AMENDED (THE "ACT"), AND MAY NOT BE SOLD, ASSIGNED, PLEDGED OR OTHERWISE TRANSFERRED IN THE ABSENCE OF AN EFFECTIVE REGISTRATION UNDER THE ACT COVERING THE TRANSFER OR AN OPINION OF COUNSEL, SATISFACTORY TO THE ISSUER, THAT REGISTRATION UNDER THE ACT IS NOT REQUIRED."

8.2. Termination of 8.1 Restrictions. The restrictions imposed by Section 8.1 hereof upon the transferability of Rollover Securities will cease and terminate as to any particular Rollover Securities (a) when, in the reasonable opinion of Ropes & Gray LLP or other counsel reasonably acceptable to the Company, such restrictions are no longer required in order to assure compliance with the Securities Act, or (b) when the Rollover Securities have been registered under the Securities Act or transferred pursuant to Rule 144 thereunder. Whenever such restrictions cease and terminate as to any Rollover Securities, or such Rollover Securities are transferable under paragraph (k) of Rule 144, the holder thereof will be entitled to receive from the Company, without expense, new certificates not bearing the legend set forth in Section 8.1 hereof.

8.3. Additional Legend. All certificates representing Rollover Securities will bear a legend in substantially the following form:

8.4. Termination of 8.3 Restrictions. If any Rollover Securities are held in book-entry form, the Company may take such steps as it deems necessary or appropriate to record and manifest the restrictions applicable to such Rollover Securities.

9. Miscellaneous.

9.1. Entire Agreement. This Agreement and the other agreements referred to herein set forth the entire understanding among the parties with respect to the subject matter hereof and thereof.

9.2. Notices. Any notices and other communications required or permitted in this Agreement will be effective if in writing and delivered as provided in Section 11.2 of the Stockholders Agreement.

9.3. Amendment.

(a) This Agreement can be amended or modified only by an instrument in writing signed by the party against whom enforcement of such change is sought.

(b) No failure or delay by any party in exercising any right, power or privilege hereunder will operate as a waiver thereof, nor will any single or partial exercise thereof preclude any other or further exercise thereof, or the exercise of any other right, power or privilege. The rights and remedies herein provided will be cumulative and not exclusive of any rights or remedies provided by law.

9.4. Expenses. The Company shall bear its and the Rollover Stockholder's costs and expenses in connection with or relating to the preparation, negotiation and execution of this Agreement, and the consummation of the transactions contemplated hereby. Each of the Company and the Rollover Stockholder will bear its and his own costs and expenses in connection with or relating to any and all amendments, modifications, restructurings and waivers, and exercises and preservations of rights and remedies hereunder and the operations of the Company and any of its Subsidiaries.

9.5. Successors; Assignment. This Agreement will bind and inure to the benefit of the parties hereto and their respective successors, assigns, heirs and representatives. Prior to the Closing, the Rollover Stockholder may not assign any of his rights hereunder, and, after the Closing, the Rollover Stockholder may assign any of his rights hereunder only in connection with a transfer of the Rollover Securities in compliance with the terms and conditions of the Stockholders Agreement and the Registration Rights Agreement.

9.6. Survival. All covenants, agreements, representations and warranties made herein will survive the execution and delivery hereof and transfer of any Rollover Securities.

9.7. Counterparts. This Agreement may be executed in any number of counterparts, each of which will be deemed an original, but all of which will together constitute one and the same instrument.

10. Governing Law; Disputes.

10.1. Governing Law. This Agreement and all claims arising in whole or in part out of, based on or in connection with this Agreement will be governed by and construed in accordance with the domestic substantive laws of the State of New York, without giving effect to any choice or conflict of law provision or rule that would cause the application of the domestic substantive laws of any other jurisdiction.

10.2. Consent to Jurisdiction. Each party to this Agreement, by its or his execution hereof, (a) hereby irrevocably submits to the exclusive jurisdiction of the state and federal courts sitting in the State of New York, City of New York, County of New York for the purpose of any action, claim, cause of action or suit (in contract, tort or otherwise), inquiry, proceeding or investigation arising out of or based upon this Agreement, or relating to the subject matter hereof, (b) hereby waives to the extent not prohibited by applicable law, and agrees not to assert, and agrees not to allow any of its subsidiaries to assert, by way of motion, as a defense or otherwise, in any such action, any claim that it or he is not subject personally to the jurisdiction of the above-named courts, that its or his property is exempt or immune from attachment or execution, that any such proceeding brought in one of the above-named courts is improper or that this Agreement or the subject matter hereof or thereof may

not be enforced in or by such court and (c) hereby agrees neither to commence or maintain any action, claim, cause of action or suit (in contract, tort or otherwise), inquiry, proceeding or investigation arising out of or based upon this Agreement or relating to the subject matter hereof or thereof other than before one of the above-named courts, nor to make any motion or take any other action seeking or intending to cause the transfer or removal of any such action, claim, cause of action or suit (in contract, tort or otherwise), inquiry, proceeding or investigation to any court other than one of the above-named courts, whether on the grounds of inconvenient forum or otherwise. Notwithstanding the foregoing, to the extent that any party hereto is or becomes a party in any litigation in connection with which it or he may assert indemnification rights set forth in this agreement, the court in which such litigation is being heard shall be deemed to be included in clause (a) above. Each party hereto hereby consents to service of process in any such proceeding in any manner permitted by New York law, and agrees that service of process by registered or certified mail, return receipt requested, at its or his address specified pursuant to Section 11.2 of the Stockholders Agreement is reasonably calculated to give actual notice.

10.3. Waiver of Jury Trial. TO THE EXTENT NOT PROHIBITED BY APPLICABLE LAW THAT CANNOT BE WAIVED, EACH OF THE PARTIES HERETO HEREBY WAIVES, AND COVENANTS THAT IT OR HE WILL NOT ASSERT (WHETHER AS PLAINTIFF, DEFENDANT OR OTHERWISE), ANY RIGHT TO TRIAL BY JURY IN ANY FORUM IN RESPECT OF ANY ISSUE, CLAIM, DEMAND, CAUSE OF ACTION, ACTION, SUIT OR PROCEEDING ARISING IN WHOLE OR IN PART OUT OF, BASED ON OR IN CONNECTION WITH THIS AGREEMENT OR THE SUBJECT MATTER HEREOF (IN CONTRACT, TORT OR OTHERWISE), IN EACH CASE, WHETHER NOW EXISTING OR HEREAFTER ARISING, AND WHETHER IN CONTRACT, TORT OR OTHERWISE. Notwithstanding the foregoing, a Rollover Investor shall be permitted to disclose Confidential Information: (a) to the extent required by applicable laws and regulations, or by any subpoena or similar legal process, or to the extent requested by any governmental agency or authority; (b) to the extent such Confidential Information (i) becomes publicly available other than as a result of a breach of this Agreement by such Rollover Investor, (ii) becomes available to such Rollover Investor on a non-confidential basis from a source other than the Company or its subsidiaries or (iii) was available to such Rollover Investor on a non-confidential basis prior to its disclosure to such Rollover Investor by the Company or its subsidiaries; or (c) to the extent the Company or its subsidiaries shall have consented to such disclosure in writing.

If and to the extent that the foregoing undertaking may be unenforceable for any reason, the Company hereby agrees to make the maximum contribution to the payment and satisfaction of each of such Indemnified Liabilities that is permissible under applicable law.

7.2. Each Rollover Investor (severally and not jointly) will indemnify, exonerate and hold the Company and its shareholders (other than such Rollover Investor), and their respective Indemnitees (other than those of such Rollover Investor and such Rollover Investor's affiliates) harmless from and against any and all Indemnified Liabilities incurred by any of them as a result of, arising out of or relating to any breach of any representation, warranty or agreement in this Agreement by such Rollover Investor; provided, that each Rollover Investor shall be liable only to the extent of the value of such Rollover Investor's Rollover Securities. 8.2. Termination of 8.1 Restrictions. The restrictions imposed by Section 8 hereof upon the transferability of Rollover Securities will cease and terminate as to any particular Rollover Securities (a) when, in the reasonable opinion of Ropes & Gray LLP or other counsel reasonably acceptable to the Company, such restrictions are no longer required in order to assure compliance with the Securities Act, or (b) when such Rollover Securities have been registered under the Securities Act or transferred pursuant to Rule 144 thereunder. Whenever such restrictions cease and terminate as to any Rollover Securities, or such Rollover Securities are transferable under paragraph (k) of Rule 144, the holder thereof will be entitled to receive from the Company, without expense, new certificates not bearing the legend set forth in Section 8.1 hereof.

9. Miscellaneous.

This Agreement and the other agreements referred to herein set forth the entire understanding among the parties with respect to the subject matter hereof and supersede all agreements and understandings between the parties or their respective affiliates relating to equity securities of the Company, Target or their affiliates or any rights or obligations relating thereto, including, without limitation, any stock redemption agreement between a Rollover Investor and Target.

9.2. Notices. Any notices and other communications required or permitted in this Agreement will be effective if in writing and delivered as provided in Section 11.2 of the Stockholders Agreement.

9.3. Amendment.

(a) This Agreement can be amended or modified only by an instrument in writing signed by the party against whom enforcement of such change is sought.

(b) No failure or delay by any party in exercising any right, power or privilege hereunder will operate as a waiver thereof, nor will any single or partial exercise thereof preclude any other or further exercise thereof, or the exercise of any other right, power or privilege. The rights and remedies herein provided will be cumulative and not exclusive of any rights or remedies provided by law.

9.4. Expenses. The Company shall bear its and the Rollover Investors' costs and expenses in connection with or relating to the preparation, negotiation and execution of this Agreement, and the consummation of the other transactions contemplated hereby (and any and all amendments, modifications, restructurings and waivers, and exercises and preservations of rights and remedies hereunder).

9.5. Successors; Assignment. This Agreement will bind and inure to the benefit of the parties hereto and their respective successors, assigns, heirs and representatives. 9.6. Stock Redemption Agreements. Each of the Founders acknowledges and agrees that any Stock Redemption Agreement to which he, she or it and the Target (or any of its affiliates) are party (or other right in effect prior to the Closing Date to require the Company or its Affiliates to purchase any equity securities that he, she or it may hold) will be of no further force and effect from and after the Closing (except to the extent set forth in the Stockholders Agreement).

9.7. Survival. All covenants, agreements, representations and warranties made herein will survive the execution and delivery hereof and the transfer of any Rollover Securities.

9.8. Counterparts. This Agreement may be executed in any number of counterparts, each of which will be deemed an original, but all of which will together constitute one and the same instrument.

10. Governing Law; Disputes.

10.1. Governing Law. This Agreement and all claims arising in whole or in part out of, based on or in connection with this Agreement will be governed by and construed in accordance with the domestic substantive laws of the State of New York, without giving effect to any choice or conflict of law provision or rule that would cause the application of the domestic substantive laws of any other jurisdiction.

10.2. Consent to Jurisdiction. Each party to this Agreement, by his, her or its execution hereof, (a) hereby irrevocably submits to the exclusive jurisdiction of the state and federal courts sitting in the State of New York, City of New York, County of New York for the purpose of any action, claim, cause of action or suit (in contract, tort or otherwise), inquiry, proceeding or investigation arising out of or based upon this Agreement, or relating to the subject matter hereof, (b) hereby waives to the extent not prohibited by applicable law, and agrees not to assert, and agrees not to allow any of its subsidiaries to assert, by way of motion, as a defense or otherwise, in any such action, any claim that he, she or it is not subject personally to the jurisdiction of the above-named courts, that his, her or its property is exempt or immune from attachment or execution, that any such proceeding brought in one of the above-named courts is improper or that this Agreement or the subject matter hereof may

not be enforced in or by such court and (c) hereby agrees neither to commence or maintain any action, claim, cause of action or suit (in contract, tort or otherwise), inquiry, proceeding or investigation arising out of or based upon this Agreement, or relating to the subject matter hereof other than before one of the above-named courts, nor to make any motion or take any other action seeking or intending to cause the transfer or removal of any such action, claim, cause of action or suit (in contract, tort or otherwise), inquiry, proceeding or investigation to any court other than one of the above-named courts whether on the grounds of inconvenient forum or otherwise. Notwithstanding the foregoing, to the extent that any party hereto is or becomes a party in any litigation in connection with which he, she or it may assert indemnification rights set forth in this agreement, the court in which such litigation is being heard shall be deemed to be included in clause (a) above. Each party hereto hereby consents to service of process in any such proceeding in any manner permitted by New York law, and agrees that service of process by registered or certified mail, return receipt requested, at his, her or its address specified pursuant to Section 11.2 of the Stockholders Agreement is reasonably calculated to give actual notice.

10.3. Waiver of Jury Trial. TO THE EXTENT NOT PROHIBITED BY APPLICABLE LAW THAT CANNOT BE WAIVED, EACH OF THE PARTIES HERETO HEREBY WAIVES, AND COVENANTS THAT HE, SHE OR IT WILL NOT ASSERT (WHETHER AS PLAINTIFF, DEFENDANT OR OTHERWISE), ANY RIGHT TO TRIAL BY JURY IN ANY FORUM IN RESPECT OF ANY ISSUE, CLAIM, DEMAND, CAUSE OF ACTION, ACTION, SUIT OR PROCEEDING ARISING IN WHOLE OR IN PART OUT OF, BASED ON OR IN CONNECTION WITH THIS AGREEMENT OR THE SUBJECT MATTER HEREOF (IN CONTRACT, TORT OR OTHERWISE), IN EACH CASE, WHETHER NOW EXISTING OR HEREAFTER ARISING, AND WHETHER IN CONTRACT, TORT OR OTHERWISE. ANY OF THE PARTIES HERETO MAY FILE AN ORIGINAL COUNTERPART OR A COPY OF THIS SECTION 10.3 WITH ANY COURT AS WRITTEN EVIDENCE OF THE CONSENT OF EACH OF THE PARTIES HERETO TO THE WAIVER OF HIS, HER OR ITS RIGHT TO TRIAL BY JURY.

10.4. Reliance. Each of the parties hereto acknowledges that he, she or it has been informed by each other party that the provisions of this Section 10 constitute a material inducement upon which such party is relying and will rely in entering into this Agreement and the transactions contemplated hereby.

IN WITNESS WHEREOF, the parties hereto, intending to be legally bound by the terms hereof, have caused this Agreement to be executed, under seal, as of the date first above written by their officers or other representatives thereunto duly authorized.

1.14 Restaurant. The term "Restaurant" shall mean a restaurant utilizing the System, whether owned by CIGI, its Affiliates or by its licensees/franchisees.

1.15 System. The term "System" shall mean the Carrabba's Italian Grill® restaurant concept and system and all elements, characteristics and properties thereof, including, without limitation, recipes and menu items; motif, design, decor and furnishings; trade dress and the Propriety Marks, trade secrets, know-how and other intellectual property; uniform standards, specifications and procedures for operations, quality and uniformity of products and services offered; procedures for inventory and management control; training and assistance; employee testing programs; marketing, advertising and promotional programs; together with all goodwill associated therewith.

ARTICLE II
TRANSFER OF SYSTEM

2.1 Transfer of System. MBI hereby assigns, transfers and conveys outright and absolutely to CIGI all ownership, right, title and interest in and to the System and the Proprietary Marks and all elements, characteristics and property thereof, and all goodwill associated therewith, free and clear of any lien, claim, encumbrance or retained interest whatsoever, subject to and except only the following:

(a) CI's rights to operate one Restaurant pursuant to the CI License Agreement.

(b) CWI's rights to operate one Restaurant pursuant to the CWI License Agreement.

(c) The Florida Partnership's rights to operate Restaurants as licensees pursuant to the Florida License Agreement.

(d) The Joint Ventures' rights to operate Restaurants as a licensee pursuant to the Joint Venture License Agreements.

(e) MBI's contingent right of reversion specified in Section 8.5 hereof.

2.2 Transfer of Rights as Licensor. MBI hereby transfers, assigns and conveys to CIGI all right, title and interest of MBI as Licensor under the CI License Agreement, the CWI License Agreement, the Florida License Agreement and the Joint Venture License Agreement. CIGI hereby accepts such assignment and agrees to be bound by, and hereby assumes the obligations of Licensor under the CI License Agreement, the CWI License Agreement, the Florida License Agreement and the Joint Venture License Agreement.

2.3 Limitation. Notwithstanding the foregoing, CIGI shall not use the Proprietary Marks in connection with any product or service other than restaurant and catering services, food products, beverages, clothing and promotional items ancillary to the foregoing, except with the prior consent of MBI, which consent shall not be unreasonably withheld, delayed or conditioned. Nothing contained in this Section 2.3 shall be construed as a retention by MBI of any right to use the Proprietary Marks nor as a grant of any right to use the Proprietary Marks.

ARTICLE III
ROYALTIES

3.1 Restaurant Royalties. For each Restaurant owned by CIGI or a franchisee/licensee of CIGI (other than the Joint Venture, CI or CWI) which Restaurant first opens to the public after January 1, 1995, CIGI shall pay to MBI an annual royalty fee during the term of this Agreement as follows:

(a) For Restaurants whose annual Net Restaurant Sales are Two Million Seven Hundred Thousand Dollars ($2,700,000) or less, a royalty fee of one percent (1%) of Net Restaurant Sales;

(b) For Restaurants whose annual Net Restaurant Sales exceed Two Million Seven Hundred Thousand Dollars ($2,700,000) but are less than Three Million Dollars ($3,000,000), a royalty fee of one and one quarter percent (1 1/4%) of Net Restaurant Sales;

(c) For Restaurants whose annual Net Restaurant Sales exceed Three Million Dollars ($3,000,000), a royalty fee of one and one half percent (1 1/2%) of Net Restaurant Sales.

3.2 Payment. For each Restaurant CIGI shall pay to MBI a monthly royalty fee at the rate of one percent (1%) of Net Restaurant Sales for each of the first six months of such Restaurant's operation. After the first six months of operation, such Restaurant's Net Restaurant Sales shall be annualized and the royalty fee shall be paid for the remainder of the calendar year based on annualized Net Restaurant Sales for the calendar year ending on the first December 31 after the Restaurant has completed its first six months of operation ("Initial Calendar Year"). For each calendar year after the Initial Calendar Year, such Restaurant shall pay a monthly royalty fee based on the Net Restaurant Sales of the preceding calendar year (annualized for Restaurants open less than twelve months in the previous calendar year). Within thirty (30) days of the end of each calendar year, each Restaurant's actual Net Restaurant Sales for such calendar year shall be determined and CIGI shall pay to MBI, or MBI shall refund to CIGI, as the case may be, any amounts necessary so that the actual royalty paid for such calendar year is as provided in Section 3.1. No royalty shall be paid on Net Restaurant Sales which occur after expiration or termination of this Agreement.

3.3 Product Royalties. For each calendar year during the term of this Agreement (beginning with 1995) CIGI shall pay to MBI a monthly royalty fee of one percent (1%) of Net Product Sales, payable as provided in Section 3.4. No royalty shall be paid on Net Product Sales which occur after expiration or termination of this Agreement.

3.4 Payments and Reports. All monthly payments to MBI required by this Article III shall be paid by the tenth (10th) day of each month in respect of operations during the preceding calendar month, and shall be submitted, together with any reports or statements required under Section 4.5 hereof, to MBI at the address provided in Section 10.4 hereof. Any payment or report not actually received by MBI on or before such date shall be deemed overdue. If any payment is overdue, CIGI shall pay MBI, in addition to the overdue amount, interest on such amount from the date it was due until payment is received by MBI at the rate of eighteen percent (18%) per annum, or the maximum rate permitted by law, whichever is less.

ARTICLE IV
COVENANTS OF OUTBACK ENTITIES

The Outback Entities covenant and agree with the Carrabba Entities as follows:

4.1 Development of Restaurants. CIGI shall use its best reasonable efforts to successfully promote and develop the System and to establish and operate, by itself and through licensees and franchisees, as many Restaurants as CIGI deems prudent, in its sole discretion.

4.2 Payments of Royalties. CIGI shall use its best reasonable efforts to maximize the Net Sales of each Restaurant and shall promptly pay or cause to be paid to MBI the royalties provided for in Article III.

4.3 Improvement of System. CIGI shall use its best reasonable efforts to modify and improve the System and to protect and defend the Proprietary Marks; provided, however, nothing contained herein shall be construed as obligating CIGI to initiate any legal action against any particular infringer of any Proprietary Mark. All improvements, modifications and changes to the System or any element thereof shall be the sole and exclusive property of CIGI.

4.4 Obligations as Licensor. CIGI shall fully perform all obligations of CIGI as Licensor under the CI License Agreement, the CWI License Agreement, the Florida License Agreement and the Joint Venture License Agreements, and CIGI will comply with all terms thereof and CIGI shall hold the Carrabba Entities harmless from all obligations of Licensor to licensees and franchisees and all other obligations of Licensor.

4.5 Accounting and Records.

(a) Monthly Reporting. CIGI shall maintain during the term of this Agreement, and shall preserve for at least five (5) years from the dates of their preparation, full, complete, and accurate books, records, and accounts prepared in accordance with generally accepted accounting principles and in sufficient detail to document the calculation of royalties hereunder.

(b) Monthly Reports. CIGI shall submit to MBI no later than the tenth (10th) day of each month during the term of this Agreement, a remittance report accurately reflecting all Net Restaurant Sales and Net Product Sales during the preceding calendar month and such other data or information as MBI may reasonably request. In addition, and without limiting the foregoing, CIGI shall submit a monthly and fiscal year-to-date profit and loss statement (which may be unaudited) for CIGI and the Restaurants, and shall submit copies of all state sales tax returns for CIGI and the Restaurants.

(c) Quarterly Reports. CIGI shall submit to MBI a quarterly balance sheet (which may be unaudited) within thirty (30) days after the end of each quarter of the fiscal year of the CIGI. Each such statement shall be signed by CIGI or by CIGI's treasurer or chief financial officer attesting that it is true and correct.

(d) Annual Reports. CIGI shall submit to MBI complete audited annual financial statements of CIGI prepared by an independent certified public accountant satisfactory to MBI, within ninety (90) days after the end of each fiscal year of CIGI, showing the results of operations of CIGI and the Restaurant during said fiscal year. Such statements shall include, at a minimum, a balance sheet, profit and loss statement and statement of sources and uses of funds.

(e) Additional Reports. CIGI shall submit to MBI, for review or auditing, such other forms, reports, records, information, and data as MBI may reasonably request in order to verify the calculation of royalties payable pursuant to this Agreement.

(f) Inspection Rights. MBI or its designated agents shall have the right at all reasonable times to examine and copy, at MBI's expense, the books, records, and tax returns of CIGI. MBI shall also have the right, at any time, to have an independent audit made of the books of CIGI. If an inspection should reveal that any payments have been understated in any report to MBI, then CIGI shall immediately pay to MBI the amount understated upon demand, in addition to interest from the date such amount was due until paid, at the rate of ten percent (10%) per annum, or the maximum rate permitted by law, whichever is less. If an inspection discloses an understatement in any report of five percent (5%) or more, CIGI shall pay interest at the rate of eighteen percent (18%) per annum or the maximum rate permitted by law, whichever is less, and in addition, shall reimburse MBI for any and all costs and expenses connected with the inspection (including, without limitation, travel, lodging and wages expenses and reasonable accounting and legal costs). The foregoing remedies shall be in addition to any other remedies MBI may have.

(g) Expenses. All reports, forms and other information required by this Section 4.5 shall be prepared at CIGI's expense and shall be submitted to MBI at the address indicated in Section 10.4 hereof.

(h) Other Users of System. CIGI will cause all franchisees, licensees and other users of the System to maintain and provide records of the type necessary to support and document the reports to be provided hereunder.

4.6 Non-Competition. Each Outback Entity covenants to MBI that, except as otherwise approved in writing by MBI, it shall not, during the term of this Agreement, directly or indirectly, for itself or through, on behalf of, or in conjunction with any person, persons, partnership, limited liability company, corporation or any other entity, own, maintain, operate, engage in, license, franchise, be employed by or have any interest in, any Italian food restaurant utilizing any material proprietary component, element or property of the System other than Restaurants licensed to use the System and for which royalties are paid hereunder. Without limiting the generality of the foregoing, the parties further agree that for any such Italian food restaurant utilizing one or more material proprietary components, elements or properties of the System, CIGI shall remain obligated to pay royalties on sales of such restaurant to the same extent as if such restaurant were a licensee or a franchisee of CIGI and utilizing the System.

4.7 Right of First Refusal.

(a) Restriction. The Outback Entities hereby covenant and agree that no Outback Entity shall, directly or indirectly, in any manner whatsoever, transfer or offer to transfer the System (hereinafter referred to as a "Transfer"), except in accordance with the provisions of this Section 4.7. Any purported Transfer, no matter how effected, which does not

comply with the terms, conditions and procedures of this Section 4.7 shall be null and void and shall transfer no interest in the System. This Section 4.7 shall not apply to the grant in the ordinary course of business of licenses and franchises to use the System.

(b) Termination of Restrictions. Notwithstanding any contrary provision hereof, the restrictions on Transfer and rights of first refusal contained in this Section 4.7 shall terminate and thereafter be forever null and void if at any time on or before January 1, 2000 there are fifty (50) or more Restaurants open for business.

(c) Right of First Refusal. In the event any Outback Entity ("Transferor") desires to Transfer the System (and any Restaurants owned by CIGI or its Affiliates) or a majority of the vote or value of the capital stock of CIGI, to any person or entity, the Transferor shall, prior to any such Transfer, give MBI written notice of such desire ("Notice of Transfer"), which notice shall specify the property to be transferred ("Property"), the identity of the proposed transferee, and the purchase price, including payment terms and the treatment of liabilities related to the Property ("Purchase Price"). Any purported Notice of Transfer that does not comply with the requirements of this subsection (c) shall be null and void and of no effect hereunder. Upon receipt of a proper Notice of Transfer, MBI shall thereupon have the right to acquire all, but not less than all, of the Property specified in the Notice of Transfer on terms identical to the Purchase Price. In the event the Purchase Price contains terms which MBI cannot reasonably duplicate, MBI shall have the right to substitute the reasonable cash equivalent thereof.

MBI shall exercise the right of first refusal contained herein by giving written notice thereof ("Notice of Election") to the Transferor within thirty-five (35) days of the date of the Notice of Transfer. In the event MBI fails to give a Notice of Election to the Transferor within the thirty-five (35) day period, the purchase option contained herein shall lapse, and, if so requested by the Transferor, MBI shall give an affirmative written statement of non-exercise of the right of first refusal within five (5) days of request by the Transferor.

The closing for any purchase hereunder shall be consummated and closed in CIGI's principal office on a date and at a time designated by MBI in a notice to the Transferor, provided such consummation and closing date shall occur within ninety (90) days from the date of the Notice of Election. At such closing the Transferor shall execute and deliver all documents and instruments as are necessary and appropriate, in the opinion of counsel for MBI, to effectuate the transfer of the Property to MBI in accordance with the terms of the Notice of Transfer, and MBI shall deliver the Purchase Price.

(d) Limitation. The right of first refusal contained in subsection (c) shall not apply to transfers to Outback or any Affiliate of Outback.

(e) Transfer Permitted After Failure to Elect. In the event MBI does not elect pursuant to subsection (c) to exercise the purchase option specified therein, or in the event the closing for any purchase pursuant to subsection (c) does not occur within the time

limits specified therein, then the Transferor shall be free to transfer the Property as was specified in the Notice of Transfer to the person or entity identified in the Notice of Transfer in exchange for the exact Purchase Price as was specified in the Notice of Transfer; provided, however, that the closing and consummation of such transfer shall occur on or before the earlier of (i) sixty (60) days from the date of the Notice of Transfer if no Notice of Election was given; or (ii) one hundred twenty (120) days from the date of the Notice of Election; and provided further that such transfer must comply with all other requirements of this Section 4.7. In the event such transfer is not so closed and consummated within such period, the purchase option granted to MBI in subsection (c) shall again be exercisable and the Transferor shall make no Transfer of the Property, or any right, title or interest therein, until he has again complied with all terms and provisions of this Section 4.7. In the event MBI does not elect pursuant to Section 4.7 to exercise the purchase option contained therein and the Transferor makes a permitted Transfer in compliance with the terms and provisions of this Section 4.7, then the person or entity to whom such Property is transferred shall, as a condition to such transfer, agree in writing to be bound by all terms and provisions of this Agreement.

(f) Effect of Transfer. Notwithstanding any Transfer of the System or any portion thereof, unless MBI (or any Permitted Successor entitled to royalties hereunder at the time of such transfer) otherwise agrees in writing, no Transfer shall relieve Outback, CIGI or any other transferring person or entity from any liability to pay royalties hereunder, which liabilities and obligations shall be joint and several as to such parties; and, unless otherwise so agreed by MBI or its Permitted Successor, all transferees of the System shall be and remain jointly and severally liable for the payment of such royalties and the performance of such liabilities and obligations hereunder.

ARTICLE V
COVENANTS OF CARRABBA ENTITIES

5.1 Non-Disclosure; Non-Solicitation. Except as required by law or as necessary to protect its interests in legal proceedings involving the parties to this Agreement or thired parties, at no time during the term of this Agreement, or at any time thereafter, shall any Carrabba Entity, individually or jointly with others, for the benefit of any Carrabba Entity or any third party, publish, disclose, use, or authorize anyone else to publish, disclose, or use, any secret or confidential material or information relating to any aspect of the business or operations of CIGI, the System or the Restaurants, including, without limitation, any secret or confidential information relating to the business, customers, trade or industrial practices, trade secrets, technology, recipes or know-how of CIGI, its Affiliates or the System. Moreover, during the term of this Agreement and for a period of two (2) years thereafter, no Carrabba Entity shall offer employment to any then-current employee of any of CIGI, its Affiliates or licensees (other than a Carrabba Entity), or otherwise solicit or induce any employee of any of CIGI, its Affiliates or licensees to terminate their employment, nor shall any Carrabba Entity act as an officer, director, employee, partner, independent contractor, consultant, principal, agent, proprietor, owner or part owner, or in any other capacity, for any person or entity which solicits or otherwise induces any employee of any of CIGI, its Affiliates or licensees (other than a Carrabba Entity) to terminate their employment.

5.2 Competition. Each Carrabba Entity covenants to CIGI that, except for the Restaurants owned by the Joint Ventures, CI and CWI, and except as otherwise approved in writing by CIGI, each Carrabba Entity shall not, during the term of this Agreement and for a continuous uninterrupted period commencing upon the expiration or termination of this Agreement, and continuing for two (2) years thereafter, directly or indirectly, for themselves, or through, on behalf of, or in conjunction with any person, persons, partnership or corporation, own, maintain, operate, engage in, be employed by, or have any interest in, or lend any assistance to, any business which owns or operates one or more full service Italian food restaurants and which is, or is intended to be, located within thirty (30) miles of an existing or proposed Restaurant utilizing the System, whether owned by CIGI, its Affiliates or a licensee/franchisee of CIGI; provided, however, that during the term of this Agreement the foregoing geographic limitation shall not apply and, except for the Restaurants owned by the Joint Venture, CI and CWI, each Carrabba Entity shall be prohibited from such ownership and/or activity regardless of whether such other business is within or without of the thirty-mile radius; and provided further, that this Section 5.2 shall not apply to any Permitted Transferee who by the terms of Section 6.4(c) is entitled to own or operate not more than five restaurants. The term "proposed Restaurant" shall mean all locations for which CIGI (or its successor in interest as owner or the System), any Affiliate of CIGI, or any franchisee is conducting active, bona fide negotiations to secure a fee or leasehold interest with the intention of establishing thereon a restaurant utilizing the System.

This section shall not apply to ownership by a Carrabba Entity of less than one percent (1%) beneficial interest in the outstanding equity securities of any corporation required to file periodic reports under the Securities Exchange Act of 1934, as amended.

5.3 Independent Covenants. The parties agree that each of the foregoing covenants shall be construed as independent of any other covenant or provision of this Agreement. If all or any portion of a covenant in this Article V is held unreasonable or unenforceable by a court or agency having valid jurisdiction in an unappealed final decision to which CIGI is a party, each Carrabba Entity expressly agrees to be bound by any lesser covenant subsumed within the terms of such covenant that imposes the maximum duty permitted by law, as if the resulting covenant were separately stated in and made a part of this Article V.

5.4 Modification. Each Carrabba Entity understands and acknowledges that CIGI shall have the right, in its sole discretion, to reduce the scope of any covenant set forth in Sections 5.1 and 5.2 of this Agreement, or any portion thereof, effective immediately upon receipt of written notice thereof; and each Carrabba Entity agrees that it shall comply forthwith with any covenant as so modified, which shall be fully enforceable against such Carrabba Entity.

5.5 Claims Not a Defense. Each Carrabba Entity expressly agrees that the existence of any claims they may have against any Outback Entity, whether or not arising from

this Agreement, shall not constitute a defense to the enforcement by CIGI of the covenants in this Article V. Each Carrabba Entity agrees to pay all costs and expenses (including reasonable attorneys' fees) incurred by CIGI in connection with any legal proceedings brought by CIGI to construe, interpret or enforce this Article V.

5.6 Reasonableness of Restrictions; Reformation; Enforcement . Each Carrabba Entity recognizes and acknowledges that the geographical and time limitations contained in this Article V are reasonable and properly required for the adequate protection of CIGI and the System. It is agreed by each Carrabba Entity that if any portion of the restrictions contained in this Article V be unreasonable, arbitrary or against public policy, then the restrictions shall be considered divisible, both as to the time and to the geographical area, with each month of the specified period being deemed a separate period of time and each radius mile of the restricted territory being deemed a separate geographical area, so that the lesser period of time or geographical area shall remain effective so long as the same is not unreasonable, arbitrary or against public policy. The parties hereto agree that in the event any court of competent jurisdiction determines the specified period or the specified geographical area of the restricted territory to be unreasonable, arbitrary, or against public policy, a lesser time period or geographical area which is determined to be reasonable, nonarbitrary, and not against public policy may be enforced against each Carrabba Entity. If any Carrabba Entity shall violate any of the covenants contained herein and if any court action is instituted by CIGI to prevent or enjoin such violation, then the period of time during which the covenants of this Article V shall apply, as provided in this Agreement, shall be lengthened by a period of time equal to the period between the date of the breach of the terms or covenants contained in this Agreement and the date on which the decree of the court disposing of the issues upon the merits shall become final and not subject to further appeal.

5.7 Specific Performance. Each Carrabba Entity agrees that a breach of any of the covenants contained in this Article V will cause irreparable injury to CIGI for which the remedy at law will be inadequate and would be difficult to ascertain and therefore, in the event of the breach or threatened breach of any such covenants, CIGI shall be entitled, in addition to any other rights and remedies it may have at law or in equity, to obtain an injunction to restrain such Carrabba Entity from any threatened or actual activities in violation of any such covenants. Each Carrabba Entity hereby consents and agrees that temporary and permanent injunctive relief may be granted in any proceedings which might be brought to enforce any such covenants without the necessity of proof of actual damages, and in the event CIGI does apply for such an injunction, the Carrabba Entities shall not raise as a defense thereto that CIGI has an adequate remedy at law.

5.8 Personnel. Each of CI, CWI and MBI shall require and obtain execution of covenants similar to those set forth in this Article V (including covenants applicable during the term of a person's relationship with them and for two years after termination of such relationship) from any or all of the following persons: (a) all managers, kitchen managers and assistant kitchen managers of MBI, CI or CWI; (b) all officers, directors and holders of a beneficial interest of one percent (1%) or more of the securities of MBI, CI or CWI. Every

covenant required by this Section 5.8 shall be in a form reasonably satisfactory to CIGI, including, without limitation, specific identification of CIGI as a third-party beneficiary of such covenants with the independent right to enforce them. Failure by MBI, CI or CWI to obtain execution of a covenant required by this Section 5.8 shall constitute a default under this Agreement. Nothing contained in this Section 5.8 shall be construed as a guarantee by MBI of the enforceability of such covenants of such personnel.

5.9 Ownership of Improvements. Each Carrabba Entity acknowledges and agrees that any and all improvements, modifications or additions to the System developed by any Carrabba Entity (or their employees) shall constitute part of the System and shall be the sole and exclusive property of CIGI.

ARTICLE VI
RESTRICTIONS ON TRANSFER

6.1 Restriction Against Transfer. The Carrabba Entities hereby covenant and agree that no Carrabba Entity shall, directly or indirectly, in any manner whatsoever, transfer or encumber, or offer to transfer or encumber (hereinafter referred to as "Transfer") any of its interest in the royalties provided for in Article III hereof, or any right, title or interest therein, whether now owned or hereafter acquired ("Royalty Interest"), except in accordance with the provisions of this Article VI.

Any purported Transfer, no matter how effected, which does not comply with the terms, conditions and procedures of this Agreement shall be null and void and shall transfer no interest in the Royalty Interest, but such non-complying purported Transfer shall not relieve CIGI of any of its obligations under this Agreement.

For purposes of this Agreement, a Transfer of a Royalty Interest shall include any issuance, disposition or encumbrance, of any shares of any class of capital stock of MBI or other ownership or voting interest in MBI, and all provisions of this Article VI shall apply to any such disposition or encumbrance.

6.2 Transferees Bound. Any permitted transferee or assignee to whom a Royalty Interest (or capital stock or other ownership or voting interest in MBI or any successor to MBI) may be transferred under the terms of this Agreement who is not at the time of such transfer a party to this Agreement shall take such Royalty Interest subject to all of the terms and conditions of this Agreement and shall not be considered to have title to such Royalty Interest until the transferee or assignee shall have accepted and assumed the terms and conditions of this Agreement by a written agreement to that effect.

6.3 Transfers Subject to Rights of First Refusal. In the event MBI, or any shareholder of MBI, ("Transferor") desires to Transfer all or any part of its Royalty Interest or (i) in the case of MBI, issue additional shares of capital stock, or (ii) in the case of a shareholder

of MBI, Transfer capital stock or other ownership or voting interest in MBI] to any person or entity, the Transferor shall, prior to any such Transfer, give CIGI written notice of such desire ("Notice of Transfer"), which notice shall specify the Royalty Interest (or capital stock in MBI) to be transferred or issued, the identity of the proposed transferee, the purchase price for the Royalty Interest (or capital stock of MBI, as the case may be), and the terms for payment of the purchase price, ("Purchase Price"). Any purported Notice of Transfer that does not comply with the requirements of this Section shall be null and void and of no effect hereunder. Upon receipt of a proper Notice of Transfer, CIGI shall thereupon have the right to acquire the Transferor's entire Royalty Interest (or entire capital stock in MBI, as the case may be), or such portion thereof as is specified in the Notice of Transfer, on terms identical to the Purchase Price or proportionately identical if CIGI elects to purchase the entire Royalty Interest (or entire capital stock, as the case may be) of the Transferor. In the event the Purchase Price contains terms which CIGI cannot reasonably duplicate, CIGI shall have the right to substitute the reasonable cash equivalent thereof.

CIGI shall exercise the right of first refusal contained herein by giving written notice thereof ("Notice of Election") to the Transferor within thirty-five (35) days of the date of the Notice of Transfer. The Notice of Election shall specify whether CIGI elects to purchase the entire Royalty Interest (or entire capital stock, as the case may be) of the Transferor, or, if less, the portion thereof specified in the Notice of Transfer. In the event CIGI fails to give a Notice of Election to the Transferor within the thirty-five (35) day period, the purchase option contained herein shall lapse, and, if so requested by the Transferor, CIGI shall give an affirmative written statement of non-exercise of the right of first refusal within five (5) days of request by the Transferor.

The closing for any purchase hereunder shall be consummated and closed in CIGI's principal office on a date and at a time designated by CIGI in a notice to the Transferor, provided such consummation and closing date shall occur within ninety (90) days from the date of the Notice of Election. At such closing the Transferor shall execute and deliver all documents and instruments as are necessary and appropriate, in the opinion of counsel for CIGI, to effectuate the transfer of the Transferor's Royalty Interest (or capital stock of MBI, as the case may be) to CIGI in accordance with the terms of the Notice of Transfer and CIGI shall deliver the Purchase Price.

6.4 Limitation. Notwithstanding any other provision of this Agreement, shares of stock of MBI or interests in royalty payments hereunder may be transferred or assigned under the following circumstances, without giving rise to any right of first refusal under Section 6.3:

(a) MBI may transfer or assign its interest in royalty payments hereunder, or any portion thereof, to any organization, association or other entity (a "Successor"), so long as the capital stock of or other equity interests in such Successor are held only by or for the account of any one or more of the Carrabba Entities, or any other person or entity that would be permitted to own stock of or equity interests in MBI or a Permitted Successor pursuant to clauses (b) and (c) below, or any combination of the foregoing persons (all such Successors

referred to collectively as "Permitted Successors"), provided that in each case the transferee of such interest shall be subject to the same restrictions on further transfer as are contained in this Article VI including exceptions from such restrictions pursuant to this Section 6.4), and provided, further, that for a period of five (5) years from the date of this Agreement following each such transfer, Johnny Carrabba or Damian Mandola, if both are then alive, shall have the exclusive right to vote a number of shares of stock of MBI and any Permitted Successor sufficient to elect their entire Board of Directors and to exclusively determine all matters submitted to shareholder vote;

(b) In addition to transfers permitted by sections (a) or (c), shares of stock of, or other equity interests in, MBI or any Permitted Successor or any interest therein may be transferred to the spouse, children, grandchildren, nephews and nieces of Johnny Carrabba, Damian Mandola or John Carrabba, Jr., or to any trust for the benefit of one or more such persons (the foregoing collectively referred to as "Permitted Transferees"), provided that in each case the transferee of such shares or equity interests shall be subject to the same restrictions on further transfer as are contained in this Article VI; (including exceptions from such restrictions pursuant to this Section 6.4), and provided, further, that for a period of five (5) years from the date of this Agreement following each such transfer, Johnny Carrabba and Damian Mandola, if both are then alive, shall have the exclusive right to vote a number of shares of stock of MBI and any Permitted Successor sufficient to elect their entire Board of Directors and to exclusively determine all matters submitted to shareholder vote; and

(c) Shares of stock of, or other equity interest in, MBI or any Permitted Successor or any interest therein may be transferred to any person if, and only if (i) the transfer is a bona fide gift by the transferor for which no monetary or property consideration or other thing of value whatsoever is received, or a testamentary transfer or transfer by intestate succession or other transfer upon the transferor's death, and (ii) the donee is not in any manner, directly or indirectly, through ownership in other entities or otherwise, engaged in the operation or ownership of restaurants; provided, however, that if the donee is a family member of Johnny Carrabba, Damian Mandola or John Carrabba, Jr. such donee may be involved in the ownership or operation of not more than five (5) restaurants; provided, however, in the case of bona fide, recognized charitable organizations, ownership of stock in publicly traded corporations shall be allowed and in the case of all other donees, ownership of less than one percent (1%) of the outstanding shares of any class of securities of a publicly traded corporation shall be allowed (the foregoing also collectively referred to as "Permitted Transferees"). The parties further agree that any donee permitted to own or operate not more than five restaurants hereunder shall continue to be permitted to do so, notwithstanding any term or provision to the contrary in any other agreement between or among any of the Outback Entities and any of the Carrabba entities.

6.5 Transfer Permitted After Failure to Elect. In the event CIGI does not elect pursuant to Section 6.3 to exercise the purchase option specified therein, or in the event the closing for any purchase pursuant to Section 6.3 does not occur within the time limits specified therein, then the Transferor shall be free to transfer the exact portion of its Royalty Interest (or capital stock of MBI, as the case may be) as was specified in the Notice of Transfer to the

person or entity identified in the Notice of Transfer in exchange for the exact Purchase Price as was specified in the Notice of Transfer; provided, however, that the closing and consummation of such transfer shall occur on or before the earlier of (i) sixty (60) days from the date of the Notice of Transfer if no Notice of Election was given; or (ii) one hundred twenty (120) days from the date of the Notice of Election; and provided further that such transfer must comply with all other requirements of this Article VI. In the event such transfer is not so closed and consummated within such period, the purchase option granted to CIGI in Section 6.3 shall again be exercisable and the Transferor shall make no Transfer of any portion of its Royalty Interest (or capital stock in MBI), or any right, title or interest therein, until he has again complied with all terms and provisions of this Article. In the event CIGI does not elect pursuant to Section 6.3 to exercise the purchase option contained therein and the Transferor makes a permitted Transfer in compliance with the terms and provisions of this Article, then the person or entity to whom such Royalty Interest (or capital stock of MBI) is transferred shall nevertheless acquire such Royalty Interest (or capital stock) subject to the restrictions imposed on such Royalty Interest (or capital stock) under this Article VI as to further transfers of such Royalty Interest (or capital stock), and provided further that as a condition to such transfer any such transferee shall agree in writing to be bound by all terms and provisions of this Agreement.

6.6 Purchase Option on Bankruptcy of John C. Carrabba, III Damian C. Mandola and John C. Carrabba, Jr.

(a) For purposes of this Agreement, the term "Bankrupt" or "Bankruptcy" means, with respect to any person, a situation in which (i) such person shall file a voluntary petition in bankruptcy or shall be adjudicated as bankrupt or insolvent, or shall file any petition or answer seeking any reorganization, arrangement, composition, readjustment, liquidation, dissolution or similar relief for itself under the present or future applicable Federal, state or other statute or law relating to bankruptcy, insolvency, or other relief for debtors, or shall seek or consent to or acquiesce in the appointment of any trustee, receiver, conservator or liquidator of such person or of all or any substantial part of its properties or its rights under this Agreement (the term "acquiesce", as used in this definition, includes the failure to file a petition or motion to vacate or discharge any order, judgment or decree within twenty (20) days after entry of such order, judgment or decree); (ii) a court of competent jurisdiction shall enter an order, judgment or decree approving a petition filed against such person seeking a reorganization, arrangement, composition, readjustment, liquidation, dissolution or similar relief under the present or any future Federal Bankruptcy Act, or any other present or future applicable Federal, state or other statute or law relating to bankruptcy, insolvency, or other relief for debtors, and such person shall acquiesce in the entry of such order, judgment or decree or such order, judgment or decree shall remain unvacated and unstayed for an aggregate of thirty (30) days (whether or not consecutive) from the date of entry thereof, or any trustee, receiver, conservator or liquidator of such person or of all or any substantial part of its property or its rights under this Agreement shall be appointed without the consent or acquiescence of such person and such appointment shall remain unvacated and unstayed for an aggregate of thirty (30) days (whether or not consecutive); (iii) such person shall admit in writing its inability to pay its debts as they mature; (iv) such person shall give notice to any governmental body of insolvency or pending insolvency, or suspension or pending suspension of operations; or (v) such person shall make an assignment for the benefit of creditors or take any other similar action for the protection or benefit of creditors.

(b) Options.

(i) Upon the Bankruptcy of John C. Carrabba, III ("Johnny Carrabba"), Damian C. Mandola ("Damian Mandola"), or John C. Carrabba, Jr. ("John Carrabba, Jr.") CIGI shall have an option to purchase all of the shares of capital stock of MBI (and any Successor) the bankrupt at his Bankruptcy (the "Bankrupt"), and if such option is exercised, the Bankrupt's estate (or legal representative, as the case may be), shall be obligated to sell to CIGI all of the shares of capital stock of MBI (and any Successor) owned by the Bankrupt (the "Shares").

(ii) In the event the Bankruptcy of both Johnny Carrabba and Damian Mandola occurs within one hundred twenty (120) days of each other, CIGI shall have an option to purchase the entire Royalty Interest owned by MBI, and if such option is exercised, the Bankrupts' estate (or legal representative, as the case may be), shall be obligated to cause MBI to sell to CIGI all of the Royalty Interest owned by MBI.

(c) Limitation. Notwithstanding any contrary provision of this Section 6.6, the purchase options granted to CIGI pursuant to this Section 6.6 shall not apply if, and to the extent, upon the death or Bankruptcy of Johnny Carrabba, Damian Mandola or John Carrabba, Jr., such Bankrupt person's Shares are devised or transferred to one or more persons, all of whom are Permitted Transferees as defined in Sections 6.4(b) and 6.4(c). If either of Johnny Carrabba or Damian Mandola shall become Bankrupt, then within the 120-day period described in Section 6.6(d), the one of Johnny Carrabba or Damian Mandola who is not bankrupt (or if such person is deceased the largest single transferee of his interest) shall have the right to purchase the shares of MBI owned by the Bankrupt and upon such purchase, CIGI shall not have any option to purchase such shares from the Bankrupt or his estate.

(d) Exercise. The purchase options granted in this Section 6.6 are exercisable at any time within one hundred twenty (120) days from the date of qualification of the executor, administrator, trustee, personal representative or other legal representative ("Representative") of the Bankrupt's estate (the "Exercise Period"), and if not exercised within such time period shall lapse. CIGI shall exercise the options by written notice to the Representative of its election to exercise.

(e) Purchase Price. The purchase price to be paid for the Bankrupt's Shares or MBI's Royalty Interest, as the case may be, shall be the Value thereof, determined as provided in Section 6.7 hereof. The purchase price to be paid by CIGI for the Royalty Interest or Shares purchased pursuant to this Section 6.6 shall be paid in cash or immediately available funds at Closing.

(f) Documentation. At the Closing of any purchase pursuant to this Section 6.6, the Representative or MBI, as the case may be, shall execute and deliver to CIGI such documents, affidavits and instruments of conveyance and warranty as are reasonably necessary, in the opinion of counsel for CIGI, to transfer, convey and validly vest in CIGI good, marketable and absolute title to the Royalty Interest or Shares being purchased, free and clear of any lien, claim, pledge, security interest, or other encumbrance of any kind or character whatsoever.

(g) Closing. The Closing for any purchase pursuant to this Section 6.6 shall be held at the principal office of CIGI at a date and time mutually acceptable to CIGI and the Representative, provided that if they are unable to agree on a mutually acceptable date, the Closing shall be held sixty (60) days following final determination of Value pursuant to Section 6.7.

6.7 Value. For purposes of this Article VI only, the term "Value" shall mean the fair market value (i.e., the value at which a willing purchaser and a willing seller would, under normal circumstances, purchase and sell, both cognizant of all relevant factors, and neither being under a compulsion to buy or sell) of the Property in question, as of the date of the notice exercising any right to purchase or sell under this Agreement, determined in the following manner:

(a) Agreement. In the event a determination of Value is required, such determination shall be made by agreement in writing of MBI or the Representative of a Bankrupt, as the case may be, (the "Seller"), on the one hand, and by CIGI (the "Purchaser"), on the other hand.

(b) Procedure. If the persons specified in paragraph (a) of this Section 6.7 fail to agree in writing upon the Value of the property in question within thirty (30) days of the date of any notice given exercising any right to purchase (the "Agreement Period"), then the Value of such property shall be determined as follows, which determination shall be final, binding, and conclusive upon all persons affected by such determination:

(i) The Seller and the Purchaser shall agree upon a mutually acceptable appraiser within ten (10) days following the end of the Agreement Period, or, in the event such persons fail to so agree, two (2) appraisers shall be appointed within fifteen (15) days following the end of the Agreement Period, one by the Seller, and a second by the Purchaser. If the Seller, on the one hand, or the Purchaser, on the other hand, fail to appoint an appraiser within the fifteen (15) day time period specified herein, the sole appraiser appointed within such fifteen (15) day time period shall be the sole appraiser of the Value of the property in question. Each of the Seller and the Purchaser shall promptly provide notice of the name of the appraiser so appointed by such parties, respectively, to the other. A third appraiser, if the initial two appraisers are appointed, shall be appointed by the mutual agreement of the first two appraisers so appointed, or, if such first two appraisers fail to agree upon a third appraiser within twenty (20) days following the end of the Agreement Period, either the Seller or the Purchaser may

demand that appointment of an appraiser be made by the then Director of the Regional Office of the American Arbitration Association located nearest to Tampa, Florida, in which event the appraiser appointed thereby shall be the third appraiser. Each of the three appraisers shall submit to each of the Seller and the Purchaser, within thirty (30) days after all appraisers have been appointed (the "Appraisal Period"), a written appraisal of the Value of the property in question.

(ii) In connection with any appraisal conducted pursuant to this Agreement, the parties hereto agree that any appraiser appointed hereunder shall be given full access during normal business hours to all books, records and files of the parties relevant to a valuation of the property in question.

(iii) If three appraisers are appointed, the Value of the property in question shall be equal to the numerical average of the three appraised determinations; provided, however, that if the difference between any two appraisals is not more than ten percent (10%) of the lower of the two, and the third appraisal differs by more than ten percent (10%) of the lower of the other two appraisals, the numerical average of such two appraisals shall be determinative.

(c) Qualifications. Any appraiser, to be qualified to conduct an appraisal hereunder, shall be an independent appraiser (i.e., not affiliated with the Seller or the Purchaser), who shall be reasonably competent as an expert to appraise the value of the property in question. If any appraiser initially appointed under this Agreement shall, for any reason, be unable to serve, a successor appraiser shall be promptly appointed in accordance with the procedures pursuant to which the predecessor appraiser was appointed.

(d) Time. Notwithstanding the foregoing, if the determination of the Value of the property in question by appraisal is not completed and all appraisal reports delivered as provided for herein within the Appraisal Period, then all closing, payment, and similar dates subsequent thereto shall be automatically extended one (1) day for each day delivery of the appraisal reports is delayed beyond the end of the Appraisal Period.

(e) Costs. The costs of the appraiser appointed by the Seller shall be borne by the Seller. The costs of the appraiser appointed by the Purchaser shall be borne by the Purchaser. The costs of the third appraiser, if any, or the sole appraiser, in the event the Seller and Purchaser mutually agree upon a single appraiser, shall be borne equally by the Seller and the Purchaser.

ARTICLE VII

(b) Power and Authority. MBI has all necessary power and authority, corporate and otherwise, to (i) conduct its businesses as presently conducted, (ii) execute and deliver this Agreement and all other agreements required to be executed and delivered pursuant to this Agreement, and (iii) consummate the transactions provided for herein and therein.

(c) Due Authorization. The execution and delivery of this Agreement and the consummation of the transactions contemplated herein have been duly authorized by all necessary corporate action on the part of MBI, and this Agreement constitutes the valid and legally binding agreement of MBI enforceable in accordance with the terms hereof.

(d) Conflicts; Defaults. Neither the execution and delivery of this Agreement by MBI, nor the performance of its obligations hereunder, will violate, conflict with or constitute a default under, or result in the acceleration of any obligation under the Articles of Incorporation or Bylaws of MBI, nor any indenture, mortgage, agreement, contract, lien, instrument, permit, deed, lease, order, judgment, decree or other restriction or agreement to which MBI's assets are bound, and will not constitute an event which, after notice or lapse of time or both, will result in such violation, conflict, default or acceleration. The execution and delivery of this Agreement by MBI, and the performance by it of the transactions contemplated hereby, will not, except as specifically authorized herein, result in the creation or imposition of any liens or other rights, whether legal or equitable, in any third person or entity upon or against any of MBI's assets or against MBI, and will not violate any law, judgment, decree, order, rule or regulation (collectively "Law") of any governmental authority applicable to MBI or its assets.

(e) Legal Proceedings. Except for personal injury claims resulting from the operation of the Restaurants in the ordinary course of business, there is no litigation, action, suit, investigation, claim or proceeding (collectively "Litigation") pending or, to their best knowledge, threatened against MBI or affecting MBI's assets or the System. To the best knowledge of MBI, no condition, event, fact or circumstance exists which could give rise to such Litigation.

(f) Consents. With respect to the transaction contemplated by this Agreement, no consent, waiver, approval or authorization of or declaration or filing with, any governmental agency or authority or other public persons or entities is required in connection with execution or delivery by MBI of this Agreement or the consummation by MBI of the transactions contemplated hereby, the failure of which to be obtained would have a material adverse effect on the ability of MBI to consummate the transactions contemplated hereby.

(g) Ownership of MBI. Johnny Carrabba and Damian Mandola are the sole shareholders and sole directors of MBI. Johnny Carrabba and Damian Mandola each own

500 shares of Class A voting common stock in each of CI and CWI. The only other shareholder of the Carrabba Entities is John Carrabba, Jr., who owns One Hundred Eleven (111) shares of Class B Non-Voting common stock in each of CI and CWI.

(h) Ownership of the System. As of the date hereof, MBI is the sole owner of the System and all elements, characteristics and property thereof, and all goodwill associated therewith. Except for rights specifically granted pursuant to this Agreement, the CI License Agreement, the CWI License Agreements, the Florida License Agreement and the Joint Venture License Agreement, none of the Carrabba Entities or the Principals have any right, title, interest or claim in or to the System or any element, characteristic or property thereof, nor any goodwill associated therewith. Upon execution and delivery hereof, CIGI shall be the sole owner of the System and Proprietary Marks and all elements, characteristics and properties thereof, and all goodwill associated therewith, and no other person or entity shall have any right or claim thereto except pursuant to and as provided in the CI License Agreement, the CWI License Agreement, the Florida License Agreement and the Joint Venture License Agreements.

(i) Miscellaneous. No representation or warranty by the Carrabba Entities under this Agreement and no statement made by the Carrabba Entities in any closing document delivered pursuant to this Agreement contains or will contain any untrue statement of a material adverse fact or omits or will omit to state a material adverse fact necessary to make any such representation or warranty or statement not misleading.

7.2 Representations and Warranties. Each Outback Entity represents and warrants to the Carrabba Entities and the Principals as follows:

(a) Organization and Standing. CIGI is a corporation duly organized and existing in good standing under the laws of the State of Florida; Outback is a corporation duly organized and existing in good standing under the laws of the State of Delaware; and each has all necessary power to own its property and to carry on its business as presently conducted.

(b) Power and Authority. CIGI and Outback have all necessary power and authority, corporate and otherwise, to (i) conduct their businesses as presently conducted, (ii) execute and deliver this Agreement and all other agreements required to be executed and delivered pursuant to this Agreement, and (iii) consummate the transactions provided for herein and therein.

(c) Due Authorization. The execution and delivery of this Agreement, and the consummation of the transactions provided for herein, have been duly authorized by all necessary corporate action on the part of the Outback Entities and Outback. This Agreement constitutes the legally binding agreement of the Outback Entities and Outback, enforceable in accordance with its terms.

(d) Conflicts; Defaults. Neither the execution and delivery of this Agreement nor the consummation of any transaction herein contemplated is an event which of

itself, or with the giving of notice or the passage of time, or both, would constitute a violation of, conflict with or result in a breach of, or constitute a default under the Articles of Incorporation or Bylaws of the Outback Entities or any of the terms, conditions or provisions of any indenture, mortgage, lien, lease, agreement, contract, instrument, order, judgment, decree, or other restriction or agreement or instrument to which the Outback Entities or any subsidiary or affiliate of the Outback Entities is now a party or by which it is bound, or result in the creation or imposition of any lien, charge or encumbrance of any kind upon the property or assets of the Outback Entities or any subsidiary or affiliate of the Outback Entities pursuant to the terms of any such agreement or instrument.

(e) Consents. With respect to the transactions contemplated by this Agreement, no consent, waiver, approval, license or authorization of, or declaration or filing with, any governmental agency or authority or other public persons or entities is required in connection with execution or delivery by the Outback Entities of this Agreement or the consummation by the Outback Entities of the transactions contemplated hereby, the failure of which to be obtained would have a material adverse effect on the ability of the Outback Entities to consummate the transactions contemplated hereby.

(f) Miscellaneous. No representation or warranty by the Outback Entities under this Agreement and no statement made by the Outback Entities in any closing document delivered pursuant to this Agreement contains or will contain any untrue statement of a material fact or omits or will omit to state a material fact necessary to make any such representation or warranty or statement not misleading.

ARTICLE VIII
SURVIVAL, INDEMNIFICATION AND REMEDIES

8.1 Survival of Representations and Warranties. All representations, warranties and covenants made or given by the parties in this Agreement shall survive the consummation of all transactions contemplated herein, and shall continue in force throughout the term of this Agreement.

8.2 Indemnification by the Carrabba Entities. Each of the Carrabba Entities shall be obligated, jointly and severally, to indemnify the Outback Entities against, hold the Outback Entities harmless from, and reimburse the Outback Entities for, any and all claims, loss, damages, costs and expenses, including, without limitation, reasonable attorneys' fees, court costs (whether at trial or appeal, in arbitration, or otherwise) and the costs and expenses of investigation (collectively, "Liability" or "Liabilities," as appropriate), incurred by the Outback Entities and which arise out of or in connection with: (i) any breach by any of the Carrabba Entities of any representation or warranty made by the Carrabba Entities and contained in this Agreement.; or (ii) any failure by the Carrabba Entities to perform any covenant or agreement of the Carrabba Entities contained in this Agreement.

8.3 Indemnification by the Outback Entities. The Outback Entities shall indemnify the Carrabba Entities against, hold the Carrabba Entities harmless from, and reimburse the Carrabba Entities for, any and all Liabilities, as defined in Section 8.2 hereof, incurred by the Carrabba Entities and which arise out of or in connection with: (i) any breach by the Outback Entities of any representation or warranty of the Outback Entities contained in this Agreement; or (ii) any failure by the Outback Entities to perform any covenant or agreement of the Outback Entities contained in this Agreement.

8.4 Indemnification Procedures. In case any claim or proceeding (including, without limitation, any claim, investigation or proceeding by any governmental authority) shall be instituted affecting any indemnified person in respect of which indemnity will be sought pursuant to Section 8.2 or Section 8.3 hereof, such indemnified person shall promptly (considering the circumstances) notify the indemnifying person in writing, and the indemnifying person, within thirty (30) days following such notification from the indemnified person, shall retain counsel reasonably satisfactory to the indemnified person (which satisfaction shall not be unreasonably delayed, withheld or conditioned) to represent the indemnified person and any others the indemnifying person may designate in such proceeding, and shall pay the fees and disbursements of such counsel related to such proceeding. In any such proceeding, any indemnified person shall have the right to retain its own counsel, but the fees and disbursements of such counsel shall be at the expense of such indemnified person unless: (i) the indemnifying person shall have failed to retain counsel for the indemnified person as required herein; or, (ii) counsel retained by the indemnifying person for the indemnified person would be inappropriate due to actual or potential differing interests between such indemnified person and any other person represented by such counsel in such proceeding. It is understood that the indemnifying person shall not, in connection with any proceeding or related proceedings in the same jurisdiction, be liable for the fees and disbursements of more than one separate firm qualified in such jurisdiction to act as counsel for the indemnified person. The indemnifying person shall not be liable for any settlement of any proceeding effected without its written consent, but, if settled with such consent, or upon a final judgment for the plaintiff, the indemnifying person shall, to the extent required pursuant to the terms of this Article VII, indemnify the indemnified person from and against any and all Liabilities by reason of such settlement or judgment. The indemnified person shall also have the right to consent in writing in advance of any such settlement, but such consent shall not be unreasonably withheld. If any third-party claim is made for which indemnification is asserted hereunder (a "Third-Party Claim"), or in the event any claim for indemnification is made directly by one party against the other (a "Direct Claim"), in the event such Third-Party Claim or Direct Claim is unsuccessful, the party against whom such claim for indemnification is made shall be entitled to recover from the party claiming a right to indemnification all Liabilities incurred by the party against whom such claim for indemnification is made in the defense of such Third-Party Claim or Direct Claim for indemnification. No pre-proceeding settlement of any item which will give rise to a claim for indemnification hereunder shall be effected in the absence of the prior written consent of the indemnifying person, which consent shall not be unreasonably withheld.

8.5 Remedies.

(a) The parties agree that the remedies available for any breach, default or invalidity or unenforceability of any representation, warranty, covenant or agreement contained in this Agreement shall be limited to one or more of: (i) monetary damages, (ii) declaratory relief, (iii) specific performance or (iv) other injunctive relief. Except in the case of actions seeking a declaration that this Agreement is terminated in accordance with the terms of Section 9.1, in no event shall the Outback Entities be entitled to a remedy which allows an Outback Entity to retain ownership of the System but terminates the obligation to pay royalties as provided in Article III (however, an offset of damages against royalties due or to become due shall be allowed). In no event shall the Carrabba Entities be entitled to a remedy which divests CIGI of ownership of the System or any element thereof, or which imposes any significant limitation on CIGI's absolute ownership rights to the System, or which grants any Carrabba Entity or any third party any rights to use the System or elements thereof except pursuant to existing Licensing Agreements, except for MBI's reversion rights under this Section 8.5.

(b) The parties acknowledge and agree that MBI's transfer and conveyance of the System to CIGI pursuant to Article II hereof constitutes the sole consideration for CIGI's (and its successors and assigns) obligations to pay royalties pursuant to Article III hereof. In accordance with the foregoing, from and after the date of this Agreement, CIGI's obligations to pay royalties pursuant to Article III hereof shall in no respect be conditioned upon the performance by MBI of any further act; and all obligations and covenants of MBI and the Carrabba's Entities hereunder constitute covenants and agreements that are independent of CIGI's obligations to pay royalties pursuant to Article III hereof (subject to CIGI's right of offset referred to in (c) below).

(c) In furtherance of the foregoing, in the event that notwithstanding the express intention and agreement of the parties as set forth herein, CIGI or any trustee for CIGI in bankruptcy or other representative, successor or assign of CIGI should ever obtain any court order, judgment, or ruling in any bankruptcy, receivership or other insolvency proceeding of which CIGI is the subject, or any other proceeding, permanently terminating CIGI's obligation to pay royalties when and as due pursuant to Article III hereof (but not including any temporary abatement during violation of non-competition covenants or as offset against damages), including as a result of a rejection of this Royalty Agreement as an executory contract or a discharge of such obligations or otherwise, the System, and all ownership rights therein shall immediately revert to and become the property of MBI and CIGI or such other party shall immediately take all steps necessary to effect such retransfer and reconveyance.

(d) If Licensor shall be delinquent in the payment of any amount (excluding bona fide amounts in controversy) (and not including any temporary abatement by reason of offset during violation of non-competition covenants or as offset against other damages) payable under Article III hereof for more than six months and either (i) Licensor or any of its Affiliates has granted to any party any interest in any revenues or assets of CIGI, any other Outback Entity or any Restaurant that is by its terms prior in right to payment to, or

otherwise prevents MBI's realization of, MBI's rights to receive royalties under Article III as due under this Agreement (excluding a mortgage, security interest or other encumbrance with respect to debt-financed assets (other than the System and elements thereof) which is granted to the lender who provided the funds to acquire such assets) or (ii) Licensor fails to commence and thereafter diligently pursue the termination of all license, franchise or other rights to use the System of any party that is three months or more delinquent in payment of royalties due from it (other than immaterial delinquencies resulting from miscalculations or oversights made in good faith), then in either such event the System and all ownership rights therein shall immediately revert to and become the property of MBI, and CIGI or such other party shall immediately take all steps necessary to effect such retransfer and reconveyance.

(e) CIGI will cooperate with MBI and take such actions as MBI shall reasonably request to grant and perfect a security interest to MBI to secure its reversionary interest in the System as specified in this Section 8.5.

8.6 Failure to Develop System. If (i) CIGI or any of its Affiliates publicly states that it no longer intends to increase the number of Restaurants or (ii) during any twelve consecutive calendar months, no new Restaurants become subject to the payment of royalties hereunder (except that if a Restaurant was reasonably scheduled to open during such twelve- month period but the opening of the Restaurant was delayed by circumstances beyond CIGI's control, then such Restaurant shall be treated as having been subject to the payment of royalties as of the date it was reasonably scheduled to open, provided that the Restaurant must actually become subject to the payment of royalties within one hundred eighty (180) days of the date it was reasonably scheduled to open), then (x) MBI (or any entity controlled by MBI, Johnny Carrabba or Damian Mandola) shall be permitted to own and operate Restaurants utilizing the System, (y) CIGI shall grant to the entity owning such Restaurants a no-fee license in substantially the same form as the Amended and Restated Licensing Agreement between CIGI and Carrabba's Inc. executed the date hereof which will enable the entity to utilize the System and (z) the first proviso of Section 5.2 of this Agreement shall not be applicable. Further, any restriction in any other agreement among all or some of the parties hereto which would restrict the ability of MBI, Johnny Carrabba or Damian Mandola to utilize this Section 8.6 shall be inapplicable to any of the activities permitted under this Section 8.6.

ARTICLE IX
TERMINATION; CONVERSION

9.1 Term. The term of this Agreement shall commence upon execution of this Agreement and shall continue in full force and effect until termination. This Agreement shall terminate upon the first to occur of: (i) agreement of CIGI and MBI (or their respective successor in interest) to terminate this Agreement or (ii) conversion of MBI's royalty rights pursuant to Section 9.2. Upon termination of this Agreement as a result of conversion of MBI's royalty rights pursuant to Section 9.2, Outback shall retain all ownership rights to the System, and all other obligations of the parties under this Agreement shall terminate (including all obligations to pay royalties) except for obligations which by their express terms continue in force beyond expiration or termination of this Agreement.

9.2 Conversion. In the event CIGI, or any successor to CIGI as owner of the System, determines to make an initial public offering of any class of its capital stock pursuant to a registration statement filed under the Securities Act of 1933, as amended (or any successor law), CIGI (or its successor) shall give prompt written notice thereof to MBI and shall provide MBI with such information as is then available to CIGI regarding the terms of the proposed offering. The Carrabba Entities agree to keep all such information confidential. CIGI shall promptly arrange a meeting among CIGI, MBI and the managing underwriter of the proposed offering.

At such meeting, CIGI, MBI and the managing underwriter shall attempt in good faith to establish the value of MBI's royalty rights immediately prior to the proposed offering. For a period of five business days following such meeting, MBI shall have the right (but not the obligation), exercisable by written notice which must be received by CIGI prior to 5:00 p.m. eastern time on the fifth business day, to convert its royalty rights under this Agreement into newly issued capital stock of CIGI (or its successor) of the same class as is to be sold in the proposed initial offering. MBI shall receive a number of shares of capital stock which have a value (based on the proposed initial offering price to the public) equal to the value of MBI's royalty rights as agreed upon by the parties, subject to no commission or other deduction.

This conversion option is a one-time only option available only in connection with CIGI's (or its successor's) initial public offering of any class of capital stock. If not timely exercised as provided in the preceding paragraph this conversion option shall forever lapse.

ARTICLE X
MISCELLANEOUS

10.1 Severability. Each section, subsection and lesser section of this Agreement constitutes a separate and distinct undertaking, covenant or provision hereof. In the event that any provision of this Agreement shall be determined to be invalid or unenforceable, such provision shall be deemed limited by construction in scope and effect to the minimum extent necessary to render the same valid and enforceable, and, in the event such a limiting construction is impossible, such invalid or unenforceable provision shall be deemed severed from this Agreement, but every other provision of this Agreement shall remain in full force and effect.

10.6 Entire Agreement. **A CONTRACT IN WHICH THE AMOUNT INVOLVED EXCEEDS FIFTY THOUSAND AND NO/100 DOLLARS ($50,000.00) IN VALUE IS NOT ENFORCEABLE UNLESS THE AGREEMENT IS IN WRITING AND SIGNED BY THE PARTY TO BE BOUND OR BY THAT PARTY'S AUTHORIZED REPRESENTATIVE. THE RIGHTS AND OBLIGATIONS OF THE PARTIES HERETO SHALL BE DETERMINED SOLELY FROM WRITTEN AGREEMENTS, DOCUMENTS AND INSTRUMENTS, AND ANY PRIOR ORAL AGREEMENTS BETWEEN THE PARTIES ARE SUPERSEDED BY AND MERGED INTO SUCH WRITINGS. The parties acknowledge that each party and its counsel have reviewed and revised this Agreement and that the normal rule of construction to the effect that any ambiguities are to be resolved against the drafting party shall not be employed in the interpretation of this Agreement.

10.8 Modification; Waiver. This Agreement shall not be modified except by an instrument in writing duly signed on behalf of the party against whom enforcement of such modification is sought. No waiver of any provision of this Agreement shall be effective unless in writing and similarly signed, nor shall any failure of any party to enforce any right or remedy hereunder be deemed a waiver of such right or remedy for the future in the same or any situation.

10.9 Captions. Captions have been inserted in this Agreement for reference only and shall not limit or otherwise affect any of its terms and provisions.

10.10 Enforcement. In the event it becomes necessary for any party to institute legal proceedings or to retain the services of an attorney to enforce, interpret or construe any provision hereof, the prevailing party shall be entitled to collect from the non-prevailing party, in addition to other remedies, all costs of such enforcement or legal proceedings, including reasonable attorneys' fees and including appellate proceedings, regardless of whether suit is filed.

10.11 Counterparts. This Agreement may be executed concurrently in one or more counterparts, each of which shall be deemed an original and all of which together shall constitute one and the same instrument.

Exhibit 10.7

JOINT VENTURE AGREEMENT

Article I. Introduction

This Agreement is entered into as of June 17, 1999, among RY-8, Inc., a Hawaii corporation (being a wholly owned subsidiary of Roy's Holdings, Inc., a Hawaii corporation) ("Roy's") and OS Pacific, Inc., a Florida corporation (being a wholly owned subsidiary of Outback Steakhouse, Inc., a Delaware corporation) ("Outback") for the purpose of carrying on a joint venture. The name of the joint venture shall be "Roy's/Outback Joint Venture."

Article II. Purpose of Joint Venture

The purpose of the joint venture shall be to develop, own and operate throughout the world (excluding Hawaii, Japan, Guam and certain markets in the United States where there are existing franchisees as of the date hereof to the extent such franchisees have been granted exclusive territories) a chain of casual, fine dining restaurants featuring Pacific Rim cuisine, the culinary style and concept having been originally developed by Chef Roy Yamaguchi and Hawaiian Pacific Restaurant Group, Inc. (a wholly owned subsidiary of Roy's Holdings, Inc.), and which are commonly referred to as "Roy's," followed by a geographic tag, e.g., Roy's at Pebble Beach, Roy's Scottsdale and Roy's Bonita Springs (the "Restaurants" or "Restaurant").

Article III. Duties of Parties

3.1. General Duties

Each Joint Venturer will devote such time and efforts as may be reasonably necessary to develop, own and operate as many Restaurants as are viable and feasible in the shortest period of time, provided, however, that (i) the quality of each new Restaurant and all existing Restaurants shall not be impaired, and (ii) mutually agreed upon rates of return are achieved.

3.2. Exclusive and Primary Obligations

3.2.1 Exclusive Obligations

Each Joint Venturer agrees that neither one shall engage in any activities that would conflict with the operations and business purpose of the Joint Venture. Notwithstanding the foregoing, the preceding sentence shall not be construed in any way to limit Outback's ability to expand its existing chain of Outback Steakhouse restaurants, nor to limit Outback's ability to acquire, invest in or otherwise be involved with other casual, fine dining concepts (or any other restaurant concepts) as long as such concepts are not considered to

feature Pacific Rim or Euro-Asian cuisine and Outback's involvement with such other concepts does not materially impair the growth and viability of the Joint Venture. Similarly, said first sentence shall not be construed in any way to limit Roy's ability to own and operate its existing Roy's restaurants in Hawaii and Denver (including reopening any existing restaurant that should close), nor to limit its activities as franchisor in relation to the existing Roy's franchises as of the date hereof and any renewals and extensions thereof. As to any new franchisees and locations worldwide (except as aforesaid), only the Joint Venture may grant the same. The rights and obligations of the Joint Venturers under this Section 3.2.1 shall extend to their affiliated companies ("Affiliates"). "Affiliates" mean a parent company, brother-sister company, subsidiary or other company in which the Joint Venturer's parent company or the Joint Venturer owns or controls over 50% of the voting interests of said company.

The parties acknowledge and agree that Roy Yamaguchi ("RY"), in his individual capacity, is free to pursue other business opportunities other than restaurant concepts, such as writing books, personal appearances (TV and other media) and any product endorsements which do not impair the image of the Restaurants. Any restaurant concept that RY wishes to be involved with must first be presented to the Joint Venture and only if the Joint Venture declines to become involved, then RY may pursue such opportunity, provided his involvement does not materially impair the growth and viability of the Joint Venture, as determined by the Joint Venture in its reasonable discretion. Notwithstanding the foregoing, RY agrees to exert his time, efforts and skill in such reasonable amounts as may be necessary to maximize the success and growth of the Joint Venture and the Restaurants.

3.2.2 Roy's Primary Duties and Obligations

Roy's shall be primarily responsible for consulting with the President regarding the training, development and supervision of all Joint Venture executive level and Restaurant managerial level employees relating to the quality and integrity of the Roy's concept to be sure it is being properly executed, maintained and enhanced, including but not limited to, developing the schematic and conceptual drawings for each Restaurant for approval by the Joint Venture, recommending to the Joint Venture for approval the appropriate "corporate" operations executives who will possess the necessary knowledge and skill to train the Restaurant managerial employees concerning the proper execution of the Roy's concept, hiring and firing of the executive chef, sous chef and pastry chef, training and supervision of said chefs, control over menu and recipe development, control over kitchen design, control over wine lists and training and supervision of the general manager and assistant managers. Notwithstanding the foregoing, the parties acknowledge and agree that the day-to-day implementation of the foregoing duties and obligations will be delegated to the President of the Joint Venture, as provided for in Section 8.1, below, except that said President and the Joint Venturers will recognize and give due consideration to the unique and specialized knowledge and skill of each Joint Venturer in its respective area of primary duties and obligations.

3.2.3 Outback's Primary Duties and Obligations

Outback shall be primarily responsible for consulting with the President regarding the training, development and supervision of all Joint Venture executive level and Restaurant managerial employees relating to the administrative, financial and other aspects of the Restaurants that do not materially impair the quality and integrity of the food and customer service at the Restaurants or the Roy's concept, including but not limited to, conducting preliminary site selection and negotiations with landlords, preparing development and operating budgets for approval by the Joint Venture, selection of and negotiations with the contractor(s) for the construction of each Restaurant, hiring and firing of the bookkeeper for each Restaurant, establishment of accounting and cash control policies and procedures, selection of and negotiation with all liability, property, health and workers' compensation insurers, preparation of all operating and financial statements for each Restaurant and the Joint Venture, preliminary selection of the general manager and assistant managers for each Restaurant for approval by the Joint Venture, and recommending to the Joint Venture for approval the appropriate general and administrative staff (executive, managerial and non-managerial) to support the Restaurants and the Joint Venture. Notwithstanding the foregoing, the parties acknowledge and agree that the day-to-day implementation of the foregoing duties and obligations will be delegated to the President of the Joint Venture, as provided for in Section 8.1, below, except that said President and the Joint Venturers will recognize and give due consideration to the unique and specialized knowledge and skill of each Joint Venturer in its respective area of primary duties and obligations.

Article IV. Contributions/Liabilities

4.1. Nature and Amount of Contributions

The amount and nature of the contributions of each Joint Venturer are as follows:

Outback	$1,000,000 cash
Roy's	$1,000,000 cash

In addition to the foregoing, Roy's shall grant or cause to be granted to the Joint Venture a royalty-free master license for the exclusive use in the world of the service mark "Roy's" and the Roy's system and shall contribute the services specified in Article III, above. Such license, however, shall expressly reserve unto Roy's the right to continue use and licensing of the service mark in connection with its existing Hawaii and franchise operations. Attached hereto as Exhibit "A" is a list of said existing Hawaii and franchise operations.

In addition to the foregoing, Outback agrees to cause its parent company, Outback Steakhouse, Inc. to provide the Joint Venture with financial guarantees for up to 50% of any debt of the Joint Venture where such guarantees will be beneficial to the Joint Venture, including but not limited to, Restaurant premises leases, any promissory notes or other indebtedness of the Joint Venture, and any lease for furniture, fixture and equipment. Outback shall also contribute the services described in Article III, above.

If any Joint Venturer fails to make that Joint Venturer's contribution within the time specified in this Agreement, the nondefaulting Joint Venturer shall have the right to enforce any and all remedies available at law or in equity, including but not limited to, rescinding this Agreement, seeking injunctive relief and/or recovering damages.

4.4. Subsequent Capital Contributions

In no event shall any Joint Venturer be obligated to make any additional capital contributions, except as otherwise expressly provided herein.

4.5. Interest on Capital Contributions

No Joint Venturer shall receive, or be entitled to receive, interest on its contributions to the capital of the Joint Venture

4.6 Liabilities

4.6.1. Liability for Certain Obligations

The parties acknowledge that the Joint Venture will incur certain material long term obligations, including, without limitation, liability as lessee under leases for Restaurant premises and liability on loans. Roy's and Outback covenant and agree that as to any debt, liability, or obligation of the

Joint Venture, including, without limitation, the liabilities described in the preceding sentence, Roy's and Outback shall each be proportionately liable to the third party creditor for only up to fifty percent (50%) of amounts outstanding under such obligations and shall not be jointly and severally liable therefor.

4.6.2. Documentation

Roy's and Outback covenant and agree that all documentation evidencing the Joint Venture's material, long term obligations, including, without limitation, a Restaurant premises lease, any promissory notes, and any lease for furniture, fixture and equipment, shall limit the liability of each of Roy's and Outback to proportionately fifty percent (50%) of any amounts outstanding under such obligations and shall specifically state that Roy's and Outback shall not be individually liable for the entire amount thereof, nor jointly and severally liable therefor.

4.6.3 Indemnification

Roy's and Outback each hereby indemnify and hold each other harmless from and against any liability, claim, damage, action or obligation for any material long term obligation of the Joint Venture, including, but not limited to, the liabilities described herein, in excess of fifty percent (50%) of amounts outstanding under such obligations.

Article V. Ownership of Venture Property

5.1. Title to Property

All property of the Joint Venture shall be held in the name of the Joint Venture.

5.2. Interest in Property

Except as provided below, the beneficial interest of each party in Joint Venture property, unless changed pursuant to the terms of this Agreement, shall be as follows: Fifty percent (50%) Roy's and Fifty percent (50%) Outback.

5.3 Interest in Recipes

All recipes developed by the Joint Venture shall be owned by the Joint Venture. All recipes developed by Roy's shall be owned by Roy's. Any recipes developed through the collaborative efforts of Roy's and the Joint Venture, shall be owned jointly by Roy's and the Joint Venture. During the continued existence of the Joint Venture, Roy's and the Joint Venture agree to license to the other use of each other's recipes.

Article VI. Term

The term of the Joint Venture will commence on the date first indicated above and shall terminate as provided in Article X, below.

Article VII. Distributions; Allocation of Profits and Losses

7.1. Division or Share of Profits

Any profits of the Joint Venture shall be allocated among the Joint Venturers in the following percentages unless that percentage is changed pursuant to the terms of this Agreement:

Roy's	50%
Outback	50%

7.2. Calculation of Profits

For the purposes of this Agreement, the profits of the Joint Venture shall be calculated as follows:

(a) The expenses of conducting the Joint Venture shall be deducted from the income of the Joint Venture. The expenses of conducting the Joint Venture shall include all expenses customarily incurred by businesses similar to the Joint Venture.

(b) In regards to the San Francisco, San Diego and Dallas Restaurants, after the payment of expenses as described above and retention of adequate operating and capital reserves, Roy's and Outback shall each be entitled to receive equal distributions of any remaining available cash. As to all other Restaurants, the parties agree that except for distributions necessary to enable each party to pay their respective income tax obligations, all available cash from operations shall be reinvested into new Restaurants.

7.3. Apportionment or Share of Loss

Should a loss be sustained by the Joint Venture, the parties shall bear the loss in the same percentages as profits.

7.4. Computation of Loss

In computing any loss as between the parties, deductions shall be made from any assets remaining in the same manner as computing profits in 7.2, that is, deductions shall first be made to pay expenses, and any remaining sums shall be allocated on a pro rata percentage basis to contributions, as set forth in

11.1 Put Options in Favor of Roy's

Roy’s shall have the right to require Outback to purchase up to 25% of Roy’s interests in the Joint Venture at anytime after the 5th anniversary of the effective date hereof. Additionally, at anytime after the 10th anniversary of the effective date hereof, Roy’s shall have the right to require Outback to purchase up to another 25% (total 50%) of Roy’s interests in the Joint Venture. The percentage interest in the entire Joint Venture being sold under these put options is referred to herein as the “Put Percentage”. The purchase price to be paid by Outback shall be equal to the fair market value of the Joint Venture as of the date Roy’s exercises its put option, multiplied by the Put Percentage.

11.2 Exercise of Put Options

11.2.1 Exercise Notice

Upon Roy’s exercising its put options, it shall give Outback written notice thereof. The written notice (the “Exercise Notice”) shall state the proposed fair market value of the Joint Venture, a detailed explanation of the valuation methodology and supporting information utilized by Roy’s in arriving at said fair market value and the Put Percentage.

11.2.2 Answering Notice

Within five (5) business days after receipt of such notice by Outback, it shall advise Roy’s in writing (the “Answering Notice”) if Outback either : (a) agrees with such valuation, or (b) disagrees with such valuation, in which case Outback shall propose its own valuation and a detailed explanation of the valuation methodology and supporting information utilized by Outback in arriving at its proposed value.

11.2.3 Responding Notice

Within five (5) business days after Roy’s receives the Answering Notice, Roy’s shall respond to Outback in writing (the “Responding Notice”) stating either: (a) Roy’s agreement with Outback’s valuation, or (b) Roy’s disagreement with such valuation and any revised value.

11.2.3 Resolution of Disputed Value by Wise Man

In the event Roy’s and Outback fail to reach agreement on the valuation of the Joint Venture within ten (10) business days following Outback’s receipt of the Responding Notice, then the value shall be determined by the Wise Man, who shall be limited to selecting either of the values most recently proposed in writing by Roy’s or Outback in the Exercise Notice, Answering Notice and/or Responding Notice. The Wise Man shall be empowered to engage such consultant(s) as he deems reasonable and prudent, at the expense of the Joint Venture, to assist him in selecting which of the two most recently proposed values best

represents the fair market value of the Joint Venture. The Wise Man shall notify each party in writing of his decision no later than twenty (20) days after the matter has been submitted to him. Upon the Wise Man rendering his written decision, the value established by said decision shall be final and binding upon Roy's and Outback.

11.2.4 Payment of Purchase Price

The purchase price shall be equal to the fair market value of the Joint Venture, as established by mutual agreement or by the decision of the Wise Man, multiplied by the Put Percentage. Within ten (10) business days after the purchase price is finally established, Outback shall pay Roy's the applicable purchase price in either cash or unrestricted Outback common stock or any combination of both. The term "unrestricted Outback common stock" means that there shall be no limitations or restrictions on Roy's ability to sell all of said stock on the stock exchange handling the buying and selling of such stock contemporaneously upon receipt of such stock.

11.3 Outback Right to Void Exercise of Option if Acquisition of Put Percentage is Dilutive

Notwithstanding the foregoing, in the event the final purchase price has the effect, upon Outback's acquisition of the Put Percentage at such price, of diluting the earnings per share for the next 12 months of Outback, Outback shall have the option of voiding Roy's exercise of its put option, which must be exercised by written notice to Roy's of Outback's election to void said exercise (the "Void Notice") prior to the expiration of the 10-day period to pay the purchase price. The purchase price will be considered to dilute the earnings per share of Outback if the accounting effect of the transaction, determined in accordance with generally accepted accounting principles, would cause a reduction in pro forma Basic Earnings Per Share and/or Diluted Earnings Per Share (or an increase in Net Loss Per Share) calculated in accordance with SFAS No. 128 "Earnings Per Share" for the 12 months following the purchase. Upon Roy's receipt of the Void Notice, Roy's may elect to accept a lower purchase price which has the effect of eliminating said dilutive effects of Outback's acquisition, which election must be exercised by written notice to Outback within five (5) business days after receipt of the Void Notice (the "Lower Price Notice"). Outback shall pay Roy's said lower purchase price amount in cash, stock or any combination thereof as aforesaid, within ten (10) business days after receipt of the Lower Price Notice.

11.4 Maximization of Value

The Joint Venturers agree that from time to time, they shall evaluate in good faith all available options to the Joint Venture to maximize the value of each Joint Venturer's ownership interests in the Joint Venture, such as but not limited to, an initial public offering, strategic sale or merger into Outback Steakhouse, Inc.

Article XII. Assignment

No Joint Venturer may assign its rights and obligations hereunder due to the unique expertise and qualifications of the Joint Venturers. It shall be permissible, however, to assign or pledge as collateral either Joint Venturer's interest in profit distributions and/or Roy's put options.

Article XIII. Arbitration

Any dispute arising under this Agreement, or under any instrument made to carry out the terms of this Agreement, shall be submitted to arbitration in accordance with the commercial dispute arbitration rules of the American Arbitration Association. The venue and situs for such arbitration proceedings shall be San Francisco, California.

Article XIV. Notices

All notices to the Joint Venturers pursuant to this Agreement shall be in writing and shall be deemed effective when given by personal delivery or by certified mail, express delivery service, or facsimile transmission.

Article XV. Applicable Law

To the extent not otherwise provided in the Agreement, the terms of this Joint Venture and the relationship of the Joint Venturers to each other shall be governed by the provisions of the Florida Uniform Partnership Act, and any amendments or successor statute to that Act.

Article XVI. Amendments

This Agreement may be amended only by the written agreement of all of the Joint Venturers.

Article XVII. Condition Subsequent

As a condition subsequent to each Joint Venturer's obligations under the Agreement, the Joint Venture must secure a credit facility for not less than $20 million dollars from a reputable lending institution on terms and conditions satisfactory to the Joint Venture to be used to finance the business purpose of the Joint Venture. If the Joint Venture is unable to secure such a credit facility within 90 days following the effective date hereof, either party may terminate the Agreement upon prior written notice to the other. Upon such termination, each party shall be released and discharged from any and all obligations under this Agreement.

Article XVIII. Tax Related Provisions

18.1 Composition of Capital Accounts

A separate capital account shall be maintained by the Joint Venture for each Joint Venturer in accordance with Section 704(b) of the Internal Revenue Code of 1986, as amended (the "Code"), and Treasury Regulations promulgated thereunder. There shall be credited to each Joint Venturer's capital account (i) the amounts of money contributed by it to the Joint Venture, (ii) the fair market value of property contributed by it to the Joint Venture (net of liabilities secured by such contributed property that the Joint Venture is considered to assume or take subject to under Section 752 of the Code), and (iii) allocations to it of Joint Venture income and gain (or items thereof), including income and gain exempt from tax, as computed for book purposes, in accordance with Treasury Regulation Section 1.704-1(b)(2)(iv)(g), as set forth pursuant to Article VII of this Agreement. Each Joint Venturer's capital account shall be decreased by (i) the amount of money distributed to it by the Joint Venture, (ii) the fair market value of property distributed to it by the Joint Venture (net of liabilities secured by such distributed property that such Joint Venturer is considered to assume or take subject to pursuant to Section 752 of the Code), (iii) allocations to such Joint Venturer of expenditures of the Joint Venture described in Section 705(a)(2)(B) of the Code, and (iv) allocations of Joint Venture loss and deduction (or items thereof), including loss or deduction, computed for book purposes, as described in Treasury Regulation Section 1.704-1(b)(2)(iv)(g), as set forth pursuant to Article VII of this Agreement.

18.2 Adjustments to Tax Basis

In the event of adjustment to the adjusted tax basis of Joint Venture property under Code Sections 732, 734 or 743, the capital accounts of the Joint Venturers shall be adjusted to the extent provided in Treasury Regulation Section 1.704-1(b)(2)(iv)(m).

18.3 Income Tax Elections

In the event of a distribution of property made in the manner provided under Section 734 of the Code, or in the event of a transfer of any Joint Venture Interest permitted by this Agreement made in the manner provided in Section 743 of the Code, Outback, on behalf of the Joint Venture, may, but shall not be required to, file an election under Section 754 of the Code in accordance with the procedures set forth in the applicable regulations promulgated thereunder.

18.4 Audits of Income Tax Returns

(a) Appointment of Tax Matters Partner. The tax matters partner (the "TMP"), as referred to in Code Section 6231(a)(7), for the Joint Venture shall be Outback.

(b) Employment of Advisors. The TMP shall employ experienced tax advisors to represent the Joint Venture in connection with any audit or investigation of the Joint Venture by the Internal Revenue Service and in connection with all subsequent administrative and judicial proceedings arising out of such audit. The fees and expenses of such tax advisors shall be an expense of the Joint Venture. It shall be the responsibility of the Joint Venturers, at their own expense, to employ tax advisors to represent their respective separate interests.

(c) Notice and Expenses. The TMP shall keep the Joint Venturers reasonably informed of all administrative and judicial proceedings, as required by the Code, and shall furnish to each Joint Venturer who so requests in writing a copy of each notice or other communication received by the TMP from the Internal Revenue Service (except such notices or communications as are sent directly to such requesting Joint Venturer by the Internal Revenue Service). All expenses incurred by the TMP in serving as TMP shall be Joint Venture expenses and shall be paid by the Joint Venture. Any Joint Venturer has the right to participate in such administrative proceedings relating to the determination of Joint Venture items. Each Joint Venturer who elects to participate in such proceedings will be responsible for any such expenses incurred by such Joint Venturer in connection with such participation.

(d) Authority of Tax Matters Partner. The TMP shall have the authority to take any and all action reasonably required as TMP, including by way of example, any of the following: (i) enter into a settlement agreement with the Internal Revenue Service that purports to bind the Joint Venturers other than the TMP; (ii) file a Tax Court Petition as contemplated in Code Section 6226(a) or Section 6228; (iii) intervene in any action as contemplated in Code Section 6226(b); (iv) file any requests for administrative adjustment contemplated in Code Section 6227(b); or (v) enter into an agreement extending the limitations period as contemplated by Code Section 6229(b)(1)(B).

(e) Indemnification of TMP. The Joint Venture shall indemnify the TMP against any and all judgments, fines, amounts paid in settlement and expenses (including reasonable attorneys' fees, whether incurred before or at trial or during any appellate proceedings, and court costs) incurred by the TMP in any civil, criminal or investigative proceeding in which the TMP is involved or threatened to be involved by reason of being the TMP for the Joint Venture; PROVIDED, HOWEVER, that the TMP shall not be indemnified under this provision against any liability incurred by the Joint Venture or any Joint Venturer which arises out of fraud, by willful or intentional misconduct, bad faith, gross negligence or reckless disregard of the duties involved in the conduct of its position as TMP.

IN WITNESS WHEREOF, the undersigned have executed this Agreement effective as of the date first above written.

FIRST AMENDMENT TO JOINT VENTURE AGREEMENT

THIS FIRST AMENDMENT TO JOINT VENTURE AGREEMENT ("Amendment") is entered into this 31st day of October, 2000, to be effective for all purposes as of June 17, 1999, by and between RY-8, INC., a Hawaii corporation (being a wholly-owned subsidiary of Roy's Holdings, Inc., a Hawaii corporation) ("Roy's") and OS PACIFIC, INC., a Florida corporation (being a wholly-owned subsidiary of Outback Steakhouse, Inc., a Florida corporation) ("Outback").

WHEREAS, Roy's and Outback entered into that certain Joint Venture Agreement dated June 17, 1999 (the "Agreement"), pursuant to which a Florida joint venture was formed under the name Roy's/Outback Joint Venture (the "Joint Venture"); and

WHEREAS, the parties desire to modify the Agreement to more accurately reflect the parties' intent at the time of forming the Joint Venture and to reflect amendments agreed to in consideration for Outback and its parent corporation, Outback Steakhouse, Inc. ("OSI"), guaranteeing a $12,000,000 Revolving Line of Credit issued to Roy's by Wachovia Bank (the "Line of Credit");

NOW THEREFORE, in consideration of the foregoing and the respective covenants, agreements and conditions hereinafter set forth, and intending to be legally bound hereby, the parties hereto agree as follows:

1. Recitals. The parties agree that the foregoing recitals are true and correct and incorporated herein by reference.

2. Modifications. The parties agree that the following modifications shall be made to the Agreement:

2.1 Guarantees of Debt by Outback. The second full paragraph of **Section 4.1** of the Agreement beginning with the phrase "In addition to the foregoing, Outback agrees…" shall be deleted in its entirety and replaced with the following:

Until such time as either (i) Roy's, using commercially reasonable efforts, can obtain financing secured by its interest in the Joint Venture from a third party financial institution on commercially reasonable terms in amounts sufficient to fund its share of additional capital contributions to the Joint Venture, or (ii) the Joint Venture can obtain such financing secured by the Joint Venturers' interests in the Joint Venture or the Joint Venture's assets, Outback shall cause its parent company Outback Steakhouse, Inc. ("OSI") to provide a guarantee of loans to Roy's from third party financial institutions in amounts sufficient to fund Roy's share of additional capital contributions to the Joint Venture ("Guaranteed Loans") and to refinance Guaranteed Loans to the extent either Roy's or the Joint Venture, using commercially reasonable efforts, cannot refinance the Guaranteed Loans without OSI's loan guarantee. The proceeds of all Guaranteed Loans shall be used solely to fund Roy's share of capital contributions to the Joint Venture and making the minimum required debt service payments to the lender of the

Guaranteed Loans. Neither Outback nor OSI shall charge Roy's any fee or other assessment for such guarantees. As a condition to such guarantees, Roy's shall and hereby does agree to indemnify and hold Outback and OSI harmless from any liability or loss either of them may incur from payments on such guarantees or otherwise arising from or as a result of such guarantees. Roy's shall also cause its parent company, Roy's Holdings, Inc. ("RHI") to indemnify and hold harmless Outback and OSI from any liability or loss either of them may incur from payments on such guarantees or otherwise arising from or as a result of such guarantees. Roy's shall secure its indemnity of Outback and OSI by granting to Outback and OSI a first priority security interest in Roy's entire interest in the Joint Venture. For so long as any guarantee by Outback or OSI is outstanding, Roy's shall not grant any other security interest in, or in any other manner otherwise pledge or encumber, its interest in the Joint Venture.

As part of the foregoing, promptly upon the execution of this Amendment, Outback agrees to cause its parent company, Outback Steakhouse, Inc. ("OSI") to arrange for a loan to Roy's for up to $12 million on commercially reasonable terms (taking into consideration OSI's loan guarantee) with Wachovia Bank, N.A. and to guarantee said loan as an accommodation guarantor. Roy's use of said loan proceeds will be limited to funding its capital contributions to the Joint Venture and making the minimum required debt service payments to Wachovia Bank. Further, Outback agrees that OSI will not charge Roy's any fee or other assessment for its accommodation guaranty of said loan.

2.2 Subsequent Capital Contributions. **Section 4.4** of the Agreement shall be deleted in its entirety and replaced with the following:

Each Joint Venturer shall be obligated to contribute to the Joint Venture such percentage as is equal to such Joint Venturer's Percentage Interest (initially 50%) of any additional capital contributions called for by majority vote of the Executive Committee. Such contributions shall be made within ten (10) business days of the call therefore by the Executive Committee. A Joint Venturer's failure to contribute its required share of additional capital contributions shall constitute a default under and breach of this Agreement. Notwithstanding the foregoing, Roy's shall only be obligated to contribute additional capital from, and to the extent of, financing provided pursuant to Section 4.1 hereof.

2.3 Liability for Certain Obligations. **Section 4.6.1** of the Agreement shall be deleted in its entirety and replaced with the following paragraph:

The parties acknowledge that the Joint Venture will incur certain material long term obligations, including, but not limited to, obligations as lessee under leases for Restaurant premises; provided however, the Joint Venture shall borrow no money and incur no liabilities for any loans other than loans from Outback or its affiliates for equipment for the Restaurants. Roy's and Outback agree that as to any obligation of the Joint Venture, including but not limited to liability under any lease, Roy's and Outback shall each be proportionately liable to any third party for only up to such percentage of any amounts outstanding of such obligation as is equal to the Joint Venturer's Percentage Interest. Roy's and Outback shall not be jointly and severally liable for any obligation.

2.4 Documentation. The phrase “proportionately fifty percent (50%) of any amounts outstanding under such obligations” in **Section 4.6.2** shall be deleted and replaced with “such percentage of any amounts outstanding under such obligations as is equal to the Joint Venturer’s Percentage Interest.”

2.5 Indemnification. **Section 4.6.3** shall be deleted in its entirety and replaced with the following:

In the event any Joint Venturer is liable to any third party for any material long term obligation in excess of such Joint Venturer’s proportionate share based on its Percentage Interest, the other Joint Venturer will indemnify and hold it harmless from and against any liability, claim, damage, action or obligation relating to said third party’s claim for such excess amounts.

2.6 Interest in Property. **Section 5.2** of the Agreement shall be deleted in its entirety and replaced with the following:

Each Joint Venturer’s ownership and voting interest in the Joint Venture (hereafter “Percentage Interest”) and in the Joint Venture’s assets, income, profits, losses and distributions shall be equal to a percentage, such percentage being the same percentage as such Joint Venturer’s Net Capital Contributions to the Joint Venture bears to the total Net Capital Contributions to the Joint Venture. For purposes of this Agreement, the term “Net Capital Contributions” shall mean the initial capital contributions of cash made by a Joint Venturer to the Joint Venture, ***increased*** by: (i) any additional capital contributions by such Joint Venturer; (ii) such Joint Venturer’s distributive share of Joint Venture profits and any items in the nature of income or gain which are specially allocated to such Joint Venturer; and (iii) the amount of any Joint Venture liabilities assumed by such Joint Venturer or which are secured by any Joint Venture property distributed to such Joint Venturer; and ***reduced*** by: (a) the amount of cash and the value of any Joint Venture property distributed to such Joint Venturer; (b) such Joint Venturer’s distributive share of Joint Venture losses and any items in the nature of expenses or losses which are specially allocated to such Joint Venturer; and (c) the amount of any liabilities of such Joint Venturer assumed by the Joint Venture or which are secured by any property contributed by such Joint Venturer to the Joint Venture.

The foregoing provisions are intended to comply with Treasury Regulation §1.704-1(b) and shall be interpreted and applied in a manner consistent with such regulation.

2.7 Division or Share of Profits. **Section 7.1** shall be deleted in its entirety and replaced with the following:

Any profits of the Joint Venture shall be allocated between the Joint Venturers in accordance with their respective Percentage Interests.

The amount and timing of distributions shall be determined by the Executive Committee in its sole discretion. Distributions shall be made to the Joint Venturers in accordance with the respective Percentage Interests; provided however, upon request of either Joint Venturer, the Executive Committee may approve, in its sole discretion, distributions to only one of the Joint Venturers. Any distribution made to only one of the Joint Venturers shall reduce the receiving Joint Venturer’s Net Capital Contributions, capital account, and Percentage Interest accordingly.

2.8 Effect of Termination. The following shall be added to the end of **Section 10.2**:

In the event the Joint Venture is terminated due to one party's acquisition, through purchase or otherwise of the entire Joint Venture interest of the other party, the acquiring party shall be entitled to the royalty-free master license described in **Section 4.1** and the license to use the recipes described in **Section 5.3**, for so long as any Restaurant remains in operation. In the event the Joint Venture is terminated due to one party's bankruptcy, insolvency or breach of the terms of this Agreement, the other party shall be entitled to the royalty-free master license described in **Section 4.1** and the license to use the recipes described in **Section 5.3**, for so long as any Restaurant remains in operation.

2.9 Put Options/Maximization of Value. In the first sentence of **Section 11.1**, after "Joint Venture" add "(being 12.5% of the entire Joint Venture)".

2.10 Pay Down of Line of Credit. The following paragraph shall be added after Section 11.2.4 as Section 11.2.5:

11.2.5 Pay Down of Line of Credit

In the event Roy's exercises its put options and as a result, Outback purchases a portion of Roy's interest in the Joint Venture, Roy's shall pay off a percentage of any amounts then outstanding under any and all Guaranteed Loans, as is equal to the percentage of Roy's interest in the Joint Venture that is being purchased by Outback.

2.12 Assignment. The second sentence of **Article XII** shall be deleted in its entirety and replaced with the sentence "Further, no Joint Venturer may assign or pledge as collateral its interest in profit distributions or its put options; except for a pledge by Roy's to First Hawaiian Bank securing a loan in the amount of $1,000,000, a pledge by Roy's to the financial institution providing financing guaranteed by Outback or OSI pursuant to Section 4.1 hereof, and a pledge by Roy's to Outback to secure obligations to Outback under indemnification agreements relating to Outback's guarantee of financing pursuant to Section 4.1 hereof."

2.13 Condition Subsequent. **Article XVII** shall be deleted in its entirety.

3. Ratification. The parties agree that the Joint Venture Agreement, as modified hereby, is in full force and effect, and all other terms are hereby ratified and confirmed.

IN WITNESS WHEREOF, the parties have executed this Amendment as of the first date written above.

2.1 Formation. The Members have formed a Delaware limited liability company under the laws of the State of Delaware by filing the Certificate with the Delaware Secretary of State and entering into this Agreement, which Agreement shall be deemed effective as of the date first listed above. The rights and liabilities of the Members shall be determined pursuant to the Act and this Agreement. To the extent that the rights or obligations of any Member are different by reason of any provision of this Agreement than they would be in the absence of such provision, this Agreement shall, to the extent permitted by the Act, control.

2.2 Name. The name of the Company shall be "OSI/FLEMING'S, LLC". The business of the Company may be conducted under that name or, upon compliance with applicable laws, any other name that a Managing Interest of the Members deems appropriate or advisable. The officers of the Company shall file any fictitious name certificates and similar filings, and any amendments thereto, that the officers of the Company consider appropriate or advisable.

2.3 Term. The term of this Agreement commenced on the filing of the Certificate and shall continue until terminated as hereinafter provided.

2.4 Office and Agent. The Company shall continuously maintain a registered office and agent in the State of Delaware. The registered office and agent shall be as stated in the Certificate or as otherwise determined by a Managing Interest of the Members. The principal office of the Company shall be 2202 N. Westshore Blvd., Tampa, Florida 33607, or as a Managing Interest of the Members may determine. 2.6 Purpose and Business of the Company. The purpose of the Company is to engage in any lawful activity for which a limited liability company may be organized under the Act. Notwithstanding the foregoing, without the consent of a Majority Interest, the Company shall not engage in any business other than the following:

B. Such other activities directly related to and in furtherance of the foregoing business as may be necessary, advisable, or appropriate as determined by a Managing Interest of the Members.

The Members acknowledge and agree that upon contribution of the System and Proprietary Marks by Fleming's pursuant to **Section 3.1** hereof, the Company shall be the sole and exclusive owner of the System and the Proprietary Marks and the Members shall have no right, title, or interest in or to the System or the Proprietary Marks, except as specifically provided in this Agreement.

Article III. CAPITAL CONTRIBUTIONS

3.1. Termination Fee. Outback shall be solely responsible for the $750,000 termination fee ("Termination Fee") for the termination of the Company's Blue Coral Newport Beach location lease. Neither FPSH LP nor AWA INC shall be required to contribute capital to cover any portion of the Termination Fee, nor will FPSH LP or AWA INC's capital accounts be reduced by any portion of the Termination Fee. Both FPSH LP and AWA INC shall remain responsible for their proportionate share of the negative cash flow and closing costs, other than the Termination Fee, for the Company's Blue Coral Newport Beach location.

3.2. [Removed and Reserved].

3.3 Interest on Capital Contributions. No Member shall receive, or be entitled to receive, interest on its contributions to the capital of the Company. Except as otherwise provided herein, no Member shall have the right to demand or to receive the return of all or any part of its Capital Account or of its contributions to the capital of the Company.

3.4 No Additional Capital Contributions. In no event shall any Member be obligated to make any additional capital contributions, except as otherwise expressly provided herein.

3.5 Liability for Certain Obligations. Fleming's Principals and Outback covenant and agree that as to any guaranty of any debt, liability, or obligation of the Company, including, without limitation, material long-term obligations, such as liability as lessee under leases for Restaurant premises and liability on loans (collectively "Obligations"), Fleming's Principals and Outback's parent company, OSI, shall guarantee such Obligations if required by the third party creditor; provided however, Fleming's Principals and OSI shall each be proportionately liable to any third party creditor for only up to the percentage of the outstanding balance under such Obligations as is equal to the applicable affiliated Member's Percentage Interest in the Company at the time in question, and shall not be jointly and severally liable therefor.

3.6 Documentation. Fleming's Principals and Outback covenant and agree that all documentation evidencing any guaranties of the Company's material, long term obligations, including, without limitation, a Restaurant premises lease, any promissory notes, and any lease for furniture, fixture and equipment, shall limit the liability of each of Fleming's Principals and OSI to such percentage of any amounts outstanding under such obligations as is equal to the applicable affiliated Member's Percentage Interest in the Company at the time in question, and shall specifically state that Fleming's Principals and OSI shall not be individually liable for the entire amount thereof, nor jointly and severally liable therefor. This provision may not be waived without the unanimous consent of all Members.

3.7 Capital Accounts. The Company shall establish and maintain an individual Capital Account for each Member in accordance with Regulations Section 1.704-1(b)(2)(iv). If a Member transfers all or a part of its Membership Interest in accordance with this Agreement, such Member's Capital Account attributable to the transferred Membership Interest shall carry over to the new owner of such Membership Interest pursuant to Regulations Section 1.704-1(b)(2)(iv)(1). FPSH LP shall receive a $250,000 credit to its Capital Account as a result of the funds received by the Company for the assignment to a third party of the lease for its prior Blue Coral La Jolla location.

3.8 Failure to Make Contributions. If a Member does not timely contribute capital when required, that Member shall be in default under this Agreement. In such event, a non-defaulting Member shall send the defaulting Member written notice of such default, giving such Member fourteen (14) days from the date such notice is given to contribute the entire amount of its required Capital Contribution. If the defaulting Member does not contribute its required capital to the Company within said fourteen (14)-day period, those non-defaulting Members who hold a majority of the Percentage Interests held by all non-defaulting Members may elect any one or more of the following remedies:

A. One or more non-defaulting Members may advance funds to the Company to cover those amounts that the defaulting Member fails to contribute. Amounts that a non-defaulting Member so advances on behalf of the defaulting Member shall become a loan due and owing from the defaulting Member to such non-defaulting Member and bear interest at the rate of ten percent (10%) per annum, payable monthly. All cash distributions otherwise distributable to the defaulting Member under this Agreement shall instead be paid to the non-defaulting Members making such advances until such advances and interest thereon are paid in full. In any event, any such advances shall be evidenced by a promissory note in a form reasonably acceptable to the non-defaulting Members and be due and payable by the defaulting Member one (1) year from the date that such advance was made. Any amounts repaid shall first be applied to costs of collection, then to interest and thereafter to principal. Effective upon a Member becoming a defaulting Member, each Member grants to the non-defaulting Members who advance funds under this **Section 3.8A** a security interest in its Membership Interest to secure its obligation to repay such advances and agrees to execute and deliver a promissory note as described herein together with a security agreement in a form reasonably acceptable to the non-defaulting Members and such UCC-1 financing statements and assignments of certificates of membership (or other documents of transfer) as such non-defaulting Members may reasonably request.

B. One or more non-defaulting Members may contribute funds to the capital of the Company to cover those amounts that the defaulting Member fails to contribute. In such event, the Percentage Interests of all Members shall be adjusted proportionately to reflect the cumulative total Capital Contributions each Member has contributed or, with respect to a non-defaulting Member, which such Member has agreed to contribute.

C. The non-defaulting Members who hold a majority of the Percentage Interests held by all non-defaulting Members may dissolve the Company, in which event the Company shall be wound-up, liquidated and terminated pursuant to **Article X.**

D. The defaulting Member shall lose its voting and approval rights under the Act, the Certificate and this Agreement.

E. The defaulting Member shall lose its ability to participate in the management and operations of the Company.

F. The Company or the non-defaulting Members may purchase the defaulting Member's entire Membership Interest for an amount equal to eighty percent (80%) of the Fair Market Value of the Membership Interest.

(i) Determination of Fair Market Value. For the purposes of this **Section 3.8F**, the "Fair Market Value" of the Membership Interest at issue shall be determined in the following manner:

(a) The defaulting Member and the non-defaulting Members shall agree upon the Fair Market Value of the defaulting Member's Membership Interest within ten (10) days following the date of the event of default. If there is no agreement on the Fair Market Value, the defaulting Member and the non-defaulting Members shall agree upon a mutually acceptable appraiser within fifteen (15) days following the date of the event of default, or, in the event such persons fail to so agree, two (2) appraisers shall be appointed within twenty (20) days following the date of the event of default, one by the defaulting Member, and one by the non-defaulting Members. If the defaulting Member, on the one hand, or the non-defaulting Members, on the other hand, fail to appoint an appraiser within the twenty (20) day period specified herein, the sole appraiser appointed within such twenty (20) day period shall be the sole appraiser for the purposes of determining Fair Market Value of the defaulting Member's Membership Interest to be purchased pursuant to this **Section 3.8F**. The defaulting Member and the non-defaulting Members shall promptly provide notice of the name of the appraiser so appointed by such party to the other. A third appraiser, if the initial two appraisers are appointed, shall be appointed by the mutual agreement of the first two appraisers so appointed, or, if such first two appraisers fail to agree upon a third appraiser within thirty (30) days following the date of the event of default, either the defaulting Member or the non-defaulting Members may demand the appointment of an appraiser be made by the then director of the Regional Office of the American Arbitration Association located nearest to the Company's principal office, in which event the appraiser appointed thereby shall be the third appraiser. Each of the appraisers shall submit to the defaulting Member and the non-defaulting Members, within thirty (30) days after the final appraiser has been appointed ("Appraisal Period"), a written appraisal (the "Appraisal") of the Fair Market Value of the defaulting Member's Membership Interest.

(b) In connection with any appraisal conducted pursuant to this Agreement, the parties hereto agree that any appraiser appointed hereunder shall be given full access during normal business hours to all information required and relevant to a valuation of the defaulting Member's Membership Interest.

(c) If three appraisers are appointed, the Fair Market Value of the defaulting Member's Interest in question shall be equal to the numerical average of three appraised determinations; provided, however, that if the difference between any two appraisals is not more than ten percent (10%) of the lower of the two, and the third appraisal differs by more than twenty-five percent (25%) of the lower of the other two appraisals, the numerical average of such two appraisals shall be determinative.

(d) Any appraiser, to be qualified to conduct an appraisal hereunder, shall be an independent appraiser (i.e., not affiliated with Outback or the Fleming's Principals), an M.A.I. appraiser or its equivalent, and shall be reasonably competent as an expert to appraise the value of the defaulting Member's Percentage Interest. If any appraiser initially appointed under this Agreement shall, for any reason, be unable to serve, a successor appraiser shall be promptly appointed in accordance with the procedures pursuant to which the predecessor appraiser was appointed.

Notwithstanding the foregoing, if the determination of the Fair Market Value of the defaulting Member's Percentage Interest by appraisal is not completed and all appraisal reports delivered as provided herein within the Appraisal Period, then all closing, payment, and similar dates subsequent thereto shall be automatically extended one (1) day for each day delivery of the appraisal reports is delayed beyond the end of the Appraisal Period.

(e) The cost of the appraiser appointed by each party shall be borne by each such party. The cost of the third appraiser, if any, or the sole appraiser, in the event the defaulting Member and the non-defaulting Members mutually agree upon a single appraiser, shall be borne equally by the defaulting Member and the non-defaulting Member.

(ii) Notice of Intent to Purchase. Within thirty (30) days after the determination of the purchase price of the defaulting Member's Membership Interest in accordance with **Section 3.8F(i),** each non-defaulting Member shall notify the defaulting Member in writing of its desire to purchase a portion of the defaulting Member's Membership Interest. The failure of any non-defaulting Member to submit a notice within the applicable period shall constitute an election on the part of the Member not to purchase any of the defaulting Member's Membership Interest. Each non-defaulting Member so electing to purchase shall be entitled to purchase a portion of the defaulting Member's Membership Interest in the same proportion that the Membership Interest of the non-defaulting Member bears to the aggregate of the Membership Interests of all of the non-defaulting Members electing to purchase the defaulting Member's Interest.

(iii) Election to Purchase Less Than All of the defaulting Member's Membership Interest . If any non-defaulting Member elects to purchase none or less than all of its pro rata share of the defaulting Member's Membership Interest, then the non-defaulting Members may elect to purchase more than their pro rata share. If the non-defaulting Members fail to purchase the entire Membership Interest of the defaulting Member, the Company may purchase any remaining share of the defaulting Member's Membership Interest. If the non-defaulting Members and the Company do not elect to purchase all of the defaulting Member's Membership Interest, such Membership Interest not purchased shall be that of an Economic Interest only.

(iv) Payment of Purchase Price. The purchase price shall be paid by the Company or the non-defaulting Members, as the case may be, by either of the following methods, each of which may be selected separately by the Company or the non-defaulting Members:

(a) The Company or the non-defaulting Members shall at the closing pay in cash the total purchase price for the defaulting Member's Membership Interest; or

(b) The Company or the non-defaulting Members shall pay at the closing one-fifth (1/5) of the purchase price and the balance of the purchase price shall be paid in four equal annual principal installments, plus accrued interest, and be payable each year on the anniversary date of the closing. The unpaid principal balance shall accrue interest at the current applicable federal rate as provided in the Code for the month in which the initial payment is made, but the Company and the non-defaulting Members shall have the right to prepay in full or in part at any time without penalty. The obligation of each purchasing non-defaulting Member, and the Company, as applicable, to pay its portion of the balance due shall be evidenced by a separate promissory note executed by the respective purchasing non-defaulting Member or the Company, as applicable. Each such promissory note shall be in an original principal amount equal to the portion owed by the respective purchasing non-defaulting Member or the Company, as applicable. The promissory note executed by each purchasing non-defaulting Member shall be secured by a pledge of that portion of the defaulting Member's Membership Interest purchased by such non-defaulting Member.

(v) Closing of Purchase of defaulting Member's Membership Interest. The closing for the sale of a defaulting Member's Interest pursuant to this **Section 3.8** shall be held at 10:00 a.m. at the principal office of Company no later than sixty (60) days after the determination of the purchase price, except that if the closing date falls on a Saturday, Sunday, or legal holiday, then the closing shall be held on the next succeeding business day. At the closing, the defaulting Member or such defaulting Member's legal representative shall deliver to the Company or the non-defaulting Members an instrument of transfer (containing warranties of title and no encumbrances) conveying the defaulting Member's Membership Interest. The defaulting Member or such defaulting Member's legal representative, the Company and the non-defaulting Members shall do all things and execute and deliver all papers as may be necessary fully to consummate such sale and purchase in accordance with the terms and provisions of this Agreement.

(vi) Purchase Terms Varied by Agreement. Nothing contained herein is intended to prohibit Members from agreeing upon other terms and conditions for the purchase by the Company or any Member of the Membership Interest of any Member in the Company.

Each Member acknowledges and agrees that (i) a default by any Member in making a required Capital Contribution will result in the Company and the non-defaulting Members incurring certain costs and other damages in an amount that would be extremely difficult or impractical to ascertain and (ii) the remedies described in this **Section 3.8** bear a reasonable relationship to the damages which the Members estimate may be suffered by the Company and the non-defaulting Members by reason of the failure of a defaulting Member to make any required Capital Contribution and the election of any or all of the above described remedies is not unreasonable under the circumstances existing as of the date hereof.

The election of the non-defaulting Members to pursue any remedy provided in this **Section 3.8** shall not be a waiver or limitation of the right to pursue an additional or different remedy available hereunder or at law or equity with respect to any such default.

Article IV. MEMBERS

4.1 Limited Liability. Except as expressly set forth in this Agreement or required by law, no Member shall be personally liable for any debt, obligation, or liability of the Company, whether that liability or obligation arises in contract, tort, or otherwise.

4.2 Admission of Additional Members. A Managing Interest, with the approval of a Majority Interest, may admit to the Company additional Members. Any additional Members shall obtain Membership Interests and will participate in the management, Net Profits, Net Losses, and distributions of the Company on such terms as are determined by a Managing Interest and approved by a Majority Interest. Notwithstanding the foregoing, Assignees may only be admitted as substitute Members in accordance with **Article VII.**

4.3 No Withdrawals or Resignations. No Member may withdraw or resign from the Company. If a Member wrongfully withdraws or resigns as a Member, that Member shall have no right to receive any distribution or any payment for the fair value of its Membership Interest other than such distributions or payments as are made to all Members pursuant to this Agreement.

4.4 Termination of Membership Interest. Upon the transfer of a Member's Membership Interest in violation of **Article VII**, the Membership Interest of such Member shall be terminated and thereafter that Member shall be an Assignee only unless such Membership Interest shall be purchased by the Company and/or remaining Members pursuant to the terms of **Section 7.8**. Such Member shall have no right to vote on any Company matters. Each Member acknowledges and agrees that such termination or purchase of a Membership Interest upon the occurrence of any of the foregoing events is not unreasonable under the circumstances existing as of the date hereof.

4.5 Transactions With The Company. Subject to any limitations set forth in this Agreement and notwithstanding that it may constitute a conflict of interest, with the prior approval of a Managing Interest, a Member may lend money to and transact other business with the Company, including but not limited to entering into franchise agreements (and any modifications or renewals thereof) with the Company; the purchase, sale, lease, or exchange of any property with the Company; or the rendering of any service to the Company, so long as the terms and conditions of such transaction, on an overall basis, are fair and reasonable to the Company and are at least as favorable to the Company as those that are generally available from Persons capable of similarly performing them and in similar transactions between parties operating at arm's length. Subject to other applicable law, any Member entering into such transaction(s) with the Company has the same rights and obligations with respect thereto as a Person who is not a Member.

4.6 Voting Rights. Except as expressly provided in this Agreement or the Certificate, Members shall have no voting, approval or consent rights. Except where this Agreement specifically requires a greater percentage affirmative vote, in all matters in which a vote, approval or consent of the Members is required, a vote, consent or approval of a Majority Interest (or, in instances in which there are defaulting Members, non-defaulting Members who hold a majority of the Percentage Interests held by all non-defaulting Members) shall be sufficient to authorize or approve such act. All votes, approvals or consents of the Members may be given or withheld, conditioned or delayed as the Members may determine in their sole and absolute discretion.

4.7 Meetings of Members. Meetings of Members may be held at such date, time and place as the Member calling the meeting may reasonably fix from time to time. No annual or regular meetings of Members are required. Meetings of the Members may be called by any Member holding more than ten percent (10%) of the Percentage Interests for the purpose of addressing any matters on which the Members may vote. Written notice of a meeting of Members shall be sent or otherwise given to each Member not less than seven (7) nor more than sixty (60) days before the date of the meeting. The notice shall specify the place, date and hour of the meeting and the general nature of the business to be transacted.

The actions taken at any meeting of Members, however called and noticed, and wherever held, have the same validity as if taken at a meeting duly held after regular call and notice, if a quorum is present either in person or by proxy, and if, either before or after the meeting, each of the Members entitled to vote, who was not present in person or by proxy, signs a written waiver of notice or consents to the holding of the meeting or approves the minutes of the meeting. All such waivers, consents or approvals shall be filed with the Company records or made a part of the minutes of the meeting.

Any action that may be taken at a meeting of Members may be taken without a meeting, if a consent in writing setting forth the action so taken, is signed and delivered to the Company within sixty (60) days of the record date for that action by Members having not less than the minimum number of votes that would be necessary to authorize or take that action at a meeting at which all Members entitled to vote on that action at a meeting were present and voted. All such consents shall be filed with the secretary of the Company and shall be maintained in the Company records. Any Member giving a written consent, or the Member's proxy holders, may revoke the consent by a writing received by the secretary of the Company before written consents of the number of votes required to authorize the proposed action have been filed.

Unless the consents of all Members entitled to vote have been solicited in writing, (i) notice of any Member approval of an amendment to the Certificate or this Agreement, a dissolution of the Company, or a merger of the Company, without a meeting by less than unanimous written consent, shall be given at least ten (10) days before the consummation of the action authorized by such approval, and (ii) prompt notice shall be given of the taking of any other action approved by Members without a meeting by less than unanimous written consent, to those Members entitled to vote who have not consented in writing.

Article V. MANAGEMENT AND CONTROL OF THE COMPANY

5.1 Management of the Company by Members. The business, property and affairs of the Company shall be managed by the Members of the Company. Except for situations in which the approval of a Majority Interest of the Members is expressly required by this Agreement, a Managing Interest of the Members shall have full, complete and exclusive authority, power, and discretion to manage and control the business, property and affairs of the Company, to make all decisions regarding those matters and to perform any and all other acts or activities customary or incident to the management of the Company's business, property and affairs.

B. Annual Business Plan. At least sixty (60) days prior to the commencement of each Fiscal Year, the President shall submit to the Members for approval by a Managing Interest, the Annual Business Plan for the Company. The President and the Members shall at all times use their best efforts to operate the Company in conformity with the Annual Business Plan.

C. Maximization of Value. The Members shall from time to time evaluate in good faith all options available to the Company to maximize the value of each Member's Percentage Interest in the Company, such as, but not limited to, an initial public offering, strategic sale, or merger into OSI.

D. Limitations on Power of a Managing Interest of the Members .

(i) Limitations on Acts of Managing Interest . A Managing Interest of the Members shall not have authority hereunder to cause the Company to engage in the following without first obtaining the affirmative vote or written consent of a Majority Interest (or such greater Percentage Interest as is set forth below) of the Members:

(a) The operation of any Restaurant other than in conformity with the operating procedures established pursuant to, or in accordance with, the System;

(b) The sale, exchange or other disposition of all, or substantially all, of the Company's assets occurring as part of a single transaction or plan, or in multiple transactions over a six (6) month period, except in the orderly liquidation and winding up of the business of the Company upon its duly authorized dissolution;

(c) The borrowing of money from any party in excess of $25,000, the issuance of evidences of indebtedness in connection therewith, the refinancing, increase in the amount of, modification, amendment, or changing of the terms, or extension of the time for the payment of any indebtedness or obligation of the Company, and securing such indebtedness by mortgage, deed of trust, pledge, security interest, or other lien on Company assets;

(d) The merger of the Company with a corporation, another limited liability company or limited partnership which is not an Affiliate of the Company or of any of the Members; provided in no event shall a Member be required to become a general partner in a merger with a limited partnership without its express written consent;

(l) Any other transaction described in this Agreement as requiring the vote, consent, or approval of the Members.

(ii) [Removed and Reserved].

5.4 Liability of Members for Management Responsibilities . The Members, while carrying out their management responsibilities pursuant to this Agreement, shall not be liable to the Company or to any Member for any loss or damage sustained by the Company or any Member, unless the loss or damage shall have been the result of fraud, deceit, gross negligence, reckless or intentional misconduct, breach of fiduciary duty, a knowing violation of law by a Member or a breach of the Member's obligations under this Agreement, in which event such Member shall be so liable.

5.5 [Removed and Reserved].

5.6 [Removed and Reserved].

5.7 Officers. A Managing Interest of the Members may appoint officers at any time. The officers of the Company shall include a President and such other officers as a Managing Interest deems necessary and appropriate. The officers shall serve at the pleasure of Members, subject to (a) all rights, if any, of an officer under an employment contract, and (b) the right of a Majority Interest to remove any officer. A Managing Interest may determine a reasonable compensation to be paid to each officer so appointed. Any individual may hold any number of offices. The officers shall exercise such powers and perform such duties as specified in this Agreement and as shall be determined from time to time by a Managing Interest.

5.8 President. All decisions as to the day to day operations of the Company shall be made by the President. Article VI. ALLOCATIONS OF NET PROFITS AND NET LOSSES AND DISTRIBUTIONS

6.1 Allocations of Net Profit and Net Loss

A. Net Loss. Subject to **Sections 3.1**, **3.7** and **6.5E**, Net Loss shall be allocated first to Outback in an amount equal to Outback's positive Capital Account balance, and then to the Members in proportion to their Percentage Interests. Notwithstanding the previous sentence, loss allocations to a Member shall be made only to the extent that such loss allocations will not create a deficit Capital Account balance for that Member in excess of an amount, if any, equal to such Member's share of Company Minimum Gain. Any loss not allocated to a Member because of the foregoing provision shall be allocated to the other Members (to the extent the other Members are not limited in respect of the allocation of losses under this **Section 6.1A**). Any loss reallocated under this **Section 6.1A** shall be taken into account in computing subsequent allocations of income and losses pursuant to this **Article VI**, so that the net amount of any item so allocated and the income and losses allocated to each Member pursuant to this **Article VI**, to the extent possible, shall be equal to the net amount that would have been allocated to each such Member pursuant to this **Article VI** if no reallocation of losses had occurred under this **Section 6.1A**.

B. Net Profit. Subject to **Sections 3.1, 3.7** and **6.5E**, Net Profit shall be allocated to the Members in proportion to their Percentage Interests.

6.2 Special Allocations. Notwithstanding **Section 6.1**:

A. Minimum Gain Chargeback. If there is a net decrease in Company Minimum Gain during any Fiscal Year, each Member shall be specially allocated items of Company income and gain for such Fiscal Year (and, if necessary, in subsequent fiscal years) in an amount equal to the portion of such Member's share of the net decrease in Company Minimum Gain that is allocable to the disposition of Company property subject to a

Nonrecourse Liability, which share of such net decrease shall be determined in accordance with Regulations Section 1.704-2(g)(2). Allocations pursuant to this **Section 6.2A** shall be made in proportion to the amounts required to be allocated to each Member under this **Section 6.2A.** The items to be so allocated shall be determined in accordance with Regulations Section 1.704-2(f). This **Section 6.2A** is intended to comply with the minimum gain chargeback requirement contained in Regulations Section 1.704-2(f) and shall be interpreted consistently therewith.

B. Chargeback of Minimum Gain Attributable to Member Nonrecourse Debt . If there is a net decrease in Company Minimum Gain attributable to a Member Nonrecourse Debt, during any Fiscal Year, each Member who has a share of the Company Minimum Gain attributable to such Member Nonrecourse Debt (which share shall be determined in accordance with Regulations Section 1.704-2(i)(5)) shall be specially allocated items of Company income and gain for such Fiscal Year (and, if necessary, in subsequent Fiscal Years) in an amount equal to that portion of such Member's share of the net decrease in Company Minimum Gain attributable to such Member Nonrecourse Debt that is allocable to the disposition of Company property subject to such Member Nonrecourse Debt (which share of such net decrease shall be determined in accordance with Regulations Section 1.704-2(i)(5)). Allocations pursuant to this **Section 6.2B** shall be made in proportion to the amounts required to be allocated to each Member under this **Section 6.2B**. The items to be so allocated shall be determined in accordance with Regulations Section 1.704-2(i)(4). This **Section 6.2B** is intended to comply with the minimum gain chargeback requirement contained in Regulations Section 1.704-2(i)(4) and shall be interpreted consistently therewith.

C. Nonrecourse Deductions. Any nonrecourse deductions (as defined in Regulations Section 1.704-2(b)(1)) for any Fiscal Year or other period shall be specially allocated to the Members in proportion to their Percentage Interests.

D. Member Nonrecourse Deductions. Those items of Company loss, deduction, or Code Section 705(a)(2)(B) expenditures which are attributable to Member Nonrecourse Debt for any Fiscal Year or other period shall be specially allocated to the Member who bears the economic risk of loss with respect to the Member Nonrecourse Debt to which such items are attributable in accordance with Regulations Section 1.704-2(i).

E. Qualified Income Offset. If a Member unexpectedly receives any adjustments, allocations, or distributions described in Regulations Section 1.704-1(b)(2)(ii)(d)(4), (5) or (6), or any other event creates a deficit balance in such Member's Capital Account in excess of such Member's share of Company Minimum Gain, items of Company income and gain shall be specially allocated to such Member in an amount and manner sufficient to eliminate such excess deficit balance as quickly as possible. Any special allocations of items of income and gain pursuant to this **Section 6.2E** shall be taken into account in computing subsequent allocations of income and gain pursuant to this **Article VI** so that the net amount of any item so allocated and the income, gain, and losses allocated to each Member pursuant to this **Article VI** to the extent possible, shall be equal to the net amount that would have been allocated to each such Member pursuant to the provisions of this **Article VI** if such unexpected adjustments, allocations, or distributions had not occurred.

6.3 Code Section 704(c) Allocations. Notwithstanding any other provision in this **Article VI**, in accordance with Code Section 704(c) and the Regulations promulgated thereunder, income, gain, loss, and deduction with respect to any property contributed to the capital of the Company shall, solely for tax purposes, be allocated among the Members so as to take account of any variation between the adjusted basis of such property to the Company for federal income tax purposes and its fair market value on the date of contribution. Allocations pursuant to this **Section 6.3** are solely for purposes of federal, state and local taxes. As such, they shall not affect or in any way be taken into account in computing a Member's Capital Account or share of profits, losses, or other items of distributions pursuant to any provision of this Agreement.

6.4 Allocation of Net Profits and Losses and Distributions in Respect of a Transferred Interest . If any Economic Interest is transferred, or is increased or decreased by reason of the admission of a new Member or otherwise, during any Fiscal Year of the Company, Net Profit or Net Loss for such Fiscal Year shall be assigned pro rata to each day in the particular period of such Fiscal Year to which such item is attributable (i.e., the day on or during which it is accrued or otherwise incurred) and the amount of each such item so assigned to any such day shall be allocated to the Member or Assignee based upon its respective Economic Interest at the close of such day.

However, for the purpose of accounting convenience and simplicity, the Company shall treat a transfer of, or an increase or decrease in, an Economic Interest which occurs at any time during a semi-monthly period (commencing with the semi-monthly period including the date hereof) as having been consummated on the last day of such semi-monthly period, regardless of when during such semi-monthly period such transfer, increase, of decrease actually occurs (i.e., sales and dispositions made during the first fifteen (15) days of any month will be deemed to have been made on the 15th day of the month).

Notwithstanding any provision above to the contrary, gain or loss of the Company realized in connection with a sale or other disposition of any of the assets of the Company shall be allocated solely to the parties owning Economic Interests as of the date such sale or other disposition occurs.

6.5 Distributions of Distributable Cash by the Company .

A. Subject to applicable law and any limitations contained in this Agreement, all Distributable Cash of the Company shall be retained by the Company and used for development of new Restaurants, except that the Company shall, if Distributable Cash is available, distribute to each Member cash in an amount equal to thirty-five percent (35%) of the Net Profits, if any, allocated to such Member. A Managing Interest of the Members shall make the distributions specified in this section, not less than once each calendar quarter based on estimated year to date Net Profits. Distributions for the last calendar quarter of the Fiscal Year shall be adjusted to reflect any under or over estimating of year to date Net Profits during prior calendar quarters.

B. Removed and Reserved.

C. Subject to **Sections 3.1**, **3.7** and **6.5E** and **Article X**, all other distributions to Members shall be made in accordance with their Percentage Interests.

D. All distributions shall be made only to the Persons who, according to the books and records of the Company, are the holders of record of the Economic Interests in respect of which such distributions are made on the actual date of distribution. Subject to **Section 6.8,** neither the Company nor any Member shall incur any liability for making distributions in accordance with this **Section 6.5.**

E. FPSH LP shall not: (i) have any ownership or other interest in, (ii) be allocated any profit or loss from, (iii) receive any distributions from; or (iv) be responsible for any obligations with respect to, the following Restaurants: 5406 Austin II, 5407 Houston-Town & Country, and 2007 Orlando/Sandlake.

6.6 Form of Distribution. Except as provided in **Section 8.2** and **Section 10.4,** a Member, regardless of the nature of the Member's Capital Contribution, has no right to demand and receive any distribution from the Company in any form other than cash. Except as provided in **Section 10.4**, no Member may be compelled to accept from the Company a distribution of any asset in kind in lieu of a proportionate distribution of money being made to other Members and no Member may be compelled to accept a distribution of any asset in kind.

6.7 Restriction on Distributions. No distribution shall be made if, after giving effect to the distribution, all liabilities of the Company, other than liabilities to Members on account of their Membership Interests and liabilities for which the recourse of creditors is limited to specified property of the Company, exceed the fair value of the assets of the Company, except that the fair value of property that is subject to a liability for which the recourse of creditors is limited shall be included in the assets of the Company only to the extent that the fair value of that property exceeds that liability.

6.8 Return of Distributions. A Member who receives a distribution in violation of **Section 6.7,** and who knew at the time of the distribution that the distribution violated **Section 6.7**, shall be liable to the Company for the amount of the distribution. A Member who receives a distribution in violation of **Section 6.7**, and who did not know at the time of the distribution that the distribution violated **Section 6.7**, shall not be liable for the amount of the distribution. A Member who receives a distribution shall have no liability for the amount of the distribution after the expiration of three (3) years from the date of the distribution unless an action to recover the distribution from such Member is commenced prior to the expiration of said three (3)-year period and an adjudication of liability against such Member is made in the said action.

6.9 Obligations of Members to Report Allocations. The Members are aware of the income tax consequences of the allocations made by this **Article VI** and hereby agree to be bound by the provisions of this **Article VI** in reporting their shares of Company income and loss for income tax purposes.

Article VII. TRANSFER AND ASSIGNMENT OF INTERESTS

7.1 Transfer and Assignment of Interests.

A. General Restriction. Except as otherwise provided in this **Article VII**, a Member shall not be entitled to transfer, assign, convey, sell, encumber or in any way alienate all or any part of its Membership Interest (collectively, "transfer") except with the prior written consent of all Members, which consent may be given or withheld, conditioned or delayed, as the Members may determine in their sole and absolute discretion. Without limiting the generality of the foregoing, the sale or exchange of at least fifty percent (50%) of the voting stock of a Member, if a Member is a corporation, or the transfer of an interest or interests of at least fifty percent (50%) in the capital or profits of a Member (whether accomplished by the sale or exchange of interests or by the admission of new partners or members), if a Member is a partnership or limited liability company, or the cumulative transfer of such interests in a Member which effectively equal the foregoing (including transfer of interests followed by the incorporation of a Member and subsequent stock transfers, or transfers of stock followed by the liquidation of a Member and subsequent transfers of interests) will be deemed to constitute an assignment of a Membership Interest subject to this **Article VII;** provided that transfers among the Fleming's Principals shall be exempt from these requirements. After the consummation of any transfer of any part of a Membership Interest, the Membership Interest so transferred shall continue to be subject to the terms and provisions of this Agreement and any further transfers shall be required to comply with all the terms and provisions of this Agreement.

B. Improper Transfers. Transfers in violation of this **Article VII** shall only be effective to the extent set forth in **Section 7.8**.

7.2 Further Restrictions on the Fleming's Principals. Fleming's and the Fleming's Principals acknowledge and agree that Outback has entered into this Agreement in reliance on the personal skill and character of the Fleming's Principals.

A. AWA INC and A. William Allen, III hereby represent and warrant to Outback that A. William Allen, III (together with his wife or through a trust controlled by them) is the sole shareholders and sole director of AWA INC. The ownership of all of the capital stock of AWA INC by A. William Allen, III is a material inducement to Outback entering into this Agreement. Except as provided in **Section 7.4**, A. William Allen, III hereby covenants and agrees that he shall not, in any manner, transfer, alienate or encumber any of the capital stock, or other voting or ownership interest, in AWA INC without the prior written consent of Outback, which consent may be granted or denied in Outback's sole discretion. Further, AWA INC and A. William Allen, III hereby covenant and agree that they shall not in any manner allow any action to be taken that would result in A. William Allen, III, individually, having insufficient voting power to control all matters submitted to a vote of AWA INC's shareholders.

B. FPSH LP, PKCR, LLC ("PKCR") and Paul M. Fleming hereby represent and warrant to Outback that trusts established for the benefit of Paul M. Fleming, his family members, and entities under his control are the sole members of PKCR, and PKCR is the sole general partner of FPSH LP. The ownership of all of the general partnership interests of FPSH LP by PKCR and ownership of all of the membership interests in PKCR by trusts established for the benefit of Paul M. Fleming, his family members, and entities under his control are material inducements to Outback entering into this Agreement. Except as provided in **Section 7.4**, Paul M. Fleming hereby covenants and agrees that he shall not, in any manner, transfer, alienate or encumber any of the membership interests, or other voting or ownership interest, in PKCR without the prior written consent of Outback, which consent may be granted or denied in Outback's sole discretion, and PKCR hereby covenants and agrees that it shall not, in any manner, transfer, alienate or encumber any of its partnership or other ownership or voting interest in FPSH LP without the prior written consent of Outback, which consent may be granted or denied at Outback's sole discretion FPSH LP, PKCR and Paul M. Fleming covenant and agree that at all times Paul M. Fleming, individually, or in his capacity as trustee or controlling person, shall have the power to determine all matters submitted to a vote of FPSH LP's partners and PKCR's members.

7.3 Further Restrictions on Transfer of Interests. In addition to other restrictions found in this Agreement, no Member shall transfer all or any part of its Membership Interest:

A. Without compliance with all federal and state securities law, and

B. If the Membership Interest to be transferred, when added to the total of all other Membership Interests transferred in the preceding twelve (12) consecutive months prior thereto, would cause the tax termination of the Company under Code Section 708(b)(1)(B).

7.4 Permitted Transfers.

A. A Membership Interest may be transferred to any other Member, subject to compliance with **Section 7.2 and 7.3**, and without the prior written consent of the other Members as required by **Section 7.1**.

B. Subject to the restrictions of **Section 7.3**: Paul M. Fleming and PKCR may make bona fide gifts of interests in PKCR or FPSH LP to Paul M. Fleming's family members, or to one or more trusts for the benefit of his family members, for estate planning purposes provided that Paul M. Fleming retains at least a fifty-one percent

(51%) ownership and voting interest in PKCR and PKCR remains the sole general partner of FPSH LP; and A. William Allen, III may make bona fide gifts of interests in AWA INC to their family members, or to one or more trusts for the benefit of family members, for estate planning purposes provided that they collectively retain at least a fifty-one percent (51%) ownership and voting interest in AWA INC. In the event that Paul M. Fleming or PKCR transfers 100% of its ownership interest in FPSH (whether directly or indirectly) to one or more of Paul M. Fleming's family members or a trust for the benefit of one or more Paul M. Fleming's family members, with respect to which Paul M. Fleming is not a trustee or beneficiary, such transfer shall serve to revoke Paul M. Fleming's right to vote on matters requiring a Managing Interest of the Members of the Company; and AWA, INC shall thereafter have two (2) votes on each matter requiring the approval of a Managing Interest of the Members.

7.5 Effective Date of Permitted Transfers. Any permitted transfer of all or any portion of a Membership Interest or an Economic Interest shall be effective as of the date provided in **Section 6.4** following the date upon which the requirements of **Sections 7.1, 7.2** and **7.3** have been met. The Members shall be provided with written notice of such transfer as promptly as possible after the requirements of **Sections 7.1, 7.2** and **7.3** have been met. Any transferee of a Membership Interest shall take subject to the restrictions on transfer imposed by this Agreement.

7.6 Substitution of Members. An Assignee shall have the right to become a substitute Member only if (i) the requirements of **Sections 7.1, 7.2 and 7.3** hereof are met, (ii) the Assignee executes an instrument satisfactory to a Managing Interest of the Members accepting and adopting the terms and provisions of this Agreement, and (iii) the Assignee pays any reasonable expenses in connection with its admission as a new Member. The admission of an Assignee as a substitute Member shall not result in the release of the Member who assigned the Membership Interest from any liability that such Member may have to the Company.

7.7 Rights of Legal Representatives. If a Member who is an individual dies or is adjudged by a court of competent jurisdiction to be incompetent to manage the Member's person or property, the Member's executor, administrator, guardian, conservator, or other legal representative may exercise all of the Member's rights for the purpose of settling the Member's estate or administering the Member's property, including any power the Member has under the Certificate or this Agreement to give an Assignee the right to become a Member. If a Member is a corporation, trust, or other entity and is dissolved or terminated, the powers of that Member may be exercised by its legal representative or successor.

7.8 No Effect to Transfers in Violation of Agreement. Upon any transfer of a Membership Interest in violation of this **Article VII**, the remaining Members shall have the right to Purchase the transferred Membership Interest as provided in **Section 3.8F** of this Agreement. In the event such Membership Interest is not purchased by the remaining Members, such transferee shall only be entitled to become an Assignee and thereafter shall only receive the share of the Company's Net Profits, Net Losses and distributions of the Company's assets to which the transferor of such Economic Interest would otherwise be entitled. The transferee shall have no right to vote or participate in the management of the business, property and affairs of the Company or to exercise any rights of a Member. Notwithstanding the immediately preceding sentences, if, in the determination of a Managing Interest of the Members, a transfer in violation of this **Article VII** would cause the tax termination of the Company under Code Section 708(b)(1)(B), the transfer shall be null and void and the purported transferee shall not become either a Member or an Assignee.

Upon and contemporaneously with any transfer (whether arising out of an attempted charge upon that Member's Economic Interest by judicial process, a foreclosure by a creditor of the Member or otherwise) of a Member's Economic Interest which does not at the same time transfer the balance of the rights associated with the Membership Interest transferred by the Member (including, without limitation, the rights of the Member to vote or

participate in the management of the business, property and affairs of the Company), the Company shall purchase from the Member, and the Member shall sell to Company for a purchase price of one hundred dollars ($100), all remaining rights and interests retained by the Member that immediately before the transfer were associated with the transferred Economic Interest. Such purchase and sale shall not, however, result in the release of the Member from any liability to the Company as a Member.

Each Member acknowledges and agrees that the right of the Company to purchase such rights and interests from a Member who transfers a Membership Interest in violation of this **Article VII** is not unreasonable under the circumstances existing as of the date hereof.

7.9 Rights of First Refusal.

A. Removed and Reserved.

B. Outback's Rights. At any time a Member other than Outback (or any shareholder of AWA INC or any partner of FPSH LP or member of PKCR) (each a "Transferor"), desires to transfer all or any part of his, hers, or its Membership Interest (or, in the case of a shareholder of AWA INC any capital stock or other voting or ownership interest in AWA INC, in the case of a partner of FPSH LP any partnership interests in FPSH LP, or in the case of a member of PKCR any membership interest in PKCR) to any person or entity, as permitted by this **Article VII**, the Transferor shall, prior to any such Transfer, give Outback a Notice of Transfer, which notice shall specify the Membership Interest to be transferred, the identity of the proposed transfer, and the Purchase Price. Any purported Notice of Transfer that does not comply with the requirements of this **Section 7.9B** shall be null and void and of no effect hereunder. Upon receipt of a proper Notice of Transfer, Outback shall thereupon have the right to acquire the Transferor's entire Membership Interest or such portion of the Transferor's Membership Interest as is specified in the Notice of Transfer, on terms identical to the Purchase Price or proportionately identical if Outback elects to purchase the entire Membership Interest of the Transferor. In the event the Purchase Price contains terms that Outback cannot reasonably duplicate, Outback shall have the right to substitute the reasonable cash equivalent thereof. This right of first refusal shall not apply to transfers made pursuant to **Section 7.4** or transfers among the Fleming's Principals.

C. Exercise of Rights.

(i) The purchasing Member(s) shall exercise the right of first refusal contained herein by mailing written notice thereof ("Notice of Election") to the Transferor within forty (40) days of mailing of the Notice of Transfer. In the event no purchasing Member(s) mail a Notice of Election to the Transferor within said 40-day period, the purchase option contained herein shall lapse (except as otherwise provided in **Section 7.10**). In the event a Member timely exercises the purchase option contained herein, such Member shall mail written notice to the Transferor of whether the Member has elected to purchase the entire Membership Interest of the Transferor or such portion as was specified in the Notice of Transfer, if less; such notice to be mailed within ten (10) days of the mailing of the Notice of Election.

(ii) The closing for any purchase hereunder shall be consummated and closed in the Company's principal office on a date and at a time designated by the purchasing Member in a notice to the Transferor, provided such consummation and closing date shall occur within ninety-five (95) days from the date of mailing of the Notice of Election. At such closing, the Transferor shall execute and deliver all documents and instruments as are necessary and appropriate, in the opinion of counsel for the Company, to effectuate the transfer of the Transferor's Membership Interest in accordance with the terms of the Notice of Transfer and the purchasing Member shall deliver the Purchase Price.

7.10 Transfer Permitted After Failure to Elect. Subject to **Section 7.1, 7.2 and 7.3**, in the event a Member does not elect pursuant to **Section 7.9** to exercise the purchase option specified therein, or in the event the closing for any purchase pursuant to **Section 7.9** does not occur within the time limits specified therein, then the Transferor shall be free to transfer the exact portion of his, her, or its Membership Interest as was specified in the Notice of Transfer to the person or entity identified in the Notice of Transfer in exchange for the exact Purchase Price as was specified in the Notice of Transfer; ***provided, however,*** that the closing and consummation of such transfer shall occur within one hundred thirty (130) days after the date of mailing of the Notice of Transfer and provided further that such transfer must comply with all other requirements of this **Article VII**. In the event such transfer is not so closed and consummated within such period, the purchase option granted in **Section 7.9** shall again be exercisable and the Transferor shall make no Transfer of any portion of his Membership Interest, or any right, title or interest therein, until such Transferor has again complied with all terms and provisions of this **Article VII**. In the event a Member does not elect pursuant to **Section 7.9** to exercise the purchase option contained therein and the Transferor makes a permitted Transfer in compliance with the terms and provisions of this **Article VII**, then the person or entity to whom such Membership Interest is transferred shall nevertheless acquire such Membership Interest subject to the restriction imposed on such Membership Interest under this **Article VII** as to further transfers of such Membership Interest, and provided further that any such transferee shall agree in writing to be bound by all terms and provisions of this Agreement.

C. Any request, inspection or copying by a Member or Assignee under this **Section 9.2** may be made by that Person or that Person's agent or attorney.

9.3 Annual Statements.

A. A Managing Interest of the Members of the Company shall cause an annual report to be sent to each of the Members not later than ninety (90) days after the close of the Fiscal Year. The report shall contain a balance sheet as of the end of the Fiscal Year and an income statement and statement of changes in financial position for the Fiscal Year. Such financial statements shall be accompanied by the report thereon, if any, of the independent accountants engaged by the Company or, if there is no report, the certificate of the officers of the Company that the financial statements were prepared without audit from the books and records of the Company.

B. A Managing Interest of the Members of the Company shall cause to be prepared at least annually, at Company expense, information necessary for the preparation of the Members' and Assignees' federal and state income tax returns. A Managing Interest of the Members of the Company shall send or cause to be sent to each Member or Assignee within sixty (60) days after the end of each taxable year such information as is necessary to complete federal and state income tax or information returns, and a copy of the Company's federal, state, and local income tax or information returns for that year.

C. The failure by any Member to participate in the preparation of the reports or statements described in subsection 9.3A or 9.3B shall not constitute a default of such Member's obligations under this Agreement if such Member consents to the preparation of such reports or statements on its behalf by the other Members.

9.4 Financial and Other Information. The officers of the Company shall provide such financial and other information relating to the Company or any other Person in which the Company owns, directly or indirectly, an equity interest, as a Member may request.

9.5 Filings. The officers of the Company, at Company expense, shall cause the income tax returns for the Company to be prepared and timely filed with the appropriate authorities. The officers of the Company, at Company expense, shall also cause to be prepared and timely filed, with appropriate federal and state regulatory and administrative bodies, amendments to, or restatements of, the Certificate and all reports required to be filed by the Company with those entities under the Act or other then current applicable laws, rules, and regulations. If a Member is required by the Act to execute or file any document fails, after demand, to do so within a reasonable period of time or refuses to do so, any other Member may prepare, execute and file that document.

9.6 Bank Accounts. The Members shall maintain the funds of the Company in one or more separate bank accounts in the name of the Company, and shall not permit the funds of the Company to be commingled in any fashion with the funds of any other Person.

9.7 Accounting Decisions and Reliance on Others. All decisions as to accounting matters, except as otherwise specifically set forth herein, shall be made by a Managing Interest of the Members. The Members may rely upon the advice of the Company's accountants as to whether such decisions are in accordance with accounting methods followed for federal income tax purposes.

9.8 Tax Matters for the Company Handled by the Tax Matters Partner. The Tax Matters Partner, with the prior approval of a Managing Interest of the Members, shall from time to time cause the Company to make such tax elections it deems to be in the best interests of the Company and the Members. The Tax Matters Partner shall represent the Company (at the Company's expense) in connection with all examinations of the Company's affairs by tax authorities, including resulting judicial and administrative proceedings, and shall expend the Company funds for professional services and costs associated therewith. The Tax Matters Partner shall oversee the Company tax affairs in the overall best interests of the Company but shall not have the right to agree to extend any statute of limitations without the approval of a Majority Interest. If for any reason the Tax Matters Partner can no longer serve in that capacity or ceases to be a Member, as the case may be, a Majority Interest may designate another Member to be Tax Matters Partner.

Article X. DISSOLUTION AND WINDING UP

10.1 Dissolution. The Company shall be dissolved, its assets shall be disposed of, and its affairs wound up on the first to occur of the following:

A. The agreement of a Managing Interest of the Members to terminate the Company;

B. The entry of a decree of judicial dissolution;

C. The vote of non-defaulting Members holding a majority of the Percentage Interests held by all non-defaulting Members pursuant to **Section 3.8C**;

D. The sale of all or substantially all of the assets of Company.

Except for the foregoing, the Company shall not dissolve on the occurrence of any other event.

10.2 Winding Up. Upon the occurrence of any event specified in **Section 10.1**, the Company shall continue solely for the purpose of winding up its affairs in an orderly manner, liquidating its assets, and satisfying the claims of its creditors. The Members shall be responsible for overseeing the winding up and liquidation of Company, shall take full account of the liabilities of Company and assets, shall, subject to **Section 10.4,** either cause its assets to be sold or distributed, and if sold as promptly as is consistent with obtaining the fair market value thereof, shall cause the proceeds therefrom, to the extent sufficient therefor, to be applied and distributed as provided in **Section 10.4**. The Persons winding up the affairs of the Company shall give written notice of the commencement of winding up by mail to all known creditors and claimants whose addresses appear on the records of the Company. The Members winding up the affairs of the Company shall not be entitled to compensation for such services.

10.3 Distributions in Kind. Except for a distribution of the System to Fleming's pursuant to **Section 10.4** any non-cash asset distributed to one or more Members shall first be valued at its fair market value to determine the Net Profit or Net Loss that would have resulted if such asset were sold for such value, such Net Profit or Net Loss shall then be allocated pursuant to **Article VI**, and the Members' Capital Accounts shall be adjusted to reflect such allocations. The amount distributed and charged to the Capital Account of each Member receiving an interest in such distributed asset shall be the fair market value of such interest (net of any liability secured by such asset that such Member assumes or takes subject to). The fair market value of such asset shall be determined by a Managing Interest or by the Members, or if any Member objects to such valuation, by an independent appraiser (any such appraiser must be recognized as an expert in valuing the type of asset involved) selected by a Managing Interest or selected by the liquidating trustee, if applicable, and approved by the Members.

10.4 Order of Payment Upon Dissolution. After determining that all known debts and liabilities of the Company, including, without limitation, debts and liabilities to Members who are creditors of the Company, have been paid or adequately provided for, the remaining assets shall be distributed as follows:

A. Upon dissolution of the Company (other than in connection with a sale of all or substantially all of the Company's assets to a third party and other than in connection with a termination resulting from one Member's purchase of all or part of the other Member's Membership Interest) the System shall be distributed to Fleming's, as valued at its deemed contribution value, and all other assets of the Company shall be liquidated. All other proceeds from liquidation of the Company assets shall be distributed (i) to Outback until Outback shall have received an amount equal to Outback's Capital Contributions, and (ii) thereafter to the Members in accordance with their positive Capital Account balances after giving effect to the allocation of Net Profit or Net Loss resulting from such liquidation. Such liquidating distributions shall be made by the end of the Company's taxable year in which the Company is liquidated, or, if later, within ninety (90) days after the date of such liquidation.

B. Upon dissolution of the Company in connection with a sale of all or substantially all of the Company's assets to a third party all proceeds from liquidation of the Company's assets shall be distributed to the Members in accordance with their positive Capital Account balances after giving effect to the allocation of Net Profit or Net Loss resulting from such liquidation, it being the intent of the Members that distributions shall be the same as if distributed pursuant to Percentage Interests. Such liquidating distributions shall be made by the end of the Company's taxable year in which the Company is liquidated, or, if later, within ninety (90) days after the date of such liquidation.

10.5 Limitations on Payments Made in Dissolution. Each Member shall only be entitled to look solely at the assets of the Company for the return of its Capital Contributions and positive Capital Account balance and shall have no recourse for its Capital Contribution, positive Capital Account balance and/or share of Net Profits (upon dissolution or otherwise) against any other Member.

Article XI. INDEMNIFICATION AND INSURANCE

11.1 Indemnification of Agents. The Company shall defend and indemnify any Member and may indemnify any other Person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding by reason of the fact that it is or was a Member, officer, employee or other agent of the Company or that, being or having been such a Member, officer, employee or agent, it is or was serving at the request of the Company as a manager, member, director, officer, employee or other agent of another limited liability company, corporation, partnership, joint venture, trust or other enterprise (all such persons being referred to hereinafter as an "agent"), to the fullest extent permitted by applicable law in effect on the date hereof and to such greater extent as applicable law may hereafter from time to time permit. A Managing Interest of the Members shall be authorized, on behalf of the Company, to enter into indemnity agreements from time to time with any Person entitled to be indemnified by the Company hereunder, upon such terms and conditions as a Managing Interest of the Members deems appropriate in its business judgment.

11.2 Insurance. The Company shall have the power to purchase and maintain insurance on behalf of any Person who is or was an agent of the Company against any liability asserted against such Person and incurred by such Person in any such capacity, or arising out of such Person's status as an agent, whether or not the Company would have the power to indemnify such Person against such liability under the provisions of **Section 11.1** or under applicable law.

Article XII. CONFIDENTIALITY AND NON-COMPETITION

12.1 Noncompetition.

A. Subject to **Subsection C** below, so long as FPSH LP and AWA INC are Members and with respect to each of them for three (3) years thereafter, they, the Fleming's Principals (and their respective Affiliates) shall not, individually or jointly with others, directly or indirectly, whether for their own account or for that of any other Person, operate, engage in, own or hold any ownership interest in, have any interest in or lend any assistance to any steakhouse restaurant, or Person or entity engaged in a business owning, operating or controlling steakhouse restaurants, other than the Company's Restaurants, and shall not act as an officer, director, employee, partner, independent contractor, consultant, principal, agent, or in any other capacity for, nor lend any assistance (financial or otherwise) or cooperation to any such steakhouse restaurant or Person or entity. The restriction contained herein shall be deemed to apply to A. William Allen, III for so long as AWA INC is a Member and for three (3) years thereafter and to Paul M. Fleming for so long as FPSH LP is a Member and for three (3) years thereafter. For the purposes of this **Section 12.1**, the term "steakhouse restaurant" shall mean any restaurant for which: (i) the word "steak" or any variation thereof is in its name; or (ii) the sale of steak or prime rib is specified in its advertising or marketing efforts; or (iii) the sale of steak and prime rib constitutes thirty five percent (35%) or more of its entrée sales, computed on a dollar basis.

B. Subject to **Subsection D** below, so long as Outback is a Member, and for a period of one (1) year thereafter, Outback (and its Affiliates) shall not, individually or jointly with others, directly or indirectly, whether for its own account or for that of any other Person, operate, engage in, own or hold any ownership interest in, have any interest in or lend any assistance to: any steakhouse restaurant having a per person check average between $40.00 and $55.00, or Person or entity engaged in a business owning, operating or controlling steakhouse restaurants, having a per person check average between $40.00 and $55.00, other than the Company's Restaurants, franchisees of the Company, and the Restaurants currently owned or under development by Outback.

C. None of the restrictions in this **Section 12.1** shall be interpreted to apply to Paul M. Fleming's ownership interest in any Z' Tejas, Paul Martin's Bistro or Roaring Fork restaurants as those restaurants are currently operated.

12.2 Confidentiality.

A. Definition. For the purpose of this Agreement, "Proprietary Information" shall include all information designated by any Member, either orally or in writing, as confidential or proprietary, or which reasonably would be considered proprietary or confidential to the business contemplated by this Agreement, including but not limited to suppliers, customers, trade or industrial practices, marketing and technical plans, technology, personnel, organization or internal affairs, plans for products and ideas, recipes, menus, wine lists and proprietary techniques and other trade secrets. Notwithstanding the foregoing, "Proprietary Information" shall not include information which (i) has entered the public domain or became known other than due to a breach of any obligation of confidentiality owed to the owner of such information; (ii) was known prior to the disclosure of such information; (iii) became known to the recipient from a source other than a Member or its Affiliate, provided there was no breach of an obligation of confidentiality owed to said Member or its Affiliate; or (iv) was independently developed by the party receiving such information.

B. No Disclosure, Use, or Circumvention. No Member or its Affiliates shall disclose any Proprietary Information to any third parties (other than existing or permitted franchisees) and will not use any Proprietary Information in that Member's or Affiliate's business or any affiliated business without the prior written consent of the other Member, and then only to the extent specified in that consent. Consent may be granted or withheld at the sole discretion of any Member. No Member shall contact any suppliers, customers, employees, affiliates or associates to circumvent the purposes of this provision.

C. Maintenance of Confidentiality. Each Member shall take all steps reasonably necessary or appropriate to maintain the strict confidentiality of the Proprietary Information and to assure compliance with this Agreement.

12.3 Non Solicitation. During the term of this Agreement and, with respect to each Member, for a period two (2) years following the earlier of (A) the date that the Member transfers all of its Membership Interest in the Company or (B) the dissolution of the Company pursuant to **Article X**, the Member shall not offer employment to any employee of the Company or of a Member, or their Affiliates, or otherwise solicit or induce any employee of any of them to terminate their employment, nor shall any of the Fleming's Principals act as an officer, director, employee, partner, independent contractor, consultant, principal, agent, proprietor, owner or part owner, or in any other capacity, for any person or entity which solicits or otherwise induces any employee of the Company or of a Member, or their Affiliates, to terminate their employment with such entity.

12.4 Reasonableness of Restrictions; Reformation; Enforcement. The parties hereto recognize and acknowledge that the geographical and time limitations contained in **Section 12.1, 12.2 and 12.3** hereof are reasonable and properly required for the adequate protection of the Company's and Members' interests. It is agreed by the parties hereto that if any portion of the restrictions contained in **Section 12.1, 12.2 or 12.3** are held to be unreasonable, arbitrary, or against public policy, then the restrictions shall be considered divisible, both as to the

time and to the geographical area, with each month of the specified period being deemed a separate period of time and each radius mile or other portion of the restricted territory being deemed a separate geographical area, so that the longest period of time and largest geographical area shall remain effective so long as the same is not unreasonable, arbitrary, or against public policy. The parties hereto agree that in the event any court of competent jurisdiction determines the specified period or the specified geographical area of the restricted territory to be unreasonable, arbitrary, or against public policy, a lesser time period or geographical area which is the longest period of time and largest geographical area determined to be reasonable, nonarbitrary, and not against public policy may be enforced. If any of the covenants contained herein are violated and if any court action is instituted by the Company or a Member to prevent or enjoin such violation, then the period of time during which the business activities shall be restricted, as provided in this Agreement, shall be lengthened by a period of time equal to the period between the date of the breach of the terms or covenants contained in this Agreement and the date on which the decree of the court disposing of the issues upon the merits shall become final and not subject to further appeal.

In the event it is necessary for the Company or a Member to initiate legal proceedings to enforce, interpret or construe any of the covenants contained in **Section 12.1, 12.2 or 12.3** hereof, the prevailing party in such proceedings shall be entitled to receive from the non-prevailing party, in addition to all other remedies, all costs, including reasonable attorneys' fees, of such proceedings including appellate proceedings.

12.5 Specific Performance. The parties agree that a breach of any of the covenants contained **Section 12.1, 12.2 and 12.3** hereof will cause irreparable injury to the Company or a Member for which the remedy at law will be inadequate and would be difficult to ascertain and therefore, in the event of the breach or threatened breach of any such covenants, the Company or injured Member shall be entitled, in addition to any other rights and remedies it may have at law or in equity, to obtain an injunction to restrain any threatened or actual activities in violation of any such covenants. The parties hereby consent and agree that temporary and permanent injunctive relief may be granted in any proceedings which might be brought to enforce any such covenants without the necessity of proof of actual damages, and in the event the Company or Member does apply for such an injunction, that the Company or Member has an adequate remedy at law shall not be raised as a defense.

Article XIII. REPRESENTATIONS AND WARRANTIES

Each Member warrants and represents to the other Members (each of which warranties and representations shall be deemed to be a continuing warranty and representation and covenant that such warranties and representations shall remain true and correct at all times during the term of the Company) that:

13.1 Status. If an entity, such Member is duly organized, validly existing and in good standing under the laws of its state of formation, and each has the power under its organizational documents and adequate authority to execute, deliver, and perform this Agreement which upon such execution and delivery will be a legal, valid, and binding obligation of such party enforceable in accordance with its terms (subject only to the application of bankruptcy, reorganization, insolvency or other similar laws regarding the rights of creditors generally and the exercise of judicial discretion in equity).

13.2 Due Authorization. The execution, delivery and performance of this Agreement by a Member who is an entity have been duly authorized by all requisite corporate, partnership or other organizational action of such party and, as of the date hereof, do not require the consent or approval of any person that has not been obtained and are not in contravention of or in conflict with any term or provision of the organizational documents of such party.

13.3 Other Agreements and Violations of Law. The execution, delivery and performance of this Agreement by such Member will not breach or constitute a default under any agreement, indenture, undertaking or other instrument to which such party or any affiliate of such party is a party or by which any of such persons or any of their respective properties may be bound or affected, which breach or default would have a materially adverse effect on the financial condition of such Member or on the financial condition, properties or operations of the Company. Other than as contemplated by this Agreement such execution, delivery, and performance will not result in the creation or imposition of (or the obligation to create or impose) any lien or encumbrance on any of the Company property nor, to the knowledge of such party, constitute or result in the violation of any law.

13.4 No Litigation. There is no litigation or administrative or other proceeding or tax audit pending, or, to the knowledge of such Member, threatened against or affecting such Member, or any of its affiliates, or any of their respective properties, which, if determined adversely, would have a materially adverse effect on the financial condition, properties or operations of the Company. As of the date hereof, neither such Member, nor, to the knowledge of such Member, any affiliate of such Member is in default with respect to any order, writ, injunction, decree or demand of any court of other governmental or regulatory authority which might in any way adversely affect the Company.

Article XIV. MISCELLANEOUS

14.1 Complete Agreement. This Agreement and the Certificate constitute the complete and exclusive statement of agreement among the Members with respect to the subject matter herein and therein and replace and supersede all prior written and oral agreements or statements by and among the Members or any of them. No representation, statement, condition or warranty not contained in this Agreement or the Certificate will be binding on the Members or have any force or effect whatsoever. To the extent that any provision of the Certificate conflicts with any provision of this Agreement, the Certificate shall control.

14.2 Consultation with Attorney. Each Member has been advised to consult with its own attorney regarding all legal matters concerning an investment in the Company and the tax consequences of participating in the Company, and has done so, to the extent it considers necessary.

14.3 Tax Consequences. Each Member acknowledges that the tax consequences to it of investing in the Company will depend on its particular circumstances, and neither the Company, the Members, nor the partners, shareholders, members, agents, officers, directors, employees, Affiliates, or consultants of any of them will be responsible or liable for the tax consequences to him or her of an investment in the Company. It will look solely to, and rely upon, its own advisers with respect to the tax consequences of this investment.

14.4 No Assurance of Tax Benefits. Each Member acknowledges that there can be no assurance that the Code or the Regulations will not be amended or interpreted in the future in such a manner so as to deprive the Company and the Members of some or all of the tax benefits they might now receive, nor that some of the deductions claimed by the Company or the allocations of items of income, gain, loss, deduction, or credit among the Members may not be challenged by the Internal Revenue Service.

14.5 Binding Effect. Subject to the provisions of this Agreement relating to transferability, this Agreement will be binding upon and inure to the benefit of the Members, and their respective successors and assigns.

14.6 Parties in Interest. Except as expressly provided in the Act, nothing in this Agreement shall confer any rights or remedies under or by reason of this Agreement on any Persons other than the Members and their respective successors and assigns nor shall anything in this Agreement relieve or discharge the obligation or liability of any third person to any party to this Agreement, nor shall any provision give any third person any right of subrogation or action over or against any party to this Agreement.

14.7 Pronouns; Statutory References. All pronouns and all variations thereof shall be deemed to refer to the masculine, feminine, or neuter, singular or plural, as the context in which they are used may require. Any reference to the Code, the Regulations, the Act or other statutes or laws will include all amendments, modifications, or replacements of the specific sections and provisions concerned.

14.8 Headings. All headings herein are inserted only for convenience and ease of reference and are not to be considered in the construction or interpretation of any provision of this Agreement.

14.9 Interpretation. In the event any claim is made by any Member relating to any conflict, omission or ambiguity in this Agreement, no presumption or burden of proof or persuasion shall be implied by virtue of the fact that this Agreement was prepared by or at the request of a particular Member or its counsel.

14.10 References to this Agreement. Numbered or lettered articles, sections and subsections herein contained refer to articles, sections and subsections of this Agreement unless otherwise expressly stated.

14.11 Jurisdiction. Each Member hereby consents to the exclusive jurisdiction of the state and federal courts sitting in Delaware in any action on a claim arising out of, under or in connection with this Agreement or the transactions contemplated by this Agreement. Each Member further agrees that personal jurisdiction over him or her may be effected by service of process by registered or certified mail addressed as provided in **Section 14.14** of this Agreement, and that when so made shall be as if served upon him or her personally within the Member's state of residence.

14.12 Exhibits All Exhibits attached to this Agreement are incorporated and shall be treated as if set forth herein.

14.13 Additional Documents and Acts. Each Member agrees to execute and deliver such additional documents and instruments and to perform such additional acts as may be necessary or appropriate to effectuate, carry out and perform all of the terms, provisions, and conditions of this Agreement and the transactions contemplated hereby.

14.14 Notices.

A. All notices required or permitted shall be in writing and may be communicated in person or by mail. Notice shall be deemed to be delivered when deposited in the United States mail addressed to the respective Member at its mailing address as designated in the records of the Membership, with postage thereon prepaid, registered or certified mail, return receipt requested, or if personally delivered, when received. Notices to a dissolved or bankrupt Member shall be delivered in the same manner to the last known address of its registered agent or receiver, as the case may be.

B. While all notices, demands and requests shall be effective as provided in **Section 14.4A** above, the time period in which a response to any such notice, demand or request must be given shall commence to run from the date of receipt appearing on the return receipt or other evidence of delivery of the notice, and the time period in which a response to a demand or request must be given shall commence to run from the date of receipt on the return receipt or other evidence of delivery of the notice. Rejection or other refusal to accept or the inability to deliver because of changed address of which no notice was given shall be deemed to be receipt of the notice, demand or request sent.

C. By giving to the other Members at least thirty (30) days' prior written notice thereof, each Member and its successors and assigns shall have the right from time to time and at any time during the term of this Agreement to change their addresses and each shall have the right to specify as its address any other address within the United States of America.

14.15 Amendments. All amendments to this Agreement will be in writing and signed by all of the Members.

14.16 Reliance on Authority of Person Signing Agreement If a Member is not a natural person, neither the Company nor any Member will: (A) be required to determine the authority of the individual signing this Agreement to make any commitment or undertaking on behalf of such entity or to determine any fact or circumstance bearing upon the existence of the authority of such individual, or (B) be responsible for the application or distribution of proceeds paid or credited to individuals signing this Agreement on behalf of such entity.

14.17 Company Property. All property contributed to the Company or acquired with Company funds shall be held and titled in the name of the Company and not individually by or for any Member.

14.18 Multiple Counterparts. This Agreement may be executed in two or more counterparts, each of which shall be deemed an original, but all of which shall constitute one and the same instrument.

14.19 Attorney Fees. In the event that any dispute between the Company and the Members or among the Members should result in litigation or arbitration, the prevailing party in such dispute shall be entitled to recover from the other party all reasonable fees, costs and expenses of enforcing any right of the prevailing party, including without limitation, reasonable attorneys' fees and expenses, all of which shall be deemed to have accrued upon the commencement of such action and shall be paid whether or not such action is prosecuted to judgment. Any judgment or order entered in such action shall contain a specific provision providing for the recovery of attorney fees and costs incurred in enforcing such judgment and an award of prejudgment interest from the date of the breach at the maximum rate of interest allowed by law. For the purposes of this Section: (a) attorney fees shall include, without limitation, fees incurred in the following: (1) post judgment motions; (2) contempt proceedings; (3) garnishment, levy, and debtor and third party examinations; (4) discovery; and (5) bankruptcy litigation and (b) prevailing party shall mean the party who is determined in the proceeding to have prevailed or who prevails by dismissal, default or otherwise.

14.20 Time is of the Essence. All dates and times in this Agreement are of the essence.

14.21 Remedies Cumulative. The remedies under this Agreement are cumulative and shall not exclude any other remedies to which any person may be lawfully entitled.

14.22 Severability. Each article, section, subsection, and lesser section of this Agreement constitutes a separate and distinct undertaking, covenant or provision hereof. In the event that any provision of this Agreement shall be determined to be invalid or unenforceable, such provision shall be deemed limited by construction in scope and effect to the minimum extent necessary to render the same valid and enforceable, and, in the event such a limiting construction is impossible, such invalid or unenforceable provision shall be deemed severed from this Agreement, but every other provision of this Agreement shall remain in full force and effect.

14.23 Partition. The Members hereby agree that no Members, nor any successor in interest of any Members, shall have the right to have Company assets partitioned, or to file a complaint or institute any proceedings of law or equity to have a Company asset partitioned, and each Member, on behalf of itself, its successors and assigns, hereby waives any such rights.

14.24 Waiver. The failure of any Member to insist upon strict performance of a covenant hereunder or any obligation hereunder shall not be a waiver of such Member's right to demand compliance therewith in the future.

All of the Members have executed this Agreement, effective as of the date written above.

Pursuant to the Merger Agreement (as this and other capitalized terms used in these preliminary statements are defined in Section 1.01 below), Kangaroo Acquisition, Inc., a Delaware corporation and a wholly owned Subsidiary of Holdings (" Acquisition Sub"), shall be merged with the Borrower, with the Borrower as the surviving corporation (the " Merger").

The Borrower has requested that substantially simultaneously with the consummation of the Merger, the Lenders extend credit to the Borrower in the form of (i) Term Loans in an initial aggregate principal amount of $1,310,000,000, (ii) a Working Capital RC Facility in an aggregate principal amount of $150,000,000 and (iii) a Pre-Funded RC Facility in an aggregate principal amount of $100,000,000.
