# NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

### 1. Description of the Business and Basis of Presentation

Description of the Business - Bloomin' Brands, Inc. ("Bloomin' Brands" or the "Company") owns and operates casual, upscale casual and fine dining restaurants primarily in the United States. The Company's restaurant portfolio has four concepts: Outback Steakhouse, Carrabba's Italian Grill, Bonefish Grill and Fleming's Prime Steakhouse & Wine Bar. Additional Outback Steakhouse, Carrabba's Italian Grill and Bonefish Grill restaurants in which the Company has no direct investment are operated under franchise agreements. In January 2015, the Company sold its Roy's business.

Basis of Presentation - The accompanying interim unaudited consolidated financial statements have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission. Accordingly, they do not include all the information and footnotes required by generally accepted accounting principles in the United States ("U.S. GAAP") for complete financial statements. In the opinion of the Company, all adjustments necessary for the fair presentation of the Company's results of operations, financial position and cash flows for the periods presented have been included and are of a normal, recurring nature. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year. These financial statements should be read in conjunction with the audited financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 28, 2014.

*Reclassifications* - The Company reclassified certain items in the accompanying consolidated financial statements for prior periods to be comparable with the classification for the current period. These reclassifications had no effect on previously reported net income.

Recently Issued Financial Accounting Standards Not Yet Adopted - In April 2015, the Financial Accounting Standards Board (the "FASB") issued Accounting Standards Update ("ASU") No. 2015-03: "Interest - Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs" ("ASU No. 2015-03"). ASU No. 2015-03 will require debt issuance costs related to a recognized debt liability to be presented in the balance sheet as a direct deduction from the carrying amount of the related debt liability. The update requires retrospective application and represents a change in accounting principle. ASU No. 2015-03 will be effective for the Company in fiscal year 2016, with early adoption permitted. The Company does not expect ASU No. 2015-03 to have a material impact on its financial position, results of operations and cash flows.

In August 2014, the FASB issued ASU No. 2014-15: "Presentation of Financial Statements-Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern" ("ASU No. 2014-15"). ASU No. 2014-15 will explicitly require management to evaluate whether there is substantial doubt about an entity's ability to continue as a going concern, and to provide related footnote disclosures in certain circumstances. The new standard is applicable for all entities and will be effective for the Company in fiscal year 2016. The Company does not expect ASU No. 2014-15 to have a material impact on its financial position, results of operations and cash flows.

In May 2014, the FASB issued ASU No. 2014-09 "Revenue Recognition (Topic 606), Revenue from Contracts with Customers" ("ASU No. 2014-09"). ASU No. 2014-09 provides a single source of guidance for revenue arising from contracts with customers and supersedes current revenue recognition standards. Under ASU No. 2014-09, revenue is recognized in an amount that reflects the consideration an entity expects to receive for the transfer of goods and services. On July 9, 2015, the FASB agreed to delay the effective date of ASU 2014-09 by one year. As a result, the new guidance will be effective for the Company in fiscal year 2018 and is applied retrospectively to each period presented or as a cumulative effect adjustment at the date of adoption. The Company has not selected a transition method and is evaluating the impact this guidance will have on its financial position, results of operations and cash flows.

Recent accounting guidance not discussed above is not applicable, did not have, or is not expected to have a material impact to the Company.

Provision for impaired assets and restaurant closings	\$	900	\$	1,025	\$	10,033	\$	7,089	

Restaurant Closure Initiatives - During 2014, the Company decided to close 36 underperforming international locations, primarily in South Korea (the "International Restaurant Closure Initiative"). As of June 28, 2015, 35 of the 36 locations had been closed. In connection with the International Restaurant Closure Initiative, the Company incurred pre-tax restaurant and other closing costs of (\$0.3) million and \$6.1 million during the thirteen and twenty-six weeks ended June 28, 2015, respectively, which were recorded within the International segment.

The Company expects to incur additional charges of approximately \$1.0 million, including costs associated with lease obligations, employee terminations and other closure related obligations, through the third quarter of 2015. Future cash expenditures of \$5.0 million to \$7.0 million, primarily related to lease liabilities, are expected to occur through August 2022.

In the fourth quarter of 2013, the Company completed an assessment of its domestic restaurant base and decided to close 22 underperforming domestic locations (the "Domestic Restaurant Closure Initiative"). Pre-tax restaurant and other closing costs of \$1.3 million and \$6.0 million were incurred during the twenty-six weeks ended June 28, 2015 and June 29, 2014, respectively, in connection with the Domestic Restaurant Closure Initiative, which were recorded within the U.S. segment.

Following is a summary of restaurant closure initiative expenses recognized in the Consolidated Statement of Operations and Comprehensive Income (dollars in thousands):

# NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) - Continued

The following table summarizes the Company's accrual activity related to facility closure and other costs, primarily associated with the Domestic and International Restaurant Closure Initiatives, during the twenty-six weeks ended June 28, 2015:

	TWI	ENTY-SIX WEEKS ENDED
(dollars in thousands)	<u> </u>	JUNE 28, 2015
Beginning of the period	\$	11,000
Charges		8,634
Cash payments		(10,022)
Adjustments (1)		(753)
End of the period (2)	\$	8,859

<sup>(1)</sup> Adjustments to facility closure and other costs represent changes in sublease assumptions and the impact of lease settlements on the Company's remaining lease obligations.

Roy's - On January 26, 2015, the Company sold its Roy's business to United Ohana, LLC (the "Buyer"), for a purchase price of \$10.0 million, less certain liabilities, and recorded a (gain) loss on sale of (\$0.3) million and \$0.8 million, which was recorded in Other expense, net, during the thirteen and twenty-six weeks ended June 28, 2015, respectively. The sale agreement contains a provision obligating the Company to pay the Buyer up to \$5.0 million, if certain lease contingencies are not resolved prior to April 2018 and the Buyer is damaged. In July 2015, these lease contingencies were satisfactorily resolved.

In connection with the sale of Roy's, the Company continues to provide lease guarantees for certain of the Roy's locations. Under the guarantees, the Company will pay the rental expense over the remaining lease term in the event of default by the Buyer. The fair value and maximum value of the lease guarantees is nominal. The maximum amount is calculated as the fair value of the lease payments over the remaining lease term and assumes that there are subleases.

Following are the components of Roy's included in the Consolidated Statements of Operations and Comprehensive Income during the periods indicated:

		THIRTEEN W	S ENDED		TWENTY-SIX	WEE	KS ENDED

Income (loss) before income taxes (1)	\$	327	\$	113	\$	(641)	\$	568

<sup>(1)</sup> Includes (gain) loss on sale of (\$0.3) million and \$0.8 million during the thirteen and twenty-six weeks ended June 28, 2015, respectively.

Other Disposals - During the second quarter of 2015, the Company recognized additional pre-tax asset impairment charges of \$0.7 million for corporate aircraft classified as held for sale. The impairment charges are recorded in Provision for impaired assets and restaurant closings in the Consolidated Statements of Operations and Comprehensive Income.

Acquisitions - In 2013, the Company completed the acquisition of a controlling interest in PGS Consultoria e Serviços Ltda. (the "Brazil Joint Venture") by purchasing 80% of the issued and outstanding capital stock of PGS Participações Ltda ("PGS Par"). As a result of the acquisition, the Company had a 90% interest and the former equity holders of PGS Par ("Former Equity Holders") retained a noncontrolling interest of 10% in the Brazil Joint Venture.

In April 2015, certain Former Equity Holders exercised options to sell their remaining interests in the Brazil Joint Venture to the Company for total cash consideration of \$0.7 million This transaction resulted in a reduction of \$0.5

<sup>(2)</sup> As of June 28, 2015, the Company had exit-related accruals of \$2.5 million recorded in Accrued and other current liabilities and \$6.4 million recorded in Other long-term liabilities, net.

million and \$0.2 million of Mezzanine equity and Additional paid-in capital, respectively, during the twenty-six weeks ended June 28, 2015. As a result of the option exercise, the Company now owns 90.25% of the Brazil Joint Venture.

In connection with the Company's acquisition of the Brazil Joint Venture in 2013, \$7.9 million of the Company's cash was held in escrow for customary indemnification obligations. The Former Equity Holders had an equal amount of cash held in escrow. The Company's portion of escrow cash is reflected as restricted cash in the Company's Consolidated Balance Sheet. In June 2015, the Company and the Former Equity Holders agreed to release all escrow cash.

Certain Former Equity Holders contributed approximately \$3.2 million to the Company for a noncontrolling interest in a new concept in Brazil (Abbraccio) in June 2015. As the Company consolidates the results of its Brazil operations on a one-month calendar lag, the release of cash and recognition of the noncontrolling interest will be reflected in the Company's Consolidated Balance Sheet as of September 27, 2015.

### 3. Earnings Per Share

The Company computes basic earnings per share based on the weighted average number of common shares that were outstanding during the period. Diluted earnings per share includes the dilutive effect of common stock equivalents consisting of stock options, restricted stock, restricted stock units and performance-based share units, using the treasury stock method. Performance-based share units are considered dilutive when the related performance criterion has been met.

The following table presents the computation of basic and diluted earnings per share:

		THIRTEEN V	VEEKS E	TWENTY-SIX WEEKS ENDED

	\$	5,233	\$	4,264	\$	9,818	\$	7,839	

During the twenty-six weeks ended June 28, 2015, the Company made grants to its employees of 1.2 million stock options, 0.4 million time-based restricted stock units and 0.2 million performance-based share units.

Assumptions used in the Black-Scholes option pricing model and the weighted-average fair value of option awards granted were as follows:

	TWENTY-SIX WEEKS ENDED
	JUNE 28, 2015
Assumptions:	
Weighted-average risk-free interest rate (1)	1.64%
Dividend yield (2)	1.0%
Expected term (3)	6.3 years
Weighted-average volatility (4)	43.4%
Weighted-average grant date fair value per option	\$ 10.11

- (1) Risk-free rate is the U.S. Treasury yield curve in effect as of the grant date for periods within the contractual life of the option.
- (2) Dividend yield is the level of dividends expected be paid on the Company's common stock over the expected term of the option.
- (3) Expected term represents the period of time that the options are expected to be outstanding. The simplified method of estimating the expected term is used since the Company does not have significant historical exercise experience for its stock options.
- (4) Volatility for the twenty-six weeks ended June 28, 2015 is based on the historical volatilities of the Company's stock and the stock of comparable peer companies.

The following represents unrecognized stock compensation expense and the remaining weighted-average vesting period as of June 28, 2015:

	COMPEN	RECOGNIZED SATION EXPENSE rs in thousands)	REMAINING WEIGHTED- AVERAGE VESTING PERIOD (in years)

As of June 28, 2015, the Company allocated Net income attributable to noncontrolling interests and performed a measurement of the redemption amount for Redeemable noncontrolling interests, including a fair value assessment. Based on the fair value assessment, no adjustment was required for the twenty-six weeks ended June 28, 2015.

#### 10. Stockholders' Equity

Secondary Public Offering - In March 2015, Bain Capital sold its remaining shares of the Company's common stock through an underwritten secondary public offering. The selling stockholders received all of the proceeds from the offering. Pursuant to the underwriting agreement for the secondary public offering, the Company repurchased from the underwriters 2,759,164 of the shares sold by Bain Capital at a cost of \$70.0 million.

Share Repurchases - In December 2014, the Company's Board of Directors (the "Board") approved a share repurchase program (the "2014 Share Repurchase Program") under which the Company was authorized to repurchase up to \$100.0 million of its outstanding common stock. As of June 28, 2015, no shares remained available for purchase under the 2014 Share Repurchase Program.

<sup>(2)</sup> The loss was comprised of the write-off of \$5.5 million of deferred financing fees, the write-off of \$4.9 million of unamortized debt discount and a prepayment penalty of \$0.7 million.

<sup>(1)</sup> Includes the repurchase of \$70.0 million of the Company's common stock in connection with the secondary public offering by Bain Capital in March 2015.

In August 2015, the Board approved a new share repurchase program (the "2015 Share Repurchase Program") under which the Company is authorized to repurchase up to \$100.0 million of its outstanding common stock. The authorization for the 2015 Share Repurchase Program will expire on February 3, 2017. As of the date of this filing, no shares had been repurchased under the 2015 Share Repurchase Program.

Shares repurchased are retired. The par value of the repurchased shares is deducted from common stock and the excess of the purchase price over the par value of the shares is recorded to Accumulated deficit.

Dividends - The Company declared and paid dividends per share during the periods presented as follows:

	DIVIDENDS PER SHARE	AMOUNT (in thousands)
Thirteen weeks ended March 29, 2015	\$ 0.06	\$ 7,423
Thirteen weeks ended June 28, 2015	0.06	7,391

#### 11. Derivative Instruments and Hedging Activities

The Company is exposed to certain risk arising from both its business operations and economic conditions. The Company manages economic risks, including interest rate risk, primarily by managing the amount, sources and duration of its debt funding and through the use of derivative financial instruments. The Company's objectives in using interest rate derivatives are to add stability to interest expense and to manage its exposure to interest rate movements. To accomplish these objectives, the Company primarily uses interest rate swaps.

# NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) - Continued

#### **DESIGNATED HEDGES**

Cash Flow Hedges of Interest Rate Risk - On September 9, 2014, the Company entered into variable-to-fixed interest rate swap agreements with eight counterparties to hedge a portion of the cash flows of the Company's variable rate debt. The swap agreements have an aggregate notional amount of \$400.0 million, a forward start date of June 30, 2015, and mature on May 16, 2019. Under the terms of the swap agreements, the Company will pay a weighted-average fixed rate of 2.02% on the \$400.0 million notional amount and receive payments from the counterparty based on the 30-day LIBOR rate.

The interest rate swaps, which have been designated and qualify as a cash flow hedge, are recognized on the Company's Consolidated Balance Sheets at fair value and are classified based on the instruments' maturity dates. Fair value changes in the interest rate swaps are recognized in AOCL for all effective portions. Balances in AOCL are subsequently reclassified to earnings in the same period that the hedged interest payments affect earnings. The Company estimates \$6.4 million will be reclassified to interest expense over the next twelve months.

The following table presents the fair value and classification of the Company's interest rate swaps:

(dollars in thousands)	 JUNE 28, 2015	 DECEMBER 28, 2014	CONSOLIDATED BALANCE SHEET CLASSIFICATION
Interest rate swaps - liability	\$ 6,052	\$ 2,617	Accrued and other current liabilities
Interest rate swaps - liability	3,065	1,307	Other long-term liabilities, net
Total fair value of derivative instruments (1)	\$ 9,117	\$ 3,924	

(1) See Note 12 - Fair Value Measurements for fair value discussion of the interest rate swaps.

As of June 28, 2015, no interest expense related to the interest rate swaps is accrued in the Consolidated Balance Sheets or recognized in the Consolidated Statements of Operations and Comprehensive Income as the interest rate swaps did not commence until June 30, 2015. During the thirteen and twenty-six weeks ended June 28, 2015, the Company did not recognize any gain or loss as a result of hedge ineffectiveness.

The following table summarizes the effects of the interest rate swap on the Consolidated Statements of Operations and Comprehensive Income for the thirteen and twenty-six weeks ended June 28, 2015:

	 AMOUNT OF GAIN (LOSS) RECOGNIZE	D IN O	THER COMPREHENSIVE INCOME

Income tax (expense) benefit	(541)		2,025
Net of income taxes	\$ 844	\$	(3,168)

The Company records its derivatives on the Consolidated Balance Sheets on a gross balance basis. The Company's derivatives are subject to master netting arrangements. As of June 28, 2015, the Company did not have more than one derivative between the same counterparties and as such, there was no netting.

By utilizing the interest rate swaps, the Company is exposed to credit-related losses in the event that the counterparty fails to perform under the terms of the derivative contract. To mitigate this risk, the Company enters into derivative contracts with major financial institutions based upon credit ratings and other factors. The Company continually assesses the creditworthiness of its counterparties. As of June 28, 2015, all counterparties to the interest rate swaps had performed in accordance with their contractual obligations.

As of June 28, 2015, the fair value of the Company's derivatives in a net liability position, excluding any adjustment for nonperformance risk, was \$9.3 million. As of June 28, 2015, the Company has not posted any collateral related to

# NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) - Continued

these agreements. If the Company had breached any of these provisions as of June 28, 2015, it could have been required to settle its obligations under the agreements at their termination value of \$9.3 million.

### 12. Fair Value Measurements

Fair value is the price that would be received for an asset or paid to transfer a liability, or the exit price, in an orderly transaction between market participants on the measurement date. Fair value is categorized into one of following three levels based on the lowest level of significant input:

Level 1	Unadjusted quoted market prices in active markets for identical assets or liabilities
Level 2	Observable inputs available at measurement date other than quoted prices included in Level 1
Level 3	Unobservable inputs that cannot be corroborated by observable market data

Fair Value Measurements on a Recurring Basis - The following table summarizes the Company's financial assets and liabilities measured at fair value by hierarchy level on a recurring basis as of June 28, 2015 and December 28, 2014:

	JUNE 28, 2015											
(dollars in thousands)	Т	TOTAL		LEVEL 1		LEVEL 2		TOTAL		LEVEL 1		EVEL 2

Total liability recurring fair value measurements	\$	9,624	\$	_	\$	9,624	\$	4,490	\$	_	\$	4,490

Fair value of each class of financial instrument is determined based on the following:

FINANCIAL INSTRUMENT	METHODS AND ASSUMPTIONS
Fixed income funds and Money market funds	Carrying value approximates fair value because maturities are less than three months.
Derivative instruments	Derivative instruments primarily relate to the interest rate swaps. Fair value measurements are based on a discounted cash flow analysis on the expected cash flows of each derivative. This analysis reflects the contractual terms of the derivatives and uses observable market-based inputs, including interest rate curves and credit spreads. The Company incorporates credit valuation adjustments to reflect both its own nonperformance risk and the respective counterparty's nonperformance risk in the fair value measurements. As of June 28, 2015, the Company has determined that the credit valuation adjustments are not significant to the overall valuation of its derivatives.

# NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) - Continued

Fair Value Measurements on a Nonrecurring Basis - Assets and liabilities that are measured at fair value on a nonrecurring basis relate primarily to property, fixtures and equipment, goodwill and other intangible assets, which are remeasured when carrying value exceeds fair value. The following table summarizes the Company's assets measured at fair value by hierarchy level on a nonrecurring basis for the thirteen and twenty-six weeks ended June 28, 2015:

Interim Disclosures about Fair Value of Financial Instruments - The Company's non-derivative financial instruments as of June 28, 2015 and December 28, 2014 consist of cash equivalents, restricted cash, accounts receivable, accounts payable and current and long-term debt. The fair values of cash equivalents, restricted cash, accounts receivable and accounts payable approximate their carrying amounts reported in the Consolidated Balance Sheets due to their short duration.

Debt is carried at amortized cost; however, the Company estimates the fair value of debt for disclosure purposes. The following table includes the carrying value and fair value of the Company's debt by hierarchy level as of June 28, 2015 and December 28, 2014:

Fair value of debt is determined based on the following:

DEBT FACILITY	METHODS AND ASSUMPTIONS
Senior Secured Credit Facility	Quoted market prices in inactive markets.
CMBS loan	Assumptions derived from current conditions in the real estate and credit markets, changes in the underlying collateral and expectations of management.
Other notes payable	Discounted cash flow approach. Discounted cash flow inputs primarily include cost of debt rates which are used to derive the present value factors for the determination of fair value.

#### 13. Income Taxes

The effective income tax rates for the thirteen and twenty-six weeks ended June 28, 2015 were 29.9% and 27.1%, respectively, compared to 24.1% and 24.6% for the thirteen and twenty-six weeks ended June 29, 2014, respectively. The net increase in the effective income tax rate for the thirteen weeks ended June 28, 2015 was due to: (i) the favorable resolution of a payroll tax audit contingency that resulted in a deferred tax adjustment and (ii) a change in the blend of taxable income across the Company's U.S. and international subsidiaries. The net increase in the effective income tax rate for the twenty-six weeks ended June 28, 2015 was due to: (i) a change in the blend of taxable income across the Company's U.S. and international subsidiaries and (ii) the favorable resolution of a payroll tax audit contingency that resulted in a deferred tax adjustment.

See Note 7 - Accrued and Other Current Liabilities for additional details regarding the payroll tax audit contingency.

### 14. Commitments and Contingencies

Litigation and Other Matters - The matter set forth below is subject to uncertainties and outcomes that are not predictable with certainty. The Company is unable to estimate a range of reasonably possible loss for the matter described below as the proceedings are at stages where significant uncertainty exists as to the legal or factual issues. The Company provides disclosure of matters when management believes it is reasonably possible the impact may be material to the consolidated financial statements.

On October 4, 2013, two then-current employees (the "Nevada Plaintiffs") filed a purported collective action lawsuit against the Company, OSI Restaurant Partners, LLC ("OSI"), and two of its subsidiaries in the U.S. District Court for the District of Nevada (Cardoza, et al. v. Bloomin' Brands, Inc., et al., Case No.: 2:13-cv-01820-JAD-NJK). The complaint alleges violations of the Fair Labor Standards Act by requiring employees to work off the clock, complete on-line training without pay, and attend meetings in the restaurant without pay. The suit seeks to certify a nationwide collective action that all hourly employees in all Outback Steakhouse restaurants would be permitted to join. The suit seeks an unspecified amount in back pay for the employees that join the lawsuit, an equal amount in liquidated damages, costs, expenses, and attorney's fees. The Nevada Plaintiffs also filed a companion lawsuit in Nevada state court alleging that the Company violated the state break time rules. On October 27, 2014 the Court conditionally certified a class for notice purposes consisting of all employees that worked at a company-owned Outback Steakhouse between October 27, 2011 and October 27, 2014. The Company subsequently filed a Motion to Reconsider the October 27, 2014 order. On February 5, 2015, the Court denied the Company's Motion to reconsider the October 27, 2014 order granting conditional certification. The Company believes these lawsuits are without merit, and is vigorously defending all allegations.

In addition, the Company is subject to legal proceedings, claims and liabilities, such as liquor liability, sexual harassment and slip and fall cases, which arise in the ordinary course of business and are generally covered by insurance if they exceed specified retention or deductible amounts. In the opinion of management, the amount of ultimate liability with respect to those actions will not have a material adverse impact on the Company's financial position or results of operations and cash flows.

### 15. Segment Reporting

During the first quarter of 2015, the Company recast its segment reporting to include two reportable segments, U.S. and International, which reflects changes made in how the Company manages its business, reviews operating performance and allocates resources. The U.S. segment includes all brands operating in the U.S. while brands operating outside the U.S. are included in the International segment. All prior period information was recast to reflect this change.

The Company's reporting segments are organized based on restaurant concept and geographic location. Resources are allocated and performance is assessed by the Company's Chief Executive Officer ("CEO"), whom the Company has determined to be its Chief Operating Decision Maker. Following is a summary of reporting segments:

SEGMENT	CONCEPT	GEOGRAPHIC LOCATION						
U.S.	Outback Steakhouse							
	Carrabba's Italian Grill	United States of America, including Puerto Rico						
	Bonefish Grill	Officed States of Afficience, including 1 derio Rico						
	Fleming's Prime Steakhouse & Wine Bar							
International	Outback Steakhouse (1)	South Korea, Brazil, Hong Kong, China						
	Carrabba's Italian Grill (Abbraccio)	Brazil						

<sup>(1)</sup> Includes international franchise locations in 18 countries and Guam.

Segment accounting policies are the same as those described in Note 2 - Summary of Significant Accounting Policies in the Company's Annual Report on Form 10-K for the year ended December 28, 2014. Revenues for all segments include only transactions with customers and include no intersegment revenues. Excluded from net income from operations for U.S. and International are legal and certain corporate costs not directly related to the performance of the segments, interest and other expenses related to the Company's credit agreements and derivative instruments, certain stock-based compensation expenses, certain bonus expense and certain insurance expenses managed centrally.

## MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

### Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Management's discussion and analysis of financial condition and results of operations should be read in conjunction with our unaudited consolidated financial statements and the related notes. Unless the context otherwise indicates, as used in this report, the term the "Company," "we," "us," "our" and other similar terms mean Bloomin' Brands, Inc. and its subsidiaries.

### **Cautionary Statement**

This Quarterly Report on Form 10-Q (the "Report") includes statements that express our opinions, expectations, beliefs, plans, objectives, assumptions or projections regarding future events or future results and therefore are, or may be deemed to be, "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements can generally be identified by the use of forward-looking terminology, including the terms "believes," "estimates," "anticipates," "expects," "feels," "seeks," "forecasts," "projects," "intends," "plans," "may," "will," "should," "could" or "would" or, in each case, their negative or other variations or comparable terminology, although not all forward-looking statements contain these identifying words. These forward-looking statements include all matters that are not historical facts. They appear in a number of places throughout this Report and include statements regarding our intentions, beliefs or current expectations concerning, among other things, our results of operations, financial condition, liquidity, prospects, growth, strategies and the industry in which we operate.

By their nature, forward-looking statements involve risks and uncertainties because they relate to events and depend on circumstances that may or may not occur in the future. Although we base these forward-looking statements on assumptions that we believe are reasonable when made, we caution you that forward-looking statements are not guarantees of future performance and that our actual results of operations, financial condition and liquidity, and industry developments may differ materially from statements made in or suggested by the forward-looking statements contained in this Report. In addition, even if our results of operations, financial condition and liquidity, and industry developments are consistent with the forward-looking statements contained in this Report, those results or developments may not be indicative of results or developments in subsequent periods. Important factors that could cause actual results to differ materially from statements made or suggested by forward-looking statements include, but are not limited to, the following:

- (i) Economic conditions and their effects on consumer confidence and discretionary spending, consumer traffic, the cost and availability of credit and interest rates;
- (ii) Our ability to compete in the highly competitive restaurant industry with many well-established competitors and new market entrants:
- (iii) Our ability to preserve and grow the reputation and value of our brands;
- (iv) Our ability to acquire attractive sites on acceptable terms, obtain required permits and approvals, recruit and train necessary personnel and obtain adequate financing in order to develop new restaurants as planned, and difficulties in estimating the performance of newly opened restaurants;
- (v) The effects of international economic, political, social and legal conditions on our foreign operations and on foreign currency exchange rates;
- (vi) Our ability to effectively respond to changes in patterns of consumer traffic, consumer tastes and dietary habits;

# MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - Continued

- (vii) Seasonal and periodic fluctuations in our results and the effects of significant adverse weather conditions and other disasters or unforeseen events;
- (viii) Our ability to comply with governmental laws and regulations, the costs of compliance with such laws and regulations and the effects of changes to applicable laws and regulations;
- (ix) Minimum wage increases and additional mandated employee benefits;
- (x) Fluctuations in the price and availability of commodities;
- (xi) Consumer reactions to public health and food safety issues;
- (xii) Our ability to protect our information technology systems from interruption or security breach and to protect consumer data and personal employee information;
- (xiii) The effects of our substantial leverage and restrictive covenants in our various credit facilities on our ability to raise additional capital to fund our operations, to make capital expenditures to invest in new or renovate restaurants and to react to changes in the economy or our industry, and our exposure to interest rate risk in connection with our variable-rate debt;
- (xiv) The adequacy of our cash flow and earnings and other conditions which may affect our ability to pay dividends and repurchase shares of our common stock;
- (xv) Strategic actions, including acquisitions and dispositions and our success in integrating any acquired or newly created businesses; and
- (xvi) Such other factors as discussed throughout the "Risk Factors" section of this Report and in Part I, Item IA. Risk Factors of our Annual Report on Form 10-K for the year ended December 28, 2014.

In light of these risks and uncertainties, we caution you not to place undue reliance on these forward-looking statements. Any forward-looking statement that we make in this Report speaks only as of the date of such statement, and we undertake no obligation to update any forward-looking statement or to publicly announce the results of any revision to any of those statements to reflect future events or developments. Comparisons of results for current and any prior periods are not intended to express any future trends or indications of future performance, unless specifically expressed as such, and should only be viewed as historical data.

#### Overview

We are one of the largest casual dining restaurant companies in the world with a portfolio of leading, differentiated restaurant concepts. As of June 28, 2015, we owned and operated 1,323 restaurants and franchised 169 restaurants across 48 states, Puerto Rico, Guam and 22 countries. We have four founder-inspired concepts: Outback Steakhouse, Carrabba's Italian Grill, Bonefish Grill and Fleming's Prime Steakhouse & Wine Bar.

The casual dining restaurant industry is a highly competitive and fragmented industry and is sensitive to changes in the economy, trends in lifestyles, seasonality and fluctuating costs. Operating margins for restaurants can vary due to competitive pricing strategies, labor costs and fluctuations in prices of commodities and other necessities to operate a restaurant, such as natural gas or other energy supplies. Restaurant companies tend to be focused on increasing market share, comparable restaurant sales growth and new unit growth. Our industry is characterized by high initial capital investment, coupled with high labor costs. As a result, we focus on driving increased sales at existing restaurants in order to raise margins and profits, because the incremental contribution to profits from every additional dollar of sales above the minimum costs required to open, staff and operate a restaurant is relatively high. Historically, we have focused on restaurant growth with strong unit level economics.

### **Executive Summary**

Our financial results for the thirteen weeks ended June 28, 2015 ("second quarter 2015") include the following:

- U.S. comparable restaurant sales were 2.0% higher, primarily due to growth at Outback and Flemings, partially offset by a
  decline at Bonefish Grill.
- A decrease in total revenues of 1.0% to \$1.1 billion in the second quarter of 2015, as compared to the second quarter of 2014, primarily due to: (i) the effect of foreign currency translation, primarily due to the depreciation of the Brazilian Real, (ii) the closing of 55 restaurants since March 30, 2014, (iii) the sale of 20 Roy's restaurants and (iv) lower comparable restaurant sales at Bonefish Grill and Outback Steakhouse in South Korea. The decrease in revenues was partially offset by: (i) the opening of 89 new restaurants not included in our comparable restaurant sales base and (ii) an increase in comparable restaurant sales at our existing restaurants, primarily at Outback Steakhouse in the U.S. and Brazil.
- Income from operations of \$62.6 million in the second quarter of 2015 as compared to \$62.4 million in the second quarter of 2014, which was primarily due to an increase in operating margin at the restaurant-level, partially offset by higher general and administrative expense. Operating margin at the restaurant-level increased primarily due to productivity savings, higher U.S. average unit volumes and the favorable resolution of a payroll tax audit contingency. These increases were offset by commodity and wage rate inflation.

Following is a summary of significant actions we have taken and other factors that impacted our operating results and liquidity to date in 2015:

Dividend and Share Repurchase Programs - In December 2014, the Board adopted a dividend policy under which it intends to declare quarterly cash dividends on shares of our common stock. See Liquidity - Dividends and Share Repurchases.

The Board approved the 2014 Share Repurchase Program in December 2014 that authorized the repurchase of up to \$100.0 million of our outstanding common stock. In May 2015, we completed the repurchase of all shares authorized under the 2014 Share Repurchase Program, which included the repurchase of \$70.0 million of our common stock in connection with the secondary public offering by Bain Capital in March 2015.

# MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - Continued

In August 2015, the Board approved the 2015 Share Repurchase Program under which we are authorized to repurchase up to \$100.0 million of our outstanding common stock. The authorization for the 2015 Share Repurchase Program will expire on February 3, 2017. As of the date of this filing, no shares had been repurchased under the 2015 Share Repurchase Program.

Credit Agreement Amendment - On March 31, 2015, OSI, our wholly-owned subsidiary entered into the Amendment to OSI's Existing Credit Agreement, to effect an increase of OSI's existing revolving credit facility from \$600.0 million to \$825.0 million in order to fully pay down its existing Term Loan B on April 2, 2015. No other material changes were made to the terms of OSI's Existing Credit Agreement as a result of the Amendment. In connection with the Amendment, we recognized a loss on modification and extinguishment of debt of \$2.6 million.

Roy's - In January 2015, we sold our Roy's concept.

### **Key Performance Indicators**

Key measures that we use in evaluating our restaurants and assessing our business include the following:

- Average restaurant unit volumes—average sales per restaurant to measure changes in customer traffic, pricing and development
  of the brand;
- Comparable restaurant sales—year-over-year comparison of sales volumes for Company-owned restaurants that are open 18 months or more in order to remove the impact of new restaurant openings in comparing the operations of existing restaurants;
- System-wide sales—total restaurant sales volume for all Company-owned and franchise restaurants, regardless of ownership, to interpret the overall health of our brands;
- Adjusted restaurant-level operating margin, Adjusted income from operations, Adjusted net income and Adjusted diluted earnings per share—non-GAAP financial measures utilized to evaluate our operating performance, and for which definitions, usefulness and reconciliations are described in more detail in the "Non-GAAP Financial Measures" section below; and
- Customer satisfaction scores—measurement of our customers' experiences in a variety of key attributes.

For the period ended June 28, 2015	\$	1,092.8	\$	2,287.6

<sup>(1)</sup> Summation of quarterly changes for restaurant openings and comparable restaurant sales will not total to annual amounts as the restaurants that meet the definition of a comparable restaurant will differ each period based on when the restaurant opened.

The decrease in Restaurant sales in the thirteen weeks ended June 28, 2015 was primarily attributable to: (i) the effect of foreign currency translation, primarily due to the depreciation of the Brazilian Real, (ii) the closing of 55 restaurants since March 30, 2014, (iii) the sale of 20 Roy's restaurants and (iv) lower comparable restaurant sales at Bonefish Grill and Outback Steakhouse in South Korea. The decrease in restaurant sales was partially offset by: (i) the opening of 89 new restaurants not included in our comparable restaurant sales base and (ii) an increase in comparable restaurant sales at our existing restaurants, primarily at Outback Steakhouse in the U.S. and Brazil.

The increase in Restaurant sales in the twenty-six weeks ended June 28, 2015 was primarily attributable to: (i) the opening of 100 new restaurants not included in our comparable restaurant sales base, (ii) an increase in comparable restaurant sales at our existing restaurants, primarily at Outback Steakhouse in the U.S. and Brazil and (iii) two additional operating days during the twenty-six weeks ended June 28, 2015 due to a change in our fiscal year-end in 2014. The increase in restaurant sales was partially offset by: (i) the closing of 76 restaurants since December 31, 2013, (ii) the effect of foreign currency translation, primarily due to the depreciation of the Brazilian Real, (iii) the sale of 20 Roy's restaurants and (iv) lower comparable restaurant sales at Bonefish Grill and Outback Steakhouse in South Korea.

<sup>(1)</sup> Comparable restaurant sales exclude the effect of fluctuations in foreign currency rates. Relocated international restaurants closed more than 30 days and relocated U.S. restaurants closed more than 60 days are excluded from comparable restaurant sales until at least 18 months after reopening.

Our comparable restaurant sales represent the growth from restaurants opened 18 months or more. For the thirteen and twenty-six weeks ended June 28, 2015, combined U.S. comparable restaurant sales increased due to increases in general menu prices and product mix, partially offset by decreases from traffic. Customer traffic decreases were primarily due to Bonefish Grill, which lapped higher promotional activities in fiscal year 2014. In future quarters, we will slow our Bonefish Grill restaurant development until there is improvement in our sales results.

Comparable restaurant sales for South Korea decreased for the thirteen and twenty-six weeks ended June 28, 2015 due to decreases in traffic, partially offset by increases from product mix and general menu prices. Customer traffic decreased in South Korea due to macro-economic conditions and, during the thirteen weeks ended June 28, 2015, the outbreak of Middle East Respiratory Syndrome (MERS).

For the thirteen weeks ended June 28, 2015, comparable restaurant sales for Brazil increased due to increases in general menu prices, partially offset by decreases from traffic and product mix. Customer traffic decreases in Brazil were primarily due to timing of the Carnival holiday in 2015 and the impact of new restaurant units on the existing restaurant

<sup>(2)</sup> Due to our conversion to a 52-53 week fiscal year in 2014, there were two more days in the twenty-six weeks ended June 28, 2015 as compared to the twenty-six weeks ended June 29, 2014. These additional days increased total revenues by \$24.3 million and have been excluded from our comparable restaurant sales calculation for the twenty-six weeks ended June 28, 2015.

Labor and other related expenses include all direct and indirect labor costs incurred in operations, including distribution expense to managing partners, costs related to deferred compensation plans and other restaurant-level incentive compensation expenses. Labor and other related expenses increased as a percentage of Restaurant sales in the thirteen weeks ended June 28, 2015 as compared to the thirteen weeks ended June 29, 2014. The increase as a percentage of Restaurant sales was primarily due to: (i) 0.9% from higher kitchen and service labor costs due to higher wage rates and lunch expansion across certain concepts, (ii) 0.4% from higher field management compensation and bonuses based on individual restaurant performance and (iii) 0.3% due to higher health insurance expenses. These increases were offset by decreases as a percentage of Restaurant sales primarily attributable to: (i) 0.6% from higher U.S. average unit volumes, (ii) 0.5% from the impact of certain cost savings initiatives and (iii) 0.3% due to the favorable resolution of a payroll tax audit contingency.

Labor and other related expenses increased as a percentage of Restaurant sales in the twenty-six weeks ended June 28, 2015 as compared to the twenty-six weeks ended June 29, 2014. The increase as a percentage of Restaurant sales was primarily due to: (i) 0.9% from higher kitchen and service labor costs due to higher wage rates and lunch expansion across certain concepts, (ii) 0.2% due to higher health insurance and (iii) 0.1% from higher field management bonuses based on individual restaurant performance. These increases were offset by decreases as a percentage of Restaurant sales primarily attributable to: (i) 0.6% from higher U.S. average unit volumes, (ii) 0.4% from the impact of certain cost savings initiatives and (iii) 0.1% due to the favorable resolution of a payroll tax audit contingency.

Depreciation and amortization expense decreased as a percentage of Total revenues in the thirteen and twenty-six weeks ended June 28, 2015 as compared to the thirteen and twenty-six weeks ended June 29, 2014. The decrease as a percentage of Total revenues was primarily due to less depreciation for certain information technology assets that fully depreciated in the fourth quarter of 2014, the sale of Roy's in the first quarter of 2015 and lower depreciation for South Korea assets due to impairments related to the International Restaurant Closure Initiative. These decreases were partially offset by increases as a percentage of Total revenues primarily due to additional depreciation expense related to the opening of new restaurants and the remodel of existing restaurants.

#### General and administrative

General and administrative expense includes salaries and benefits, management incentive programs, related payroll tax and benefits, other employee-related costs and professional services. Following is a summary of the changes in general and administrative expenses:

		EEN WEEKS ENDED	TWENTY-SIX WEEKS ENDED

During the thirteen weeks ended June 28, 2015, general and administrative expense increased from the thirteen weeks ended June 29, 2014, primarily from the following items:

- · Incentive compensation was higher due to improved performance against current year objectives compared to prior year.
- A net decrease in the cash surrender value of life insurance investments related to our partner deferred compensation programs resulted in higher expense.

## MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - Continued

- Employee compensation, benefits and payroll tax was lower primarily due to our organizational realignment in the second half of fiscal 2014.
- Foreign exchange primarily includes the depreciation of the Brazil Real.

During the twenty-six weeks ended June 28, 2015, general and administrative expense increased primarily from the following items:

- · Incentive compensation was higher due to improved performance against current year objectives compared to prior year.
- A net decrease in the cash surrender value of life insurance investments related to our partner deferred compensation programs resulted in higher expense.
- Employee stock-based compensation increased due to additional grants.
- Employee compensation, benefits and payroll tax was lower primarily due to our organizational realignment in the second half of fiscal 2014.
- Foreign exchange primarily includes the depreciation of the Brazil Real.

Restaurant Closure Initiatives - In fiscal 2014, we decided to close 36 underperforming international locations, primarily in South Korea. In connection with the International Restaurant Closure Initiative, we incurred pre-tax restaurant closing costs of approximately (\$0.3) million and \$6.1 million during the thirteen and twenty-six weeks ended June 28, 2015. As a result of the International Restaurant Closure Initiative, we expect to incur additional pre-tax restaurant closing costs of approximately \$1.0 million, including costs associated with lease obligations and employee terminations, through the third quarter of 2015.

In the fourth quarter of 2013, we completed an assessment of our domestic restaurant base and decided to close 22 underperforming domestic locations. Approximately \$1.3 million and \$6.0 million of pre-tax restaurant closing costs were incurred during the twenty-six weeks ended June 28, 2015 and June 29, 2014, respectively, in connection with the Domestic Restaurant Closure Initiative.

Other Disposals - During the thirteen and twenty-six weeks ended June 28, 2015, we recognized additional pre-tax asset impairment charges of \$0.7 million for corporate aircraft classified as held for sale.

The remaining restaurant impairment and closing charges resulted from the carrying value of a restaurant's assets exceeding its estimated fair market value, primarily due to locations identified for relocation.

### SEGMENT PERFORMANCE

During the first quarter of 2015, we recast our segment reporting to reflect two reportable segments, U.S. and International, which reflects changes made in how we manage our business, review operating performance and allocate resources. Our U.S. segment includes all brands operating in the U.S. while brands operating outside the U.S. are included in the International segment. All prior period information was recast to reflect this change.

Our reporting segments are organized based on restaurant concept and geographic location. Resources are allocated and performance is assessed by our CEO, whom we have determined to be our Chief Operating Decision Maker. Following is a summary of reporting segments:

SEGMENT	CONCEPT	GEOGRAPHIC LOCATION
U.S.	Outback Steakhouse	
	Carrabba's Italian Grill	United States of America, including Puerto Rico
	Bonefish Grill	Officed States of Afficiacin, including Fuerto Rico
	Fleming's Prime Steakhouse & Wine Bar	
International	Outback Steakhouse (1)	South Korea, Brazil, Hong Kong, China
	Carrabba's Italian Grill (Abbraccio)	Brazil

<sup>(1)</sup> Includes international franchise locations in 18 countries and Guam.

Revenues for all segments include only transactions with customers and include no intersegment revenues. Excluded from net income from operations for U.S. and International are legal and certain corporate costs not directly related to the performance of the segments, interest and other expenses related to our credit agreements and derivative instruments, certain stock-based compensation expenses, certain bonus expense and certain insurance expenses managed centrally.

Following is a reconciliation of segment income from operations to the consolidated operating results:

<sup>(1)</sup> Summation of quarterly changes for restaurant openings and comparable restaurant sales will not total to annual amounts as the restaurants that meet the definition of a comparable restaurant will differ each period based on when the restaurant opened.

The increase in U.S. Restaurant sales in the thirteen weeks ended June 28, 2015 was primarily attributable to: (i) an increase in comparable restaurant sales at our existing restaurants and (ii) the opening of 47 new restaurants not included in our comparable restaurant sales base. The increase in U.S. Restaurant sales was partially offset by: (i) the sale of 20 Roy's restaurants in January 2015, (ii) lower comparable restaurant sales at Bonefish Grill and (iii) the closing of nine restaurants since March 30, 2014.

The increase in U.S. Restaurant sales in the twenty-six weeks ended June 28, 2015 was primarily attributable to: (i) an increase in comparable restaurant sales at our existing restaurants, (ii) the opening of 57 new restaurants not included in our comparable restaurant sales base and (iii) two additional operating days during the twenty-six weeks ended June 28, 2015 due to a change in our fiscal yearend in 2014. The increase in U.S. Restaurant sales was partially offset by: (i) the sale of 20 Roy's restaurants in January 2015, (ii) the closing of 27 restaurants since December 31, 2013 and (iii) lower comparable restaurant sales at Bonefish Grill.

### Restaurant-level operating margin

The increase in U.S. restaurant-level operating margin in the thirteen and twenty-six weeks ended June 28, 2015 as compared to the thirteen and twenty-six weeks ended June 29, 2014, was primarily due to the impact of certain cost saving initiatives, higher average unit volumes, pricing and lower marketing spend. This increase was partially offset by commodity inflation, product mix and higher kitchen and labor costs due to lunch rollout and labor inflation.

### Income from operations

The increase in U.S. income from operations generated in the thirteen weeks ended June 28, 2015 as compared to the thirteen weeks ended June 29, 2014 was primarily due to higher restaurant-level operating margin and lower General and administrative expense. General and administrative expense for the U.S. segment decreased primarily due to lower compensation and benefits driven by our organizational realignment in the second half of fiscal 2014 and lower professional fees.

The increase in U.S. income from operations generated in the twenty-six weeks ended June 28, 2015 as compared to the twenty-six weeks ended June 29, 2014 was primarily due to: (i) higher restaurant-level operating margin, (ii) a decrease in restaurant closing costs related to the Domestic Restaurant Closure Initiative and (iii) lower General and administrative expense. General and administrative expense for the U.S. segment decreased primarily due to lower compensation and benefits driven by our organizational realignment in the second half of fiscal 2014.

### Restaurant sales

Following is a summary of the changes in International segment restaurant sales for the thirteen and twenty-six weeks ended June 28, 2015:

(dollars in millions)	EEN WEEKS ENDED	TWENTY-SIX WEEKS ENDED	
For the period ended June 29, 2014	\$ 142.8	\$ 288.5	
Change from:			
Effect of foreign currency translation	(28.3)	(40.7)	
Restaurant closings	(19.5)	(40.5)	
Restaurant openings	22.2	43.7	
Comparable restaurant sales	(1.7)	1.7	
Change in fiscal year	_	 1.5	
For the period ended June 28, 2015	\$ 115.5	\$ 254.2	

The decrease in Restaurant sales in the thirteen weeks ended June 28, 2015 was primarily attributable to: (i) the effect of foreign currency translation of the Brazil Real relative to the U.S. dollar, (ii) the closing of 46 restaurants since March 30, 2014 and (iii) lower comparable restaurant sales in South Korea. The decrease in restaurant sales was partially offset by: (i) the opening of 42 new restaurants not included in our comparable restaurant sales base and (ii) an increase in comparable restaurant sales in Brazil.

# MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - Continued

The decrease in Restaurant sales in the twenty-six weeks ended June 28, 2015 was primarily attributable to: (i) the effect of foreign currency translation of the Brazil Real relative to the U.S. dollar, (ii) the closing of 49 restaurants since December 31, 2013 and (iii) lower comparable restaurant sales in South Korea. The decrease in restaurant sales was partially offset by: (i) the opening of 43 new restaurants not included in our comparable restaurant sales base, (ii) an increase in comparable restaurant sales in Brazil and (iii) two additional operating days during the twenty-six weeks ended June 28, 2015 due to a change in our fiscal year-end in 2014.

#### Restaurant-level operating margin

The decrease in International restaurant-level operating margin in the thirteen weeks ended June 28, 2015 as compared to the thirteen weeks ended June 29, 2014 was primarily due to commodity and labor inflation and investment spending related to the launching of Abbraccio in Brazil. The decrease was partially offset by the opening of new restaurants, the impact of certain cost saving initiatives and pricing.

The increase in International restaurant-level operating margin in the twenty-six weeks ended June 28, 2015 as compared to the twenty-six weeks ended June 29, 2014 was primarily due to the opening of new restaurants, the impact of certain cost saving initiatives and pricing. This increase was partially offset by commodity and labor inflation.

### Income from operations

The decrease in International income from operations in the thirteen weeks ended June 28, 2015 as compared to the thirteen weeks ended June 29, 2014 was primarily due to lower restaurant-level operating margin partially offset by lower general and administrative expense.

The decrease in International income from operations in the twenty-six weeks ended June 28, 2015 as compared to the twenty-six weeks ended June 29, 2014 was primarily due to costs related to the International Restaurant Closure Initiative, partially offset by higher restaurant-level operating margin.

### **Non-GAAP Financial Measures**

In addition to the results provided in accordance with U.S. GAAP, we provide non-GAAP measures which present operating results on an adjusted basis. These are supplemental measures of performance that are not required by or presented in accordance with U.S. GAAP and include the following: (i) system-wide sales, (ii) Adjusted restaurant-level operating margins, (iii) Adjusted income from operations and the corresponding margins, (iv) Adjusted net income and (v) Adjusted diluted earnings per share.

Although we believe these non-GAAP measures enhance investors' understanding of our business and performance, these non-GAAP financial measures are not intended to replace accompanying U.S. GAAP financial measures. These metrics are not necessarily comparable to similarly titled measures used by other companies.

### System-Wide Sales

System-wide sales is a non-GAAP financial measure that includes sales of all restaurants operating under our brand names, whether we own them or not. Management uses this information to make decisions about future plans for the development of additional restaurants and new concepts, as well as evaluation of current operations. System-wide sales comprise sales of Company-owned and franchised restaurants. Following is a summary of sales of Company-owned restaurants:

### Other Non-GAAP Financial Measures

The following information provides a reconciliation of a non-GAAP financial measure to the most comparable financial measure calculated and presented in accordance with GAAP. The use of other non-GAAP financial measures permits investors to assess the operating performance of our business relative to our performance based on U.S. GAAP results and relative to other companies within the restaurant industry by isolating the effects of certain items that vary from period to period without correlation to core operating performance or that vary widely among similar companies. However, our inclusion of these adjusted measures should not be construed as an indication that our future results will be unaffected by unusual or infrequent items or that the items for which we have made adjustments are unusual or infrequent. We believe that the disclosure of these non-GAAP measures is useful to investors as they form the basis for how our management team and the Board evaluate our operating performance, allocate resources and establish employee incentive plans.

### Adjusted restaurant-level operating margin

Restaurant-level operating margin is calculated as Restaurant sales after deduction of the main restaurant-level operating costs, which includes Cost of sales, Labor and other related and Other restaurant operating. The following table shows the percentages of certain operating cost financial statement line items in relation to Restaurant sales:

<sup>(1)</sup> Represents expenses incurred in the thirteen and twenty-six weeks ended June 28, 2015 for the International and Domestic Restaurant Closure Initiatives and expenses incurred for the Domestic Restaurant Closure Initiative during the twenty-six weeks ended June 29, 2014.

<sup>(2)</sup> Relates to a payroll tax audit contingency adjustment for the employer's share of FICA taxes related to cash tips allegedly received and unreported by our employees during calendar year 2011, which is recorded in Labor and other related expenses. In addition, a deferred income tax adjustment has been recorded for the allowable income tax credits for the employer's share of FICA taxes expected to be paid, which is included in (Benefit) provision for income taxes and offsets the adjustment to Labor and other related expenses. As a result, there is no impact to Net income from this adjustment.

<sup>(3)</sup> Represents non-cash intangible amortization recorded as a result of the acquisition of our Brazil operations.

<sup>(4)</sup> Represents asset impairment charges and accelerated depreciation incurred in connection with our relocation program.

<sup>(5)</sup> Represents asset impairment charges and related costs associated with the decision to sell our corporate aircraft.

<sup>(6)</sup> Relates primarily to costs incurred with the secondary offerings of our common stock in March 2015 and March 2014, respectively, and other transaction costs.

<sup>(7)</sup> Primarily represents the sale of our Roy's business.

<sup>(8)</sup> Relates to the refinancing of our Senior Secured Credit Facility in March 2015 and May 2014, respectively.

<sup>(9)</sup> Income tax effect of adjustments for the thirteen and twenty-six weeks ended June 28, 2015 and June 29, 2014, respectively, are calculated based on the statutory rate applicable to jurisdictions in which the above non-GAAP adjustments relate. For the thirteen and twenty-six weeks ended June 28, 2015, a deferred income tax adjustment has been recorded for the allowable income tax credits for the employer's share of FICA taxes expected to be paid. See footnote 2 to this table.

### Liquidity and Capital Resources

## LIQUIDITY

Our liquidity sources consist of cash flow from our operations, cash and cash equivalents and credit capacity under our credit facilities. We expect to use cash primarily for general operating expenses, principal and interest payments on our debt, the development of new restaurants and new markets, share repurchases and dividend payments, remodeling or relocating older restaurants, obligations related to our deferred compensation plans and investments in technology.

We believe that our expected liquidity sources are adequate to fund our anticipated cash usages, as described above, for the next 12 months. However, our ability to continue to meet these requirements and obligations will depend on, among other things, our ability to achieve anticipated levels of revenue and cash flow and our ability to manage costs and working capital successfully.

Cash and Cash Equivalents - As of June 28, 2015 and December 28, 2014, we had \$132.8 million and \$165.7 million, respectively, in cash and cash equivalents, of which \$74.0 million and \$89.7 million, respectively, was held by foreign affiliates, primarily in South Korea, a portion of which would be subject to additional taxes if repatriated to the United States. The international jurisdictions in which we have significant cash do not have any known restrictions that would prohibit the repatriation of cash and cash equivalents.

We consider the undistributed earnings related to our foreign affiliates as of June 28, 2015 to be permanently reinvested and are expected to continue to be permanently reinvested. Determination of the amount of unrecognized deferred U.S. income tax liability on these undistributed earnings is not practicable because of the complexities associated with this hypothetical calculation. However, if we decide to exit a market, initiate a foreign corporate reorganization or identify an exception to our reinvestment policy of undistributed earnings, additional tax liabilities will be recorded.

During fiscal year 2014, we decided to close 36 underperforming international locations, primarily in South Korea. In connection with the International Restaurant Closure Initiative, we expect future cash expenditures of \$5.0 million to \$7.0 million, primarily related to lease liabilities, through August 2022. We believe our South Korea subsidiary has sufficient cash to meet these obligations and support ongoing operations.

Capital Expenditures - We estimate that our capital expenditures will total between \$225.0 million and \$235.0 million in 2015. The amount of actual capital expenditures may be affected by general economic, financial, competitive, legislative and regulatory factors, among other things, including restrictions imposed by our borrowing arrangements. We expect to continue to review the level of capital expenditures throughout 2015.

On March 31, 2015, we amended our credit agreement to effect an increase of our existing revolving credit facility in order to fully pay down our existing Term Loan B on April 2, 2015. As of June 28, 2015, we had \$225.4 million in available unused borrowing capacity under our revolving credit facility, net of letters of credit of \$29.6 million.

The Amended Credit Agreement contains mandatory prepayment requirements for Term loan A. We are required to prepay outstanding amounts under our term loans with 50% of our annual excess cash flow, as defined in the Amended Credit Agreement. The amount of outstanding term loans required to be prepaid may vary based on our leverage ratio and year-end results. Other than the required minimum amortization premiums of \$15.0 million, we do not anticipate any other payments will be required through the next fiscal year.

<sup>(2) \$215.0</sup> million relates to the refinancing of our Senior Secured Credit Facility, which did not increase total indebtedness.

<sup>(2)</sup> Original facility of \$600.0 million was increased to \$825.0 million in March 2015.

# MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - Continued

The 2012 CMBS Loan requires annual amortization payments ranging from approximately \$8.4 million to \$10.6 million, payable in scheduled monthly installments through March 2017, with the remaining balance due upon maturity in April 2017.

Our Amended Credit Agreement and 2012 CMBS Loan contain various financial and non-financial covenants. A violation of these covenants could negatively impact our liquidity by restricting our ability to borrow under the revolving credit facility and cause an acceleration of the amounts due under the credit facilities. See our Annual Report on Form 10-K for further information about our debt covenants. As of June 28, 2015 and December 28, 2014, we were in compliance with these debt covenants.

Cash Flow Hedges of Interest Rate Risk - In September 2014, we entered into variable-to-fixed interest rate swap agreements with eight counterparties to hedge a portion of the cash flows of our variable rate debt. The swap agreements have an aggregate notional amount of \$400.0 million, a forward start date of June 30, 2015, and mature on May 16, 2019. Under the terms of the swap agreements, we will pay a weighted-average fixed rate of 2.02% on the \$400.0 million notional amount and receive payments from the counterparty based on the 30-day LIBOR rate. See Note 11 - Derivative Instruments and Hedging Activities of the Notes to Consolidated Financial Statements for further information.

## SUMMARY OF CASH FLOWS

The following table presents a summary of our cash flows provided by (used in) operating, investing and financing activities for the periods indicated:

	TWENTY-SIX WEEKS ENDED			
(dollars in thousands)	JU	NE 28, 2015		JUNE 29, 2014
Net cash provided by operating activities	\$	197,427	\$	97,246
Net cash used in investing activities		(89,321)		(101,169)
Net cash used in financing activities		(139,118)		(52,676)
Effect of exchange rate changes on cash and cash equivalents		(1,960)		2,571
Net decrease in cash and cash equivalents	\$	(32,972)	\$	(54,028)

Operating activities - Net cash provided by operating activities increased during the twenty-six weeks ended June 28, 2015, as compared to the twenty-six weeks ended June 29, 2014 primarily due to: (i) timing of collections of gift card receivables, (ii) lower income tax payments, (iii) lower cash interest payments and (iv) timing of payments on accounts payable. These increases were partially offset by: (i) increased purchases of inventory and (ii) an increase in the redemption of gift cards.

Investing activities

Net cash used in investing activities	\$	(89,321)	\$	(101,169)

# MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - Continued

Net cash used in investing activities for the twenty-six weeks ended June 28, 2015 consisted primarily of capital expenditures, partially offset by the following: (i) net proceeds from life insurance policies, (ii) proceeds from the sale of Roy's and (iii) proceeds from the disposal of property, fixtures and equipment. Net cash used in investing activities for the twenty-six weeks ended June 29, 2014 consisted primarily of capital expenditures and net cash paid to acquire certain franchise restaurants.

### Financing activities

	TWENTY-SIX WEEKS ENDED		
(dollars in thousands)	JUNE 28, 2015	JUNE 29, 2014	
Repayments of debt	\$ (396,719)	\$ (733,090)	
Repurchase and retirement of common stock	(100,525)	(799)	
Repayments of partner deposits and accrued partner obligations	(27,231)	(13,909)	
Cash dividends paid on common stock	(14,814)	_	
Distributions to noncontrolling interests	(2,562)	(2,470)	
Financing fees	(1,235)	(4,492)	
Purchase of limited partnerships and noncontrolling interests	(652)	(17,211)	
Proceeds from borrowings	397,336	712,088	
Proceeds from exercise of stock options, net of shares withheld for employee taxes	6,012	6,112	
Excess tax benefits from stock-based compensation	1,272	1,095	
Net cash used in financing activities	\$ (139,118)	\$ (52,676)	

Net cash used in financing activities for the twenty-six weeks ended June 28, 2015 was primarily attributable to the following: (i) repayments of the Term loan B due to the Senior Secured Credit Facility refinancing in March 2015 and voluntary prepayments, (ii) the repurchase of common stock, (iii) repayments of partner deposits and accrued partner obligations and (iv) payment of cash dividends on our common stock. Net cash used in financing activities was partially offset by the following: (i) proceeds from the refinancing of the Senior Secured Credit Facility and revolving credit facilities and (ii) proceeds from the exercise of stock options.

Net cash used in financing activities for the twenty-six weeks ended June 29, 2014 was primarily attributable to the following: (i) repayments of the Term loan B due to the Senior Secured Credit Facility refinancing in May 2014 and voluntary prepayments, (ii) the purchase of outstanding limited partnership interests in certain restaurants, (iii) repayments of partner deposits and accrued partner obligations and (iv) financing fees related to the Senior Secured Credit Facility refinancing. Net cash used in financing activities was partially offset by proceeds from the refinancing of the Senior Secured Credit Facility and proceeds from the exercise of stock options.

## FINANCIAL CONDITION

Following is a summary of our current assets, current liabilities and working capital:

	JUNE 28,	DE	CEMBER 28,
(dollars in thousands)	2015		2014
Current assets	\$ 446,481	\$	600,551
Current liabilities	 702,496		840,110
Working capital (deficit)	\$ (256,015)	\$	(239,559)

Working capital (deficit) totaled (\$256.0) million and (\$239.6) million as of June 28, 2015 and December 28, 2014, respectively, and included Unearned revenue from unredeemed gift cards of \$258.5 million and \$376.7 million as of June 28, 2015 and December 28, 2014, respectively. We have, and in the future may continue to have, negative working capital balances (as is common for many restaurant companies). We operate successfully with negative working capital

# MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - Continued

because cash collected on restaurant sales is typically received before payment is due on our current liabilities, and our inventory turnover rates require relatively low investment in inventories. Additionally, ongoing cash flows from restaurant operations and gift card sales are used to service debt obligations and to make capital expenditures.

### Deferred Compensation Programs

The deferred compensation obligation due to managing and chef partners was \$140.8 million and \$155.6 million at June 28, 2015 and December 28, 2014, respectively. We invest in various corporate-owned life insurance policies, which are held within an irrevocable grantor or "rabbi" trust account for settlement of our obligations under the deferred compensation plans. The rabbi trust is funded through our voluntary contributions. During the twenty-six weeks ended June 28, 2015, we sold \$16.2 million of rabbi trust corporate-owned life insurance policies to settle obligations under the deferred compensation plans. The unfunded obligation for managing and chef partners' deferred compensation is \$80.7 million at June 28, 2015.

We use capital to fund the deferred compensation plans and currently expect annual cash funding of \$18.0 million to \$22.0 million. Actual funding of the deferred compensation obligations and future funding requirements may vary significantly depending on the actual performance compared to targets, timing of deferred payments of partner contracts, forfeiture rates, number of partner participants, growth of partner investments and our funding strategy.

### DIVIDENDS AND SHARE REPURCHASES

In December 2014, the Board adopted a dividend policy under which it intends to declare quarterly cash dividends on shares of our common stock. Future dividend payments are dependent on our earnings, financial condition, capital expenditure requirements and other factors that the Board considers relevant.

The Board approved the 2014 Share Repurchase Program in December 2014. Under the share repurchase program, we were authorized to repurchase up to \$100.0 million of our outstanding common stock. As of June 28, 2015, no shares remain to be repurchased under this authorization.

In August 2015, the Board approved the 2015 Share Repurchase Program under which we are authorized to repurchase up to \$100.0 million of our outstanding common stock. The authorization for the 2015 Share Repurchase Program will expire on February 3, 2017. As of the date of this filing, no shares had been repurchased under the 2015 Share Repurchase Program.

The following table presents our dividends and share repurchases from December 29, 2014 through June 28, 2015:

## **Recently Issued Financial Accounting Standards**

For a description of recently issued Financial Accounting Standards, see Note 1 - Description of the Business and Basis of Presentation of the Notes to the Consolidated Financial Statements of this Quarterly Report on Form 10-Q.

<sup>(1)</sup> Includes the repurchase of \$70.0 million of our common stock in connection with the secondary public offering by Bain Capital in March 2015.

## Item 3. Quantitative and Qualitative Disclosures about Market Risk

We are exposed to market risk from changes in interest rates, changes in foreign currency exchange rates and changes in commodity prices. We believe that there have been no material changes in our market risk since December 28, 2014, except as set forth below. For further information on market risk, refer to Part II, Item 7A., "Quantitative and Qualitative Disclosures about Market Risk," in our Annual Report on Form 10-K for the year ended December 28, 2014 (the "2014 Form 10-K").

### Foreign Currency Exchange Risk

We are subject to foreign currency exchange risk for our restaurants operating in foreign countries. Our exposures to foreign currency exchange risk are primarily related to fluctuations in the Brazil Real and the South Korea Won relative to the U.S. dollar. Our operations in other markets consist of Company-owned restaurants on a smaller scale than the markets identified above and franchised locations, from which we collect royalties in local currency. If foreign currency exchange rates depreciate in the countries in which we operate, we may experience declines in our operating results. For the twenty-six weeks ended June 28, 2015, a 10% change in average foreign currency rates against the U.S. dollar would have increased or decreased our Total revenues and Net income for our consolidated foreign entities by \$28.3 million and \$1.4 million, respectively. Currently, we do not enter into currency forward exchange or option contracts to hedge foreign currency exposures.

### Item 4. Controls and Procedures

#### **Evaluation of Disclosure Controls and Procedures**

We have established and maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial and Administrative Officer, as appropriate to allow timely decisions regarding required disclosure. We carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial and Administrative Officer, of the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report. Based on that evaluation, the Chief Executive Officer and Chief Financial and Administrative Officer concluded that our disclosure controls and procedures were effective as of June 28, 2015.

## **Changes in Internal Control over Financial Reporting**

There have been no changes in our internal control over financial reporting during our most recent thirteen weeks ended June 28, 2015 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## PART II: OTHER INFORMATION

## Item 1. Legal Proceedings

For a description of our legal proceedings, see Note 14 - Commitments and Contingencies, of the Notes to the Consolidated Financial Statements of this Quarterly Report on Form 10-Q.

## Item 1A. Risk Factors

In addition to the other information discussed in this report, please consider the factors described in Part I, Item 1A., "Risk Factors" in our 2014 Form 10-K which could materially affect our business, financial condition or future results. There have not been any material changes to the risk factors described in our 2014 Form 10-K, but these are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may adversely affect our business, financial condition or operating results.

### Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

There were no sales of equity securities during the second quarter of 2015 that were not registered under the Securities Act of 1933.

The following table provides information regarding our purchases of common stock during the thirteen weeks ended June 28, 2015:

REPORTING PERIOD	TOTAL NUMBER OF SHARES PURCHASED (1)	-	AVERAGE PRICE PAID PER SHARE	TOTAL NUMBER OF SHARES PURCHASED AS PART OF PUBLICLY ANNOUNCED PLANS OR PROGRAMS	PPROXIMATE DOLLAR VALUE OF SHARES THAT MAY YET BE PURCHASED UNDER THE PLANS OR PROGRAMS (2)

Total	1,382,551			1,370,123	

<sup>(1)</sup> The Board authorized the repurchase of \$100.0 million of our outstanding common stock as announced publicly in our press release issued on December 16, 2014 (the "2014 Share Repurchase Program). No additional shares may be repurchased under the 2014 Share Repurchase Program. Common stock purchased during the thirteen weeks ended June 28, 2015 represented shares repurchased under this program in open-market transactions and 12,428 shares withheld for tax payments due upon the vesting of employee restricted stock awards.

<sup>(2)</sup> The Board authorized the repurchase of \$100.0 million of our outstanding common stock as announced publicly in our press release issued on August 4, 2015 (the "2015 Share Repurchase Program"). The authorization for the 2015 Share Repurchase Program will expire on February 3, 2017. As of the date of this filing, no shares had been repurchased under the 2015 Share Repurchase Program.
